3:15-3:30pm: Closing, Evaluations

Dr. Kyle Page is a board-certified geriatric psychologist who focuses on improving dementia care skills for healthcare providers and families. He earned his PhD from the University of North Texas and completed a fellowship in clinical geropsychology at the VA Boston Healthcare System. Formally from the Cheyenne VA Medical Center, Dr. Page currently works on a secured dementia unit at the Central Iowa VA hospital and serves as a national VA training consultant, helping other VA nursing home units in implementing a dementia behavior management program. His clinical focus is on dementia behavior management, staff training, and evaluating decision-making abilities in older adults. His research interests and publications span various areas of geriatric mental health, including fear of developing Alzheimer’s disease.

**No Charge for either event.**
