Key Considerations for Achieving Durable Concrete

NOVEMBER 2, 2022
THERMOPOLIS, WY
8:00 a.m. to 4:00 p.m.
Hot Springs Hotel & Spa
115 E Park St.
Thermopolis, WY

NOVEMBER 3, 2022
CHEYENNE, WY
8:00 a.m. to 4:00 p.m.
Laramie County Community College (LCCC)
CCI Building Room 130
1400 E. College Dr.
CHEYENNE, WY
WORKSHOP DESCRIPTION
This one-day workshop will look at what needs to be considered throughout the life-cycle of concrete flatwork and pavement to achieve exceptional long term durability in the harsh Wyoming climate. Covered topics will include best practices for both design and new construction, maintenance and preservation techniques, and what happens at the end of service life.

Who Should Attend
This workshop should be attended by city and county engineers, consultants, WYDOT personnel, street maintenance supervisors, construction technicians, maintenance crew leaders, and street maintenance workers.

Workshop includes lunch, breaks, and class material

Cancelation Policy
All registrants will be billed unless cancellations are received at least 5 business days prior to the workshop.

SPEAKERS
from American Concrete Pavement Association (ACPA)

Angela Folkstead
Executive Director
CO/WY Chapter ACPA

Angela represents the concrete pavement industry in Colorado and Wyoming as a resource to public and private owners, designers, and consultants in the design and construction of concrete pavements. Angela has over 20 years of engineering experience, of which were spent in the airport engineering field. She holds a Bachelor of Science degree in Civil Engineering from Iowa State University and is a registered professional engineer.

Sarah Sanders
Pavement Engineer
CO/WY Chapter ACPA

Sarah holds a Bachelor of Science degree in Civil Engineering from the University of Colorado and is a registered professional engineer. She started her career with a paving contractor as the Concrete Quality Manager, then worked for a consultant engineering firm before joining ACPA. Sarah’s focus is providing education, technical assistance and project support related to specifications, design, construction, and rehabilitation of concrete pavements throughout Colorado and Wyoming.
