

ACCOUNT ANALYSIS PIVOT TABLE TRAINING OPPORTUNITY

Greetings,

The Account Analysis Report in WyoCloud Financial Management is a key report that helps users reconcile their accounts and compare budget to actuals. The report can be further customized using Pivot tables within Microsoft Excel.

This workshop will cover how to use basic pivot table features to **analyze and interpret your data and to further leverage the Account Analysis Report**. We will focus on the Account Analysis report with budget data included. The session will conclude with a chance to explore your own data and ask questions.

You can sign up for this training, called WyoCloud Pivot Tables, on [WyoLearn](#). The next training is **November 5, 3:00-4:30PM, ITC 171**. This training is offered in partnership with UWIT training.

Thanks,

The WyoCloud Team
