of the Board of Trustee
The regular quarterly meeting of the Board of Trustees was called to order at 3 P.M. with the following members present:

Mr. Deming, Mr. Prosser, Mr. Elliott, Mr. Holliday, Mrs. Haggard, Mrs. Morton, Dr. Crane, Mr. Fuller and the Secretary.

The first matter to come before the Board was the application of Architect Baerresen of Cheyenne, who solicits the position as University architect for the Engineering building. He appeared in person, and made a short talk to the Board.

Architects Dubois and Hitchcock then came in and submitted their plans for the Gymnasium and Armory building. These plans are not yet fully completed, but they were explained to the members of the Board. Upon motion by Mr. Prosser, seconded by Mr. Elliott, these plans were accepted as presented, and the Executive Committee was authorized to accept them in their completed stage. This motion was carried.

The meeting was interrupted at this point by photographer Svenson, who took a picture of the members of the Board for publication in the "Wyoming".

As the purchase of steel is likely to cause considerable delay in the construction of the Gymnasium and Armory building, the architects were requested to prepare plans and specifications for the steel as soon as possible to enable the Board to advertise for bids on a separate contract. Mr. Prosser moved that the Executive Committee be authorized to let this contract. This motion was seconded by Mr. Elliott and carried.

Mr. Prosser moved that when the architects submit the finished plans for the building, the Executive Committee shall advertise for bids, and be given authority to accept or reject any or all bids. This motion was seconded by Mr. Holliday and carried.
The Board then adjourned to accept the invitation of President Crane for dinner at his home.

The Board reconvened at 9 P. M. with the same members present as at the afternoon session. It was moved by Mr. Holliday that Dr. Crane be given authority to investigate the old quarries near Laramie, and see if it be possible to get native stone for the proposed new buildings on the campus at a cost not to exceed the price of imported material. The motion was seconded by Mr. Elliott and carried.

At this point the minutes of the previous Board meeting and of the intervening Committee meetings were read and approved.

Dr. Crane next submitted his report. A skeleton budget covering the coming fiscal year was offered to the Board by Dr. Crane, showing the expected income, expenditures and a few items which are being transferred from the Operating fund to the Building fund. Mr. Prosser moved that this budget be approved, and that the Executive Committee be authorized to accept the completed budget which will include contracts with individual employees. This completed budget will be submitted to the Board at its June meeting. This motion was seconded by Mrs. Haggard and carried.

The Board then adjourned, to meet again the following morning.
