Building the capacity of schools, districts, and state agencies to
improve outcomes for students with autism.

About the Autism Network

UW ECHO in Autism provides ongoing support for educators and other professionals working with students with autism by providing professional development and specific program planning for students.

Who should attend:

Network participants could include school administrators, general and special education teachers and paraeducators, case managers, school counselors, school psychologists, state agency staff, and special education service providers, including OTs, PTs, SLPs, etc.

What is UW ECHO?

UW ECHO delivers virtual professional development to support community conversations around best practice in education, health, and disability services.

Benefits of UW ECHO:

- Increase the application of evidence-based practices
- Increase the self-efficacy of participants
- Participate in training and co-management of individual and district/agency concerns to improve student outcomes
- Attend sessions from **any location** using videoconferencing technology
