

Lost in Transition Initiative 2014-2015 Annual Report

Since 2006, the Partnership's Lost in Transition Initiative has been providing professional development forums to discuss how to best help students successfully transition from high school to higher education. These discussions center around the existing academic gap between high school and higher education and seek to bring better understanding of educational practices at all levels. Below is a summary of Lost in Transition events for the 2014-2015 school year.

*(1-10, with 10 being the highest quality)

1. The Partnership supported and attended the Wyoming Foreign Language Teachers' Association (WFLTA) meeting in October. There was a breakout session about Lost in Transition issues, written feedback was not solicited, and participation numbers were not tracked since it was only a short part of the WFLTA annual meeting.
 2. The Partnership experienced a change in office personnel over the time period when the mathematics meeting took place. The number of written feedback forms filled out was not enough to draw any significant statistical information from.
