

**Greys River Forest Collaborative
22 June 2017, The Armory, Afton
Workshop 5**

MAIN OBJECTIVE OF THIS MEETING: Finalize Recommendations to the USFS that meet the below interest statements in relation to four identified focus areas.

Interest Statements. A Healthy Forest in the Greys River:
1. Has healthy vegetative, wildlife and hydrological communities, and is resilient and resistant to disturbance.
2. Provides a variety of jobs and economies.
3. Needs to be understood by the public and supported through governance and active management.
4. Provides multiple uses.
5. Is safe for all visitors including recreationists and USFS employees.
6. Provides many social benefits including quality of life, aesthetics and sense of place now and in the future.

Objectives of this Meeting

- Finalize Recommendations regarding four focus areas
- Plan field trip(s).
