As an integral part of the University’s educational mission, the Wyoming Union fosters a sense of community by providing quality programs, services and facilities that promote development, embrace diversity, and cultivate loyalty to the University. The Wyoming Union provides a nurturing environment within which students are encouraged to pursue excellence, to develop leadership, and to realize their potential. Home to many cultural and leadership programs and events, the Wyoming Union plays a key role in accomplishing many of the goals in Breaking Through: 2017-2022.

The Wyoming Union is in high-demand for meeting, programming, and office space. A long-term vision is needed to make sure renovation dollars are efficiently spent and top strategic initiatives around enrollment, food service, and student engagement are prioritized appropriately. The Wyoming Union is the living room for students on and off-campus and needs professional guidance for its growth and management.

Mackey Mitchell Architects, working with the Sasaki Consulting Group, will be leading the study of the Wyoming Union. The study will occur in partnership with the campus master plan and occur in the spring, summer, and fall of 2019. The study will begin at the end of February. The MMA team will review existing building and prior study documentation, facilitate and support programming and visioning. Over the course of 2-3 days on campus, the MMA team will facilitate a visioning and programming workshop, and prepare summary findings.
Union Vision Study Team and various stakeholders associated with the Wyoming Union. Initial stakeholder meetings will occur with:
