**ENERGY**  
**INNOVATION**  
**CENTER**

Megan Degenfelder was elected Wyoming's State Superintendent of Public Instruction in November of 2022, making her one of the youngest elected statewide officials in Wyoming history. Megan grew up in a six-generation ranching family in Casper and graduated from the University of Wyoming with bachelor's degrees in Economics and Political Science. Megan went on to earn a master's degree in Economics from the University of International Business and Economics in Beijing, China, with her thesis focusing on the elasticity of demand between coal and natural gas.
