

Dust

Numerical Rating	Verbal Rating	Description
4	None	No dust visible from raters' or others' vehicles.
3	Low	Minor dust emissions; Hard to see dust from the raters' vehicle; <i>Normal traffic produces a thin dust that does not obstruct visibility</i> ; Dust loss is a minor concern from a materials loss point of view.
2	Medium	Significant dust emissions; Easy to see dust from the raters' vehicles; <i>Normal traffic produces a moderately thick cloud that partially obstructs visibility and causes traffic to slow down</i> ; Dust loss is a major concern from a materials loss standpoint.
1	High	Heavy dust obscures vision and is a major traffic hazard; <i>Normal traffic produces a very thick cloud that severely obstructs visibility and causes traffic to slow down significantly or stop</i> ; Dust loss is a major concern from a materials loss point of view, but this loss is overshadowed by safety concerns.
U	Not Rated	Due to moisture in the top road surface material, dust was not assessed.

NOTE: Descriptions in *italics* are quoted from the USACE URCI method.
