V. WWAMI Curriculum Renewal

- University of Washington School of Medicine (UWSOM) has started their new medical curriculum (Integrated vs. Flexner Model)
- Students currently in Lander for clinical immersion – Wilderness First Responder
UWSOM has been slow to develop this and with any new curriculum, there will be bumps along the road
 - Cohesiveness of materials in an integrated block
 - Computerized exams and software unforeseen software issues
 - WY space not built for active learning, cadaver lab no space for prosections, etc.
- Student reactions to new curriculum
- Discussion (response when critical comments exist)

VI. WWAMI Clinical Challenges

VII. Final thoughts and Questions?
