ALZHEIMER’S STATE PLAN:

Town Hall Listening Sessions

At the request of Governor Matt Mead, a Task Force is working to develop a state plan to address Alzheimer’s Disease in Wyoming. The intent of these meetings is to gain insight into the lives of those with or caring for an individual with Alzheimer’s disease or another form of dementia. This plan will identify available resources, detect resource gaps, and map opportunities to improve the lives of those with dementia. Further, this plan will inform Alzheimer’s disease policy in the years to come.

Join us in communities throughout Wyoming and share your thoughts for addressing Alzheimer’s Disease and other dementias!
