May 29-31, 1964
The annual meeting of the Board of Trustees was called to order by President Newton at 10:10 a.m. on May 29. The following members answered the roll call: Messrs. Newton, Jones, Reed, Brough, Chamberlain, McIntire, Laird, Millett, Morgan, and Watt and, ex officio, Dr. Shaw and President Humphrey. Mr. McCraken joined the meeting at 10:30 a.m., Mr. Peck at 11:30 a.m., and Governor Hansen (ex officio), at 11:20 a.m.

Mr. Newton stated that, in the absence of corrections or additions, the minutes of the April 11-12 meeting of the Board of Trustees would stand approved as written.

Following several announcements concerning the events of the Commencement week end, the Trustees turned their attention to the President's Report. Mr. Reed moved, Mr. Chamberlain seconded, and it was carried that the Board approve the awarding of degrees as follows:

Following a considerable amount of discussion, it was decided that Dr. Humphrey should ask Dean John A. Marvel, Dr. John W. Gates, and perhaps one other person to set up the basic framework for such a meeting, incorporating the Board’s concept, and send it to the community college heads for suggestions, indicating that an effort would be made to schedule the proposed meeting in October or November 1964.

Dr. Humphrey called attention to copies of correspondence forwarded to him by Governor Hansen concerning a proposed Coordinated Training and Recruitment Project, the purpose of which would be to provide an undergraduate academic and practice educational program plus summer employment to interest, train, and orient undergraduate students at the University toward employment in the Public Welfare Program. After some discussion, it was moved by Mr. Reed, seconded by Mr. Morgan, and carried that the matter be referred to the Dean of Academic Affairs for investigation and report to the President of the Board.

Revenue Bonds, Series 1959, in the principal amount of $11,743,000.00 (herein sometimes designated as "bonds"); and

WHEREAS, of said series the Board has heretofore issued bonds in the principal amount of $10,960,000.00 of which bonds numbered A-1305 to A-5309, both inclusive, in the denominations of $1,000, $5,000 and $10,000 are presently outstanding in the principal amount of $5,156,000.00 and bonds numbered B-1 to B-900, both inclusive, in the denomination of $5,000.00 each are presently outstanding in the principal amount of $4,500,000.00.

WHEREAS, the Board has determined and does hereby determine:

A. That the bonds authorized have not been issued by the Board at an earlier date after their authorization as additional moneys have not been needed at an earlier date to defray the costs of the purpose for which the bonds were authorized to be issued;

B. That the University has proceeded and is proceeding diligently with the improvements in accordance with the resolution of July 25, 1959, as amended and supplemented; and in light of all facts and circumstances, the lapse of time in the issuance of the bonds to the state is reasonable, prudent and necessary.

C. That the conditions of the University concerning the improvements have not changed materially since the time of the bond resolution and thus it is equitable, reasonable, proper, and timely to provide for the issuance of certain of said bonds at this time;

D. That the purpose for which the bonds were originally authorized by the Board continues to be necessary.

WHEREAS, the Board has determined that additional bonds are marketable.

NOW, THEREFORE, BE IT RESOLVED BY THE TRUSTEES OF THE UNIVERSITY OF WYOMING:

Section 1. That the Resolution of October 11, 1960 authorizing the issuance of the bonds to the State of Wyoming be hereby affirmed and restated, together with all other resolutions appertaining to the issuance of the bonds, and specifically without limiting said resolutions that bonds numbered A-5310 to A-5328, both inclusive, in the denomination of $10,000 each and in the principal amount of $190,000.00, bearing interest at the rate of four per centum (4%) per annum and maturing on the first day of January, 1984, may be issued to the State of Wyoming in the immediate future.

Section 2. That all action heretofore taken (not inconsistent with the provisions of this resolution) by the
Board of Trustees of the University of Wyoming, a body corporate and politic by the name of "The Trustees of the University of Wyoming," and the officers and executive committee for investments of the Board or University, or both, directed toward acquiring each of the facilities constituting the Project on parcels of land owned by the Board and situate on its campus for which facilities the bonds have been authorized, and toward issuing the Board's revenue bonds for that purpose, be, and the same hereby is, ratified, approved and confirmed.

Section 3. That if any one or more sections, sentences, clauses or parts of this resolution shall for any reason be questioned or held invalid, such judgment shall not affect, impair or invalidate the remaining provisions of this resolution, but shall be confined in its operation to the specific sections, sentences, clauses or parts of this resolution so held unconstitutional and invalid; and the inapplicability and invalidity of any section, sentence, clause or part of this resolution in any one or more instances shall not affect or prejudice in any way the applicability and validity of this resolution in any other instances.

Section 4. That all by-laws, orders, and resolutions or parts thereof, inconsistent herewith are hereby repealed to the extent only of such inconsistency. This repealer shall not be construed to revive any by-law, order, or resolution or part thereof, heretofore repealed.

Section 5. That by reason of the fact that the Board and the University are not adequately supplied with facilities, it is hereby declared that an emergency exists and that this resolution shall become effective immediately upon its passage.

ADOPTED this 30th day of __ May __, 1964.

The Trustees considered a request from Dean M. C. Mundell of the College of Commerce and Industry for allocation of the amount of $10,344 from the 1959 bond funds to permit purchasing equipment to furnish the offices in the basement of the Commerce building soon to be vacated by the personnel of the Academic Year Guidance Institute. Dr. Humphrey recommended that the Board authorize use of bond funds to purchase such items as would be necessary to equip the offices, that bids be secured on this equipment, with such suitable equipment as might already be available being utilized, and that a final decision on the items to be purchased from bond funds and those to be included in the Legislative budget for the College be left to the discretion of the Purchasing Agent and the Executive Assistant for Business and Plant Affairs. Mr. Chamberlain moved that Dr. Humphrey's recommendation be approved. Mr. Peck seconded the motion and it was carried.

Attention was called to a letter from Mr. Russell Keck, a member of the Laramie City Council, concerning proposed University payment of dump service fees and also fire service fees. After some discussion, it was decided that the Executive Assistant for Business and Plant Affairs should be asked to make definite recommendations to the Board at the next meeting.

Mr. Millett moved that the present slate of officers--Messrs. Newton, president, Jones, vice president; Reed, treasurer; and Brough, secretary--be re-elected for 1964-65. Mr. Peck seconded the motion and it was carried.

It was decided that the Board should meet at 10:00 a.m. the following day to consider the report of the Physical Plant and
Equipment Committee. President Humphrey stated that, because of his involvement with Commencement preparations, he might not be able to attend the meeting. He expressed appreciation to the Trustees for the privilege of working with them and for their dedication to the University. He urged Board members to continue their fine support to the new President and stated that, while he would not interfere in any way in the new administration, he would be available should the Trustees or the new President desire his assistance.

The Board adjourned at 5:20 p.m. and reassembled at 10:20 a.m. on May 31, with all members present except Messrs. Peck and McCraken and, ex officio, Dr. Shaw. President Humphrey was present for part of the meeting.

The Trustees considered a recommendation from Mr. Leon H. Paules, Supervisor of Agricultural Substations, that the Board authorize accepting a bid of $7,729.80 he had received for moving the office at the Powell Substation, with the $729.80 in excess of the appropriation made for moving and relocating the building to be taken from the Powell Substation Physical Plant Repairs account. Mr. Paules proposed that two requisitions be issued, one for $3,025 to cover the installation of a 30-foot concrete tile culvert, excavation and installation of basement and backfill, and installation of basement windows and sewer, water and gas line, and the other for $4,704.80 to cover the house moving and electrical work, plumbing and heating, chimney, etc., and restoration of the building as it was before moving.
After some discussion, it was moved by Mr. Morgan, seconded by Mr. Chamberlain, and carried that the recommendation of Mr. Paules, supported by Dean Hilston and President Humphrey, be approved.

Messrs. L. G. Meeboer, Executive Assistant for Business and Plant Affairs; R. G. Arnold, Plant Engineer; D. E. Davis, Supervisor of Service and Auxiliary Enterprises; and Jim Ranz, Dean of Academic Affairs, were invited into the meeting for a discussion of the report on the meeting of the Physical Plant and Equipment Committee held on May 28. Mr. Jones reported that the Committee had discussed the possibility of stepping up the schedule of completion on the new apartments so as to have 64 units completed by August 15 and 32 units completed by December 31, 1964. He called attention to the decision of the Committee to proceed with the acceleration provided the additional cost did not exceed $16,000. Information received from the Spiegelberg Lumber and Building Company after the Committee meeting, Mr. Jones went on to say, had indicated that the acceleration would cost an additional $24,000. It was decided, therefore, that the original arrangements for having 32 units completed by August 15, 32 by December 31, and 32 by May 15, 1965, should be allowed to remain.

Mr. Jones outlined the proposals received from Laramie Electronics, Inc. and the Laramie Community Television Company for providing television service for the new student apartments. Mr. Jones moved that the Board approve the recommendation of the Physical Plant and Equipment Committee for accepting the offer of the Laramie Community Television Company and authorize preparing
a change order to the contract for the apartments in the amount of $1,047 to provide for running a second system of conduits into each of the 96 apartments from the attic to provide for possible future wiring for the antenna system. Mr. Chamberlain seconded the motion and it was carried.

Mr. Morgan moved that the Board approve the recommendation made by the Physical Plant and Equipment Committee for requiring fraternities and sororities to obtain city building permits before beginning construction on any future buildings in Fraternity Park. Mr. McIntire seconded the motion and it was carried.

Mr. Jones reported on the action taken by the Physical Plant and Equipment Committee authorizing the Plant Engineer to investigate the price of better quality windows for the new dormitory. Mr. Reed asked that in any future buildings consideration be given to all types of heating, regardless of the fact that the University has a central power plant. Mr. Arnold pointed out that the new dormitory had been designed for heating by hot water radiation in each of the student rooms, but that determination of the generation of the hot water system would be made following the study by the Stanley Engineering Company.

Mr. Jones moved that the Board approve the recommendation of the Physical Plant and Equipment Committee for authorizing minor remodeling in the Bee Disease Investigations Laboratory, with the understanding that one-half the cost of the remodeling, or approximately $4,500, would be paid by the U. S. Department of Agriculture and that the current agreements would be continued without change, namely, that utilities and janitorial services would be furnished
by the University, that all surplus honey, wax, and bees would be given to the Agricultural Experiment Station, that items of equipment purchased directly by the U.S. Department of Agriculture would remain the property of the U.S.D.A., and that partitions installed or property purchased and installed by the University would remain the property of the University. Mr. McIntire seconded the motion and it was carried.

Approximately an hour was spent discussing the report of the Physical Plant and Equipment Committee concerning the engineering evaluation of the Power Plant, for which the Stanley Engineering Company had been employed. Mr. Reed expressed disapproval of the selection of this firm and pointed out that a study made by the Stanley Engineering Company for Colorado had been rejected by the Colorado Public Service Commission as economically unsound.

Both Mr. Reed and Mr. McIntire spoke in opposition to the motion passed by the Committee authorizing the Plant Engineer to supply the Bureau of Reclamation and the Rural Electrification Administration with information concerning the University's electric power needs and request proposals from them for use by the Stanley Engineering Company in its studies. Governor Hansen raised a question as to whether or not the Bureau of Reclamation and the R.E.A. could submit proposals if the area including the University happened to be a certificated area.

Concluding the discussion, Mr. Millett moved that the Stanley Engineering Company be instructed to confine its study of electric power at this time to the proposal of the Pacific Power and Light Company. Mr. Watt seconded the motion and it was carried.
Mr. Jones called attention to the serious need for early repairs to the roof of the Fieldhouse, on which Mr. Arnold had received an estimate of $26,750. He pointed out that the roof had been guaranteed for a period of 20 years and that it had been in use only 14 years. Although the subcontractor who had been responsible for the roof went into bankruptcy some years ago, it was the thought of the Committee, Mr. Jones stated, that some adjustment might be made with the prime contractor, Spiegelberg Lumber and Building Company.

Mr. Meeboer informed the Board that a special appropriation of $13,500 had been included in the budget for repair of the Fieldhouse roof, and that there was a free balance of $8,000 in the general roof repairs budget, leaving approximately $5,250 which would be needed if the estimate secured by Mr. Arnold was accurate. Mr. Reed moved that the Plant Engineer be directed to prepare plans and specifications for the repair of the roof, that bids be requested, that Messrs. Meeboer and E. G. Rudolph, Legal Advisor, be authorized to contact the Spiegelberg Lumber and Building Company and attempt to negotiate with the Company for reimbursement, and that, in the event they should be unsuccessful in their negotiations, an appropriation of $5,250 be authorized from the General Fund to provide additional funds needed for the repairs. Mr. Laird seconded the motion and it was carried.

Mr. Jones moved that the Board approve the action taken by the Physical Plant and Equipment Committee in accepting bids totaling $112,738.34 for constructing eight new tennis courts, constructing a fence enclosing eight courts, painting the eight
new courts, lighting courts and baseball field, and painting light poles, and also the Committee's action in authorizing an allocation of $15,143.51 from the 1959 bond funds to provide the additional amount needed to cover the cost of the work in question. Mr. Chamberlain seconded the motion and it was carried.

Mr. Meeboer called attention to his discovery that the Builders Risk insurance purchased from the Insurance Company of North America for the new apartments at a cost of $1,522 (compared with the bid of $6,000 from the Spiegelberg Lumber and Building Company) had a $100 deductible provision and did not have vandalism coverage with respect to glass. Mr. Reed moved that the University assume the risk involved in the provisions of I.N.A. insurance and continue with the I.N.A. coverage for both the apartments and the new residence hall. Mr. Brough seconded the motion and it was carried.

Attention was called to a letter from the State Fire Marshal inquiring about the University's plans for the use of the East Cowboy Dormitory, which the Marshal felt should not be continued in use because of its highly combustible construction. Mr. Jones suggested the possibility of correcting the situation by the use of fire resistive paints. Mr. Meeboer was instructed to investigate the situation and determine what needed to be done.

Mr. Jones called attention to a request from Dr. John C. Bellamy, Director of the Natural Resources Research Institute, that the frame structure between the two brick buildings occupied by the N.R.R.I. be remodeled to accommodate storage of equipment received by the N.R.R.I. under various research grants. Mr. Jones
stated that Dr. Humphrey had suggested financing the remodeling by use of the overhead charges retained from grant funds. After some discussion, Mr. Arnold recommended that the N.R.R.I. be authorized to rent storage space off campus until the Plant Engineering Division could make an engineering study to determine the feasibility of constructing additional space. Mr. Morgan moved that Mr. Arnold’s recommendation be approved. Mr. Chamberlain seconded the motion and it was carried.

Mr. Jones moved, Mr. Chamberlain seconded, and it was carried that the Board approve the recommendation of the Physical Plant and Equipment Committee for an appropriation of $25,346 from the General Fund to take care of the following physical plant improvements:

1. Guidance Institute - remodeling space under Auditorium stage in Education building. . . . . . $16,000.00
2. Arts and Sciences building - remodeling two offices in English Department and the Downey Seminar Room in the Psychology Department . . . . 5,346.00
3. Nursing-Health building - remodeling basement storage room for classroom. . . . . . . . . 3,500.00
4. Chemistry-Zoology building - remodeling acid room and converting to office space . . . . . . . . 500.00

$25,346.00

Discussion of the proposed remodeling of space for the N.D.E.A.-financed Guidance Institute led to a discussion of the University’s policy on acceptance of grants. Mr. Millett moved that all grants offered to the University be approved by a committee composed of the President, the Executive Assistant for Business and Plant Affairs, and the Dean of Academic Affairs, with those involving a change of policy or a University expenditure
to be presented to the Board for consideration, and that lists of grants be supplied to the Trustees periodically. Mr. Laird seconded the motion and it was carried.

Mr. Jones called attention to the alternatives open to the Board in request to the quarrying of stone for new buildings, on which a report had been submitted to the Physical Plant and Equipment Committee by the Plant Engineer. It was the consensus of the Board that Mr. Arnold should make further investigation of the possibilities and report to the Committee at a later time.

Dr. Ranz reported on a study which the University Statistician had made showing projected office and classroom needs by 1970. He stated that the situation would shortly become acute. Mr. Meeboer recommended that the Campus Planning Committee be authorized to meet and prepare some definite recommendations as to priority on construction of new buildings, with the classroom and office space needs in mind. It was the consensus of the Board that this recommendation should be carried out at the earliest possible time.

Attention was called to a decision by the Physical Plant and Equipment Committee to recommend employment of Mr. Burgess P. Stanley, representing the Laboratory Planning Consultants, to assist in planning for furniture and equipment for the Science Center, and to eliminate from the agreement with the architects the duties which would be duplicated in the agreement with the consultant. Mr. Jones moved that Messrs. E. C. Meyer, Dean of Arts and Sciences, and Arnold be authorized to negotiate with Mr. Stanley and the architects and that if agreement should be
reached which would meet with the approval of the Executive Committee, the President and the Secretary of the Board be authorized to sign revised contracts with the architects. Mr. Morgan seconded the motion and it was carried.

Mr. Jones moved that the Board approve the recommendation of the Physical Plant and Equipment Committee for a visitation trip to be made by one or more Trustees, Dr. Humphrey, a representative of the architects, and Messrs. Meeboer, Arnold, Ranz, and Meyer to several West Coast campuses to see new science centers, at a cost of approximately $3,000, to be paid from Educational Facilities Grant funds, with approval to be requested from the Governor for reimbursement to each individual on an actual rather than a per diem basis. Mr. Brough seconded the motion and it was carried.

There was some discussion as to the state commission that would need to be set up to administer Educational Facilities funds. Governor Hansen stated that the Attorney General had designated the State Board of Education to serve as the commission responsible for handling these funds and that, so far as he knew, the designation had been accepted by the Department of Health, Education and Welfare.

Mr. McIntire moved that the University's organization chart be revised so as to combine the divisions of Buildings and Grounds and Plant Engineering under one supervisor, Mr. R. G. Arnold, and that Mr. Arnold be authorized to employ a replacement for Mr. Robert Prahl as Superintendent of Buildings and Grounds and, if necessary, to employ a new head of Plant Engineering. Mr. Watt seconded the motion and it was carried.
Mr. McIntire moved that the Executive Assistant for Business and Plant Affairs be authorized to purchase furniture and equipment for the new apartments and for housing three students in each room in Crane and Hill Halls in accordance with the bid tabulations reviewed and approved by the Physical Plant and Equipment Committee on May 28. Mr. Millett seconded the motion and it was carried.

Following a brief executive session, Miss Tom Womack, Deputy Secretary of the Board, was informed of the action taken by the Board in authorizing vacation for her for the period July 1 to August 15, 1964, and a leave without pay for the period August 15, 1964 to June 30, 1965.

President Newton asked that the minutes of the Board report the action taken by the Trustees in executive session at the April 11-12 and May 29-31 meetings in electing Dr. John T. Fey as President of the University of Wyoming, effective July 1, 1964, and in reviewing the terms of his contract. Mr. Newton added that the contract as finally approved and signed would be incorporated in the minutes of the next meeting of the Board.

Tentative plans were made, subject to confirmation after checking with Dr. Fey, for a dinner in his honor on July 1, to be attended by the Trustees, President and Mrs. Humphrey, and the faculty-staff committee advisory to the Trustees in the selection of a new President.

The meeting adjourned at 1:30 p.m.

Respectfully submitted,

Harold E. Brough
Secretary
