

Finding Promotional and Transfer Job Opportunities at UW

As a current University employee you have a different type of access to view available promotional and job transfer opportunities. To ensure you are viewing both externally and internally posted jobs: login, review and apply to jobs through HRMS Employee Self Service.

You can access Employee Self Service by navigating to [WyoWeb](#). Employee Self Service can be found under Faculty and Staff Resources:

Once logged into HRMS via Self Service, click Main Menu→Self Service→Recruiting Activities.

Here you have the option to explore all of our benefited and non-benefited job openings as an employee. As you may know, if you are trying to access Self Service off-campus you will need to use [Two-Factor Authentication](#) or [Pulse Secure](#).

If you have any questions about applying for jobs please reach out to Human Resources at 766-2377. Please do not use Safari or Google Chrome to apply, instead use Firefox or Internet Explorer. If you experience troubles with off-campus access to Self Service, please contact Information Technology at 766-HELP.
