The Department of Petroleum Engineering at the University of Wyoming seeks outstanding candidates to fill several fully-funded Ph.D. candidate positions. This department was recently ranked among the top 10 Petroleum Engineering programs in the U.S. and has ambitious plans for playing an important role in the future of the energy systems.

Selected candidates will be expected to work on both experimental flow systems and carry out computational research. Students with solid background in petroleum, civil, chemical, or mechanical engineering, as well as computer science, applied physics/mathematics or statistics are encouraged to apply.

Applicants for the positions should have an MS/BS degree and should apply here: [http://www.uwyo.edu/petroleum/graduate/prospective/apply.html](http://www.uwyo.edu/petroleum/graduate/prospective/apply.html)

With the online application, each applicant will need to upload the following documents:

(i) A personal statement of purpose, including a description of their research interest area(s);

(ii) Current resume or curriculum vitae;

(iii) Three professional or academic references, including email addresses;

(iv) Unofficial copies of both graduate and undergraduate transcripts; and

(v) GRE and TOEFL/IELTS test results.

Once you have completed the online application and submitted all required materials, please notify Dr. Pejman Tahmasebi via email @ pejman@caltech.edu of your application status.
