I. NEPOTISM

University employees shall not be immediate supervisors to their relatives. Relatives include parents, spouses, children, siblings (or the foregoing as in-laws), domestic partners, grandparents, grandchildren, uncles/aunts, nephews/nieces, and first cousins. Employees who find themselves in a work situation that conflicts with the foregoing statement shall have the remainder of the fiscal year to work with UW Administration to find alternative solutions, which may involve changes in the lines of supervision for their relatives.

Employees shall recuse themselves from formal discussions, votes, and/or decisions affecting the appointment, tenure, promotion, performance evaluation or other personnel status of a relative as defined above.

No provision of this section shall be interpreted or applied to prevent the hiring, admission to degree candidacy, or award of a scholarship, fellowship, or graduate assistantship to a person who is a relative of any employee of the University or of the Trustees. Nor shall this Regulation bar any employee from (1) reporting concerns about sexual harassment, discrimination, procedural violations, or other inappropriate workplace behavior; (2) inquiring about the possibility of University employment for a family member; or (3) seeking supervisory positions and discussing alternatives for managing family-related conflicts of interest.

II. COMPENSATION

A. Salary Payment

The base salary for most faculty and academic professionals is for work performed during the academic year, defined as the period beginning with the first day of the Fall semester registration and ending with Spring semester commencement. The base salary for faculty performing administrative duties and other duties beyond the usual academic assignments and for most other salaried staff employees is for work performed during the fiscal year.

All base salaries shall be paid in twelve (12) monthly installments except as specified in UW Regulation 5-173, Regulations Governing Vacation, Sick Leave, and Compensation for Faculty and University Officer. The University shall take any required deductions from salary payments for federal withholding taxes, social security, retirement, and for such additional purposes as may be authorized by the individual, or as required by law.
B. Supplementary Compensation

1. From Funds Disbursed Through the University

Full-time employees during their regular terms of service shall not have their salaries supplemented from University grants, contracts, or other University sources except for:

a. Employment in extension classes, noncredit programs, and similar activities scheduled through adult education programs.

b. Occasional employment at University-sponsored events such as ticket selling at athletic events, or similar duties.

c. Overtime payments when required by the employee contract or by applicable state or federal law.

d. Employment as part-time instructor, lecturer or professional employee, where the appointing department, with the approval of the employee’s vice president or administrative officer, determines that:

   (1.) The employment will not interfere with the performance of the employee's regularly assigned duties;

   (2.) The part-time duties to which the employee is assigned on a supplementary basis require instructional or professional expertise that is not available through regularly appointed academic personnel or professional employees or through part-time appointment of non-University personnel;

   (3.) The supplementary assignment does not exceed the equivalent of one regularly scheduled three-hour credit course in any calendar year; and

   (4.) The supplementary assignment is not recurring and is not in addition to the maximum time allowed for consulting as outlined below.

e. Employment on grants, contracts and similar University-funded activities where the work is in addition to the individual's regularly assigned duties under limited conditions and for a limited period of time. Such employment may be approved when:

   (1.) The essential services cannot be provided by persons employed or receiving salary support under the grant;

   (2.) It is not possible to relieve the employee of part of usual duties;
(3.) The project is one for which another department has principal responsibility; and

(4.) The overload will not exceed twenty (20) days per academic year or twenty-four (24) days per fiscal year as determined by the employee's period of appointment and shall not be in addition to the maximum time allowed for consulting as outlined below.

f. When approved by the appropriate University authorities, full-time employees on academic year appointments may earn up to one-third (1/3) of their base salary for services rendered during the period from Spring commencement to Fall reporting date.

g. When approved by the appropriate University authorities, employees who have been granted a sabbatical leave may receive compensation from sponsored research grants and contracts awarded to the University, up to a maximum of forty (40) percent of their approved academic year salary, if funding from the grant or contract is an integral component of the sabbatical proposal.

2. From Funds Disbursed by State Agencies

The University recognizes its obligation to make its resources available to state agencies; however, the costs of such services are not included in the University budget and must, accordingly, be covered by funds from the agencies or from other non-University sources. The performance of professional and consulting work by a University employee for any Wyoming State agency shall, in general, be covered by the regulations that cover work for other outside agencies, i.e., the employee must obtain approval of the appropriate University officers and adhere to the maximum period for which additional compensation may be accepted. When an employee's services are required for a longer period, the University will make every effort to release the individual to the state agency for the time required with appropriate salary adjustment to be made between the agency and the University.
III. CONSULTING

A. Requirements

During the period of full-time University employment, academic personnel, athletic coaching and training personnel, and University officers may, with prior approval of the President or the President's designee, perform professional and consulting work with or without compensation. A determination that the following requirements have been met shall be made by the appropriate dean, director or principal University officer. The President of the University shall receive notification of each request prior to initiation of the professional or consulting work.

1. The commitment to professional and consulting work shall not normally exceed thirty-nine (39) calendar days per academic year for academic year employees and forty-eight (48) calendar days per fiscal year for fiscal year employees.

2. The work must not interfere with the employee’s University duties and must be in addition to, rather than a part of, the employee’s full-time University duties. Such work must also be related to the employee's duties and must contribute to the effectiveness of the employee's work.

3. When academic personnel or University officers perform professional and consulting work, they must furnish written statements signed by the employee and the client(s) attesting that the efforts are independent of the employee’s University employment and any affiliation thereto, that the University will be held harmless in relation to any product thereof, and that the University is not to be connected with the results and may not be involved in publicity, advertising or other activities related to the work, except for publication of scholarly works. In those instances where client confidentiality is a necessary and customary practice of the profession, the academic personnel member or University officer shall furnish assurance that such signed, written statements are maintained in the member's or officer's client file.

B. Competition with the Private Section

When engaging in outside work, University personnel shall not unreasonably compete with the private sector.

C. Use of University Facilities

The facilities of the University may not be used for outside work without the recommendation of the appropriate dean or director and approval of the Vice President for Administration, who shall establish the compensatory schedule for facilities used.
D. Scope

This Regulation shall not apply to work which

1. Does not involve use of University facilities;
2. Does not represent the University; and
3. Is performed outside an individual's overall commitment of time and effort to the University, or conducted during approved vacation or leave without pay.

Paid professional or consulting activities undertaken outside the employee's overall commitment to the University will be disclosed to the appropriate dean, director, or University President.

E. Conflict of Commitment

Failure to comply with this Regulation shall constitute a conflict of commitment and shall be cause for disciplinary action, up to and including termination.

IV. CONFLICT OF INTEREST/CONFLICT OF COMMITMENT

A conflict of interest exists when an employee has an external interest that affects or provides an incentive to affect the employee’s conduct of his/her University activities.

A conflict of commitment exists when an employee renders professional service that is not part of his/her duties to the University to the detriment of his/her obligations to the University. A conflict of commitment arises when professional service or research contracted for outside the University, consultations, or other outside activities (e.g., outside teaching or business) of an employee interferes with the paramount obligations to students, colleagues and the primary missions and policies of the University. Conflicts of commitment primarily involve questions of obligation and effort, but are often tied to financial remuneration or other inducements and, in such cases, may also constitute conflicts of interest.

Conflicts of interest and conflicts of commitment may constitute a breach of the employment contract and, if not properly disclosed and eliminated, or managed in accordance with University policies, will result in appropriate sanctions, up to and including termination.

V. MILITARY LEAVE

Employees are eligible for a leave of absence from the University to serve in the armed forces during a period of national or state emergency or for training.
A. **Active Duty for War or National or State Emergency**

Employees who have been employed for eleven (11) months who leave the University for active duty with the armed forces, voluntarily or involuntarily, during a state of war or declared national or state emergency will be given a leave of absence without pay. Application for such leave must be made to the employee's immediate supervisor and transmitted through regular channels to the President for approval by the Trustees. The time spent in national or state service shall count toward University retirement.

B. **Active Duty for Training**

Employees eligible for vacation privileges may have an additional fifteen (15) working days leave with pay per calendar year for active duty for training in addition to any other leave or vacation with pay to which the employee is entitled.
