FACEBOOK

Don't forget to like us on Facebook! We will be posting available scholarships, tutoring and workshop information, etc.

UWYO Cheyenne Upward Bound

- Looking for extra hours for the month?
- Need to make up hours for the month but cannot make it to the LCCC Campus sometimes?

Please check out our Upward Bound website for make-up contact hours.

By the 15th of each month, a pdf will be uploaded to our UW Upward Bound website with different ways to earn extra time! You just need to email the question and your answers to Brandi by the last day of the month.

**You still need to be attending workshops and tutoring.**

You can find the pdf at: http://www.uwyo.edu/seo/upward-bound/newsletters.html

STIPEND REMINDER

STIPENDS ARE BASED ON HOURS AND GRADES.

$40 Stipend each month = minimum of 4 hours of meeting time (this includes attending both workshops or making up your workshops) + at least a 2.5 gpa each month (with no F’s).

REMINDER: If you are unable to make a workshop during the month, you need to let me know and to schedule a make-up time for the workshop.

REMINDER: If you have below a C in a class, you MUST come to tutoring.

PLEASE hand in grades to me each month. You can print out your grades from Infinite Campus and have your teachers initial it.

Math Problem: Multiply \((2i + 7)(3i + 4)\).

A) \(-29i - 22\)  
B) \(29i + 22\)  
C) \(-29i + 22\)

D) \(29i\)  
E) \(29i - 22\)

**Stipends might be coming a little later each month than usual. The University of Wyoming has a new accounting system and is currently working out the cobwebs. Thank you for your patience.**

Financial Literacy Tip:

Take a personal finance class in college.

Colleges offer personal finance classes for students to take. You will need elective classes for your major, so why not take a personal finance class? These classes help with budgeting as well as other financial matters you may find useful as you get older.

STUDENTS NEEDED FOR UB AND UBMS!!

Upward Bound and Upward Bound Math Science Programs have spots open for students to join! If you know someone in grades 9-11 who are interested in college and need help pursuing their post-secondary dreams, please ask Brandi for information and an application. You can also bring them with you when you attend tutoring or workshops!

Upward Bound: More than Just a Tutoring Program

A lot of times students and parents think of Upward Bound and Upward Bound Math Science Programs as just tutoring programs. While we do offer tutoring (which is important), we also offer much more.

- We offer opportunities to visit different colleges.
- We offer opportunities to hear about different careers.
- We offer opportunities for cultural and social growth.
- We offer workshops aimed at enriching student learning and skills.
- We offer opportunities for research.
- We offer opportunities for college-like experiences.
- We offer Mentors (Coordinators).
- We offer opportunities for character and leadership building.
- We offer opportunities to help students with the college admissions and financial aid processes.

Participation year round in tutoring AND at workshops gives students a greater opportunity to learn and to be more prepared for college.

Upward Bound and Upward Bound Math Science Programs are MORE than just tutoring programs!
