Practice Guide for Test 1

The First Test will take place on Monday, March 7, 2016, during class time. Topics covered may include any content from class lectures, Chapters 1-5 of the textbook, and all class handouts.

The textbook contains many exercises suitable for practice, together with solutions. All of these are useful preparation, and the only true way to gain an understanding of the subject; but you should postpone harder problems designated by (+) or (++) until you have mastered the easier problems.

Suggested Additional Practice Problems

Chapter 1 exercises (p.9): #1,2,10,13
Chapter 2 exercises (p.28): #2,3,5,7,14.
Chapter 3 exercises (p.49): #1,2,3,8,9,12,13
Chapter 4 exercises (p.76): #1,4,8,9,17,26,27
Chapter 5 exercises (p.105): #1,2,3,11,14,32
