Laramie County Newsletter

Upward Bound and Upward Bound Math Science Fall College Trip

On October 24-26, 2018, 25 Upward Bound and Upward Bound Math Science students from Albany County, Laramie County and Natrona County took a fall college trip to the Denver area. Students were able to check out three colleges: Colorado State University, University of Colorado-Denver, and the Community College of Denver. These colleges did a great job in giving our students tours and helping our students figure out if they themselves would be interested in attending.

When we take students on college trips, we not only want them to have the experience of touring colleges, but we try to let them have cultural experiences as well. During this college trip, we took students to the Candelight Dinner Playhouse to watch the production of Mary Poppins. The show and the experience for the students was amazing!

If your student attended the fall college trip or you know a student that attended, please ask them about the different colleges, which ones they liked/disliked and why and ask them about Mary Poppins! Below are a few pictures from the college trip.

STIPEND REMINDER

STIPENDS ARE BASED ON HOURS AND GRADES.

$40 Stipend each month = minimum of 4 hours of meeting time (this includes attending both workshops or making up your workshops) + at least a 2.5 gpa each month (with no F’s).

REMINDER: If you are unable to make a workshop during the month, you need to let me know and to schedule a make-up time for the workshop.

REMINDER: If you have below a C in a class, you MUST come to tutoring.

PLEASE hand in grades to me each month. You can print out your grades from Infinite Campus and have your teachers initial it

**Stipends might be coming a little later each month than usual. The University of Wyoming has a new accounting system and is currently working out the cobwebs. Thank you for your patience.**

Financial Literacy Tip: Make a List

List out all of your expenses for the month: bills, groceries, birthdays, holidays, gas for vehicles, movies, eating out, coffee, etc.

This will help you know what things you are spending money on

Interested in receiving the newsletter and calendar via email? Please let Brandi know by providing her with a current email address.

UPWARD BOUND/UBMS STUDENTS NEEDED

Upward Bound and Upward Bound Math Science Programs have spots open for students to join! If you know someone in grades 9-11 who are interested in college and need help pursuing their post-secondary dreams, please ask Brandi for information and an application. You can also bring them with you when you attend tutoring or workshops!
