There are multiple formats available to students with print disabilities. Please check the formats you are requesting and then check the boxes of any student preferences associated with that format.

Braille

.brf - An electronic Braille format that is ready to be embossed. Select this format if you have an embosser and only need an electronic version of the textbook material sent to you.

Gr2- Grade 2 Contracted Braille. Select this format if you need the text material embossed and bound by an outside source.

Gr1- Grade 1 Uncontracted Braille

English Braille American Edition

Unified English Braille

Large Print

LPE- Electronic file ready for printing at the school site

LPD- Printed and bound volume of the text material, printed front/back and delivered to your school in hard copy

Preferred font size

18

20

27-30

Digital File

.mp3- A compressed digital file provided on a CD

eText (.pdf)

DAISY (Digital Talking Book/ DTB) DAISY books may offer narrated (human) voice with text or computer-generated synthetic speech, and may display primary headings, or full text versions of the book. When possible, books with narration and text will be sought, otherwise, the audio portion of the DAISY book will use synthetic voice. Student will need the textbook to support the audio recording.

Digital Recording (human narration)

Digital Recording (synthetic speech) with minimal text support
