## Wyoming Excellence Funds - Update

## FY17

Internal Reserve: \$3,255,043.49

If all that is budgeted (FY17) is spent, we anticipate needing ~\$307,148.16 to meet our obligations (e.g., salaries, EPBs, etc.).

Academic Affairs has ~\$326,365 in unspent funds

By using the internal reserve and the unspent funds in Academic Affairs, we anticipate being able to meet FY17 commitments (including salaries, EPBs, etc.)

## FY18

Deans reported ~ \$550,000 of unencumbered funds that would not need to be spent in FY17.

Balance of contract for FY17 salaries/EPBs will be ~\$381,000

Without additional funding from Wyoming Excellence Funds for FY18, we anticipate being able to meet the FY17 Balance of Contract needs.

An Example of Impact on FY18 (based on assumption that data are accurate and complete)

If no Wyoming Excellence Funds are available for FY18, and

Full support for tenured, tenure track and extended term faculty/APs at FY17 budget, and

No support for temporary or visiting scholar programs, World to Wyoming, add-on to Piri and Ogden,

the University will need  $\sim$  \$2,342,919.00 – a significant addition to the current FY18 budget reduction.
