POLS 1000-01: American and Wyoming Government  
Spring 2017  
10:00-10:50 MW, AG Auditorium

American and Wyoming Government is an introduction to the governmental systems of the United States and Wyoming, focusing on the various political institutions, processes, and actors. Topics of discussion include the U.S. and Wyoming Constitutions; the roles of political parties and interest groups in the political process; the selection of public officials; the structure of Congress and the legislative process; the powers and responsibilities of the president; Supreme Court decision-making; and interpretations of the Bill of Rights. Current events in American and Wyoming government and politics are used to illustrate how the political system operates.

POLS 1000 fulfills the United States and Wyoming Constitutions (V) requirement of the 2003 University Studies Program. U.S. and Wyoming Constitution (V) courses provide students with an understanding of the historical development, cultural context and major principles of the constitutional documents and the political systems established by those documents. V courses
also provide students with understandings of the relationships between the political institutions through which they are governed and their roles as responsible participating citizens.

Communication with students will be through their UW email accounts (suffix: “uwyo.edu”). When contacting me via email, please type “POLS 1000” in the subject line.

Texts

Students are expected to obtain these texts and to remain current with the assigned readings.

Students are expected to follow current events in American politics through reading a daily newspaper (in print or online), watching television news, or through other media. Class discussion is encouraged. Please feel free to raise questions concerning the readings, lectures, or current events. However, I reserve the right to restrict in-class discussions if necessary to meet other course objectives.

Grading

Grades for this course will be based on three criteria:

1. **Examinations (300 points)**. The first criterion includes three examinations, each covering roughly one-third of the lectures and readings, and worth 100 points. Each exam is multiple-choice in format and constructed to give equal weight to lectures and the texts. The dates of the exams:
   
   Exam 1: February 22 (normal class time)
   
   Exam 2: April 3 (normal class time)
   
   Final exam: Wednesday, May 10, 10:15 a.m.

   **Do not** make early travel plans as final exams will not be given at any other time except in cases of illness, personal emergency, or travel associated with UW-sponsored activities. Read with care the section “Examination Procedures” (below). The regulations stipulated in that section will be enforced.

2. **Constitution Quiz (20 points)**. The second criterion for course grades is a quiz on the U.S. Constitution that is administered in discussion on Friday, February 3. Included with this
sylabus is a list of 25 questions on various provisions of the U.S. Constitution (pp. 8-9). You should read the Constitution and answer the questions. The quiz will consist of 10 questions drawn from that list.

3. Discussion Activities. The final component of course grades is the set of assignments made by the teaching assistant responsible for your discussion section. These assignments will total 80 points. Your teaching assistant will provide specific information at the first meeting of your discussion section.

Final grades for the course will be based on the total number of points earned on the three examinations and discussion-section assignments relative to the following scale:

- 372 – 400 points = A
- 360 – 371 points = A-
- 352 – 359 points = B+
- 332 – 358 points = B
- 320 – 331 points = B-
- 312 – 319 points = C+
- 292 – 311 points = C
- 280 – 291 points = C-
- 272 – 279 points = D+
- 240 – 271 points = D
- 0 – 239 points = F

Extra Credit

Extra credit can be earned by attending designated lectures or speeches presented by visitors to campus and submitting a brief critique. Lectures and speeches that qualify for extra credit will be announced in class. Critiques should be two pages in length (typed, double-spaced), summarize the speaker’s main points, and offer an assessment of the speech. Papers must be submitted within 15 days of the lecture or speech, and will be graded on content (for example, are the speaker’s points accurately represented?) and grammar. Ten points can be earned for each paper. Merely submitting the paper does not guarantee ten extra points; poorly written papers will receive lower scores. Each student may submit a maximum of two extra credit papers during the semester.

Academic Dishonesty

University regulations concerning academic dishonesty are strictly enforced. University Regulation 6-802 § 4-A defines academic dishonesty to include:

- Plagiarism: presenting the work of another, wholly or in part, as one’s own work.
- Cheating:
  - Using notes or prepared information in an examination unless authorized by the instructor.
  - Taking an examination for someone else or allowing someone to take an examination for oneself.
  - Copying from, or assisting, another student during an examination.
  - Stealing, or otherwise improperly obtaining, copies of an examination before or after its administration.
- Multiple submissions: submitting, wholly or in part, the same academic endeavor to earn credit in two or more courses without explicit approval by all concerned instructors.
• Interference or Obstruction: interfering with academic efforts of other students to gain unfair advantage for personal academic advancement, including harassment, tampering, bribery, and intimidation of another student.
• Fraud: impersonating someone or allowing oneself to be impersonated for an exam.
• Complicity: assisting another person in any act of academic dishonesty as defined above.

The penalties for committing academic dishonesty are as follows:

➢ First offense: a score of zero (0) on the assignment in question;
➢ Second offense: a grade of “F” for the course.

Additional penalties, including suspension from the University and loss of scholarships, may also be imposed by other University officials (University Regulation 6-802 § 6).

Words of Advice

If you find yourself having difficulty identifying the important points from the readings or following lectures, please make an appointment to meet with your teaching assistant or me outside of class. Do not wait until the day before an examination or the end of the semester to tell us that you are having trouble. By then it is too late. The time to adjust your study habits is in mid-semester, not the last week of classes.

There is a strong correlation between not attending lecture regularly and receiving a low grade in the course. Students therefore are urged to attend lecture on a regular basis. However, roll will not be taken and no one will be penalized a specific number of points toward his/her grade for failing to attend lecture. However, exams are designed to draw from readings and lectures, and students are expected to be familiar with all class material. If you miss a lecture, I suggest that you obtain notes from a classmate and/or discuss the lecture with your teaching assistant or me. I will be happy to discuss missed lectures but I do not distribute the PowerPoint presentations.

Students are welcome to use computers, tablets, or other electronic devices for taking notes in class. From experience I know that many students will update Facebook pages, respond to email, and surf the Internet during lecture. So be it. I cannot prevent students from doing these things. I will, however, ask students to leave the lecture hall if their activities become disruptive.

Do not begin closing your books, putting on your coats, etc. before class is dismissed. At various times during lecture, I check the clock to make certain that I will finish the lecture on time, if not a minute or two early. I do not need students getting ready to leave or electronic devices beeping for me to know that the end of the class period is approaching.
Examination Procedures

1. Exams will be given on the dates specified on the course schedule (below). Each exam must be taken at the scheduled time unless other arrangements are approved by the instructor.

2. Requests for make-up exams must be made in writing within seven calendar days of the scheduled examination date (email is easiest). The written request must include the reason for missing the examination, your discussion section number, and your student (W) number. Requests for make-up exams will be denied unless a valid reason is presented. Examples of valid excuses for taking an exam at an alternative time include illness, death in the family, and participation in university-sponsored activities. Other excuses relating to unforeseen circumstances will be considered as well. Documentation for the excuse may be required.

3. All exam materials except writing implements are provided. Students may use either pen or pencil.

4. Instructions printed on the exam must be followed.

5. No tinted glasses, brimmed or billed hats, or earphones may be worn during an exam.

6. Students should leave the lecture hall after completing the exam as quickly and as quietly as possible to avoid disturbing their classmates. Do not talk in the hallway outside the lecture hall while waiting for your friends. Either wait quietly or move to another location.
