UNIVERSITY OF WYOMING Accelerated Nursing Program Report October 2016

[Pursuant to W.S. 21-17-122(c) and (f)] To the Joint Labor, Health and Social Services Interim Committee

Program Overview

The Fay W. Whitney School of Nursing at the University of Wyoming offers an accelerated baccalaureate program preparing prior non-nursing baccalaureate degree students for the Bachelor of Science in Nursing degree to enable them to become a registered nurse. This program, started in the summer of 2008, is called BRAND (Bachelors Reach for Accelerated Nursing Degree) and takes 15 months to complete.

The State of Wyoming Legislature established an educational loan repayment program for accelerated students in the BRAND program in 2009 (W.S. 21-17-122). Under this statute the University of Wyoming was authorized to provide five loans annually of up to \$25,000 each for full-time students enrolled in the BRAND program, although the BY15-16 funding allows for nine loans during each biennium, instead of ten. The funding is divided over a four-semester period. Students receiving support from the state are obligated to engage in professional practice as a registered nurse for two years in Wyoming or repay all amounts expended by the state for their education.

Required Report

W.S. 21-17-122 (c) – Under this provision, the University's Board of Trustees, upon the recommendation of the President of the University, may relieve a student from repayment of a loan provided under this section for undue hardship. The provision requires the University to report to the Joint Labor, Health and Social Services Interim Committee the number of students who have been relieved of the obligation to repay the loan.

W.S. 21-17-122 (f) - On or before October 1 of each year, the university shall submit a report to the committee on expenditures from the account during the prior fiscal year. Funds from students who repay their loans flow into this account. Currently, four students are in the grace period and ten students are paying with service in Casper, Cheyenne, Evanston, Jackson, and Torrington.

Loan Repayment Update

State funding for the previous biennium totaled \$225,000, which was sufficient to support nine students during a two-year period. For FY2015, four (4) students were supported, receiving their loans over the course of the 2014-15 academic year. During FY2016, a total of five (5) awards were given.

Forty students have been supported by the BRAND loan payment program since it was established. The table below summarizes the current status of those students/graduates as of

August 30, 2016. No students have been relieved of their obligation to repay the loan. Currently, no students are repaying the loan in cash rather than in professional service to the state, although one student who did not complete the program has completely repaid her partial loan. However, since it was only a partial loan the funds available in the repayment account are not enough to provide support to any additional students at this time. One student has enrolled in the Doctor of Nursing Practice program at UW (labeled as "re-enrolled" on the table below), so the loan has been deferred while the individual is in school.

Status	Home Town	City of Practice
Completed	Casper	
Completed	Jackson	Jackson

Principle repayment 2015	(5,626.66)	
Principle repayment 2016	(1,862.51)	
Total Loans Repaid		(7,489.17)
Loans-Rec Student	[362,076.55

Summary

The BRAND Program has been quite successful and is accomplishing its goals. The State of Wyoming and health care employers are experiencing the impact of the loan repayment program. All graduates who have received loans have either completed their payback with service in Wyoming (20 graduates), repaid the loan in cash (1 student who, as noted earlier, did not complete the program) or are in the process of paying back the loan through service in the state (10 graduates). As you can see from the 3rd column in the table above, a variety of Wyoming cities have benefited by a BRAND graduate, including Sheridan, Cody, Buffalo, Lander, Douglas, Jackson, Evanston, Torrington and Green River.

The BRAND graduates are also high quality nurses. They do very well with an NCLEX (national nursing licensure examination) pass rate of between 86% to 94% over the last 5 years. Moreover, the BRAND program attracts a diverse student pool with an increasing number of men and women of color graduating from the program. The BRAND program has a solid record (see above) of retaining graduates in the state and increasing the number of loans could be a key part of addressing the pressing nursing shortage in Wyoming.
