Would you like to know more about the signs of Alzheimer’s Disease and early detection and intervention?

Are you interested in helping your local community by becoming an educator on Alzheimer’s Disease?

The Alzheimer’s Association is training community educators in your area! Learning The Basics of Alzheimer’s and Know the 10 Signs: Early Detection Matters will give you the tools needed to help those affected with Alzheimer’s Disease in your community.

As a community educator, you will act as an advocate on the behalf of the Alzheimer’s Association to help those affected in your area to better understand and cope with Alzheimer’s and other dementias.
