

HLED 4020/5020-40 (online), 3 credits

## **Food, Health & Justice**

Fall 2021

### **Food sustains us.**

Yet food is also killing us, whether from too much, too little, the wrong kinds, and how we produce it.

This course maps how current *food systems* affect *public health* and *social justice* in the US.

No graduate prerequisites. Undergraduate prerequisites are a COM2, GPA  $\geq 2.75$ , and a commitment to do all the readings. Multiple disciplines are very welcome! Counts for ENR, the sustainability minor, and (for the 5020 version) a concentration in a hopefully forthcoming graduate certificate in community & public health.

The course is offered online, asynchronously (i.e., no class meetings).

**Instructor: Dr. Christine M. Porter** [christine.porter@uwyo.edu](mailto:christine.porter@uwyo.edu)
