

First Look at WyoCloud Human Capital Management System May 24

To prepare the University of Wyoming campus community for WyoCloud Human Capital Management (HCM), the WyoCloud team will host “deep dive” sessions throughout the summer to provide live demonstrations of the new HCM system and answer employee questions.

The first WyoCloud HCM “deep dive” session is Thursday, May 24, from 1:30-3:00 p.m. in the Wyoming Union West Ballroom. The new system will prepare campus users for the June release of the Employee LearnCenter, UW’s new training platform for WyoCloud and Human Resource courses.

For a preview of the first WyoCloud “deep dive” session and what to expect, click [here](#).

The Thursday WyoCloud subject matter experts will provide system demonstrations, details on the release timeline and available training for the Employee LearnCenter. Additionally, the WyoCloud team will share information about next year’s annual performance evaluation process and the timeline for transitioning employee hires from HRMS to WyoCloud HCM leading up to the October release.

For remote employees, the session is available through the WyoCast system at <https://wyocast.uwyo.edu/WyoCast/Play/8812473e552f425a8ceda8475a6831191d>. All HCM “deep dive” sessions will be available through WyoCast and posted on the [WyoCloud website](#) after each session.

For more information about the WyoCloud project, visit www.uwyo.edu/wyocloud or email the WyoCloud team at wyocloud@uwyo.edu.
