

UW ECHO in Behavior Supports Session Agenda

Facilitator(s):	Wendy Warren
Collaborating Entities:	Wyoming Department of Education
Professional Development Presenter:	Aaron Stabel
Professional Development Training Description and Objectives:	Positive and nurturing environments promote good brain development, learning skills, and emotional control. Chronically stressful environments are toxic to brain systems and their growth. As parents and educators, we can support good brain development and functioning by establishing positive and nurturing environments for our children. 1) Learn how the environment affects brain development. 2) Understand how developing positive, consistent, stable learning environments improves brain development, learning, and social-emotional regulation.
Case Presentation:	ECHO ID #TBD
