Harold Hamm is the founder of Continental Resources and serves as the Executive Chairman.

Hamm's recently published book, *Game Changer: Our Fifty-Year Mission to Secure America's Energy Independence*, is an autobiographical account of Hamm's experiences battling conventional wisdom and, in the process, helping restore America as an energy superpower. In it, he also tells a compelling story of just how vital the role of reliable, abundant, and affordable energy is to our nation's prosperity and security.
