BACKGROUND AND POLICY CONTEXT OF ISSUE:
The War Memorial Stadium – East Suites and Renovations (WAR) are projects within the Athletics Strategic Plan incorporated into the Capital Facilities Plan. The project is funded with private donations matched with state appropriations and an allocation of deferred maintenance funds for the repairs and ADA improvements to the upper and lower stadium sections.

The projected budget for the construction of the new suites and club, lower concourse renovations and repairs to the upper east and lower east stadium is $22,528,200.

The Construction Manager-at-Risk, Sampson Construction, has developed a Guaranteed Maximum Price (GMP) for acceptance by the Board of Trustees to allow the construction to start on portions of the project while the architect is completing the construction documents. The goal of the project at this time is to complete the lower stadium restrooms and concessions to improve the fan experience for fall 2009 while the remainder of the project is completed. Completion of the entire project is scheduled for fall 2010.

Sampson submitted their GMP based upon the preliminary design documents developed by the architect and submitted November 14, 2008. The GMP has been evaluated by the architect, Malone Belton Abel of Sheridan, WY associated the HOK Sport of Kansas City, MO and the Facilities Planning Office.

The GMP submitted and recommended for acceptance is $22,349,310. A copy of the GMP cover letter is attached.

Prior Related Board Discussions/Actions:
Approval of the Construction Manager-at-Risk, Sampson Construction of Cheyenne, WY and Lincoln, NE, November 19-21, 2009.

WHY THIS ITEM IS BEFORE THE BOARD:
This request of the Board is to approve the Guaranteed Maximum Price for the project with a goal of achieving a construction start on or before the end of March 2010.
ARGUMENTS IN SUPPORT:
The construction management at risk team can develop the cost and constructability of the project along with the design team completing documents to maximize the value of the project, maintaining the quality, while starting the project bidding and construction through a systematic approach to reduce the standard time of design and construction. Any excess funds within the Guaranteed Maximum Price will come back to the University. The Wyoming Legislature has passed legislation providing for this form of capital project delivery.

ARGUMENTS AGAINST:
None

ACTION REQUIRED AT THIS BOARD MEETING:
Board of Trustee approval authorizing the amendment to the CMAR Agreement for the Guaranteed Maximum Price acceptable to the University.

PRESIDENT’S RECOMMENDATION:
It is recommended that the Board of Trustees of the University of Wyoming approve the Guaranteed Maximum Price amendment to the CMAR Agreement to start the construction of the War Memorial Stadium – East Suites and Renovations.
