PROGRAM OF STUDY

RN-BSN COMPLETION PROGRAM – BACHELOR OF SCIENCE IN NURSING

This program of study is being phased out and delivered only to current students and applicants seeking readmission with anticipated graduation no later than Fall 2018.

The new RN-BSN coursework begins summer 2018.

Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.

REQUIRED USP COURSES FOR ADMISSION

The following USP courses are required for formal FWWSON admission that may be met with transfer coursework. Grades of C or better are required.

- An approved (COM1) course ........................................ 3
- An approved (COM2) course ........................................ 3
- Quantitative Reasoning (Q) (MATH 1400, MATH 1405 or MATH 1450) ........................................ 3

Total USP Hrs. 9

REQUIRED PREREQUISITE COURSES – PHCY 4450

In addition to KIN/ZOO 2040/2041 and 3115, the following USP courses are required prerequisites for taking PHCY 4450 that may be met with transfer coursework. Grades of C or better are required.

- LIFE 1010 – General Biology (PN) .................................. 4
- CHEM 1000 – Introductory Chemistry (PN) or CHEM 1020 – General Chemistry (PN) .......................... 4

Total USP Hrs. 8

CORE COURSES

Students are encouraged to complete core courses before taking nursing major component courses. The cumulative NGPA is based on completed core courses; 2.50 minimum is required for School of Nursing admission. Grades of C or better are required and individual course may be repeated only once. A total of four core courses may be repeated.

- STAT 2050 or 2070 – Statistics (Q) .......................... 4
  Prereq: Grade of C or better in MATH 1000 or 1400
- PSYC 1000 - General Psychology (H) .......................... 3
- KIN/ZOO 2040/2041 - Human Anatomy .......................... 4
- KIN/ZOO 3115 - Human Systems Physiology (*see Notes) ... 4
- An approved Microbiology course .......................... 4
- PHCY 4450 – Pathophysiology (**see Notes) .................. 4
  Prereq: LIFE 1010, CHEM 1000 or 1020, KIN 2040/2041 and KIN/ZOO 3115
- PHCY 4470 – Pharmacology (**see Notes) .................. 4
  Prereq: PHCY 4450

Total Nursing Major Hrs. 22

CORE COURSES, continued

- NURS 3005 – Scholarly Approaches to Online Learning ...... 1
  Prereq: Current RN license or concurrent enrollment in WY ADN education program or graduate of WY ADN education program
- NURS 3015 – Introduction to Baccalaureate Nursing ......... 3
  Prereq: Current RN license or concurrent enrollment in WY ADN education program or graduate of WY ADN education program; NURS 3005 or concurrent enrollment

Total Core Hrs. 31

NURSING MAJOR COMPONENT

Students must be formally admitted to the nursing major to take these courses. The cumulative NGPA is based on core and nursing major courses; 2.50 minimum is required for School of Nursing progression. Grades of C or better are required and individual course may be repeated only once. A total of two nursing major courses may be repeated.

- NURS 3020 - Cultural Diversity in Family Health Care .................................................. 3
  Prereq: NURS 3015 or concurrent enrollment
- NURS 3045 – Health Assessment in Nursing Practice .......... 3
  Prereq: NURS 3015 or concurrent enrollment
- NURS 3630 - Health Promotion .................................. 4
  Prereq: NURS 3015, 3020 and 3045 or concurrent enrollment
- NURS 4055 – Application of Evidence in Nursing Practice (COM3) ...................................... 3
  Prereq: QA or Q, STAT 2050 or 2070, COM1 and COM2, NURS 3630 or concurrent enrollment
- NURS 4145 – Public/Community Health Nursing ......... 3
  Prereq: NURS 3630 or concurrent enrollment
- NURS 4255 - Nursing Leadership .................................. 3
  Prereq: WA and WB or COM1 and COM2, NURS 3630 or concurrent enrollment
- NURS 4985 – RN-BSN Capstone Project...................... 3
  Prereq: All required courses in the nursing major, NURS 4255 or concurrent enrollment, current RN license

Total Nursing Major Hrs. 22

PROGRAM OF STUDY

RN-BSN COMPLETION PROGRAM – BACHELOR OF SCIENCE IN NURSING

Note: Course requirements/expectations are subject to change. Maintain contact with FWSSON for current expectations.

REQUIRED USP COURSES FOR GRADUATION

The following are additional USP degree requirements needed for graduation that may be met with transfer coursework.

First-Year Seminar (FYS) (met with 30+ post high school tfr hrs) 3
Human Culture (H) (In addition to PSYC 1000 (H), a second approved H course is required) .................................................. 3
Physical and Natural World (PN) (if not met by LIFE 1010 and CHEM 1000 or CHEM 1020) ............................................................. 6
U.S. & WY Constitutions (V) ............................................................. 3

ESCROW COURSES

- The following credits represent credit for nursing content learned in the ADN/Diploma in Nursing Program and may be applied to UW 42 upper division credit hour requirement.
- The following credits are automatically posted to the student’s UW transcript based on completion of NURS 3630, documentation of RN licensure and transcript verifying graduation from ADN or Diploma in Nursing Program.

NURS 3440 .............................................................................. 3
NURS 3475 ............................................................................. 4
NURS 3840 .............................................................................. 3
NURS 3842 .............................................................................. 3
NURS 3844 .............................................................................. 3
NURS 3875 ............................................................................. 4
NURS 4442 .............................................................................. 4

**Total Escrow Hrs.** 24

MINIMUM HOURS REQUIRED FOR DEGREE 120

NOTES

*Lower division/Community College level Human Physiology courses may substitute for KIN/ZOO 3115 (Human Systems Physiology).
**The required core courses, PHCY 4450 (Pathophysiology) and PHCY 4470 (Pharmacology), must be upper division (3000/4000 level).
Lower division/Community College level courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

UW Residency requirement – All students must meet a minimum of 30 upper division (3000/4000 level) credit hours earned from UW.

UW Upper Division requirement – First degree seeking bachelor students must meet a minimum of 42 upper division (3000/4000 level) credit hours earned from UW or transfer coursework.

Students transferring with an AA, AS or AB degree from a Wyoming Community College (spring 2001 or later) or students transferring with an ADN degree from a Wyoming Community College (spring 2015 or later) will be granted Wyoming Core. The USP 2015 requirements are met with the exception of the FYS and COM3 requirements. The FYS requirement may be waived based on verification of high school graduation date and 30+ post high school transfer credits.

Students transferring with an AA or AS degree from specific Colorado, Kansas and Nebraska colleges (spring 2012 or later) or students transferring with an AA or AS degree from a community college outside of Wyoming (spring 2015 or later) will be granted Community College Core. The USP 2015 requirements are met with the exception of the FYS, V and COM3 requirements. The FYS requirement may be waived based on verification of high school graduation date and 30+ post high school transfer credits.

The FYS requirement can be waived without verification of high school graduation date for students with 90+ transfer credits.

For students with a prior bachelor’s degree, the USP requirements are waived with the exception of the V requirement.

All students who earn Wyoming Core, Community College Core or have a prior bachelor’s degree are held to MATH 1400 for admission, core courses, nursing major courses and UW Residency requirement.

The number of students admitted to RN-BSN Completion may be limited based on School of Nursing resources. Applicants meeting minimum requirements are not guaranteed admission to the major. Re-entry to this option is dependent upon space availability.
