

2018 Body Composition Testing

University Of Wyoming, Campus Recreation

The scale and the mirror are not always the best way to judge body fat and the success of a fitness program. Body composition testing is a great way to set a baseline and track progress. Testing is conducted by certified Personal Trainers and is free! The quick 15 minute sessions are conducted on a first come, first serve basis. Workout clothing is advised, but not mandatory.

Listed below are the dates of the free body composition testing:
