HAUB SCHOOL OF ENVIRONMENT AND NATURAL RESOURCES

Students must apply for admission to the joint JD/MA degree in Environment & Natural Resources.
Contact haub.school@uwyo.edu for more information about the program and about the application process.

JD/MA Environment & Natural Resources — MA Coursework - 30 credit hours

CORE (9 credit hours)

- ○ Approaches to Environmental Problem-Solving ENR 5000
- ○ Environmental Assessment ENR 5900
  - Domestic focus
  - International focus

Complete the following, for a total of 3 credits:

- ○ ENR Internship 1 credit
- ○ ENR Plan B Thesis 2 credits

ENR ELECTIVES (9 credit hours)

Choose 3 elective courses, 1 from each category (see reverse):

- ○ Human Dimensions
- ○ Environmental Science
- ○ Quantitative & Qualitative Methods

COLLEGE OF LAW ELECTIVES (12 credit hours)

12 credits include (but are not limited to):

- ○ Administrative Law LAW 6510
- ○ Environmental Law LAW 6660
- ○ Native American Natural Resource Law LAW 6735
- ○ Mining Law LAW 6780
- ○ Oil & Gas Law LAW 6790
- ○ Public Lands LAW 6800
- ○ Water Rights LAW 6860
- ○ Natural Resources Law LAW 6865
- ○ Land Use Law LAW 6890
- ○ Seminar: Endangered Species Act LAW 6910
- ○ Seminar: Advanced Water Rights LAW 6910
- ○ Environmental Policy - Topics LAW 6915
- ○ Energy & Climate Policy - Topics LAW 6915
- ○ International Oil & Gas Law - Topics LAW 6915

Plan B Thesis Project

All students earning the MA in ENR must complete a Plan B thesis project. All Plan B projects must have a research component that leads to original thought, synthesis, or integration of relevant elements of legal scholarship with issues pertinent to environmental or natural resource management. The form of Plan B projects is flexible. Please visit the Graduate Student Regulations & Policies page on the Office of the Registrar website, www.uwyo.edu/registrar/University_Catalog/grad_students.html, for more information.

The Plan B project will be written over the course of the student's academic program, typically beginning in year two of law school. All Plan B projects must be negotiated by the student and her/his MA advisor and MA committee (composed of at least three members, with representatives from the Haub School, College of Law, and other non-Law UW faculty). Each student will complete benchmarked tasks on a determined timeline, in consultation with his/her MA advisor and committee chair.

Learning Outcomes

Graduates of the Haub School of Environment and Natural Resources will

- be conversant across a range of fields of environmental significance, spanning science and technology to human dimensions of natural resources;
- understand and evaluate the relationship of their disciplines to other relevant ENR fields; and
- produce discourse, scholarship, and practical solutions that address the complexity of ENR challenges.

Example Courses

*course offerings vary by semester

ENR ELECTIVES - 3 courses (1 from each category)

Human Dimensions

Water Resource Economics AGEC 4720
Natural Resource Management on Reservations AIST/GEOG 4340
Ecology of Knowledge AMST 5030
Historic Preservation AMST/HIST 5800
Natural Resource Economics ECON 4410
Writing for Non-Profits ENGL 4075
Environmental Anthropology ENR/ANTH 5310
Economics of Natural Resource Scarcity ENR 5890
Leadership in Natural Resource Management ENR 5950
Textile Industry & Environment FCSC 4182
Foundations of Sustainable Planning GEOG 5310
Rural & Small Town Planning GEOG 5390
Contested Landscapes GEOG 5574
Food, Health & Justice HLED 5020
Food Systems & Health HLED 5586
Energy Economics & Policy MBAM 5501
Place-based Learning NASC 5650
Issues in Environmental Ethics PHIL 5340
Sustainable Agriculture PLNT 5020
Ecofeminism WMST 5450

Environmental Science

Conservation Biology BOT/ZOO 4420
Forest Ecology BOT/RNEW 5775
Biogeochemistry BOT 5780
Winter Ecology ENR 4010, 4011 & 4012
Remote Sensing of Rivers GEOG 5450
Range Resource Management REWM 5000
Wildland Hydrology REWM 5285
Rangeland Restoration Ecology REWM 5580
Wildlife Ecology & Management ZOO 5300

Quantitative & Qualitative Methods

Environmental Data Analysis ENR/GEOG 5525
Negotiation ENR 5450
Risk Analysis ENR 5500
Negotiation Analysis ENR/AGEC 5550
Applied GIS ENR 5890
Remote Sensing of the Environment GEOG 5111
Quantitative Modeling Landscape Ecology REWM 5610
Remote Sensing for Agricultural Management RNEW 5130
Statistical Methods for Agriculture & Nature STAT 5080
