Cloverbuds are Fun!
It is recommended that 4-H Cloverbuds have a separate meeting place with additional volunteers to address their needs.

EARTH DAY CELEBRATION
Recycling is a big part of our lives. Every American throws away 4 pounds of trash every day. Only 35% of trash is recycled and the remaining 65% goes to the landfill. This means over 210 million tons of trash makes its way into our landfills every year!

Cloverbuds are at an ideal age to be helpful. They can:

- Pick up newspapers and place in paper bags
- Sort paper board and corrugated cardboard
- Separate plastics by numbers (each plastic has a number inside the recycle triangle)
- Separate aluminum and steel cans
- Sort glass by color

(Ohio 4-H Cloverbud Connections, Winter 2012)

Have a recycling party at your next Club meeting! Have every family bring some recyclable materials to let the Cloverbuds sort into different bags. Talk about the cool things that can be made from recycled materials like paper, carpet, playground equipment and more!

Afterwards, visit a recycling center to drop off the recycles and take a tour!

MANNERS MATTER!
Oh, Behave!
(Tips for Better Family Manners)

1. Start out right. When you get up, greet your family with a smile and say “Good Morning”.
2. Tune in. We all want people to pay attention to us. We should show the same courtesy to others.
3. Watch what you say. When your parents try to talk to you, do you grunt or grumble? Try speaking clearly and using full sentences.
4. Respect your home. Cleaning up after yourself is big - it is HUGE! Your family will love it when you are neat and helpful.
5. Respect people's stuff. Treat your family's belongings with care. If you want to borrow something, ask first.
6. Knock first. A closed door means something, so get in the habit of knocking before entering.
7. Keep it down. If you turn down the volume, people won't have to shush you so much.
8. Be responsible. This is a guaranteed way to get noticed, in a good way, at home!
9. Say “Please” and “Thank you”. Very important words!!
10. Talk to your family about what is okay and what is not. Make sure you know what kind of behavior is okay and when.
The following chart shows the forms, action and due date for most Goshen County 4-H animal projects in order to exhibit at the 2012 Goshen County Fair.

April is the designated as Month of the Military Child. To help celebrate, support and encourage the bravery and sacrifices of these young heroes, Goshen County is asked to participate in “Purple Up” on Friday, April 13. On this date, wear the color purple (the combined colors of branches of service.) Share your photos on the Goshen County 4-H and Wyoming OMK facebook pages. Show your support for those whose families support us!

For more information on how you can help OMK locally, contact the Extension Office.

Rural Youth Loan Available

Farm Service Agency of Torrington has loans available to 4-H & FFA youth members. Youth must be at least 10 years old and keep accurate financial records (Record Book is acceptable.) For more information contact the USDA Farm Service Agency at 532-4021.

Don’t forget!! Breeding ID sheets are due June 1 at the Extension Office. Please attach a copy of registration papers (if applicable). Sheets are available from the Extension Office.

As 4-H members you are expected to know the 4-H Pledge: “I pledge my head clearer thinking, my heart to greater loyalty, my hands to larger service, and my health to better living. For my club, my community, my country and my world.”

This pledge could also say “For myself, my club...” and so on because it is important that each of you take good care of yourself so that you can provide a greater service in all you do. Sometimes that is easier said than done. With all the “Super Size” portions it can be hard to know how much to eat. Try these:

Recommended Serving Sizes

- 1/2 cup or one piece (size of a tennis ball)
- 3/4 cup cooked; or 1 cup raw (size of a baseball)
- 1/4 cup cooked cereal, rice or pasta (size of a small computer mouse); 1 slice bread; 1/2 4-inch bagel; 1 cup cold cereal. Choose whole-grains
- 1 cup milk or soy milk (with calcium); 1 cup yogurt; 1 ounce cheese (size of a C-battery). Choose low-fat or fat-free varieties
- 3 ounces cooked meat, fish, and poultry (size of a deck of cards); 1/4 cup cooked beans; 2 tablespoons peanut butter (size of a golf ball). Choose lean meats

Remember

The most accurate measurements are made using appropriate tools (measuring cups, food scales, and measuring spoons). If you have questions, contact a University of Wyoming Cooperative Extension Service Nutrition and Food Safety Educator.
