

WYOMING AGRICULTURAL EXPERIMENT STATION
RESEARCH AND EXTENSION CENTER FEE
SCHEDULE

(Revised & approved 4/29/2016)

The following fee schedule is intended to be uniform among all of the Research and Extension Centers. Directors of sponsored projects are advised to include such fees in their budgets at the time project proposals are submitted to a funding agency. Project directors are strongly encouraged to communicate with managers/operations directors at each Research and Extension Center before submitting proposals to ensure that facilities and resources are available, especially if budgeted funds will not permit full payment of facility/resource usage fees. Although directors of sponsored projects have the liberty of negotiating facility/resource usage fees with respective managers/operations directors at each Research and Extension Center, the ultimate decision to modify such fees shall be the discretion of the Director of the Agricultural Experiment Station.
