President Watt stated that, in accordance with the bylaws of the Board which require the annual election of officers at the annual meeting, the floor was open for nominations for President, then Vice President, Secretary, and Treasurer. Upon motion duly made, seconded, and carried and by written ballot for the President and Vice President the following were declared the duly elected officers of the Board to hold office for one year or until their successors are elected and qualified:

President----- George J. Millett
 Vice President----- L. W. "Jack" Jones
 Secretary----- Joseph B. Sullivan
 Treasurer ----- William R. Jones

Mr. W. R. Jones joined the meeting during this action.

Mr. Watt relinquished the chair and Mr. Millett presided.

Executive Committee. Mr. Millett then called for election of the Executive Committee pointing out that under the Board bylaws of December 8, 1967, this Committee was to be composed of the President of the Board and two elected members. Following the motion duly made, seconded and carried that nominations be closed, written ballots were taken and Messrs. Watt and Quealy were declared elected.

W. R. Coe Trust Fund Committee. Mr. Millett read the provision of the bylaws of December 8, 1967, calling for the annual election of three members of the Board experienced in business and financial affairs and the management of investments. It was moved that the present committee consisting of Messrs. True, McBride, and

Athletic Committee. Messrs. Hollon and Johnson were nominated. It was moved that nominations be closed and that the secretary be instructed to cast a unanimous ballot for the nominees. The motion was seconded and carried.

President Millett stated that he would announce appointments to other committees later in the meeting.

Dr. Carlson discussed requests that had been received from communications media for direct coverage of Board meetings. A letter from Governor Hathaway to the President of the Board was read in which the Governor expressed his approval of open meetings at all levels of government, and urged the Board to examine this matter carefully. President Carlson reported that he had telephonically queried the Attorney General about the legality of open meetings and executive sessions and he reported that he had been assured by the Attorney General that executive sessions could be called at any time; that there was nothing in the statute that required open meetings but that Board actions should be a matter of public record. During discussion it was agreed that the meetings should be open to the public, as well as to communications media, and that recording devices and cameras should not be permitted.

After some further discussion, it was moved that the meetings of the Trustees of The University of Wyoming be open to the

Science Center. Time Extension.

In view of the Federal position that a time extension should not be allowed on the Classroom building to permit earlier completion of the Physical Sciences building as had been approved at the April 25-26, 1968 Board meeting, it was moved that the previous action be rescinded and the following substituted therefor: the University will pay \$100.00 per day each Physical Sciences Building unit of completed construction is delivered to the University prior to the contract completion date to the extent that such early delivery for University occupation has caused Contractor extra work on the Physical Sciences building by the use of his work force from the Classroom Building resulting in the occurrence of liquidated damages for completion of the Classroom Building beyond its contract completion date.

AND EQUIPMENT
COMMITTEE

Dormitory Complex Site Improvements. In connection with the construction of a proposed parking area on the north side of Ivinson Avenue behind the sorority houses, Mr. Geraud pointed out the difficulty he would have in drawing up legal documents to obtain necessary deeds or options from the sororities due to the lack of an accurate survey of sorority lands. It was then moved that a new survey be made of Fraternity Park and that the Board's Legal Advisor then be authorized to obtain either permanent easements or deeds from the individual sororities to permit construction of the proposed parking lots, with such survey and construction costs to be paid from dormitory funds and with construction to be accomplished by change order to the contract with the Yeoman Construction Company. The motion was seconded and carried.

Mr. Geraud then withdrew from the meeting.

Science Center. Chiller Plant. As recommended by the Committee, it was moved, seconded, and carried that the University be authorized to advertise for bids for the chiller system on June 4, 11, and 18; that bids be opened on July 9 at 2:00 p. m. ; and that the Physical Plant and Equipment Committee be authorized to accept or reject a bid for this project at the July 12 meeting, subject to later confirmation by the Board.
