

Second Annual Meeting Announcement

NORTHWEST CHAPTER OF PARTNERS IN AMPHIBIAN AND REPTILE CONSERVATION

February 17, 2009
Oregon Zoo*
Portland, OR

Keynote Speakers:
Andrew Blaustein
Thomas Biebighauser

Northwest PARC has an informal “membership” that includes anyone interested in herpetological conservation. Persons that have expressed an interest in NW PARC and its activities include biologists and nature enthusiasts that are working in some area of biology or natural resources, or who are interested in these animals or natural resource management. Our region extends from northern California up to Alaska, across to Alberta and down to Wyoming.

Northwest PARC’s annual meeting provides an opportunity to:

- discuss important issues related to amphibian and reptile conservation in our area
- get national-international PARC updates, and
- move ahead on our four NW PARC task teams—funding, website, inventory, and training

See NW PARC’s website for meeting updates and registration information: <http://uwadmnweb.uwyo.edu/WYNDD/parc/>

deadline is Jan. 27, 2009**
