Greetings,

WyoCloud Financial Management and Business Intelligence is now operational after the system maintenance this weekend. The maintenance unexpectedly created some issues with the General Accounting and Budgetary Control Dashboard, and you are unable to access these modules at this time. However, you are able to process transactions (requisitions, expense reports, receipts, etc.) at this time.

As previously communicated, Project Portfolio Management (PPM) has received a refreshed look. The features and functionality remain the same, but to help you navigate the new look, the PPM Quick Reference Guide has been updated to reflect these new changes.

Additionally, you will notice that the location of the home and worklist icons are now located on the top left of your screen, near the WyoCloud logo and navigator menu (see screen shot below). This change in location does not affect the system functionality and you can continue with business as normal.

If you need assistance, please contact the UW Help Desk and submit a ticket. The UW Help Desk is your first resource and quickest response for questions. You can contact the Help Desk by emailing userhelp@uwyo.edu or by calling 766-4357 and selecting option #1.

Best,
The WyoCloud Team
