National Training Initiative

Three-year initiative (2019-2022) to build nationwide capacity and confidence in applying evidence-based practices in serving children and families impacted by opioid use.

Activities include:
1) Refine curriculum developed in 2018-2019 SCOPE Pilot
2) Train 16+ Primary Lead Programs (sites) in ECHO-SCOPE model and curriculum
3) Assist sites to integrate this initiative into current and future interagency collaborations
4) Provide monthly technical assistance and ongoing support to implementation sites
5) Conduct rigorous evaluation
6) Disseminate materials and results
Eligibility

Primary Lead Program (sites)

- University Center for Excellence in Developmental Disabilities
- Leadership Education in Neurodevelopmental and other Disabilities
Primary Lead Programs Expectations:

- Attend virtual orientation session
- Attend an two-day ECHO immersion training
- Identify an interdisciplinary team
- Attend an in-person and/or virtual strategic planning session.
  - Topics will include but are not limited to: (1) engagement strategies for interdisciplinary state teams, (2) adaptation of interdisciplinary curriculum, (3) curriculum implementation strategies, and (4) sustainability planning.
- Implement ECHO-SCOPE within their own states and with identified interdisciplinary state teams utilizing the ECHO model.
- Work collaboratively with WIND to ensure rigorous evaluation of ECHO-SCOPE and outcomes of the national training initiative.
Collaborating partners could include:

- Early intervention
- Home visiting
- Public health nursing
- Hospitals
- Nurse navigators
- Childcare
- Parents
- Recovery
- Treatment
- Existing ECHO programs
Primary Lead Program Selection

- Priority is given to states who identify as a high impact state regarding increased Neonatal Abstinence Syndrome.
- Once applications are viewed, first priority is given to those who are most impacted.
- The first cohort will be selected to maximize nationwide reach. We strongly suggest including data from your state which identifies the opioid impact and increased NAS.
Timeline

Applications due **January 10th, 2020**

- Initial 10 states will be selected - second application period early fall 2020.
- In-person immersion trainings will occur April, May, June, and September 2020
  - April and May locations to be determined (based on regional interest- sites interested)
  - June - TBD
  - September - University of Wyoming, Laramie, WY
Timeline

• Ongoing monthly meetings to build a national community of practice (starting February 2020 - October 2022 (end of grant cycle)
  ○ technical assistance
  ○ discuss best practices
  ○ ongoing support

• On-site strategic planning for the implementation of NTI-SCOPE (as needed)
Funding

To be used by Primary Lead Programs (sites) as they determine, but could cover travel, infrastructure, stipend expenses, etc..

1) $5,000 to support costs associated with the in-person ECHO Immersion training

2) $7,500 to support ECHO-SCOPE implementation

3) $5,000 for subsequent ECHO-SCOPE implementation
