

# School of Pharmacy *Scholarship Profile*

**Ashley Lopez**  
Class of 2018  
Laramie, WY

## Student Bio

Ashley was born and raised in Laramie, Wyoming. She says "this has always been my home and having such a great pharmacy program has made me appreciate this town even more. When I started college right out of high school I wasn't sure what I wanted to do but I knew one thing, that I am a very curious, inquisitive person. I love learning how things work, which also makes me love science. Learning about astronomy, biology and chemistry was great but I also knew that I wanted to do something that would help people. So the idea of pharmacy was everything I was looking for in an educational and professional career."

Ashley loves having a small class where the students all help each other out. She says "we have all become very close and we struggle together and we celebrate together and that is something not many college students get to experience. The School of Pharmacy faculty is amazing as well, I have learned so much from every one of the instructors and the administrative faculty has been amazing in keeping me on track and providing tremendous support." She also credits her family for the support and encouragement they provide.

After pharmacy school Ashley hopes to find a community or hospital pharmacy position in Laramie.

## Kmart Scholarship for Excellence in Community Pharmacy

Established in 1998, this endowed scholarship provides support to students in their second, third, or fourth years who meet an established academic standard and are currently employed in a community pharmacy, with preference given to Kmart associates and their families.
