University Operations Reserve Account

The Board directs the UW President to establish and fund a UW Operations Reserve Account from whatever revenue sources are practicable. The UW president shall identify a goal for the balance to be retained in the account, based upon financial conditions and the total amount of expenditures contemplated in the budget approved by the Board of Trustees for University operations for each fiscal year. The UW president shall also develop a policy for sources of funds to fund the account. The goal and policy shall be submitted to the Board of Trustees' Budget Committee for review, and the Committee shall forward its recommendations to the full Board for review. Any proposed revisions to the goal and policy the Board may adopt shall follow this process.

Funds in this University Operations Reserve Account are intended to be used to ensure that the University is able to address unexpected or unusual conditions due to changes in available revenue or in unanticipated costs associated with the approved University budget. At all times total funds in this account are below ten percent (10.0%) of the University's annual operating budget as approved by the Board of Trustees ("Minimum Operations Reserve Account Amount") and any transaction which would reduce the Operations Reserve Account below the Minimum Operations Reserve Account Amount. Funds in the account shall be expended only with the approval of the Board of Trustees, upon recommendation of the UW President and the Budget Committee. The policy adopted by the Board may include exceptions to this approval process for emergencies. The Vice President for Administration shall report regularly to the Board on the balance in the account and any recent transactions.
