MINUTES OF THE MEETING:
Vice President for Special Projects Carol Frost referred the Board to materials in their folders regarding this topic. She discussed the powerpoint and a handout which listed all UW Boards and Councils with trustee or non-university employee members. She noted that she had been tasked by the President to research this topic.

Vice President Frost explained the function of the Board of Trustees noting that:

W.S. 21-17-2 creates the board as to establish by-laws and regulations for the governing of the university:

- The trustees act as a single entity
- The board is committed to the university as a whole rather than to any of its parts
- The board avoids micromanagement while
- assessing professional performance and institutional effectiveness, and
- providing guidance on major directions for the advancement of UW’s mission UW.

She then discussed specific boards, their functions and process for appointing members, including appointments made by the Governor. Vice President Frost then discussed specifically the EORI, noting that the Trustee appointed to the board is a voting member.

Vice President Frost presented two models for the Board to consider.

There was conversation by the Board regarding position on the Foundation and Alumni Boards, inconsistencies of Board service on boards in the colleges, how service of board members can be a conflict of interest, and perception when Board members serve on boards.
