Mission

We honor our heritage as the state's flagship and land-grant university by providing accessible and affordable higher education of the highest quality; rigorous scholarship; the communication and application of knowledge; economic and community development; and responsible stewardship of our cultural, historical and natural resources.

In the exercise of our primary mission to promote learning, we seek to provide academic and co-curricular opportunities that will:

- Graduate students who have experienced the frontiers of scholarship and creative activity and who are prepared for the complexities of an interdependent world;
- Cultivate a community of learning energized by collaborative work among students, faculty, staff and external partners;
- Nurture an environment that values and manifests diversity, internationalization, free expression, academic freedom, personal integrity and mutual respect; and
- Promote opportunities for personal health and growth, physical health, athletic competition and leadership development for all members of the university community.

As Wyoming's only public university, we are committed to scholarship, outreach and service that extend our human talent and technological capacity to serve the people in our communities, our state, the nation and the world.

ity by providing accessible and affordable higher education of the highest quality; rigorous scholarship; the communication and application of knowledge; economic and community development; and responsible stewardship of our cultural, historical and natural resources. In the exercise of our primary mission to promote learning, we seek to provide academic and co-curricular opportunities that will:

- Graduate students who have experienced the frontiers of scholarship and creative activity and who are prepared for the complexities of an interdependent world;
- Cultivate a community of learning energized by collaborative work among students, faculty, staff and external partners;
- Nurture an environment that values and manifests diversity, internationalization, free expression, academic freedom, personal integrity and mutual respect; and
- Promote opportunities for personal health and growth, physical health, athletic competition and leadership development for all members of the university community. As Wyoming's only public university, we are committed to scholarship, outreach and service that extend

our human talent and technological capacity to serve the people in our communities, our state, the nation and the world.

University of Wyoming Non-Discrimination Statement

The University is committed to equal opportunity for all persons in all facets of the University's operations and is an Equal Opportunity/ Affirmative Action Employer. The University will provide all applications for admissions, employment and all University employees with equal opportunity without regard to race, gender, religion, color, national origin, disability, age, protected veteran status, sexual orientation, gender identity, genetic information, creed, ancestry, political belief, or any other applicable protected category or participation in any protected activity. The University ensures non-discriminatory practices in all matters relating to its education programs and activities and extends the same non-discriminatory practices to recruiting, hiring, training, compensation, benefits, promotions, demotions, transfers, and all other terms and conditions of employment.

The University is also committed to complying with all of the rules, regulations, and relevant orders of the Secretary of Labor and the Office of Federal Contract Compliance Programs (OFCCP), issued pursuant to Executive Order 11246, the Vietnam Era Veterans' Readjustment Assistance Act, and Section 503 of the Rehabilitation Act of 1973, and has an audit and reporting system to facilitate compliance.

It is the continuing, active, individual responsibility of each principal Administrative Officer, Dean, Department and Division Head or Supervisor to assure that the University's Equal Employment Opportunity policy is followed when making decisions related to recruiting, hiring, training or promoting qualified persons.

For more information please see UW Regulation 1-3 (Equal Education and Equal Employment Opportunity Statement and Policy/Diversity Program).

University Communication Statement

The University of Wyoming assigned email account shall be one of the official means of communication with all students, faculty, and staff. All community members are responsible for all information sent to them via their University assigned email account. Members who choose to manually forward mail from their University email accounts are responsible for ensuring that all information, including attachments, is transmitted in its entirety to the preferred account.

All faculty, staff, and students are required to maintain an @uwo.edu computer account. This account provides both an online identification key and a University official email address. The University sends much of its correspondence solely through email. This includes, but is not limited to, policy announcements, student account billing notifications, emergency notices, meeting and event notifications, course syllabi and requirements, and correspondence between faculty, staff, and students. Such correspondence is mailed only to the University official email address.

Faculty, staff, and students are expected to check their email on a frequent and consistent basis in order to stay current with University-related communications.

Faculty, staff, and students have the responsibility to recognize that certain communications may be time-critical.

Undergraduate Admission

UW welcomes all students to apply and will consider each student based on their individual academic achievement. Admission and programs of the University of Wyoming are offered to all eligible people without regard to race, gender, religion, color, national origin, disability, age, protected veteran status, sexual orientation, gender identity, genetic information, creed, ancestry, political belief, or any other applicable protected category. The Director of Admissions, through the Provost, is responsible for the admission of students. Admission of graduate students must also be recommended by the department of an applicable graduate program.

I. Definitions

Diploma: A formal document certifying the successful completion of a prescribed program of studies.

First Time Student: A student who has no prior postsecondary experience attending any institution for the first time at the undergraduate level. There are two exceptions: (1) students who attended any institution for the first time the summer prior to entering the University of Wyoming in the fall term and (2) students who enter UW with advanced standing (college credits earned before graduation from high school).

High School Student: A student enrolled in secondary school or pursuing a high school diploma or recognized equivalent. Includes students who have not received but are pursuing a high school diploma or recognized equivalent and taking college coursework concurrently.

High School Success Curriculum: Coursework during high school that includes successful completion of the following:

- Four (4) years of English;
- Four (4) years of math (including algebra I, II, and geometry);
- Four (4) years of science (including at least one year of physical science);
- Three (3) years of social science;
- Four (4) years of additional coursework including at least two (2) years of related courses taken in sequence (including fine and performing arts, career-vocational education, or foreign language).

Nationally Standardized Tests: ACT Assessment (ACT) or SAT Assessment (SAT) test results. Test results must be sent to the Admissions Office. SAT Assessment scores will be based off the Evidence-Based Reading and Writing + Math sections.

Returning Student: A student who previously attended UW but has not been enrolled for three consecutive semesters, including a summer term.

Transfer Student: A student entering the University of Wyoming for the first time but known to have previously attended a postsecondary institution at the same level (e.g., undergraduate, graduate). The student may transfer with or without credit.

II. Undergraduate Admission Requirements

All applicants for admission under twenty-one (21) years of age or transfer students who have fewer than twelve (12) transferable semester credit hours after high school, must provide an official copy of their ACT or SAT test results. Test results must be sent to the Admissions Office.

A. First Time Students

Admission into a degree seeking program shall be based on individual academic achievement. The University seeks to admit qualified undergraduate students who are new first time students or students that are concurrently enrolled in post-secondary education classes.

To be considered for admission, prospective students must submit an application, a one-time nonrefundable application fee, official high school transcripts (or high school equivalency exam), and an official ACT or SAT test score (if the applicant is under 21) to the University's Office of Admissions.

B. Assured Admission

Assured undergraduate admission shall be granted to high school graduates who meet the following requirements:

1. A cumulative, unweighted high school GPA of 3.000 (on a 4.000 scale)
2. A minimum composite ACT score of 21 or SAT score of 1060; and
3. Completion of the High School Success Curriculum while attending high school.

*UW is test optional for admission purposes for incoming students through fall 2025, spring 2026, and summer 2026. PLEASE NOTE: check where test scores are required for scholarship consideration.

C. Admission with Support

Undergraduate admission with support shall be granted to high school graduates who meet the following requirements:

1. A cumulative, unweighted high school GPA of 2.500-4.000 and a minimum ACT score of 17 or SAT score of 900, or 2.250-2.490 and a minimum composite ACT score of 20 or SAT score of 1020; and
2. Completion of the High School Success Curriculum with no more than two deficiencies. Both deficiencies cannot occur in the same curriculum category.

Students admitted with support are required to participate in the University's academic transition programs administered by the Learning Resource Network (LeaRN).

*UW is test optional for admission purposes for incoming students through fall 2025, spring 2026, and summer 2026.

D. Admission with Alternative Educational Credentials

Undergraduate applicants with General Education Development (GED) credentials or other approved alternative educational credentials (i.e., High School Equivalency Test (HiSet)) should contact the University's Office of Admissions for specific application requirements. Students under 21 years of age with GED or the approved credentials must also have a minimum ACT score of 17 or SAT score of 900.

E. Transfer Students

Transfer students with twelve (12) or more transferable hours after high school must submit an application, a one-time nonrefundable application fee, and official transcripts from each previously-attended higher education institution. Transfer students must have at least a 2.000 cumulative GPA for undergraduate admission.

Transfer students with eleven (11) or less transferable hours after high school must also submit, official high school transcripts (or approved alternative education credentials), official ACT or SAT test score (if the applicant is under 21) and official transcripts from each previously-attended higher education institution. Admissions to transfer students with eleven (11) or less transferable hours must have at least a 2.000 cumulative GPA as well as meet the assured admissions requirements for first time students.

Official transcripts must be sent directly from the institution(s) to the University's Office of Admissions. Failure to disclose all previously attended institutions will be seen as a deliberate attempt to withhold academic history and may be reason for denied admissions and/or dismissal.

F. Home Schooled Students

Home schooled students shall be considered for admissions under the same requirements as First Time students.

G. Returning Students

Students returning to the University of Wyoming after not registering for classes for three or more consecutive semesters, including a summer term will need to submit a new application, provide official transcripts from all institution(s) attended since leaving the University of Wyoming, and be in good academic standing. Failure to disclose information about all institution(s) attended will be seen as a deliberate attempt to withhold academic history and may be reason for denied admissions and/or dismissal. Returning students must have a minimum 2.000 cumulative GPA from all undergraduate institutions.

Students suspended from the University of Wyoming must complete the reinstatement process. Academic reinstatement to the University of Wyoming does not constitute admissions to the institution. Students seeking reinstatement are required to meet admissions eligibility and criteria.

H. Holistic Alternative Admission

The University has the discretion to admit students who do not qualify under the above-described criteria.

III. International Students

Admission of international students is governed by the Admission Policy for International Students. This Policy is supplementary to the general admission policies described in this Regulation and provides for general admission standards for all international student applicants, including procedures for review and consultation with the various academic colleges and departments.

The Admission Policy for International Students shall be maintained and revised as determined by the Provost. Revisions are subject to the approval of both the Provost and the Vice Provost for Enrollment Management, and shall become effective from the date of their approval.

The Admission Policy for International Students shall be published and distributed by the Office of Admissions and will be available through the Admission Office's website.

IV. High School Guests

High school students requesting admission as high school guests must submit transcripts demonstrating a cumulative high school GPA of 3.000 on a 4.000 scale (official high school transcripts must be sent directly from the high school to the Office of Admission); a written recommendation from a high school counselor or principal; and official ACT or SAT test scores, if any.

V. Non-Degree Students

The non-degree admission status is a special status that is not available to international students or students who have a suspension status at UW or another college or university.

Applicants seeking admission as non-degree undergraduate students must submit an application and a one-time nonrefundable application fee to the Office of Admissions. Under this admission status, undergraduate students may take a maximum of eight (8) credit hours per semester and cannot apply more than twelve (12) total credits taken as a non-degree student toward an undergraduate degree.

VI. Second Bachelor's Degree Students

Students who have received a bachelor's degree from the University of Wyoming and are seeking a second bachelor's degree, but have not taken coursework since graduation, must submit a new application.

Students who have received a bachelor's degree from another institution, or who graduated from the University of Wyoming and have taken courses at another institution since leaving the University, must submit an application, a one-time nonrefundable application fee, and official transcripts from each previously-attended higher education institution. Official transcripts must be sent directly from the institution to the University's Office of Admissions.

Graduate Admission

I. Graduate Applicants

Prospective students are encouraged to consult with their respective academic department regarding the admission process before making a formal UW application.

Applicants must submit the UW graduate application and the nonrefundable application fee. One set of official transcripts must be sent directly to the UW Admissions Office from each previous collegiate institution.

Domestic applicants must have completed a bachelor's degree or equivalent from a regionally accredited institution. All applicants should have at least a 3.000 cumulative GPA (scale of 4.000).

Some graduate programs may require standardized examination scores for admission.

Applicants whose department requires the Graduate Record Examination (GRE) must request official scores be sent to the Admissions Office directly from the Educational Testing Service (ETS). Our institution code with ETS is 4855.

Some departments may require scores from the Graduate Management Admission Test (GMAT), rather than the GRE.

Letters of recommendation may also be required by some departments. Please see the academic department or program entries elsewhere in the Catalog for details about admission requirements.

Graduate applicants should contact the respective academic departments for questions concerning application status, degree program requirements, deadlines, and supplemental application materials they may require.

A. Admission Status Categories

Advanced-degree applicants may be admitted to the University of Wyoming in one of the following categories:

1. Admitted Graduate Student signifies the applicant has been accepted by the university and by a major department to work toward an advanced degree.
2. Conditional admission of a Graduate Student signifies the applicant did not meet the formal admission requirements but has sufficient potential that the university and the major department are convinced that the student will be successful as an advanced-degree candidate. Conditions are usually placed on such students in the form of performance criteria for the first one or two semesters. If the conditions of admission are not met within first two semesters, the student may be denied admission to the university graduate program and the degree program. At minimum, conditionally admitted graduate students must maintain a 3.000 GPA through their first semester. Failure to do so will result in revocation of admission. More restrictive conditions may be defined by the department.

Students admitted with graduate standing may elect to take any undergraduate or graduate courses for which they are prepared, subject to restrictions as outlined in the *University Catalog*. However, tuition will be assessed at the graduate level for all courses taken with graduate status. Admission to graduate study does not automatically make a student a candidate for an advanced degree.

Note: Students working toward a second bachelor's degree are not considered graduate students and are subject to all undergraduate regulations.

B. Alternative Track Graduate Admissions (ATA)

Alternative Track graduate admissions are only available to individuals who have had at least two years* of relevant post-baccalaureate professional experience and whose undergraduate cumulative GPA is less than 3.000. Applicants who do not meet these basic criteria must be considered via regular graduate admissions. Applicants who do not meet the basic institutional, college and/or program regular admissions criteria may be considered for conditional admission.

Admission via the Alternative Track is full graduate admission. If a student is admitted via ATA, they are admitted fully and are not subject to any of the restrictions that would come with conditional admission. No conditional admissions will be allowed under Alternative Track admissions; all conditional admissions must go through the regular track admissions process.

*Programs may specify a longer period of post-baccalaureate professional experience. Please consult with the program in which you are interested.

Alternative Track Application Materials

The following must be submitted by the applicant to be considered for Alternative Track admission:

- Official transcripts of collegiate work completed, including any post-baccalaureate coursework. U.S. Military training transcripts that show neither grades nor degrees awarded may be submitted but are not required as part of the transcript requirement.
- A minimum of two letters of recommendation from:
 - a current or former college/university instructor of the applicant; and/or
 - a current or previous professional supervisor of the applicant.
 - Additional letters may be required by programs at their discretion.
- A statement of purpose that contains the applicant's:
 - Professional/career goals.
 - Educational goals.
 - Statement of how the graduate program will help the applicant attain their educational and professional goals.

- Explanation for why the applicant would choose the University of Wyoming for graduate study.
- A full resume that contains:
 - Record of all post-secondary academic work, including the names of the institutions, dates of attendance, and degrees earned.
 - Record of all professional employment including dates for each (including any military service, AmeriCorp, PeaceCorp, Fulbright, etc. work experience).
 - Any special skills or competencies (including any certifications or licenses).
 - List of publications, prizes, awards, or other recognitions.
 - List of service/volunteer activities.

Please contact the program in which you are interested to see if Alternative Track Admissions is an option.

II. International Graduate Applicants

All graduate international students must submit the following in addition to the UW graduate application, official transcripts, and application materials required by the academic department.

1. Provide proof of English proficiency if student's native language is not English. The University of Wyoming's institutional minimum acceptable TOEFL score is 540 (76 iBT) and the minimum acceptable IELTS score is 6.5. TOEFL and IELTS scores must be sent directly from the testing agency to be considered official. Please note that some programs/departments require higher TOEFL/IELTS scores than what is required by the Admissions Office.
2. Provide proof of financial support. The Confidential Financial Statement for graduate international applicants can be found on the Admissions Office page, <http://www.uwyo.edu/admissions/international/requirements-graduate.html>. Students who are awarded a full graduate assistantship may not need to provide this documentation.
3. Provide a copy of student's passport. This passport copy can be submitted via a scanned e-mail to admissions@uwyo.edu.

More information on the international admission requirements for graduate students can be found on the Admissions Office website, <http://www.uwyo.edu/admissions/international/requirements-graduate.html>.

III. Graduate Non-Degree Student

1. Must complete and submit a Non-Degree Student application including a non-refundable application fee.
2. Transcripts are required for proof of undergraduate degree for non-degree status, and must be submitted to the Admissions Office.
3. Non-degree students may enroll in a maximum of 8 credit hours per semester (maximum of two courses). Only 12 credit hours taken in this status may be used towards a UW degree. This 12-credit hour rule may be decreased if prior courses were reserved for graduate credit as either an undergraduate or as non-degree student.
4. Admission with non-degree status is not available to international students or students on suspension.
5. Students admitted with non-degree status are assessed tuition and fees at the same tuition rate as degree-seeking students.
6. Students admitted with non-degree status do not qualify to receive financial aid.
7. Non-degree graduate students who decide to pursue a degree must apply to and be accepted by their respective graduate program and the Admissions Office.

IV. Western Interstate Commission for Higher Education (WICHE) Western Regional Graduate Program (WRGP)

The Western Interstate Commission for Higher Education (WICHE) was created in 1953 by the governors and legislators of the western states. The primary commitment is to provide access to educational programs through interstate cooperation. Wyoming provides opportunities for qualified residents in the following programs:

Western Regional Graduate Program (WRGP) provides opportunities for qualified Wyoming residents to attend distinctive or health-related graduate programs in participating WICHE states and territories. Those accepted pay resident or significantly reduced tuition at the school they attend. Graduate students from WICHE states or territories interested in the Haub School of Environment and Natural Resources, Doctorate of Nurse Practice and Graduate Social Work may be eligible for reduced tuition via the WRGP program.

Information about WICHE WRGP program may be obtained from the WICHE Certifying Office; Dept. 3432, 1000 E. University Ave, Laramie, WY 82071; (307)766-3499 or certoff@uwyo.edu or from WICHE, 3035 Center Green Drive, Suite 200; Boulder, CO 80301-2204, (303) 541-0214.

College of Law Admission

(307) 766-5419

E-mail: lawadmis@uwyo.edu

Web site: www.uwyo.edu/law/

1. Admission to the professional curriculum of law is granted by the College of Law Admissions Committee. The College of Law reserves the right to restrict the number of entering students to a class size consistent with its facilities and its educational objectives. Additional information and requirements are provided on the College of Law website.
2. Complete the electronic University of Wyoming College of Law Application for Admission through LSAC between September 1 and April 30. Applications received by December 15 will be considered for early admission.
3. Submit the application fee online through the College of Law website or by sending a check or money order to the College of Law.
4. Applicants must have a bachelor's degree from an accredited college or university (subject to some limited exceptions).
5. Take the Law School Admission Test (LSAT) administered by the Law School Admission Council (LSAC) no later than the April administration. Beginning in 2019, the LSAT will be given ten times each year at numerous locations within and outside of the United States. Information about the test, dates, test locations and application form may be obtained from LSAC, Box 2000, Newtown, PA 18940-0998, (215) 968-1001, or on the Web at www.lsac.org.
6. Register with LSAC's Credential Assembly Service (CAS) between September and January. Registration with CAS can be completed through the LSAC website (www.lsac.org). An official transcript from each college attended must be sent directly to CAS. It is advisable to register with CAS at the same time one registers for the LSAT. CAS prepares a report and forwards a copy to each law school to which application has been made. Applicants do not send transcripts directly to the College of Law until they are admitted. For more information about CAS, go to www.lsac.org.
7. International students must supply current TOEFL scores. Minimum scores required for admission are 600 on the written exam or 100 on the internet-based exam. International students must take the LSAT exam and register with the Law School Admissions Council (www.lsac.org). If a transcript analysis will not be provided by the LSAC for any foreign educational institutions attended, official transcripts must be provided with an English translation.

School of Pharmacy Admission

Admission to the preprofessional pharmacy program is through the university admission process described previously.

Admission to the professional curriculum leading to the entry-level professional Doctor of Pharmacy (Pharm.D.) degree is granted by the Dean of the School of Pharmacy upon the advice of the School of Pharmacy Admissions Committee. The application process requires that students apply to the School of Pharmacy using PharmCAS, for more information about PharmCAS log on to www.Pharmcas.org. Admission to the professional program is limited and competitive. The Pharmacy Early Assurance program grants provisional admission to the professional program to qualified freshman who meet program requirements. All preprofessional students participate in the pharmacy application process. For further information, contact the School of Pharmacy, Dept. 3375, 1000 E. University Ave., Laramie, WY 82071; (307) 766-6132.

Professional Health Access Programs

Western Interstate Commission for Higher Education (WICHE) Professional Student Exchange Program (PSEP)

The Western Interstate Commission for Higher Education (WICHE) was created in 1953 by the governors and legislators of the western states. The primary commitment is to provide access to educational programs through interstate cooperation. Wyoming provides opportunities for qualified residents in the following programs:

Professional Student Exchange Program (PSEP) offers certified Wyoming residents access to professional education in the fields of dentistry, medicine, occupational therapy, optometry, osteopathic medicine, physical therapy, physician assistant, podiatry, and veterinary medicine. To be eligible for certification, the applicant or a spouse must be a legal resident of the State of Wyoming for one year immediately prior to enrolling in professional school. Applications for certification are available by June 1 at www.uwyo.edu/certwy and are due no later than October 15 of the year preceding the anticipated start date of professional school. Applicants who are accepted to a professional program and who receive state support pay reduced tuition. In all fields except veterinary medicine, students receiving state support must either pay back the money expended on their behalf, or practice in their fields in the state of Wyoming for three years. State support is dependent on continued appropriations from the Wyoming State Legislature. The University of Wyoming School of Pharmacy welcomes applicants from residents of Alaska, Nevada and the CMNI through the PSEP program. Students accepted through PSEP may be eligible for tuition support from their home state or territory.

Information about WICHE PSEP program may be obtained from the WICHE Certifying Office; Dept. 3432, 1000 E. University Ave, Laramie, WY 82071; (307)766-3499 or certoff@uwyo.edu or from WICHE, 3035 Center Green Drive, Suite 200; Boulder, CO 80301-2204, (303) 541-0214.

WWAMI Medical Education Program

WWAMI is a contract program between the State of Wyoming and the University of Washington School of Medicine for medical education. Admission is twofold.

1. Applicants must be certified residents of Wyoming. To be eligible for certification, the applicant or parent or guardian must be a legal resident of the State of Wyoming for five continuous years immediately prior to enrolling in the WWAMI program. The application for certification is available by June 1 at www.uwyo.edu/certwy and is due no later than October 15 of the year prior to the anticipated start date of medical school. Participants pay reduced tuition and must either pay back the money expended on their behalf plus interest or practice medicine in Wyoming for three years.
2. Applicants apply to the University of Washington School of Medicine through the usual procedures and are subject to criteria established by the University of Washington.

Information may be obtained from the WWAMI Certifying Office, Dept. 3432, 1000 E. University Ave., Laramie, WY 82071; (307) 766-3878 or certoff@uwyo.edu.

WYDENT Dental Education Program

WYDENT is a contract program between the State of Wyoming and the University of Nebraska College of Dentistry and Creighton University School of Dentistry for dental education. Admission is twofold.

1. Applicants must be certified residents of Wyoming. To be eligible for certification, the applicant or parent or guardian must be a legal resident of the State of Wyoming for five continuous years immediately prior to enrolling in dental school. The application for certification is available by June 1 at www.uwyo.edu/certwy and is due no later than October 15 of the year prior to the anticipated start date of dental school. Participants pay reduced tuition and must either pay back the money expended on their behalf or practice dentistry in Wyoming for three years.
2. Applicants must apply to the dental schools through the usual procedures and are subject to admission criteria established by the dental schools.

Information is available from the WYDENT Certifying Office; Dept. 3432, 1000 East University Ave; Laramie WY 82071; (307) 766-3878 or certoff@uwyo.edu.

Other Information

Western Interstate Commission for Higher Education (WICHE) Western Undergraduate Exchange (WUE)

The Western Interstate Commission for Higher Education (WICHE) was created in 1953 by the governors and legislators of the western states. The primary commitment is to provide access to educational programs through interstate cooperation. Wyoming provides opportunities for qualified residents in the following programs:

Western Undergraduate Exchange (WUE) allows residents of participating states and territories to attend a participating institution at reduced cost of 150% of the institution's resident tuition. Not all programs in the participating states offer WUE opportunities. The University of Wyoming invites competitive graduating high school senior from all WUE states and territories to apply for the WUE tuition discount. All undergraduate UW majors are eligible for WUE support. Information is available from the UW Admissions Office.

Wyoming Senior Citizen Policy

Wyoming senior citizens, age 65 and over, who have been admitted to UW may enroll in university courses on a space available basis at no cost upon presentation of evidence of age and Wyoming residence prior to the beginning of the term in which classes will be taken.

Scheduled Distance Education classes which meet minimum enrollment requirements are included in the courses available to senior citizens.

Board of Trustee Retirement Benefits

Beginning Spring 2002, official board retirees may attend University of Wyoming classes on a space available basis at no cost. To qualify for this benefit, you must be an official board retiree, 25 years of university service or age 60 with 15 years of immediately preceding university service. The spouse of an eligible retiree may receive a fifty (50) percent tuition discount and a surviving spouse may receive the employee's full tuition discount provided space is available. The spouses must contact Student Financial Services at sfs@uwyo.edu or (307) 766-6233 in order for this benefit to be applied.

Readmission

Readmission is the process for former University of Wyoming students to again be admitted to the university. Former UW students who have attended another college since their last UW enrollment must have one official transcript from each college sent directly to the UW Admissions Office. Undergraduate students who are returning to UW after an absence of one year or longer should complete an application for admission at least 30 days prior to registration, thereby allowing sufficient time to avoid delays in registration.

Academic Reinstatement: Former students who are on academic suspension at UW must petition for reinstatement through the dean of their college. A petition for reinstatement must be submitted no later than 15 days before the beginning of the semester or summer term in which the student wishes to register. A petition received after this deadline may not be processed until after the regular registration period.

Academic Renewal: An undergraduate student who returns to UW and has not completed a college course at UW, during the previous five years, will have the option of continuing his or her earlier UW cumulative GPA or commencing a new cumulative GPA under the Academic Renewal policy. Interested students must submit the Academic Renewal Application Form (which can be obtained in the Office of the Registrar) to the registrar no later than ten class days before the last day of classes of the semester in which the student returns to UW.

The entire UW transcript will remain intact. A note indicating the policy will precede the new part of the UW transcript if the student opts for academic renewal. At the discretion of the academic department in which the student is enrolled, credit hours for which the student earned the grade of C or better may be applied toward the completion of the degree requirements. The list of any departmentally approved courses must be indicated on the Academic Renewal Application Form when initially submitted to the registrar. No further changes may be requested.

A student's GPA and completed courses that were applied to a baccalaureate degree are not eligible for academic renewal.

Readmission for Military Service Members

Policy

The University of Wyoming acknowledges that students may be temporarily unable to attend classes or be required to suspend their studies in order to perform military service. UW encourages such students to resume their education once a military service obligation has ended and adopts this policy to ensure the timely readmission of such students.

In accordance with federal regulations, 34 C.F.R. 668.18 and the Department of Defense (DOD) Voluntary Partnership Memorandum of Understanding (MOU), the university will promptly readmit service members who seek readmission to a program that was interrupted due to a uniformed service obligation.

Student Responsibility

The student must provide oral or written notice of a uniformed service obligation to the Veterans Service Center as far in advance as possible, unless precluded by military necessity. Such notice does not need to indicate when the student will return to the university.

Tuition and Fees

A returning student must be charged the same tuition and fees in effect during the last academic year the student attended, unless veteran's education benefits or other service member education benefits will pay the amount in excess. For subsequent academic years, the returning student may not be charged tuition and fees in excess of what other students in the program are charged.

Readmission Requirements

A returning student will be permitted to reenroll in the next semester scheduled in the same academic program, unless the student requests a later date of reenrollment or agrees to a different program. A returning student will be readmitted into the same academic program the student was enrolled in prior to the military service or the student requests admission to a different program.

If the university determines that a returning student is not prepared to resume the program or is unable to complete the program, the university must make reasonable efforts to enable the student to resume or complete the program at no additional cost to the student. If such efforts are unsuccessful or place an undue hardship on the university, the university is not required to readmit the student.

In accordance with federal regulations, returning student who receive a dishonorable or bad conduct discharge from the Armed Forces (including the National Guard and Reserves) are not eligible for readmission under this policy. However, service members who receive dishonorable or bad conduct discharge may remain eligible for readmission even though they will not be entitled to the benefits outlined in this policy.

Residency Student Classification

The following Trustee regulations govern the classification of students at the University of Wyoming as resident or non-resident for tuition purposes, and shall be administered by the Associate Vice President for Enrollment Management and Registrar. (Trustee Regulation, Chapter VIII, Section 3.) See the University Regulations online for the most up-to-date version.

Student Classification for Tuition Assessment

Residing in Wyoming primarily as a student will not support a claim for resident status for tuition purposes. Qualifying for residency for tuition purposes at the University of Wyoming differs from what is normally required to be a "resident" of the State of Wyoming. A person may be considered a "resident" of Wyoming and still be a Non-Resident for tuition purposes at the University of Wyoming.

The governing regulation for residency classification for tuition and fee purposes, as approved by the University of Wyoming Board of Trustees, is UW Regulation 2-200. See the University Regulations online for the most up-to-date version.

Process

The University of Wyoming will determine the initial classification of resident or nonresident status for tuition purposes. Students classified as nonresidents who feel they meet residency requirements may apply to change their status through a form approved by the Office of the Registrar.

If a student classified as an out-of-state resident for tuition purposes wishes to petition their residency status at the University of Wyoming, they will need to conclusively demonstrate they have established a permanent home in Wyoming. Students must submit the Petition for Residency for Tuition Purposes, along with all specified relevant, appropriate, and verifiable documentation to the Office of the Registrar. The deadline for submission is no later than 5 p.m. of the first day of classes for the semester the student wishes to petition, based off of the University's academic calendar. The student bears the burden of providing documentation to show a permanent home has been established in Wyoming based on the required criteria of UW Regulation 8-1(III)(B)(8). See the University Regulations online for the most up-to-date version.

The Registrar or designee will evaluate the student's petition and documentation to determine whether the student has established a permanent home in Wyoming based on the requirements set forth in UW Regulation 8-1(III)(B)(8) or met any other residency criteria in UW Regulation 8-1. See the University Regulations online for the most up-to-date version. If a student subsequently meets the criteria of being a resident for tuition purposes, the student's residency status will be reclassified by the Office of the Registrar and the resident tuition rate will become effective the semester the student submitted the petition. Under no circumstances will any tuition or fee adjustments be retroactively applied to previous semesters.

If a student's petition is denied, the student will be notified in writing of the denial.

Appealing the Registrar's Decision

If a student has a petition denied by the Registrar, the student may appeal the decision by submitting the Denied Residency Petition Appeal form to the Office of the Registrar within ten (10) calendar days of the original decision by the Registrar or designee.

The Residency Classification Committee will receive the student's Denied Residency Petition Appeal form, the written decision of the Registrar, and the student's previously-submitted petition and documentation which were submitted to the Registrar prior to the submission deadline for that semester. The Residency Classification Committee will determine if an error was made by the Registrar and will make a decision to affirm or reverse the classification decision of the Registrar. The decision of the Residency Classification Committee is final and there is no further level of appeal for that semester.

Measles, Mumps, Rubella (MMR)

Immunization Requirement

The University of Wyoming has implemented a policy to protect the University community against measles (rubeola), mumps, and rubella. All new on-campus students must provide proof of immunity to measles, mumps, and rubella prior to registration. Two doses of MMR vaccine (or equivalent) are required. The MMR immunizations dates are to be entered into the Student Health Service Patient Portal (on the Student Health Service's webpage, <http://www.uwyo.edu/shser/>). Incoming students will use their UW user names and passwords to enter the Patient Portal, and click on Immunizations. Once the immunization dates are entered, students will upload a verified immunization record into the Patient Portal.

The only contraindication to the MMR immunization is a previous severe allergic reaction to the vaccine or vaccine component (neomycin, gelatin). Relative (temporary) contraindications include: pregnancy; persons with immunosuppressive illnesses or treatment; moderate or severe acute illness; and recent receipt of blood products. If you are uncertain as to whether you should receive the immunization, please talk with your health care clinician.

Exemptions may be granted to the requirement in two instances: a medical exemption for a contraindication noted above, and a religious exemption. A medical exemption requires completion of the Medical Exemption Form with a notation of the reason for the exemption and a medical clinician signature. To request a religious exemption, a notarized form must be completed and submitted. Exemption forms can be found on the Student Health Service website (www.uwyo.edu/shser/), and the original form must be submitted. If an outbreak of one of these illnesses occurs on campus, students granted an exemption may be excluded from campus for the duration of the outbreak.

For students unable to verify MMR vaccinations, the vaccine is available at the Student Health Service for a nominal charge. It will be administered prior to registration for any eligible student, without an appointment, during office hours. Do not wait until registration to comply with the MMR immunization requirement, as this will delay the process.

In addition to the MMR requirement, international students are required to undergo tuberculosis screening prior to registration. Based on screening, a tuberculosis (Mantoux) skin test or (IGRA) blood test may be performed, and, if positive, a chest x-ray obtained with consultation with a Student Health Service physician. The student is responsible for the costs incurred for these tests.

Campus Safety

The University of Wyoming Police Department (UWPD) provides comprehensive law enforcement and security services to all components of the University including the academic campus, and other properties owned or controlled by the University. The University Police Officers are commissioned under Wyoming State Statute and have the full range of police authorities granted any peace officer including power to arrest, on property owned by or under the control of the University of Wyoming, including adjacent public streets and sidewalks. University Security Officers work closely with our police officers in constantly patrolling University properties and assisting employees and visitors in accessing University facilities. The UWPD operates 24 hours a day, 365 days a year, and is located at 1426 East Flint, Laramie, Wyoming 82071.

Campus safety is the responsibility of all members of the university community. Faculty/staff, students, and guests are encouraged to report crimes and other concerning behavior or observations promptly. The Dean of Students Office, Student Conduct, The STOP Violence Program, and the Office of Diversity and Employment Practices are available to provide further information.

A full description of campus safety, crime statistics, and educational programs designed to increase safety on campus is available in the 2014 Annual Security and Fire Safety Report of the University of Wyoming. To access the report, go to www.uwyo.edu/uwpd/_files/2015uwsecurityreport.pdf.

Degree Programs

Degree Programs

College of Agriculture, Life Science and Natural Resources

151 Agriculture Building

Barbara Rasco, Dean

Phone: (307)766-4135 Fax: (307)766-4030

Web site: www.uwyo.edu/uwag

The College of Agriculture and Natural Resources offers a wide variety of course work in agriculture, natural resources, molecular biology, and family and consumer sciences. The curriculum provides a sound background in basic sciences and the choice of a number of fields in which to specialize. Students are trained in principles which apply throughout the world, with special emphasis on agriculture and natural resources found in the Rocky Mountain region.

Laboratory work and other experiential learning opportunities are stressed in all programs. Students receive excellent training from case studies and practical experience provided at research and extension centers. Other facilities include modern laboratories and classrooms, an abattoir, meat processing rooms, livestock and crop farms and greenhouses.

In addition to the academic departments, the college includes the Agricultural Experiment Station and the UW Extension. Materials and techniques resulting from this effective triple combination benefit students in the never-ending search for problem-solving information. The close relationship between teachers, researchers, and extension educators creates a learning atmosphere that encourages the development of the finest students.

Programs of Study

Undergraduate Degrees

Bachelor of Science

Agricultural business

Agricultural communications

Animal and veterinary science

Microbiology

Molecular biology

Plant Production and Protection

Rangeland ecology and watershed management

Bachelor of Science in Family and Consumer Sciences

Graduate Degrees

Master of Arts

Molecular biology

Master of Science

- Agricultural and applied economics
- Agricultural economics/water resources
- Animal and veterinary sciences
- Entomology
- Entomology/water resources
- Family and consumer sciences
- Food science and human nutrition
- Molecular biology
- Plant sciences
- Rangeland ecology and watershed management
- Rangeland ecology and watershed management/water resources
- Reproductive biology
- Soil science
- Soil science/water resources

Doctor of Philosophy

- Animal and veterinary science

- Biomedical Sciences
- Entomology
- Molecular and cellular life sciences
- Molecular biology
- Plant sciences
- Rangeland ecology and watershed management
- Reproductive biology
- Soil science

The following certificates and/or degrees in the College of Agriculture and Natural Resources are available through Distance Education:

- Certificate: Early Childhood Program Director
- Online bachelor's degrees: Family and Consumer Sciences (Professional Child Development Option)

For more information, contact the College of Agriculture and Natural Resources Office of Academic and Student Programs.
Phone: (307)-766-4135

The College of Agriculture and Natural Resources also offers a graduate certificate in reclamation and restoration ecology. For more information, contact the Department of Ecosystem Science and Management.

Basic Education Core

All undergraduates in the College of Agriculture and Natural Resources curriculums are required to follow the basic education core as noted below.

Core Components (USP 2015).....Hrs.

First-Year Seminar (FYS).....3

Quantitative Reasoning (Q)	3
Communication 1 (COM1).....	3
Communication 2 (COM2).....	3
Communication 3 (COM3).....	3
Human Culture (H)	6
Physical & Natural World (PN).....	6
U.S. and Wyoming Constitutions (V).....	3
Subtotal (min. core requirements)	30
Hours for major, support areas and electives as determined by division...	90-98
Total Hours 120-128	

Core Components (USP 2003)

Core Components (USP 2003) Hrs.

Intellectual Community (I)	1-3
Writing 1 (WA)	3
Oral Communication (O).....	3
Quantitative Reasoning 1 (QA)*	3
Quantitative Reasoning 2 (QB).....	3
Science (S, SB, SP, SE).....	4-8
Cultural Context (C, CH, CS, CA).....	9
U.S. and Wyoming Constitutions (V).....	3
Physical Activity and Health (P).....	1
Subtotal (min. core requirements)	30-36
Hours for major, support areas and electives as determined by division....	79-91
Total Hours 120-128	

*Core Components are mutually exclusive of each other; hence, two core components may not be fulfilled by the same course. Except for the QA, core courses may have topics from the embeddable components list included in their curriculum, where appropriate.

Courses taken for S/U

A maximum of 20 elective hours with a grade of S (satisfactory) may be included as part of the total credit requirements for graduation; but no S/U hours may be used to satisfy university, major requirements or required electives, unless the course is offered for S/U grading only.

Minors in Agriculture and Natural Resources

Minors provide a formalized recognition of concentrated study in a specific subject area. A minor offers recognition for academic achievement outside of the students' major course curriculum and gives students a focus of work in the chosen minor area. A minors program can enable students to enhance and expand career opportunities. A minor will also improve the possibility of admission to graduate programs in any chosen major, minor, or related field of study.

Minors Available in the College of Agriculture and Natural Resources Include:

Agricultural business

Animal and veterinary science

Apparel design

Agroecology

Agronomy

Equine

Farm and ranch management

Forest resources

General agricultural economics

Horticulture

Human development and family sciences

Human nutrition

Insect biology

Interior design

International agricultural economics

Molecular biology

Natural resource economics

Plant Protection

Rangeland ecology and watershed management

Reclamation and restoration ecology

Soil science

Agricultural Communications Major

A wide variety of courses in agriculture, communications, and journalism provides students with basic preparation for positions as broadcasters, editors or writers for farm and home organizations, state and federal agencies, magazines, newspapers, radio and television stations, and commercial businesses. Communication skills are also distinct assets in agricultural sales, research, service and teaching. Students enrolled in agricultural courses acquire up-to-date and knowledgeable backgrounds of the subject matter. Courses in communication and journalism develop proficiencies demanded by employers of communication professionals.

Minimum Requirements for Agricultural Communications Majors (B.S.)

Hrs.

University Studies Program requirements..... 30

Communications/journalism core..... 24

COJO 1000, 1040, 2010, 2100 and minimum of 12 hours of communication/journalism elective. (Minimum grade of C required)

Agriculture core requirements..... 42

At least 18 hours must be lower division (Ag 1000-2000) elective courses, and at least 24 hours must be upper division (Ag 3000-4000) elective courses and include AGRI 4975.

Supporting course requirement4

STAT 2050 or 2070

Additional hours for major and electives 20

Total Hrs: 120

Students wishing to pursue an agricultural communications degree are encouraged to also select a minor. The college currently offers a variety of minors, and any of these can help to better prepare students for employment or graduate work. Agricultural communications majors may also complete an internship in their field. A variety of opportunities are available and students can work with their advisor to determine an appropriate internship for their area of emphasis.

Bachelor of Applied Science

160 Agriculture Building

Awarded by the College of Agriculture and Natural Resources

Phone: (307)766-4034 Fax: (307)766-4030; Web site: www.uwyo.edu/basa/

Organizations need leaders at all levels who can effectively understand the environment and society in which they operate; analyze situations and solve problems; supervise and manage, interact and communicate appropriately within and outside the organization; anticipate changes; and plan for the future. The Bachelor of Applied Science degree (B.A.S.) is designed for individuals with a completed Associate of Applied Science, Associate of Science, Associate of Business or an Associate of Arts degree at a Wyoming Community College (or an equivalent degree at another accredited institution) and who need or desire the additional breadth in skills, knowledge and professional expertise to enhance their capabilities in their own careers and in the organizations in which they work.

The fundamental philosophy of the B.A.S. degree is that the student must complete the general education (University Studies Program - USP) requirements expected of all UW bachelor's degrees and must engage in upperdivision coursework sufficient to provide focus and depth of learning. Following this philosophy, the B.A.S. has four basic components. These components are university studies, career specialty, professional concentration, and electives. The fundamental elements of the baccalaureate degree are provided by the general education core (USP) and the upper division professional concentration. At the end of the program, students are expected to meet the following Student Learning Outcomes:

- to develop proficiency in accessing, evaluating and utilizing information, ideas, and data;
- to develop proficiency in communicating information and ideas effectively and responsibly;
- to gain an appreciation for leadership development as a tool for individual, organization and community problem solving;
- to demonstrate an understanding of organizational design, behavior, ethical practices, and effective managerial and supervisory practices;
- to gain an understanding of social, cultural, economic and environmental contexts essential for effective leadership and the management of change.

The University Studies Program (USP 2015) consists of a minimum of 27 credit hours as adopted by the UW faculty, and the Articulation Agreement between UW and the Wyoming Community Colleges. Students with an Associate of Applied Science degree from a Wyoming community college will normally matriculate with 15-20 hours of credit that count toward this component. The remainder may be required as part of a UW student's coursework, including the Professional Concentration or Electives coursework.

The Career Specialty Component is fulfilled with the Associate of Applied Science, the Associate of Science, or Associate of Arts degrees. This component will consist of a minimum of 40 credit hours in the major.

The Professional Concentration Component is the advanced component of the program and the courses are selected by the student and the advisor. All students are required to take a range of courses from the prescribed set of areas of concentration within this component in order to provide them with the breadth and depth of learning necessary for a baccalaureate degree. This component will consist of 36-40 upper division or articulated equivalent credit hours. Note: Within the Professional Concentration, students have a choice between two Organizational Leadership areas. Option A focuses on Community Leadership; Option B focuses on Business Leadership.

The Elective Component will consist of the number of credit hours needed (after completing the other three components) to complete the degree components. A minimum of 120 hours is required for the B.A.S.

All University of Wyoming Students must earn a total of 42 upper division hours (at least 30 hours taken from UW), to earn their degree. Students in the B.A.S. program must earn a "C" in all courses on the B.A.S. checklist. Failure to do so will require repeating the course. Per university regulations, students may only attempt a course three times; an "F" or "W" count as attempts.

Application Process

All students must apply to the Bachelor of Applied Science program, including those who would like to change their major to the B.A.S. in Organizational Leadership. Students cannot just fill out a change of major form and have Admissions change their status. These are the steps for application:

- Apply to the University of Wyoming through Admissions, declaring the Bachelor of Applied Science in Organizational Leadership.

- Have official transcripts from all institutions attended sent to Admissions.

- Email BAS@uwyo.edu when you have received your acceptance to UW. Include your W# in the message. We can then track your files to evaluate them for the BAS program.

- Students will receive a letter telling the application decision. If a student is denied admission to the BAS, an explanation for the denial will be provided. If accepted, the student will be given information for how to work with the program advisor, Rosalind Grenfell (rgrenfel@uwyo.edu), to enroll in classes.

Major

Agricultural Business, Agribusiness Management Option, B.S.

Prepare for careers across agribusiness and business sectors. Agricultural economics is supplemented with business and agricultural science courses to prepare you for a wide range of careers in the agricultural supply chain.

Minimum Course Requirements

¹A minimum of 42 credits must be at the 3000 and 4000 level for graduation. At least 30 of the 42 credits must be earned from UW1

First-Year Seminar Credits: 3 (FYS)
Science Credits: 6³ (PN)
Human Culture Credits: 6⁴ (H)
U.S. & Wyoming Constitutions Credits: 3 (V)
Supporting Agriculture Credits: 9 (AG College hours other than Agricultural Economics)
Statistics Credits: 4
Computers Credits: 3⁶
Electives Credits: 25

University Studies Program Requirements: 30 Hours

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Writing: 9 Hours

ENGL1010 - College Composition and Rhetoric Credits: 3² (COM1)
Communication II (COM2)

AGEC4965 - Agribusiness Entrepreneurship Credits: 3

OR

AGEC4970 - Technical Communication for Agribusiness Credits: 3 (COM3)

Quantitative (Q): 7 Hours

(Required for Major)

MATH1400 - College Algebra Credits: 3
MATH2350 - Business Calculus Credits: 4

Agricultural Economics: 24 Hours

²24 credit hours in Ag Econ beyond those earned to satisfy University Studies requirements. 18 of these 24 credit hours must be at the 3000-4000 level.

AGEC1010 - Principles of Macroeconomics Credits: 3

AGEC1020 - Principles of Microeconomics Credits: 3
AGEC3400 - Agricultural Law Credits: 3

AGEC4050 - Agribusiness Marketing Credits: 3

OR

MKT2100 - Introduction to Marketing Credits: 3 (count for either upper-division AGEC or business credit, but not both)

AGEC4060 - Agribusiness Management Credits: 3

AGEC4500 - Agricultural Finance Credits: 3

AGEC4450 - Negotiation Credits: 3

OR

AGEC4830 - Agricultural Commodities and Futures Markets Credits: 3

OR

AGEC4840 - Agricultural Market Analysis Credits: 3

OR

AGEC4880 - International Agricultural Trade, Markets and Policy Credits: 3

3 hours of AGEC electives

Supporting Economics: 6 Hours

ECON3010 - Intermediate Macroeconomics Credits: 3

ECON3020 - Intermediate Microeconomics Credits: 3

Business: 15 Hours

ACCT2010 - Principles of Accounting I Credits: 3

ACCT2020 - Principles of Accounting II Credits: 3

9 hours of 3000-4000 level business courses

Total Hours: 120

² Recommend or equivalent COM1 course.

³ Credits earned in USP approved science courses offered within the College of Agriculture and Natural Resources shall also serve as Supporting Agriculture credits.

⁴ H requirement cannot be fulfilled with AGEC or ECON courses; USP-approved H language courses are recommended.

⁶ COSC 1200 recommended, or IMGT 2400.

Agricultural Business, B.S.

The Department of Agricultural and Applied Economics offers three options within the agricultural business bachelor of science degree program. They are agribusiness management, farm and ranch management, and livestock business management. All three options focus on the development of critical thinking, research, and communication skills for students interested in

agricultural operations,
small rural businesses
community economics,

financial institutions,
agricultural and natural resources development, and
other pursuits where applied economic tools will be useful.

The agricultural business curriculum is designed to enable our students to:

communicate effectively economic, agricultural, business decision-making and natural resource concepts,
fit into a business, agency, or academic environment and use economic concepts to quantify and analyze relevant issues, and
be familiar with issues related to agriculture, natural resources, and rural communities.

Options

A brief description of minimum course requirements for each of the four options in agricultural business is given below. In addition, professional advisers will work with students to tailor a curriculum to individual interests and goals.

Agricultural Business, Agribusiness Management Option, B.S.
Agricultural Business, Farm and Ranch Management Option, B.S.
Agricultural Business, Livestock Business Management Option, B.S.

Environment and Natural Resources

Students interested in natural resource or environmental issues or careers may complete any of the four options within agricultural business offered by the department with an environment and natural resource emphasis. Inquiries about environment and natural resource concentrations in agricultural business should be directed to the Department of Agricultural and Applied Economics.

Agricultural Business, Farm and Ranch Management Option, B.S.

Combine courses in farm and ranch management, finance and marketing with crop, range, veterinary and animal sciences to prepare for a career managing farms, ranches, or feedlots.

Minimum Course Requirements

¹A minimum of 42 credits must be at the 3000 and 4000 level for graduation. At least 30 of the 42 credits must be earned from UW.

First-Year Seminar Credits: 3 (FYS)
Human Culture Credits: 6 ⁴ (H)

Writing: 9 Hours

ENGL1010 - College Composition and Rhetoric Credits: 3² (COM1)
Communication II (COM2)

AGEC4965 - Agribusiness Entrepreneurship Credits: 3

OR

AGEC4970 - Technical Communication for Agribusiness Credits: 3 (COM3)

Quantitative (Q): 7 Hours

(Required for Major)

MATH1400 - College Algebra Credits: 3

MATH2350 - Business Calculus Credits: 4

Science (PN):

³Credits earned in USP approved science courses offered within the College of Agriculture and Natural Resources shall also serve as Supporting Agriculture credits.

CHEM1000 - Introductory Chemistry Credits: 4

OR

CHEM1020 - General Chemistry I Credits: 4

OR

CHEM1050 - Advanced General Chemistry I Credits: 4

SOIL2010 - Introduction to Soil Science Credits: 4

One additional PN course Credits: 3

Agricultural Economics: 28 Hours

²24 credits in Ag Econ beyond those earned to satisfy University Studies requirements. 18 of these 24 credit hours must be at the 3000-4000 level.

AGEC1010 - Principles of Macroeconomics Credits: 3

AGEC1020 - Principles of Microeconomics Credits: 3

AGEC2020 - Farm and Ranch Business Management Credits: 4

AGEC3400 - Agricultural Law Credits: 3

AGEC4640 - Advanced Farm/Ranch Management Credits: 3

12 hours AGEC electives

Supporting Agriculture: 12 Hours

SOIL2010 - Introduction to Soil Science Credits: 4
8 AG College hours other than Agricultural Economics

Supporting Economics: 6 Hours

ECON3010 - Intermediate Macroeconomics Credits: 3
ECON3020 - Intermediate Microeconomics Credits: 3

Business: 3 Hours

ACCT2010 - Principles of Accounting I Credits: 3

Total Hours: 120

² Recommend or equivalent COM1 course.

⁴ H requirement cannot be fulfilled with AGECE or ECON courses; USP-approved H language courses are recommended.

⁶ COSC 1200 recommended, or IMGT 2400.

Agricultural Business, Livestock Business Management Option, B.S.

Build skills to work in any sector of the livestock and meat industry, from input suppliers to meat processing, by combining courses in farm and ranch management, finance and marketing, with animal, range and food science, biology, and data analysis.

Minimum Course Requirements

¹A minimum of 42 credits must be at the 3000 and 4000 level for graduation. At least 30 of the 42 credits must be earned from UW.

First-Year Seminar Credits: 3 ² (FYS)
Human Culture Credits: 6 ³ (H)
U.S. & Wyoming Constitutions Credits: 3 (V)
Electives Credits: 3-4

University Studies Program Requirements: 30 Hours

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3

OR
PLNT2200 - Field Crop Production Credits: 3
OR
REWM2000 - Principles of Rangeland Management Credits: 3
AND
12 hours of UPPER DIVISION Electives from AECL, AGECE, AGRI, ANSC, ENTO, FCSC, FDSC, MICR, MOLB, PATB, PLNT, REWM, SOIL
AGRI4975 - Agricultural Communications Senior Project Credits: 1

Supporting Course Requirement: 4 Hours

STAT2050 - Fundamentals of Statistics Credits: 4

Additional Hours for Major and Electives: 14 Hours

8 hours of General Electives ANY DIVISION

6 hours of General Electives UPPER DIVISION

Total Hours: 120

Additional Requirements

Agricultural communication majors will also complete an internship in their field. A variety of opportunities are available, and students can work with their advisor to determine an appropriate internship for their area of emphasis.

Students wishing to pursue an area of emphasis in the agricultural communications option are encouraged to also select a minor. The college currently offers a variety of minors, and any of these can help to better prepare students for employment or graduate work.

Animal and Veterinary Science, B.S.

The Depts of Animal Science and Veterinary Sciences jointly offer the B.S. degree in Animal and Veterinary Science. Courses in animal science, food science, and pathobiology form eight degree options tailored to the student's interests/career goals.

Options

- Animal and Veterinary Science, Production Option, B.S.
- Animal and Veterinary Science, Range Livestock Option, B.S.
- Animal and Veterinary Science, Business Option, B.S.
- Animal and Veterinary Science, Communication Option, B.S.
- Animal and Veterinary Science, Animal Biology Option, B.S.
- Animal and Veterinary Science, Meat Science and Food Technology Option, B.S.
- Animal and Veterinary Science, Pre-Veterinary Medicine Option, B.S.
- Animal and Veterinary Science, Equine Science Option, B.S.

Additional Information

Agriculture, in its broadest definition, is the nation's largest industry. Livestock production is Wyoming's largest agricultural enterprise. Animal agriculture and its associated industries offer many opportunities for the interested student. Whether a student is interested in production livestock, allied fields such as meat science, business or animal health, or wants to apply to a college of veterinary medicine or graduate school, the degree tracks offered will form the basis for a challenging career in animal agriculture/biology. The various options provide maximum flexibility to meet the changing needs of students and their employers. For students interested in pursuing advanced research, M.S. and Ph.D. degrees are offered.

A grade of C or better must be earned in the following courses when the courses are required in the individual option for completion of the degree: ANSC 3010, ANSC 3100, ANSC 4120, ANSC 4540, ANSC 4630; FDSC 3060, PATB 4110, PATB 4111, LIFE 1010, LIFE 2022.

Students are encouraged to participate in activities related to their degree option. The university has competitive livestock, horse, wool, and meat judging teams that travel to and participate in at least one major exposition a year. Laboratories and field trips, as practical teaching aids in many classes, are scheduled throughout the year. Internships are available to gain practical experience. Student organizations such as the Block and Bridle Club, Food Science Club, Pre-vet Club, Wyoming Collegiate Cattlemens Association, Microbiology Club, Range Club, and the Ranch Horse Team provide additional educational and recreational opportunities.

Design, Merchandising, and Textiles: Apparel Design and Product Development Career Track

The Apparel Design and Product Development career track in Design, Merchandising and Textiles allows students to develop the technical and creative skills necessary for the development of apparel and textile products from concept to finished product.

University Studies Program Requirements

The University Studies Program 2015

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

MKT4240 - Consumer Behavior Credits: 3
SELL3310 - Professional and Technical Selling Credits: 3
SOC1000 - Sociological Principles Credits: 3
OR
PSYC1000 - General Psychology Credits: 3

Degree Minimum: 120 Hours

Electives may be needed to meet the university requirement of 42 upper division credit hours and the degree minimum of 120 overall credit hours.

Electives should be selected in consultation with advisor and faculty mentor.

Additional Requirements

All Design, Merchandising, and Textiles majors are required to complete a three-credit-hour internship, international study tour, or study abroad program.

A minor in Entrepreneurship or Professional and Technical Selling through the College of Business is recommended for students in this career track.

Dietetics

The nationally accredited Didactic Program in Nutrition and Dietetics provides the required coursework to pursue an approved post-graduation supervised practice experience (dietetic internship) to become a Registered Dietitian Nutritionist (RDN).

Program Introduction

The UW Didactic Program in Nutrition and Dietetics (DPND) is nationally accredited by the Accreditation Council for Education in Nutrition and Dietetics (ACEND) of the Academy of Nutrition and Dietetics. Entrance into the DPND is made only through an application process. Each prospective DPND student will initially enter the Human Nutrition and Food concentration. It is recommended that students apply to the DPND in the spring semester of their sophomore year. The academic requirements and supervised practice experience must be completed before the student is eligible for the Registration Examination for Dietitians administered by the Commission on Dietetic Registration (CDR), the credentialing agency for the Academy.

University Studies Requirements

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

FYS-First Year - Seminar Credits: 3
V- - U.S. & WY Constitution Credits: 3

Before Admission to Program

Students must complete the following courses with a minimum 3.0 grade point average (gpa) prior to DPND application.

**Grade of C or above required.*

FCSC1141 - Principles of Nutrition Credits: 3 *

FCSC1150 - Scientific Study of Food Credits: 3 *
FCSC2141 - Nutrition Controversies Credits: 2 *
FCSC2200 - Professionalism and Communication in FCSC Credits: 3 *
CHEM1020 - General Chemistry I Credits: 4 *
CHEM1030 - General Chemistry II Credits: 4 *
ENGL1010 - College Composition and Rhetoric Credits: 3 *
LIFE1010 - General Biology Credits: 4 *
MATH1400 - College Algebra Credits: 3 *
MOLB2021 - General Microbiology Credits: 4 *
PSYC1000 - General Psychology Credits: 3
SOC1000 - Sociological Principles Credits: 3

After Admission to Program

In addition to USP and upper division requirements, students must complete the following courses after admission to the DPND while maintaining an overall grade point average of 3.000. Failure to maintain a grade point average of 3.000 could result in program probation and/or suspension.

**Grade of C or above required*

FCSC3142 - Geriatric Nutrition Credits: 2 *
FCSC3145 - Sports Nutrition and Metabolism Credits: 3 *
FCSC3147 - Community Nutrition Credits: 3 *
FCSC3150 - Intermediate Foods Credits: 2 *
FCSC3152 - Food Systems Production Credits: 3 *
FCSC4044 - Maternal, Infant and Adolescent Nutrition Credits: 3 *
FCSC4145 - Advanced Nutrition Credits: 4 *
FCSC4147 - Nutrition and Weight Control Credits: 3 *
FCSC4150 - Experimental Foods Credits: 3 *
FCSC4210 - Therapeutic Nutrition I: Nutrition Assessment and Diagnosis Credits: 4 *
FCSC4220 - Therapeutic Nutrition II Credits: 4 *
FCSC4230 - Therapeutic Nutrition Counseling Credits: 2
CHEM2300 - Introductory Organic Chemistry Credits: 4 *

OR

CHEM2420 - Organic Chemistry I Credits: 4 *
ENGL4010 - Technical Writing in the Professions Credits: 3

MOLB3610 - Principles of Biochemistry Credits: 4 *
MOLB4100 - Clinical Biochemistry Credits: 4
STAT2050 - Fundamentals of Statistics Credits: 4
ZOO3115 - Human Systems Physiology Credits: 4

FCSC Core Elective in Design, Merchandising and Textiles

Complete one of the following with a grade of C or above:

FCSC1180 - Applied Design Credits: 3
FCSC2165 - Introduction to Fashion and Dress Credits: 3
FCSC2180 - Housing and Residential Design Credits: 3
FCSC3171 - Introduction to Textile Science Credits: 3

FCSC Core Elective in Human Development and Family Sciences

Complete one of the following with a grade of C or above:

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3

FCSC2121 - Child Development Credits: 4

FCSC2131 - Family Relations Credits: 3

FCSC2133 - Intimate Relationships Credits: 3

FCSC3110 - Personal Finance Credits: 3

FCSC3220 - Multicultural Influences on Children and Families Credits: 3

Degree Minimum: 120 Hours

Electives may be needed to meet the university requirement of 42 upper division credit hours and the degree minimum of 120 overall credit hours.

Electives should be selected in consultation with advisor and faculty mentor.

HDFS Career Track for Family and Consumer Sciences Teacher Certification

A career track leading to certification/licensure to teach family and consumer sciences (FCS) in secondary schools.

Program Information

This program is made possible through a partnership agreement with UW Family and Consumer Sciences, Colorado State University (CSU) Family and Consumer Sciences program and the CSU Center for Educator Preparation. While meeting the requirements for the Human Development and Family Sciences concentration, students will use electives from other FCS concentrations to prepare them to teach family and consumer sciences in middle or secondary schools. By participating in this partnership, students earn dual bachelor's degrees - one from UW and one from CSU. Students must earn a minimum of 154 credit hours between the two programs (minimum of 120 at UW and a minimum of 34 at CSU) in order to be awarded a degree from each institution. Additional semesters will be necessary to fulfill the requirements of both degrees.

Students must meet all entry requirements at UW and CSU. The CSU licensure program requires students to earn a C or above in all content courses and teacher licensing courses, and a passing score on the appropriate licensing exam. Therefore, a grade of C or above must be earned in all UW courses and an overall 2.750 GPA be maintained for transfer to CSU to fulfill their program requirements. Upon completion of the UW portion, students will then take the remaining courses needed to meet Wyoming and Colorado certification/ licensure requirements at CSU in Ft. Collins, Colorado. In their last semester, if they so choose, Wyoming students may complete their student teaching requirements in a Wyoming FCS school classroom with supervision by a licensed FCS teacher educator. In addition to earning dual degrees, students meet the requirements to apply for certification/licensure in Wyoming and in Colorado. Both licenses are reciprocal in many other states.

University Studies Program Requirements

The University Studies Program 2015

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

FYS-First Year - Seminar Credits: 3

Required Courses

*** *Grade of C or above required.*

FCSC1141 - Principles of Nutrition Credits: 3 ***

FCSC1150 - Scientific Study of Food Credits: 3 ***

FCSC2165 - Introduction to Fashion and Dress Credits: 3 ***

OR

FCSC1170 - Introduction to Apparel Construction Credits: 3 ***

FCSC1180 - Applied Design Credits: 3 ***

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3 ***

FCSC2121 - Child Development Credits: 4 ***

FCSC2131 - Family Relations Credits: 3 ***

FCSC2133 - Intimate Relationships Credits: 3 ***

FCSC2180 - Housing and Residential Design Credits: 3 ***

FCSC2188 - Interior Design Studio I Credits: 3 ***

FCSC2200 - Professionalism and Communication in FCSC Credits: 3 ***

FCSC3110 - Personal Finance Credits: 3 ***

FCSC3119 - Parent-Child Relationships Credits: 3 ***

FCSC3122 - Adolescence Credits: 3 ***

FCSC3160 - Merchandise Retailing and Buying Credits: 3 ***

FCSC3220 - Multicultural Influences on Children and Families Credits: 3 ***

FCSC4112 - Family Decision-Making and Resource Management Credits: 3 ***

FCSC4113 - Consumer Issues Credits: 3 ***

FCSC4118 - Family Policy Credits: 3 ***

FCSC4124 - Families of Young Children With Special Needs Credits: 3 ***

FCSC4125 - Professional Practices in Human Development and Family Sciences Credits: 3 ***

FCSC4138 - Family Stress and Coping Credits: 3 ***

CHEM1000 - Introductory Chemistry Credits: 4

OR

CHEM1020 - General Chemistry I Credits: 4

COMM1030 - Interpersonal Communication Credits: 3

ECON1000 - Global Economic Issues Credits: 3

OR

ECON1010 - Principles of Macroeconomics Credits: 3

OR

ECON1020 - Principles of Microeconomics Credits: 3

EDST3480 - Diversity & the Politics of Schooling Credits: 3

ENGL1010 - College Composition and Rhetoric Credits: 3

ENGL4010 - Technical Writing in the Professions Credits: 3

HIST1211 - U.S. to 1865 Credits: 3

OR

HIST1221 - U.S. From 1865 Credits: 3

LIFE1002 - Discovering Science Credits: 3

OR

LIFE1003 - Current Issues in Biology Credits: 4

OR

LIFE1010 - General Biology Credits: 4

MATH1400 - College Algebra Credits: 3

PSYC1000 - General Psychology Credits: 3

SOC1000 - Sociological Principles Credits: 3

STAT2050 - Fundamentals of Statistics Credits: 4

OR

Additional Concurrent and CSU Coursework

After completion of UW coursework, three additional semesters are required for completion of this teacher certification option. The first semester will require concurrent enrollment at UW and CSU. Required UW course FCSC 4117 (online - 3 credit hours) will be taken while enrolled at CSU to preserve WEU eligibility. Four additional credit hours must be transferred to UW from the second and third semesters' coursework at CSU to meet UW's 120 credit hour graduation requirement.

First Semester

Concurrent Fall Semester UW/CSU

EDUC 331 - Educational Technology Credits: 2
EDUC 340 - Literacy and the Learner - Phase I - RL Credits: 3 (Not included in WUE tuition)
EDUC 350 - Instruction I: Individualization/Mgt - Phase II - TL Credits: 3
EDUC 386 - Practicum - Instruction I - Phase II - TL 1
EDCT 451 - Methods, FCS Education Credits: 4
FCSC4117 - Understanding Community Leadership Credits: 3 (online from UW)

Second Semester

Spring Semester at CSU

EDUC 450 - Instruction II: Standards/ Assessment - Phase III - T Credits: 4
EDUC 486 - Practicum - Instruction II - Phase III - TL 1
FACS 479 - Colloquium - FCS Credits: 2

Complete one of the following and transfer it to UW:

A course from Art/Humanities (Choose one: E140 - The Study of Literature, PHIL100 - The Appreciation of Philosophy, or TH141 - Introduction to Theater) Credits: 3

OR

HES 145 Health and Wellness Credits: 3

Final Semester

Fall Semester at CSU

EDCT 485 - Student Teaching - Phase IV - TL Credits: 11
ECDT 492 Seminar - Professional Relations - Phase IV - TL Credits: 1 (Transfer to UW)

Total UW Degree Minimum: 120 Hours

Total CSU Degree Minimum: 34 Hours

Total for Both Degrees: 154 Hours

Additional Requirements

Upon declaring this career track, students must satisfactorily complete a mandatory security screen (background check). Advising will provide careful attention to the uniqueness of individual student situations and academic choices.

Human Development and Family Sciences

Prepares students to work in a variety of critical fields that serve individuals and families across the lifespan, including: children, youth, senior and family support programs, community and governmental agencies, and higher education.

University Studies Program Requirements

The University Studies Program 2015

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Required Courses

** Grade of C or above required.*

- FCSC2110 - Fundamentals of Aging and Human Development Credits: 3 *
- FCSC2121 - Child Development Credits: 4 *
- FCSC2131 - Family Relations Credits: 3 *
- FCSC2133 - Intimate Relationships Credits: 3 *
- FCSC2200 - Professionalism and Communication in FCSC Credits: 3 *
- FCSC3110 - Personal Finance Credits: 3
- FCSC3119 - Parent-Child Relationships Credits: 3
- FCSC3122 - Adolescence Credits: 3 *
- FCSC3220 - Multicultural Influences on Children and Families Credits: 3 *
- FCSC4112 - Family Decision-Making and Resource Management Credits: 3 *
- FCSC4117 - Understanding Community Leadership Credits: 3 *
- FCSC4118 - Family Policy Credits: 3 *
- FCSC4125 - Professional Practices in Human Development and Family Sciences Credits: 3 *
- FCSC4132 - Internship in Human Development and Family Sciences Credits: 4-6 *
- OR**
- FCSC4130 - Internship in Child Development Credits: 6-8
- OR**
- FCSC4131 - Administration Internship in Child Development Credits: 6-8
- FCSC4135 - Program Evaluation Credits: 3 *
- FCSC4138 - Family Stress and Coping Credits: 3 *
- ENGL4010 - Technical Writing in the Professions Credits: 3
- OR**
- ENGL4075 - Writing for Non-Profits Credits: 3
- PSYC1000 - General Psychology Credits: 3
- SOC1000 - Sociological Principles Credits: 3

FCSC Core Elective in Human Nutrition and Food

Complete one of the following with a grade of C or above:

- FCSC1141 - Principles of Nutrition Credits: 3
- FCSC1150 - Scientific Study of Food Credits: 3

FCSC Core Elective in Design, Merchandising and Textiles

Complete one of the following with a grade of C or above:

- FCSC1180 - Applied Design Credits: 3
- FCSC2165 - Introduction to Fashion and Dress Credits: 3
- FCSC2180 - Housing and Residential Design Credits: 3
- FCSC3171 - Introduction to Textile Science Credits: 3

Degree Minimum: 120 Hours

Electives may be needed to meet the university requirement of 42 upper division credit hours and the degree minimum of 120 overall credit hours.

Electives should be selected in consultation with advisor and faculty mentor.

Additional Requirements

Upon declaring this major, students must satisfactorily complete a mandatory security screen (background check).

Human Nutrition and Food

The Human Nutrition and Food concentration prepares students for careers in human nutrition and the food industry, and serves as a degree plan for pre-health (including the Didactic Program in Nutrition and Dietetics) or graduate school.

University Studies Program Requirements

The University Studies Program 2015

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Required Courses

** Grade of C or above required.*

- FCSC1141 - Principles of Nutrition Credits: 3 *

FCSC1150 - Scientific Study of Food Credits: 3 *
FCSC2141 - Nutrition Controversies Credits: 2 *
FCSC2200 - Professionalism and Communication in FCSC Credits: 3 *
FCSC3142 - Geriatric Nutrition Credits: 2 *
FCSC4044 - Maternal, Infant and Adolescent Nutrition Credits: 3 *
FCSC4145 - Advanced Nutrition Credits: 4 *
FCSC4147 - Nutrition and Weight Control Credits: 3 *
FCSC4150 - Experimental Foods Credits: 3 *
CHEM1020 - General Chemistry I Credits: 4 *
CHEM1030 - General Chemistry II Credits: 4
CHEM2300 - Introductory Organic Chemistry Credits: 4

OR

CHEM2420 - Organic Chemistry I Credits: 4
ENGL4010 - Technical Writing in the Professions Credits: 3
KIN2040 - Human Anatomy Credits: 3
KIN2041 - Human Anatomy Laboratory Credits: 1
LIFE1010 - General Biology Credits: 4 *
MATH1400 - College Algebra Credits: 3
MOLB2021 - General Microbiology Credits: 4
PSYC1000 - General Psychology Credits: 3
SOC1000 - Sociological Principles Credits: 3
STAT2050 - Fundamentals of Statistics Credits: 4
ZOO3115 - Human Systems Physiology Credits: 4

Human Nutrition and Food Elective

Complete one of the following with a grade of C or above:

FCSC3145 - Sports Nutrition and Metabolism Credits: 3
FCSC3147 - Community Nutrition Credits: 3
FCSC3150 - Intermediate Foods Credits: 2
FCSC3152 - Food Systems Production Credits: 3

FCSC Core Elective in Design, Merchandising and Textiles

Complete one of the following with a grade of C or above:

FCSC1180 - Applied Design Credits: 3
FCSC2165 - Introduction to Fashion and Dress Credits: 3
FCSC2180 - Housing and Residential Design Credits: 3
FCSC3171 - Introduction to Textile Science Credits: 3

FCSC Core Elective in Human Development and Family Sciences

Complete one of the following with a grade of C or above:

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3
FCSC2121 - Child Development Credits: 4
FCSC2131 - Family Relations Credits: 3
FCSC2133 - Intimate Relationships Credits: 3
FCSC3110 - Personal Finance Credits: 3
FCSC3220 - Multicultural Influences on Children and Families Credits: 3

Degree Minimum: 120 Hours

Electives may be needed to meet the university requirement of 42 upper division credit hours and the degree minimum of 120 overall credit hours.

Electives should be selected in consultation with advisor and faculty mentor.

Microbiology, B.S.

This interdepartmental program is comprised of core and elective courses in the basic sciences, general microbiology, genomics/proteomics, medical, and environmental microbiology. Students may also participate in faculty-mentored research projects.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Additional Information

The curriculum is designed to prepare graduates for the future by combining a firm foundation in the basic sciences with a central core of microbiology classes, followed by the opportunity for students to specialize in areas of microbiology suiting their individual interests via the selection of electives.

Prior to graduation, microbiology majors must complete the basic requirements and all microbiology core course requirements as listed below. Finally, to assure breadth of exposure in microbiology, students must complete 6 semester hours of microbiology electives. The microbiology curriculum is organized to provide students with the maximum flexibility in meeting their university studies program requirements.

Students pursuing the B.S. degree in microbiology who wish to pursue a dual major in both microbiology and molecular biology must satisfy the basic science/math and core/elective requirements in microbiology as well as those specified for the B.S. degree in molecular biology PLUS an additional 9 credits of electives in microbiology and/or molecular biology at the 4000/5000 level.

Basic Course Requirements for Microbiology Majors

- Total credit hours: 121 hours
- 3000-level or above credits (university requirements): 42 hours
- Completion of University Studies 2015 Program Requirements: 30-36 hours

Basic Sciences and Quantitative Reasoning

MATH1450 - Algebra and Trigonometry Credits: 5

OR

MATH2200 - Calculus I Credits: 4

OR

MATH1400 - College Algebra Credits: 3

AND

MATH1405 - Trigonometry Credits: 3

STAT2050 - Fundamentals of Statistics Credits: 4

LIFE1010 - General Biology Credits: 4

LIFE2022 - Animal Biology Credits: 4

OR

LIFE2023 - Biology of Plants and Fungi Credits: 4

CHEM1020 - General Chemistry I Credits: 4

CHEM1030 - General Chemistry II Credits: 4

MOLB4050 - Student Seminar: Topics in ____ Credits: 1

OR

MOLB4051 - Departmental Seminar Credits: 1

OR

MOLB4052 - Summer Seminar Credits: 1

MICR Elective Credits: 6

Microbiology Electives

In addition to completing the required microbiology courses listed above, students must complete 6 hours of microbiology electives from any of the following lists.

Medical Microbiology

- PATB3400 - Host Defenses Against Infect. Credits: 3
- PATB4001 - Epidemiology (Diseases in Population) Credits: 3
- PATB4110 - Diseases of Food Animals Credits: 3
- PATB4130 - Mammalian Pathobiology Credits: 3
- PATB4140 - Principles of Toxicology Credits: 3
- PATB4170 - Diseases of Wildlife Credits: 3
- MICR4200 - Diagnostic Bacteriology Credits: 1
- PATB4220 - Molecular Mechanisms of Bacterial Pathogenesis Credits: 3
- PATB4240 - Disease Ecology Credits: 3
- MICR4360 - Medical Entomology and Parasitology Credits: 4
- PATB4500 - Veterinary Parasitology Credits: 4
- PHCY3450 - Foundational Pathophysiology Credits: 4
- MOLB4100 - Clinical Biochemistry Credits: 4
- ZOO4110 - HIV/AIDS: The Disease and the Dilemma Credits: 3

Molecular and Cell Biology

- LIFE3600 - Cell Biology Credits: 4
- MOLB4600 - Advanced Biochemistry Credits: 3
- MOLB4260 - Quantitative Microscopy Credits: 1
- MOLB4450 - Cell and Developmental Genetics Credits: 3
- MOLB4670 - Advanced Molecular Cell Biology Credits: 3
- MOLB4680 - Signaling in Host-microbe Interaction Credits: 3

Environmental and Applied Microbiology

- MICR3021 - Eukaryotic Microbes Credits: 3
- MICR4540 - Microbial Diversity and Ecology Credits: 4

OR

MOLB4540 - Microbial Diversity and Ecology Credits: 4

- MICR4140 - Soil Microbiology Credits: 4
- BOT4200 - Plant-Microbe Interactions Credits: 3
- PLNT3220 - Plant Pathology Credits: 3
- PLNT4000 - Plant Disease Control Credits: 3
- FDSC4090 - Food Microbiology Credits: 3
- FDSC4100 - Laboratory Techniques in Food Microbiology Credits: 1

Molecular Biology, B.S.

The Molecular Biology B.S. degree program builds on basic sciences with courses focusing on molecular, cellular, genetic and microbiological principles. Research opportunities prepare students for postgraduate studies in research and health sciences.

Molecular Biology, B.S. Additional Information

The Molecular Biology B.S. degree program includes molecular biology, biochemistry, microbiology, genetics, and cell biology courses. Research opportunities also develop skillsets for graduate school, biotechnology employment and professional health programs.

To obtain a B.S. degree in molecular biology, a student, with the aid of a molecular biology adviser, designs a program of study that includes courses from the Molecular Biology General Science Core and Elective Requirements listed below. Additional course lists are provided as an aid in developing an individualized program of study in key Emphasis Areas such as Cell Biology and Molecular Genetics, Microbiology, and Preprofessional Health Sciences. Courses listed under the Emphasis Areas are optional, and the student and adviser will design a unique curriculum suited to the student's personal interests. Flexibility in course selection also permits students to fulfill various requirements for postgraduate and professional schools. In order to fulfill course prerequisites in a timely manner, a recommended sequence of courses is available from the student's molecular biology adviser. Completion of a B.S. in Molecular Biology provides a student with the tools needed to open the door to exciting futures in science, medicine and agriculture.

We expect that our graduating students will have a strong foundation in basic science, biochemistry and molecular biology that will enable them to:

- understand the basis of multiple molecular mechanisms central to gene expression;
- utilize molecular and microbiological laboratory techniques in future jobs or programs and trouble-shoot experimental challenges;
- apply for graduate programs in molecular biology, microbiology or other life sciences;
- begin employment as a laboratory research assistant in academia or the medical or agricultural biotechnology industries;
- utilize a background in biochemistry and cell and molecular biology to promote success in the basic science curriculum in medical or other health professional schools;
- integrate a background in biochemistry and cell and molecular biology into career development in professions such as law, genetic counseling, or public health policy;
- employ evidence-based scientific reasoning skills in evaluating the use of molecular genetics in the prevention, diagnosis and treatment of medical disorders.

Requirements for Molecular Biology Majors

General Requirements

- Total credits (college requirement): 120
- 3000-level or above credits (university requirement): 42
- Fulfillment of University Studies Program (consult adviser)
- Fulfillment of molecular biology general science, core and elective requirements listed below

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- MOLB 1101

COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
MOLB 4053
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

MOLB Requirements

General Science Requirement

LIFE1010 - General Biology Credits: 4
CHEM1020 - General Chemistry I Credits: 4
CHEM1030 - General Chemistry II Credits: 4
CHEM2420 - Organic Chemistry I Credits: 4
CHEM2440 - Organic Chemistry II Credits: 4
PHYS1110 - General Physics I Credits: 4
PHYS1120 - General Physics II Credits: 4
MATH2200 - Calculus I Credits: 4 *
STAT2050 - Fundamentals of Statistics Credits: 4

Total: 36 Credits

*The alternative math courses MATH 1450 or MATH 1400 and MATH 1405 may be substituted with adviser approval.

MOLB Core Requirement

MOLB2021 - General Microbiology Credits: 4
LIFE3050 - Genetics Credits: 4
MOLB3320 - Molecular Biological Methods Credits: 4
MOLB3610 - Principles of Biochemistry Credits: 4
OR
CHEM4400 - Biological Chemistry Credits: 3

MOLB4600 - Advanced Biochemistry Credits: 3
MOLB4053 - Communications in Molecular Biology Credits: 3
MOLB4440 - Microbial Genetics Credits: 3
OR
MOLB4450 - Cell and Developmental Genetics Credits: 3

MOLB4670 - Advanced Molecular Cell Biology Credits: 3
MOLB4051 - Departmental Seminar Credits: 1
OR
MOLB4052 - Summer Seminar Credits: 1

Total: 28-29 Credits

MOLB Elective Requirement (6 credits)

Courses from the following list that were not used to fulfill the MOLB Core Requirement may be applied to the MOLB Elective Requirement; a maximum of 3 credits of MOLB 4010 may be counted toward the MOLB Elective Requirement.

- MOLB4010 - Laboratory Research in Molecular Biology Credits: 1-3
- MOLB4100 - Clinical Biochemistry Credits: 4
- MOLB4260 - Quantitative Microscopy Credits: 1
- MOLB4400 - Immunology Credits: 4
- MOLB4440 - Microbial Genetics Credits: 3
- MOLB4450 - Cell and Developmental Genetics Credits: 3
- MOLB4460 - Microbial Physiology and Metabolism Credits: 3
- MOLB4540 - Microbial Diversity and Ecology Credits: 4
- MOLB4680 - Signaling in Host-microbe Interaction Credits: 3

Total: 6 Credits

Molecular Biology Emphasis Areas

After discussing individual interests with a molecular biology adviser, a student should enroll in additional courses that will enhance preparation for a chosen career objective. Listed below are recommended courses that are not required but will further develop a student's skills and understanding in three Emphasis Areas.

Cell Biology and Molecular Genetics

- MOLB4010 - Laboratory Research in Molecular Biology Credits: 1-3
- MOLB4260 - Quantitative Microscopy Credits: 1
- MOLB4440 - Microbial Genetics Credits: 3
- MOLB4450 - Cell and Developmental Genetics Credits: 3
- MOLB4610 - Biochemistry 2: Molecular Mechanisms Credits: 3
- MOLB4680 - Signaling in Host-microbe Interaction Credits: 3
- ZOO4280 - Introduction to Neuroscience Credits: 3
- ZOO4340 - Developmental Biology and Embryology Credits: 4

Microbiology

- MICR2220 - Pathogenic Microbiology Credits: 3
- MICR4130 - Mammalian Pathobiology Credits: 3
- MICR4220 - Molecular Mechanisms of Bacterial Pathogenesis Credits: 3
- MICR4360 - Medical Entomology and Parasitology Credits: 4
- MOLB4010 - Laboratory Research in Molecular Biology Credits: 1-3
- MOLB4400 - Immunology Credits: 4
- MOLB4440 - Microbial Genetics Credits: 3
- MOLB4460 - Microbial Physiology and Metabolism Credits: 3
- MOLB4540 - Microbial Diversity and Ecology Credits: 4
- MOLB4680 - Signaling in Host-microbe Interaction Credits: 3
- MICR4710 - Medical Virology Credits: 3

Preprofessional Health Sciences

MOLB4010 - Laboratory Research in Molecular Biology Credits: 1-3

MOLB4100 - Clinical Biochemistry Credits: 4

MOLB4400 - Immunology Credits: 4

MOLB4450 - Cell and Developmental Genetics Credits: 3

MOLB4610 - Biochemistry 2: Molecular Mechanisms Credits: 3

MICR2220 - Pathogenic Microbiology Credits: 3

MICR4710 - Medical Virology Credits: 3

PHCY3450 - Foundational Pathophysiology Credits: 4

PSYC1000 - General Psychology Credits: 3

PSYC2210 - Drugs and Behavior Credits: 3

OR

PSYC2340 - Abnormal Psychology Credits: 3

SOC1000 - Sociological Principles Credits: 3

SOC3550 - Medical Sociology Credits: 3

KIN2040 - Human Anatomy Credits: 3

KIN2041 - Human Anatomy Laboratory Credits: 1

ZOO3115 - Human Systems Physiology Credits: 4

ZOO4125 - Integrative Physiology Credits: 5

ZOO4280 - Introduction to Neuroscience Credits: 3

ZOO4340 - Developmental Biology and Embryology Credits: 4

Plant Production and Protection, B.S.

The Plant Production and Protection degree prepares students for careers in agriculture, natural resources, environmental and life sciences, and advanced graduate studies in the plant sciences.

Program Information

The Department of Plant Sciences offers a Bachelor of Science degree in Plant Production and Protection, with four optional concentrations and four minors. Optional concentrations for Plant Production and Protection majors are:

Agronomy

Horticulture

Integrated Pest Management

Agroecology and Evolution

Minors available for students pursuing other majors at UW are: Agronomy, Agroecology, Horticulture, and Plant Protection. These minors allow students within many bachelors programs to obtain an added emphasis in areas that enjoy strong employment opportunities.

A B.S. degree in Plant Production and Protection prepares students for careers in agriculture, natural resources, environmental and life sciences and for advanced graduate studies in specific subdisciplines within these areas. It is a broad, interdisciplinary, undergraduate curriculum that combines and integrates courses in the crop, horticulture, disease, weeds, soil, and insect sciences and is supported by a science-based curriculum and general education. Flexibility is built into the curriculum to readily accommodate students seeking to pursue an emphasis or obtain a minor in a specific discipline. To that end the breadth of the curriculum is balanced with greater depth in biology, chemistry, crop science, entomology, environmental studies, natural resource management, soil science, plant pathology, weed science, horticulture, turf management, pre-veterinary medicine, rangeland ecology and watershed management, animal science, microbiology, and molecular biology. A liberal number of electives permits design of a program that best meets individual career and educational objectives. The Plant Production and Protection program is well suited for students who possess a strong interest in, and an aptitude for, science, agriculture, the environment, life sciences, or natural resources.

The core curriculum is comprised of freshman- through senior-level courses that illustrate dynamic and complex interactions of plants, soils, and plant pests (diseases, insects, weeds) with the environment. Academic training is enhanced with experiential learning through research apprenticeships, internships, field studies, and a special Plant Sciences Capstone course. Special emphasis is given to development of critical thinking and communication skills, problem solving, and application of science. It is an interdisciplinary and highly practical degree program designed to prepare students for "real world" situations.

Plant Production and Protection B.S. degree recipients are prepared for careers with private and public institutions and agencies in such areas as: agricultural consulting, production or sales, research, product development, education, extension education, international programs, and scientific and technological support. These careers include but are not limited to: soil scientist, conservationist, entomologist, consultant, plant scientist, integrated pest management specialist, ecologist, research associate or technician, agronomist, biotechnician, and agroecologist. Degree recipients are also prepared for graduate education in biological and environmental sciences.

The combined Plant Sciences, B.S./M.S. QuickStart program enables highly-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter toward both the B.S. and M.S. degrees. Accepted students would earn a B.S. degree in Plant Production and Protection and the M.S. degree in Plant Sciences. Please see additional information under the Plant Sciences Graduate Study section or online at <http://www.uwyo.edu/plantsciences/>.

Course Requirements

Core Requirements (required of ALL degree recipients): 50 Hours

PLNT1000 - Agroecology Credits: 4
LIFE1010 - General Biology Credits: 4
CHEM1000 - Introductory Chemistry Credits: 4
MATH1400 - College Algebra Credits: 3
AGEC1020 - Principles of Microeconomics Credits: 3

Choose one from ANSC 1010, ENTO 1000, or ENTO 1001 (ENTO 1001 preferred if available):

ANSC1010 - Introduction to Animal Science Credits: 4
ENTO1000 - Insect Biology Credits: 3
ENTO1001 - Insect Biology Credits: 4

SOIL2010 - Introduction to Soil Science Credits: 4
LIFE2023 - Biology of Plants and Fungi Credits: 4
CHEM2300 - Introductory Organic Chemistry Credits: 4

Choose one from STAT 2050 or LIFE 2100:

STAT2050 - Fundamentals of Statistics Credits: 4
LIFE2100 - Intro Research and Analysis Credits: 4

PLNT3030 - Ecological Web: Ecology of Plant Protection Credits: 3
LIFE3050 - Genetics Credits: 4

Choose one from PLNT 3000, SOIL 4140, or SOIL 4160:

PLNT3000 - Irrigated Agriculture Credits: 3
SOIL4140 - Soil Microbiology Credits: 4
SOIL4160 - Soil Health and Nutrient Cycling Credits: 3

PLNT4990 - Plant Sciences Capstone Credits: 3

Practical Experience (must take 6 credit hours from the following): 6 Hours

PLNT4820 - Plant Sciences Seminar Credits: 1
PLNT4920 - Research Apprenticeship Credits: 1-2
PLNT4930 - Internship in Plant Sciences Credits: 1-3
PLNT4960 - Plant Sciences Field Studies Credits: 2
PLNT4900 - Undergraduate Teaching Practicum Credits: 1-2
AGRI4520 - Field Practicum: Extension Work Credits: 1-4

Plant Sciences Electives: 15 Hours

(Select 15 credit hours from PLNT courses, at least 12 of which are upper division)

Supporting Electives: 9 Hours

Select 9 hours of upper division courses from those with the following course prefixes:

AGEC (Agricultural Economics)
ANSC (Animal Science)
BIOL (Biology)
BOT (Botany)
ENR (Environment and Natural Resources)
ENTO (Entomology)
FDSC (Food Science)
GIST (Geospatial Information Science and Technology)
LIFE (Life Sciences)
MICR (Microbiology)
MOLB (Molecular Biology)
REWM (Rangeland Ecology and Watershed Management)
SOIL (Soil Science)

Additional University Studies: 15 Hours

First-Year Seminar (FY): 3
U.S. and Wyoming Constitutions (V): 3
Communications 1 (C1): 3
Communications 2 (C2): 3
Human Culture (H): 3

Free Electives: 25 Hours

Total Required: 120 Hours

Optional Concentrations

Although not required, students may choose to specialize in any of the four optional concentrations below as part of their B.S. in Plant Production and Protection. In order for the concentration to be official, students must "opt in" and add the desired concentration to their degree evaluation.

Agronomy Concentration: 24 Hours

The Agronomy concentration focuses on the intricacies of agronomic crop production along with pest management, genetics, soil science, and other related topics. This is a broad area of study that can be tailored to the student's particular interests. Careers in production, consulting, and pest management abound in the public and private sectors of agriculture. Students learn the ultimate goal of promoting more efficient and sustainable agronomic crop production practices. Skills learned include written and oral communication; sciences such as ecology, chemistry, and genetics; and practical applications such as computer technologies, geographic information systems, soil and water analyses, plant health diagnostics, and general best management practices.

Required: 16 Hours

PLNT3220 - Plant Pathology Credits: 3
PLNT4070 - Weed Science and Technology Credits: 4
PLNT4700 - Forage Crop Science Credits: 3
SOIL4160 - Soil Health and Nutrient Cycling Credits: 3

PLNT2200 - Field Crop Production Credits: 3
OR
PLNT4220 - Crop Yield Physiology Credits: 3

At least 8 additional credit hours from the following: 8 Hours

PLNT3000 - Irrigated Agriculture Credits: 3
PLNT3300 - Horticultural Plant Propagation Credits: 3
PLNT4000 - Plant Disease Control Credits: 3
PLNT4020 - Sustainable Agriculture Credits: 3
PLNT4050 - Plant Biotechnology Credits: 3
PLNT4120 - Organic Food Production Credits: 3
PLNT4130 - Applied Remote Sensing for Agricultural Management Credits: 3
PLNT4180 - Greenhouse Crop Production Credits: 4
PLNT4470 - Seed Science and Technology Credits: 3
PLNT4520 - Plant Breeding Credits: 3
AGEC4050 - Agribusiness Marketing Credits: 3
AGEC4060 - Agribusiness Management Credits: 3
SOIL4100 - Soil Physics Credits: 3
SOIL4105 - Soil Physics Laboratory Credits: 2
SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4
SOIL4140 - Soil Microbiology Credits: 4

Horticulture Concentration: 21 Hours

Students in the Horticulture concentration learn about the various horticultural commodities and growing operations. Choose from classes including greenhouse crop production, plant propagation, seed technology, organic food production, plant breeding, and allied subjects such as irrigation technology and pest management including plant pathology and weed science. Students may be surprised at the number of career opportunities available in horticulture! These include vegetable and small fruit production, greenhouse management, controlled environment crop production, landscape plants and management, new variety breeding and production, and urban tree care, among many others.

Required: 15 Hours

PLNT2025 - Horticultural Science Credits: 3
PLNT3220 - Plant Pathology Credits: 3
PLNT3300 - Horticultural Plant Propagation Credits: 3

PLNT4470 - Seed Science and Technology Credits: 3

PLNT4180 - Greenhouse Crop Production Credits: 4

OR

PLNT4200 - Greenhouse Design and Management Credits: 3

At least 6 additional credit hours from the following: 6 Hours

PLNT2026 - Horticultural Sciences Laboratory Credits: 1

PLNT3000 - Irrigated Agriculture Credits: 3

PLNT4050 - Plant Biotechnology Credits: 3

PLNT4070 - Weed Science and Technology Credits: 4

PLNT4120 - Organic Food Production Credits: 3

PLNT4520 - Plant Breeding Credits: 3

Integrated Pest Management Concentration: 25 Hours

IPM as it is commonly known, melds all aspects of plant pest management under one umbrella. It uses the sciences of plant pathology, entomology, and weed science under the broader plant diagnostics field. The IPM concentration emphasizes understanding pest biology and ecology of the ecosystem as the foundation for making pest management decisions that minimize negative impacts on health and the environment. Students in the IPM concentration will find careers in private consulting, field diagnostics, research and demonstration, and product sales, as well as public sector work in invasive species management.

Required: 16 Hours

PLNT3220 - Plant Pathology Credits: 3

PLNT4000 - Plant Disease Control Credits: 3

PLNT4070 - Weed Science and Technology Credits: 4

PLNT4400 - Invasive Plant Ecology Credits: 3

Choose at least one of the following:

BOT3600 - Plant Diversity and Systematics Credits: 4

BOT4680 - Taxonomy of Vascular Plants Credits: 4

ENTO4684 - Classification of Insects Credits: 4

REWM4300 - Grass Taxonomy Credits: 3

At least 9 additional credit hours from the following: 9 Hours

PLNT4020 - Sustainable Agriculture Credits: 3

PLNT4050 - Plant Biotechnology Credits: 3

PLNT4120 - Organic Food Production Credits: 3

PLNT4130 - Applied Remote Sensing for Agricultural Management Credits: 3

PLNT4470 - Seed Science and Technology Credits: 3

ENTO4300 - Insect Ecology Credits: 3

ENTO4884 - Insect Behavior Credits: 3

REWM4000 - Poisonous Plants and Plant Toxins Credits: 3

Agroecology & Evolution Concentration: 21 Hours

Students in this concentration are trained in the ways plants and associated organisms evolve in response to human-impacted environments, and how agroecosystems may change as a result of plant management. Courses include genetics, plant breeding, agroecology, and crop production along with ecology, soil sciences, and others. This concentration provides excellent preparation for graduate school in plant sciences, and also prepares students for careers in conservation, sustainable agriculture, and crop production.

Required: 13 Hours

PLNT4020 - Sustainable Agriculture Credits: 3
PLNT4400 - Invasive Plant Ecology Credits: 3
LIFE3400 - General Ecology Credits: 3
SOIL4140 - Soil Microbiology Credits: 4

At least 8 additional credit hours from the following: 8 Hours

PLNT3220 - Plant Pathology Credits: 3
PLNT4070 - Weed Science and Technology Credits: 4
PLNT4520 - Plant Breeding Credits: 3
BOT3100 - Plants and Civilization Credits: 3
BOT3600 - Plant Diversity and Systematics Credits: 4
BOT4700 - Vegetation Ecology Credits: 4
ENTO4300 - Insect Ecology Credits: 3
LIFE3500 - Evolutionary Biology Credits: 3
SOIL4540 - Microbial Diversity and Ecology Credits: 4

Plant Production and Protection/Environment and Natural Resources Program, B.S.

Students interested in the environment and natural resources may choose to pursue the B.S. in Plant Production and Protection/ENR. This degree is offered in conjunction with the Haub School of Environment and Natural Resources.

Additional Information

See the ENR Information and Advising Guide for details.

Professional Child Development

Professional Child Development prepares students for teaching and administrative positions in early childhood development and care.

Program Information

Entry into Professional Child Development must be approved by the department and advisor. Applicants must also satisfactorily complete a mandatory security screen (background check).

University Studies Program Requirements

Student must complete the following USP requirements that are not incorporated into the requirements for this concentration:

- FYS-First Year - Seminar Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Required Courses Before Entry

- EDEC1020 - Introduction to Early Childhood Education Credits: 3
- PSYC1000 - General Psychology Credits: 3
- SOC1000 - Sociological Principles Credits: 3
- ENGL1010 - College Composition and Rhetoric Credits: 3

Required Courses After Entry

**Meets FCSC Core Elective in Human Nutrition and Food. Grade of C or above required.*

***Meets FCSC Core Elective in Design, Merchandising and Textiles. Grade of C or above required.*

**** Grade of C or above required.*

- FCSC1141 - Principles of Nutrition Credits: 3 *
- FCSC2165 - Introduction to Fashion and Dress Credits: 3 **
- OR**
- FCSC3171 - Introduction to Textile Science Credits: 3 **
- FCSC2050 - Safety, Nutrition and Health in Early Childhood Programs Credits: 2 ***
- FCSC2121 - Child Development Credits: 4 ***
- FCSC2131 - Family Relations Credits: 3 ***
- FCSC2133 - Intimate Relationships Credits: 3 ***
- FCSC2200 - Professionalism and Communication in FCSC Credits: 3 ***
- FCSC3110 - Personal Finance Credits: 3 ***
- OR**
- FCSC4112 - Family Decision-Making and Resource Management Credits: 3 ***
- FCSC3119 - Parent-Child Relationships Credits: 3
- FCSC3122 - Adolescence Credits: 3 ***
- FCSC3220 - Multicultural Influences on Children and Families Credits: 3 ***
- FCSC4124 - Families of Young Children With Special Needs Credits: 3 ***
- FCSC4127 - Directing Preschool and Daycare Programs Credits: 3 ***
- FCSC4130 - Internship in Child Development Credits: 6-8 ***
- OR**
- FCSC4131 - Administration Internship in Child Development Credits: 6-8 ***
- FCSC4138 - Family Stress and Coping Credits: 3 ***
- EDEC3000 - Observing Young Children Credits: 3
- EDEC3220 - Curriculum and Learning Environments in Early Childhood Education Credits: 3
- EDEC4320 - Oral and Written Language Acquisition Credits: 3
- ENGL4010 - Technical Writing in the Professions Credits: 3
- OR**
- ENGL4075 - Writing for Non-Profits Credits: 3
- PSYC4310 - Developmental Psychopathology Credits: 3

Degree Minimum: 120 Hours

Electives may be needed to meet the university requirement of 42 upper division credit hours and the degree minimum of 120 overall credit hours.

Electives should be selected in consultation with advisor and faculty mentor.

Rangeland Ecology and Watershed Management, B.S.

Rangeland Ecology and Watershed Management provides you with knowledge, skills, and abilities to understand and manage wildlands. You will explore rangeland ecology, watershed management, soil science, and a diversity of landscapes.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3

Human Culture

ECON1020 - Principles of Microeconomics Credits: 3

Total Hours: 120

*Course must be completed with a C or better.

Minor

Agricultural Business Minor

Courses Required

AGEC1010 - Principles of Macroeconomics Credits: 3
AGEC1020 - Principles of Microeconomics Credits: 3

AGEC4050 - Agribusiness Marketing Credits: 3
OR

MKT2100 - Introduction to Marketing Credits: 3

AGEC4060 - Agribusiness Management Credits: 3
ACCT2010 - Principles of Accounting I Credits: 3
6 additional hours in upper-level agricultural economics courses;
6 hours in supporting agriculture courses.

Agroecology Minor

The Agroecology minor is ideal for students interested in how plant production systems interact with the surrounding ecosystem. This minor complements many majors related to land management and ecology.

Minimum Requirements: 20 Hours

Required: 11 Hours

PLNT1000 - Agroecology Credits: 4

Choose two from PLNT 3030, LIFE 2023, or SOIL 2010:

PLNT3030 - Ecological Web: Ecology of Plant Protection Credits: 3

LIFE2023 - Biology of Plants and Fungi Credits: 4

SOIL2010 - Introduction to Soil Science Credits: 4

9 additional credit hours from the following: 9 Hours

PLNT3220 - Plant Pathology Credits: 3

PLNT4070 - Weed Science and Technology Credits: 4

PLNT4020 - Sustainable Agriculture Credits: 3

PLNT4400 - Invasive Plant Ecology Credits: 3

BOT3100 - Plants and Civilization Credits: 3

ENTO4300 - Insect Ecology Credits: 3

LIFE3400 - General Ecology Credits: 3

SOIL4140 - Soil Microbiology Credits: 4

SOIL4540 - Microbial Diversity and Ecology Credits: 4

Agronomy Minor

The Agronomy minor trains students for careers in crop production and management, consulting, sales, and other areas of modern agriculture. Courses include crop & soil management, weed, insect, and disease management, among others.

Minimum Requirements: 19 Hours

Required: 11 Hours

PLNT1000 - Agroecology Credits: 4
PLNT3030 - Ecological Web: Ecology of Plant Protection Credits: 3
SOIL2010 - Introduction to Soil Science Credits: 4

8 additional credit hours from the following: 8 Hours

PLNT3220 - Plant Pathology Credits: 3
PLNT4020 - Sustainable Agriculture Credits: 3
PLNT4070 - Weed Science and Technology Credits: 4
PLNT4400 - Invasive Plant Ecology Credits: 3
BOT3100 - Plants and Civilization Credits: 3
ENTO4300 - Insect Ecology Credits: 3
LIFE3400 - General Ecology Credits: 3
SOIL4140 - Soil Microbiology Credits: 4
SOIL4540 - Microbial Diversity and Ecology Credits: 4

Animal and Veterinary Science, Animal and Veterinary Science Minor

This minor provides a foundational background in animal and veterinary science for students interested in livestock and equine production, but with a primary degree program outside of ANVS.

Courses Required:

ANSC3010 - Comparative Anatomy and Physiology of Domestic Animals Credits: 4
ANSC3100 - Principles of Animal Nutrition Credits: 3
ANSC4120 - Principles of Mammalian Reproduction Credits: 4
ANSC4540 - Principles of Animal Breeding Credits: 3
FDSC3060 - Principles of Meat Science and Muscle Biology Credits: 3
PATB4110 - Diseases of Food Animals Credits: 3

At Least One of the Following:

ANSC3150 - Equine Nutrition and Physiology Credits: 3
ANSC4220 - Advanced Beef Production and Management Credits: 3
ANSC4230 - Advanced Sheep Production & Management Credits: 3
ANSC4250 - Advanced Equine Production and Management Credits: 3

Animal and Veterinary Science, Equine Science Minor

This minor provides a foundational background in equine science and its application to equine production and management for students interested in the horse industry, but with a primary degree program outside of Equine Science.

Core Courses

12 total credit hours

ANSC1030 - Equine Management Credits: 3

ANSC3150 - Equine Nutrition and Physiology Credits: 3

ANSC3250 - Equine Behavior and Welfare Credits: 3

ANSC4111 - Equine Health and Disease Credits: 3

OR

PATB4111 - Equine Health and Disease Credits: 3

Electives

Must choose 3 courses minimum (minimum of 8 credits) - 8 to 10 total credit hours

*Maximum of 3 credits allowed in ANSC 3560

ANSC2020 - Feeds and Feeding Credits: 4

ANSC3555 - Equine Evaluation and Selection Credits: 3

ANSC3560 - Advanced Equine Evaluation and Selection Credits: 1-2 *

ANSC4132 - Equine Reproduction Credits: 2

ANSC4250 - Advanced Equine Production and Management Credits: 3

Apparel Design Minor

A minor in Apparel Design enables students to gain competency in areas expected of apparel designers; combining technical and creative skills with industry knowledge for the design and creation of fashionable and functional clothing.

Required Courses

FCSC1170 - Introduction to Apparel Construction Credits: 3

FCSC1175 - Design Communication Credits: 3

FCSC2175 - Fashion Illustration Credits: 3

FCSC2270 - Advanced Apparel Construction Credits: 3

FCSC3171 - Introduction to Textile Science Credits: 3

Plus one of the following

FCSC3174 - Flat Pattern Design Credits: 3

FCSC3175 - Apparel Design Through Draping Credits: 3

Plus one of the following

FCSC1180 - Applied Design Credits: 3

ART1120 - Foundation: Three Dimensional Credits: 3

Plus one of the following

FCSC4178 - Fiber Arts Credits: 3

FCSC4190 - Apparel Collection Development Credits: 3

Minor Total: 24 credit hours

All courses required for this minor must be completed with a letter grade of C or above.

Applied Economics Minor

Graduate standing.

Committee selection for the student's major thesis or dissertation committee should include at least one faculty member from AGECE.

Courses Required

AGEC4640 - Advanced Farm/Ranch Management Credits: 3

AGEC5310 - Theory of Producer Behavior Credits: 3

OR

AGEC5740 - Consumer Behavior and Prices Analysis Credits: 3

AGEC5320 - Quantitative Methods in Agricultural Economics Credits: 3

OR

AGEC5230 - Intermediate Econometric Theory Credits: 3

6 additional credits of approved courses.

Farm and Ranch Management Minor

Courses Required

AGEC1010 - Principles of Macroeconomics Credits: 3

AGEC1020 - Principles of Microeconomics Credits: 3

AGEC2020 - Farm and Ranch Business Management Credits: 4

AGEC4640 - Advanced Farm/Ranch Management Credits: 3

9 additional hours in upper-level agricultural economics courses;

6 hours in supporting agriculture courses.

Forest Resources Minor

In Forest Resources, you will develop a working knowledge of the processes that influence forest ecology, sustainability, and provision of the key products derived from forests.

Minimum Requirements: 20 Hours

RNEW2100 - Forest Management Credits: 3

SOIL4150 - Forest and Range Soils Credits: 3

RNEW4775 - Forest Ecology Credits: 4

REWM4540 - Problems Credits: 1-4

Choose One From

REWM3100 - Principles of Wildland Water Quality Credits: 3
REWM4285 - Wildland Hydrology Credits: 3
REWM4700 - Wildland Watershed Management Credits: 3
GEOG 4420

Choose One From

REWM4103 - Range and Ranch Recreation Credits: 3

Choose One From

REWM2000 - Principles of Rangeland Management Credits: 3
ZOO2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
RNEW3000 - Tropical Ecology Credits: 3
GEOG4470 - Fire Ecology Credits: 3

General Agricultural Economics Minor

Courses Required

AGEC1010 - Principles of Macroeconomics Credits: 3
AGEC1020 - Principles of Microeconomics Credits: 3
15 additional hours in agricultural economics courses with 12 hours at the upper-level;
6 hours in supporting agriculture courses.

Horticulture Minor

Students in the Horticulture minor learn landscaping, plant materials, propagation, organic food production, and crop production in greenhouses and controlled environments. Students who want to get their hands dirty are welcome.

Minimum Requirements: 20 Hours

Required: 8 Hours

PLNT2025 - Horticultural Science Credits: 3
PLNT2026 - Horticultural Sciences Laboratory Credits: 1

Choose one from PLNT 1000 or LIFE 1010:

PLNT1000 - Agroecology Credits: 4
LIFE1010 - General Biology Credits: 4

12 additional credit hours from the following: 12 Hours

PLNT3000 - Irrigated Agriculture Credits: 3
PLNT3220 - Plant Pathology Credits: 3
PLNT3300 - Horticultural Plant Propagation Credits: 3
PLNT4050 - Plant Biotechnology Credits: 3

PLNT4070 - Weed Science and Technology Credits: 4
PLNT4120 - Organic Food Production Credits: 3
PLNT4180 - Greenhouse Crop Production Credits: 4
PLNT4200 - Greenhouse Design and Management Credits: 3
PLNT4470 - Seed Science and Technology Credits: 3
PLNT4520 - Plant Breeding Credits: 3

Human Development and Family Sciences Minor

Provides students with a foundation in the basic principles and knowledge of human development and family sciences across the lifespan that can enrich and complement their primary area of study.

Required Courses

FCSC2121 - Child Development Credits: 4
FCSC2131 - Family Relations Credits: 3
FCSC2133 - Intimate Relationships Credits: 3

Plus 12 credit hours from the following:

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3
FCSC3110 - Personal Finance Credits: 3
FCSC3119 - Parent-Child Relationships Credits: 3
FCSC3122 - Adolescence Credits: 3
FCSC3220 - Multicultural Influences on Children and Families Credits: 3
FCSC4112 - Family Decision-Making and Resource Management Credits: 3
FCSC4113 - Consumer Issues Credits: 3
FCSC4117 - Understanding Community Leadership Credits: 3
FCSC4124 - Families of Young Children With Special Needs Credits: 3
FCSC4127 - Directing Preschool and Daycare Programs Credits: 3
FCSC4118 - Family Policy Credits: 3
FCSC4135 - Program Evaluation Credits: 3
FCSC4138 - Family Stress and Coping Credits: 3

Minor Total: 22 credit hours

All courses required for this minor must be completed with a letter grade of C or above.

Human Nutrition Minor

A minor in Human Nutrition and Food enhances degrees in kinesiology and health, food science, nursing, and related fields. Students learn how food choices influence health. *Does not prepare students to provide nutrition therapy or counseling.*

Required Courses

FCSC1141 - Principles of Nutrition Credits: 3
CHEM2300 - Introductory Organic Chemistry Credits: 4
ZOO3115 - Human Systems Physiology Credits: 4

Plus one of the following

** Course can be used to fulfill only one category.*

FCSC4145 - Advanced Nutrition Credits: 4 *
MOLB3610 - Principles of Biochemistry Credits: 4

Plus three of the following

** Course can be used to fulfill only one category.*

FCSC1150 - Scientific Study of Food Credits: 3
FCSC2141 - Nutrition Controversies Credits: 2
FCSC3142 - Geriatric Nutrition Credits: 2
FCSC3145 - Sports Nutrition and Metabolism Credits: 3
FCSC3147 - Community Nutrition Credits: 3
FCSC4044 - Maternal, Infant and Adolescent Nutrition Credits: 3
FCSC4145 - Advanced Nutrition Credits: 4 *
FCSC4147 - Nutrition and Weight Control Credits: 3

Minor Total: 23-25 credit hours

All courses required for this minor must be completed with a letter grade of C or above.

Insect Biology Minor

In Insect Biology, you will learn in-depth information about insects including their basic biology, ecology, and evolution.

Minimum Requirements: 13 Hours

Choose One From

ENTO1000 - Insect Biology Credits: 3
OR
ENTO1001 - Insect Biology Credits: 4

Choose From

Then choose from the list below to meet the minimum 13 credit hour requirement.

ENTO4678 - Aquatic Entomology Credits: 3
ENTO4682 - Insect Anatomy and Physiology Credits: 5
ENTO4684 - Classification of Insects Credits: 4
ENTO4686 - Problems in Entomology Credits: 1-3
ENTO4687 - Insect Evolution Credits: 3
ENTO4884 - Insect Behavior Credits: 3

Insect Biology/Entomology Graduate Study Minor

This minor is designed to complement a related graduate degree with an understanding of insect biology and entomology. Understanding the biology, ecology and classification of insects is crucial to understanding the widespread effects they have on agriculture, human health, and ecosystems.

Interior Design Minor

A minor in Interior Design enables students with career interests in this field to gain experience in the competency areas expected of interior designers.

Required Courses

FCSC2188 - Interior Design Studio I Credits: 3
FCSC3288 - Environmental Psychology and Inclusive Design Credits: 1
FCSC3171 - Introduction to Textile Science Credits: 3
ARE1600 - Architectural Design Studio I Credits: 3
ARE2600 - Architectural Design Studio II Credits: 3

Plus one of the following

FCSC3180 - Contract Design I Credits: 3
FCSC4188 - Contract Design II Credits: 3

Plus one of the following

FCSC1180 - Applied Design Credits: 3
ART1110 - Foundation: Two Dimensional Credits: 3
ART1120 - Foundation: Three Dimensional Credits: 3
ARE3600 - Architectural Design Studio III Credits: 3

Plus one of the following

ARE3030 - History of Architecture Credits: 3
ART2020 - Art History II Credits: 3

Minor Total: 21 credit hours

All courses required for this minor must be completed with a letter grade of C or above.

Additional Requirements

The Interior Design minor is sponsored jointly by the Departments of Family and Consumer Sciences and Civil and Architectural Engineering. Students who hope to use this minor to prepare for professional certification examination following graduation should consult the sponsoring departments to receive an advisor for the minor.

International Agricultural Minor

Courses Required

AGEC1010 - Principles of Macroeconomics Credits: 3
AGEC1020 - Principles of Microeconomics Credits: 3
AGEC3860 - World Food, Ag, & Development Credits: 3
AGEC4880 - International Agricultural Trade, Markets and Policy Credits: 3
6 additional hours in upper-level agricultural economics courses;
3 hours in foreign culture or language;
6 hours in supporting agriculture courses.

Molecular Biology Minor

A Molecular Biology minor includes courses in basic sciences, molecular biology, biochemistry, microbiology, genetics and upper level electives and research opportunities, preparing students for postgraduate studies in research and health sciences.

Molecular Biology Minor Additional Information

Students wishing to minor in molecular biology should discuss their plans with an adviser. Formal declaration of molecular biology as a minor requires 1) submission of a form approved by the Department of Molecular Biology and the College of Agriculture and Natural Resources Dean's Office, 2) appointment of an adviser for the Department of Molecular Biology.

To receive a minor in molecular biology, a student must complete courses listed in the following areas:

General Science Requirement

LIFE1010 - General Biology Credits: 4
CHEM1020 - General Chemistry I Credits: 4
CHEM1030 - General Chemistry II Credits: 4
CHEM2300 - Introductory Organic Chemistry Credits: 4

OR

CHEM2420 - Organic Chemistry I Credits: 4

MATH2200 - Calculus I Credits: 4

OR

MATH1450 - Algebra and Trigonometry Credits: 5

OR

MATH1400 - College Algebra Credits: 3

AND

MATH1405 - Trigonometry Credits: 3

MOLB Core and Elective Requirement

MOLB2021 - General Microbiology Credits: 4
MOLB3000 - Introduction to Molecular Biology Credits: 3
LIFE3050 - Genetics Credits: 4
MOLB3320 - Molecular Biological Methods Credits: 4

OR 3 credits of

MOLB4010 - Laboratory Research in Molecular Biology Credits: 1-3

MOLB3610 - Principles of Biochemistry Credits: 4

OR

CHEM4400 - Biological Chemistry Credits: 3

MOLB elective requirement: 6 credits of 4000-level MOLB courses, excluding MOLB 4010, MOLB 4050, MOLB 4051, MOLB 4052, MOLB 4850

Natural Resource Economics Minor

Courses Required

AGEC1020 - Principles of Microeconomics Credits: 3

AGEC3750 - Natural Resource Planning and Economics Credits: 3

AGEC4700 - Economics of Range Resources Credits: 3

AGEC4720 - Water Resource Economics Credits: 3

Choose 9 Additional Hours From:

AGEC4450 - Negotiation Credits: 3

AGEC4600 - Community Economic Analysis Credits: 3

AGEC4710 - Natural Resource Law and Policy Credits: 3

ECON2400 - Economics of the Environment Credits: 3

ECON4400 - Environmental Economics Credits: 3

ECON4410 - Natural Resource Economics Credits: 3

ECON4520 - Public Economics Credits: 3 (note: College of Business prerequisites)

ENR4500 - Risk Analysis Credits: 4

Plant Protection Minor

A combination of weed science, plant pathology, and entomology, the Plant Protection minor provides training for many careers in invasive species management, plant diagnostics, horticulture, and agronomy, among others.

Minimum Requirements: 19 Hours

Required: 19 Hours

PLNT1000 - Agroecology Credits: 4

PLNT3030 - Ecological Web: Ecology of Plant Protection Credits: 3

PLNT3220 - Plant Pathology Credits: 3

Choose one from ENTO 1000 or ENTO 1001 (ENTO 1001 preferred if available):

ENTO1000 - Insect Biology Credits: 3

ENTO1001 - Insect Biology Credits: 4

Choose one from PLNT 4070 or PLNT 4400:

PLNT4070 - Weed Science and Technology Credits: 4

PLNT4400 - Invasive Plant Ecology Credits: 3

Choose one from the following:

PLNT4000 - Plant Disease Control Credits: 3

PLNT4120 - Organic Food Production Credits: 3

PLNT4470 - Seed Science and Technology Credits: 3

Rangeland Ecology and Watershed Management Minor

Rangeland Ecology and Watershed Management provides you with an introduction to knowledge, skills and abilities to understand and manage wildlands. You will explore rangeland ecology, watershed management, soil science and a diversity of landscapes.

Required Courses

The required courses for the minor are:

LIFE1010 - General Biology Credits: 4

LIFE3400 - General Ecology Credits: 3

REWM2000 - Principles of Rangeland Management Credits: 3

REWM 2500 Credits: 2

REWM4330 - Rangeland Ecosystem Assessment and Monitoring Credits: 4

REWM4530 - Seminar Credits: 1

6 hrs. selected from other REWM upper-division (3000 or 4000 level) courses.

Additional Requirements

The number of hours required is 22.

Reclamation and Restoration Ecology Minor

This program covers the use of basic and applied ecological concepts to rehabilitate and restore processes and functions to disturbed ecosystems.

Required Courses: 14 Hours

LIFE3400 - General Ecology Credits: 3

SOIL2010 - Introduction to Soil Science Credits: 4

REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3

REWM4580 - Rangeland Restoration Ecology Credits: 3

REWM4990 - Undergraduate Teaching Practicum Credits: 1

Planning and Policy: 3 Hours

(choose one)

AGEC4710 - Natural Resource Law and Policy Credits: 3

ENR3000 - Approaches to ENR Problem Solving Credits: 3

GEOG4040 - Conservation of Natural Resources Credits: 3

GEOG 4750

REWM4051 - Environmental Politics Credits: 3
REWM4052 - Federal Land Politics Credits: 3
REWM4900 - Rangeland Management Planning Credits: 3

Below-Ground Processes: 3-4 Hours

(choose one)

CE4800 - Hydrology Credits: 3
CE 4820
SOIL4100 - Soil Physics Credits: 3
SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4
SOIL4140 - Soil Microbiology Credits: 4
SOIL4150 - Forest and Range Soils Credits: 3
SOIL4160 - Soil Health and Nutrient Cycling Credits: 3

Above-Ground Processes: 2-4 Hours

(choose one)

BOT4700 - Vegetation Ecology Credits: 4
BOT 4111
ENTO4678 - Aquatic Entomology Credits: 3
ENTO 4685
REWM4285 - Wildland Hydrology Credits: 3
REWM4540 - Problems Credits: 1-4
REWM4700 - Wildland Watershed Management Credits: 3
REWM4710 - Watershed Water Quality Management Credits: 3
REWM4850 - Rangeland Vegetation Management Techniques Credits: 3
ZOO 4550

Total: 22-25

Soil Science Minor

This program is designed to enhance soil expertise for students majoring in agricultural, natural resources, and environmental sciences degree programs.

Course Requirements: 15 Credit Hours

Course requirements (15 credit hours) for a Soil Science minor are:

SOIL2010 - Introduction to Soil Science Credits: 4
plus 11 credits of upper-division soil science courses for a total of 15 credits.

Additional Requirements

Undergraduate students minoring in Soil Science will enhance their job prospects with federal land management or conservation agencies (e.g., Forest Service, Bureau of Land Management, Natural Resources Conservation Society), state and federal

regulatory agencies (e.g., Wyoming Department of Environmental Quality), mining and oil companies, environmental consulting companies, or scientific research organizations.

Graduate

Agricultural Economics, M.S.

Degree Requirements

The following courses constitute the M.S. in Agricultural Economics core requirements and are required of all Plan A candidates (22 hours).

Economic Theory

- AGEC5310 - Theory of Producer Behavior Credits: 3
- AGEC5630 - Advanced Natural Resource Economics Credits: 3
- AGEC5710 - Advanced Agricultural Market Theory Credits: 3
- AGEC5740 - Consumer Behavior and Prices Analysis Credits: 3

Quantitative Methods

- AGEC5230 - Intermediate Econometric Theory Credits: 3
- AGEC5320 - Quantitative Methods in Agricultural Economics Credits: 3

Research

- AGEC5650 - Communicating Research Credits: 3
- AGEC5880 - Advanced Seminar Credits: 1-2

Plan A (Thesis):

Minimum of 30 credit hours including AGEC M.S. core requirements, thesis hours and electives.

No more than three hours of AGEC coursework numbered below 5000-level count toward the 30 hour requirement.

Achieve a cumulative 3.000 GPA in the AGEC M.S. core requirements.

The student's graduate committee, nominated by the major professor, the student, and the department head determine the final program of study and thesis research topic.

Presentation of research results at a formal public seminar.

Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Plan B (Non-thesis):

Minimum of 32 hours of coursework;

Non-thesis business analysis paper accepted by the student's graduate committee.

Minimum of 13 credit hours of agricultural economics coursework numbered at the 5000-level are required, including:

AGEC5310 - Theory of Producer Behavior Credits: 3
AGEC5740 - Consumer Behavior and Prices Analysis Credits: 3
AGEC5880 - Advanced Seminar Credits: 1-2

AGEC5630 - Advanced Natural Resource Economics Credits: 3
OR
AGEC5710 - Advanced Agricultural Market Theory Credits: 3

AGEC5320 - Quantitative Methods in Agricultural Economics Credits: 3
OR
AGEC5230 - Intermediate Econometric Theory Credits: 3

In Addition:

Students are required to complete 3 credit hours from each of the following three areas:

Management:

AGEC4060 - Agribusiness Management Credits: 3

AGEC4640 - Advanced Farm/Ranch Management Credits: 3
OR
AGEC 5460
OR
MGT 4410

MGT 4420
MGT 4440

MGT4470 - Negotiations and Conflict Resolution Credits: 3
OR
MGT 4520

Marketing:

AGEC4050 - Agribusiness Marketing Credits: 3
AGEC4830 - Agricultural Commodities and Futures Markets Credits: 3
AGEC4840 - Agricultural Market Analysis Credits: 3

AGEC4880 - International Agricultural Trade, Markets and Policy Credits: 3
OR
AGEC5710 - Advanced Agricultural Market Theory Credits: 3
OR
MKT4240 - Consumer Behavior Credits: 3

MKT4430 - Marketing Management Credits: 3

MKT4520 - Marketing Research and Analysis Credits: 3
OR

MKT4540 - International Marketing Credits: 3

Finance:

AGEC4500 - Agricultural Finance Credits: 3

OR

FIN4510 - Bank Management Credits: 3

FIN 4520

FIN 4610

FIN4810 - Real Estate Investment Credits: 3

OR

ECON4740 - International Economics and Policy Credits: 3

Remaining Credit Hours

Remaining credit hours will be filled with electives.

The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic.

Presentation of the business analysis paper at a formal public seminar.

An internship experience is strongly encouraged as part of the agricultural business option (AGEC 5990).

Agricultural Economics/Environment and Natural Resources, M.S.

Plan A (Thesis)

Students must complete the 20 credit hour agricultural and applied economics M.S. core requirements plus 4 thesis hours and 15 credit hours in environment and natural resources, as approved by the student's committee and the ENR academic adviser.

Achieve a cumulative 3.000 GPA in the AGEC M.S. core requirements.

The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic, which must be in the area of environment and natural resources.

Presentation of research results at a formal public seminar.

Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Agricultural Economics/Water Resources, M.S.

The objective of this program is to provide students with specialized study in water,resources and to signify this specialization by the designation of the water resources interdisciplinary major on the transcript.

Coursework and Thesis

Students must complete the 24 credit hour agricultural and applied economics including M.S. core requirements plus 4 thesis hours and 9 credit hours in water resources approved courses.

Achieve a cumulative 3.000 GPA in the AGECE M.S. core requirements.

The candidate's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and thesis research topic, which must be in the water resources area.

Presentation of research results at a formal public seminar.

Completion of an oral examination covering the student's thesis research administered by the graduate committee.

Oral Exam Requirement

In addition to coursework and a Plan A Thesis, students must pass a final oral examination. The student's committee may also require a written examination.

Interdisciplinary Component

nine hours (see Water Resources degree requirements)

Plan A (Thesis)

Students must complete the 20 credit hour agricultural and applied economics M.S. core requirements plus 4 thesis hours and 10 credit hours in water resources approved courses.

Please refer to Water Resources Degree program in this *Catalog* for updated degree requirements.

Achieve a cumulative 3.000 GPA in the AGECE M.S. core requirements.

The student's graduate committee, nominated by the major professor, the student and the department head determine the final program of study and business analysis topic, which must be in the water resources area.

Presentation of research results at a formal public seminar.

Completion of an oral examination covering the student's thesis research administered by the student's graduate committee.

Animal and Veterinary Science, M.S.

Both Plan A (Thesis) and Plan B (Non-thesis) options are available.

Plan A (Thesis)

The student, major professor, and graduate committee determine the program of study and research project, which meets the needs of the individual student. The candidate's graduate committee should be established and functioning by the time the student has completed 12 semester hours of formal coursework. The master of science program should be approved and filed by the end of the student's second semester of graduate study in animal science. This committee shall also determine if the student is making satisfactory progress to be advanced to a candidate for a master's degree or continued in a doctoral program by the end of the student's third semester following matriculation.

The student can specialize in breeding, food science and human nutrition, nutrition, physiology, meat science, reproduction or wool for coursework and thesis/dissertation project. In addition, supporting coursework is available in agricultural economics, biochemistry, microbiology, range management, genetics, statistics, and other areas of interest to the individual. In certain cases it is possible to develop a joint research project between animal science and another department.

Students may use the research facilities and herds of beef cattle, sheep, and swine at the university livestock center near the university or at one of the university research and extension centers in the state. Research laboratories are located on campus and include a modern meat processing facility.

The Thesis program is a 30 hour program, 26 hours of coursework and 4 hours of thesis research.

Plan B (Non-thesis)

The Non-thesis program requires a coursework-intensive, non-thesis master of science program for those students whose career paths may not require a thesis research program.

The program requires 32 hours of coursework in addition to an acceptable non-thesis research paper as defined by the student's graduate committee.

Options

Program Specific Degree Requirements

A minimum of 30 credit hours including 4 thesis hours must be earned in 4000-5999 level courses.

The program of study is arranged with the student's graduate committee.

Animal and Veterinary Science, Ph.D.

A 72 hour program.

Students must meet the university minimum requirements.

Ecosystem Science and Management/Applied Economics, Ph.D.

The course requirements for this program are highly flexible to accommodate a wide variety of student backgrounds and interests. Students can major in any PhD program within ESM including Rangeland Ecology and Watershed Management, Soil Science, and Entomology.

Additional Requirements

A minimum of 72 credit hours of coursework. The credit hour requirement can include:

Up to 48 credit hours transferred from approved graduate courses earned while pursuing an M.S. degree (no more than 4 credit hours of thesis);

A minimum of 12 credit hours of approved ESM (REWM, SOIL, ENTO) courses;

A minimum of 18 credit hours of approved AGEC or ECON courses, with at least 12 credit hours at the 5000-level.

At least 42 of the 72 credit hour requirement must be earned in formal coursework.

No more than 12 credit hours of 4000-level courses can count towards the 72 credit hour requirement.

Entomology, M.S.

The M.S. program is geared toward teaching graduate students the tools necessary to conduct robust scientific research. Entomology graduate students study a variety of scientific issues related to insects across the globe.

Plan A (Thesis)

The master of science degree normally is offered under Plan A which requires at least the university minimum degree requirements and an oral examination.

Plan B (Non-thesis)

Requires 30 hours of graduate credit to include 9 hours of required courses, 11 hours of required electives, and 10 hours of other electives.

Plan B project - follows format of Plan A thesis.

A Plan B master of science will be a terminal degree program in the Department of Ecosystem Science and Management. Students completing this option will not qualify for a subsequent Ph.D. program in Department of Ecosystem Science and Management at the University of Wyoming.

Additional Requirements

This program requires 30 credit hours (at least 12 from Entomology) approved by the student's graduate advisory committee and an approved research plan.

Entomology, Ph.D.

The Ph.D. program allows graduate students to use the research-oriented tools learned during a master's program to conduct research on a major question surrounding entomology. Entomology graduate students study a variety of scientific issues related to insects across the globe.

Additional Requirements

This program requires 72 credit hours (at least 12 from Entomology) that include credits earned during a master's degree that are approved by the student's graduate advisory committee and an approved research plan.

Candidates must complete the minimum requirements for the doctor of philosophy degree, plus a preliminary examination (written and oral) covering knowledge related to the discipline (taken after most coursework complete) and an oral final examination.

Entomology/Water Resources, M.S.

The purpose of this program is to enhance the cross-disciplinary linkage between entomology and water resources and to provide students with an entomology degree program that emphasizes the important issues in water resources.

Coursework and Thesis

Each student must complete a minimum of 26 credit hours of graduate level coursework and 4 thesis credit hours of ENTO 5960 to qualify for a master of science degree in entomology/water resources. Specific coursework will be determined by the student's graduate committee; however, each student is required to enhance his/her background and expertise in the water resources area through specialized coursework and a seminar as shown below.

ENTO 5678 Aquatic Entomology (3)
Interdisciplinary component 9 hours (see Water Resources degree requirements)

Plan A Thesis Requirement

Only Plan A thesis students are eligible for the master of science in entomology/water resources. In addition to coursework and a Plan A thesis, students must pass a final written and oral examination. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee to help ensure adherence to the master of science in entomology/water resources degree requirements and that research efforts are in the water area.

Family and Consumer Sciences - Master of Science

The master's program in family and consumer sciences offers three specialized and very different areas of emphasis for a variety of pathways and careers.

General Requirements

All emphasis areas listed below require a minimum of 30 credit hours of coursework at the 4000/5000 level. Only nine credit hours of 4000-level courses are allowed in this master's program. The student may be required to complete more than the minimum credit hours to satisfy prerequisites or because the student's committee determines additional coursework is required for the student to reach their professional objective.

The student is responsible for meeting all deadlines, submitting all required forms, and for fulfilling all requirements for the degree.

Design, Merchandising and Textiles

This program offers the study of textiles, merchandising of textile and apparel products, various aspects of apparel design and product development including creative and functional design options, and various aspects of interior design.

Student may choose Plan A - Thesis or Plan B - Non-Thesis Project.

An oral defense of thesis or project is required.

Student must complete the following (approved by graduate committee):

14 credit hours of Family and Consumer Sciences courses

6 credit hours of supporting courses from arts, humanities, natural or social sciences

6 credit hours of supporting research courses

4 credit hours of FCSC 5960 Thesis Research

Human Development and Family Sciences

This program is designed for professionals who are currently working in human services fields and would like to further their education. This is an entirely online degree program that allows students to progress at their own pace.

Student may choose Plan A - Thesis or Plan B - Non-Thesis Project.

An oral defense of thesis or project is required.

Student must complete the following (approved by graduate committee):

FCSC 5122 Developmental Contexts Across the Lifespan

FCSC 5123 Positive Youth Development

FCSC 5135 Program Evaluation

EDRE 5530 Introduction to Research or EDRE 5550 Action Research

14 credit hours of supporting courses

4 credit hours of FCSC 5960 Thesis Research

Human Nutrition and Food

This program increases the understanding of food and nutritional science and how to apply that knowledge to disease prevention and enhancement of human potential.

Student may choose Plan A - Thesis or Plan B - Non-Thesis Project.

An oral defense of thesis or project is required.

Student must complete the following (approved by graduate committee):

18 credit hours of courses from food and nutritional sciences, biological, natural and social sciences

6 credit hours of supporting research courses

2 credit hours of graduate research seminars

4 credit hours of FCSC 5960 Thesis Research

Application and Admission Requirements

Admission to this graduate program and selection for department-funded assistantships is highly competitive. Faculty review the applications for their program area. Priority consideration is given to applicants who meet or exceed admission requirements and possess research interests that parallel those of the faculty. We do not offer conditional admission.

The application must include the following:

A bachelor's degree based on a four year curriculum from an accredited institution with a grade point average of 3.0 or higher (on a 4.0 scale). Transcripts from all institutions attended must be submitted.

Graduate Record Exam (GRE) score. In the past, successful applicants have typically had scores at or above the 50th percentile on two of the three subtests (verbal, quantitative, and analytical writing). Official scores must be submitted. Letters of recommendation -- Applicants must submit names and contact information for at least 3 people who will provide letters of recommendation and evaluation of the applicant's preparedness and/or qualifications for the desired graduate degree program.

A statement of purpose (letter of intent) that includes applicant's preparation for the desired degree, research interests, future goals related to the program of interest, and if they wish to be considered for a graduate assistantship.

A current professional resume or curriculum vitae.

For international students, a minimum TOEFL score of 540 (76 iBT), IELTS score of 6.5, or Duolingo score of 105 average of the Conversation and Production sections. Official scores must be submitted.

International students must also provide evidence of adequate financial resources.

To ensure full review for fall semester admission, applications must be received no later than March 1. Notification of application decisions will be made by May 1. Applications received at other times of year will be reviewed only if space in the desired program area is available.

Final approval of program entry for an international graduate student receiving an assistantship is contingent upon demonstrated English language oral proficiency.

Financial Support

Financial support is never guaranteed.

Graduate assistantships are awarded after applicants are selected for program entry.

Graduate assistantships require teaching and/or research. Students awarded an assistantship involving any type of teaching responsibility including labs, lectures, paper grading and interpretation to students are required to successfully complete the mandatory Graduate Teaching and Learning Symposium prior to assuming their duties. The department will define teaching responsibilities prior to the student attending the teaching symposium.

A full-time assistantship provides a stipend, health insurance, and a tuition/fee reduction.

The stipend is payable in installments over an academic year (September through May).

Health insurance will be paid for the calendar year. **Student medical insurance is mandatory for international students.**

The tuition/fee reduction will cover up to 9 graduate credit hours of tuition per semester and most mandatory fees. Some incidental fees are the responsibility of the student. Anyone receiving a full-time graduate assistantship must be registered as a full-time student in 9 credit hours per semester.

If a student is awarded less than a full-time assistantship, the stipend, and tuition and fee reduction will be adjusted to the percentage rate of the assistantship.

Graduate students who receive a full assistantship are required to work an average of 20 hours per week for the stipend.

Renewal of a graduate assistantship is contingent on acceptable progress towards degree completion and maintenance of a grade point average of 3.0 or above.

Financial support is not given for more than two academic years.

Food Science and Human Nutrition Interdisciplinary Master of Science

An interdisciplinary program where students gain expertise in theory as well as combined research in the areas of human nutrition and metabolism, food product development, community nutrition, food microbiology, meat science and food chemistry.

General Information

You can earn your master's degree in food science and human nutrition through the Department of Animal Science or Family and Consumer Sciences.

Applicants indicate the research experience they prefer and faculty member they are interested in working with. In this highly competitive graduate degree program, students gain direct experience with data collection, analysis, writing and publication through laboratory and classroom learning experiences. Program faculty are actively conducting research in the areas of eating behaviors, indigenous/traditional diets, micronutrient needs and deficiencies, food product development, sensory characteristics of food products, health and physical performance of active individuals, nutrition and disease, brain-reward pathway in animals, microbial diagnostics, rumen microbiome, nitrogen/protein metabolism, lipid analysis and alternative feed/forages.

General Requirements

A minimum of 30 credit hours of coursework at the 4000/5000 level is required. Only nine credit hours of 4000-level courses are allowed in this master's program. The student may be required to complete more than the minimum credit hours to satisfy prerequisites or because the student's committee determines additional coursework is required for the student to reach their professional objective.

Student may choose Plan A - Thesis or Plan B - Non-Thesis Project.

An oral defense of thesis or project is required.

Student must complete the following (approved by graduate committee):

18 credit hours of courses from food and nutritional sciences, biological, natural and social sciences

6 credit hours of supporting research courses

2 credit hours of graduate research seminars

4 credit hours of FCSC 5960 Thesis Research

The student is responsible for meeting all deadlines, submitting all required forms, and for fulfilling all requirements for the degree.

Recommended Prerequisites

The following are recommended for students applying to the program:

- One semester of organic chemistry
- Human or animal nutrition, anatomy and physiology
- Introductory statistics

Application and Admission Requirements

Admission to this graduate program and selection for department-funded assistantships is highly competitive. Faculty review the applications for their program area. Priority consideration is given to applicants who meet or exceed admission requirements and possess research interests that parallel those of the faculty. We do not offer conditional admission.

The application must include the following:

- A bachelor's degree from an accredited institution with a grade point average of 3.0 or higher (on a 4.0 scale). Transcripts from all institutions attended must be submitted.

Graduate Record Exam (GRE) score. In the past, successful applicants have typically had scores at or above the 50th percentile on two of the three subtests (verbal, quantitative, and analytical writing). Official scores must be submitted. Letters of recommendation -- Applicants must submit names and contact information for at least 3 people who will provide letters of recommendation and evaluation of the applicant's preparedness and/or qualifications for the desired graduate degree program.

A statement of purpose (letter of intent) that includes applicant's preparation for the desired degree, research interests, future goals related to the program of interest, and if they wish to be considered for a graduate assistantship.

A current professional resume or curriculum vitae.

For international students, a minimum TOEFL score of 540 (76 iBT), IELTS score of 6.5, or Duolingo score of 105 average of the Conversation and Production sections. Official scores must be submitted.

International students must also provide evidence of adequate financial resources.

To ensure full review for fall semester admission, applications must be received no later than March 1. Notification of application decisions will be made by May 1. Applications received at other times of year will be reviewed only if space in the desired program area is available.

Final approval of program entry for an international graduate student receiving an assistantship is contingent upon demonstrated English language oral proficiency.

Financial Support

Financial support is never guaranteed.

Graduate assistantships are awarded after applicants are selected for program entry.

Graduate assistantships require teaching and/or research. Students awarded an assistantship involving any type of teaching responsibility including labs, lectures, paper grading and interpretation to students are required to successfully complete the mandatory Graduate Teaching and Learning Symposium prior to assuming their duties. The department will define teaching responsibilities prior to the student attending the teaching symposium.

A full-time assistantship provides a stipend, health insurance, and a tuition/fee reduction.

The stipend is payable in installments over an academic year (September through May).

Health insurance will be paid for the calendar year. **Student medical insurance is mandatory for international students.**

The tuition/fee reduction will cover up to 9 graduate credit hours of tuition per semester and most mandatory fees. Some incidental fees are the responsibility of the student. Anyone receiving a full-time graduate assistantship must be registered as a full-time student in 9 credit hours per semester.

If a student is awarded less than a full-time assistantship, the stipend, and tuition and fee reduction will be adjusted to the percentage rate of the assistantship.

Graduate students who receive a full assistantship are required to work an average of 20 hours per week for the stipend.

Renewal of a graduate assistantship is contingent on acceptable progress towards degree completion and maintenance of a grade point average of 3.0 or above.

Financial support is not given for more than two academic years.

Hydrology, Ph.D.

Join a cutting-edge PhD program to gain expertise in technical, philosophical, and methodological aspects of hydrology related to above- and below-ground systems. We foster research and learning on critical water-related science and social topics.

Additional Information

Hydrologic Sciences (WRESE), Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/wrese>
E-mail: wrese@uwyo.edu

Program Director: Andrew D. Parsekian, Ph.D.

Degree Offered

Ph.D. in Hydrologic Sciences

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D. level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

The WRESE Program grants a PhD in Hydrological Sciences.

Program Specific Admission Requirements

Ph.D. in Hydrologic Sciences

The WRESE Program only admits students seeking a doctoral degree.

Those interested in graduate study in this program, are encouraged to contact the WRESE program (wrese@uwyo.edu) for more information and guidance regarding applying. In order to apply, please submit an application to the program via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>). Prospective students applying to the WRESE program must satisfy the minimum criteria for admission of their advisor's home department (i.e., number of reference letters required; minimum GRE scores, if requested; other supporting documents, if requested; etc.). Similarly, applicants should adhere to the submission deadline indicated by their advisor's home department.

Minimum criteria for admission to the WRESE Program are:

Minimum undergraduate GPA of 3.000

Agreement by a faculty member affiliated with the WRESE program to sponsor the student

Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under certain circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the WRESE program.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

Coursework credits: 42 hours (26 can be from an MS)

Total credits: 72 hours

Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

The written exam will consist of a series of questions as decided upon by the committee and should take no more than two weeks to complete.

Each committee member shall grade their portion of the exam as pass/fail. The student shall be viewed as passing the written exam if no more than one person grades their portion of the exam as failing.

The oral examination will be held no sooner than two weeks after the written exams, and only after the student has passed their written examinations. The oral exam should be no less than 90 minutes long and no longer than 3 hours.

Following the exam, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Dissertation

The student will prepare a dissertation and make the document available to the committee at least two weeks in advance of an oral defense of the document. The oral defense must be at least 15 weeks after the student has been advanced to candidacy. Students shall present a public defense to the university community that is expected to be approximately 45 minutes long, with a public question-and-answer period after the presentation. If the committee determines that the student has presented a suitable oral presentation of his/her research findings, a closed session meeting will be held in which the student defends their research to the committee. At the conclusion of the defense, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Other information:

Students in the WRESE Program may participate from any college, with the expectation that their program of study and dissertation will focus on quantitative issues of hydrology and water resources. The Program welcomes academic diversity, and students in WRESE have entered into the Program from a wide range of academic backgrounds and have hailed from numerous home departments, including Ecosystem Science and Management, Civil and Architectural Engineering, Botany, Zoology and Physiology, and Geology and Geophysics.

Water Resources/Environmental Science and Engineering is an Interdisciplinary program that fulfills an important need by organizing a rigorous Ph.D.- level curriculum, with sufficient numbers of relevant courses to serve the needs of Ph.D. students affiliated with the program faculty.

Molecular Biology, M.A.

The Molecular Biology M.A. program includes advanced courses in molecular sciences with a focus on a research project, preparing students for a Ph.D. program, biotechnology research or other professional postgraduate program.

Molecular Biology, M.A. Additional Information

An applicant for the M.A. degree in Molecular Biology is generally expected to have an equivalent of a B.S. degree in a field related to Molecular Biology. Prior to admission to the program, an applicant needs to contact the Molecular Biology department professor directly to determine if they may be interested in serving as the student's potential adviser. Once a future graduate adviser agrees to accept a student into their lab, an applicant can apply to the Molecular Biology Graduate program. Admissions to the program are allowed in the Fall, Spring and Summer semesters.

Additional information on graduate student regulations and policies, including transfer credit and credit reserved from undergraduate courses, is located here: https://www.uwyo.edu/registrar/graduate_students/resources.html

The pursuit of an M.A. degree in Molecular Biology is suitable for students interested in obtaining a master's degree that does not necessarily include laboratory work. Students who intend to pursue education in medical, dental, veterinary or law schools may choose to pursue an M.A. in Molecular Biology before continuing their education. An appropriate research project is selected in consultation with the M.A. degree candidate and their graduate adviser. Student performance is monitored by a thesis committee that will evaluate a student's written thesis, public seminar, and oral thesis defense. A student pursuing an M.A. degree should not have expectations of financial support. Students pursuing the M.A. degree in Molecular Biology usually complete their program in two academic semesters plus two summer semesters.

Requirements for M.A. degree in Molecular Biology

An M.A. degree student, in consultation with their graduate committee, must design a Program of Study that includes a minimum of 30 hours of graduate credit. Specific requirements for the M.A. Program in Molecular Biology are listed below.

3 credits of Advanced Biochemistry MOLB 5600 with a minimum grade of B.

This requirement may be fulfilled if a student has already received a minimum grade of B in MOLB 4600, MOLB 5600, or transfer credits for an equivalent biochemistry course taken at another university (equivalency is determined by the student's graduate committee).

6 credits minimum of a 5000-level MOLB course from the following list: MOLB 5400, MOLB 5440, MOLB 5450, MOLB 5460, MOLB 5610, MOLB 5670, MOLB 5680.

4 credits of the seminar presentation course MOLB 5050 (2 credits of MOLB 5050 must be taken the first semester a student enrolls in the graduate program)

Students are required to enroll in the departmental seminar course each semester: MOLB 5051 during the academic year; MOLB 5052 in the summer semester

Other credits as determined by the student in consultation with their graduate committee

Molecular Biology, M.S.

The M.S. in Molecular Biology program provides training with advanced courses in molecular sciences and conducting a research project, with the goal of providing a foundation for pursuing a Ph.D. program, employment or other postgrad program.

Molecular Biology, M.S. Additional Information

The M.S. is a research-intensive degree. An applicant is generally expected to have an equivalent of a B.S. degree in a field related to Molecular Biology. Prior to admission to the program, an applicant must contact the Molecular Biology department professor directly to determine if they may be interested in serving as the student's potential adviser. Once a future graduate adviser agrees to accept a student into their lab, an applicant can start an application to the Molecular Biology Graduate program. Admissions to the program are allowed in the Fall, Spring and Summer semesters. An M.S. candidate will conduct a research project as well as present at the departmental seminars and at scientific meetings. Student performance is monitored by a thesis committee that evaluates a student's research proposal, seminar presentations, written thesis, final public seminar, and final oral defense of the thesis. In consultation with the faculty research adviser, a student may elect to serve as a teaching assistant. Graduate assistantships for M.S. degree students are at the discretion of their graduate adviser. Students pursuing the M.S. degree in Molecular Biology usually complete their program in two to three years.

Additional information on graduate student regulations and policies, including transfer credit and credit reserved from undergraduate courses, is located here: https://www.uwyo.edu/registrar/graduate_students/resources.html

Requirements for M.S. degree in Molecular Biology

An M.S. degree student, in consultation with their graduate committee, must design a Program of Study that includes a minimum of 30 hours of graduate credit, including 26 credits of formal coursework and 4 credits of thesis research MOLB 5960 . Specific requirements for the M.S. degree in Molecular Biology are listed below.

3 credits of Advanced Biochemistry MOLB 5600 with a minimum grade of B.

This requirement may be fulfilled if a student has already received a minimum grade of B in MOLB 4600 , MOLB 5600 , or transfer credits for an equivalent biochemistry course taken at another university (equivalency is determined by the student's graduate committee).

6 credits minimum of a 5000-level MOLB course from the following list: MOLB 5400, MOLB 5440, MOLB 5450, MOLB 5460, MOLB 5610, MOLB 5670, MOLB 5680.

4 credits of MOLB 5050 Advanced Student Seminar; 2 credits of MOLB 5050 must be taken the first semester a student enrolls in the graduate program

Students are required to enroll in the departmental seminar course each semester: MOLB 5051 during the academic year; MOLB 5052 in the summer semester

Other credits as determined by the student in consultation with their graduate committee

MOLB 5960 Thesis Research (4 credits)

Molecular Biology, Ph.D.

The Ph.D. program in Molecular Biology provides training for students interested in pursuing advanced courses and conducting an extensive laboratory research project in molecular and cellular biology or microbiological research areas.

Molecular Biology, Ph.D. Additional Information

The Ph.D. in Molecular Biology is a research-intensive degree. Prior to admission to the program, an applicant must contact the Molecular Biology department professor directly to determine if they may be interested in serving as the student's potential

adviser. Once a future graduate adviser agrees to accept a student into their lab, an applicant can start an application to the Molecular Biology Graduate program. Admissions to the program are allowed in the Fall, Spring and Summer semesters.

An application to the Ph.D. program should include a curriculum vitae (CV), a 2-page statement of research interests and career plans, contact information for three references, transcripts from previous institutions, and GRE scores. Those students with an M.S. degree may be excluded from the GRE requirement. Following admission, a student will conduct a guided research project in the laboratory into which they have been accepted. The faculty research adviser is responsible for financial support of the student. A research project is expected to result in publications in peer-reviewed journals as well as presentations at the departmental seminars and scientific meetings.

Throughout the degree program, a graduate student is guided and evaluated by their research adviser and graduate committee. A student must develop a Program of Study approved by the student's graduate committee. Student performance is monitored by a dissertation committee that evaluates a student's seminar presentations, research proposal, preliminary exam, written dissertation, final public seminar, and final oral defense of the dissertation. In consultation with the faculty research adviser, a student may elect to serve as a teaching assistant. Students pursuing the Ph.D. degree in Molecular Biology usually complete their program in approximately five years.

Requirements for Ph.D. degree in Molecular Biology

A Program of Study for the Ph.D. in Molecular Biology must include a minimum of 72 semester hours of credit at the 4000 level or above from UW or equivalent levels from another approved university. This 72-hour requirement may include graduate credits earned while working toward the master's degree in the same area, but at least 42 hours (of the 72) must be earned in formal coursework, including the specific requirements for the program detailed below. Additional credits toward the 72-hour requirement may include additional formal course credits, Dissertation Research credits (MOLB 5980), or MOLB 5960 credits or Internship credits (MOLB 5990). The Program of Study must be on file in the Office of the Registrar before the preliminary examination can be scheduled. Additional information on graduate student regulations and policies, including transfer credit and credit reserved from undergraduate courses, is located here: https://www.uwyo.edu/registrar/graduate_students/resources.html

Specific requirements for the Ph.D. degree in Molecular Biology are listed below. The Program of Study is determined in consultation with the student's graduate committee.

3 credits of Advanced Biochemistry MOLB 5600 with a minimum grade of B.

This requirement may be fulfilled if a student has already received a minimum grade of B in MOLB 4600, MOLB 5600, or transfer credits for an equivalent course taken at another university (equivalency is determined by the student's graduate committee).

6 credits minimum of a 5000-level MOLB course from the following list: MOLB 5400, MOLB 5440, MOLB 5450, MOLB 5460, MOLB 5610, MOLB 5670, MOLB 5680.

4 credits of MOLB 5050 Advanced Student Seminar; 2 credits of MOLB 5050 must be taken the first semester a student enrolls in the graduate program

Students are required to enroll in the departmental seminar course each semester: MOLB 5051 during the academic year; MOLB 5052 in the summer semester

Other course credits as determined by the student in consultation with their graduate committee

MOLB 5980 Dissertation Research (number of credits to be determined in consultation with the student's graduate committee)

Plant Sciences, M.S.

The Plant Sciences M.S. program emphasizes sustainable management of agronomic, horticultural, and forage crops, plant breeding, and invasive species management. Students are trained for scientific careers in academia, public and private sectors.

Plan A (Thesis)

Requirements for the master of science degree include 26 hours of coursework beyond the bachelor's degree numbered 4000 or above, 4 hours of thesis research, a research proposal, original research, and oral defense of the thesis.

The M.S. degree is typically completed in two years. The student's coursework is selected to fit the student's individual needs by mutual consultation among the student, his/her major professor, and graduate committee.

Plant Sciences, Ph.D.

A Ph.D. in Plant Sciences is a research-based terminal degree focusing on specific areas of plant production and management. Scientific training in plant production and vegetation management for careers in academia, public and private sectors.

Program Information

The requirements for the doctor of philosophy degree include 60 hours of coursework beyond the bachelor's degree numbered 4000 or above, 12 hours of dissertation research, a research proposal, original research, written and oral preliminary exams to be taken when most or all coursework is completed, and an oral defense of the dissertation.

Dissertations may be in a modified journal article format but must meet university formatting requirements.

The student's coursework is selected to fit the student's individual needs by mutual consultation among the student, his/her major professor, and graduate committee.

The student is expected to participate in the usual activities of scientific research such as attending and presenting at research seminars and professional meetings and publishing his/her research.

Rangeland Ecology and Watershed Management, M.S.

The M.S. program is geared toward teaching graduate students the tools necessary to conduct robust scientific research and communicate with the public and potential clients.

Plan A (Thesis)

The master of science degree normally is offered under Plan A which requires at least the university minimum degree requirements and an oral examination.

An oral defense of the thesis is required.

Plan B (Non-thesis)

Plan B is available under special circumstances and requires 30 hours of graduate coursework.

Plan B candidates must also prepare one professional paper (i.e., content and form compatible with publication in a scientific journal) or, if the adviser requests, two professional papers in selected topic areas.

An oral defense of the paper(s) is required.

Additional Requirements

This program requires 30 credit hours (at least 12 from Rangeland Ecology and Watershed Management) approved by the student's graduate advisory committee and an approved research plan.

Rangeland Ecology and Watershed Management, Ph.D.

The Ph.D. program allows graduate students to use the research-oriented tools learned during a master's program to conduct research on a major question surrounding rangeland ecology and watershed management.

Additional Requirements

This program requires 72 credit hours (at least 12 from Rangeland Ecology and Watershed Management) that include credits earned during a master's degree that are approved by the student's graduate advisory committee and an approved research plan. Candidates must complete the minimum requirements for the doctor of philosophy degree, plus a preliminary examination (written and oral) covering knowledge related to the discipline (taken after most coursework is complete) and an oral final examination.

Rangeland Ecology and Watershed Management/Water Resources, M.S.

The purpose of this program is to enhance the cross-disciplinary linkage between range and forest management and water resources and to provide students with a degree program in Rangeland Ecology and Watershed Management, which emphasizes the important issues in water resources.

Coursework and Thesis

Water Resources requirements Credits: 10 *

Statistics Credits: 3

REWM 5620 - Range Management Seminar Credits: 1

Other recommended graduate courses or substitution courses with adviser consent Credits: 12

Plan A thesis Credit: 4

Minimum Credits: 30

*Water Resources Requirements

Interdisciplinary component 9 hours (see Water Resources degree requirements)

REWM5250 - Water Resources Seminar Credits: 1

Soil Science, M.S.

The M.S. program is geared toward teaching graduate students the tools necessary to conduct robust scientific research.

Plan A (Thesis)

Plan A requires the university minimum degree requirements and an oral final examination.

Plan B (Non-thesis)

Plan B is available and requires 30 hours of graduate coursework.

An oral defense of the paper(s) is required.

Additional Requirements

This program requires 30 credit hours (at least 12 from Soil Science) approved by the student's graduate advisory committee and an approved research plan.

Soil Science, Ph.D.

The Ph.D. program allows graduate students to use the research-oriented tools learned during a master's program to conduct research on a major question surrounding soil science.

Additional Requirements

This program requires 72 credit hours (at least 12 from Soil Science) that include credits earned during a master's degree that are approved by the student's graduate advisory committee and an approved research plan.

Candidates must complete the minimum requirements for the doctor of philosophy degree, plus a preliminary examination (written and oral) covering knowledge related to the discipline (taken after most coursework is complete) and an oral final examination.

Soil Science/Water Resources, M.S.

The purpose of this program is to enhance the cross-disciplinary linkage between soil science and water resources and to provide students a degree program in Soil Science, which emphasizes the important issues in water resources.

Coursework and Thesis

Each student must complete a minimum of 26 credit hours of graduate level coursework and 4 thesis credit hours of SOIL 5960 to qualify for a master of science degree in soil science/water resources. Specific coursework will be determined by the student's graduate committee; however, each student is required to enhance his/her background and expertise in the water resources area through specialized coursework and a seminar as shown below.

Core Courses

Students must take or have taken equivalent courses in the four soils disciplines: physics, pedology, chemistry, and microbiology.

SOIL5130 - Chemistry of the Soil Environment Credits: 3

SOIL5140 - Soil Microbiology Credits: 4

Enhancement Courses

Students must take at least one of the following courses:

SOIL5110 - Modeling Water and Chemical Transport in Vasoe Zone and Groundwater Systems Credits: 4
SOIL5150 - Forest and Range Soils Credits: 3
SOIL5160 - Soil Health and Nutrient Cycling Credits: 3
SOIL 5170 - Analytical Methods for Ecosystems Research

Interdisciplinary Component: 9 Hours

(see Water Resources degree requirements)

Seminar in Water Resources: 1 Hour

REWM5250 - Water Resources Seminar Credits: 1

Graduate Seminar in Soil Science: 1 Hour

Plan A Thesis Requirement

Only Plan A thesis students are eligible for the master of science in soil science/water resources. In addition to coursework and a Plan A thesis, students must pass a final oral examination. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee to help ensure adherence to the master of science in soil science/water resources degree requirements and that research efforts are in the water area.

Water Resources, M.A.

The purpose of this program is to provide multidisciplinary training in water resources. Training is to be consistent with the rigor of professional water resources demands.

Program Specific Degree Requirements

The academic program of study undertaken by the candidate must be designed to enhance the student's background and expertise through formal graduate-level coursework in the areas of: (1) technical hydrology, (2) natural resources economics and/or law, and (3) water quality. To ensure a minimum multidisciplinary character, the course program must contain nine hours of coursework with at least 3 hours from each of the aforementioned areas and at least 6 of those credit hours must be from outside the student's sponsoring department, along with a 1 credit hour seminar on water resources organized through the Department of Ecosystem Science and Management. Only Plan A master's degree programs, which require the writing of a thesis in the water resources area, are acceptable for the water resources degree option.

Hydrology (3 Hours)

CE4800 - Hydrology Credits: 3
CE 4820 - Groundwater and Drainage Engineering Credits: 3
CE5810 - Groundwater Hydrology Credits: 3
GEOL5444 - Geohydrology Credits: 3
GEOL5550 - Numerical Methods in Ground Water Geology I Credits: 3
GEOL5570 - Advanced Geohydrology Credits: 3
REWM5285 - Wildland Hydrology Credits: 3
SOIL5110 - Modeling Water and Chemical Transport in Vasoe Zone and Groundwater Systems Credits: 4
MATH 5110 - Modelling Flow Transport in Soil and Groundwater Systems Credits: 4

Law/Natural Resource Economics (3 Hours)

AGEC4710 - Natural Resource Law and Policy Credits: 3
AGEC4720 - Water Resource Economics Credits: 3
AGEC5630 - Advanced Natural Resource Economics Credits: 3
ECON4400 - Environmental Economics Credits: 3
ECON4410 - Natural Resource Economics Credits: 3
ECON5400 - Advanced Resource and Environmental Economics Credits: 3
LAW6660 - Environmental Law Credits: 3
LAW6860 - Water Law and Policy Credits: 3

Water Quality (3 Hours)

GEOL4490 - Geochemistry Credits: 4
GEOL5450 - Geochemical Modeling Credits: 3
GEOL5777 - Geochemistry of Natural Waters Credits: 3
REWM4710 - Watershed Water Quality Management Credits: 3
REWM5710 - Watershed Water Quality Management Credits: 3
SOIL4130 - Chemistry of the Soil Environment Credits: 3
SOIL5130 - Chemistry of the Soil Environment Credits: 3
ZOO4440 - Limnology Credits: 3

One-Hour Seminar in Water Issues

Each student in the water resources interdisciplinary major program will be required to complete this course once during their graduate program. As part of the requirements for the seminar: (a) students will be required to present a seminar on a current water resource issue in Wyoming and to develop an executive summary of their issue to distribute to class participants. Each student is also required to participate in a discussion group following each seminar which stresses the interdisciplinary nature of the issue; (b) during the course of a student's graduate program, he/she will be required to present one seminar for the seminar series (preferably on some aspect of their thesis research). This presentation does not have to occur during the semester that the student is officially signed up for seminar credit.

REWM5250 - Water Resources Seminar Credits: 1

Additional Requirements

The master's degree offered through these affiliations is awarded as a major with each of the sponsoring department's graduate programs. The water resources interdisciplinary major will be acknowledged on the graduate transcript and thereby certify to potential employers that the candidate has completed an in-depth multidisciplinary course program in the broad area of water resources.

Water Resources, M.S.

The purpose of the program is to provide multidisciplinary education and to impart a multidisciplinary perspective to candidates. Training is to be consistent with the rigor of professional water resources demands.

Program Specific Degree Requirements

The academic program of study undertaken by the candidate must be designed to enhance the student's background and expertise through formal graduate level coursework in the areas of: (1) technical hydrology, (2) natural resources economics

and/or law, and (3) water quality. To insure a minimum multidisciplinary character, the course program must contain nine hours of coursework with at least 3 hours from each of the aforementioned areas and at least 6 of those credit hours must be from outside the student's sponsoring department, along with a 1 credit hour seminar on water resources organized through the Department of Ecosystem Science and Management. Only Plan A master's degree programs, which require the writing of a thesis in the water resources area, are acceptable for the water resources degree option.

Hydrology (3 Hours)

CE4800 - Hydrology Credits: 3
CE 4820 - Groundwater and Drainage Engineering Credits: 3
CE5810 - Groundwater Hydrology Credits: 3
GEOL5444 - Geohydrology Credits: 3
GEOL5550 - Numerical Methods in Ground Water Geology I Credits: 3
GEOL5570 - Advanced Geohydrology Credits: 3
REWM5285 - Wildland Hydrology Credits: 3
SOIL5110 - Modeling Water and Chemical Transport in Vasoe Zone and Groundwater Systems Credits: 4
MATH 5110 - Modelling Flow Transport in Soil and Groundwater Systems Credits: 4

Law/Natural Resource Economics (3 Hours)

AGEC4710 - Natural Resource Law and Policy Credits: 3
AGEC4720 - Water Resource Economics Credits: 3
AGEC5630 - Advanced Natural Resource Economics Credits: 3
ECON4400 - Environmental Economics Credits: 3
ECON4410 - Natural Resource Economics Credits: 3
ECON5400 - Advanced Resource and Environmental Economics Credits: 3
LAW6660 - Environmental Law Credits: 3
LAW6860 - Water Law and Policy Credits: 3

Water Quality (3 Hours)

GEOL4490 - Geochemistry Credits: 4
GEOL5450 - Geochemical Modeling Credits: 3
GEOL5777 - Geochemistry of Natural Waters Credits: 3
REWM4710 - Watershed Water Quality Management Credits: 3
REWM5710 - Watershed Water Quality Management Credits: 3
SOIL4130 - Chemistry of the Soil Environment Credits: 3
SOIL5130 - Chemistry of the Soil Environment Credits: 3
ZOO4440 - Limnology Credits: 3

One-Hour Seminar in Water Issues

Each student in the water resources interdisciplinary major program will be required to complete this course once during their graduate program. As part of the requirements for the seminar: (a) students will be required to present a seminar on a current water resource issue in Wyoming and to develop an executive summary of their issue to distribute to class participants. Each student is also required to participate in a discussion group following each seminar which stresses the interdisciplinary nature of the issue; (b) during the course of a student's graduate program, he/she will be required to present one seminar for the seminar series (preferably on some aspect of their thesis research). This presentation does not have to occur during the semester that the student is officially signed up for seminar credit.

REWM5250 - Water Resources Seminar Credits: 1

Additional Requirements

The master's degree offered through these affiliations is awarded as a major with each of the sponsoring department's graduate programs. The water resources interdisciplinary major will be acknowledged on the graduate transcript and thereby certify to potential employers that the candidate has completed an in-depth multidisciplinary course program in the broad area of water resources.

Certificate

Reclamation/Restoration Ecology Graduate Certificate

The Reclamation/Restoration Ecology (RRE) graduate certificate prepares the student to use basic and applied ecological concepts to reclaim and/or restore processes and functions to disturbed ecosystems.

Required Certificate Courses:

Reclamation and Restoration Ecology Courses: 6 Hours

REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
REWM5580 - Rangeland Restoration Ecology Credits: 3

Reclamation Problems: 4 Hours

SOIL5565 - Research in Soil Science Credits: 1-4
OR
REWM5640 - Investigation Credits: 1-4

Reclamation Process Course: 3 Hours

(choose one)

BOT5700 - Vegetation Ecology Credits: 4
BOT5730 - Plant Physiological Ecology Credits: 4
BOT5780 - Biogeochemistry Credits: 3
PLNT5070 - Weed Science and Technology Credits: 4
PLNT5470 - Seed Science and Technology Credits: 3
GEOL5444 - Geohydrology Credits: 3
GEOL5570 - Advanced Geohydrology Credits: 3
REWM 5280
REWM5710 - Watershed Water Quality Management Credits: 3
RNEW5540 - Shrubland Ecology Credits: 3
SOIL5110 - Modeling Water and Chemical Transport in Vasoe Zone and Groundwater Systems Credits: 4
MATH 5110
SOIL5130 - Chemistry of the Soil Environment Credits: 3
SOIL5140 - Soil Microbiology Credits: 4
SOIL5150 - Forest and Range Soils Credits: 3
ZOO 5550

Planning/Policy Courses: 3 Hours

(Choose One)

ENR4900 - Capstone in ENR Credits: 3

ENR5900 - Capstone in ENR Credits: 3

Minimum Total Credits Needed: 16 Hours

Additional Requirements

The graduate certificate will be granted to students who have completed a B.S. in an appropriate science-oriented discipline or are currently enrolled in an M.S. or Ph.D. program.

The graduate certificate will also be available to professionals working in reclamation/restoration oriented fields seeking to upgrade their training in reclamation and restoration ecology. Those interested in the graduate certificate will be required to complete the course work listed below as well as write a synopsis paper with a formal presentation advertised as an open forum seminar.

QuickStart Program

Plant Sciences, B.S./M.S. QuickStart

The Plant Sciences B.S./M.S. QuickStart program enables students to work toward both the B.S. and M.S. degrees simultaneously. Accepted students earn a B.S. in Plant Production and Protection and an M.S. in Plant Sciences.

Program Information

The combined Plant Sciences B.S./M.S. QuickStart program enables highly-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter toward both the B.S. and M.S. degrees. Accepted students would earn a B.S. degree in Plant Production and Protection and the M.S. degree in Plant Sciences. This program allows for early planning of the M.S. portion of the student's education, along with beginning a thesis research project before the completion of the B.S. degree. It offers increased flexibility in the order in which courses are taken, and more efficient use of what would otherwise be a final semester with a light credit-hour load. As many as 6 credit hours of undergraduate coursework at the 5000 level (or 4000 level for courses in which no 5000-level course is available) may be counted toward both the B.S. and M.S. degree programs. Additionally, students retain the existing right to reserve up to 6 hours of graduate credit that may be taken during their undergraduate degree program. These 6 reserved credits will NOT count toward both the B.S. and M.S. degrees, but only toward the M.S. degree.

Admission to the program

Minimum requirements for admission to the accelerated program are:

1. completion of sophomore year, 60 credit hours,
2. a minimum overall GPA of 3.0,
3. a minimum GPA of 3.0 in PLNT courses,
4. a minimum of three letters of recommendation (at least two must be from faculty at UW),

5. a DPS faculty member willing to serve as M.S. advisor, and

6. a research proposal submitted to, and approved by, the student's M.S. advisor and at least one other Plant Sciences faculty member as a presumptive graduate committee member.

Transfer students must have also completed at least 15 credit hours of coursework at UW to be eligible for admission to this program.

If interested in this program, please visit our website at <http://www.uwyo.edu/plantsciences/> for further information on additional requirements.

College of Arts & Sciences

113 Arts and Sciences Building

Camellia Okpodu, Dean

Phone: (307) 766-4106 FAX: (307) 766-2697

Web site: www.uwyo.edu/as

Aims and Objectives

The College of Arts and Sciences (A&S) is committed to providing a balanced education that matches cultural breadth with disciplinary depth. Students in the College of Arts and Sciences learn to address complex contemporary problems and to place them in their wider social, historical and ethical contexts. To achieve these goals, degree programs require students to develop expertise in a particular field, gain critical understanding of major areas of human knowledge and select from required courses and free electives to prepare for the challenges of the new century.

A successful student in any of the departments and programs in the College of Arts and Sciences will have an excellent foundation for professional success, graduate study, and a passion for lifelong learning.

Through hands-on research and creative projects (either on faculty projects or independently with faculty guidance and mentoring), fieldwork, internships, and study abroad, students integrate and bring coherence to their classroom learning.

Student Responsibilities

To graduate from the College of Arts and Sciences, students must satisfy all university, college, and major requirements for a given degree. These requirements apply whether the work is taken within the college or transferred from anywhere else within or outside the university (please refer to section below "Acceptance of Transfer Credit").

The college holds students responsible for knowing degree and major requirements and for completing the necessary courses. Students are also expected to know the regulations that govern the academic standards needed to continue study at the university. Students should be aware that changing majors and/or colleges may result in delays in meeting degree requirements and that requirements themselves sometimes change (see "Graduation Requirements and Procedures" section of this *Catalog*).

Academic Advising

To help plan a program of study, students are assigned an academic adviser by the department/ program of their major. Students undecided about a major are advised in the UW Advising, Career, and Exploratory Studies office (222 Knight Hall).

Students should consult regularly with their academic adviser not only for course scheduling, but also to discuss educational and career goals. Faculty and professional advisers can connect students to the many college and university resources to assist undergraduate study. Instructors are also willing to discuss concerns students may have regarding specific courses.

Changing/Declaring a Major or Minor

When ready to declare or change a major, minor, or dual/concurrent major in a department or program in the college, the appropriate form is available from the Office of the Registrar (167 Knight Hall) or the Registrar's Web page. Approval is required from the appropriate department heads/program directors. Departments/programs will assign advisors at the time of signing their approval on the form.

Programs of Study

Undergraduate Degrees

A variety of specialized concentrations are offered within many of the following degree programs. Take a look at the department sections in this *Catalog* that follow this section or the departments' Web sites. Additionally, there are several inter-college or interdisciplinary degrees/majors such as Earth System Science and the affiliated major in Environment and Natural Resources that draw courses from several disciplines. See more detailed descriptions in this *Catalog* or the University of Wyoming home page at www.uwyo.edu, click on the A-Z Directory.

Minors in Arts and Sciences

The College of Arts and Sciences offers all university students systematic studies leading to recognized academic minors. Minors are available in all academic programs in the college and in a number of interdisciplinary areas.

A&S minors have two aims: to encourage students to create a focus for their course work outside their major by coordinating their elective studies; and to enhance chances of employment or graduate admission with a formally recognized field of study.

Minors consist of course requirements ranging from 18-24 credit hours of study, typically including significant work at the junior and senior level. A&S departments and programs offering minors and interdisciplinary degrees may have further conditions and restrictions regarding requirements in the minor. To be counted toward a minor, courses must be completed with a grade of C or better.

Students desiring a minor must notify the department in which the minor is offered. Forms for declaring a minor are available in the Office of the Registrar (167 Knight Hall) or on the Registrar's Web page. The department of the minor will assign an adviser.

For a description of the minors in A&S, see department offices or Web sites.

Minors available in the College of Arts and Sciences include:

African American and Diaspora Studies
American Studies

Anthropology

Botany

Chemistry

Biology

Communication and Journalism Department

College Degree Requirements- The 2015 A&S Core

Bachelor of Arts or Science Programs

Beginning fall 2015, new university and college general education curricula, the 2015 University Studies Program (USP) and the 2015 A&S Core, were implemented. Refer to the USP section of this *Catalog* for details regarding University Studies requirements.

Students who matriculate for the first time at UW or a Wyoming community college in fall 2015 or after are required to follow both the new USP and A&S Core. Students transferring from a Wyoming community college with an associate's degree and the Wyoming Core completed between May 2013 and fall 2015, may continue to complete the 2003 USP and 2003 A&S Core requirements (if there has been no interruption in their enrollment for a year or more). Students who matriculated at UW or a Wyoming community college prior to fall 2015 and choose the 2015 USP must also complete the 2015 A&S Core requirements. For additional information please refer to the sections in this *Catalog* that describe the university graduation requirements, the 2015 University Studies Program, and the policies for reenrolling at UW after an absence of a year or more.

I. College credit hour requirements

Minimum total semester hours 120

Upper-division credit requirements (42). Thirty of the 42 hours must be earned from UW. Courses must be taken for a letter grade unless offered for S/U only. This is an all-university requirement for all degree programs and may come from the courses that fulfill the USP, the A&S Core, the major, the minor, and electives.

Major field of study (30-60). Credit hours in excess of 60 in the major subject may not be used to satisfy the requirement of 120 hours for graduation. Credits in AS internship, independent study or special topics courses (AS 2400, AS 2490, AS 4400, AS 4500, AS 4510, AS 4900, and AS 4975) may not be used to fulfill these outside the major requirements. At least 30 hours of C grade or better must be earned in the major subject (the major may require more). Courses in the major must be taken for a letter grade unless offered for S/U only.

A&S Core requirements (6). Courses must be taken for a letter grade unless offered for S/U only.

All other university and college regulations apply. See "Graduation Requirements and Procedures" section of this *Catalog* for more information. Graduate level "Enrichment" courses do not count toward the requirements for a bachelor's degree.

II. 2015 A&S Core Curriculum

Graduates of the College of Arts and Sciences are expected to be liberally educated, to have the knowledge and skills to deal with the unexpected, and to see opportunities from multiple perspectives. To develop these abilities, the college faculty implemented the A&S Core.

The approved courses for the following requirements are searchable within WyoRecords under the Browse Classes feature.

U.S. Diversity (ASD). This requirement allows students to explore the complexity of cultural identities in the U.S. and interdependence of the cultures. Students will gain an understanding of the influences of categories such as race, class, ethnicity, gender, disability, sexual orientation, religion, and age on American behaviors, institutions, values, and beliefs.

Global Awareness (ASG). Because citizens ever more frequently encounter behaviors and practices based on beliefs, conditions, and assumptions different from their own, they need to understand the nature and function of culture. Our students should have an awareness of the multiple links that affect the living conditions and range of action of peoples

of the world, including international systems of commerce, art, science, technology, politics, communication, belief, and justice, among other.

College Degree Requirements Prior to Fall 2015 for Continuing and Reenrolling Students

A&S Core requirements for a student continuing a degree program in effect at the time of matriculation at UW are found in the relevant previous *Catalog*. Contact the A&S Advising Center, Ross 6, 766-4013, asadvise@uwyo.edu.

Students who re-enter the university after an absence of a year or more should refer to other sections of this Catalog for university policies and procedures. Unless approved otherwise, reenrolling students, after a year's absence, are required to follow the University Studies and A&S Core requirements in effect the semester of their re-enrollment. However, all majors in A&S who have yet to complete the A&S Core, regardless of their initial enrollment, must refer to the current list of approved courses.

Checksheets and lists of courses that satisfy A&S college core requirements are available on the Web at www.uwyo.edu/as or in the A&S Advising Center, Ross 6, 766-4013, asadvising@uwyo.edu.

Departments and programs in the College of Arts and Sciences may require reenrolling students to complete requirements in the major that meet the current expectations of the discipline.

Transfer Students and Acceptance of Transfer Credit

The College of Arts and Sciences and its departments reserve the right to grant transfer credit toward the bachelor's degree only for those courses where a grade of C or better was earned. Students transferring credits from a university or college outside Wyoming with questions about how courses taken elsewhere fulfill the A&S Core may contact the A&S Advising Center, Ross 6, 766-4013, asadvise@uwyo.edu.

Courses Taken for S/U Credit

Students may include up to 20 semester credit hours in free electives with a grade of S as part of the total hours required by the College of Arts and Sciences for graduation. However, no S/U hours may be used to satisfy university and college core general education requirements or major requirements, including the required 42 upper-division credit hours unless the course is offered for S/U grading only.

Students registering in courses for S/U grades are subject to all general regulations.

Concurrent Majors

Students may pursue two or more majors simultaneously. With careful planning, A&S students may be able to use all or most of the free elective hours for requirements in the other majors. Refer also to the section, "Graduation Requirements and Procedures" in this *Catalog*.

The A&S Core must be met only once by students whose primary major is in the College of Arts and Sciences. Students whose degree programs are in other UW colleges are welcome to earn a concurrent major in A&S. These students do not have to meet the A&S Core requirements. The student earns one degree with one diploma.

Students pursuing a concurrent major must contact both departments involved for assignments to advisers.

Dual Degrees

Students may simultaneously pursue degrees in the same or more than one UW college. In addition to requirements described in the section "Graduation Requirements and Procedures" in this *Catalog*, students in another UW college who wish to earn a degree from A&S must also complete the A&S Core. A&S students working on dual degrees in the A&S College need to meet the A&S Core just once. A diploma is awarded for each degree.

Each additional degree requires 30 more credit hours added to the 120 credits to the primary degree. Of these 30 credits, 12 have to be at the 3XXX-4XXX levels.

Second Bachelor's Degrees

For students seeking a second bachelor's degree in the College of Arts and Sciences whose **first degree is from another university**, the minimum requirements include:

30 semester hours earned from the University of Wyoming, 12 of which must be upper division (3XXX-4XXX level) or graduate level (credit by examination does not count as UW hours).

Completion of the U.S. and Wyoming Constitutions requirement (V courses in the University Studies Program course list in this *Catalog*).

If the first degree is from an institution where English is not the predominant language, the COM1 and COM2 requirements of the University Studies Program must be completed successfully.

Students must also meet the 2015 A&S Core requirements.

For students whose **first degree is from UW**:

The additional required 30 hours (12 of these at the 3XXX-4XXX) are added to the degree requiring the least number of hours. For example, for a first degree A&S requires 120 hours. So the total credits a UW student would have to complete for the second bachelor's degree is a minimum of 150 credits. Since the University requires a total of 42 upper division hours for a degree, for the second degree from A&S, a UW student would need to earn a total of 54 hours at the 3XXX-4XXX level. For more information, please see the Second Bachelor's Degree entry in the section, "Graduation Requirements and Procedures" in this *Catalog*.

Students whose **first degree is from another UW college** must meet the 2015 A&S Core requirements.

In situations in which a student is subsequently required to take coursework from another collegiate institution to fulfill major and overall hour requirements for a second degree from the university, the student's department can ask the Office of the Registrar to load selected courses into the student's record.

Concurrent Major in Environment and Natural Resources

A student majoring in any A&S department/program may earn a double major by completing the courses required for the Environment and Natural Resource (ENR) program in addition to the requirements in their A&S major and the College A&S Core. The School of ENR Web site, <http://www.uwyo.edu/enr> has detailed information, or contact the School at (307) 766-5080.

Preprofessional Studies

The College of Arts and Sciences prepares students to enter professional schools through preprofessional programs of study described below.

Prelaw Study. Students usually need a bachelor's degree prior to beginning the study of law. There is no prescribed course of undergraduate study and no restrictions as to the field in which the degree is earned. However, to prepare for this competitive profession, prelaw students are advised to select courses that help to develop those talents and skills essential to the study and

practice of law. Logical and critical thinking, conflict evaluation/resolution and effective verbal/nonverbal communication skills are essential. Additionally, students should understand the political, economic, social and cultural institutions and values that characterize human society. Rigorous courses in any discipline increase abilities in these areas. Regardless of the prelaw major, courses in the broad liberal arts--the sciences, social sciences, fine arts and humanities--increase understanding of the public's diverse interests and backgrounds.

Prelaw students do not have to declare a major at the time of first enrollment if they wish to explore options. Students who are undeclared in the College of Arts & Sciences are assigned advisers in the Advising, Career, and Exploratory Studies office until they decide upon a degree program. Please note that a prelaw minor is available.

In addition to an adviser in the major, prelaw students may contact the designated UW prelaw adviser for assistance in developing a program of study, for career counseling and for guidance in applying to law schools. Contact the A&S Advising Center, Ross 6, 766-4013, asadvice@uwyo.edu for information.

Detailed information about applying to law schools, the Law School Admissions Test (LSAT) and preparation materials, and links to other web sites are at www.LSAC.org.

Library Preprofessional Study. Librarians are information professionals who research, organize, and classify materials so the public can access information. Not only do they work with printed materials, but all the technological advances in digital media such as electronic databases and eBooks. Some librarians focus on teaching the public, scholars, and students how to access and use these materials, while others concentrate on collecting and maintaining these diverse resources. Librarianship offers many career opportunities to people of different academic backgrounds, interests, and talents. Most public, academic, and special libraries require a Master's degree in library science (MLS).

The degree programs and minors in the College of Arts and Sciences offer the variety of academic preparation expected by accredited library schools in the country. Most of the graduate schools in library science require a bachelor's degree, a good undergraduate record, and a reading knowledge of a foreign language for admission. The best undergraduate preparation includes a wide range of courses in the sciences, social sciences, and humanities along with a strong concentration in one subject area. The choice of a major will be determined by the student's academic interest and professional objective. The general education that the University Studies and the A&S Core require provide the well-rounded background graduate schools expect of their MLS candidates.

Additional information about library schools, their requirements, and programs as well as career opportunities may be obtained from the reference desk at Coe Library and the Center for Advising and Career Services. The U.S. Bureau of Labor Statistics "Occupational Outlook Handbook" at www.bls.gov/ooh/ has detailed descriptions of the varied work of librarians, working conditions, employment outlook, and sources for additional information.

Pre-Health Study. Students in several A&S majors may be working toward the following careers: athletic training, chiropractic, dentistry, medicine, occupational therapy, optometry, physical therapy, physician assistant, or public health. These professional schools are favorably impressed by a broad educational background, including a substantial number of non-science and science courses; therefore, students are well advised to look beyond the minimum requirements.

Students may select any major in which they are interested to discuss preparation for such careers. In addition to completing all university, college and departmental requirements, students must include in their curriculum the basic professional school requirements, including courses in biology, chemistry, math, and physics. Professional schools have other specific requirements and students should learn about any additional recommendations from those professional schools in which they are interested. We strongly suggest contacting the Pre-Health Advising office [College of Health Sciences, 110 Health Sciences, (307) 766-3878, or hsadvise@uwyo.edu] website: www.uwyo.edu/preprof/.

Common majors in the College of A & S for these preprofessional programs include Chemistry, Biology, Botany, Psychology, and Physiology. However, there are pre-health students in programs as diverse as theatre and dance and anthropology. Students need not declare a major immediately upon first enrollment. Advisers in individual departments can discuss options or if students wish to remain undeclared, they are advised in either the UW Advising, Career, and Exploratory Studies office or the Health Sciences Advising office.

The pre-health advisers in the College of Health Sciences have current information regarding professional school admission requirements, entrance examinations, programs in Western Interstate Commission on Higher Education (WICHE), the Wyoming Medical Contract Program WWAMI (affiliated with the University of Washington School of Medicine) and financial assistance for professional education. The website, <http://www.uwyo.edu/preprof/> includes additional information.

Internships

Many departments in the College of Arts and Sciences offer internships for academic credit, and some provide monetary compensation. Academic internships provide practical, hands-on experience in a professional job setting as a complement to classroom instruction. An internship can provide students with both insight and preparation for future jobs. All internships require a strong background in writing, organizational ability and analytic skills. Junior or senior standing is recommended.

Major

African American and Diaspora Studies, B.A.

African American and Diaspora Studies (AADS) offers undergraduates an opportunity to engage in an interdisciplinary examination of the history, culture, and life of African Americans and the African diaspora from ancient times to the present day.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- V- - U.S. & WY Constitution Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3

A&S College Core

The College of Arts and Sciences requires:

- D - Diversity (3 credits)
- G - Global (3 credits)

Major Requirements

The B.A. in African American and Diaspora Studies consists of 35 credit hours:

Core Courses

15 credit hours of core course requirements:

AAST1000 - Introduction to African American Studies Credits: 3
AAST2240 - Introduction to African Studies Credits: 3
AAST2360 - African American History Credits: 3
AAST3130 - Global Impact of African Cultures Credits: 3
AAST4975 - Independent Research Credits: 1-3

Lower Division Course

3 or 6 credit hours of a lower division (1000- or 2000- level) AAST course, excluding core courses. Chose one OR two of the following:

AAST1030 - Social Justice in the 21st Century Credits: 3
or
AAST1101 - First-Year Seminar Credits: 3
or
AAST2350 - Introduction to African American Literature Credits: 3
or
AAST2360 - African American History Credits: 3
or
AAST2370 - Blues and African American Lit Credits: 3
or
AAST2450 - Traditional African Religion Credits: 3
or
AAST2990 - Topics: Credits: 1-3 or 3

Upper Division Courses

6 or 9 credit hours of upper division (3000- or 4000-level) AAST courses. Choose two OR three of the following:

AAST3000 - African American Studies in Music Credits: 3
or
AAST3010 - The African American Aesthetic Credits: 3
or
AAST3130 - Global Impact of African Cultures Credits: 3
or
AAST3260 - African Spirits in the New World Credits: 3
or
AAST3670 - African Diaspora Credits: 3
or
AAST3933 - African Philosophy Credits: 3
or
AAST4000 - Black Freedom Movement, AAST 1955- Present Credits: 3
or
AAST4020 - The Black West Credits: 3
or
AAST4050 - Development, Africa, and Culture Credits: 3
or
AAST4100 - African American Religious Culture Credits: 3
or
AAST4160 - African American Rhetoric Credits: 3
or
AAST4233 - Race, Gender, Ethnicity in the Media Credits: 3
or

AAST4250 - The Harlem Renaissance Credits: 3
or
AAST4260 - Rhetoric and Social Justice Credits: 3
or
AAST4450 - African American Novel Credits: 3
or
AAST4455 - Slavery and Freedom Credits: 1-4
or
AAST4675 - USWomen of Color Credits: 3
or
AAST4970 - Internship in AAST Credits: 1-12
or
AAST4975 - Independent Research Credits: 1-3
or
AAST4990 - Topics: Credits: 3

Foreign Language

8 credit hours of a single foreign language. The courses below list some, but not all, possible options:

ARBC1010 - First Year Arabic I Credits: 4
and
ARBC1020 - First Year Arabic II Credits: 4
or
FREN1010 - First Year French I Credits: 4
and
FREN1020 - First Year French II Credits: 4
or
GERM1010 - First Year German I Credits: 4
and
GERM1020 - First Year German II Credits: 4
or
JAPN1010 - First Year Japanese I Credits: 4
and
JAPN1020 - First Year Japanese II Credits: 4
or
LATN1010 - First Year Latin I Credits: 4
and
LATN1020 - First Year Latin II Credits: 4
or
SPAN1010 - First Year Spanish I Credits: 4
and
SPAN1020 - First Year Spanish II Credits: 4

Additional Requirements

Grade Requirements

AAST classes applied to AAST degrees must be passed with a grade of C or better.

Additional Information

In order to provide a broader range of relevant and enriching courses, in any given year the program in AAST offers topics courses and courses cross-listed with other majors and departments.

American Studies, B.A.

Explore cultural experiences past and present through interdisciplinary study of American lives, communities, and ideas. Writing, critical thinking, and internship opportunities prepare you for careers in education, law, business, community non-profits, public institutions, or graduate study. Flexible 2nd major for any field and for transfer students.

Additional Information

Undergraduate Major

The American Studies B.A. frames and develops each student's individual interests, and allows students to include courses from any program and department that sustain a student's engagement with their particular emphasis. Individual programs of study are as varied as our students.

We value each student as a person, and understand that an education is much more than a list of courses. Our advising is central in supporting each student's path and success through the major and beyond the degree.

Examples of concentrations that draw on courses outside American Studies - interests which we then integrate in our independent studies, internships, and the senior seminar - include sports studies, popular music history, comparative ethnic studies, marketing, military history, sustainability, disability advocacy, museum studies, philosophy of science, environmental studies, public health and social justice, and the U.S. in international perspectives. Each student develops a concentration of study with their American Studies advisor with ample room to combine courses and interests into a coherent undergraduate education.

The American Studies B.A. can be an attractive second major for students in any UW degree program where cultural context enriches and expands work in their professional or scholarly field. The flexible nature of our B.A. allows us to work effectively with students changing majors at any point in their undergraduate experience as well as transfer students.

Program Learning Outcomes

Students graduating with a B.A. in American Studies integrate study from several fields with their study in American Studies courses, in individual programs of study. The American Studies B.A. prepares students to enter graduate and professional programs, enter education certification programs, and work in community organizations and other public professional settings. Coursework in American Studies prepares students to:

- Interpret American experiences and creative expressions by applying appropriate approaches to words, narratives, images, material objects, communities, built environments, cross-cultural comparison, continuities and discontinuities with the past in a range of American cultural settings.
- Understand the processes of diversity experience including their own, through study of identity formation, performance of identity, stereotyping, contact, memory, and national identity.
- Demonstrate critical analysis, interpretation, or insight, through effective communication primarily in writing but also in speaking (when appropriate, performance or display may embody these as well), as demonstrated in analytically coherent interpretive writing, authoritative, informed oral presentation, and well-documented, visually effective performance or display (where appropriate).
- Apply American Studies methods field-based courses and/or internships, through use of Studies approaches and competencies in non-classroom settings, as demonstrated in field course or internship evaluations and students' final reports.

Internship

The internship experience is essential for students specializing in public sector American studies. The American Studies program has an active program of scholarship-supported internships that can place students in work environments in Wyoming, other parts of the U.S., or in selected foreign countries.

Language

Because American Studies is both an international field with scholars all over the world, and the U.S. has transnational significance, **we strongly encourage students to take 2 years of language study** to achieve meaningful access to skills as readers, scholars, and travelers, and consider participating in an international exchange. Some languages currently in demand by American Studies students include Spanish, Arabic, and Japanese.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
 - ENGL 1010
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

College of Arts and Sciences Core

College of Arts and Sciences Core

- D - Diversity Credits: 3
- G - Global Credits: 3

Curriculum

Through the following curriculum, students develop individual programs of study, with their advisers, to understand and engage American cultures.

Students pursuing Program Honors should also write an undergraduate thesis. Contact the Program Director for more details.

Foundation (12 credit hours)

AMST2010 - Introduction to American Studies (3 credit hours)

One course at the 1000- or 2000-level in an interdisciplinary field, including American History, or from departments and programs such as AADS, ENR, INST, GWST, LTST, NAIS, RELI, or appropriate courses transferred from other institutions, to be named in the program of study in consultation with an American Studies advisor. (3 credit hours)

Two courses at any level outside AMST, from programs in The School of Culture, Gender, and Social Justice or appropriate substitutes in consultation with an American Studies advisor. (6 credit hours)

Concentration (27 credit hours)

Core (9 credit hours)

Each student must take three AMST courses at the 3000-4000 level, excluding the senior seminar. These seminars are designed to maintain an interdisciplinary view of American culture and to foster an American Studies community. (9 credit hours)

Theme (18 credit hours)

An American Studies theme is devised, in consultation with the student's adviser. Typical themes include: American diversity, environment and society, material culture and everyday life, visual culture and media, American cultural history, American institutions and public culture, the United States in international perspective. The theme must include a minimum of 6 credit hours and a maximum of 9 credit hours in a single discipline. Up to 3 credits can be granted for courses at the 1000-2000 level. (18 credit hours)

Capstone (6 Credits)

As part of the 6 credit hours of senior capstone requirements, each student must complete 3 credit hours of Senior Seminar. The additional 3 credit hours can be through either Independent Study or Internship.

AMST4985 - Senior Seminar Credits: 3

AND

AMST4010 - Independent Study Credits: 1-3

OR

AMST4970 - Internship Credits: 1-3

Anthropology, B.A.

Anthropology students will be able to demonstrate knowledge about the four subfields of anthropology. They will have participated in research and will be able to analyze and synthesize in relation to anthropological issues or theories.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3

Q- - Quantitative Reasoning Credits: 3

PN- - Physical and Natural World (1) Credits: 3

PN- - Physical and Natural World (2) Credits: 3

H- - Human Culture (1) Credits: 3

H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Specific Requirements for a B.A.

In addition to university and college requirements listed in this *Catalog*, anthropology majors must complete two semesters of foreign language. ANTH 1100 and ANTH 1300 cannot be used to fulfill the USP PN requirement. ANTH 3300 and ANTH 3310 require an additional 1 hour of ANTH 4975.

ANTH1100 - Introduction to Biological Anthropology Credits: 4
ANTH1200 - Introduction to Cultural Anthropology Credits: 3
ANTH1300 - Introduction to Archaeology Credits: 3
ANTH2000 - Introduction to Linguistic Anthropology Credits: 3

ANTH3300 - Ethnographic Methods in Anthropology Credits: 3

OR

ANTH3310 - Introduction to Anthropology Research Methods Credits: 3

Additional Requirements

In addition to university and college requirements listed in this *Catalog*, anthropology majors must complete two semesters of foreign language. ANTH 1100 and ANTH 1300 cannot be used to fulfill the USP PN requirement. Specific requirements for a B.A. in anthropology are ANTH 1100, 1200, 1300, and 2000. Students must complete ANTH 3300 or ANTH 3310. ANTH 3300 and ANTH 3310 require an additional 1 hour of ANTH 4975. Also required are an additional 21 credits of upper division anthropology for a total of 25 upper division (3000+) credits within the major, including at least one course from three different subfields (cultural anthropology, linguistic anthropology, biological anthropology, and archaeology). Courses that can be used to fulfill upper division cultural anthropology are ANTH 4023, 4300, 4310, 4320, 4325, 4330, 4340, 4350, 4380, 4020 (with instructor's consent). Courses that can be used to fulfill upper division linguistic anthropology are ANTH 4024, 4740, 4765, 4775, 4785, 4795, 4020 (with instructor's consent). Courses that can be used to fulfill upper division biological anthropology are ANTH 4022, 4210, 4215, 4220, 4230, 4255, 4260, 4020 (with instructor's consent). Courses that can be used to fulfill upper division archaeology are ANTH 4021, 4110, 4115, 4120, 4125, 4130, 4145, 4150, 4160, 4170, 4175, 4020 (with instructor's consent), or six credits of archaeological field school (ANTH 4140 or 5180). It is recommended that anthropology majors take ANTH 1101 to fulfill the First-Year Seminar requirement, but it is not required that students take this particular First-Year course. It is also recommended but not required that students complete a course in statistics (STAT 2050 or 2070) and a third semester of foreign language. Courses required by the department for the major and minor must be completed with a grade of C- or better.

Upper Division Cultural Anthropology

Courses that can be used to fulfill upper division cultural anthropology are

ANTH4023 - Seminar in Cultural Anthropology Credits: 3
ANTH4300 - Anthropology of Religion Credits: 3
ANTH4310 - Environmental Anthropology Credits: 3
ANTH4320 - Political Anthropology Credits: 3
ANTH4325 - Symbolic Anthropology Credits: 3
ANTH4330 - Social Organization Credits: 3
ANTH4340 - Culture Change Credits: 3
ANTH4350 - Medical Anthropology Credits: 3
ANTH4380 - Visual Anthropology Credits: 3
ANTH4020 - Seminar Credits: 3-6 (with instructor's Consent)

Upper Division Linguistic Anthropology

Courses that can be used to fulfill upper division linguistic anthropology are

- ANTH4024 - Seminar in Linguistic Anthropology Credits: 3
- ANTH4740 - Native American Languages and Cultures Credits: 3
- ANTH4765 - Language Humor and Games Credits: 3
- ANTH 4775
- ANTH4785 - Language and Racism Credits: 3
- ANTH4795 - Language Change Credits: 3
- ANTH4020 - Seminar Credits: 3-6 (with instructor's Consent)

Upper Division Biological Anthropology

Courses that can be used to fulfill upper division biological anthropology are

- ANTH4022 - Seminar in Biological Anthropology Credits: 3
- ANTH4210 - Human Osteology Credits: 3
- ANTH4215 - Hominin Evolution Credits: 3
- ANTH4220 - Human Variation Credits: 3
- ANTH4230 - Forensic Anthropology Credits: 3
- ANTH4255 - Bioarchaeology Credits: 3
- ANTH4260 - Anthropology of Food, Culture, and Nutrition Credits: 3
- ANTH4020 - Seminar Credits: 3-6 (with instructor's Consent)

Upper Division Archaeology

Courses that can be used to fulfill upper division archaeology are

- ANTH4021 - Seminar in Archaeology Credits: 3
- ANTH4110 - Zooarchaeology I Credits: 3
- ANTH4115 - Lithic Analysis Credits: 3
- ANTH4120 - North American Archaeology Credits: 3
- ANTH4125 - Northwestern Plains Prehistory Credits: 3
- ANTH4130 - Old World Archaeology Credits: 3
- ANTH4145 - Origins of the State Credits: 3
- ANTH4150 - Seminar in Prehistory Credits: 1-3
- ANTH4160 - GIS in Anthropology Credits: 4
- ANTH4170 - Geoarchaeology Credits: 3
- ANTH4175 - South American Prehistory Credits: 3
- ANTH4020 - Seminar Credits: 3-6 (with instructor's consent)

OR

Six credits of archaeological field school (ANTH 4140 or ANTH 5180).

Recommended

It is recommended that anthropology majors take ANTH 1101 to fulfill the First-Year Seminar requirement, but it is not required that students take this particular First-Year course. It is also recommended but not required that students complete a course in statistics (STAT 2050 or STAT 2070) and a third semester of foreign language. Courses required by the department for the major and minor must be completed with a grade of C- or better.

A&S College Core

The BA in Anthropology requires the A&S Core:

D - Diversity (3 credits)

G - Global (3 credits)

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Art Education, B.A.

The BA in Art Education is a professional level degree preparing students to be reflective, innovative and engaged K-12 art educators. The curriculum includes extensive Studio Art competencies and studies in Art History and Professional Education.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3

Q- - Quantitative Reasoning Credits: 3

PN- - Physical and Natural World (1) Credits: 3

PN- - Physical and Natural World (2) Credits: 3

H- - Human Culture (1) Credits: 3

H- - Human Culture (2) Credits: 3

V- - U.S. & WY Constitution Credits: 3

A&S College Core

The **BA in Art Education** requires the **A&S Core**:

D - Diversity (3 credits)

G - Global (3 credits)

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Foundation Core: 15 Hours

ART1005 - Drawing I Credits: 3
required
ART1110 - Foundation: Two Dimensional Credits: 3
required
ART1120 - Foundation: Three Dimensional Credits: 3
required
ART1130 - Foundation: Color Theory Credits: 3
required
ART1115 - Digital Media Credits: 1
required
ART2000 - Portfolio Review Credits: 1
required
ART2305 - Techniques: Wood/Art Preparation Credits: 1
required

Studio Core: 12 Hours

12 credits chosen from the below. At least one core course must be from 2D and one from 3D.

2D Studio

Note: only one Photography class can count in the Studio Core

ART2005 - Drawing II Credits: 3
ART2210 - Painting I Credits: 3
ART2112 - VCD I Visual Thinking Credits: 3

ART2255 - Introduction to Photography, Digital Credits: 3
OR
ART2265 - Introduction to Photography, Black and White Credits: 3

ART3510 - Printmaking I Credits: 3

3D Studio

Note: only one Ceramics class can count in the Studio Core

ART2310 - Sculptural Practices I Credits: 3
ART2350 - Metalsmithing I Credits: 3

ART2410 - Ceramics I Credits: 3
OR
ART2420 - Ceramics II Credits: 3

Art History Core: 6 Hours

ART2010 - Art History I Credits: 3
required
ART2020 - Art History II Credits: 3
required

Upper Division Art History: 6 hours

6 credits of upper division art history beyond ART 2010 and ART 2020

Upper Division Studio Electives: 12 Hours

12 credits of any upper division studio art classes

Art Education Program Requirements

Minimum Course Requirements for B.A. in Art Education

Minimum course requirements for Art Education Majors follow the curriculum plan for the B.A. in Studio Art Degree:

University and College requirements,
Foundations Core,
Art History Core,
Studio Core
Upper Division Studio Electives.

The exception that there is no Foreign Language requirement. Students are required to apply for a Wyoming Substitute Teaching Certificate in the fall of their first semester in the program. Additional requirements are:

Professional Education Courses: 10 Hours

EDST 2480: Diversity and the Politics of Schooling Credits: 4

required

EDST2450 - Foundations of Development and Learning Credits: 3

required

EDEX2484 - Introduction to Special Education Credits: 3

required

Art Education Courses: 27 Hours

ART3430 - Methods I Credits: 3

required

ART3490 - Philosophy, Theory and Issues Credits: 3

required

ART3550 - Art Education Practicum Credits: 1-3

required

ART4440 - Methods II Credits: 3

required

ART4460 - Curriculum Design Credits: 3

required

ART4810 - Residency for Elementary Credits: 6

required

ART4820 - Residency for Secondary Credits: 6

required

Studio or Art History Elective, any level: 3 Hours

**3 units of course in Studio Art or Art History at any level*

Additional Requirements

B.A. IN ART EDUCATION DEGREE

The BA in Art Education degree supports students' development as reflective, innovative and engaged K-12 art educators. The curriculum encompasses extensive Studio Art competencies as well as studies in Art History and Professional Education. Art Education courses cover a variety of teaching practices and methods of curriculum development that include interdisciplinary, multicultural approaches to teaching and emphasize relevance to the lives of K-12 students and the realities of our contemporary world. In-class learning is augmented with firsthand teaching experiences in local and regional schools, the University of Wyoming Art Museum, and includes teaching people of all ages in community-based arts settings. Upon graduation from our program, students earn Wyoming licensure for teaching K-12 Art.

Degree Requirements

Requirements of the degree include:

- 120 hours, including 91 hours within the major
- C or better in all courses taken to satisfy Major requirements
- Background check for all incoming art education degree students required prior to enrollment
- Application for art education degree is due prior to enrollment in Art Education courses
- 2.75 UW Total Institution GPA must be maintained throughout the Art Education Program of study
- 2.75 GPA within the major must be maintained throughout the Art Education Program of study
- UW Transfer Art Residency Requirement for transfer of 12 or more art credit hours into department: 26 upper division hours of UW Art courses
- Score of 158 or above on the on the Praxis II Test: Art Content and Analysis by the end of the Residency semester
- As a Professional Degree, the BA in Art Education does not include the A&S Outside Major credit requirement.

Application

Students must fulfill the requirements listed in the *Application for the Art Education Program Checklist*:

- Satisfactory Completion of ART 2000 Portfolio Review
- C or above in all Education Courses
- C or above in all Art Content Courses
- Junior Standing (60+ credits)
- 2.75 or above overall UW total institutional GPA
- 2.75 or above in Major courses
- Completed background check

Probation, Removal, and Re-Application

- An Institutional and/or Major GPA below 2.75 mandates a probationary semester in the program (continuing with art ed courses) to raise GPA back up to 2.75 to continue
- If Institutional and Major GPA are not both above 2.75 by the end of the probationary semester, the student will be removed from the program
- Students may re-apply after removal from program if their GPA is again at or above 2.75

Art History, B.A.

The Art History B.A. offers students a broad understanding of world art, historiography, and professional practices related to the field. Closely linked to the Museum Studies minor, this degree prepares students for graduate work or the work force.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3

Q- - Quantitative Reasoning Credits: 3

PN- - Physical and Natural World (1) Credits: 3

PN- - Physical and Natural World (2) Credits: 3

H- - Human Culture (1) Credits: 3

H- - Human Culture (2) Credits: 3

V- - U.S. & WY Constitution Credits: 3

A&S College Core

The **BA in Art History** requires the **A&S Core**:

D - Diversity (3 credits)

G - Global (3 credits)

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Program Requirements

Requirements of the degree include:

120 hours, including 57 hours within the major

All Art courses must be passed with a letter grade of C or better

2.50 GPA within major required

2.50 or above overall UW total institutional GPA

UW Transfer Art Residency Requirement for transfer of 12 or more art credit hours into department: 26 upper division hours of UW Art courses

Art History Core: 12 Hours

ART2010 - Art History I Credits: 3 *required*

ART2020 - Art History II Credits: 3 *required*

ART2030 - History of Graphic Design Credits: 3
required

ART2700 - Introduction to Museology Credits: 3
required

Upper Division Electives: 30 Hours

*30 units - with the following stipulations:

15 hours 3000 or 4000 level Art History Courses

6 hours of ART 4790 Art Seminar

6 hours of upper division art history taken in other departments with cross listed courses

Courses in other disciplines as applicable

Honors Courses as applicable (Honors Program)

Potential other courses on a case by case basis in consultation with art history advisor

3 credits Internship or Art History travel course in consultation with art history advisor

Cross listed and applicable courses

*6 hours of upper division art history may be taken in other departments with cross listed courses (that may have prerequisites other than Art History).

ART4830 - Victorian Women's Lives: Their Art, Literature and Culture Credits: 3

OR

GWST4830 - Victorian Women's Lives: Their Art, Literature and Culture Credits: 3

ART4780 - History of Women Artists Credits: 3

OR

GWST4780 - History of Women Artists Credits: 3

ARE3030 - History of Architecture Credits: 3

AMST4250 - The Harlem Renaissance Credits: 3

AMST4640 - Art and Ecology Credits: 3

OR

ART 4640 - Art and Ecology Credits: 3

Special Topics in American Studies including travel courses (as appropriate)

Special topics in Classical and Modern Languages-including travel courses (as appropriate)

HIST 4070 - History of the Book

HIST 4075 - History of the Book

HIST 4076 - History of the Book
HIST4077 - Book History: Topics Credits: 3

Art Seminar

*6 hours of ART 4790 Art Seminar (fulfills USP COM 3 requirement)

ART4790 - Art Seminar Credits: 1-3
required

Upper Division Art History: 15 hours

*15 hours 3000 or 4000 level Art History Courses

Internship or Travel

*3 credits Internship or Art History travel course in consultation with art history advisor

ART4400 - Internship Credits: 1-3

Foreign Language: 15 Hours

LANG1010 - First Semester in (TOPIC) Credits: 1-4
LANG1020 - Second Semester in (TOPIC) Credits: 1-4
LANG2030 - Third Semester in (TOPIC) Credits: 1-4
LANG2040 - Fourth Semester in: (TOPIC) Credits: 3

Additional Requirements and Description

The B.A. in Art History major offers students with a course of study that will provide depth and breadth in the history of art. Students will develop a broad understanding of world art, study the art of western and other global cultures in-depth, and explore the historiography and professional practices related to the field. Closely linked to the Museum Studies minor curriculum, the B.A. in Art History has a strong vocational application. This degree provides preparation for entry into graduate school or for students who want to enter the work force after their undergraduate education. Students will have the experience and training to enter into the cultural sector (arts or archival management, non-profit work in the arts and humanities, etc.).

Astronomy and Astrophysics, B.S.

The Bachelor of Science in Astronomy & Astrophysics program prepares students for graduate school, or a career in astronomy/astrophysics or a related field.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

A&S College Core

The **BS in Astronomy and Astrophysics** requires the **A&S Core**:

D - Diversity (3 credits)

G - Global (3 credits)

At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Requirements

Students in the Bachelor of Science in Astronomy major program are required to complete the following courses:

ASTR1050 - Survey of Astronomy Credits: 4

ASTR2310 - General Astronomy I Credits: 4

ASTR2320 - General Astronomy II Credits: 4

ASTR4610 - Introduction to Astrophysics Credits: 3

PHYS1210 - Engineering Physics I Credits: 4

OR

PHYS1310 - College Physics I Credits: 4

PHYS1220 - Engineering Physics II Credits: 4

OR

PHYS1320 - College Physics II Credits: 4

PHYS2310 - Physics III: Waves and Optics Credits: 4

PHYS2320 - Physics IV: Modern Physics Credits: 3

PHYS3000 - Methods of Physics Credits: 4

PHYS3640 - Modern Electronics and Experimental Techniques Credits: 4

PHYS3650 - Advanced Lab in Modern Physics and Electronics Credits: 4

PHYS4210 - Classical Mechanics I Credits: 3

PHYS4310 - Quantum Mechanics Credits: 3

PHYS4410 - Electricity and Magnetism I Credits: 3

PHYS4420 - Electricity and Magnetism II Credits: 3

PHYS4510 - Thermodynamics and Statistical Mechanics Credits: 3

PHYS4840 - Mathematical and Computational Physics II Credits: 4

MATH2200 - Calculus I Credits: 4

MATH2205 - Calculus II Credits: 4

MATH2210 - Calculus III Credits: 4

MATH2250 - Elementary Linear Algebra Credits: 3

MATH2310 - Applied Differential Equations I Credits: 3

Additional Description

See the "Prerequisite and MPE Cut Score Reference Chart" on the Math Placement website for the most up-to-date math placement equivalencies: <http://www.uwyo.edu/mathstats/math-placement/>.

For declared physics/astronomy majors, the prerequisite of Math 2200 is waived and concurrent enrollment is approved.

For declared physics/astronomy majors, the prerequisite of Math 2205 is waived and concurrent enrollment is approved.

Students are strongly encouraged to enroll in Human Culture requirement courses that correspond to the College of Arts & Sciences Core required US Diversity (ASD) and Global Awareness (G) electives or else they will have to take separate ASD and ASG courses. A list of ASD & ASG courses that transfer is available.

If intending to apply to graduate school, plan to take the physics GRE by fall semester of the senior year

Additional Requirements

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. • Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions in the University Catalog and consult with their academic advisor to plan accordingly.

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major

The Bachelor of Science degree in astronomy and astrophysics is administered by the Department of Physics and Astronomy faculty. Please see the Physics and Astronomy listing in this *Catalog* for more information.

Biology, B.S.

The Bachelor of Science degree in Biology is designed to provide a thorough foundation in biology as well as other supporting areas of physical and life sciences and mathematics while providing flexibility and student choice.

Additional Information

The Biology major is designed for students interested in obtaining a broad education in biological sciences. It enables students to combine courses in biology, botany, zoology, physiology, and other biological sciences to meet the requirements of the major. On completion of the core requirements for the major, specific courses selected to complete the major may vary according to students' interests and are worked out by consultations between student and adviser. The requirements for a bachelor of science degree in biology are as follows:

*Course must be completed with a grade of C or better.

The degree program is administered by the Department of Botany.

LIFE3400 - General Ecology Credits: 3
MOLB3610 - Principles of Biochemistry Credits: 4
LIFE3500 - Evolutionary Biology Credits: 3
LIFE3600 - Cell Biology Credits: 4
BOT4100 - Scientific Communication Credits: 2

Scientific Communication BOT 4100/4101 recommended; any COM3 will apply here.

BOT4101 - Scientific Communication Lab Credits: 1

Biology, Ecology and Evolution Concentration, B.S.

The Department of Botany offers the Ecology and Evolution Concentration for Biology majors. This concentration will prepare students for a career or further graduate study. Students will receive the academic training to become park naturalists, environmental consultants, restoration ecologists, natural resource managers, conservation scientists, environmental educators, and research technicians in academic or government agencies. In addition to core concepts and theories, this concentration will teach students important skills that are required in the workforce, including organism identification, quantitative reasoning, data analysis, and scientific communication. Students also will have opportunities to participate in faculty research projects, which will train them for graduate research, careers in scientific discovery, or any endeavor where critical thinking and problem solving are essential components of the vocation.

To fulfill the requirements of the concentration, students will select five courses that meet a minimum of 15 credit hours in addition to what is required for the Biology Major. These will be selected from a variety of upper-division (3000-4000) courses that satisfy their individual interests (listed below).

Students must select

one course in organismal biology (A),
one course in ecology (B),
one course in evolution (C),
any one additional course from these three categories,
and one fourth-year capstone course (D).

Students who concentrate in Ecology and Evolution should plan to take LIFE3500 - Evolutionary Biology in their third year to be able to take an additional evolution course before graduating. All courses listed below will count toward this concentration. However, there are many other excellent courses offered across campus that are relevant to this concentration. Students can obtain approval to take other courses that are not included on the list below to satisfy the requirements of the concentration.

List of Potential Courses

A. Organismal Biology

BOT3600 - Plant Diversity and Systematics Credits: 4
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
BOT4360 - Mushrooms of the Rocky Mountains Credits: 3
SOIL4540 - Microbial Diversity and Ecology Credits: 4
ZOO4540 - Invertebrate Zoology Credits: 4
BOT4395 - Symbiosis Credits: 3

B. Ecology

BOT4700 - Vegetation Ecology Credits: 4
ZOO4415 - Behavioral Ecology Credits: 3

ZOO4650 - Tropical Field Ecology Ecuador Credits: 4

BOT4280 - Paleobotany Credits: 4

OR

GEOL4280 - Paleobotany Credits: 4

BOT4780 - Biogeochemistry Credits: 3

BOT4235 - Marine Biology Credits: 3

BOT4200 - Plant-Microbe Interactions Credits: 3

C. Evolution

BOT4790 - Special Topics in Ecology Credits: 1-3 (Macroevolution)

BOT4790 - Special Topics in Ecology Credits: 3 (Evolution of development)

BOT4790 - Special Topics in Ecology Credits: 3 (Evolution seminar)

BOT5060 - Fundamental Concepts in Evolution Credits: 3

OR

ZOO5060 - Fundamental Concepts in Evolution Credits: 3

D. Senior Capstone Course

BOT4965 - Undergraduate Research in Botany Credits: 1-10

Botany, B.S.

The Bachelor of Science degree in Botany is designed to provide a thorough foundation in botany as well as other supporting areas of physical and life sciences and mathematics.

BOT4680 - Taxonomy of Vascular Plants Credits: 4
BOT5000 - Graduate Seminar Credits: 1-3
BOT5060 - Fundamental Concepts in Evolution Credits: 3
BOT5150 - Research in Remote Sensing Credits: 1-6
BOT5200 - Plant-Microbe Interactions Credits: 3
BOT5480 - Spatial Information Sciences Seminar Credits: 1
BOT5600 - Ecological Modeling Credits: 3

Chemistry, B.A.

The Bachelor of Arts program (B.A.) is designed to provide a solid foundation in chemistry for those pursuing careers that would benefit from chemical expertise.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

A&S College Core

The **BS in Chemistry** requires the **A&S Core**:

D - Diversity (3 credits)

G - Global (3 credits)

At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Plan 1

(32 hours of chemistry)

Course Requirements

MATH2200 - Calculus I Credits: 4
MATH2205 - Calculus II Credits: 4
Additional USP requirements Credits: 21
Additional A&S core requirements Credits: 6
Electives Credits: 45

Basic Chemistry: 26 Hours

CHEM1050 - Advanced General Chemistry I Credits: 4 **AND**
CHEM1060 - Advanced General Chemistry II Credits: 4
OR
CHEM1020 - General Chemistry I Credits: 4 **AND**
CHEM1030 - General Chemistry II Credits: 4
CHEM2230 - Quantitative Analysis Credits: 5
CHEM2420 - Organic Chemistry I Credits: 4
CHEM2440 - Organic Chemistry II Credits: 4
CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3
OR
CHEM4507 - Physical Chemistry I Credits: 3

CHEM4110 - Introductory Inorganic Chemistry Credits: 3

Additional Upper-Level Chemistry: 6 Hours

(Including one of the following)

CHEM4100 - Inorganic Chemistry Laboratory Credits: 2
CHEM4230 - Instrumental Methods of Chemical Analysis Credits: 5
CHEM4530 - Physical Chemistry Laboratory II Credits: 1

PHYS: 8 Hours

PHYS1310 - College Physics I Credits: 4 **AND**
PHYS1320 - College Physics II Credits: 4
OR
PHYS1110 - General Physics I Credits: 4 **AND**
PHYS1120 - General Physics II Credits: 4
OR
PHYS1210 - Engineering Physics I Credits: 4 **AND**
PHYS1220 - Engineering Physics II Credits: 4

Minimum Total: 120 Hours

Additional Requirements

The Plan 1 B.S. degree requires at least 38 hours.

The Plan 2 B.S. requires 46 hours of chemistry courses.

Since the chemistry required in the first two years of all programs is the same, students interested in pursuing a chemistry major can elect any program initially. Discussions with a departmental adviser will allow students to choose the most appropriate major for their career objectives. In general, students planning graduate work in chemistry should elect one of the B.S. programs.

The B.A. program has a more liberal content with additional electives. It would support careers in business, law and advanced study in areas needing a strong chemistry background such as toxicology or forensic science.

A B.A. is suitable for students in the College of Education who wish to obtain an A&S degree, and may also be appropriate for some premedical tracks.

The Plan 2 (CACs) program is designed to meet standards set by the American Chemical Society (ACS). A student who completes the Plan 2 B.S. program will be certified by the Department of Chemistry to the ACS as having met the specific ACS requirements for undergraduate professional training in chemistry.

Students must obtain a grade of C- or higher in each of the chemistry, physics or math courses specifically required for their degree.

The department offers both, B.A. and B.S. degree programs. The B.A. degree includes a minimum of 32 hours of chemistry.

The Bachelor of Arts program (B.A.) is designed to provide a solid foundation in chemistry for those pursuing careers that would benefit from chemical expertise.

Chemistry, B.S.

The Bachelor of Science program (B.S.) provides an intensive study of chemistry appropriate for those pursuing careers in the chemical sciences.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3

Computer Science: 3 Hours

STAT2050 - Fundamentals of Statistics Credits: 4
CHEM4515 - Applied Mathematics in Physical Chemistry I Credits: 3
COSC1010 - Introduction to Computer Science I Credits: 3

Program Supporting Courses: 18 Hours

A group of courses selected to further the career objectives of the individual student. These are chosen after consultation with the departmental adviser and must subsequently be approved by the departmental Undergraduate Studies Committee. A grade of C- or higher is required for all program supporting courses.

Minimum Total: 120 Hours

Additional Requirements

The BS in chemistry requires a minimum of 39 hours of chemistry.

1 See the "Prerequisite and MPE Cut Score Reference Chart" on the Math Placement website for the most up-to-date math placement equivalencies: <http://www.uwyo.edu/mathstats/math-placement/>.

2 Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take other necessary required courses (e.g. LIFE 1010, MOLB 3000, etc.).

3 Students taking CHEM 4010 or MICR 4321 as their C3 are not required to take CHEM 4000.

Communication, B.A.

Communication is a liberal arts degree relevant to a variety of careers in community relations, public relations, politics, administration, law, sales management and many other fields.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Departmental Core Courses

In addition to the university studies requirements listed in this Catalog, all students majoring in communication and journalism must take the following required courses:

- COMM1000 - Intro to Mass Media Credits: 3
- LANG1010 - First Semester in (TOPIC) Credits: 1-4 (4)
- LANG1020 - Second Semester in (TOPIC) Credits: 1-4 (4)
- STAT2050 - Fundamentals of Statistics Credits: 4

Required Courses

COMM1040 - Intro to Communication Theory Credits: 3
COJO3010 - Business and Professional Communication Credits: 3
COJO3040 - Advanced Communication Theory Credits: 3
Electives Credits: 15 (At least 12 elective hours must be at the 3000-level or higher of COJO courses.) The other three hours may be lower or upper division in COJO/COMM.

College of Arts and Science Requirements

A&S U.S. Diversity (ASD) Credits: 3
A&S Global Awareness (ASG) Credits: 3

Additional Program Requirements

Physical and Natural World Credits: 6-8 (PN)
OR
Quantitative Reasoning Credits: 6-8 (Q)

Communication, B.S.

Communication is a liberal arts degree relevant to a variety of careers in community relations, public relations, politics, administration, law, sales management and many other fields.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Departmental Core Courses

In addition to the university studies requirements listed in this Catalog, all students majoring in communication and journalism must take the following required courses:

COMM1000 - Intro to Mass Media Credits: 3
COMM2010 - Public Speaking Credits: 3
COMM2100 - Media Writing Credits: 3
STAT2050 - Fundamentals of Statistics Credits: 4
COJO3070 - Communication Research Credits: 3
LANG1010 - First Semester in (TOPIC) Credits: 1-4 (4)
LANG1020 - Second Semester in (TOPIC) Credits: 1-4 (4)

Required Courses

COMM1040 - Intro to Communication Theory Credits: 3

COJO3010 - Business and Professional Communication Credits: 3

COJO3040 - Advanced Communication Theory Credits: 3

Electives Credits: 15 (At least 12 elective hours must be at the 3000-level or higher of COJO courses.) The other three hours may be lower or upper division in COJO/COMM.

College of Arts and Sciences Requirements

A&S U.S. Diversity (ASD) Credits: 3

A&S Global Awareness (ASG) Credits: 3

Additional Program Requirements

Physical and Natural World Credits: 6-8 (PN)

OR

Quantitative Reasoning Credits: 6-8 (Q)

Criminal Justice, B.A.

The B.A. in Criminal Justice is a social science that major examines the causes and impacts of crime in society. Graduates go on to careers in fields such as law enforcement, homeland security, probation and parole, and victim services.

University Studies Program Requirements

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3

H- Human Culture (1) Credits: 3

H- Human Culture (2) Credits: 3

PN- Physical and Natural World (1) Credits: 3

PN- Physical and Natural World (2) Credits: 3

One PN Course must be a lab science to meet major requirements

V- U.S. & WY Constitution Credits: 3

POLS 1000 Required for major requirements

Q- Quantitative Reasoning Credits: 3

Arts & Sciences College Core

D- Diversity Credits: 3

G- Global Awareness Credits: 3

Foundation Courses

Students must complete all foundation courses with a grade of C or better.

CRMJ1001 - Introduction to Criminal Justice Credits: 3
CRMJ2210 - Criminal Law Credits: 3
CRMJ2400 - Criminology Credits: 3
CRMJ2685 - Research Methods Credits: 3
CRMJ3110 - Criminal Courts and Processes Credits: 3
CRMJ3350 - Correctional Theory and Practice Credits: 3
CRMJ3490 - Issues in Policing Credits: 3
CRMJ4200 - Ethics in Administration of Justice Credits: 3

Criminal Justice Core

Students must complete any 4 courses with a grade of C or better.

CRMJ3250 - Juvenile Delinquency Credits: 3
CRMJ3400 - Deviant Behavior Credits: 3
CRMJ3500 - Drugs and the Criminal Justice System Credits: 3
CRMJ4140 - Criminal Legal Procedure Credits: 3
CRMJ4150 - Community-Based Corrections Credits: 3
CRMJ4151 - Crime Causation Credits: 3
CRMJ4260 - Gangs Credits: 3
CRMJ4280 - Comparative Criminal Justice Credits: 3
CRMJ4540 - Gender and Crime Credits: 3
CRMJ4705 - Terrorism Credits: 3
CRMJ4860 - Social Inequality, Crime, Criminal Justice and the Law Credits: 3

Supporting Courses

Students must complete one three credit hour course from the list below; or 1 additional course from Criminal Justice Core. Must be completed with a grade of C or better.

CRMJ4110 - Constitutional Law: Civil Liberties and Rights Credits: 3
CRMJ4130 - Leadership and Management in the Criminal Justice System Credits: 3
CRMJ4230 - Forensic Anthropology Credits: 3
CRMJ4350 - Sociology of Law Credits: 3
CRMJ4370 - Criminal Psychopathology Credits: 3
CRMJ4600 - Political Violence Credits: 3
CRMJ4730 - Psychology and Law Credits: 3
CRMJ4750 - Criminal Justice Internship Credits: 1-12
CRMJ4760 - Child Maltreatment Credits: 3
CRMJ4965 - Research Hours in Criminal Justice Credits: 1-6
CRMJ4975 - Readings Credits: 1-3
CRMJ4990 - Topics: Credits: 1-3

Foreign Language

Students are required to complete two semesters of the same foreign language with a grade of C or better. Two semesters of American Sign Language (SPPA 2110 & SPPA 2120) will fulfill this requirement.

Statistics

Students are required to complete STAT 2050 or STAT 2070 or SOC 2070 with a grade of C or better.

In Addition

Upper division course work that was completed more than ten years prior to graduation will not meet major requirements.

Criminal Justice, Prelaw Concentration, B.A.

The Pre-Law Concentration consists of diverse courses selected from departments across the university to help prepare students for the challenges of law school and the practice of law.

Verbal Comprehension and Expression: 3 Hours Minimum

COJO3010 - Business and Professional Communication Credits: 3
COJO3160 - Theory of Language and Society Credits: 3
AGEC4450 - Negotiation Credits: 3
HIST4515 - American Legal History Credits: 3

Written Comprehension and Expression: 6 Hours Minimum

Students must complete any two (2) courses with a USP designation of WC or COM3.

Critical Understanding of Human Institutions and Values: 3 Hours Minimum

ECON1020 - Principles of Microeconomics Credits: 3
MGT2030 - Principle-Based Ethics Credits: 3
PHIL3120 - Ancient Greek Philosophy Credits: 3
PHIL3250 - Global Justice Credits: 3
PHIL3300 - Ethical Theory Credits: 3

PHIL3340 - Philosophy in Literature Credits: 3 (max. 3 hours)
OR
ENGL3340 - Philosophy in Literature Credits: 3 (max. 3 hours)
PHIL3350 - History of Moral Philosophy Credits: 3
PHIL3500 - History of Science Credits: 3
POLS4051 - Environmental Politics Credits: 3
OR
AMST4051 - Environmental Politics Credits: 3
OR
ENR4051 - Environmental Politics Credits: 3
OR
GEOG4051 - Environmental Politics Credits: 3
OR
REWM4051 - Environmental Politics Credits: 3
COJO4260 - Rhetoric and Social Justice Credits: 3
OR
AAST4260 - Rhetoric and Social Justice Credits: 3

Creative and Analytical Thinking: 3 Hours Minimum

CW2050 - Introduction to Fiction Credits: 3

OR

CW2060 - Introduction to Nonfiction Credits: 3 (max. 3 hours)

OR

CW2080 - Introduction to Poetry Credits: 3 (max. 3 hours)

PHIL3140 - Philosophy of Science Credits: 3

PHIL3420 - Symbolic Logic Credits: 3

PHIL3510 - Introduction to Epistemology Credits: 3

STAT4015 - Regression Analysis Credits: 3

AGEC4550 - Negotiation Analysis Credits: 3

OR

ENR4550 - Negotiation Analysis Credits: 3

World Cultures and International Institutions: 3 Hours Minimum

INBU1040 - Introduction to International Business Credits: 3

OR

INST1040 - Introduction to International Business Credits: 3

HIST1320 - World History to 1500 Credits: 3

HIST1330 - World History since 1500 Credits: 3

INST2310 - Introduction to International Relations Credits: 3

OR

POLS2310 - Introduction to International Relations Credits: 3

PHIL3320 - Eastern Thought Credits: 3

ANTH3420 - The Anthropology of Global Issues Credits: 3

OR

INST3420 - The Anthropology of Global Issues Credits: 3

CRMJ4280 - Comparative Criminal Justice Credits: 3

INST4340 - International Organizations Credits: 3

OR

POLS4340 - International Organizations Credits: 3

INST4370 - Global Political Economy Credits: 3

OR

SOC4370 - Global Political Economy Credits: 3

Electives: 9 Hours Max (3 Courses)

ECON1000 - Global Economic Issues Credits: 3

COMM1030 - Interpersonal Communication Credits: 3

OR

COJO 1030 - Interpersonal Communication Credits: 3

COMM1040 - Intro to Communication Theory Credits: 3

OR

COJO 1040 - Intro to Communication Theory Credits: 3

MGT2010 - Legal Environment of Business Credits: 3

ANTH1200 - Introduction to Cultural Anthropology Credits: 3
CNSL2200 - Introduction to Student Leadership Credits: 2
POLS3100 - Politics and the Judicial Process Credits: 3
COJO3190 - Cross-Cultural Communication Credits: 3
PHIL3440 - Philosophy of Mind Credits: 3
POLS4100 - Constitutional Law: Institutional Powers Credits: 3
CRMJ4110 - Constitutional Law: Civil Liberties and Rights Credits: 3

OR

POLS4110 - Constitutional Law: Civil Liberties and Rights Credits: 3
ANTH4340 - Culture Change Credits: 3

OR

INST4350 - Culture Change Credits: 3

CNSL4520 - Fundamentals of Counseling (B) Credits: 3
POLS4840 - Seminar in Public Law Credits: 3

Additional Information

The Department of Criminal Justice offers a Pre-Law Concentration for Criminal Justice majors that consists of courses selected from several departments across the university. These courses were chosen to help prepare students for the challenges of law school and the practice of law. Students electing the Pre-Law Concentration are urged to seek advising early.

The Pre-Law Concentration requires 27 credit hours - 18 of which must be 3000-level or above. All coursework must be completed with a grade of C or better to be counted toward the concentration.

English, B.A.

Choose from two tracks in English: Literary Studies track or English Studies track. The former focuses on the study of literature and culture, while the latter balances literary study with courses in rhetoric and composition and professional writing.

USP Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
ENGL 1010
COM2 - Communication 2 Credits: 3
ENGL 2025
COM3 - Communication 3 Credits: 3
ENGL 4999
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Gateway to the English Major - 3 Hours

ENGL2025 - Introduction to English Studies Credits: 3

Historical Period - 12 or 15 hours

English Studies Track: 12 hours

Literary Studies Track: 15 hours

English Studies Track students take one of the following six courses.

Literary Studies Track students take two of the following six courses.

ENGL2340 - Native American Culture and Literature Credits: 3

ENGL2350 - Introduction to African American Literature Credits: 3

ENGL2360 - Mexican American Literature Credits: 3

ENGL2425 - Literatures in English I Credits: 3

ENGL2430 - Literatures in English II Credits: 3

ENGL2435 - Literatures in English III Credits: 3

Take three of the following five courses:

ENGL3200 - Topics in: Medieval Literature Credits: 3

ENGL3300 - Topics in: Renaissance Literature Credits: 3

ENGL3400 - Topics in: Eighteenth-Century Literature Credits: 3

ENGL3500 - Topics in: Nineteenth-Century Literature Credits: 3

ENGL3600 - Topics in: 20th Century Literature Credits: 3

Expanding the Canon - 6 Hours

A full list of courses that fulfill the Expanding the Canon requirements will be published each semester. Generally speaking, these courses will cover topics related to racial diversity, global literatures, gender, sexuality, or disability studies. ENGL 2340/2350/2360 can be taken either as an Expanding the Canon course OR as an Historical Period course. The Expanding the Canon options are always changing, but will always include the following:

ENGL2340 - Native American Culture and Literature Credits: 3

ENGL2345 - American Indians in Hollywood Film Credits: 3

ENGL2350 - Introduction to African American Literature Credits: 3

ENGL2360 - Mexican American Literature Credits: 3

ENGL3330 - Global Shakespeare in Performance Credits: 3

ENGL3610 - Non-Western Women Writers Credits: 3

ENGL4455 - Slavery and Freedom Credits: 1-4

ENGL3710 - Gender: Humanities Focus Credits: 3

ENGL4460 - American Indian Literature Credits: 3

ENGL4830 - Victorian Women's Lives: Their Art, Literature, and Culture Credits: 3

ENGL4450 - African American Novel Credits: 3

ENGL4470 - Studies in Chicano Folklore Credits: 3

ENGL4640 - Studies in Emerging Fields and Approaches Credits: 3

Please note that only ENGL 4640: Postcolonial Literature & Theory counts towards the Expanding the Canon Requirement **unless otherwise specified in a given semester.**

Methods - 3 Hours

Choose the methods course that corresponds with your track.

Literary Studies Track:

ENGL3000 - Literary Theory Credits: 3

OR

English Studies Track:

ENGL3010 - Approaches to Rhetoric, Composition Pedagogy, and Professional Writing Credits: 3

Foundations of Language - 3 Hours

This requirement is for the English Studies Track only.

ENGL4780 - History of the English Language Credits: 3

OR

ENGL4785 - Linguistics, Language Teaching and Social Context Credits: 3

OR

EDCI4761 - Linguistics, Sociolinguistics, and Social Literacies for Teachers Credits: 3

OR

EDCI4762 - Essential Sociolinguistics for English as a Second Language Learning and Teaching Credits: 3

Electives - 6 hours

Literary Studies: Students can select from any of our courses for credit in this category. One of the two electives must be in either Rhetoric & Composition or Creative Writing.

English Studies: Two courses from the list of Rhetoric/Composition/Professional Writing classes offered by English. See the examples below:

ENGL 2005 - Writing in Technology and the Sciences (3 Credits)

ENGL 2035 - Writing for Public Forums (3 Credits)

ENGL 2125 - Writing Tutor Pedagogy/Practicum (3 Credits)

ENGL 3020 - Culture, Communication, Work (3 Credits)

ENGL 4010 - Technical Writing in the Professions (3 Credits)

ENGL 4020 - Editing for Publication (3 Credits)

ENGL 4025 - Writing for the Web (3 Credits)

ENGL 4030 - Writing for Magazines (3 Credits)

ENGL 4040 - Rhetoric, Media, and Culture (3 Credits)

ENGL 4061 - Rhetorical Theory and Criticism (3 Credits)

ENGL 4075 - Writing for Non-Profits (3 Credits)

Capstone - 3 Hours

Advanced standing in English is required for all majors prior to taking the senior seminar. To be eligible for advanced standing in English, the student must have completed 24 hours of English coursework above COM1, including the required 2000-level Historical Period courses. Each course must have been passed with a grade C or better. Approved transfer courses from

other institutions will satisfy the prerequisites for advanced standing. ENGL 4999 should be taken in the next to last semester before graduation.

ENGL4999 - Senior Seminar Credits: 3

Additional Requirements

All English Education students are required to take the English Studies track. Students should consult with an advisor to declare a track in Literary Studies or English Studies before their junior year.

The English major requires 36 hours of work within the major and an additional 12 hours of a single foreign language. 21 of the hours within the major must be taken at the upper division. Only those courses in which a grade of C or better has been earned may count toward the 36 hours required for the B.A. and the foreign language requirement. No 1000-level courses count toward the B.A.

Prerequisites

Most 2000-level courses require the completion of the COM1 requirement. Normally, 3000-level courses have the COM1, ENGL 2025, and one 2000-level "broad historical sweep" course (one of ENGL 2425, ENGL 2430, ENGL 2435, ENGL 2340, ENGL 2350, ENGL 2360) as prerequisites, and 4000-level courses have 6 hours of 2000-level English courses as prerequisites. Students without certain prerequisites should consult the English department for permission to enroll.

Environmental Geology and Geohydrology, B.S.

The Environmental Geology and Geohydrology (EGGH) degree is intended for students interested in becoming professionals in environmental fields and will prepare students for graduate school in environmental disciplines and for entry-level jobs.

Required Courses

One of the Following:

- GEOL1005 - Earth History Credits: 4
- GEOL1100 - Physical Geology Credits: 4
- GEOL 1200 - Historical Geology Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4

And Each of the Following:

- GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
- GEOL2010 - Mineralogy Credits: 3
- GEOL2080 - General Field Geology Credits: 3
- GEOL2100 - Stratigraphy and Sedimentation Credits: 4
- GEOL4444 - Geohydrology Credits: 4
- GEOL4490 - Geochemistry Credits: 4
- GEOL4777 - Geochemistry of Natural Waters Credits: 3
- GEOL4880 - Earth Surface Processes Credits: 3
- GEOL4820 - Capstone Credits: 3

Required Allied Math and Science Courses

CHEM1020 - General Chemistry I Credits: 4
CHEM1030 - General Chemistry II Credits: 4
PHYS1110 - General Physics I Credits: 4

OR

PHYS1210 - Engineering Physics I Credits: 4
MATH2200 - Calculus I Credits: 4
MATH2205 - Calculus II Credits: 4

One of the Following:

LIFE1010 - General Biology Credits: 4
STAT2050 - Fundamentals of Statistics Credits: 4
MATH2210 - Calculus III Credits: 4
PHYS1120 - General Physics II Credits: 4
PHYS1220 - Engineering Physics II Credits: 4

Additional Electives

Additional 18 credit hours of Electives, in consultation with advisor

GEOL 2005 - Intro to Geophysics Credits: 4

OR

GEOL3005 - Principles of Geophysics Credits: 4
GEOL2020 - Introduction to Petrology Credits: 2
GEOL2070 - Introduction to Oceanography Credits: 4
GEOL4610 - Structural Geology and Tectonics Credits: 4
GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4
GEOL3500 - Global Change: A Geological Perspective Credits: 4
GEOL3600 - Earth and Mineral Resources Credits: 4
GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
GEOL4001 - Modeling the Earth System Credits: 4
GEOL4113 - Geological Remote Sensing Credits: 4
GEOL4525 - Environmental Data Analysis Credits: 4
GEOL4888 - Glaciology Credits: 3

Note:

Students are encouraged, in consultation with their adviser, to design a major that best fits their interests and goals. With this in mind, there are many courses outside the Department of Geology and Geophysics that may be substituted for courses in the Electives (B) list above provided that such substitutions are made with the consent of an adviser. A list of such courses may be obtained from the Department. Students who seek the Geology BS may not also seek EGGH as a double major, and vice versa.

French, B.A.

The main goal of French courses will be to emphasize "the development of communication skills in French through the four language skills: listening, speaking, reading, and writing". Each course introduces students to French and Francophone cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Prerequisites - 12 Credits

FREN1010 - First Year French I Credits: 4
FREN1020 - First Year French II Credits: 4
FREN2030 - Second Year French I Credits: 4

A language major requires 30 hours of credit in a single language above 2030

Required Courses

FREN2040 - Second Year French II Credits: 3
FREN2130 - Contemporary French Culture Credits: 3
OR
FREN3110 - Contemporary French Civilization Credits: 3
FREN2140 - Introduction to Reading Credits: 3
FREN3005 - French Phonetics and Pronunciation Credits: 3
FREN3050 - Third Year French I Credits: 3
FREN3060 - Third Year French II Credits: 3
FREN4100 - A Survey of French Literature I Credits: 3
FREN4110 - A Survey of French Literature II Credits: 3
Plus 6 hours of electives in French at the 4000-level (See Electives list in Minor Requirements)

Minor Program Requirements - 18 Credit Hours

Required Minor Classes

FREN2040 - Second Year French II Credits: 3
FREN2140 - Introduction to Reading Credits: 3
FREN3050 - Third Year French I Credits: 3
Electives - 9 hours of French Courses at the 3000 course level or 4000 course level (Choose from Elective list below)
FREN3005 - French Phonetics and Pronunciation Credits: 3
FREN3060 - Third Year French II Credits: 3
FREN3110 - Contemporary French Civilization Credits: 3
FREN3990 - Independent Study Credits: 1-4
FREN4080 - Studies in the French Language Credits: 3
FREN4100 - A Survey of French Literature I Credits: 3
FREN4110 - A Survey of French Literature II Credits: 3
FREN4120 - Medieval French Literature Credits: 3
FREN4140 - 17th Century French Literature Credits: 3
FREN4200 - Introduction to Research Credits: 3

FREN4250 - 19th Century French Literature Credits: 3
FREN4260 - 20th Century French Literature Credits: 3
FREN4350 - Studies in French and Francophone Literatures Credits: 3
FREN4990 - Advanced Independent Study Credits: 1-3

Gender and Women's Studies, B.A.

Provides foundational knowledge in historical and contemporary issues related to sex, gender, and sexuality. Upon completion, students will be able to apply intersectional feminist and gender theories to interdisciplinary research and practice.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
V- - U.S. & WY Constitution Credits: 3

A&S College Core

The College of Arts and Sciences requires:

D - Diversity (3 credits)
G - Global (3 credits)

Requirements

The GWST major requires 30 credit hours of GWST courses, including 9 credits of core courses and 21 credits of elective courses.

Please note, curriculum requirements reflect updates effective Fall 2022, so any courses completed under the previous requirements will still count. Details are listed below.

Introductory Core: 3 Credits

Complete ONE course from the following:

GWST1080 - Intro Gender & Women's Studies Credits: 3
GWST2000 - Introduction to LGBTQ/NS Studies Credits: 3

Note: If taken prior to Fall 2022, GWST 1900, Women & Leadership can satisfy this requirement.

Interdisciplinary Theory Core: 6 Credits

Complete TWO courses from the following:

Core course required for all majors:

GWST 3XXX: Gender, Race, Sex & Soc System

(Will be offered Spring 2023)

Note: If taken prior to Fall 2022, these courses may satisfy this requirement: GWST 3710, Gender & Humanities; GWST 2500, Gender & Society

Choose ONE of the following:

GWST4700 - Feminist Theories Credits: 3

GWST4430 - Queer Theory Credits: 3

Electives: 21 Credits

Complete SEVEN courses or 21 credit hours from among the following:

GWST1030 - Social Justice in the 21st Century Credits: 3

GWST1900 - Women and Leadership Credits: 3

GWST2060 - Topics in Women's Studies Credits: 1-4

GWST2070 - Gender and Religion Credits: 3

GWST2389 - History of Women in the American West Credits: 3

GWST2700 - Gender and Disability Credits: 3

GWST3050 - Cultures of Nature in the United States Credits: 3

GWST3200 - Perspectives in Chicana Studies Credits: 3

GWST3300 - Psychology of Gender Credits: 3

GWST3400 - Popular Music and Sexualities Credits: 3

GWST3710 - Gender and Humanities Credits: 3

GWST3800 - Chicanas/os in Contemporary Society Credits: 3

GWST4200 - Gender and Race in the Economy Credits: 3

GWST4300 - The Politics of Sexuality Credits: 3

GWST4233 - Race, Gender, Ethnicity in the Media Credits: 3

GWST4335 - Women and Islam Credits: 3

GWST4360 - American Indian Women Credits: 3

GWST4450 - Ecofeminism Credits: 3

GWST4500 - Special Topics in Women's Studies Credits: 1-4

GWST4540 - Gender and Crime Credits: 3

GWST4650 - Women, Gender & Migration Credits: 3

GWST4675 - USWomen of Color Credits: 3

GWST4780 - History of Women Artists Credits: 3

GWST4440 - Queer Life Through Memoir Credits: 3

GWST4960 - Women's Bodies, Women's Minds Credits: 3

GWST4965 - Senior Honors Project Credits: 3

GWST4970 - Internship Credits: 3

GWST4975 - Independent Studies Credits: 1-4

Grading & Honors

Grading Requirements

All GWST core courses and at least 15 credit hours of GWST electives must be completed with a "C" or better.

To be eligible for internships, students must have a minimum GPA of 3.300.

Honors in Gender & Women's Studies

Honors in Gender and Women's Studies recognizes academically ambitious students who have excelled in their undergraduate careers, and who are ready for graduate school and/or employment in the public or private spheres. Requirements include an overall minimum GPA of 3.500 and the completion of GWST 4965, Senior Honors Project.

Honors in GWST also requires the completion of 3 semesters of foreign language or sign language, or a concentration in quantitative analysis and research methods, including statistics.

Students in UW Honors Program, McNair Scholars Program, or other departments that require completion of an independent research project may dovetail their honors work in GWST with those programs.

Additional Information

Students in GWST are encouraged to work with a faculty advisor to develop an individualized plan of study. Contact the program director, Dr. Michelle Jarman (mjarman@uwoyo.edu), for more information.

Geology and Earth Science, B.A.

The B.A. in Geology and Earth Science provides students with a broad educational experience in preparation for careers in earth science-related fields.

Required Courses

Each of the following:

GEOL 1000-level intro lab course(s) Credits: 4-8
GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
GEOL2010 - Mineralogy Credits: 3
GEOL2020 - Introduction to Petrology Credits: 2
GEOL2100 - Stratigraphy and Sedimentation Credits: 4
GEOL2080 - General Field Geology Credits: 3
GEOL4820 - Capstone Credits: 3
LIFE1010 - General Biology Credits: 4
CHEM1020 - General Chemistry I Credits: 4
PHYS1110 - General Physics I Credits: 4
MATH1405 - Trigonometry Credits: 3

OR

MATH1450 - Algebra and Trigonometry Credits: 5

Six Courses from the Following

ATSC2000 - Introduction to Meteorology Credits: 4

OR

GEOG3450 - Weather and Climate Credits: 3

ECON2400 - Economics of the Environment Credits: 3

GEOG3010 - Geomorphology of Earth's Dynamic Landscapes Credits: 3

GEOL 2005 - Intro to Geophysics Credits: 4

OR

GEOL3005 - Principles of Geophysics Credits: 4

GEOL2050 - Principles of Paleontology Credits: 4

GEOL2070 - Introduction to Oceanography Credits: 4

GEOL3600 - Earth and Mineral Resources Credits: 4

GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4

GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4

GEOL3500 - Global Change: A Geological Perspective Credits: 4

GEOL4444 - Geohydrology Credits: 4

GEOL4490 - Geochemistry Credits: 4

GEOL4610 - Structural Geology and Tectonics Credits: 4

GEOL4835 - Applied/Exploration Geophysics Credits: 3

POLS4051 - Environmental Politics Credits: 3

SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4

ECON4400 - Environmental Economics Credits: 3

OR

ECON4410 - Natural Resource Economics Credits: 3

Additional Electives

Additional 12 hours of electives with adviser consultation, at least 6 hours of which must be taken outside of the Department of Geology and Geophysics.

Geology, B.S.

The B.S. in Geology program provides a quality educational experience for students intending to enter careers in geology. Graduates will have gained the scientific and technical skills necessary for graduate programs and professional opportunities in geosciences.

Required Courses

Note: This program represents a minimum proficiency. Students are strongly advised to elect additional courses in geology.

One of the Following:

GEOL1005 - Earth History Credits: 4

GEOL1100 - Physical Geology Credits: 4

GEOL 1200 - Historical Geology Credits: 4

GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4

And Each of the Following:

GEOL2000 - Geochemical Cycles and the Earth System Credits: 4

GEOL 2005 - Introduction to Geophysics Credits: 4

OR

GEOL3005 - Principles of Geophysics Credits: 4

GEOL2010 - Mineralogy Credits: 3

GEOL2020 - Introduction to Petrology Credits: 2

GEOL2100 - Stratigraphy and Sedimentation Credits: 4

GEOL4610 - Structural Geology and Tectonics Credits: 4

GEOL4717 - Field Course in Geology Credits: 1-8 (to be taken in 1 of the last 2 summers on campus)

GEOL4820 - Capstone Credits: 3

Additional Geology Courses

Additional 18 credit hours in Geology courses at 2000-level and above:

Allied Math and Sciences Credits: 20 Hours

CHEM1020 - General Chemistry I Credits: 4

OR

CHEM1050 - Advanced General Chemistry I Credits: 4

CHEM1030 - General Chemistry II Credits: 4

OR

CHEM1060 - Advanced General Chemistry II Credits: 4

OPTION A: Fundamental Math

GEOL2120 - Quantitative GeoMethods Credits: 3

AND

MATH2200 - Calculus I Credits: 4

OR

OPTION B: Advanced Math

MATH 2200 - Calculus I. Credits: 4

AND

MATH2205 - Calculus II Credits: 4

OR

MATH2250 - Elementary Linear Algebra Credits: 3

OR

GEOL4525 - Environmental Data Analysis Credits: 4

PHYS1110 - General Physics I Credits: 4

OR

PHYS1210 - Engineering Physics I Credits: 4

OR

Eng Physics Credits: 4

German, B.A.

As a German Major, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3 GERM 3050
COM3 - Communication 3 Credits: 3 GERM 4200
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Required Courses - 9 credits

A language major requires 30 hours of credit in a single language above 2030.

GERM2040 - Second Year German II Credits: 3
GERM3050 - Third Year German I Credits: 3
GERM3060 - Introduction to German Literature Credits: 3

Electives - 21 credits

All electives must be above GERM 2030. At least three courses should be at the 4000-level.

GERM3006 - 20th Century German Culture and Civilization Credits: 3
GERM3150 - German History and Culture Credits: 3
GERM3990 - Independent Study Credits: 1-4
GERM4070 - Fourth Year German Credits: 3
GERM4080 - German-English and English- German Translation Credits: 3
GERM4100 - A Survey of German Literature I Credits: 3
GERM4110 - A Survey of German Literature II Credits: 3
GERM4145 - Weimar Classicism Credits: 3
GERM4180 - German Poetry Credits: 3
GERM4200 - Introduction to Research Credits: 3
GERM4240 - German Literature of the Romantic Period Credits: 3
GERM4255 - 19th Century German Novellas Credits: 3
GERM4275 - Contemporary Migration Literature Credits: 3
GERM4285 - 20th/21st Century German Film Credits: 3
GERM4990 - Advanced Independent Study Credits: 1-3

History, B.A.

A History B.A. provides the skills needed to succeed in any job, public history, archive and museum work, law, education, business and more. Skills mastered include critical thinking, multi-perspective analysis, and written and oral communication.

History, Public History Concentration, B.A.

Want work in a museum, historical site, park, archive, historical consulting firm, establishing and operating archives and records management systems for private businesses, state agencies, or universities, and more? Then public history is for you.

Public History Concentration

Combined with the History B.A. requirements (below,) students can declare a Public History Concentration. The History B.A. requires a minimum of 36 credit hours in History courses, and 18 of those can qualify to meet the Public History Concentration requirements. The Public History Concentration requires a minimum of 18 hours of History coursework that may be tailored for individual student career goals.

Specific course requirements for the Public History Concentration are as follows:

Required Courses for Public History Concentration

HIST2050 - Introduction to Public History

HIST2700 - Introduction to Museology

HIST3020 - Historical Methods

HIST4400 - Internship

Elective courses for Public History Concentration

2 of the following courses:

HIST4055 - Archival Research Methods

HIST4077 - Book History: Topics

HIST4315 - History, Politics and Memory of the Holocaust in Europe

HIST4320 - Memory and National Identity in Twentieth Century Europe

HIST4400 - Internship (Students are allowed 2 Internship courses if approved by an advisor)

International Studies, B.A.

Students graduating with a degree in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective. uwo.edu/sppais.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Requirements

All required courses for the major must be passed with a grade of C or better. There are numerous special topics courses offered during the academic year and these courses can fulfill the international studies requirements with approval from your adviser. Students are encouraged to satisfy the USP Q (quantitative reasoning) requirement by taking STAT2070 - Introductory Statistics for the Social Sciences or STAT2050 - Introduction to Statistics.

Core Courses

Students take 9 hours of core coursework. INST2350 - Introduction to Global Studies and INST2310 - Introduction to International Relations provide the theoretical framework for the global and regional tracks. INST4950 - Capstone in International Studies (Capstone) provides the culminating experience for students completing the B.A. degree in international studies and fulfills the COM3 writing requirement for the University Studies Program.

Area of Focus

Students will complete a minimum of 18 hours of coursework in two specific areas of focus, choosing a global and regional track. Students must complete a minimum of 9 hours in each track.

Global and regional tracks have suggested Gateway courses. Most Gateway courses fulfill University Studies requirements. All INST students are required to take the Regional Gateway course in their chosen region. All INST students are required to take the Regional Gateway course in their chosen region. These courses fulfill the COM2 requirement for the University Studies Program and count towards the 9 hours required for the Regional Track.

INST2230 - Introduction to Asian Studies Credits: 3

INST2240 - Introduction to African Studies Credits: 3

INST2250 - Introduction to Latin American Studies Credits: 3

OR

INST2280 - Introduction to European Studies Credits: 3

OR

POLS2200 - Politics of Europe and the European Union Credits: 3

Global Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Global Track, Sustainable Development and the Environment

Global Track, Economic Systems

Global Track, Culture and Social Issues

Global Track, Governance and Conflict Resolution

Regional Tracks

9 hours of coursework from a single track. This list is not comprehensive; students are strongly encouraged to review the International Studies Newsletter each semester to see what additional qualifying courses are currently being offered.

Regional Tracks, Africa and the Middle East

Regional Tracks, Asia

Regional Tracks, Europe and the Former Soviet Union

Regional Tracks, Latin America

Foreign Language

Students must complete a four semester sequence in a single foreign language or show an equivalent level of proficiency. Language courses must be conversational language courses. American Sign Language is not considered a foreign language.

Electives

Students must take 9 hours of elective courses from the international studies curriculum, 6 of which must be upper division. The following Gateway courses can count for the elective requirement:

ANTH1200 - Introduction to Cultural Anthropology Credits: 3

ECON1000 - Global Economic Issues Credits: 3

INST1060 - World Regional Geography Credits: 3

OR

GEOG1000 - World Regional Geography Credits: 3

INST1200 - Non-Western Political Cultures Credits: 3

OR

POLS1200 - Non-Western Political Cultures Credits: 3

INST1330 - World History since 1750 Credits: 3

Jazz Performance, B.M.

The BM in Jazz Performance is a jazz intense professional degree intended to prepare students for graduate school as well as a career in performing music. Acceptance to the program is by audition only.

MUSC4315 - America's Ethnic Music Credits: 3

MUSC4330 - Undergraduate Seminar Credits: 3

MUSC4350 - History and Literature of Jazz Credits: 3

MUSC4380 - Jazz Techniques Credits: 2

MUSC4490 - History of Rock and Roll Credits: 3

MUSC4650 - Keyboard Literature Credits: 3
MUSC4750 - Marching Band Techniques Credits: 1
MUSC4780 - Instrumental Conducting and Repertory Credits: 2
MUSC4790 - Choral Conducting and Repertory Credits: 2
MUSC4360 - Fundamentals of Audio for Music Production Credits: 3

B.M. Performance, Winds & Percussion Emphasis: 120 Total Hours

Music Core: 58 Credits

Ensembles: 1 per semester, minimum 8

MUSC0200 - Music Convocation Credits: 0

Students must be enrolled in Convocation every semester they are enrolled, maximum of 8.

MUSC1030 - Written Theory I Credits: 3

MUSC1035 - Aural Theory I Credits: 1

MUSC1040 - Written Theory II Credits: 3

MUSC1045 - Aural Theory II Credits: 1

MUSC2030 - Written Theory III Credits: 3

MUSC2035 - Aural Theory III Credits: 1

MUSC2040 - Written Theory IV Credits: 3

MUSC2045 - Aural Theory IV Credits: 1

MUSC1003 - Historical Perspectives in Music I Credits: 3

MUSC2050 - Historical Perspectives in Music II Credits: 3

MUSC2055 - Historical Perspectives III Credits: 3

MUSC3255 - Sophomore Qualifying Performance Jury Credits: 0

Applied lessons are required each semester of residency:

MUSC 2*** Applied Lessons II: 4 Credits

MUSC 3*** Applied Lessons III: 4 Credits

MUSC 4*** Applied Lessons IV: 4 Credits

MUSC 5*** Applied Lessons V: 4 Credits

MUSC1290 - Class Piano I Credits: 1

AND

MUSC1295 - Class Piano II Credits: 1

OR

MUSC2390 - Piano Literacy Exam Credits: 0 All Performance majors with a Wind and Percussion Emphasis must pass the Piano Literacy Exam (MUSC 2390) during their sophomore year OR pass Class Piano 1 & 2 with a B or better. If a student opts not to take Class Piano, then two (2) hours of elective credits must be taken to ensure 120 hours for graduation.

MUSC4040 - Composition Credits: 2

MUSC4070 - Conducting Credits: 3

MUSC3500 - Junior Recital Credits: 0

MUSC4590 - Senior Recital Credits: 2

Instrumental Emphasis: 2 Credits

MUSC4615 - Instrumental Pedagogy Credits: 2

Upper Division Music Electives: 18 Credits

MUSC3015 - Introduction to the Music of the World's Peoples Credits: 3

MUSC3025 - Fundamentals of Jazz Improvisation Credits: 2
MUSC4000 - Careers in Music Credits: 2
MUSC4020 - Advanced Jazz Improvisation Credits: 2
MUSC4025 - Jazz Composition and Arranging Credits: 2
MUSC4315 - America's Ethnic Music Credits: 3
MUSC4330 - Undergraduate Seminar Credits: 3
MUSC4350 - History and Literature of Jazz Credits: 3
MUSC4380 - Jazz Techniques Credits: 2
MUSC4490 - History of Rock and Roll Credits: 3
MUSC4650 - Keyboard Literature Credits: 3
MUSC4651 - String Solo Literature Credits: 3
MUSC4750 - Marching Band Techniques Credits: 1
MUSC4780 - Instrumental Conducting and Repertory Credits: 2
MUSC4790 - Choral Conducting and Repertory Credits: 2
MUSC4360 - Fundamentals of Audio for Music Production Credits: 3

Music, B.A.

The **BA in Music** is a broad liberal arts degree with a 58-credit core music curriculum. Majors have the freedom to explore the potential for future careers in the music and arts industry such as arts management, entrepreneurship, and audio technology.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

A&S College Core

The College of Arts and Sciences requires:

D - Diversity (3 credits)
G - Global (3 credits)

Major Requirements

Foundation Courses

Foundation Classes 9 Hours Required. Choose from the following:

NAIS1001 - Foundations in American Indian Studies Credits: 3
NAIS1350 - American Indians in Contemporary Society Credits: 3
NAIS2210 - North American Indians Credits: 3
NAIS2290 - History of North American Indians Credits: 3

NAIS & Crosslisted Courses

Choose seven (7), for a total of 21 credit hours, courses from the following:

NAIS1010 - Beginning Indigenous Language Credits: 4
NAIS1030 - Social Justice in the 21st Century Credits: 3
NAIS2010 - Intermediate Indigenous Language Credits: 4
NAIS2060 - Topics Credits: 1-4
NAIS2340 - Native American Culture and Literature Credits: 3
NAIS2345 - American Indians in Hollywood Film Credits: 3
NAIS3000 - Plains Culture and History Credits: 3
NAIS3010 - Proficient Indigenous Language Credits: 4
NAIS3100 - Tribal Literatures of the Great Plains Credits: 3
NAIS3200 - Indigenous Peoples and the Environment Credits: 3
NAIS3300 - Federal Indian Law Credits: 3
NAIS3400 - Traditional Ecological Knowledge Credits: 3
NAIS4000 - Indians of Wyoming Credits: 3
NAIS4010 - Advanced Indigenous Language Credits: 4
NAIS4020 - Internship Credits: 1-12
NAIS4100 - Tribal Government Credits: 3
NAIS4110 - Educational Foundations in American Indian Education Credits: 3
NAIS4200 - Indigenous Communities Abroad: International Travel Credits: 4
NAIS4340 - Natural Resource Management on Western Reservations Credits: 3
NAIS4460 - American Indian Literature Credits: 3

NAIS4466 - American Indian Ethnohistory Credits: 3
NAIS4740 - Native American Languages and Cultures Credits: 3
NAIS4975 - Independent Study Credits: 1-4
NAIS4990 - Special Topics Credits: 1-4

Additional Requirements

Grade Requirements

NAIS classes applied to NAIS degrees must be passed with a grade of C or better. This policy applies to NAIS classes completed fall semester 2012 and beyond.

Additional Information

Cross-Listing & NAIS Courses

In order to provide a broader range of relevant and enriching courses, in any given year, the program in Native American and Indigenous Studies offers topics courses (NAIS 2060 or NAIS 4990) that are frequently cross-listed with other majors and departments. Any such courses may be counted towards a student's 21 hours of required courses beyond the foundational courses.

If a student chooses to take more than one topics course in the same semester, it may require an override within the registration system. If you seek to enroll in a topics course and have trouble doing so, please contact scgsj@uwyo.edu.

Declaring a NAIS Major/Minor

Please complete and submit the "Change of Advisor, Major, Minor, Option/Concentration, College, and or Graduate Status" form available on the Office of the Registrar's website.

Philosophy, B.A.

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Additional Requirements

A major in Philosophy requires a minimum of 33 hours (11 courses) of philosophy.

At least 6 hours (2 courses) must be at the 4000-level.

At least an additional 18 hours (6 courses) must be at or above the 3000-level.

The remaining 9 hours (3 courses) may be at any level.

The department recommends that students begin with a 1000-level Intro course or a FYS followed by one or two other courses at the 1000 or 2000-level but it is not required that a student follow this recommendation.

Only those courses in which a grad of C or better has been earned may count toward the 33-hour requirement.

1000 -2000-level courses

Nine hours (3 courses) may be at any level.

PHIL1000 - Introduction to Philosophy Credits: 3

PHIL1101 - First-Year Seminar Credits: 3

PHIL2100 - The Greek Mind Credits: 3

PHIL2300 - Ethics in Practice Credits: 1-3

PHIL2310 - Philosophy of Religion Credits: 3

PHIL2330 - Environmental Ethics Credits: 3

PHIL2345 - Natural Resource Ethics Credits: 3

PHIL2420 - Critical Thinking Credits: 3

3000-level courses

At least 18 hours (6 courses) must be at or above the 3000-level.

PHIL3000 - Special Topics Credits: 3

PHIL3100 - History of Modern Philosophy: The Rationalists Credits: 3

PHIL3110 - History of Modern Philosophy: The Empiricists Credits: 3

PHIL3120 - Ancient Greek Philosophy Credits: 3

PHIL3140 - Philosophy of Science Credits: 3

PHIL3160 - "What Killed Socrates?" Credits: 3

PHIL3220 - Existentialism and Phenomenology Credits: 3

PHIL3250 - Global Justice Credits: 3

PHIL3300 - Ethical Theory Credits: 3

PHIL3320 - Eastern Thought Credits: 3

PHIL3340 - Philosophy in Literature Credits: 3

PHIL3350 - History of Moral Philosophy Credits: 3

PHIL3420 - Symbolic Logic Credits: 3

PHIL3440 - Philosophy of Mind Credits: 3

PHIL3500 - History of Science Credits: 3

PHIL3510 - Introduction to Epistemology Credits: 3

PHIL3560 - Introduction to Metaphysics Credits: 3

PHIL3933 - African Philosophy Credits: 3

4000-level-courses

At least 6 hours (2 courses) must be at the 4000-level.

PHIL4000 - Philosophical Issues Credits: 1-3

PHIL4020 - Plato Credits: 3
PHIL4030 - Aristotle Credits: 3
PHIL4040 - Kant Credits: 3
PHIL4110 - Figures in Contemporary Philosophy Credits: 3-6
PHIL4120 - Philosophy and the 20th Century Credits: 3
PHIL4130 - Figures in Modern and 19th Century Philosophy Credits: 3
PHIL4140 - Topics in Philosophy of Science Credits: 3
PHIL4190 - Philosophy of Language Credits: 3-6
PHIL4300 - Topics in Ethics Credits: 3-6
PHIL4340 - Issues in Environmental Ethics Credits: 3
PHIL4420 - Advanced Logic Credits: 3
PHIL4440 - Topics in Philosophy of the Mind Credits: 3-6
PHIL4510 - Theory of Knowledge Credits: 3
PHIL4560 - Metaphysics Credits: 3
PHIL4975 - Independent Study Credits: 1

Physics, B.A.

The Bachelor of Arts (BA) in Physics degree program provides a pathway for more students to major in physics, as a second major to physical chemistry, mathematics, and engineering, for example.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

A&S College Core

The **BA in Physics** requires the **A&S Core**:

D - Diversity (3 credits)
G - Global (3 credits)

At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation.

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Require Courses

Students in the Bachelor of Arts in physics major program are required to complete the following courses:

PHYS1210 - Engineering Physics I Credits: 4

OR

PHYS1310 - College Physics I Credits: 4

PHYS1220 - Engineering Physics II Credits: 4

OR

PHYS1320 - College Physics II Credits: 4

PHYS2310 - Physics III: Waves and Optics Credits: 4

PHYS2320 - Physics IV: Modern Physics Credits: 3

PHYS3000 - Methods of Physics Credits: 4

PHYS3650 - Advanced Lab in Modern Physics and Electronics Credits: 4

PHYS4210 - Classical Mechanics I Credits: 3

PHYS4310 - Quantum Mechanics Credits: 3

PHYS4410 - Electricity and Magnetism I Credits: 3

PHYS4510 - Thermodynamics and Statistical Mechanics Credits: 3

MATH2200 - Calculus I Credits: 4

MATH2205 - Calculus II Credits: 4

MATH2210 - Calculus III Credits: 4

MATH2310 - Applied Differential Equations I Credits: 3

Electives

Students are required to take at least 3 hours of electives from any PHYS 4000 or 5000 level course.

Additional Requirements

Course sequencing may need to be altered if ACT, SAT or Math Placement scores require a student to take pre-college courses before taking required math or English courses. Not all courses are offered every semester and some electives may have prerequisites. Students should review course descriptions and consult with their academic advisor to plan accordingly.

A major requires 42 hours of upper division (3000 level or above) coursework, 30 of which must be from the University of Wyoming.

Students must have a minimum cumulative GPA of 2.0 to graduate. Courses must be taken for a letter grade unless offered only for S/U.

University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

For declared physics majors, the prerequisite of MATH 2200 is waived and concurrent enrollment is approved.

For declared physics majors, the prerequisite of MATH 2205 is waived and concurrent enrollment is approved.

If intending to apply to graduate school, students should take the physics GRE by fall semester of the senior year.

Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take the necessary required courses (e.g. LIFE 1010, MOLB 3000 etc.).

Physics, B.S.

The Bachelor of Science in Physics program is intended for students who will pursue a career or a graduate degree in physics or related fields.

University Studies Program Requirements

If intending to apply to graduate school, students should take the physics GRE by fall semester of the senior year.

Students with specific additional interests (e.g. pre-med or another pre-professional program) may wish to move their V/H/C2 courses to alternate semesters so as to take the necessary required courses (e.g. LIFE 1010, MOLB 3000 etc.)

Physiology, B.S.

Physiology is the science of how the body functions in health and disease. A degree in physiology provides excellent preparation for careers or graduate study in the health professions and biomedical research or related disciplines.

Additional Information

Physiology is the study of how animals work: how they breathe, feed, interact with their environment, and carry out many other activities and functions. Physiology is the knowledge that the health sciences are built on and so is especially important for students who may be thinking of becoming medical practitioners, veterinarians or health care professionals.

All courses in the major must be completed with a grade of "C" or better.

University Studies Program Requirements

The University Studies Program 2015

Political Science B.A.

Political Science is the study of how societies govern themselves and interact with one another. The Political Science major offers the subfields: American politics, comparative government, international relations, political philosophy, public law, and public administration.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
 COM1 - Communication 1 Credits: 3
 COM2 - Communication 2 Credits: 3
 COM3 - Communication 3 Credits: 3
 Q- - Quantitative Reasoning Credits: 3
 PN- - Physical and Natural World (1) Credits: 3
 PN- - Physical and Natural World (2) Credits: 3
 H- - Human Culture (1) Credits: 3
 H- - Human Culture (2) Credits: 3
 V- - U.S. & WY Constitution Credits: 3

Political Science B.A.

POLS1000 - American and Wyoming Government Credits: 3
 POLS1200 - Non-Western Political Cultures Credits: 3
 Or
 POLS1250 - Introduction to Comparative Government Credits: 3
 POLS2310 - Introduction to International Relations Credits: 3

POLS2460 - Introduction to Political Philosophy Credits: 3

Or

POLS3600 - American Political Thought Credits: 3

Additional Requirements:

A major in political science requires 33 department hours.

A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

at least one seminar in political science (and its prerequisites)

8 hours of a single foreign language or equivalent credit by examination as determined by the Department of Modern and Classical Languages

STAT2070 - Introductory Statistics for the Social Sciences Credits: 4

OR

STAT2050 - Fundamentals of Statistics Credits: 4

minimum of 9 hours of upper division credit in political science.

Political Science, B.A./M.A.

The Political Science 5 Year B.A./M.A. Program offers highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor's degree (whether B.A. or B.S.) and thereby earn a graduate degree more efficiently. Political science majors with a cumulative major GPA of 3.5 or higher may be invited to apply at the outset of the second semester of the junior year.

Interested students will submit an application and 2 letters of recommendation, at least one from a political science faculty to be reviewed, along with unofficial, current UW transcripts, by the M.A. Director and Committee. Upon provisional acceptance into the program in the junior year, students will be required to take the GRE. GRE scores will be considered for full and final acceptance to the M.A. program, which will be made once the student has completed the bachelor's degree.

Provisional acceptance to the 5 Year B.A./M.A. program in Political Science will allow students to apply up to six credit hours of 5000-level courses toward both the B.A./B.S. and M.A. degree programs. To earn graduatelevel credit, students must achieve at least a 3.000 in the course. By successfully completing up to six credit hours of graduate coursework during their senior year, these students will have demonstrated their ability to do graduatelevel coursework as undergraduates, easing their transition into the Master's Program in Political Science. Interested students may reserve up to six additional credits for graduate study that do not apply to the undergraduate degree by securing appropriate approvals as explained in the Registrar's "Request to Reserve Coursework for Graduate Credit" prior to taking the coursework.

Students will be granted the BA/BS upon completion of the credit hours required for the undergraduate degree in political science. Students must complete the BA/BS before formally entering the MA program. To remain in good standing in the program, students must maintain a cumulative and departmental GPA of 3.200 and earn at least a 3.000 in all 5000-level courses. Failure to meet the GPA requirements places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be suspended from the program. Students in the program are encouraged to take the Plan B option. Please see the Graduate Study section to find the degree requirements of the M.A. in Political Science.

Political Science, B.S.

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration with an emphasis on statistical analysis and quantitative methods.

Introductory Courses

Students are required to complete the following four introductory courses:

POLS1000 - American and Wyoming Government Credits: 3

POLS1200 - Non-Western Political Cultures Credits: 3

OR

POLS1250 - Introduction to Comparative Government Credits: 3

POLS2310 - Introduction to International Relations Credits: 3

POLS2460 - Introduction to Political Philosophy Credits: 3

OR

POLS3600 - American Political Thought Credits: 3

Other Requirements

In addition to the university and college requirements listed elsewhere in this bulletin, a major in political science requires 33 department hours.

A maximum of 6 hours of internship credit may be applied toward the 33 hours required for the political science major. Only those political science courses in which a grade of C or better has been earned may be used to satisfy departmental requirements.

Most university studies courses and lower division political science courses should be completed prior to the junior year. Additional information about the political science major may be obtained from the School of Politics, Public Affairs, and International Studies: www.uwyo.edu/sppais.

Students are also required to take

STAT2050 - Fundamentals of Statistics Credits: 4

minimum of 9 hours of upper division credit in political science.

Psychology, B.S.

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.

University Studies Program Requirements

Additional Requirements

A major requires a minimum of 33 semester hours and may not exceed 60 hours in psychology. Of these, 18 hours must be at the 3000 level or above. These upper-division courses must also be taken from at least two different members of the psychology department faculty listed in this *Catalog*.

Students who have an established UW GPA and who wish to change their major to Psychology, or to add Psychology as a major, will be required to have a UW GPA of at least 2.500.

For graduation, students must receive a C or better grade in all courses taken to satisfy department requirements.

Psychology courses taken 15 or more years ago will not be used to satisfy degree requirements.

Religious Studies, B.A.

Religious Studies builds skills for your future in a globalized world. You will learn to ask life's big questions, analyze how communities across time and place have addressed these questions, and communicate persuasively in your own speech and writing.

General Requirements

A major in Religious Studies requires 33 hours (11 courses) plus a second major or minor in another discipline.

For students completing their degree under the 2015 University Studies Program:

Two Required Courses: 6 Hours

RELI1000 - Introduction to Religion Credits: 3
RELI4000 - Theories of Religion Credits: 3

Concurrent Concentration I: 9 Hours

Students should acquire a focused concentration by taking three courses (1) on a single religion, or (2) on the religions of a particular region or culture. Courses may be from a limited time period or spread across history. Students may choose from established concentrations or create their own concentration in consultation with their adviser. [Six hours must be above 3000-level.]

Concurrent Concentration II: 9 Hours

Students should take three courses in a religion, region, or culture differing significantly from that of the first concentration. [Six hours must be above 3000-level.]

Electives

Three courses in Religious Studies (see note 2 below) chosen in accordance with the student's interests. [Six hours must be above 3000-level.]

Language

Students should take three semesters of a single foreign language or demonstrate equivalent proficiency. See note 3 below.

Honors

If a student wishes to pursue an Honors designation in Religious Studies, two additional requirements must be fulfilled.

A three-hour Thesis Seminar or Internship, during which a research paper is written, or other suitable research project is carried out.

Demonstration of competency in a foreign language equivalent to a fourth-semester college-level course.

Notes:

If students majoring in Religious Studies can use its courses to satisfy requirements in a second major or minor, this is permitted.

Courses for the major should be drawn from those with a RELI prefix, or from a list of approved courses taught by other departments or programs. See the list of approved courses on the Religious Studies website. In each of the concentrations, only one course may be from outside RELI offerings. Two such courses may be used as electives.

Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director.

The language requirement may be satisfied with American Sign Language (ASL) or, with the approval of the department, coursework in another form of non- English communication (e.g. computer science, statistics, music composition).

All courses must be passed with a grade of C or better.

Sociology, B.A.

Sociology is the study of the development, interaction, and behavior of organized human groups. Sociology provides powerful insights into the social processes that shape our lives, the problems we face, and the possibilities we can envision.

Arts & Sciences College Core

- D- - Diversity Credits: 3
- G- - Global Awareness Credits: 3

Foundation Courses

Students must complete all Foundation Courses with a grade of C or better.

- SOC1000 - Sociological Principles Credits: 3
- SOC2070 - Introductory Statistics for the Social Sciences Credits: 4
- OR**
- STAT2050 - Fundamentals of Statistics Credits: 4
- SOC2685 - Research Methods Credits: 3
- SOC4715 - Sociological Theory Credits: 3

Core Courses:

Students must complete four courses from the following list with a grade of C or better.

- SOC2350 - Race and Ethnic Relations Credits: 3
- SOC3110 - Self and Society Credits: 3
- SOC3140 - Sociology of the Family Credits: 3
- SOC3200 - Sociology of Religion Credits: 3
- SOC3400 - Deviant Behavior Credits: 3
- SOC3500 - Sociology of Gender Credits: 3
- SOC3550 - Medical Sociology Credits: 3
- SOC3605 - Sociology of Education Credits: 3
- SOC3640 - Social Inequality Credits: 3
- SOC3880 - Political Sociology Credits: 3
- SOC3910 - Global Sociology Credits: 3
- SOC3950 - Environmental Sociology Credits: 3

Elective Courses

Students must complete 9 additional hours of sociology courses with a grade of C or better. Electives may be used either to develop additional expertise in an area of interest or to broaden the student's sociological training.

Spanish B.A.: Language-Linguistics Track

Requirements

- SPAN2040 - Second Year Spanish II Credits: 4
- SPAN3030 - Spanish for Heritage Speakers Credits: 3
- OR**
- SPAN3050 - Third Year Spanish I Credits: 3
- SPAN3060 - Third Year Spanish II Credits: 3
- SPAN3140 - Introduction to Literature Credits: 3
- SPAN3300 - Introduction to Hispanic Linguistics Credits: 3
- SPAN4080 - Spanish Advanced Grammar Credits: 3
- OR**
- SPAN4090 - Spanish Phonetics and Phonology Credits: 3

additional 12 hours of electives above SPAN 2030.

Highly Recommended Electives

SPAN3040 - Spanish Conversation Credits: 3
SPAN3070 - Intensive Spanish Abroad Credits: 3
SPAN3080 - Spanish Language in the USA Credits: 3
SPAN4070 - Spanish Variation and Change Credits: 3
SPAN4080 - Spanish Advanced Grammar Credits: 3
SPAN4090 - Spanish Phonetics and Phonology Credits: 3
SPAN4200 - Introduction to Research Credits: 3

It is Possible to Take

It is possible to take one class from the following:

SPPA3160 - Speech and Language Development Credits: 4
ANTH 4775 - Language and Gender
ANTH4785 - Language and Racism Credits: 3
ANTH4795 - Language Change Credits: 3

Total: 31 Hours

Spanish, B.A.

As a Spanish Major, you will develop your speaking, listening, and communication skills as a Spanish speaker. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

University Studies Program Requirements

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3

PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Tracks

The undergraduate degree in Spanish has two tracks for students to select: Culture, Literature, and Cinema Track or Language-Linguistics Track.

There are multiple entry points into the major depending on previous Spanish language experience. Students should consult a Modern and Classical Languages advisor about the appropriate placement and credit-by-exam options.

A language major usually requires 30-31 semester hours of work in a single language beyond 2030. To include a language option in the humanities/fine arts interdisciplinary program, students must complete at least 12 hours above the 2030 level.

Spanish offers two major tracks:

Spanish B.A. : Culture, Literature, and Cinema Track

Spanish B.A. : Language-Linguistics Track

Prerequisites for both Spanish Tracks

SPAN1010 - First Year Spanish I Credits: 4
SPAN1020 - First Year Spanish II Credits: 4
SPAN2030 - Second Year Spanish I Credits: 4

Language and Linguistics Track

Requirements

SPAN2040 - Second Year Spanish II Credits: 4
SPAN3030 - Spanish for Heritage Speakers Credits: 3
OR
SPAN3050 - Third Year Spanish I Credits: 3
SPAN3060 - Third Year Spanish II Credits: 3
SPAN3140 - Introduction to Literature Credits: 3
SPAN3300 - Introduction to Hispanic Linguistics Credits: 3
SPAN4080 - Spanish Advanced Grammar Credits: 3
OR
SPAN4090 - Spanish Phonetics and Phonology Credits: 3
PLUS 12 hours of electives from the following:
SPAN3040 - Spanish Conversation Credits: 3
SPAN3070 - Intensive Spanish Abroad Credits: 3
SPAN3080 - Spanish Language in the USA Credits: 3
SPAN4070 - Spanish Variation and Change Credits: 3
SPAN4200 - Introduction to Research Credits: 3
It is possible to take one class from the following:
SPPA3160 - Speech and Language Development Credits: 4
ANTH4785 - Language and Racism Credits: 3
ANTH4795 - Language Change Credits: 3

Culture, Literature, and Cinema Track

Requirements

Minimum Course Requirements for Art Majors

In addition to the university and college requirements listed above and in this Catalog, all students majoring in art must complete the following:

Foundation Core: 15 Hours

ART1005 - Drawing I Credits: 3
ART1110 - Foundation: Two Dimensional Credits: 3
ART1115 - Digital Media Credits: 1
ART1120 - Foundation: Three Dimensional Credits: 3
ART1130 - Foundation: Color Theory Credits: 3
ART2000 - Portfolio Review Credits: 1
ART2305 - Techniques: Wood/Art Preparation Credits: 1

Art History Core: 6 Hours

ART2010 - Art History I Credits: 3
ART2020 - Art History II Credits: 3

Studio Core (Minimum): 12 Hours

12 credits chosen from the below. At least one course must be from 2D and one from 3D.

2D Studio

Note: only one Photography class can count in the Studio Core

ART2005 - Drawing II Credits: 3
ART2210 - Painting I Credits: 3
ART2112 - VCD I Visual Thinking Credits: 3
ART2255 - Introduction to Photography, Digital Credits: 3
OR
ART2265 - Introduction to Photography, Black and White Credits: 3
ART3510 - Printmaking I Credits: 3

3D Studio

Note: only one Ceramic class can count in the Studio Core

ART2310 - Sculptural Practices I Credits: 3
ART2350 - Metalsmithing I Credits: 3

ART2410 - Ceramics I Credits: 3
OR

ART2420 - Ceramics II Credits: 3

Upper Division Studio Electives: 12 Hours

12 credits of any upper division studio art classes

Foreign Language: 8 Hours

8 Hours of any Foreign Language:

LANG1010 - First Semester in (TOPIC) Credits: 1-4

LANG1020 - Second Semester in (TOPIC) Credits: 1-4

Art History Electives: 6 Hours

6 credits beyond ART 2010 and ART 2020, with at least 3 units at upper division level

Additional Requirements

B.A. IN STUDIO ART DEGREE

The B.A. in Studio Art degree is available to students who are preparing for further studies or careers in the arts and arts-related fields, such as art education, graphic design, art therapy, illustration, botanical illustration and forensic illustration. Students work with their academic advisers to select courses from the USP and elective offerings to complement art studies in their areas of interest. Students must earn a grade of C or better in all courses taken to satisfy department requirements. Courses in the major must be taken for a letter grade. In addition to the university requirement that degree candidates hold a minimum cumulative grade point average of 2.000, degree candidates for the B.A. in Studio Art degree in the Department of Visual and Literary Arts also must have a minimum 2.500 overall cumulative grade point average and a 2.500 grade point average within all major courses at the time of graduation.

Transfer Residency. A minimum of 26 hours of upper-division course work in the major is required to establish residency in the department for all transfer students. This applies to students in the B.F.A., B.A., and Art Education degree programs who transfer in 12 or more hours of art courses for the major. Students in all art programs must meet the university requirement of at least 42 hours of course work at the upper-division level (3000 and above).

Based on their goals and career plans, students in consultation with a faculty adviser select the appropriate degree plan. Students major in studio art with areas of study in one or more of the following:

- Drawing
- Painting
- Photography
- Printmaking
- Ceramics
- Sculpture
- Metalsmithing
- Visual Communication Design

Studio Art, B.F.A.

The B.F.A. in Studio Art is a professional level degree open to outstanding students through an application process who are preparing for art studies, careers and professional activity in the studio arts beyond the undergraduate level.

Additional Requirements

B.F.A. IN STUDIO ART DEGREE

The B.F.A. in Studio Art is a professional level degree open to outstanding students through an application process who are preparing for art studies, careers and professional activity in the studio arts beyond the undergraduate level. The B.F.A. in Studio Art degree requires a minimum of 120 hours of credits with up to seventy-eight (78) semester hours focused in studio and art history course work. All B.F.A. in Studio Art students are required to participate in the B.F.A. exhibition upon graduation. As a Professional Degree, the B.F.A. in Studio Art does not include the A&S Outside Major credit requirement.

Application

Formal application is made to the program for acceptance into the B.F.A. in Studio Art degree program. Application must be submitted at least three semesters prior to the applicant's anticipated graduation. Favorable faculty review of the application materials are required before a student is declared a candidate for the B.F.A. in Studio Art degree. Applicants must have achieved the following at the time of application to the B.F.A. in Studio Art:

C or better in all major classes

3.25 GPA or above within major classes

3.00 or above overall UW total institutional GPA

Undergraduate majors proceed with meeting the USP requirements for the B.A. in Studio Art and balance with foundation, art history, and studio core requirements in the major until formally accepted as a B.F.A. in Studio Art candidate. Students should apply at least three semesters before graduation. Application does not automatically guarantee acceptance into the B.F.A. in Studio Art program.

Final Year

During their final year and in conjunction with the spring B.F.A. exhibition, students enroll in two sequential capstone courses: BFA Capstone I (fall) and II (spring). The courses outline the deadline and requirements for the B.F.A. exhibition as well as coordinating mentoring of B.F.A. candidates. If faculty deem their work insufficient, they reserve the right to exclude the work from the exhibition and withhold the B.F.A. degree. Students transferring to the Department of Visual and Literary Arts who

have completed their foundation core and successfully passed portfolio review are eligible to apply for a B.F.A. in Studio Art after one semester in Art and Art History Program.

Theatre and Dance, Acting Performance Concentration, B.F.A.

The BFA in Acting Performance permits a total of 70-71 credits in the major. It is designed primarily for those desiring to pursue additional pre-professional training in musical theatre and or for those preparing to enter MFA graduate programs.

University Studies Program Requirements

A&S College Core

The **BFA in Visual Communication Design** requires the **A&S Core**:

D - Diversity (3 credits)

G - Global (3 credits)

See below for more information:

<http://www.uwyo.edu/as/current-students/index.html>

Foundation Core: 15 Hours

ART1005 - Drawing I Credits: 3

required

ART1110 - Foundation: Two Dimensional Credits: 3

required

ART1120 - Foundation: Three Dimensional Credits: 3

required

ART1130 - Foundation: Color Theory Credits: 3

required

ART2000 - Portfolio Review Credits: 1

required

ART1115 - Digital Media Credits: 1

required

ART2305 - Techniques: Wood/Art Preparation Credits: 1

required

Studio Core: 12 Hours

12 credits chosen from the below. At least one course must be from 2D and one from 3D.

2D Studio

Note: only one Photography class can count in the Studio Core

ART2005 - Drawing II Credits: 3

ART2210 - Painting I Credits: 3
ART2112 - VCD I Visual Thinking Credits: 3

ART2255 - Introduction to Photography, Digital Credits: 3
OR
ART2265 - Introduction to Photography, Black and White Credits: 3

ART3510 - Printmaking I Credits: 3

3D Studio

Note: only one Ceramics class can count in the Studio Core

ART2310 - Sculptural Practices I Credits: 3
ART2350 - Metalsmithing I Credits: 3

ART2410 - Ceramics I Credits: 3
OR
ART2420 - Ceramics II Credits: 3

Art History and Design Theory Core: 9 Hours

ART2010 - Art History I Credits: 3
required
ART2020 - Art History II Credits: 3
required
ART2030 - History of Graphic Design Credits: 3
required

Upper Division Art History - 20th and 21st Century: 6 Hours

* six hours in ART 4740 and ART 4770

ART4740 - 20th Century European Art Credits: 3
required
ART4770 - Contemporary Arts Seminar Credits: 3
required

VCD Core: 12 Hours

ART2110 - Type I: Thinking with Type Credits: 3
required
ART2112 - VCD I Visual Thinking Credits: 3
required
ART2122 - VCD II Visual Programming Credits: 3
required

ART2255 - Introduction to Photography, Digital Credits: 3
OR
ART2265 - Introduction to Photography, Black and White Credits: 3

Upper Division VCD: 15 Hours

ART3112 - Type: Type, Images, and Narrative Credits: 3

required

ART3120 - VCD III: Visual Making Credits: 3

required

ART3150 - VCD IV: Visual Imaging in Time Credits: 3

required

ART4120 - VCD VI: Senior Design Studio Credits: 3

required

ART4400 - Internship Credits: 1-3

OR

ART4425 - Graphics Internship Credits: 3

BFA Core: 12 Hours

ART4010 - Contemporary Art: Theory/Practice Credits: 3

required

ART4600 - Professional Practices and Strategies Credits: 3

required

ART4800 - BFA Capstone I Credits: 3

required, offered only fall semester

ART4840 - BFA Capstone II Credits: 3

required, offered only spring semester

Upper Division Studio Electives: 9 Hours

9 credits of any upper division studio art classes

Foreign Language: 8 Hours

* 8 credits in any foreign language:

LANG1010 - First Semester in (TOPIC) Credits: 1-4

LANG1020 - Second Semester in (TOPIC) Credits: 1-4

Additional Requirements

B.F.A. in Visual Communication Design

Designers explore a variety of visual communication design topics dealing with diverse messages and audiences. Students interested in pursuing a career in design, including visual communication design, graphic design, motion graphics, animation, digital media, etc. may apply into the B.F.A. in Visual Communication Design. Students planning to graduate in four years with a B.F.A. in Visual Communication Design should complete their Foundation Core in their Freshman year and take the appropriate Studio Core classes in their sophomore year. As a Professional Degree, the B.F.A. in Visual Communication Design does not include the A&S Outside Major credit requirement.

Students must earn a grade of C or better in all courses taken to satisfy department requirements. Courses in the major must be taken for a letter grade. To obtain a B.F.A. in Visual Communication Design degree in the Department of Visual and Literary Arts students must have a minimum 3.00 overall UW-total institutional GPA, and a 3.25 GPA in all major courses at the time of graduation.

The Visual Communication Design degree provides students with a human-centered approach to making and thinking as designers. Students learn through digital and hand's-on-making design challenges to develop critical narrative skills and refine their ability to think conceptually. Individual projects and research prepare each student to think flexibly in an international community that is continually being influenced by new ideas, tools, and technologies. The Visual Arts Building, design computer classroom, and design and fabrication studio facilities offer undergraduate students ample research, design, and production space and access to cutting-edge technology, and open-source and industry standard software and tools for design exploration.

Application

Formal application is made to the program for acceptance into the B.F.A. in Visual Communication Design degree program. Application must be submitted at least three semesters prior to the applicant's anticipated graduation. Favorable faculty review of the application materials are required before a student is declared a candidate for the B.F.A. in Visual Communication Design degree. Applicants must have achieved the following at the time of application to the B.F.A. in Visual Communication Design:

C or better in all major classes

3.25 GPA or above within major classes

3.00 or above overall UW total institutional GPA

Undergraduate majors proceed with meeting the USP requirements for the B.A. in Studio Art and balance with foundation, art history, and studio core requirements in the major until formally accepted as a B.F.A. in Visual Communication Design candidate. Students should apply at least three semesters before graduation. Application does not automatically guarantee acceptance into the B.F.A. in Visual Communication Design program.

Final Year

During their final year and in conjunction with the spring B.F.A. exhibition, students enroll in two sequential capstone courses: BFA Capstone I (fall) and II (spring). The courses outline the deadline and requirements for the B.F.A. exhibition as well as coordinating mentoring of B.F.A. candidates. If faculty deem their work insufficient, they reserve the right to exclude the work from the exhibition and withhold the B.F.A. degree. Students transferring to the Department of Visual and Literary Arts who have completed their foundation core and successfully passed portfolio review are eligible to apply for a B.F.A. in Visual Communication Design after one semester in the Art and Art History Program.

Wildlife and Fisheries Biology and Management, B.S.

Provides a solid foundation in the theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Additional Information

Wildlife and Fisheries Biology and Management is a professional degree designed to prepare students for state, federal, and other positions in resource management and conservation biology. The degree provides students with knowledge of the natural world, understanding of processes governing dynamics of wildlife and fish populations, as well as an appreciation of human-mediated effects on wildlife and fish populations. A student graduating with this degree will be familiar with the theory of resource management as well as with methods used to determine population status, habitat quality, and conservation. In Wyoming the abundance of wild animals and pristine habitats provide a unique natural laboratory for studying the responses of wildlife and fish populations to changing climates and habitats.

A student graduating with a degree in WFBM will have comprehensive knowledge of wildlife and fisheries biology and management, will have earned a degree that is compatible with the requirements for professional certification with the American Fisheries Society or the Wildlife Society, and will have a range of knowledge and skills that are valuable to potential employers.

LIFE2023 - Biology of Plants and Fungi Credits: 4
BOT 0000:5999
ENR 0000:5999
REWM 0000:5999

Terrestrial Option

A minimum of 10 of the TERRESTRIAL OPTION requirements listed below (BOT 4700 and ZOO 4300 and Restricted Electives) must be exclusive to the WFBM major.

REQUIRED COURSES

BOT4700 - Vegetation Ecology Credits: 4
ZOO4300 - Wildlife Ecology and Management Credits: 5

Restricted Electives

14 Credits of Electives from the following list:

ZOO3600 - Principles of Animal Behavior Credits: 3
ZOO4235 - Marine Biology Credits: 3
ZOO4310 - Fisheries Management Credits: 3
ZOO4330 - Ichthyology Credits: 3
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
ZOO4380 - Herpetology Credits: 3
ZOO4415 - Behavioral Ecology Credits: 3
ZOO4420 - Conservation Biology Credits: 3
ZOO4430 - Limnology Laboratory Credits: 2
ZOO4440 - Limnology Credits: 3
ZOO4540 - Invertebrate Zoology Credits: 4
SOC3950 - Environmental Sociology Credits: 3
CHEM2230 - Quantitative Analysis Credits: 5
AGEC3750 - Natural Resource Planning and Economics Credits: 3
LIFE2023 - Biology of Plants and Fungi Credits: 4
BOT 0000:5999
ENR 0000:5999
REWM 0000:5999

Zoology, B.S.

Zoology majors explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills for diverse careers from graduate school to state and federal agencies, consulting, and nonprofits.

Additional Information

Zoology is the study of animals: their structure, physiology, development and evolution. One of the enduring fascinations of zoology is that we can learn so much about ourselves and our environment by studying what our fellow creatures do.

At the end of this program students will have a comprehensive knowledge of zoology, will be well prepared for graduate education, and will be equipped to enter any of the many employment opportunities that are available.

University Studies Program

The University Studies Program 2015

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

A&S College Core

D- - Diversity Credits: 3
G- - Global Awareness Credits: 3

Foundation Courses

(MATH 1450 may substitute for MATH 1400 and MATH 1405)

MATH1400 - College Algebra Credits: 3
MATH1405 - Trigonometry Credits: 3
MATH2200 - Calculus I Credits: 4
STAT2050 - Fundamentals of Statistics Credits: 4

OR

LIFE2100 - Intro Research and Analysis Credits: 4

CHEM1020 - General Chemistry I Credits: 4
CHEM1030 - General Chemistry II Credits: 4
CHEM2230 - Quantitative Analysis Credits: 5

OR

CHEM2300 - Introductory Organic Chemistry Credits: 4

OR

CHEM2420 - Organic Chemistry I Credits: 4

OR

CHEM2440 - Organic Chemistry II Credits: 4

OR

CHEM3020 - Environmental Chemistry Credits: 3

OR

CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3

OR

CHEM4050 - Solar Energy Conversion Credits: 3

OR

CHEM4230 - Instrumental Methods of Chemical Analysis Credits: 5

OR

CHEM4400 - Biological Chemistry Credits: 3

PHYS1110 - General Physics I Credits: 4

PHYS1120 - General Physics II Credits: 4

LIFE1010 - General Biology Credits: 4

LIFE2022 - Animal Biology Credits: 4

LIFE3050 - Genetics Credits: 4

LIFE3400 - General Ecology Credits: 3

LIFE3500 - Evolutionary Biology Credits: 3
ZOO4100 - Scientific Communication Credits: 2 (or approved USP C3 substitute) **AND**
ZOO4101 - Scientific Communication Lab Credits: 1 (or approved USP C3 substitute)

Advanced Zoology Course

* if more than one of the required courses is completed, additional courses can count towards the Zoology Approved Core Electives below.

One of:

ZOO4330 - Ichthyology Credits: 3
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
ZOO4380 - Herpetology Credits: 3
ZOO4540 - Invertebrate Zoology Credits: 4

Zoology Approved Core Electives

A minimum of 10 of 18 Zoology Approved Core Electives must be exclusive to the ZOOL major.

Choose a total of 18 credits from:

ZOO3115 - Human Systems Physiology Credits: 4
ZOO3600 - Principles of Animal Behavior Credits: 3
ZOO4190 - Comparative Environmental Physiology Credits: 4
ZOO4235 - Marine Biology Credits: 3
ZOO4300 - Wildlife Ecology and Management Credits: 5
ZOO4310 - Fisheries Management Credits: 3
ZOO4330 - Ichthyology Credits: 3
ZOO4340 - Developmental Biology and Embryology Credits: 4
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
ZOO4380 - Herpetology Credits: 3
ZOO4540 - Invertebrate Zoology Credits: 4
ZOO4400 - Population Ecology Credits: 3
ZOO4415 - Behavioral Ecology Credits: 3
ZOO4420 - Conservation Biology Credits: 3
ZOO4430 - Limnology Laboratory Credits: 2
ZOO4440 - Limnology Credits: 3
ZOO4735 - Advanced Topics in Physiology Credits: 1-4
ANSC3010 - Comparative Anatomy and Physiology of Domestic Animals Credits: 4
ANSC3100 - Principles of Animal Nutrition Credits: 3
ANSC3150 - Equine Nutrition and Physiology Credits: 3
MOLB3000 - Introduction to Molecular Biology Credits: 3
BOT4235 - Marine Biology Credits: 3
BOT4550 - Computational Biology Credits: 4
BOT4664 - Special Topics in Evolution Credits: 1-4
BOT4790 - Special Topics in Ecology Credits: 1-3
GEOG 3150
GEOG3480 - Environmental Change Credits: 3
GIST3140 - Introduction to Remote Sensing Credits: 3
ENTO4300 - Insect Ecology Credits: 3

ENTO4682 - Insect Anatomy and Physiology Credits: 5
ENTO4678 - Aquatic Entomology Credits: 3
ENTO4684 - Classification of Insects Credits: 4
PATB4170 - Diseases of Wildlife Credits: 3
PATB 4310
PATB 4360
PATB4710 - Medical Virology Credits: 3

Minor

African American and Diaspora Studies Minor

Thematic tracks in the major or minor are optional:

History
Culture & Aesthetics
Politics & Law
Rhetoric & English
Religion & Philosophy
Media Studies

Minor Requirements

The minor in African American and Diaspora Studies consists of 21 credit hours:

9 credit hours of core course requirements
9 credit hours of electives (excludes core courses)
3 credit hours of senior thesis seminar (AAST 4975, Capstone)

Aging Studies Minor

Background Check

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

Program Plan

Complete the Program Plan of Study with both your major academic advisor and your minor advisor.

A minor in aging studies requires 18 credit hours. These must include the following:

Core Courses

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3
HLSC4985 - Health Sciences Internship Credits: 1-6

Elective Courses - 9 Credits

6 credits must be outside student major

Academic Standards

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

American Politics Minor

The American Politics minor delves into the mechanics of politics in the United States by studying historical and current implications.

Requirements

A minor in American Politics requires

POLS1000 - American and Wyoming Government Credits: 3

POLS4850 - Seminar in American Politics and Institutions Credits: 3

OR

POLS4840 - Seminar in Public Law Credits: 3

12 hours from an approved list of courses, with a minimum of 9 hours at the 3000-level or above.

Approved American Politics Minor Courses

POLS2000 - Current Issues in American Government Credits: 3

POLS2070 - Politics of State and Local Government Credits: 3

POLS2410 - Introduction to Public Administration Credits: 3

POLS2430 - Parties, Interest Groups and Elections Credits: 3

POLS2450 - Politics and Media Credits: 3

POLS2490 - Topics In: Credits: 1-3 (dept. approval required) (Max. 6)

POLS3100 - Politics and the Judicial Process Credits: 3

POLS3520 - Voting and Participation in America Credits: 3

POLS3550 - Political Communication Credits: 3

POLS3600 - American Political Thought Credits: 3

POLS4051 - Environmental Politics Credits: 3

POLS4052 - Federal Land Politics Credits: 3

POLS4100 - Constitutional Law: Institutional Powers Credits: 3

POLS4110 - Constitutional Law: Civil Liberties and Rights Credits: 3

POLS4330 - American Foreign Relations Credits: 3

POLS4420 - Seminar in Public Administration Credits: 3 (Max. 6)

POLS4430 - United States Presidency Credits: 3

POLS4435 - Presidential Elections Credits: 3

POLS4520 - Public Opinion Credits: 3

POLS4530 - U.S. Congress Credits: 3

POLS4550 - Internship in Government Credits: 1-6 (dept. approval required)(1-6)

POLS4560 - Washington Semester Program Credits: 15 (Max. 6)

POLS4710 - Topics in Credits: 1-3 (dept. approval required)(Max. 9)
POLS4720 - Workshop in Practical Politics Credits: 1-3 (Max. 6)
POLS4840 - Seminar in Public Law Credits: 3 (Max. 6)
POLS4850 - Seminar in American Politics and Institutions Credits: 3 (Max. 6)

American Studies Minor

Students may minor in American Studies through a program of 24 credit hours of study, with credit hours evenly distributed between lower and upper division courses, which include at least 3 courses in American Studies (with the AMST course prefix), at any level (except AMST 1101), in consultation with and depending on approval by a faculty advisor in American Studies. Coursework for the minor may be matched with a student's major requirements in related disciplines and fields.

Anthropology Minor

Students will gain introductory training in at least two of the subfields of Anthropology combined with three or four upper division courses.

Introductory Courses

The minor for non-anthropology majors requires two of the introductory courses:

ANTH1100 - Introduction to Biological Anthropology Credits: 4
ANTH1200 - Introduction to Cultural Anthropology Credits: 3
ANTH1300 - Introduction to Archaeology Credits: 3
ANTH2000 - Introduction to Linguistic Anthropology Credits: 3

Electives

11-12 hours of electives from 2000, 3000, or 4000-level anthropology courses with no more than 3 hours at the 2000-level.

Art History Minor

The Art History Minor introduces students to the discipline of Art History in a 21 credit hour sequence.

Art History Sequence: 6 Hours

ART2010 - Art History I Credits: 3
ART2020 - Art History II Credits: 3

Lower Division Requirement: 3 Hours

ART2700 - Introduction to Museology Credits: 3
OR
ART2030 - History of Graphic Design Credits: 3

Other Traditions: 3 Hours

Including but not limited to Art & Architecture of Medieval Islam, Japanese Art History, Meso-American Art History

ART3720 - Art and Architecture of Medieval Islam Credits: 3

Art History Electives at the 3000/4000-level: 9 Hours

Art History Electives at the 3000/4000-level (including additional Other Traditions) Credits: 9

Total Credits: 21 Hours

Asian Studies Minor

The Asian Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of an Asian region or a single country. The program emphasizes a social science approach to the study of Asian history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Asia is defined first and foremost as a geographic entity to include Western, Northern, Central, South and East Asian areas. Thus, for example, countries such as modern Turkey and areas such as the 'Middle East' can rightly be included in 'Asia' alongside areas more traditionally understood as part of Asia such as China and India.

Course Requirements (18 Credits)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All Asian Studies Minor students must complete one of two required Gateway courses depending on their primary area of interest within Asia.

INST2230 - Introduction to Asian Studies Credits: 3 (G/COM2)

OR

POLS3270 - Governments and Politics of the Middle East Credits: 3

Asian Studies Area Courses (15 Credit Hours)

Asian Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved Asian Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Asian Studies Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what Asian Studies Area courses are currently being offered.

Approved Asian Studies Area Courses

ART 2720 - Introduction to the Art and Culture of Islam

ART4650 - International Study of Art Credits: 3

CHIN1101 - First-Year Seminar Credits: 3

CHIN2041 - Contemporary and Traditional Chinese Culture Credits: 3
CHIN3160 - See Movies, Touch China Credits: 3
ENR3300 - Environmental Policy, Conservation and Development in India Credits: 3
HIST2040 - Imperial China Credits: 3
HIST2041 - Modern China Credits: 3
HIST2320 - History of Islam Credits: 3

OR

RELI2320 - History of Islam Credits: 3
HIST2460 - Traditional Japan Credits: 3
HIST2461 - Modern Japan Credits: 3
HIST2470 - Civilization of India Credits: 3-4
HIST 3210 - The Islamic World in the Premodern Era
HIST3220 - History of the Modern Middle East Credits: 3
HIST3400 - Mongol Empire Credits: 3
GWST4335 - Women and Islam Credits: 3
HIST 4520 - Modern Far East: China, Japan and India
INST2230 - Introduction to Asian Studies Credits: 3
INST3100 - Chinese Society Credits: 3

OR

SOC3100 - Chinese Society Credits: 3
INST3400 - Politics and Society of Turkey Credits: 3
INST4200 - China and Globalization Credits: 3
INST4250 - East Asia Society and Economy Credits: 3
INST4560 - Global Cities Credits: 3
INST4590 - Sustainable Business Practices Credits: 3

OR

LANG2150 - Manga: History and Culture Credits: 3
LANG3105 - Major Themes in Chinese and Japanese Literature Credits: 3
LANG3140 - Anime: History and Culture Credits: 3

POLS3270 - Governments and Politics of the Middle East Credits: 3
POLS4230 - Governments and Politics of Asia Credits: 3
RELI2040 - Religions of the Middle East: Judaism, Christianity and Islam Credits: 3
RELI2050 - Religions of Asia Credits: 3
RELI2315 - History of Non-Western Religions Credits: 3
RELI3320 - Eastern Thought Credits: 3

OR

PHIL3320 - Eastern Thought Credits: 3
RELI3340 - Mysticism, Yoga, and Enlightenment in the East Credits: 3
RELI 3344 - Gods, Avatars, Heroes, and Mystics
SOC 3050 - Japanese Society

Optional Asian Study Abroad Component

Asian Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Asia to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the Asian Studies Area Course requirement on the approval of the student's designated minor advisor. Optional Asian Foreign Language Component Asian Studies Minor students are also strongly encouraged to learn an Asian foreign language as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower-division (1000-2000) credit hours of an Asian foreign language may be counted towards fulfillment of the Asian Studies Area Course requirement. 'Asian' languages at UW include Japanese, Chinese and Arabic. However, Asian Studies Minor, students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional

language credit hours may be fulfilled by other Asian language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

Astronomy Minor

Complete

PHYS1210 - Engineering Physics I Credits: 4

OR

PHYS1310 - College Physics I Credits: 4

PHYS1220 - Engineering Physics II Credits: 4

OR

PHYS1320 - College Physics II Credits: 4

PHYS2310 - Physics III: Waves and Optics Credits: 4

PHYS2320 - Physics IV: Modern Physics Credits: 3

ASTR2310 - General Astronomy I Credits: 4

ASTR2320 - General Astronomy II Credits: 4

Additional Requirements

Students minoring in Astronomy gain exposure to the principles of astronomy, physics, and mathematics. They learn to think critically and evaluate, interpret, and solve problems related to astronomical, as well as other technical and general scientific topics

Biology, Minor

Students may combine courses in biology, botany, zoology, physiology, and other biological sciences to meet the requirements of the minor.

Biology minor - additional information

Students who are majoring in Biology may not declare a Minor in Biology. Elective credit hours used towards the BIOL minor must be in courses not being counted towards a student's major. A grade of "C" or better is required in all courses. At least 25% of credit hours for the BIOL minor must be earned in upper division courses.

Credit in other courses with different prefixes in the biological sciences area may be applied to the minor in Biology at the discretion of a student's minor advisor.

Required Courses:

(12 credit hours)

LIFE1010 - General Biology Credits: 4

Select Two of the Following:

LIFE2022 - Animal Biology Credits: 4

LIFE2023 - Biology of Plants and Fungi Credits: 4

MICR2021 - General Microbiology Credits: 4
(or MOLB 2021 crosslisted)

Elective Courses:

(9-12 credit hours)

Select one different course from each of three of the following subject areas. One of the three courses must have a laboratory component.

Molecular/Genetics/Cell Biology:

LIFE3050 - Genetics Credits: 4
LIFE3600 - Cell Biology Credits: 4
MOLB3000 - Introduction to Molecular Biology Credits: 3
ZOO 4425

Morphology/Physiology:

BOT3000 - Plant Ecophysiology/Plant Form and Function Credits: 4
BOT4395 - Symbiosis Credits: 3
ZOO4190 - Comparative Environmental Physiology Credits: 4
ZOO4330 - Ichthyology Credits: 3
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
ZOO4540 - Invertebrate Zoology Credits: 4
ZOO4380 - Herpetology Credits: 3

Evolution:

LIFE3500 - Evolutionary Biology Credits: 3
LIFE3600 - Cell Biology Credits: 4
BOT4280 - Paleobotany Credits: 4

Ecology:

LIFE 3400
BOT4280 - Paleobotany Credits: 4
BOT4700 - Vegetation Ecology Credits: 4
BOT4730 - Plant Physiological Ecology Credits: 4
BOT4745 - Terrestrial Ecosystem Ecology Credits: 3
BOT4775 - Forest Ecology Credits: 4
MOLB4540 - Microbial Diversity and Ecology Credits: 4
ZOO4415 - Behavioral Ecology Credits: 3
ZOO4420 - Conservation Biology Credits: 3
ZOO4440 - Limnology Credits: 3
ZOO4400 - Population Ecology Credits: 3

Botany, Minor

The Botany minor provides foundational coursework in botany as well as other supporting areas of physical and life sciences and mathematics

Required Courses Credits: 11-12 Hours

BOT3000 - Plant Ecophysiology/Plant Form and Function Credits: 4

BOT4640 - Flora of the Rocky Mountains Credits: 3

OR

BOT4680 - Taxonomy of Vascular Plants Credits: 4

BOT4700 - Vegetation Ecology Credits: 4

OR

BOT4775 - Forest Ecology Credits: 4

Elective Courses Credits: 7 Hours (Minimum)

(minimum 7 credit hours).

Choose from the following:

BOT3100 - Plants and Civilization Credits: 3

BOT 3150

BOT 4111

BOT 4130

BOT 4330

BOT4420 - Conservation Biology Credits: 3

BOT4550 - Computational Biology Credits: 4

BOT4730 - Plant Physiological Ecology Credits: 4

BOT4745 - Terrestrial Ecosystem Ecology Credits: 3

BOT4780 - Biogeochemistry Credits: 3

Total Credits for Botany Minor: 18 Hours

Ceramics Minor

The Ceramics Minor introduces students to the discipline of Ceramics in a 24 credit hour sequence.

Required Courses: 9 Hours

ART1005 - Drawing I Credits: 3

ART1120 - Foundation: Three Dimensional Credits: 3

ART2350 - Metalsmithing I Credits: 3

OR

ART2310 - Sculptural Practices I Credits: 3

Studio Elective Courses in Ceramics: 12 Hours

ART2410 - Ceramics I Credits: 3
ART2420 - Ceramics II Credits: 3
ART3410 - Ceramics III/I Credits: 3
ART3420 - Ceramics III/II Credits: 3

Art History Survey Elective: 3 Hours

Choose one from

ART2010 - Art History I Credits: 3
ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Chinese Minor

A Minor in Chinese consists of a minimum of 18 credit hours, including successful completion of 10 credit hours of Chinese language and culture courses at and above CHIN2040 on campus and 9 credit hours of an intensive summer study in China.

Prerequisites

Completion of:

CHIN1010 - First Year Chinese I Credits: 4
CHIN1020 - First Year Chinese II Credits: 4
CHIN2030 - Second Year Chinese I Credits: 4

Requirements

CHIN2040 - Second Year Chinese II Credits: 4
CHIN3055 - Business Chinese Credits: 3
CHIN3160 - See Movies, Touch China Credits: 3
Or
CHIN4070 - Business Chinese II Credits: 3

Study Abroad

Summer Study in China is required for completion of 9 credit hours of coursework:

CHIN2041 - Contemporary and Traditional Chinese Culture Credits: 3
CHIN3050 - Intermediate Composition and Conversation Credits: 3
CHIN3065 - Intermediate Composition and Conversation II Credits: 3

Total: 19 Hours

Note: Study abroad is required for completion of 12 credit hours of coursework for this minor.

Classical Civilizations Minor

As a Classical Civilizations Minor, you will develop an interdisciplinary understanding of Classical Greek and Roman material, intellectual, and cultural traditions that have helped shape western systems and values.

Requirements

CLAS2020 - Classical Greek Civilization Credits: 3

OR

HIST2120 - Ancient Greece and the Near East Credits: 3

CLAS2040 - Classical Roman Civilization Credits: 3

OR

HIST2130 - Ancient Rome Credits: 3

Electives

12 hours chosen from Classics 3000-level or above; PHIL 3120, PHIL 4020, or PHIL 4030:

CLAS3050 - Athenian Democracy Credits: 3

CLAS3160 - "What Killed Socrates?" Credits: 3

CLAS4230 - Greek Tragedy Credits: 3

CLAS4270 - Classical Epic Poetry Credits: 3

CLAS4975 - Independent Study Credits: 1-4

CLAS4990 - Topics in Classical Civilization Credits: 1-4

PHIL3120 - Ancient Greek Philosophy Credits: 3

PHIL4020 - Plato Credits: 3

PHIL4030 - Aristotle Credits: 3

Other courses about ancient Mediterranean cultures that are not taught under Classics may be submitted for approval to the Classics section head.

Up to 6 hours of Latin at the 3000-level or above may be counted as electives:

LATN3110 - Vergil, The Aeneid I Credits: 3

LATN3120 - Vergil, The Aeneid II Credits: 3

LATN3140 - Caesar Credits: 2

LATN3150 - Livy Credits: 3

LATN3160 - Ovid Credits: 2

LATN3990 - Independent Study Credits: 1-4

LATN4110 - Horace Credits: 3

LATN4115 - Latin Philosophers Credits: 3

Total: 18 Hours

Communication Minor

Required: 12 Hours

COMM1040 - Intro to Communication Theory Credits: 3

COMM2010 - Public Speaking Credits: 3

COJO3010 - Business and Professional Communication Credits: 3

COJO3040 - Advanced Communication Theory Credits: 3

Electives: 6 Hours

COJO3160 - Theory of Language and Society Credits: 3
COJO3190 - Cross-Cultural Communication Credits: 3
COJO3480 - Internship Credits: 1-12 (limited to 3 credits)
COJO3520 - Communication Technology and Society Credits: 3
COJO3550 - Political Communication Credits: 3
COJO3900 - Family Communication Credits: 3
COJO4020 - Mass Media and Society Credits: 3
COJO4030 - Advanced Interpersonal Communication Credits: 3
COJO4050 - Communication and Conflict Credits: 3
COJO4061 - Rhetorical Theory and Criticism Credits: 3
COJO4140 - Nonverbal Communication Studies Credits: 3
COJO4250 - Advanced Organizational Communication Credits: 3
COJO4260 - Rhetoric and Social Justice Credits: 3
COJO4620 - Intergroup Communication Credits: 3
COJO4640 - Communication Apprehension/ Competence Credits: 3
COJO4210 - Special Topics in Communication Credits: 1-3 (no more than one)

Total: 18 Hours

Creative Writing Minor

The Creative Writing Minor teaches the fundamentals of creating original work while providing opportunities for the exploration of blended genres and interdisciplinary work. A minor in Creative Writing complements majors from a wide array of departments and colleges.

Creative Writing Minor

Minor in Creative Writing. The creative writing minor consists of six courses (18 hours) in creative writing and literature. Four of these courses will be in creative writing (12 hours) and must adhere to the following sequence: CW 1040 Intro to Creative Writing, two Lower Division Creative Writing courses (at the 2000-level), and an Upper Division course (4050). In addition, two courses will be in literature (6 hours). All courses must be completed with grades of C or better.

This minor is intended to be used with any major and must be designed in conjunction with a creative writing advisor. Each course must be passed with a grade of C or better.

Criminal Justice Minor

A minor in criminal justice requires 18 semester hours in criminal justice. All courses must be completed with a grade of C or better.

Required Courses

CRMJ1001 - Introduction to Criminal Justice Credits: 3
CRMJ2210 - Criminal Law Credits: 3

CRMJ2400 - Criminology Credits: 3

OR

SOC2400 - Criminology Credits: 3
CRMJ3110 - Criminal Courts and Processes Credits: 3
CRMJ3350 - Correctional Theory and Practice Credits: 3
CRMJ3490 - Issues in Policing Credits: 3

Dance Minor

Required Courses

THEA1021 - Academic and Professional Issues in Dance Credits: 1
THEA1040 - Production Crew I Credits: 0.5
THEA2200 - Backgrounds of Dance Credits: 3
THEA4250 - Beginning Dance Composition Credits: 2 **

Ballet Technique: 5-6 Credit Hours

Four (4) Consecutive Classes in Ballet Technique.* Choose From:

THEA1410 - Beginning Ballet I Credits: 1
THEA1420 - Beginning Ballet II Credits: 1
THEA2410 - Intermediate Ballet I Credits: 1.5
THEA2430 - Intermediate Modern I Credits: 1.5
THEA3410 - Adv/Intermediate Ballet I Credits: 1.5
THEA3420 - Adv/Intermediate Ballet II Credits: 1.5
THEA4010 - Advanced Ballet Credits: 1-3

Modern Technique: 5-6 Credit Hours

Four (4) Consecutive Classes in Modern Technique.* Choose from:

THEA1430 - Beginning Modern I Credits: 1
THEA1440 - Beginning Modern II Credits: 1
THEA2430 - Intermediate Modern I Credits: 1.5
THEA2440 - Intermediate Modern II Credits: 1.5
THEA3430 - Adv/Intermediate Modern I Credits: 1.5
THEA3440 - Adv/Intermediate Modern II Credits: 1
THEA4030 - Advanced Modern Dance Credits: 1-3

Jazz or a Mix of Jazz and Tap Class: 2 Credit Hours

Two (2) Consecutive Classes in Jazz or a Mix of Jazz and Tap Classes.* Choose from: 2

THEA1450 - Beginning Tap Dance I Credits: 1
THEA1480 - Beginning Jazz Dance I Credits: 1
THEA2450 - Intermediate Tap I Credits: 1
THEA2480 - Intermediate Jazz I Credits: 1
THEA3480 - Adv/Intermediate Jazz I Credits: 1
THEA3490 - Advanced Jazz I Credits: 1

Elective at 3000-4000 level: 2-3 Credit Hours

Suggested:

THEA4010 - Advanced Ballet Credits: 1-3
THEA4030 - Advanced Modern Dance Credits: 1-3
THEA4001 - Historical Dance Credits: 2
OR
THEA4200 - 20th Century Dance Credits: 3 (COM3)

Minor Total 17.5-22.5

Digital Media Minor

The Digital Media Minor introduces students to the discipline of Digital Media in a 25 credit hour sequence.

Required Courses: 22 Hours

ART 2110: Type 1: Thinking with Type - 3 credits

ART1005 - Drawing I Credits: 3

ART1110 - Foundation: Two Dimensional Credits: 3
OR

ART1130 - Foundation: Color Theory Credits: 3

ART1115 - Digital Media Credits: 1
ART2030 - History of Graphic Design Credits: 3
ART2112 - VCD I Visual Thinking Credits: 3
ART2122 - VCD II Visual Programming Credits: 3

ART3112 - Type: Type, Images, and Narrative Credits: 3
OR

ART3150 - VCD IV: Visual Imaging in Time Credits: 3

Art History Survey Elective: 3 Hours

Choose one from

ART2010 - Art History I Credits: 3
OR
ART2020 - Art History II Credits: 3

Total Credits: 25 Hours

Drawing Minor

The Drawing Minor introduces students to the discipline of Drawing in a 21 credit hour sequence.

Required Courses: 12 Hours

ART1005 - Drawing I Credits: 3
ART1110 - Foundation: Two Dimensional Credits: 3
ART2005 - Drawing II Credits: 3
ART3052 - Life Drawing I Credits: 3

Studio Elective Courses in Drawing: 6 Hours

*6 credits chosen from the following...

ART3005 - Drawing III Credits: 3
ART4005 - Drawing IV Credits: 3
ART4052 - Life Drawing II Credits: 3
ART3250 - Watercolor Painting I Credits: 3
ART3260 - Illustration I Credits: 3
ART4250 - Watercolor Painting II Credits: 3
ART4260 - Illustration II Credits: 3
ART4975 - Independent Study and Research Credits: 1-3

Art History Survey Elective: 3 Hours

Choose one from

ART2010 - Art History I Credits: 3
ART2020 - Art History II Credits: 3

Total Credits: 21 Hours

Environmental Values Minor

The minor in Environmental Values explores the vital link among the natural sciences, humanities, and the social sciences in grappling with environmental challenges.

Course Requirements

The minor in Environmental Values may be added to any bachelor's program at UW.

The minor requires a total of 18 credit hours, including at least one course within each of four areas of concentration. At least 12 of these credits must be outside the primary major, and nine of these credits must be at or above the 3000-level. A three-hour, core course (either Phil 2330 Environmental Ethics or Phil 2345 Natural Resource Ethics) is required of all students.

Core Course

A three-hour, core course is required of all students.

PHIL2330 - Environmental Ethics Credits: 3

PHIL2345 - Natural Resource Ethics Credits: 3

Areas of Concentration:

(note: the courses listed below are provided as examples of the type of courses that meet the various areas of concentration. Other courses may be approved on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor.)

Aesthetics

Expressing ourselves through the performing, visual and literary arts:

GEOG4500 - The American Landscape Credits: 3

THEA2400 - Vertical Dance I Credits: 1

THEA3400 - Vertical Dance II Credits: 1

Culture

Viewing human meaning and purpose in historical and contemporary terms:

NAIS3000 - Plains Culture and History Credits: 3

ANTH4310 - Environmental Anthropology Credits: 3

ENGL3400 - Topics in: Eighteenth-Century Literature Credits: 3

ENGL4480 - Regional Literature of the US: The West Credits: 3

ENR2000 - Environment and Society Credits: 3

ENR3050 - Cultures of Nature in the United States Credits: 3

HIST4475 - American Environmental History Credits: 3

Ethics

Considering right and wrong via critical and systematic thinking and doing:

PHIL2330 - Environmental Ethics Credits: 3

PHIL2345 - Natural Resource Ethics Credits: 3

PHIL3250 - Global Justice Credits: 3

PHIL3300 - Ethical Theory Credits: 3

PHIL3350 - History of Moral Philosophy Credits: 3

PHIL4340 - Issues in Environmental Ethics Credits: 3

Policy

Exploring laws, regulations, and public discourse in American society:

AGEC4710 - Natural Resource Law and Policy Credits: 3

NAIS4340 - Natural Resource Management on Western Reservations Credits: 3

ECON2400 - Economics of the Environment Credits: 3

ENR4900 - Capstone in ENR Credits: 3

GEOG4040 - Conservation of Natural Resources Credits: 3

POLS4051 - Environmental Politics Credits: 3

POLS4052 - Federal Land Politics Credits: 3

Ethics Minor

A minor in Ethics enhances and compliments any major, such as education, health sciences, law, business, engineering, computer science, political science, or communication.

Course Requirements

A minor in Ethics requires a minimum of 18 hours. One course from each of the three areas plus a capstone course.

A Student Takes One Course in Each of These Areas:

1. Ethical Theory

PHIL3300 - Ethical Theory Credits: 3

PHIL3350 - History of Moral Philosophy Credits: 3

PHIL3250 - Global Justice Credits: 3

2. Applications

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

3. Scientific, Historical and Social Analysis

(determined on a course by course basis in consultation with the Philosophy Department Undergraduate Advisor)

Capstone Course

The capstone course is an independent study normally taken during a student's senior year. The course integrates the student's different areas of study in the ethics minor into a project or thesis. Any professor in any college can sponsor this independent study. Capstone topics must be approved by the ethics minor advisor. (determined in consultation with the Philosophy Department Undergraduate Advisor)

Electives

The other two courses are approved electives, (2 courses from Areas 1, 2 or 3 -- each from a different area).

European Studies Minor

The European Studies Minor offers students the opportunity to engage in an interdisciplinary program of study of a European region or a single country. The program emphasizes a social science approach to the study of modern European history, politics, society, and culture with options to include foreign language and study abroad components towards completion of the Minor. For the purposes of this minor, Europe is defined first and foremost as a geographic entity running from the Atlantic to the Urals and from Scandinavia to the Mediterranean and the Caucasus Mountains. Courses that transcend these boundaries should include the study of Europe in a prominent way to count toward the minor.

All required courses for the major must be passed with a grade of C or better. A course cannot simultaneously fulfill more than one major requirement.

Course Requirements (18 Hours)

If your primary major is in the College of Arts and Sciences, at least twelve (12) credit hours must be exclusive to the minor and not counted towards fulfilling major requirements. To count towards the minor, all courses must be completed with a grade of 'C' or better.

Gateway Course (3 Credit Hours)

All European Studies Minor students must complete one of two required Gateway courses, either:

INST2280 - Introduction to European Studies Credits: 3 (COM2)

OR

POLS2200 - Politics of Europe and the European Union Credits: 3 (COM2)

European Studies Area Courses (15 Credit Hours)

European Studies Minor students must complete a minimum of fifteen (15) additional credit hours from the following list of approved European Studies Area Courses. A minimum of nine (9) of these credit hours must be taken at the upper-division (3000+) level. In addition to the approved courses on this list, topics courses, Honors courses, or other special course offerings may count towards fulfilling Area Course requirements based on the approval of the student's designated minor advisor. Students are strongly encouraged to review the International Studies Newsletter each semester to see what European Studies Area courses are currently being offered.

Approved European Studies Area Courses

A&S 2200 - British Life and Culture

FREN2130 - Contemporary French Culture Credits: 3

FREN3110 - Contemporary French Civilization Credits: 3

FREN 4085 - Studies in French Culture

GERM3006 - 20th Century German Culture and Civilization Credits: 3

GERM3150 - German History and Culture Credits: 3

GERM 4265 - Divided Nation: Politics and Culture in Germany 1945 - 1990

GERM4285 - 20th/21st Century German Film Credits: 3

HIST2080 - Holocaust Credits: 3

HIST2240 - The History of Russia Since 1855 Credits: 3

HIST3110 - Modern Germany Credits: 3

HIST4170 - Europe in the Nineteenth Century Credits: 3

HIST4180 - Europe in the 20th Century Credits: 3

HIST 4190 - Europe: 1930 - Present

HIST 4195 - European Economic History

HIST4270 - France: Old Regime and Revolution Credits: 3

HIST 4280 - France Since 1814

HIST4290 - History of the Soviet Union Credits: 3

HIST4310 - World War II in Europe Credits: 3

HIST4315 - History, Politics and Memory of the Holocaust in Europe Credits: 3

HIST4320 - Memory and National Identity in Twentieth Century Europe Credits: 3

INST2280 - Introduction to European Studies Credits: 3

INST4330 - American Foreign Relations Credits: 3

OR

POLS4330 - American Foreign Relations Credits: 3

OR

SOC 4330 - The World System

INST4380 - International History of Human Rights Credits: 3

INST4881 - International Social Welfare and Social Development Credits: 3

POLS2200 - Politics of Europe and the European Union Credits: 3

POLS3220 - Government and Politics of Russia and FSU Credits: 3

POLS4215 - European Union Credits: 3

RELI 4150 - Christianity, Jews and Muslims in Iberia

SPAN3220 - Spanish-American Cultures in Context Credits: 3

Optional European Study Abroad Component

European Studies Minor students are also strongly encouraged to participate in a relevant study abroad program in the region of Europe to supplement their coursework at UW. Accordingly, up to six (6) hours of relevant study abroad credit may be counted towards fulfillment of the European Studies Area Course requirement on the approval of the student's designated minor advisor.

Optional European Foreign Language Component

European Studies Minor students are also strongly encouraged to learn an European foreign language (other than English) as part of their progression towards completion of the Minor. Accordingly, up to eight (8) lower division (1000-2000) credit hours of an European foreign language may be counted towards fulfillment of the European Studies Area Course requirement. 'European' languages at UW include French, German, and Spanish. However, European Studies Minor students need not necessarily be limited to the three languages currently taught at UW. On the approval of the student's designated minor advisor these optional language credit hours may be fulfilled by other European language instruction at UW, other relevant in-country summer intensive programs, or language-focused study abroad programs.

French Minor

As a French Minor, you will develop your speaking, listening, and communication skills as a French speaker. You will gain a better understanding of perspectives and experiences of French speaking cultures.

Requirements

FREN2040 - Second Year French II Credits: 3

FREN2140 - Introduction to Reading Credits: 3

FREN3050 - Third Year French I Credits: 3

Electives

9 hours chosen from French at the 3000 or 4000 level.

Minors are encouraged to take one to two 4000 level courses with a traditional course load consisting of one 3000 level course and two 4000 level courses

Elective courses include:

FREN3005 - French Phonetics and Pronunciation Credits: 3

FREN3050 - Third Year French I Credits: 3

FREN3060 - Third Year French II Credits: 3

FREN3110 - Contemporary French Civilization Credits: 3

FREN3990 - Independent Study Credits: 1-4

FREN4080 - Studies in the French Language Credits: 3

FREN4100 - A Survey of French Literature I Credits: 3

FREN4110 - A Survey of French Literature II Credits: 3

FREN4120 - Medieval French Literature Credits: 3

FREN4140 - 17th Century French Literature Credits: 3
FREN4200 - Introduction to Research Credits: 3
FREN4250 - 19th Century French Literature Credits: 3
FREN4260 - 20th Century French Literature Credits: 3
FREN4350 - Studies in French and Francophone Literatures Credits: 3
FREN4990 - Advanced Independent Study Credits: 1-3

Total: 18 Hours

Gender and Women's Studies Graduate Minor

Provides advanced, interdisciplinary, intersectional training in feminist and gender theory and praxis. This minor offers crucial knowledge and skills to students pursuing a wide range of graduate degrees and professional paths.

Requirements

A total of 12 credit hours are required to complete the Graduate Minor in GWST. This includes the following:

GWST5710 - Feminist Theoretical Perspectives Credits: 3

An additional 9 credit hours of GWST electives, including 6 credits at the 5000-level.

When practical, students should include a GWST faculty member on their thesis, dissertation or Plan B committees.

Students in professional programs without a culminating research project can meet this requirement through alternative means.

Additional Information

Contact the program director, Dr. Michelle Jarman (mjarman@uwoyo.edu), to discuss individual plans of study.

Gender and Women's Studies Minor

Provides foundational knowledge in historical and contemporary issues related to sex, gender, and sexuality. Upon completion, students will be able to apply intersectional feminist and gender theories to interdisciplinary research and practice.

Requirements

Students must complete 18 hours of GWST course work. Nine of the required hours must be 3000-level or above. At least 15 credit hours must be completed with a grade of "C" or better.

Core Course: 3 Credits

Complete at least ONE of the following core courses.

Note: some of these courses have prerequisites, so taking a lower and upper level course from this list is recommended, but not required:

GWST1080 - Intro Gender & Women's Studies Credits: 3

GWST2000 - Introduction to LGBTQ/NS Studies Credits: 3

GWST 3XXX Gender, Race, Sex & Soc Systems

Note: will be offered Spring 2023

GWST4700 - Feminist Theories Credits: 3

Note: If taken prior to Fall 2022, these courses may also satisfy this requirement: GWST 3710, Gender & Humanities; GWST 2500, Gender & Society; GWST 1900, Women & Leadership.

Electives: 15 credit hours

The additional 15 credit hours can be selected from the complete slate of GWST electives, including those listed above.

Note: a minimum of 12 credit hours in the minor must be exclusive of hours earned in the student's major.

Additional Information

Students in the GWST minor and major are encouraged to work with a faculty advisor to develop an individualized plan of study. Contact the program director, Dr. Michelle Jarman (mjarman@uwyo.edu), for more information.

Geology Minor

A minor in geology is intended for those students majoring in other programs who are interested in complementing their degree with a broader understanding of geology and the earth sciences.

Required Courses

Students are required to take 18 hours of coursework in the Department of Geology and Geophysics including one GEOL 1000-level course (3-4); one GEOL 2000-level course (3-4); **and fulfill the remaining credit hours (10-12) with GEOL 2000-level or higher courses in consultation with their adviser.** A grade of C or better is required in each of these courses.

GEOL1005 - Earth History Credits: 4

OR another 1000-level GEOL course

GEOL2000 - Geochemical Cycles and the Earth System Credits: 4

OR another 2000-level GEOL course

AND fulfill remaining credits with 2000-level or higher GEOL courses in consultation with their adviser.

German Minor

As a German Minor, you will develop your speaking, listening, and communication skills as a German speaker. You will gain a better understanding of perspectives and experiences of German speaking cultures.

Requirements

GERM2040 - Second Year German II Credits: 3

GERM3050 - Third Year German I Credits: 3

GERM3060 - Introduction to German Literature Credits: 3

Electives

9 hours chosen from German at the 3000 or 4000 level.

- GERM3006 - 20th Century German Culture and Civilization Credits: 3
- GERM3050 - Third Year German I Credits: 3
- GERM3150 - German History and Culture Credits: 3
- GERM3990 - Independent Study Credits: 1-4
- GERM4070 - Fourth Year German Credits: 3
- GERM4080 - German-English and English- German Translation Credits: 3
- GERM4100 - A Survey of German Literature I Credits: 3
- GERM4145 - Weimar Classicism Credits: 3
- GERM4180 - German Poetry Credits: 3
- GERM4200 - Introduction to Research Credits: 3
- GERM4240 - German Literature of the Romantic Period Credits: 3
- GERM4255 - 19th Century German Novellas Credits: 3
- GERM4275 - Contemporary Migration Literature Credits: 3
- GERM4285 - 20th/21st Century German Film Credits: 3
- GERM4990 - Advanced Independent Study Credits: 1-3

Total: 18 Hours

History Minor

Only 18 credit hours of classes to learn professional skills vital to any career. Critical thinking, effective written and oral communication, and multi-perspective analysis highlight History's benefits in whatever profession you pursue.

Requirements

The history minor requires at least 18 credit hours of History courses, 9 hours of which must be Upper-Division (3000 and 4000 level) courses. These courses must be taken for letter grades with a minimum earned grade of C. For assistance in tailoring the minor content, contact the Department of History.

Human and Animal Physiology Minor

Physiology is the science of how the body functions in health and disease. A minor in physiology provides additional background for students in a variety of majors.

Human and Animal Physiology minor - requirements

Requirements for the minor in human and animal physiology (AHPY) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Courses

ZOO3115 - Human Systems Physiology Credits: 4

At Least One of These Three:

* if more than one of the three required courses is completed, additional courses can count towards Physiology Core elective courses requirement below.

ZOO4125 - Integrative Physiology Credits: 5

ZOO4190 - Comparative Environmental Physiology Credits: 4

PHCY3450 - Foundational Pathophysiology Credits: 4

Elective Courses

Physiology Core Electives. At least three courses from:

ANSC4120 - Principles of Mammalian Reproduction Credits: 4

ANSC4260 - Mammalian Endocrinology Credits: 3

ANTH4210 - Human Osteology Credits: 3

ANTH4230 - Forensic Anthropology Credits: 3

KIN3021 - Physiology of Exercise Credits: 3

KIN3038 - Exercise Psychology Credits: 3

KIN3042 - Biomechanics of Human Movement Credits: 3

KIN4042 - Advanced Biomechanics Credits: 3

LIFE3600 - Cell Biology Credits: 4

MOLB3610 - Principles of Biochemistry Credits: 4

MOLB4100 - Clinical Biochemistry Credits: 4

MOLB4400 - Immunology Credits: 4

MOLB4670 - Advanced Molecular Cell Biology Credits: 3

NEUR4295 - Neurodevelopment Credits: 3

NEUR5100 - Structure and Function of the Nervous System Credits: 4

NEUR5295 - Neurodevelopment Credits: 3

NEUR5685 - Neurophysiology Credits: 3

NEUR5887 - Molecular Neuropharmacology Credits: 3

PATB4130 - Mammalian Pathobiology Credits: 3

PATB4140 - Principles of Toxicology Credits: 3

PATB4400 - Immunology Credits: 4

PATB4710 - Medical Virology Credits: 3

PSYC3250 - Health Psychology Credits: 3

PSYC4040 - Cognitive Neuroscience Credits: 4

PSYC4080 - Physiological Psychology Credits: 4

PSYC4250 - Psychological Aspects of Chronic Illness Credits: 3

SOC3550 - Medical Sociology Credits: 3

SOC4160 - Sociology of Aging Credits: 3
ZOO3010 - Vertebrate Anatomy, Embryology, and Histology Credits: 4
OR
ZOO4110 - HIV/AIDS: The Disease and the Dilemma Credits: 3
ZOO4280 - Introduction to Neuroscience Credits: 3
ZOO4340 - Developmental Biology and Embryology Credits: 4
ZOO 4670
ZOO4735 - Advanced Topics in Physiology Credits: 1-4
ZOO5100 - Structure and Function of the Nervous System Credits: 4
ZOO5685 - Neurophysiology Credits: 3
SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing Credits: 4
CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3

Interdisciplinary Pre-Law Minor

The minor requires 18 hours to be completed from among the following courses. Of these 18 hours, 12 must be upper division (3000 or 4000 level). In addition, 12 of the 18 hours must be outside the student's primary major, and none of these courses may be credited toward both the minor and the USP requirement. Complete one course from each of the following categories. All coursework must be completed with a grade of C or better to be counted toward the minor.

Language Comprehension & Expression: 3 Hours

COMM1030 - Interpersonal Communication Credits: 3
OR
COJO 1030 - Interpersonal Communication Credits: 3

COJO3010 - Business and Professional Communication Credits: 3
COJO3160 - Theory of Language and Society Credits: 3
COJO4061 - Rhetorical Theory and Criticism Credits: 3
OR
ENGL4061 - Rhetorical Theory and Criticism Credits: 3
AGEC4450 - Negotiation Credits: 3
ANTH4795 - Language Change Credits: 3

Written Comprehension & Expression: 3 Hours

Any course with a USP designation of C3 may be counted in this area. However, no C3 course may be counted twice toward fulfilling this category and the USP C3 requirement or another category within the prelaw minor.

Critical Understanding of Human Institutions & Values: 3 Hours

POLS2460 - Introduction to Political Philosophy Credits: 3

POLS4710 - Topics in Credits: 1-3 (dept. approval required)(Max. 6)
POLS4870 - Seminar in International Relations Credits: 3 (Max. 6)
POLS4890 - Seminar in Comparative Government and Politics Credits: 3 (Max. 6)

International Studies Graduate Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Requirements

A graduate minor in international studies provides students in graduate programs other than international studies with the opportunity to acquire a basic graduate-level familiarity with international relations, global processes and cultural diversity around the world. Students acquire a foundation in intergovernmental relations and research methodology. Beyond this, students work closely with a graduate director to fashion a program of study appropriate for their interests and post-graduate plans. The minor complements several other graduate degree programs.

Prerequisites for Admission

Declaration of an international studies minor is contingent on admission to a master's or doctoral degree program. Application is in the form of a letter of interest to the director of the program, including the background, anticipated course of study, and reason for seeking the minor. An interview with the director is also required. All prerequisites for entering the graduate program in international studies as a major apply to the minor with the exception of proficiency in a second language. Students must be prepared for coursework in international studies at the graduate level and be willing to take prerequisite courses if necessary.

Course and Committee Requirements

Graduate students minoring in international studies must satisfy the requirements of their graduate major and take twelve credits of guided graduate coursework in international studies. With the approval of the department of the graduate major, these twelve hours may also count toward the major. Students are required to take at least one advanced theory course (INST 5200) and one advanced research methods course. All courses will be determined in consultation with the program director.

International Studies Minor

Students graduating with a minor in international studies will be able to recognize and appreciate the historical, political, social, cultural, and economic dimensions of international processes and issues, integrating these into an interdisciplinary perspective.

Additional Information

A minor in international studies requires 12 hours of a single foreign language and 15 hours of international studies curriculum, with a minimum of 9 hours at the 3000-level or above.

Japanese Minor

As a Japanese Minor, you will develop your speaking, listening, and communication skills as a Japanese speaker. You will gain a better understanding of perspectives and experiences of Japanese speaking cultures.

Prerequisites

JAPN1010 - First Year Japanese I Credits: 4
JAPN1020 - First Year Japanese II Credits: 4
JAPN2030 - Second Year Japanese I Credits: 4

Minor Program Requirements

A Japanese minor requires 18 credit hours of coursework which include JPN 2040 and above, and all courses required for a minor in Japanese are offered as online courses. These courses include:

JAPN3050 - Third Year Japanese I Credits: 3
JAPN3060 - Third Year Japanese II Credits: 3
JAPN2070 - Conversational Japanese Abroad Credits: 4
LANG2150 - Manga: History and Culture Credits: 3
LANG3140 - Anime: History and Culture Credits: 3
LANG4800 - Advanced Instruction In: (TOPIC) Credits: 1-3
LANG3105 - Major Themes in Chinese and Japanese Literature Credits: 3
HP3151 - Modes of Understanding Credits: 3

History and Culture classes (LANG 2150, 3140, 3105, and 4800) rotate every two years, as one History and Culture class is offered a semester. Modern Japanese Society (HP/LANG 3151) is offered twice a year, with one of these classes being a study abroad opportunity.

Journalism Minor

Required Courses: 9 Hours

COMM1000 - Intro to Mass Media Credits: 3
COMM2100 - Media Writing Credits: 3
COJO4500 - Mass Communication Law Credits: 3

Elective Courses: 9 Hours

COMM2400 - Introduction to Photography Credits: 3

COJO3000 - History of American Journalism Credits: 3
COJO3100 - Public Affairs Reporting Credits: 3
COJO3200 - Graphics of Communication Credits: 3
COJO3480 - Internship Credits: 1-12 (limited to 3 credits)
COJO3530 - Multimedia Production Credits: 3
COJO3550 - Political Communication Credits: 3
COJO4020 - Mass Media and Society Credits: 3
COJO4040 - Digital Video Production Credits: 3
COJO4200 - Visual Communication Credits: 3
COJO4230 - Special Topics in Mass Media Credits: 1-3 (no more than one)
COJO4233 - Race, Gender, Ethnicity in the Media Credits: 3
COJO4400 - Photojournalism Credits: 3 (COMM 2400 prerequisite)
COJO4530 - Web Design Credits: 3
COJO4700 - Media, Science, and Society Credits: 3

Total: 18 Hours

Latin Minor

As a Latin Minor, you will develop the communication skills necessary to read an original text of Classical Latin in prose or verse as well as the cultural knowledge essential to understand and analyze it.

Requirements

LATN3110 - Vergil, The Aeneid I Credits: 3
LATN3140 - Caesar Credits: 2
LATN4120 - Catullus and the Elegiac Poets Credits: 3
LATN4130 - Cicero Credits: 3

Electives

7 hours chosen from Latin at the 3000-level or above.

LATN3120 - Vergil, The Aeneid II Credits: 3
LATN3150 - Livy Credits: 3
LATN3160 - Ovid Credits: 2
LATN3990 - Independent Study Credits: 1-4
LATN4110 - Horace Credits: 3
LATN4115 - Latin Philosophers Credits: 3

Total: 18 Hours

Latina/o Studies Minor

Latina/o Studies offers an undergraduate minor. The minor in Latina/o Studies requires 18 credit hours. **One** of those courses (**3** hours) must include the required foundation courses, and the remaining courses (**15** hours) can be selected from the other areas of studies listed below.

Minor Requirements

3 Hours of Foundation Course

LTST1300 - Introduction to Latina/o Studies Credits: 3

3 Hours of History or Social Science

LTST2370 - Chicano History : Origins to 1900 Credits: 3

LTST2385 - Chicano History: 1900 to Present Credits: 3

LTST3800 - Chicanas/os in Contemporary Society Credits: 3

3 Hours of Culture, Arts, and Humanities

LTST2360 - Mexican American Literature Credits: 3

LTST3560 - Chicano Community Organizations Credits: 3

LTST4100 - U.S. Latina/o Theater Credits: 3

LTST4470 - Studies in Chicano Folklore Credits: 3

3 Hours of Gender, Race, Class, and Sexuality

LTST1030 - Social Justice in the 21st Century Credits: 3

LTST3200 - Perspectives in Chicana Studies Credits: 3

LTST4650 - Women, Gender & Migration Credits: 3

LTST4675 - U.S. Women of Color Credits: 3

6 Hours of Electives

(or any courses listed above not yet taken)

LTST2060 - Special Topics in: Credits: 3

LTST3080 - Spanish Language in the USA Credits: 3

LTST4485 - USLatino Diaspora Credits: 3

LTST4496 - History of Mexico Credits: 3

LTST4975 - Independent Studies Credits: 1-3

LTST4990 - Topics in Chicano Studies Credits: 1-3

Literary Studies Minor

Focuses on the study of literature, media, and culture. Courses address texts from various historical periods and regions and the work of a diverse range of voices.

Requirements

ENGL2025 - Introduction to English Studies Credits: 3

Historical Period Classes: 6 Hours

Take any 2 of the following historical period courses:

ENGL2425 - Literatures in English I Credits: 3

ENGL2430 - Literatures in English II Credits: 3

ENGL2435 - Literatures in English III Credits: 3

ENGL2340 - Native American Culture and Literature Credits: 3

ENGL2350 - Introduction to African American Literature Credits: 3

ENGL2360 - Mexican American Literature Credits: 3

ENGL3200 - Topics in: Medieval Literature Credits: 3

ENGL3300 - Topics in: Renaissance Literature Credits: 3

ENGL3400 - Topics in: Eighteenth-Century Literature Credits: 3

ENGL3500 - Topics in: Nineteenth-Century Literature Credits: 3

ENGL3600 - Topics in: 20th Century Literature Credits: 3

Upper Division Literature Courses: 9 Hours

Take 3 additional upper-division literature courses. Electives cannot be used for both the Historical Period requirement and this requirement. Please consult with department for options beyond this list.

ENGL3100 - Tribal Literatures of the Great Plains Credits: 3

ENGL3150 - World Literature Credits: 3

ENGL3200 - Topics in: Medieval Literature Credits: 3

ENGL3300 - Topics in: Renaissance Literature Credits: 3

ENGL3330 - Global Shakespeare in Performance Credits: 3

ENGL3340 - Philosophy in Literature Credits: 3

ENGL3400 - Topics in: Eighteenth-Century Literature Credits: 3

ENGL3500 - Topics in: Nineteenth-Century Literature Credits: 3

ENGL3600 - Topics in: 20th Century Literature Credits: 3

ENGL3610 - Non-Western Women Writers Credits: 3

ENGL3710 - Gender: Humanities Focus Credits: 3

ENGL4080 - Film Genre Studies (TOPIC) Credits: 3

ENGL4070 - Film Directors: Credits: 3

ENGL4090 - Film and Religion Credits: 3

ENGL4230 - Greek Tragedy Credits: 3

ENGL4270 - Classical Epic Poetry Credits: 3

ENGL4450 - African American Novel Credits: 3

ENGL4455 - Slavery and Freedom Credits: 1-4

ENGL4460 - American Indian Literature Credits: 3

ENGL4470 - Studies in Chicano Folklore Credits: 3

ENGL4480 - Regional Literature of the US: The West Credits: 3

ENGL4600 - Studies in (TOPIC) Credits: 1-6

ENGL4640 - Studies in Emerging Fields and Approaches Credits: 3

ENGL4830 - Victorian Women's Lives: Their Art, Literature, and Culture Credits: 3

Marketing Communication Minor

The marketing communication minor is designed for College of Business and communication and journalism majors. Other majors are not recommended for this minor. For questions regarding this, please contact the minor supervisor.

Required for all Minors

MKT2100 - Introduction to Marketing Credits: 3

MGT2100 - Management and Organization Credits: 3

COJO3300 - Advertising in the Media Credits: 3

COJO3310 - Public Relations Credits: 3

Emphasis

COJO Emphasis

(to be taken by non-COJO majors):

Choose Three Courses from the Following: 9 Hours

COMM2100 - Media Writing Credits: 3 (Required in this emphasis and prerequisite to COJO 3300 and COJO 3310)

COMM2400 - Introduction to Photography Credits: 3

COJO3200 - Graphics of Communication Credits: 3

COJO3480 - Internship Credits: 1-12 (Prerequisite 9 hours of COJO)

COJO3530 - Multimedia Production Credits: 3

COJO4040 - Digital Video Production Credits: 3 (Prerequisite 9 hours of COJO)

COJO4310 - Public Relations Techniques Credits: 3 (Prerequisite COJO 3310)

Marketing Emphasis

(to be taken by non-College of Business majors):

Choose Three Courses from the Following: 9 Hours

- MKT4240 - Consumer Behavior Credits: 3 (Required in this emphasis)
- MKT4230 - Integrated Marketing Communication Credits: 3
- MKT4520 - Marketing Research and Analysis Credits: 3
- MKT4540 - International Marketing Credits: 3
- MKT4590 - Sustainable Business Practices Credits: 3
- MKT4910 - Topics in Marketing Credits: 3
- SELL3310 - Professional and Technical Selling Credits: 3

Total: 21 Hours

Metalsmithing Minor

The Metalsmithing Minor introduces students to the discipline of Metalsmithing in a 24 credit hour sequence.

Required Courses: 15 Hours

- ART1110 - Foundation: Two Dimensional Credits: 3
- ART1130 - Foundation: Color Theory Credits: 3
- OR**
- ART1005 - Drawing I Credits: 3
- ART1120 - Foundation: Three Dimensional Credits: 3
- ART2350 - Metalsmithing I Credits: 3
- ART3350 - Metalsmithing II Credits: 3

Studio Elective Courses in Metalsmithing: 6 Hours

- ART4355 - Metalsmithing III Credits: 3
required
- ART4360 - Metalsmithing: Special Topics Credits: 3
required

Art History Survey Elective: 3 Hours

Choose one from:

- ART2010 - Art History I Credits: 3
- OR**
- ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Museum Studies Minor

The Museum Studies Minor introduces students to the discipline of Museum Studies.

Museum Studies Core: 12 Hours

ART 2705 - Intro to Museology II Credits: 3 crosslisted as
ANTH/AMST/HIST 2705
ART2700 - Introduction to Museology Credits: 3

Choose One of the Following

ENGL4075 - Writing for Non-Profits Credits: 3
MKT2100 - Introduction to Marketing Credits: 3
FCSC4117 - Understanding Community Leadership Credits: 3

Internship - 3 credits

3 credits in Internship

ART4400 - Internship Credits: 1-3
ANTH4970 - Internship Credits: 1-12
HIST4400 - Internship Credits: 1-12

OR

Corresponding number in student's major department

Methods Core: 6 Hours

To be chosen from the following:

AMST2400 - Introduction to Historic Preservation Credits: 3
AMST4300 - American Culture and the Public Sector Credits: 3
AMST4900 - Field Studies in American Culture Credits: 1-4
ANTH3300 - Ethnographic Methods in Anthropology Credits: 3
ANTH3310 - Introduction to Anthropology Research Methods Credits: 3
ANTH4020 - Seminar Credits: 3-6
ANTH4190 - Public Archaeology Credits: 3
ART4790 - Art Seminar Credits: 1-3
ENTO4684 - Classification of Insects Credits: 4
GEOL2080 - General Field Geology Credits: 3
GEOL4717 - Field Course in Geology Credits: 1-8
GEOL4113 - Geological Remote Sensing Credits: 4
HIST2050 - Introduction to Public History Credits: 3
HIST3020 - Historical Methods Credits: 3
HIST4030 - Senior Capstone Seminar Credits: 3
HIST 4050
ORTM1000 - Foundations of Recreation and Tourism Credits: 3
HIST4055 - Archival Research Methods Credits: 3
ORTM3000 - Tourism Theory and Practice Credits: 3

Elective Courses: 3 Hours

Students will choose course from the elective list in conjunction with their advisor, based on their area(s) of interest. Additional courses listed in the museum studies and methods cores can be chosen as electives. For a list of electives, go to www.uwyo.edu/museumstudies.

Cultural Experience / International Fieldwork

Choose one of the following:

Study Abroad/International Field School - students may enroll or participate in an approved study abroad course or program (credit hours vary),

OR

Foreign or Indigenous Language - students may enroll in 12 hours

OR

A foreign language. 8 of the 12 hours must be in the same language. American Sign Language does qualify.

Music Minor: 18 Credits

A **Minor in Music** consists of 18 credit hours intended to broaden a student's musical skills as well as foster musical talents while they are pursuing a separate major. Acceptance to the minor is by audition only.

Required Courses

Ensembles: Minimum 2 semesters required

Applied Lessons: Complete at least 2 hours of Applied Lessons (2 semesters, minimum 30 minutes each)

MUSC0200 - Music Convocation Credits: 0

2 Semesters Required

MUSC1030 - Written Theory I Credits: 3

MUSC1035 - Aural Theory I Credits: 1

MUSC1040 - Written Theory II Credits: 3

MUSC1045 - Aural Theory II Credits: 1

Choose one of the following:

MUSC2050 - Historical Perspectives in Music II Credits: 3

OR

MUSC2055 - Historical Perspectives III Credits: 3

Choose at least 3 credits from the following. Final credit hours for the minor must equal 18.

MUSC3015 - Introduction to the Music of the World's Peoples Credits: 3

MUSC4000 - Careers in Music Credits: 2

MUSC4315 - America's Ethnic Music Credits: 3

MUSC4330 - Undergraduate Seminar Credits: 3

MUSC4350 - History and Literature of Jazz Credits: 3

MUSC4360 - Fundamentals of Audio for Music Production Credits: 3

MUSC4490 - History of Rock and Roll Credits: 3

Native American and Indigenous Studies Graduate Minor

A graduate minor in Native American and Indigenous Studies is comprised of 12 hours with at least 6 hours at the 5000 level. It is expected that each graduate minor student and his/her graduate committee, at least one member of whom will be from NAIS,

will determine the specific courses to be taken. It is recommended that one of the four classes selected be a 3 credit NAIS 5000 Independent Study. This class will provide a research experience in the discipline of Native American and Indigenous studies that may support a master's thesis or doctoral dissertation. The research expectation in NAIS can be satisfied by the 3 credit hour Independent Study and/or by the thesis or doctoral dissertation.

Students graduating with a graduate minor degree in Native American and Indigenous studies will be able to: 1) Make apparent in masters'-level research the interdisciplinary connections between Native American and Indigenous studies and the primary field of graduate study; 2) Integrate American Indian studies research methods with the research methods used in the primary field of graduate study; and 3) Demonstrate in writing the ability to understand a variety of subjects from a tribal perspective.

Native American and Indigenous Studies Minor

Students graduating with an undergraduate minor degree in NAIS will be able to: 1) Explain the concept of tribal sovereignty and how tribal sovereignty is both restricted and acknowledged by the federal trust relationship and by relationships with states; 2) Understand the development of modern tribal governments and their functions and importance in contemporary society; 3) Understand and appreciate the roles of history, culture, and politics in the development of tribal world views, world views that relate to modern life and contemporary issues of concern for Native American and Indigenous peoples; 4) Identify historical, cultural, and political diversity and significance in Native oral traditions and written literatures; 5) Recognize stereotypes about Native American and Indigenous peoples and explain why these stereotypes were created and why they are sustained in modern society; and 6) Understand from the perspective of American Indian peoples, historical experiences and contemporary issues in North America.

Minor Requirements

The minor in Native American and Indigenous Studies requires 18 credit hours. Twelve credit hours must come from the following courses, three credit hours must be in either NAIS 1001 or NAIS 1350.

NAIS1001 - Foundations in American Indian Studies Credits: 3
NAIS1350 - American Indians in Contemporary Society Credits: 3
NAIS2210 - North American Indians Credits: 3
NAIS2290 - History of North American Indians Credits: 3
NAIS2340 - Native American Culture and Literature Credits: 3
Plus six hours of NAIS elective courses

Neuroscience Minor

Neuroscience explores the nervous system structure and function. Electrical signaling of neurons provides the basis of our thoughts, perceptions, learning, movement, emotion, sleep-wakefulness, and behavior.

Additional Information

Minimum credit hours: 17. Courses counted towards one minor may NOT count towards a different minor. A grade of "C" or better is required in all coursework in the Neurosciences minor.

Required Courses

ZOO3115 - Human Systems Physiology Credits: 4
ZOO4280 - Introduction to Neuroscience Credits: 3

Elective Courses:

ZOO4125 - Integrative Physiology Credits: 5
ZOO4735 - Advanced Topics in Physiology Credits: 1-4
(ZOO 4735 sections must have a neurosciences aspect, consult your advisor for help selecting appropriate sections).
ZOO4340 - Developmental Biology and Embryology Credits: 4
ZOO4295 - Neurodevelopment Credits: 3
ZOO5685 - Neurophysiology Credits: 3
ZOO5100 - Structure and Function of the Nervous System Credits: 4
NEUR5887 - Molecular Neuropharmacology Credits: 3
PSYC4040 - Cognitive Neuroscience Credits: 4

Painting Minor

The Painting Minor introduces students to the discipline of Painting in a 24 credit hour sequence.

Required Courses: 12 Hours

ART1005 - Drawing I Credits: 3
ART1110 - Foundation: Two Dimensional Credits: 3
ART1130 - Foundation: Color Theory Credits: 3
ART2210 - Painting I Credits: 3

Studio Elective Courses in Painting: 9 Hours

Choose from 3000/4000-level painting courses including but not limited to:

ART3210 - Painting II Credits: 3
ART4210 - Painting III Credits: 3
ART4220 - Painting Topics Credits: 6
ART3250 - Watercolor Painting I Credits: 3
ART4250 - Watercolor Painting II Credits: 3
ART4655 - Outdoor Studio Credits: 3

ART3260 - Illustration I Credits: 3
OR
ART4260 - Illustration II Credits: 3

Art History Survey Elective: 3 Hours

Choose one from:

ART2010 - Art History I Credits: 3
OR
ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Philosophy Minor

Philosophy provides the critical thinking, logical reasoning, and innovative problem-solving skills necessary to be competitive in law, business, academia, tech, arts, and government. It also explores what it is to live a meaningful life outside a career.

Course Requirements

A minor in Philosophy requires a minimum of 18 hours (6 courses) of philosophy.

Of the 18 hours, 12 hours must be at 3000-level or above.

Of the 18 hours, the remaining 6 hours (2 courses) may be at any level.

Only courses in which a grade of C or better has been earned count toward the 18-hour requirement.

Photography Minor

The Photography Minor introduces students to the discipline of Photography in a 24 credit hour sequence.

Required Courses: 15 Hours

ART1110 - Foundation: Two Dimensional Credits: 3

ART1130 - Foundation: Color Theory Credits: 3

ART3510 - Printmaking I Credits: 3

OR

ART2112 - VCD I Visual Thinking Credits: 3

ART2265 - Introduction to Photography, Black and White Credits: 3

ART2255 - Introduction to Photography, Digital Credits: 3

Studio Elective Courses in Photography: 6 Hours

Choose from 3000/4000-level photography courses

Art History Survey Elective: 3 Hours

Choose one from:

ART2010 - Art History I Credits: 3

OR

ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Physics Minor

A minor in physics appeals to students who have an interest in physics but intend to pursue a degree in some other field.

Complete

PHYS1210 - Engineering Physics I Credits: 4

OR

PHYS1310 - College Physics I Credits: 4

PHYS1220 - Engineering Physics II Credits: 4

OR

PHYS1320 - College Physics II Credits: 4

PHYS2310 - Physics III: Waves and Optics Credits: 4

PHYS2320 - Physics IV: Modern Physics Credits: 3

At Least Two of the Following:

PHYS4210 - Classical Mechanics I Credits: 3

PHYS4310 - Quantum Mechanics Credits: 3

PHYS4410 - Electricity and Magnetism I Credits: 3

PHYS4510 - Thermodynamics and Statistical Mechanics Credits: 3

Additional Requirements

The physics minor provides students with the fundamental concepts of physics beyond the introductory level. Through rigorous hands-on experience, students deepen their understanding of foundational concepts and develop their quantitative skills.

Political Theory Minor

A minor in Political Theory offers an opportunity for interdisciplinary study.

Requirements

POLS2460 - Introduction to Political Philosophy Credits: 3

POLS3600 - American Political Thought Credits: 3

POLS4810 - Seminar in Political Philosophy Credits: 3

9 hours from an approved list of courses in political science and other disciplines, with a minimum of 6 hours at the 3000-level or above.

Approved Political Theory Minor Courses

POLS2330 - Environmental Ethics Credits: 3

POLS2490 - Topics In: Credits: 1-3 (dept. approval required) (Max. 6)

POLS3050 - Athenian Democracy Credits: 3

POLS3610 - Classics in Environmental Thought Credits: 3

POLS3620 - Environmental Justice Credits: 3

POLS4090 - Anglo-American Jurisprudence Credits: 3

POLS4160 - Legal Philosophy Credits: 3

POLS4640 - Political Philosophy: Ancient and Medieval Credits: 3

POLS4650 - Political Philosophy: Modern Credits: 3

POLS4660 - Political Philosophy: Contemporary Credits: 3

POLS4710 - Topics in Credits: 1-3 (dept. approval required) (Max. 6)

POLS2200 - Politics of Europe and the European Union Credits: 3 (Max. 6)

SOC 3900 - Social Theory

Printmaking Minor

The Printmaking Minor introduces students to the discipline of Printmaking in a 24 credit hour sequence.

Required Courses: 12 Hours

ART1005 - Drawing I Credits: 3

ART1110 - Foundation: Two Dimensional Credits: 3

OR

ART1130 - Foundation: Color Theory Credits: 3

An upper division drawing course beyond ART 1005

ART3510 - Printmaking I Credits: 3

Studio Elective Courses in Printmaking: 9 Hours

Choose from 3000/4000-level printmaking courses Credits: 9

Art History Survey Elective: 3 Hours

Choose one from:

ART2010 - Art History I Credits: 3

OR

ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Professional Writing Minor

Focuses on the modes of written, oral, and digital communication that working professionals use in their fields. Courses address topics like grant-writing, writing for the web, and publication editing.

Requirements

Foundations Course: 3 Hours

ENGL2035 - Writing for Public Forums Credits: 3

OR

ENGL2005 - Writing in Technology and the Sciences Credits: 3 (COM2)

Program Electives: 6 Hours

Take any 2 of the following courses:

ENGL4010 - Technical Writing in the Professions Credits: 3

ENGL4020 - Editing for Publication Credits: 3

ENGL4025 - Writing for the Web Credits:

ENGL4030 - Writing for Magazines Credits: 3

ENGL4075 - Writing for Non-Profits Credits: 3

ENGL4970 - Writing Internship Credits: 3

Other Electives: 6 Hours

Courses from any discipline that relates to professional writing; consult with a Professional Writing Minor advisor.

Professional Writing Minor Capstone: 3 Hours

ENGL4000 - 21st Century Issues in Professional Writing Credits:

Psychology Minor

Learn empirical approaches to understanding human behavior from biological, clinical, cognitive, developmental, neuroscientific, and social psychological perspectives. Develop skills in critical thinking, communication, and scientific research.

A minor in psychology requires 18 semester hours in psychology. These must include PSYC 1000 or equivalent and 9 hours at the 3000- level or above. A grade of C or better is required in all minor courses.

Students seeking a minor must have 12 hours exclusive to the minor and not used in the major.

Psychology, Minor in Aging Studies

Academic Standards:

At least 12 credit hours in a minor must be from courses that are not being counted toward the student's major. No grade below a C is acceptable for courses applied to the minor.

Background Check:

Students seeking the minor in Aging Studies will be required to obtain a background check. Please contact us for specific information.

Core Courses

FCSC2110 - Fundamentals of Aging and Human Development Credits: 3

PSYC3400 - Community Resources for Older Adults Credits: 3

PSYC4970 - Aging Minor Internship Credits: 1-6

Electives

(9 credits hours - 6 credits must be outside student major)

An interdisciplinary program, current approved courses are offered through the College of Agriculture, College of Arts and Sciences, and College of Health Sciences.

Public Law Minor

A minor in Public Law offers an opportunity for interdisciplinary study.

Requirements

POLS4100 - Constitutional Law: Institutional Powers Credits: 3

POLS4110 - Constitutional Law: Civil Liberties and Rights Credits: 3

POLS4840 - Seminar in Public Law Credits: 3

9 hours from an approved list of courses in political science and other disciplines, with a minimum of 3 hours at the 3000-level or above.

Approved Public Law Minor Courses

POLS2490 - Topics In: Credits: 1-3 (dept. approval required) (Max. 6)

POLS3100 - Politics and the Judicial Process Credits: 3

POLS4090 - Anglo-American Jurisprudence Credits: 3

POLS4160 - Legal Philosophy Credits: 3

POLS4710 - Topics in Credits: 1-3 (dept. approval required) (Max. 6)

AGEC3400 - Agricultural Law Credits: 3

COJO4500 - Mass Communication Law Credits: 3

CRMJ2210 - Criminal Law Credits: 3

CRMJ3110 - Criminal Courts and Processes Credits: 3

CRMJ4140 - Criminal Legal Procedure Credits: 3

CRMJ4350 - Sociology of Law Credits: 3

OR

SOC4350 - Sociology of Law Credits: 3

CRMJ4540 - Gender and Crime Credits: 3

OR

GWST4540 - Gender and Crime Credits: 3

CRMJ4730 - Psychology and Law Credits: 3

OR

PSYC4730 - Psychology and Law Credits: 3

HIST4515 - American Legal History Credits: 3

MGT2010 - Legal Environment of Business Credits: 3

Public Relations Minor

Public relations is a minor that can help you in numerous fields. It is foundational for learning how to promote your organization and build relationships with many different publics to the benefit of all involved.

Required: 12 Hours

COMM1000 - Intro to Mass Media Credits: 3

COMM2100 - Media Writing Credits: 3
COJO3310 - Public Relations Credits: 3
COJO4310 - Public Relations Techniques Credits: 3

Three of the Following: 9 Hours

COMM2400 - Introduction to Photography Credits: 3
COJO3010 - Business and Professional Communication Credits: 3
COJO3300 - Advertising in the Media Credits: 3
COJO3480 - Internship Credits: 1-12 (limited to 3 credits)
COJO3530 - Multimedia Production Credits: 3
COJO4040 - Digital Video Production Credits: 3
COJO4200 - Visual Communication Credits: 3
COJO4230 - Special Topics in Mass Media Credits: 1-3 (no more than one)
COJO4250 - Advanced Organizational Communication Credits: 3
COJO4530 - Web Design Credits: 3

Total: 21 Hours

Queer Studies Graduate Minor

Immerses students in advanced theoretical, historical and contemporary issues related to sexuality. Upon completion, students will be able to analyze systemic exclusion/inclusion, conduct independent interdisciplinary analysis through a queer studies lens, and apply queer theory to practice.

Requirements

A graduate minor in Queer Studies requires the completion of 12 credit hours, including AMST 5430 - Queer Theory/ GWST 5430 - Queer Theory , a minimum of 6 hours at the 5000+ level, and a capstone experience or independent study. For committee-based degree programs with queer studies content, it is expected that the student will include one committee member from Queer Studies faculty.

Faculty Advisory

An interdisciplinary, independent Queer Studies committee advises the program on curriculum, scheduling and coordination. A faculty advisor is assigned to the student on declaration of the minor.

The faculty advisory committee for the minor includes:

Rachel Watson, Director Queer Studies, Chemistry
Ulrich Adelt, American Studies, African American & Diaspora Studies
Ruth Olga Bjorkenwall, Politics, Public Affairs & International Studies
Christine Boggs, Ellbogen Center for Teaching & Learning
Catherine R. Connolly, Gender & Women's Studies
Danielle Renee Cover, Law
Michelle Jarman, Disability Studies, Gender & Women's Studies
Barbara Ellen Logan, History
Jamie Snyder, Criminal Justice & Sociology
Lilia Soto, American Studies, Latino/a Studies
Jennifer Tabler, Criminal Justice & Sociology

Please contact the program director, Rachel Watson (RWatson@uwyo.edu), for more information.

Queer Studies Minor

Immerses students in theoretical, historical and contemporary issues related to sexuality. Upon completion, students will be able to analyze systemic exclusion/inclusion, conduct independent interdisciplinary analysis through a queer studies lens, and apply queer theory to practice.

Requirements

The Queer Studies minor requires the completion of 18 credit hours, including GWST 2000 - Introduction to LGBTQ/NS Studies and nine or more credits at the 3000-level or above. Each semester, students, in consultation with a queer studies advisor, will choose elective courses. A capstone project or internship is required but can be variable and determined in consultation with an advisor.

Faculty Advisory

An interdisciplinary, independent Queer Studies committee advises the program on curriculum, scheduling and coordination. A faculty advisor is assigned to the student on declaration of the minor.

The faculty advisory committee for the minor includes:

Rachel Watson, Director Queer Studies, Chemistry
Ulrich Adelt, American Studies, African American & Diaspora Studies
Ruth Olga Bjorkenwall, Politics, Public Affairs & International Studies
Christine Boggs, Ellbogen Center for Teaching & Learning
Catherine R. Connolly, Gender & Women's Studies
Danielle Renee Cover, Law
Michelle Jarman, Disability Studies, Gender & Women's Studies
Barbara Ellen Logan, History
Jamie Snyder, Criminal Justice & Sociology
Lilia Soto, American Studies, Latino/a Studies
Jennifer Tabler, Criminal Justice & Sociology

Please contact the program director, Rachel Watson (RWatson@uwyo.edu), for more information.

Religious Studies Minor

The Minor in Religious Studies requires eighteen hours of relevant courses, all with a grade of "C" or higher. These should consist of courses as set out below:

Relevant Courses: 18 Hours

REL11000 - Introduction to Religion Credits: 3

REL14000 - Theories of Religion Credits: 3 (a capstone course)

Twelve hours of courses focusing on issues in the study of religions, nine of which should be at the 3000 level or higher.

Occasionally, courses on religion are taught by outside departments as one-time opportunities. Students may propose these for inclusion in the major to the Religious Studies Program Director

Sculpture Minor

The Sculpture Minor introduces students to the discipline of Sculpture in a 24 credit hour sequence.

Required Courses: 12 Hours

ART1005 - Drawing I Credits: 3
ART1120 - Foundation: Three Dimensional Credits: 3
ART1130 - Foundation: Color Theory Credits: 3
ART2310 - Sculptural Practices I Credits: 3

Studio Elective Courses in Sculpture: 9 Hours

Choose from the following:

ART3310 - Sculptural Practices: Cast Form I Credits: 3
ART3320 - Sculptural Practices: Mixed Media I Credits: 3
ART3330 - Sculptural Practices: Assembled Form I Credits: 3
ART3345 - Sculptural Practices: Special Topics Credits: 3

Art History Survey Elective: 3 Hours

Choose one from:

ART2010 - Art History I Credits: 3
OR
ART2020 - Art History II Credits: 3

Total Credits: 24 Hours

Sociology Minor

Sociology is the study of the development, interaction, and behavior of organized human groups. Sociology provides powerful insights into the social processes that shape our lives, the problems we face, and the possibilities we can envision.

Requirements

The sociology minor requires a total of 18 sociology credits including SOC 1000. At least 9 of these 18 hours must be upper-division sociology credits.

Only grades of C or better can be counted toward the minor. Also, students seeking a minor must have 12 credit hours exclusive to the minor and not counted toward their major.

Spanish Minor

As a Spanish Minor, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

Electives

18 hours of electives in Spanish at the 2000-level or above (excluding SPAN 2030).

Elective courses include:

- SPAN3040 - Spanish Conversation Credits: 3
- SPAN3070 - Intensive Spanish Abroad Credits: 3
- SPAN3080 - Spanish Language in the USA Credits: 3
- SPAN3200 - Spanish Culture and Civilization Credits: 3
- SPAN3220 - Spanish-American Cultures in Context Credits: 3
- SPAN4070 - Spanish Variation and Change Credits: 3
- SPAN4080 - Spanish Advanced Grammar Credits: 3
- SPAN4090 - Spanish Phonetics and Phonology Credits: 3
- SPAN4200 - Introduction to Research Credits: 3

Total: 18 Hours

Theatre Minor

Required Courses

*THEA 2150 is a prerequisite for THEA 3810

- THEA1040 - Production Crew I Credits: 0.5
 - THEA1100 - Acting I Credits: 3
 - THEA1200 - Introduction to Design Credits: 3
 - THEA2010 - Theatrical Backgrounds Drama I Credits: 3
 - THEA2020 - Theatrical Backgrounds Drama II Credits: 3
 - THEA2040 - Production Crew II Credits: 0.5
 - THEA2220 - Stagecraft Credits: 3
 - THEA2800 - Stage Lighting I Credits: 3
 - OR
 - THEA3810 - Scene Design I Credits: 3 *
 - OR
 - THEA3820 - Stage Costuming I Credits: 3
- Plus 3 hours of electives in Theatre and Dance (must be 4000 level or above)

Wildlife Fisheries Biology Management Minor

Course include theory and techniques involved in the management, conservation, and captive propagation of wildlife and fish populations. Includes both classroom and field experiences in a Rocky Mountain setting.

Wildlife Fisheries Biology Management minor - requirements

Requirements for the minor in wildlife fisheries biology management (WFBM) include a minimum of 18 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Courses

9 or 11 credit hours required from the following:

LIFE3400 - General Ecology Credits: 3

ZOO2450 - Fish and Wildlife Management in the Anthropocene Credits: 4

One (1) Course From:

ZOO4300 - Wildlife Ecology and Management Credits: 5

OR

ZOO4310 - Fisheries Management Credits: 3

Elective Courses

Select three (3) of the following courses, one of which must have a laboratory component:

LIFE3050 - Genetics Credits: 4

ZOO3600 - Principles of Animal Behavior Credits: 3

ZOO4190 - Comparative Environmental Physiology Credits: 4

ZOO4330 - Ichthyology Credits: 3

ZOO4350 - Ornithology Credits: 3

ZOO4370 - Mammalogy Credits: 3

ZOO4380 - Herpetology Credits: 3

ZOO4400 - Population Ecology Credits: 3

ZOO4415 - Behavioral Ecology Credits: 3

ZOO4420 - Conservation Biology Credits: 3

ZOO4440 - Limnology Credits: 3

ZOO4540 - Invertebrate Zoology Credits: 4

Zoology Minor

Explore form, function, behavior, ecology, evolution and conservation of animals and hone analytical, writing, and research skills.

Zoology Minor - requirements

Requirements for the minor in zoology (ZOOL) include a minimum of 17 credit hours. Courses counted towards one minor may not be counted towards another. A grade of C or better is required in all courses.

Required Course

LIFE3050 - Genetics Credits: 4

Elective Courses

Select four (4) of the following courses, one of which must have a laboratory component:

LIFE3400 - General Ecology Credits: 3

LIFE3500 - Evolutionary Biology Credits: 3

ZOO3115 - Human Systems Physiology Credits: 4

ZOO3600 - Principles of Animal Behavior Credits: 3

ZOO4190 - Comparative Environmental Physiology Credits: 4

ZOO4235 - Marine Biology Credits: 3
ZOO4330 - Ichthyology Credits: 3
ZOO4340 - Developmental Biology and Embryology Credits: 4
ZOO4350 - Ornithology Credits: 3
ZOO4370 - Mammalogy Credits: 3
ZOO4380 - Herpetology Credits: 3
ZOO4540 - Invertebrate Zoology Credits: 4
BOT4235 - Marine Biology Credits: 3

Graduate

American Studies, M.A.

The American Studies M.A. is an interdisciplinary cultural studies professional development degree. M.A. graduates work in public settings, including historic preservation organizations, historic sites, museums, collections, and other non-profit organizations.

Information

Graduate Study

The American Studies M.A. is an interdisciplinary professional development degree in a committed learning community that builds on students' research interests, accomplishments, experiences, and career goals working with American cultural contexts past and present. After the M.A., our alums seek further professional specialization in law, education, writing, library and information science, and other fields; pursue Ph.D.'s in academic careers in American Studies and other scholarly areas including ethnic studies, cultural geography, literature, religious studies, anthropology, history, ethnomusicology, among others; and work professionally in public settings, including historic preservation organizations, historic sites, museums, collections, and other non-profit, community or governmental organizations.

The M.A. is a 2-year program for students enrolled full-time, culminating in a major research project, either a "Plan A" thesis, or a "Plan B" non-thesis portfolio of work. We work frequently with part-time M.A. students to accommodate other demands on students' time. We encourage the development of emergent, innovative formats and project types as valuable contributions to contemporary American studies practice, relevant to a student's professional development plans.

Because American Studies is an international field with scholars all over the world, and the U.S. has significant impacts transnationally, M.A. Students from outside the U.S. are a regular part of our M.A. cohort, and we encourage our M.A. students to consider semester exchanges abroad. The Program also supports American Studies M.A. student and faculty participation in the annual biennial international conferences.

All M.A. students complete at least 15 credit hours in American Studies courses: 2 required theory and methods courses in the Program (AMST 5500 and AMST 5510), and 3 graduate seminars in American Studies. The remainder of coursework - 12 credits for those completing a thesis, or 15 credits for those completing non-thesis portfolios - can be drawn from graduate-level coursework in any area of study. Most of our M.A. students complete 1-3 credit internships as part of their coursework, in public or organizational sites in Laramie, elsewhere in Wyoming or the U.S., and occasionally abroad as well. M.A. students' paths through their programs of study are as varied as our students.

Program Learning Outcomes

Students graduating with an M.A. in American Studies integrate their educational backgrounds, research and professional interests, and coursework at the M.A. level inside and outside American Studies, in individual programs of study, to professionally engage American cultural production and communities in preparation for professional work or advanced graduate study. Students earning the M.A. in American Studies, either completing a thesis or pursuing the non-thesis Plan B project, are prepared to:

- Interpret a variety of objects significant to the study of American cultures, including words, narratives, images, material objects, communities, built environments, identities, cross-cultural and/or international perspectives, continuities and discontinuities with the past in a range of cultural settings.
- Demonstrate professional competence in writing and speaking in error-free expository prose, authoritative oral presentation, insightful use of relevant source material reflecting critical reading skill, prose style commensurate with professional responsibility, and prose content commensurate with professional responsibility.
- Produce professional research for a well-defined community (scholarly, public, or an appropriate combination), by identifying and using primary sources, building approaches from a relevant matrix of secondary sources, and understanding scholarly traditions within the field of American Studies that supports, expands, and connects research to professional goals.
- Make effective plans for advanced graduate study or professional employment by developing competencies listed above, including the opportunity to complete appropriate internship or field course work in an area of the student's professional plans.

Program Specific Admission Requirements

Those interested in graduate study are encouraged to contact the American Studies Program (307-766-3898 or amst@uwyo.edu) for more information.

Applicants to the M.A. program do not have to have prior majors in American Studies. The American Studies program does not require the GRE in applications to our M.A. program.

The application deadline for fall enrollment is March 1. A minimum of a 3.0 undergraduate cumulative GPA is required for admission. In addition to an application, please submit the following via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>):

1. Statement of Purpose
2. A significant writing sample (usually a seminar paper or, for those coming from technical fields, a major report) that demonstrates potential for graduate study
3. Three letters of recommendation that assess the student's academic and research abilities
3. Transcripts from all undergraduate institutions and graduate programs

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Financial Aid

The American Studies M.A. is generously supported by endowment funds that allow us to award significant financial aid to M.A. students enrolled full time, through teaching, research, or community organization assistantship placements, as well as scholarship support as appropriate for students' own M.A. research.

Program Specific Degree Requirements

Graduate student must successfully complete 30 hours (for Plan B non-thesis) or 31 hours (for Plan A thesis) of graduate credit including the following:

Required Courses

(3 credit hours) AMST 5500 with a grade of B or better

(3 credit hours) AMST 5510 with a grade of B or better

(9 credit hours) graduate (5000) level AMST courses

Additional Requirements

Plan A thesis:

(12 credit hours) of graduate (5000) level courses in any field

(4 credit hours) of AMST5960 - Thesis Research

Completion of a Master's Thesis

OR

Plan B non-thesis:

(15 credit hours) of graduate (5000) level courses in any field

Completion of a non-thesis project

Completion of exam

Anthropology, M.A.

M.A. students receive training in the four subfields of anthropology, complete original research, and develop skills which foster professionalism as related to their chosen field.

Plan A (Thesis)

Any M.A. student receiving a grade of C or less in two core classes will be expelled from the program.

If not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Core-Course Sequence

Completion, with a grade of "B" or better of a four core-course sequence. This sequence will consist of

ANTH5010 - 20th Century Anthropology Theory Credits: 3

ANTH5015 - Archaeological Theory and Method Credits: 3

ANTH5020 - Biological Anthropology Credits: 3

ANTH5030 - Linguistic Anthropology Credits: 3

First semester (Fall):

Students will submit form to the graduate advisor and department head identifying their thesis advisor BEFORE the graduate assistant allocation meeting (mid-late November).

Second semester (Spring):

Students will work with their advisor to select their committee, which must be formed and on-file in the department office by the end of the semester. During the core classes' final exam periods, students give a presentation to departmental faculty which outlines the general ideas for their proposed thesis.

Second semester research presentations are assessed by all department faculty in attendance at the presentation and evaluations will be given to the student's advisors. It is expected that students will work closely with their advisors to rectify any problems before they complete their thesis prospectus in the third semester.

Third semester (Fall):

Working closely with their advisor and committee, students complete a detailed prospectus and gain approval from thesis committee for MA thesis topic.

Fourth semester (Spring):

Thesis is completed and is approved by thesis committee.

Plan B (Non-Thesis)

All requirements for a Plan A except thesis, if not completed prior to admission; two semesters of a single foreign language and one statistics course must be completed.

Anthropology, Ph.D.

Provides students with training so to achieve academic or non-academic career goals. Students have a dissertation experience that results in professional publication. They will also have practical experience that will promote movement into careers.

Program Requirements

Student maintains a portfolio which documents teaching, internship, and research experience.

Students are encouraged to present papers at professional conferences and submit articles for publication throughout their tenure as a student. After admission to candidacy, the student is expected to research, write, and defend a dissertation based on original research (up to 48 credit hours). Students may either submit a single dissertation or a series of integrated publishable articles (30-40 pages each). The student's committee must approve this choice and decide on the number, length and content of the articles at the same time, usually at the committee hearing prior to the preliminary exams. For the final submission of the dissertation, the student must also complete an introduction and conclusion to contextualize and synthesize the integrated articles.

A Minimum of Six Content Courses: 18 Hours

A minimum of six content courses (18 hours) chosen by the student in conjunction with the student's committee. These courses are normally completed in the first two years of the Ph.D. program. In addition to anthropology courses, the other 4000/5000-level courses outside of the department may be required by the committee or chosen by the student in consultation with their committee.

First or Second Year:

Two additional courses in their first or second year

ANTH5880 - Professionalism Credits: 3

ANTH5890 - Teaching Anthropology Credits: 3 (two-semester sequence)

Teaching Experience

Teaching experience, including standalone courses, after completion of the first semester of ANTH5890 - Teaching Anthropology, as well as teaching assistance to UW faculty members.

Internship Experience Credits: 6-24 Hours

Participation in an approved internship experience (6-24 credit hours). Students pursue internships in state and federal agencies, museums, contract archaeology organizations, and other organizations that offer potential career experience.

Dissertation Proposal

Committee meeting and successful completion of a dissertation proposal.

Preliminary Exams

Preliminary exams take place after the completion of 18 hours of content courses. ANTH 5880, and Teaching and Learning in Anthropology (ANTH 5890, or other as designated), normally before the end of the second year. If a student does not receive a passing grade on the preliminary exam, it can be repeated once. Failure to pass the preliminary examination the second time results in termination from the anthropology program.

Highly Recommended

International experience is highly recommended but not required, e.g. pre-dissertation summer fieldwork.

Botany, M.S.

Requirements for this degree are 26 semester hours of courses approved by the student's committee plus four hours of BOT5960 - Thesis Research.

Botany, Ph.D.

In addition to the minimum requirements set forth in this Catalog, the Department of Botany may require that a student demonstrate skills in two peripheral areas. This decision is made for individual cases by the major professor and graduate

committee. These could include foreign languages, statistics, or computer science. In some cases, additional skills may be required.

Chemistry, M.S.

The MS degree introduces students to critical thinking necessary to work independently in industrial settings & prepares you for a professional career. Provides classroom training, presentation & teaching skills along with professional development

Plan A (Thesis)

In addition to fulfilling the minimum university requirements, a student must take the Career Skills course (CHEM 5000) plus one 3 hour course in each of three of the four areas (inorganic, analytical, organic, and physical), excluding special topics and research courses. These courses must be graduate courses, 5000 and above.

One departmental seminar is required to be presented on the thesis research.

Take 9 Credits

A student may also take 9 credits of any combination of

- CHEM5190 - Research in Inorganic Chemistry Credits: 1-3
- CHEM5290 - Research in Analytical Chemistry Credits: 1-3
- CHEM5390 - Research in Organic Chemistry Credits: 1-3
- CHEM5590 - Research in Physical Chemistry Credits: 1-3
- CHEM5790 - Research in Biological Chemistry Credits: 1-3

Additional Requirements

The M.S. committee consists of the student's major professor and two other members. The M.S. Committee is responsible for advising the candidate concerning course work and research. The M.S. Committee is also responsible for the final examination of the candidate. In addition to a thesis, the M.S. candidate is also required to present a departmental seminar on the thesis topic.

A student must take the Career Skills course (CHEM 5000) plus one three-hour course in each of three of the four areas (inorganic, analytical, organic, and physical), excluding special topics and research courses. These courses must be graduate courses, 5000 and above. A student may also take nine credits of any combination of CHEM 5190, 5290, 5390, 5590, or 5790. One departmental seminar is required on the thesis research.

A student in a M.S. program who is in good standing with a grade point average equal to a B or greater may petition to transfer into the Ph.D. program upon approval of his/her M.S. committee and recommendation of the Graduate Committee.

Chemistry, Ph.D.

Our Ph.D. program is a research degree in advanced chemistry that prepares our students for careers in academia or as leaders in industry. A Master's degree is not required; students may enter directly into the Ph.D. program.

Students May Also Take

A student may also take 12 credits of any combination of

CHEM5190 - Research in Inorganic Chemistry Credits: 1-3
CHEM5290 - Research in Analytical Chemistry Credits: 1-3
CHEM5390 - Research in Organic Chemistry Credits: 1-3
CHEM5590 - Research in Physical Chemistry Credits: 1-3
CHEM5790 - Research in Biological Chemistry Credits: 1-3

Area Selected as a Major

In the area selected as a major, the student will take the following as a minimum:

Analytical

CHEM5250 - Advanced Chemical Instrumentation Credits: 3
plus 9 hours of graduate level analytical courses

Inorganic

12 hours of graduate level inorganic courses

Organic

CHEM5320 - Spectroscopic Methods of Structure Determination Credits: 3
CHEM5330 - Advanced Organic Chemistry Credits: 3
CHEM5340 - Synthetic Methods in Organic Chemistry Credits: 3
CHEM 5350

Physical

any three graduate level physical chemistry courses

Additional Requirements

In addition to fulfilling the minimum university requirements, a student must take the Career Skills course (CHEM 5000) plus one 3 hour graduate course (5000 and above) in each of the four areas (inorganic, analytical, organic, and physical), excluding special topics, tool courses CHEM 5130, CHEM 5320, CHEM 5760, and research courses.

A student may also take 12 credits of any combination of CHEM 5190, 5290, 5390, 5590, or 5790.

Students must obtain satisfactory performance on a series of written major field cumulative examinations, including special topics.

Students must obtain satisfactory performance on a preliminary examination, part written and part oral.

Students must present a seminar based on the dissertation research. Students must also obtain one additional credit of 5000 by presenting a divisional or departmental seminar or an oral presentation at a regional or national research meeting. In addition, students must make one presentation at the annual University of Wyoming Graduate School Symposium.

Communication, M.A.

Administered by the Director of Graduate Studies, the programs are structured to facilitate completion of requirements for the M.A. degree in two years. Deficiency makeups may be required.

Research Thesis: 31 Hours

31 hour program.

Students must complete an accepted research thesis approved by the student's thesis committee.

Students must complete a minimum of 27 credit hours and 4 hours of thesis credit. A minimum of 24 hours must be within the department, with a maximum of 6 hours of independent study, 3 hours of internship credit hours, and 3 hours of 4000-level coursework.

Students Must Complete

- COJO5070 - Quantitative Research Methods Credits: 3
- COJO5080 - Qualitative Research Methods Credits: 3
- COJO5800 - Foundations of Communication and Journalism Credits: 3

One of the Following Theory Courses:

- COJO5061 - Rhetorical Theory and Criticism Credits: 3
- COJO5310 - Seminar in Mass Communications Credits: 3
- COJO5540 - Seminar in Communication Theory Credits: 3

Professional Project: 33 Hours

33 hour program.

Students must complete an accepted professional project (e.g., documentary film, public relations and marketing plan, website) approved by the student's graduate committee. Students who chose the project option will be required to take 30 credit hours plus 3 hours of Graduate Project credits (for a total of 33 credit hours). A minimum of 27 hours must be taken within the department, with a maximum of 6 hours of independent study, 3 hours of internship credit hours, and 6 hours of 4000-level coursework.

Students Must Complete

- COJO5070 - Quantitative Research Methods Credits: 3
- COJO5080 - Qualitative Research Methods Credits: 3
- COJO5800 - Foundations of Communication and Journalism Credits: 3

One of the Following Theory Courses:

- COJO5061 - Rhetorical Theory and Criticism Credits: 3
- COJO5310 - Seminar in Mass Communications Credits: 3
- COJO5540 - Seminar in Communication Theory Credits: 3

Creative Writing, M.F.A.

This fully-funded MFA program is dedicated entirely to prose. We teach a wide range of courses in fiction, nonfiction, and hybrid forms. We offer award-winning faculty and prepare graduates to release books with prominent commercial and small-press publishers.

Additional Information

M.F.A. students follow the guidelines for a Plan A thesis. Only those courses in which a grade of B or better has been earned may be applied to the graduate program of study. All courses must be taken for a grade unless offered for S/U only. No graduate credit is allowed for grades S and U.

The cumulative GPA must be at least 3.000 to receive a degree. Courses below 4000-level will not count toward the degree nor will they be figured in the GPA, although they will appear on the transcript.

A minimum of four Workshops (CW 5560) and/or Creative Writing Seminars (CW 5540) must be taken. These may be in any combination to reach the four-course total, typically for a total of 12-16 credit hours. We require a cross-genre component in that mix of courses.

Requirements

Elective courses (typically taken for a total of 18 credit hours)

ENGL5900 - Practicum in College Teaching Credits: 1-3 taken in semesters teaching 1010, 1 credit per semester

ENGL5010 - Rhetoric and Composition: History, Theory, Practice Credits: 1-4 taken in the first semester teaching 1010, 3-4 credits (can be waived if a student has taken a comparable graduatelevel course in a prior program)

Other electives: free to be taken in any UW program or department across campus

Thesis Hours (5960): 4 credit hours

Total Credits: 36 Hours (Minimum)

Total credit hours must be a minimum of 36.

Criminal Justice Concentration within the M.P.A.

The Master of Public Administration Program with Criminal Justice Concentration is a professional degree designed for current and future leaders in the criminal justice field.

Plan B (Non-Thesis)

A criminal justice concentration within the master of public administration program is offered by the Criminal Justice program. Students wishing to enroll in the M.P.A. with criminal justice concentration must first be admitted into the M.P.A program. See M.P.A. program admissions requirements for specific details.

The M.P.A. with criminal justice concentration curriculum consists of 39 credits including: 24 hours of core credit; criminal justice (4) courses; and one additional approved elective course. Students may complete the degree within two years full-time or approximately three-four years part-time. Courses are offered through distance education, which allows students to complete their degree in their community while working full-time.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/ electronic class discussion.

Students must maintain a graduate GPA of 3.000.

MPA Required Core Courses

POLS5000 - Survey of Public Administration Credits: 3
POLS5400 - Public Personnel Management Credits: 3
POLS5410 - Administrative Behavior and Theory of Organization Credits: 3
POLS5440 - Principles and Processes of Government Budgeting Credits: 3
POLS5480 - Ethics In Government Credits: 3
POLS5510 - Public Policy and Program Management Credits: 3
POLS5684 - Empirical Analysis for Public Administration Credits: 3
POLS5690 - Capstone in Public Management Credits: 3

Criminal Justice Concentration Courses

Required Criminal Justice Concentration Courses

CRMJ5000 - Survey of Criminal Justice Credits: 3
CRMJ5100 - Public Policy and Crime Credits: 3

Elective Criminal Justice Concentration Courses

*Students with little or no administration and/or criminal justice professional experience must enroll in CRMJ 5500 as one of their electives.

(students must select two of the following courses)

CRMJ5151 - Crime Causation Credits: 3
CRMJ5280 - Comparative Criminal Justice Credits: 3
CRMJ5500 - Internship in Criminal Justice Credits: 3 *
CRMJ5860 - Social Inequality, Crime, Criminal Justice and the Law Credits: 3

Approved Elective Credit

One additional approved MPA elective course is required. For additional options, contact the MPA director.

CRMJ4130 - Leadership and Management in the Criminal Justice System Credits: 3
ENGL4075 - Writing for Non-Profits Credits: 3
POLS4052 - Federal Land Politics Credits: 3
POLS5051 - Environmental Politics Credits: 3
CNLS5060 - Counseling Ethics and Professional Issues Credits: 3
STAT5220 - Advanced Design Credits: 3
POLS5420 - Seminar In Public Administration Credits: 3
POLS5445 - Drug War Geopolitics in the Americas Credits: 3
POLS5450 - Administrative Regulation Credits: 3
POLS5460 - Public Administration and Law Credits: 3

POLS5465 - Survey of the Nonprofit Sector Credits: 3
POLS5500 - Internship in Public Administration Credits: 1-6
EDRE5530 - Introduction To Research Credits: 3
POLS5530 - USCongress Credits: 3
POLS5540 - Public Policy Perspectives Credits: 3
POLS5600 - Political Violence Credits: 3
POLS5685 - Program Evaluation and Policy Analysis Credits: 3
POLS5710 - Topics In Political Science Credits: 1-3
POLS5810 - Seminar in Political Philosophy Credits: 3

English, M.A.

Advanced graduate study in English Studies. Students can select from one of three tracks: literary studies; rhetoric, composition, and writing studies; or public humanities.

Required Courses

The following courses are required for all concentrations:

ENGL5010 - Rhetoric and Composition: History, Theory, Practice Credits: 1-4 Taken first semester.
ENGL5530 - Modern Critical Theory and Practice Credits: 1-4 Taken second semester.
ENGL5960 - Thesis Research Credits: 1-12 Taken third semester in classroom.
ENGL5964 - Thesis Writing Workshop Credits: Taken fourth semester.
ENGL5965 - Thesis Research II Credits: 1-3 Taken fourth semester.

Electives

Additional coursework can be taken from the following courses.

ENGL5000 - Studies In: Credits: 1-8
ENGL5020 - Public-Facing English Studies Credits: 1-4
ENGL5050 - Writing in Public Genres Credits: 1-4
ENGL5055 - Narrative and Storytelling Credits: 1-4
ENGL5061 - Rhetorical Theory and Criticism Credits: 1-4
ENGL5062 - Ancient Rhetorics Credits: 1-4
ENGL5063 - Feminist Rhetorics Credits: 1-4
ENGL5070 - Qualitative Methods in English Credits: 1-4
ENGL5071 - Qualitative Analysis Credits: 1-4
ENGL5072 - Topics in Technical Writing Credits: 1-4
ENGL5073 - Topics in Rhet-Comp & Tech-Com Credits: 1-4

ENGL5074 - Studies in Civic Discourse Credits: 1-4

ENGL5075 - Non-Profit Writing and Grants Credits: 1-4

ENGL5220 - Studies in Medieval Literature Credits: 1-4

ENGL5230 - Studies in English Renaissance Literature Credits: 1-4

ENGL5250 - Studies in Shakespeare Credits: 1-4

ENGL5270 - Studies in 18c English Literature Credits: 1-4

ENGL5280 - Studies in 19c English Literature Credits: 1-4

ENGL5290 - Studies in 20c English Literature Credits: 1-4

ENGL5310 - Early American Literature Credits: 4

ENGL5320 - Studies in 19c American Literature Credits: 1-4

ENGL5330 - Studies in 20c American Literature Credits: 1-4

ENGL5340 - Intellectual Currents in Modern American Literature Credits: 1-4

ENGL5350 - Global Literatures in English Credits: 1-4

ENGL5355 - Global Englishes Credits: 1-4

ENGL5360 - Literatures of Diversity Credits: 1-4

ENGL5455 - Slavery and Freedom Credits: 1-4

ENGL5520 - History of Literacy Criticism: Enlightenment and 19th Century Credits: 4

ENGL5600 - Research in Writing Studies Credits: 1-4

ENGL5830 - Victorian Women's Lives: Their Art, Literature, and Culture Credits: 3

ENGL5835 - Writing Program Administration Credits: 1-4

ENGL5880 - Studies in Modern Fiction Credits: 4

ENGL5885 - Studies in Popular Culture Credits: 1-4

ENGL5890 - Consumption, Markets, Cultures Credits: 1-4

ENGL5900 - Practicum in College Teaching Credits: 1-3

ENGL5975 - Independent Studies Credits: 1-4

Additional Requirements

The concentration insures coherence in each student's graduate program; breadth is insured by a distribution of courses. Much of each student's program is taken in courses outside the concentration.

Literary Studies. Working from a variety of perspectives, this concentration focuses on the study of literature and of other culturally significant texts and materials, including, for example, film, oral materials, and political documents.

Rhetoric, Composition, and Writing Studies. This concentration emphasizes scholarship on the production of discourse, broadly conceived, and may include a focus on classical, contemporary, or cultural rhetoric; post-secondary writing pedagogy and program administration; community and adult literacy; or other subjects related to the field of writing studies.

Public Humanities. Designed for students who wish to pursue professions that may span beyond traditional academic work, this concentration prepares graduates for careers in civic, nonprofit, and community-based cultural organizations that engage the humanities, contribute to social reform, and promote the public good.

Minimum coursework required: 26 hours. Minimum thesis hours required: 4 hours See program website for course offerings in a given semester. All coursework must be at the 5000-level.

With approval of the graduate advisor, a student may take a maximum of three hours credit outside the department.

A reading list exam and a Plan A thesis with oral defense. Students may write a traditional thesis, or they may assemble a public-facing thesis portfolio. See program website for more details about thesis options. For information on the Plan B, consult with the program director.

Geology, M.S.

Plan A (Thesis)

(26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL5020 - Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geology must complete two semesters of GEOL 5200. Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

Geology, Ph.D.

(42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

Completion of GEOL5020 - Fundamentals of Research is required during the first semester of residence.

All graduate students in Geology must complete two semesters of GEOL 5200. Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this *Catalog*. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Geology/Water Resources, M.S.

The purpose of this program is to formalize and broaden strong department offerings at the master of science level in ground water geology, natural waters geochemistry, mathematical hydrology, and fluvial geomorphology.

Admission Requirements

In addition to the department admission requirements, the undergraduate degree program earned by the incoming candidate must meet the minimum undergraduate requirements for the UW geology curriculum in mathematics, physics, and chemistry. The transcript should also demonstrate a strong background in physical geology.

Plan A Thesis Requirement

Only students with a Plan A thesis option are eligible. Students must follow the same program requirements as stated under Geology and Geophysics department section. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee.

Interdisciplinary Component

9 hours (see Water Resources degree requirements)

Coursework and Thesis

Each student must complete a minimum of 26 hours of graduate level coursework and a Plan A thesis. In addition, the following specific core courses are required for the master of science in geology/water resources and geophysics/water resources degrees.

GEOL5444 - Geohydrology Credits: 3

GEOL5777 - Geochemistry of Natural Waters Credits: 3

One of the Following:

GEOL 4830 - Introduction Quantitative Methods in Geology Credits: 3

OR

GEOL5050 - Introduction to Isotope Geology Credits: 3

OR

GEOL4880 - Earth Surface Processes Credits: 3

Technical/Water Quality Course

GEOL5444 - Geohydrology Credits: 3 can be used to satisfy the 3 hour technical course requirement

OR

GEOL5777 - Geochemistry of Natural Waters Credits: 3 can be used to satisfy the 3 hour water quality course requirement.

Geophysics, M.S.

Plan A (Thesis)

(26 hours of coursework and 4 hours of thesis)

Preliminary and initial advising shall take place upon acceptance to the graduate program to identify background deficiencies and develop a list of required deficiency coursework to be taken. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

GEOL5020 - Fundamentals of Research is required of ALL graduate students during the first semester of residence.

All graduate students in geophysics must complete two semesters of GEOL 5210. Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

All M.S. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure of this exam may result in dismissal from the graduate program.

The candidate's committee shall evaluate the thesis and conduct the final examination. The final exam is an oral presentation of the thesis, oral defense of thesis, and oral responses to questions relating to ancillary topics. Failure of this exam can result in dismissal. Retaking of the exam is subject to the discretion of the candidate's graduate committee.

M.S. candidates in geophysics must complete 6 hours of mathematics and three hours of physics or engineering courses at the graduate level.

M.S. candidates must take at least 12 hours of 4000- and 5000-level courses in geophysics. Recommended graduate level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and engineering they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

Geophysics, Ph.D.

(42 hours of coursework and 30 hours of dissertation research)

Preliminary and initial advising will identify background deficiencies and develop a list of required deficiency coursework. Deficiency coursework must be completed with a grade of B or better early in the student's graduate residence.

All graduate students in geophysics must complete two semesters of GEOL 5210. Distinguished Lecture Series in the first two semesters of residence plus Rocky Mountain Field Trip.

Completion of GEOL5020 - Fundamentals of Research is required during the first semester of residence.

Ph.D. candidates in geophysics must complete at least 6 additional hours of graduate level coursework: 3 in mathematics and 3 in physics or engineering. Recommended graduate-level mathematics courses include differential equations, numerical analysis, and real and complex variables; in physics and engineering, they include classical mechanics, continuum mechanics, elasticity, electricity and magnetism. Ph.D. candidates are required to take at least 12 hours of 5000-level geophysics courses exclusive of GEOL 5854. Substitutions for graduate-level geophysics courses may be made with the permission of the candidate's adviser. Remaining graduate-level course requirements may be made up from courses in physics, engineering, mathematics, and geology.

All Ph.D. students in the Department of Geology and Geophysics will be required to complete a qualifying exam by the end of the second term in residence. Specific department examination requirements are available from the department office. Failure to complete the exam by the end of the second semester in residence without an approved extension will result in suspension of the student's financial support, irrespective of the source of funding. Ph.D. students who fail the exam will be asked to withdraw from the graduate program or to enroll in the M.S. program.

The preliminary examination is administered following completion of 30 hours of 4000-level or higher coursework, not including independent study or research credits. Failure of this exam may, at the discretion of the thesis committee, lead to a re-examination during the following semester in residence, remedial work, or expulsion from the program.

The Ph.D. dissertation and its defense are described in the regulations section of this *Catalog*. Specific department examination requirements are available from the department office. The candidate's committee is responsible for monitoring progress of the research, refereeing the written work, and administering the final examination.

Geophysics/Water Resources, M.S.

Admission Requirements

In addition to the department admission requirements, the undergraduate degree program earned by the incoming candidate must meet the minimum undergraduate requirements for the UW geology curriculum in mathematics, physics, and chemistry. The transcript should also demonstrate a strong background in physical geology.

Plan A Thesis Requirement

Only students with a Plan A thesis option are eligible. Students must follow the same program requirements as stated under Geology and Geophysics department section. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee.

Interdisciplinary Component

9 hours (see Water Resources degree requirements)

Coursework and Thesis

Each student must complete a minimum of 26 hours of graduate level coursework and a Plan A thesis. In addition, the following specific core courses are required for the master of science in geology/water resources and geophysics/water resources degrees.

GEOL5444 - Geohydrology Credits: 3
GEOL5777 - Geochemistry of Natural Waters Credits: 3

One of the Following:

GEOL 4830 - Introduction Quantitative Methods in Geology Credits: 3

OR

GEOL4880 - Earth Surface Processes Credits: 3

OR

GEOL5050 - Introduction to Isotope Geology Credits: 3

Technical/Water Quality Course

GEOL5444 - Geohydrology Credits: 3 can be used to satisfy the 3 hour technical course requirement

OR

GEOL5777 - Geochemistry of Natural Waters Credits: 3 can be used to satisfy the 3 hour water quality course requirement.

History, M.A.

Wyoming's M.A. in history will open both professional and academic pathways. A student may pursue this degree as the final step in their educational journey or go on to pursue a doctoral degree and, eventually, a teaching or research position.

Program Specific Admission Requirements

General Regulations

The M.A. in History requires 18 hours of undergraduate history courses as minimum preparation for admission. The rules under which the student enters remain those governing the program for the duration of the student's continued enrollment. In accordance with university graduate regulations, students are responsible for meeting all deadlines and for fulfilling all requirements for the degree.

Application and Admissions

To be eligible for financial support in the form of a Graduate Assistantship, the Department of History must receive all materials by March 1. All other application materials must be received by the Department of History no later than May 1. The application process is now completely online. In addition to the application, applicants must upload the following documents via the UW Admissions website (www.uwyo.edu/admissions):

Three letters of recommendation that assess the student's academic and research abilities.

Transcripts from all undergraduate institutions and graduate programs.

A writing sample of 10-20 pages, typically either a portion of a senior thesis or an upper-level seminar paper.

A statement of purpose of 250-500 words, explaining the applicant's preparation, interests, and plans. Please indicate if you would like to be considered for a graduate assistantship.

Program Specific Graduate Assistantships

When applicants submit their materials to the program in History, they should indicate their wish to be considered for a Graduate Assistantship. Anyone receiving financial support must be registered as a full-time (9 hours per semester) student and must be making acceptable progress towards degree completion. Renewal of Graduate Assistantships is contingent on such progress. Support is not given for more than two academic years.

Requirements

Program Specific Degree Requirements for the History Master's Program are as follows:

Required Courses

Candidates for the Master of Arts degree are expected to complete the program in 2 years. Graduate Students are required to complete a minimum of 31 credit hours of graduate (5000) level courses. Students must complete 27 hours of coursework, of which at least 24 hours must be in History. Students will work with their advisor to plan the course of study that will include:

(3 credit hours) HIST5880 - History Theory

(12 credit hours) 5000-level, non-dual-listed courses in HIST (excluding HIST 5880)

(12 credit hours) Additional graduate-level course work, of which at least 9 credit hours must be in HIST courses.

(4 credit hours) HIST5960 - Thesis Research

Foreign Language

Students must demonstrate a reading knowledge of a foreign language appropriate to their research. In special cases, other relevant historical tools may substitute for the language requirement upon approval of the thesis adviser and the Graduate Coordinator. Generally, either of the following options may meet the language requirement:

Passing a language exam administered by the Department of History. This must be completed by the end of the first year with the appropriate faculty.

Completing the equivalent of the fourth semester of a language as offered at the University of Wyoming. All courses must be passed with a grade of C or better (may be taken pass/fail).

Thesis

Graduate students will identify two "fields" of study, in consultation with their main advisor: one time/place field (such as Modern U.S. History), and one thematic field (such as Environmental History), both of which correspond to the student's thesis research.

In the spring semester of the first year the student will publicly defend his/her thesis proposal, which must include a written research prospectus and bibliography.

At the end of the second year the student will successfully defend the thesis before an approved Graduate Committee.

International Studies, M.A.

MA students will be able to pursue international, interdisciplinary research in order learn about global problems from a variety of historical, political, social, cultural, and economic perspectives.

Plan A (Thesis)

Students are encouraged to construct, with the adviser's approval, a program that focuses their own intellectual interests and career plans. To promote that end, students should be prepared to file a plan of study with the graduate adviser during the second semester of coursework.

No later than the second semester in residence, each student shall select a graduate committee to oversee his or her academic work. The committee will be chaired by the student's major professor and must have at least one member from outside of The School of Politics, Public Affairs, and International Studies. Students also will prepare a thesis proposal and give a presentation of their preliminary project before the International Studies faculty and complete a thesis prospectus defense with their graduate committee by the end of their second semester.

Students must pass an oral examination at the completion of their program. Normally, examination will center on the thesis, but may also encompass coursework of the candidate.

Required Coursework

Advanced Theory Course

INST5200 - Graduate Proseminar in International Studies Credits: 3-6

Research Methods Course

INST5400 - International Social Science Research Methods Credits: 3

Additional Information

Students take the Plan A (thesis). Students must have a minimum of 26 hours of graded non-thesis coursework and 4 hours of thesis.

Program Specific Admission Requirements

Admission is open to all students holding a bachelor's degree in any major. Foreign students, who are non-native English speakers, must pass the Oral Proficiency Interview (OPI).

Program Specific Degree Requirements

Master's Program

Students must meet three requirements:

Each student must take INST 5400.

Each student must take INST 5200.

Each student must demonstrate proficiency in a foreign language, accomplished in the course of the program or from previous experience or coursework. Foreign language hours do not count toward the M.A. degree.

The program also offers a joint International Studies/Environment and Natural Resources degree. See www.uwyo.edu/sppais for specific degree requirements.

Music Education, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements:

Plan A or Plan B

To earn a Master of Music Education, students must complete the following requirements:

Basic Music Core (11 Hours)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods Credits: 2

Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):

Upper-Division Music History (3-6 Credits):

MUSC4315 - America's Ethnic Music Credits: 3

MUSC4330 - Undergraduate Seminar Credits: 3

MUSC4350 - History and Literature of Jazz Credits: 3

MUSC4651 - String Solo Literature Credits: 3

MUSC4490 - History of Rock and Roll Credits: 3

MUSC5320 - Advanced Seminar Credits: 2-6

Upper-Division Theory (3-6 hours):

MUSC5035 - Advanced Theory Credits: 3

MUSC5340 - Advanced Composition Credits: 1-4

MUSC5350 - Advanced Analysis Credits: 3

Major Area Courses (12-15 Hours)

EDRE5530 - Introduction To Research Credits: 3

MUSC5760 - Music Education Seminar Credits: 2

MUSC5720 - Musical Supervision: Choral Credits: 2

Music education electives Credits: 5-8

Thesis Requirement (0-4 Hours)

Plan A

Four hours (the thesis must be on a music education topic)

MUSC5960 - Thesis Research Credits: 1-12

Plan B

The thesis requirement may be fulfilled under the Plan B paper/lecture-recital as appropriate to the specific degree program. A proposal for a thesis or Plan B paper must be submitted to and approved by the student's graduate committee chair.

Plan B paper, plus extra courses Credits: 0

Electives (4 to 7 Hours)

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Music Performance, M.M.

Each of the degree programs consists of 30 semester hours of work composed of the following elements

Plan B

To earn a Master of Music in Performance, students must complete the following requirements:

Basic Music Core (11 Hours Minimum)

No more than 12 credits can be counted from 4000-level courses toward any graduate program of study.

MUSC5310 - Music Research Methods Credits: 2

Choose a total of at least THREE courses from the following (minimum 9 credits from the following two categories):

Upper-Division Music History (3-6 Credits):

MUSC4315 - America's Ethnic Music Credits: 3

MUSC4330 - Undergraduate Seminar Credits: 3

MUSC4350 - History and Literature of Jazz Credits: 3

MUSC4651 - String Solo Literature Credits: 3

MUSC4490 - History of Rock and Roll Credits: 3

MUSC5320 - Advanced Seminar Credits: 2-6

Upper-Division Theory (3-6 hours):

MUSC5035 - Advanced Theory Credits: 3

MUSC5340 - Advanced Composition Credits: 1-4

MUSC5350 - Advanced Analysis Credits: 3

Major Area Courses (16 Hours Minimum)

MUSC 5480 - MUSC 5670 Private Lessons in major instrument or voice Credits: 8 minimum

MUSC 5700 - MUSC 5890 Ensembles Credits: 2

MUSC5680 - Graduate Recital Credits: 2 A faculty jury must approve a recital given for credit one month prior to the performance. The faculty jury will determine the grade after the performance.

MUSC5390 - Performance Practice and Interpretation Credits: 2

MUSC5320 - Advanced Seminar Credits: 2-6

MUSC 4*** - Pedagogy (instrument specific) Credits: 2

Requirement In Lieu of Thesis

Plan B paper, or 1-hour lecture-recital

Foreign Language Requirement

(voice majors only). Singers must demonstrate acceptable proficiency in singing in Italian, German, French, and English.

Electives (0 to 3 hours)

Require successful completion of the written comprehensive exams, which cover theory, history, and the major area.

Philosophy, M.A.

Program Specific Degree Requirements

Plan A (Thesis)

31 hours of graduate credit

27 hours of graduate coursework

4 hours of thesis research

Proof of proficiency in formal logic (through first-order predicate logic with identity) by either passing the department's course (3420) or some other course judged to be its equivalent with a grade B or better or by completing a test with a grade B or better at the end of the second semester.

First year paper at the beginning of the third semester.

Defense of a thesis prospectus by the end of the third semester.

In any cases of deficiency, the department may require remedial work before admission to M.A. candidacy.

Physics, M.S.

Thesis planning, development, and production guided by the committee chair and graduate committee.

The University of Wyoming Master of Science in Physics program prepares students for a wide range of exciting physics-related careers

Requirements

Plan A (Thesis)

26 hours of graduate coursework, 20 of which must be in PHYS/ASTR at the 5000-level
4 hours of PHYS 5960

Plan B (Non-Thesis)

30 hours of graduate coursework, 24 of which must be in PHYS/ASTR at the 5000-level

Physics, M.S.T.

The Master of Science in Teaching is designed for graduate students preparing to teach in secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education as well as a supervised teaching experience. This program will require a thesis project based on experience in the classroom.

Thesis planning, development, and production guided by the committee chair and graduate committee.

Requirements

Plan A (Thesis)

18 hours from PHYS/ASTR at the 5000-level

12 hours from PSYC or the College of Education at the 4000- or 5000-level

Additional Requirements

The Master of Science in Physics with emphasis in Teaching is designed for graduate students preparing to teach in private secondary schools or in community colleges. It includes a small, carefully designed component in psychology and education, and includes experience as a teaching assistant. Students interested in this program should contact the current advisor, Prof. Tim Slater.

Physics, Ph.D.

During the first two years, students normally take physics and astronomy courses while working with faculty members on one or more research projects. Course work consists of several required courses plus a number of elective courses. Students participate in weekly research seminars and journal clubs to learn about a broad range of current research. By the third year, Ph.D. students begin research work in the area of their dissertation.

Ph.D. candidates demonstrate their competency in basic undergraduate physics and in required graduate courses through a written examination. After passing the written exam, students will take an oral preliminary exam based on a research project they have completed during the first two years. At the completion of the Ph.D. dissertation, a candidate makes a public presentation of his or her work and the committee conducts a final examination to award the degree.

Requirements

42 hours of graduate coursework

30 hours of PHYS 5980 or PHYS 5860. Dissertation planning, development, and production guided by the committee chair and graduate committee.

Tracks:

Physics, Physics Track, Ph.D.

Physics, Astronomy Track, Ph.D.

Additional Requirements

The Physics PhD program educates students to become scholars and researchers in physics. Our graduates are trained to teach and to carry out original research that is theoretical, experimental, computational, or a blend of these approaches.

Political Science, M.A.

Political Science studies how states govern themselves and interact. Subfields include: American politics, comparative government, international relations, political philosophy, public law, and public administration.

Plan A (Thesis)

Graduate Credit

At least 30 hours of graduate credit, to include:

At least 6 additional hours of coursework in political science.
A maximum of 9 hours of coursework in disciplines other than political science.
A minimum of 4 hours thesis research.
A master's thesis demonstrating independent research, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the thesis.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.
INST5200 - Graduate Proseminar in International Studies Credits: 3-6
And
INST5400 - International Social Science Research Methods Credits: 3

Plan B (Non-Thesis)

Graduate Credit

At least 30 hours of graduate credit, to include:

At least 6 additional hours of coursework in political science.
A maximum of 12 hours of coursework in disciplines other than political science.
Plan B paper that reflects the quality but not scope of a master's thesis, written under the supervision of the major professor.
An oral examination conducted by the graduate committee covering all coursework and the Plan B paper.
No more than 6 hours of grades lower than 3.000 may be counted toward the minimum number of hours required for the degree.
Students must maintain a graduate GPA of 3.000.
INST5200 - Graduate Proseminar in International Studies Credits: 3-6
And
INST5400 - International Social Science Research Methods Credits: 3

Psychology, Ph.D.

Doctoral Programs

Clinical Psychology
Social Psychology, Cognition/Cognitive Development, or Psychology and Law

Public Administration (MPA)

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Admissions

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

- 24 hours of core credit,
- 15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.000.

Current Core Courses

Thirty-nine hours of grauate credit, to include:

- POLS5000 - Survey of Public Administration Credits: 3
- POLS5400 - Public Personnel Management Credits: 3
- POLS5410 - Administrative Behavior and Theory of Organization Credits: 3
- POLS5440 - Principles and Processes of Government Budgeting Credits: 3
- POLS5480 - Ethics In Government Credits: 3
- POLS5510 - Public Policy and Program Management Credits: 3
- POLS5684 - Empirical Analysis for Public Administration Credits: 3
- POLS5690 - Capstone in Public Management Credits: 3

Approved Elective Credit

- POLS4052 - Federal Land Politics Credits: 3
- POLS5051 - Environmental Politics Credits: 3
- POLS5420 - Seminar In Public Administration Credits: 3
- POLS5445 - Drug War Geopolitics in the Americas Credits: 3
- POLS5450 - Administrative Regulation Credits: 3
- POLS5460 - Public Administration and Law Credits: 3
- POLS5465 - Survey of the Nonprofit Sector Credits: 3
- POLS5500 - Internship in Public Administration Credits: 1-6
- POLS5530 - USCongress Credits: 3
- POLS5540 - Public Policy Perspectives Credits: 3
- POLS5600 - Political Violence Credits: 3
- POLS5685 - Program Evaluation and Policy Analysis Credits: 3
- POLS5710 - Topics In Political Science Credits: 1-3
- POLS5810 - Seminar in Political Philosophy Credits: 3
- CRMJ4130 - Leadership and Management in the Criminal Justice System Credits: 3
- CRMJ5000 - Survey of Criminal Justice Credits: 3
- CRMJ5100 - Public Policy and Crime Credits: 3
- CRMJ5280 - Comparative Criminal Justice Credits: 3
- CRMJ5500 - Internship in Criminal Justice Credits: 3
- CRMJ5860 - Social Inequality, Crime, Criminal Justice and the Law Credits: 3
- CNSL5060 - Counseling Ethics and Professional Issues Credits: 3

EDRE5530 - Introduction To Research Credits: 3
ENGL4075 - Writing for Non-Profits Credits: 3
STAT5220 - Advanced Design Credits: 3

Public Administration (MPA/JD)

The Master's in Public Administration degree offered at the University of Wyoming is considered an ethics based program where complicated issues of administrative decision making are the hallmarks of professional life.

Admissions

Admission is competitive and is open to all students holding a bachelor's degree in any major. Applicants must have a minimum 3.00 GPA, 2 letters of recommendation, a letter of intent, and a short analytic writing sample. Foreign students, who are non-native English speakers, must also pass the Oral Proficiency Interview (OPI).

Only one class, POLS 5000, may be taken prior to full admission into the program with permission of the MPA director.

Plan B (non-thesis)

Thirty-nine hours of graduate credit, to include:

24 hours of core credit,
15 hours of approved elective credit.

Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits.

Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course documents libraries, working on course projects, and for conducting interactive/electronic class discussion.

Students must maintain a graduate GPA of 3.000.

Current Core Courses

POLS5000 - Survey of Public Administration Credits: 3
POLS5400 - Public Personnel Management Credits: 3
POLS5410 - Administrative Behavior and Theory of Organization Credits: 3
POLS5440 - Principles and Processes of Government Budgeting Credits: 3
POLS5480 - Ethics In Government Credits: 3
POLS5510 - Public Policy and Program Management Credits: 3
POLS5684 - Empirical Analysis for Public Administration Credits: 3
POLS5690 - Capstone in Public Management Credits: 3

Academic Regulations

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA

degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest. Significant administrative experience is required of all M.P.A. graduates. If the M.P.A. student has little or no administrative experience an internship is required and will be included as 3 hours of the required elective credits. Students entering the M.P.A. Program are expected to possess basic computer literacy, and to have access to a computer for such purposes as communicating with professors via e-mail, receiving M.P.A. Program memos, conducting research on the Web, retrieving articles from course. Students must maintain a graduate GPA of 3.000.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

Spanish, M.A.

As a Spanish Masters Student, you will develop your speaking, listening, reading, writing, and presentational skills in Spanish. You will gain a better understanding of perspectives and experiences of Spanish speaking cultures.

Required Courses

Program Specific Degree Requirements

A total of 27 graduate-level course hours are required.

Plus 4 thesis hours.

SPAN4200 - Introduction to Research Credits: 3
SPAN5900 - Practicum in College Teaching Credits: 3
One 5000 level course in SPAN Linguistics Credits: 3
One 5000 level course in SPAN Literature Credits: 3
One 5000 level course outside the department Credits: 3
Spanish elective credits at the graduate level Credits: 12

Graduate-level courses include:

SPAN5070 - Spanish Variation and Change Credits: 3
SPAN5080 - Spanish Advanced Grammar Credits: 3
SPAN5090 - Spanish Phonetics and Phonology Credits: 3
SPAN5100 - Hispanic Thought Credits: 3
SPAN5110 - Peninsular Spanish Literature Credits: 1-3
SPAN5120 - Spanish American Literature Credits: 1-3
SPAN5130 - Masterpieces of Spanish Renaissance Literature Credits: 3
SPAN5140 - Masterpieces of Spanish Baroque Literature Credits: 3
SPAN5150 - Spanish Romanticism Credits: 3
SPAN5160 - Graduate Readings Credits: 1-5
SPAN5170 - Special Problems Credits: 1-2
SPAN5180 - Advanced Cultural Studies in Hispanic Lit/Media Credits: 3
SPAN5190 - 20th and 21st Century Spanish- American Texts Credits: 3
SPAN5260 - The Realist Novel in Spain Credits: 3
SPAN5990 - Internship Credits: 1-12

Total: 31 Hours

Zoology and Physiology, M.S.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Plan A (Thesis)

Includes 26 hours of coursework and 4 hours of thesis research.

Applicants should have at least 20 semester hours of undergraduate work in zoology, physiology, or other areas of the biosciences and have completed introductory courses in mathematics, chemistry, and in at least one other natural or physical science. Early in the second semester the student must file a program of study with the university and have a graduate committee appointed. Plan A candidates shall orally defend the thesis before the graduate committee.

All M.S. candidates will be required to complete credit in two graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

After two semesters in the department, a Plan A master's candidate may request permission from the department's graduate advisory board to proceed directly to the Ph.D. degree; however, such a bypass is granted only by the department head after considering recommendations from the graduate advisory board.

Zoology and physiology may be used as a field by a candidate working for the interdisciplinary master of science in natural science in the College of Arts and Sciences and the College of Education.

Plan B (Non-Thesis)

Includes 30 hours of coursework.

The program for the Plan B is established by the student and a faculty adviser and must be approved by the department head during the student's second semester or summer session.

The graduate committee will require the candidate to take a written examination. An oral examination may also be required. The final examination is comprehensive, covering all areas of zoology, but emphasizing one major area.

Zoology and Physiology, Ph.D.

Advanced-degree students in Zoo/Phys experience collaborative, interdisciplinary approaches to basic and applied questions. Work spans molecules to ecosystems, with training in fields including physiology, ecology, evolution, fisheries, and wildlife.

Additional Information

This is a 72 hour program.

A Ph.D. applicant must have 20 hours of undergraduate work in zoology, physiology, or other areas of biology and also have completed substantial undergraduate work in other sciences. Under exceptional circumstances, a student with an undergraduate

major in a scientific discipline other than biology may be admitted. After the Ph.D. student has completed two semesters of graduate work, s/he must be approved for continued work toward the doctorate by the graduate advisory board. This board can reconsider a candidate thereafter if it so desires.

A graduate committee shall be appointed for the individual student no later than the third semester. After consultation with the student, this committee will prescribe special requirements (courses, minors, research tools, etc.) that must be fulfilled. At this time, the graduate committee shall consult with the candidate on the proposed research and shall identify the subject matter areas to be included in the preliminary examination. The preliminary examination will consist of a written research proposal, its oral defense, and a written and oral preliminary examination. When training outside zoology and physiology is specified by the committee, certification of satisfactory completion of the requirement will be made by the appropriate department.

In addition to the general university requirements for the Ph.D. degree, the department requires the following:

The coursework program should include work in a discipline outside the department, generally in the sense of a minor, to be identified in consultation with the graduate committee.

The preliminary examination consisting of written and oral portions should be taken no later than midterm of the fourth semester in residence. The graduate committee will certify satisfactory performance for the preliminary examination.

The dissertation must be received by each member of the graduate committee three weeks before the final dissertation seminar. As oral defense of the dissertation, the candidate will deliver a formal 50 minute seminar on original research from the dissertation. The seminar will be followed by an examination by the graduate committee.

Some time during their degree program, all Ph.D. candidates will be required to complete credit in three graduate seminars. A student may enroll in more than one of these required seminars during one semester or academic year.

All candidates for the Ph.D. degree shall be required to teach for one semester during their program.

The dissertation may be written in a format suitable for publication in a journal and the usual extensive literature review, description of study sites, technical details, raw data, supporting figures, charts, and photographs should be included in a well-organized appendix. (See also format requirements by the university.)

Certificate

American Studies Certificate

The certificate program allows students to choose from undergraduate and graduate courses in American Studies, literature, geography, music, art, history, philosophy, sociology, folklore, anthropology, Native American and Indigenous studies, political science, environmental studies, and media studies.

The program encompasses two semesters of full time work: a total of at least 24 semester hours, or approximately 8 courses. Of these, 6 credit hours (2 courses) must be selected from the following list:

Requirements

AMST2010 - Introduction to American Studies Credits: 3

Any AMST course at the 4000- or 5000-level Credits: 3

An additional 18 hours (6 courses) are chosen in consultation with an American Studies faculty adviser. The final 3 credit hours, completed during the summer months, are devoted to an internship (AMST 4970) or field experience in American culture (AMST 4900).

Audio Technology Certificate: 12 Credits

The Audio Technology Certificate provides a basic understanding of audio principles and practical hands-on experience that allows one to enter the commercial music work force with a marketable skill set. Students will learn how to record and manipulate recorded sounds as well as provide live sound reinforcement for live concerts or events. A certificate may be pursued on its own or in conjunction with any university degree program.

Required Courses

MUSC4360 - Fundamentals of Audio for Music Production Credits: 3

MUSC4365 - Recording Art and Technology Credits: 3

MUSC4370 - Live Sound Reinforcement Credits: 1

MUSC4990 - Topics in: Credits: 1-12

Audio Technology Practicum/Internship

Teachers of American Indian Children (TAIC) (Teaching) Endorsement/UW Certification

Through Distance Education, a Teachers of American Indian Children (TAIC) Endorsement / Graduate Certificate can be earned. This non-degree graduate program certifies that those who complete its five specialized courses possess the attitudes, knowledge, and competence necessary to effectively teach American Indian Children. Upon completion, students receive official recognition of their achievement on their transcripts and an official certificate. Visit the Distance Education Degrees and Programs Website www.uwyo.edu/distance/ for more information. All courses are cross-listed with NAIS and EDCI.

An interdepartmental Native American and Indigenous Studies Advisory Committee guides the program's development. The director advises students selecting the NAIS studies major or minor.

Complete information about the Native American and Indigenous Studies undergraduate major, undergraduate minor, and graduate minor is available in the NAIS Program office and on the program Website.

Endorsement/Certificate

Art Entrepreneurship Certificate: 12 Credits

This certificate provides a basic understanding of marketing principles specific to the arts with practical hands-on experience that allows one to enter the workforce with a marketable skill set in the areas of art promotion and management.

Required Core Courses (All Emphases)

MUSC4001 - Music Entrepreneurship Seminar Credits: 2

ENTR2700 - Entrepreneurial Mindset Credits: 3

Choose one of the following:

MGT2100 - Management and Organization Credits: 3

OR

MKT2100 - Introduction to Marketing Credits: 3

The internships below are variable, 1-2 credits, depending on department. Please see individual advisors for exact hours.

Music Emphasis

MUSC4000 - Careers in Music Credits: 2
MUSC4005 - Internship in Music Business Credits: 1

Visual Arts Emphasis

ART4600 - Professional Practices and Strategies Credits: 3
ART4400 - Internship Credits: 1-3

Theater and Dance: Dance Emphasis

THEA4700 - Auditioning and Careers in Dance Credits: 1
THEA4975 - Theatre/Dance Internship Credits: 1-12

Theater and Dance: Design/Tech Management Emphasis

THEA3850 - Design and Technology Seminar Credits: 2
THEA4975 - Theatre/Dance Internship Credits: 1-12

Theater and Dance: Performance Emphasis

THEA4720 - Auditioning and Professional Issues Credits: 3
THEA4975 - Theatre/Dance Internship Credits: 1-12

Other Programs

Life Sciences

Life Sciences Program

107 Aven Nelson Building, 766-4158 Web site: www.uwyo.edu/lifescience

Program Director: Jonathan Prather

The Life Sciences Program consists of all LIFE prefix courses. These courses support a wide range of life science majors and several non-life science majors across campus. The number of LIFE courses taken by students in each major is determined by the departments that offer the majors. The curriculum intends to provide science majors with both breadth and depth in the basic life sciences, and nonscience majors with exposure to key concepts in biology and an understanding of the connections between science and society. The program courses also expose students to the fields of cell and molecular biology, genetics, ecology, and evolution, and they familiarize students with the diversity of life on the planet. Courses within the curriculum address four fundamental goals at a level appropriate for each course: 1. Acquisition, Application and Synthesis of Knowledge 2. Communication Skills 3. Critical Thinking and Problem Solving 4. Research Skills The Life Sciences courses listed below were previously offered under the BIOL prefix. All courses listed below are now offered through the LIFE prefix.

College of Business

310 Business Building

Website: <http://business.uwyo.edu>

Phone: (307)766-4194 **FAX:** (307)766-4028

Peter M. and Paula Green Johnson Student Success Center (307) 766-8249

The College of Business prepares students for careers by providing quality education in business disciplines, creating and disseminating knowledge, and assisting in Wyoming's economic development. The College of Business expects the highest level of integrity from our administration, faculty, staff, students, and alumni.

The College of Business grew from roots established in 1899 when the UW School of Commerce was founded. While the programs offered have changed over the years, the college remains firmly committed to academic excellence and positive student experiences.

The college has three academic departments: accounting and finance; economics; and management and marketing. The college also houses the College of Business Peter M. and Paula Green Johnson Student Success Center which is instrumental in maintaining the college's link with the business world.

These units are committed to preparing all College of Business students to enter our rapidly-changing world. Successful graduates are fully prepared to compete in their chosen professions or in graduate school. More importantly, they are well-educated individuals prepared to live fulfilling lives, and to meet the challenges presented by the complex ethical, moral and cultural contexts of our times.

College of Business Learning Outcomes

The College of Business expects that its graduates:

- Will be competent in their field of study
- Will be effective problem solvers
- Will be ethical
- Will be professional
- Will be effective communicators

AACSB Accreditation

The business degree programs offered by the College of Business are accredited by AACSB-International. AACSB standards ensure that College of Business students are provided comprehensive, high-quality, well-rounded degree programs. The "Common Body of Knowledge" and the "Advanced Business Standing" (ABS) as described on the following pages have been developed to meet the AACSB accreditation standards.

A minimum of 50% of COB courses required for the major must be taken from the degree-awarding institution.

Programs of Study

Undergraduate Degrees

BSB - Bachelors of Science in Business

BSE - Bachelors of Science in Economics

The Majors are as follows:

Accounting (BSB-ACCT)
Business Economics (BSB - CBEC)
Entrepreneurship (BSB - ENTR) ·
Finance (BSB - FIN)
Management (BSB - MGT)
Marketing (BSB - MKT)
Professional Sales (BSB - SELL)
Economics (BSE - ECON)

The Minors are as follows:

Banking and Financial Services Minor
Blockchain Minor
Data Analytics Minor
Economics Minor
Entrepreneurship Minor (for nonbusiness students only)
Hospitality Business Management Minor
Leadership Minor
Professional and Technical Selling Minor
Real Estate Minor

Graduate Degrees

Master of Science

Accounting, M.S.
Economics, M.S.
Finance, M.S.

Business Administration, M.B.A.

Business Administration, Online, M.B.A.

Doctor of Philosophy

Economics, Ph.D.
Marketing, Ph.D.

Certificate Programs

Certified Financial Planning Certificate (Graduate)
Energy Business Certificate (Graduate)

Student Services

Academic Advising

All College of Business undergraduate students are advised by professional academic advisers in the College of Business Peter M. and Paula Green Johnson Student Success Center. Advising can be reached by e-mail (success@uwyo.edu) or by phone (307-766-8249).

Career Services

The Career Services unit connects students and employers in ways that lead to meaningful experiences and job opportunities. Business students are encouraged to explore career options and grow their career readiness by completing the Pokes Professionalism Badge and engaging in multiple internships. Students also have the option to apply for local, national, and

international internships starting their first year and may be able to receive credit for their work. Networking with employers is highly encouraged and offered through a series of fairs, events, and in-class projects. One-on-one assistance and workshops are also available to students for things such as: internship or job searching; resume creation, review, or targeting; and career coaching or counseling. Individual appointments may be scheduled by email (success@uwyo.edu) or by phone, (307) 766-8249.

Student Responsibilities

College of Business students are responsible for knowing and meeting requirements for graduation. In addition to degree requirements, all College of Business students must complete the advanced business standing requirements prior to enrollment in most upper-division (3000/4000-level) College of Business courses (see Advanced Business Standing (ABS) Prerequisites section).

All students must have already completed any prerequisites listed (in addition to ABS for COB students), including having the appropriate class standing. Students not meeting the prerequisites are identified and administratively dropped from those courses each semester.

Requirements for the Bachelor of Science Degree

Candidates for the Bachelor of Science degree in the College of Business must meet university, college, and departmental requirements. Degree candidates for the B.S. degree in the College of Business also must have a minimum 2.500 cumulative University of Wyoming (UW) grade point average and a 2.500 grade point average in College of Business courses at the time of graduation. In addition, economics majors also must hold a minimum 2.500 grade point average for all economics courses. College of Business degree candidates must earn a minimum of 120 semester hours depending on major including:

I. University Studies Requirements:

All first year students who enter the University of Wyoming (UW) and students who enter a Wyoming Community College (CC) are required to meet the USP 2015 requirements for graduation. Wyoming CC students transferring to UW with an Associate of Arts or Associate of Science degree will have course work evaluated per the General Education Articulation Agreement between the University of Wyoming and Wyoming Community Colleges. Non-resident transfer students and Wyoming CC transfer students without an associate's degree will have course work evaluated on a course-by-course basis, based on all approved USP courses. Academic advisers will help students select the appropriate courses to satisfy university studies requirements. Some College of Business requirements also meet university studies requirements.

A. Basic skills (USP 2015) Hrs.

1. First-year seminar (FYS) Choose from list of approved courses, Credits: 3
2. Writing
 - a. USP Communication 1 course, Credits: 3
 - b. USP Communication 2 course- Mid-level communication or 2000-4000-level communication intensive course-Choose from list of approved courses, Credits: 3
 - c. USP Communication 3 course- Upper-level communication or 3000-4000-level communication intensive course, Credits: 3
3. Physical and Natural World (PN) (Two courses required-choose from list of approved courses), Credits: 6
4. Human Culture (H) (Two courses required-choose from list of approved courses), Credits: 6
5. U.S. and Wyoming Constitutions (V), Credits: 3

6. Quantitative Reasoning (Q), Credits: 3

II. Electives

The number of hours of elective credit and upper-division (3000-/4000-level) credit varies by department. Economics majors will take 48-51 hours of free electives. A maximum of 6 credit hours each at the freshman/sophomore and junior/senior-level military science courses may be applied to degrees in the College of Business.

A. Non-Business electives Hrs

1. Non-Business electives. May include MATH 1400, Credits: 3-9

B. Free electives Hrs.

1. Free electives from any college. May require upper-division (3000/4000-level) courses, with the total number of credits needed dependent on major.

Students **may not** take courses for S/U (satisfactory/unsatisfactory) credit to satisfy university studies or college requirements, course requirements in the major, or courses outside the college required by the major department curriculum.

III. Advanced Business Standing: (excludes Economics majors)

College of Business majors must satisfy the following advanced business prerequisites prior to enrolling in most upper-division (3000- /4000- level) College of Business courses:

1. Achieve junior standing by completing a minimum of 60 earned semester hours;
2. Complete 10 specific courses with a grade of C (not C-) or better in each. These ten courses are: ECON 1010 and 1020, USP Communication 1 and 2 courses, ACCT 2010 and 2020, IMGT 2400, MATH 2200 and 2205 or MATH 2350 and 2355 and STAT 2050 or 2070.
3. Achieve a cumulative UW institution grade point average or transfer grade point average of at least 2.500. Note: Transfer grades are not counted in the UW GPA (see UW Catalog http://www.uwyo.edu/registrar/university_catalog/grade.html for additional information). Transfer students who have not attended the University of Wyoming, and therefore do not have an established UW institutional/cumulative GPA, and who have completed the required ten (10) courses with a C or better, have 60 earned credit hours, and have a 2.500 cumulative TRANSFER GPA will be awarded ABS.

IV. Common Body of Knowledge: (excludes Economics majors)

College of Business majors take a common set of courses that expose them to the basic concepts, processes and technical skills necessary to complete a well-rounded high quality business education. The common body of knowledge includes ACCT 2010, ACCT 2020, DSCI 2100, ECON 1010, ECON 1020, FIN 2100, IMGT 2400, MGT 2010, MGT 2100, MKT 2100, and MGT 4800. Grades of C (not C-) or above required.

V. Minimum requirements:

Achieve a cumulative College of Business and UW institution grade point average of at least 2.500. Complete 50% of the business credit hours from UW. Earn grades of C or above in common body of knowledge and major specific core courses. Earn a passing score on the Senior Exit Exam required for all College of Business majors.

Requirements for Non-College of Business Majors

Students in non-College of Business majors who wish to enroll in College of Business upper-division courses need not meet the advanced business standing prerequisites. However, they are required to meet individual course prerequisites listed in the University Catalog, including class standing.

Acceptance of Transfer Credit

The College of Business complies with UW policies regarding transfer credit discussed in the front section of this bulletin. The college has special course transfer arrangements with Wyoming community colleges that allow some courses taken at community colleges at the lower-division (freshman-sophomore) level to transfer for upper-division (junior) credit. Wyoming community college transfer students should contact the GJSSC for details.

Students transferring from other AACSB accredited colleges and universities will have their courses reviewed for transfer on a course-by-course basis.

The College of Business does not accept transfer credits for COB courses with equivalents at UW when the grade earned was less than a C.

Where appropriate, College of Business course equivalency will be granted for transfer courses at the 3000 and 4000 level if such coursework was completed at an AACSB or EQUIS institution only. Any coursework completed at an institution that does not meet that qualification will not be considered for upper division equivalency.

The UW College of Business is AACSB accredited and therefore follows AACSB's current guidelines* to maintain accreditation.

The primary goal of this transfer policy is to ensure coursework accepted from other institutions is comparable to coursework required by our college's degree programs and ensure that the majority of learning is completed at the institution awarding the degree while simultaneously allowing measured flexibility in acceptance of transfer credits as allowed by AACSB accreditation in support of student progress and degree completion.** For example, at the time of this policy's creation, the number of business credit hours for the College of Business's undergraduate majors is fifty-four (54) credit hours (this includes the business common body of knowledge courses). Therefore, to align with AACSB standards, a minimum of twenty-seven (27) credit hours of business coursework in the major must be earned in residence at the University of Wyoming.

In addition to the transfer policies defined in the University of Wyoming catalog, the College of Business has established the following policies in support of AACSB Standards governing the transfer of credit for equivalent business courses. Courses will be considered for transfer according to the additional criteria below. Students may transfer up to a total of twenty-seven (27) hours of business credits, either solely lower division courses or a mix of lower division and upper division courses, as follows:

Students may transfer up to twenty-seven (27) lower division (1000/2000 level) business credits to the Common Body of Knowledge.

Lower division courses from regionally accredited institutions will be evaluated for equivalency and approved by the UW Office of the Registrar on an annual basis.

Students may transfer up to nine (9) upper division (3000/4000 level) business credits according to the following guidelines:

Transferring upper division business credits to be included in the twenty-seven (27) credits reduces the number of lower division credits a student is able to transfer.

Courses from AACSB/EQUIS accredited institutions will be evaluated for equivalency and approved by the College of Business.

Courses from regionally accredited, non-AACSB/EQUIS institutions will be accepted as upper division elective credit in accordance with the transfer policies defined in the University of Wyoming catalog.

The College of Business has collaborative provisions (detailed in separate articulation agreements) that allow students from Wyoming's community colleges to transfer up to nine (9) credit hours of 2000 level coursework to satisfy up to nine (9) credit hours of 3000 level coursework that has been evaluated by the College of Business. These courses will be evaluated annually for equivalency***.

* A requirement of the accreditation process (as reflected in Standard 6 of the 2020 Business Standards) is for accredited colleges to have clear policies regarding transfer coursework.

** As noted by AACSB: "transfer credit related to business disciplines is normally limited to no more than half of the program requirements" (2020 AACSB Standards, p. 13).

*** Per college-specific articulation agreements, students may be able to transfer coursework satisfying completion of the following courses: ACCT 3070, ACCT 3230, ACCT 3240 or ACCT 3430.

Accounting, Management, and Marketing Online Programs

The College of Business offers the opportunity to pursue online degree programs in the areas of accounting, management, and/or marketing accredited by *AACSB* and delivered through distance education. These online delivery programs are designed to help students maximize their flexibility in the business world.

The online accounting, management, and marketing degrees are offered almost in their entirety through the University of Wyoming, with the exception that students must have taken MATH 2350/2200 and MATH 2355/2205 through another institution as they are not offered online consistently through UW. The University of Wyoming College of Business works closely with our Wyoming community college partners to assist students in taking and transferring these math courses and other courses that align with our curriculum. Students are able to take a variety of transferable 1000 and 2000 level courses from Wyoming Community Colleges, in consultation with academic advisors, and then complete their upper division coursework from the University of Wyoming.

Students will be required to apply to UW and meet UW admissions criteria prior to enrolling in any College of Business program. Students must also attain a 2.500 GPA for graduation for both College of Business and UW courses, complete and submit an anticipated graduation date form, and must pass the Senior Exit Exam (BUSN 4990) to graduate.

To ensure you the availability of required courses in this program, enrollment into courses is managed and approved by the College of Business Peter M. and Paula Green Johnson Student Success Center.

College of Business Minors

Minors are available to on-campus students through the College of Business in the areas of banking and financial services, blockchain, data analytics, economics, entrepreneurship (not available to College of Business majors), hospitality business management, leadership, professional and technical selling, and real estate. Minors requirements may often be met by simply focusing the elective credits available in a student's major.

The minors program consists of course requirements of 15 hours of study. A minimum grade of C must be earned in each course. Certification of a successful minor program completion occurs as part of the DegreeWorks progress report, and the Office of the Registrar notes the completion of the minor on student transcripts. Minors must be approved by the Peter M. and Paula Green Johnson Student Success Center.

Students must have a minimum 2.500 cumulative UW GPA. Students must maintain a cumulative 2.500 GPA in the required College of Business courses for the minor to be awarded. Non-College of Business students must meet the individual course prerequisites listed in the catalog, although they need not meet the advanced business standing requirements. A minimum of 50% of COB courses must be taken from the degree-awarding institution.

Cooperative Undergraduate Programs

The Concentration in Environment and Natural Resources

College of Business majors may earn a cross major in Environment and Natural Resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for business. Exposure to ideas, skills and sensibilities in these areas is critical to future business people. Students majoring in economics may elect an environment and natural resources concentration in which an economics approach to problem solving is stressed. For more information call the ENR office at (307) 766-5089.

Graduate Study

The College of Business is comprised of three academic departments: accounting and finance, economics, and management and marketing. The faculty of these departments cooperate in the presentation of graduate work leading to the following degrees:

Master of Business Administration

Master of Science in Accounting

Master of Science in Economics

Master of Science in Finance

Doctor of Philosophy in Economics

Doctor of Philosophy in Marketing

The College of Business faculty is firmly committed to the excellence of its graduate programs. The graduate programs in the College of Business are accredited by AACSB International. The three academic departments coordinate course offerings to support all of the graduate degree programs; the M.B.A. program in particular is a college-wide effort.

Cooperative Graduate Programs

The Concentration in Environment and Natural Resources

College of Business graduate students may earn an interdisciplinary minor in environment and natural resources (ENR) in cooperation with the UW School of Environment and Natural Resources. The appropriate use of natural resources and awareness of environmental consequences of decisions have become major issues for all areas of business and economics. The School of Environment and Natural Resources is designed to move beyond the strictly disciplinary design and management of their long-term solutions. The school seeks to attract outstanding graduate students from a variety of disciplines, who are eager to pursue careers that engage other professionals, policymakers, and the public in finding innovative ways to resolve complex environmental and natural resource issues. To pursue a minor in ENR, students must first be admitted to another master's or doctoral degree program offered at the University of Wyoming. For more information call the ENR office at (307) 766-5080.

Major

Accounting

The Accounting major prepares students for a career within the profession by providing them with the skills to create, interpret and analyze economic and financial information while focusing on assurance, financial and tax services.

ACCT3100 - Financial Statement Analysis Credits: 3

ACCT4960 - Volunteer Income Tax Assistance Credits: 1-3

Advanced Business Electives: 6 Credits

Any business courses at a 3000+ level that have not been used to meet any other primary major requirements.

Free Electives from Any College: 18 Credits

Courses from any college at any level that have not been used to meet any other primary major requirements.

A complete curriculum sheet is available from the College of Business Peter M. and Paula Green Johnson Student Success Center in the College of Business Building.

Please Note:

All accounting courses for the major require a minimum grade of C. In addition to university and college requirements cited previously, requirements for accounting majors are listed above.

Students who anticipate preparing themselves for the CPA examination following completion of their degree should be aware of the Wyoming statute governing eligibility to sit for the exam. Please see the state board's web site for information: cpaboard.state.wy.us. The current combined curricula (B.S. and M.S.) enable students to satisfy the educational requirements to sit for the CPA exam in Wyoming and other jurisdictions.

Business Economics

Economics is the science of decision making and how to create value through trade. An business economics degree will provide you the tools to work on challenging policy issues and employ data analytics to address those issues.

Courses from any college at a 3000+ level - Credits: 6

Additional Requirements

All Business Economics majors must comply with requirements of the advanced business standing prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

A complete curriculum sheet is available from the Academic Advising unit of the GJSSC in the College of Business Building.

Business Economics majors must hold a 2.500 cumulative grade point average in all economics courses at graduation, as well as a minimum 2.500 cumulative UW grade point average and a minimum 2.500 grade point average in all College of Business courses.

With approval of the department chair or director of undergraduate studies, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of 4000-level economics courses.

Students who intend to continue on to graduate work are urged to give special attention to courses in economics theory, statistics and mathematics. Those planning a career in econometrics or mathematical economics should consult the department head as to mathematics and statistics requirements in these fields of study.

Economics

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

STAT4015 - Regression Analysis Credits: 3

STAT4025 - Design and Analysis of Experiments I Credits: 3

Students will need Free Electives from any college at a 3000 + level - Credits: 15

Free Electives from Any College: 33 Credits

Courses from any college at any level - Credits: 33

Additional Requirements

The Economics major in the College of Business must complete 30 semester hours in economics courses.

All Economics majors must comply with course specific prerequisites for enrollment in upper-division courses and must complete all university studies courses as listed above previously. Students must earn a minimum grade of C (not C-) in all Economics courses.

This program is designed to meet the requirements of AACSB International (the Association to Advance Collegiate Schools of Business), the University of Wyoming, and the College of Business.

Minimum requirements include:

Minimum of 42 semester hours of 3000+ level courses. 30 of the 42 hours must be earned from UW.

2.50 grade point average in all College of Business courses, Economics courses, and all institution (UW) courses.

50% of the business credit hours must be from the University of Wyoming.

Grade of C (C- not acceptable) or above required for University Studies Program: FY, C1, C2, and C3.

Grade of C (C- not acceptable) or above required for common body of knowledge and major specific core courses.

A maximum of 6 hours at the 1/2000 level and 3/4000 level military science may be applied to degrees in the College of Business.

A complete curriculum sheet is available from the College of Business Peter M. & Paula Green Johnson Student Success Center.

With approval of the department chair, students may substitute work in certain areas of accounting, agricultural economics, business administration, history, political science, finance, mathematics, statistics or law for 6 hours of the 4000-level economics electives.

This program allows considerable flexibility for the student to specialize in interdisciplinary study. For example, the student can be advised on selecting upper level division courses for pre-law study, political economy, environmental and natural resources, women's studies, and international studies.

Students who intend to continue in graduate work should give special attention to courses in economic theory, statistics and mathematics. Those planning a career in mathematical economics or econometrics should consult the department head regarding the mathematics and statistics requirements in these fields of study.

Entrepreneurship

For students who wish to start their own businesses, provides exposure to the development and testing of business concepts, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures.

Courses from any college at 3000 - 4000 level - Credits: 21 (or 24*)

** If MGT 2030 is selected as the Entrepreneurship Elective*

Additional Requirements

The Entrepreneurship major is designed to assist students who wish to start their own businesses by providing them with exposure to the development and testing of business concepts. Analyzing the potential success of their concepts using a variety of tools and techniques, being flexible in developing new businesses and innovative ideas, and formulating and implementing business plans that will assist in the establishment and growth of these new ventures. The major provides students with exposure to issues involving family firms such as governance, succession and interpersonal relationships in both new ventures and established firms and prepares students to 1) start new businesses, 2) innovate in their own family firms and/or 3) be entrepreneurial in an existing business.

Finance

The Finance major provides the principal concepts for students to understand financial management of business concerns and, if students desire, to specialize in bank management, corporation finances and investment management.

Additional Requirements

The Management major focuses on using resources to achieve goals in organizations. It studies the activities and operations that bring together human, financial, material, and information resources. Management majors should graduate with an understanding of the business world and a set of tools to manage successfully parts or all of an organization's operations. The Management degree allows students the ability to customize their degree within one of two tracks:

1) Human Resources Track - An experiential-learning focused program designed to prepare students to develop and manage the human capital of an organization. Students will be prepared to develop and implement policies and practices for recruitment, socialization, training, development, compensation, performance management, career planning, and employee relations. As more organizations move away from viewing employees as a commodity, toward an understanding that employees are a resource that can be developed into a distinct competitive advantage to ensure organizational success, sustainability, and reputation in the human resource function in the workplace will become increasingly important. This track will help employees understand the core functions of the area of human resource management are to a) recognize the potential of individuals for and within an organization and b) structure a positive, supportive, constructive work environment that will enable employees to work at their optimal capacity and achieve organizational goals.

2) General Management Track - A multi-faceted program designed to prepare students to manage multiple business functions across a variety of organizational types. A particular emphasis is to help develop interpersonal and problem-solving skills so they are capable of resolving a broad spectrum of problems for large or small organizations, or consult with organizations about these issues. This track is designed to provide students with a large degree of flexibility when considering different career paths, because students will be prepared to systematically think through the processes that organizations use to create and maintain

sustainable competitive advantage. The track prepares students to work in for-profit businesses, non-profit organizations, entrepreneurial ventures, or in government organizations.

The Management major, including both tracks, is available to students as an online degree completion program.

All management majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All management courses for the major require a minimum grade of C (not C-).

Marketing

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers, and for managing relationships in ways to benefit local and global stakeholders.

Advanced Business Electives: 6 Credits

Any business courses at a 3000 - 4000 level that have not been used to meet any other primary major requirements.

Free Electives from Any College - Credits: 27

Courses from any college at any level - Credits: 9
Courses from any college at a 3000 - 4000 level - Credits: 18

Additional Requirements

Marketing is a societal process and a set of organizational functions for creating, communicating, and delivering value to customers, and for managing relationships in ways to benefit local and global stakeholders. Marketing majors are employed in a wide variety of industries and governmental agencies where understanding and managing customer relationships are critical. Students find jobs in market research, advertising, public relations, professional selling, non-profit marketing, product management, retailing, digital marketing, and brand management.

The Marketing major is available to students as an online degree completion program.

Professional Sales

Prepares students to manage business clients of for-profit and nonprofit organizations. Rigorous classroom experiences and industry opportunities equip students with essential knowledge and skills required to begin professional careers in sales.

Requirements - Total Credits: 120

Courses from any college at a 3000 - 4000 level - Credits: 18

Additional Requirements

The Professional Sales major prepares students to manage business clients of for-profit and nonprofit organizations. Specifically, this major provides business students with coursework and opportunities to equip themselves with essential knowledge and skills required to begin professional careers in sales. Careers in sales offer independence, ample financial reward, personal growth and opportunities for rapid advancement within organizations. Students that pursue a degree in professional sales will be challenged with industry engagement opportunities such as internships, and sales competitions. Students experience rigorous classroom experiences designed to develop the knowledge and practical skills needed to succeed during the first years of their sales careers including: oral and written communication skills, selling techniques and networking, the use of sales technology and customer information, and sales pipeline management.

All professional sales majors must comply with requirements of the advanced business prerequisites for enrollment in upper-division courses and must complete the common body of knowledge courses as listed previously.

All professional selling courses for the major require a minimum grade of C.

Minor

Graduate

Accounting, M.S.

Students who wish to become professional accountants will find the online MS in Accounting degree to be one that enables them to develop both the personal and professional skills needed to enjoy a productive career.

Additional Requirements

The objectives of the master of science in accounting are:

- To provide students with an advanced understanding of the field of accounting,
- To provide students with specific advanced knowledge in selected sub-topics within accounting,
- To provide students with professional skills that will enable them to enjoy productive and rewarding careers in accounting and accounting-related areas.

The program consists of a minimum of 30 semester credit hours of graduate coursework. Students must complete coursework in accounting and elective business and/or non-business courses as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level accounting or non-accounting courses (approximately six total credit hours). Non-accounting courses should be selected in consultation with the student's graduate adviser. Non-accounting courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

Core Accounting Courses

Students must take these 4 core accounting courses (minimum 12 credit hours):

ACCT5030 - Advanced Financial Accounting Credits: 3
ACCT5040 - Seminar in Managerial Accounting Credits: 3
ACCT5060 - Auditing II Credits: 3
ACCT5070 - Tax II Credits: 3

Required Accounting Elective

Students must take one of the following courses:
ACCT5065 - Fraud Examination Credits: 3
ACCT5066 - Seminar on Management Fraud Credits: 3

Note(s):

NOTE: ACCT 4060, ACCT 4900, ACCT 5000, and ACCT 5940 are not applicable to M.S. accounting students' programs of study.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If a 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS Accounting program and the University of Wyoming.

Students must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Business Administration, M.B.A.

The UW MBA program offers a 1-Year Early Career MBA tailored to those looking to gain the needed experience and business insights required in today's competitive marketplace.

Additional Requirements

Thirty-six (36) credit hours of graduate coursework, including participation in all MBA Program activities (orientation, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development, Experiential Leadership Program, etc.). Please note that students enrolled in any dual degree MBA program are required to complete all MBA participation activities and the core coursework.

This is a cohort based program and while the course sequence is highly structured, there may be the opportunity to extend the duration of the one-year program. Course sequence is subject to change at the discretion of the MBA Director. Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (27 Credit Hours)

Required of all MBA students including all dual degree students.

MBAM5101 - MBA Foundations Credits: 1

MBAM5104 - Organization Behavior and Human Resource Management Credits: 3
MBAM5202 - Data and Decision Modeling Credits: 3
MBAM5204 - Financial Management Credits: 3
MBAM5208 - Managerial Accounting Credits: 3
MBAM5207 - Marketing Management Credits: 3
MBAM5102 - Operations Management Credits: 3
MBAM5330 - Global Business Environment Credits: 3
MBAM5107 - Decision Making I Credits: 1
MBAM5209 - Decision Making II Credits: 1
MBAM5305 - Strategic Management Credits: 3

MBA Elective Requirements

MBA-MBA students, including dual degree students, must take an additional 9 credit hours of 4000 or 5000 level College of Business courses. Dual degree students (JD/PharmD/MS) may take 3 credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

**Note: A maximum of 12 credit hours may be taken at the 4000 level for graduate credit.*

Business Administration, Online, M.B.A.

The Online MBA Program is specifically designed for business professionals interested in a fully AACSB accredited, 100% online program that fits their busy schedules and enhances their understanding of decision-making in the workplace.

Additional Requirements

30 credit hours of graduate credit as outlined in the Course of Study.

Concentration Available: Energy (EMN)

Optional Certificate Add-Ons: CFP (certified financial planning) or Energy Business. Adding on a certificate may increase required number of credit hours. Please contact us for additional information.

This is a cohort based program that can be flexible in sequence depending on student needs. Course sequence is subject to change at the discretion of the MBA Director.

Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student will be immediately dismissed from the program.

Prerequisite Courses

Prerequisite coursework may be requested based on experience and undergraduate coursework at the discretion of the MBA Program Director as part of the application process. Please contact the MBA & Professional Graduate Program Office for additional information.

Academic Requirements

Students must maintain a cumulative GPA of 3.000 in the MBA Program to remain in "good standing". If a student's GPA falls below 3.000, he or she is automatically placed on academic probation; the student must raise their cumulative GPA to 3.000 the following semester to avoid dismissal from the program. Other requirements involving program dismissal include:

A student who earns a grade lower than a "C" in any course may be immediately dismissed from the program.

Course of Study

MBA Core Requirements (21 Credit Hours)

Required of all MBAX students.

MBAX5104 - Organizational Behavior and Human Resource Management Credits: 3
MBAX5202 - Data and Decision Modeling Credits: 3
MBAX5204 - Financial Management Credits: 3
MBAX5208 - Managerial Accounting Credits: 3
MBAX5207 - Marketing Management Credits: 3
MBAX5330 - The Global Business Environment Credits: 3
MBAX5305 - Strategic Management Credits: 3

MBA Elective/Concentration Requirements

MBA-MBAX students must take an additional 9 credit hours of 5000 level College of Business courses.

Energy Concentration students will complete the additional 9 credit hours of coursework as follows:

ACCT 5503 Fundamentals of Accounting in the Energy Industry. 3.

MGT 5504 Energy Industry Value Chain. 3.

FIN 5502 Energy Finance: Project Evaluation. 3.

Economics, M.S.

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

Requirements - Total Credits: 30

Required Economics Courses - Credits: 15

ECON5010 - Advanced Macroeconomic Analysis Credits: 3

ECON5230 - Intermediate Econometric Theory Credits: 3

ECON5300 - Game Theory Credits: 3

ECON5390 - Math Microeconomics Credits: 3

ECON5530 - Computational Economics Credits: 3

Graduate Elective Courses

Plan A - 12 hours of Graduate electives required plus 4 credits of Thesis Research credit

Plan B - 15 hours of Graduate electives.

A maximum of 6 hours can be taken at the 4000 level.

Additional Requirements

Program Specific Degree Requirements

A minimum of 18 hours in economics is required; at least 15 of these must be at the 5000 level. A basic core sequence of ECON 5010 (macro), ECON 5390 (math micro), ECON 5530 (computational), ECON 5230 (econometrics), and ECON 5300 (game theory) is required, which completes 15 hours of 5000-level courses, which is required.

The student must complete 26 hours of coursework and 4 hours of ECON5960 - Thesis Research for the Plan A option. The student must complete 30 hours of coursework and a project for the Plan B option.

Students may take 4000-level courses for graduate credit up to 6 hours.

A maximum of 6 semester hours of graduate coursework not used toward any other degree from another institution may be applied to the M.S. economics program subject to regulations regarding transfer of credit listed in this bulletin and with the approval of the director of graduate studies.

At the beginning of the third semester, the student selects a major professor who directs the Plan A thesis or Plan B project. A graduate committee, nominated by the major professor, the student, and the department chair, conducts an oral examination of the student on the project or thesis and area he/she has studied in the program. A favorable report by the committee and approval by the Office of the Registrar complete the degree requirements.

The majority of students complete the M.S. degree within two years.

QuickStart Master of Science in Economics

UW undergraduates can complete the M.S. degree in just one year after completing their B.S. degree if they apply to the QuickStart M.S. program in their junior year. To be eligible, students must have (and maintain) a cumulative GPA of 3.200 or better as well as an Economics GPA of 3.200 or better. They are also required to take the GRE by the fall of their senior year and score above 300 combined on the verbal and quantitative sections combined. The GRE requirement can be waived with letters of recommendation from two UW faculty members. Admission to the QuickStart program allows students to double-count 6 credits of courses taken as an undergraduate towards both the B.S. and M.S. degrees, and reserve an additional 6 credits of courses taken as an undergraduate towards the M.S. degree alone. This then leaves only 18 credits to be taken after completion of the B.S. degree, which is feasible in just one year.

Economics, Ph.D.

Economics is the science of decision making and how to create value through trade. An economics degree will provide you with the tools to work on challenging policy issues and employ data analytics to address those issues.

Requirements - Total Credit Hours: 72

Required Economics Courses - Credits: 30

ECON5010 - Advanced Macroeconomic Analysis Credits: 3
ECON5020 - Advanced Microeconomic Analysis Credits: 3
ECON5120 - Advanced Analysis II-Microeconomics Credits: 3
ECON5130 - Dynamic Optimization Credits: 3
ECON5310 - Research Methods Credits: 3
ECON5330 - Advanced Mathematical Economics Credits: 3
ECON5350 - Advanced Econometrics Theory I Credits: 3
ECON5360 - Advanced Econometrics Theory II Credits: 3
ECON5400 - Advanced Resource and Environmental Economics Credits: 3
ECON5410 - Seminar in Advanced Resource and Environmental Economics Credits: 1-3

Graduate Elective Courses - Credits: 12

Dissertation Research - Credits: 30

Additional Requirements

The doctor of philosophy degree in the field of economics at the University of Wyoming requires a minimum of 42 hours of coursework. All coursework must be at the graduate (5000) level.

The program is designed to give the student a strong foundation in economic theory and the basic quantitative tools necessary for professional research. If students receive a grade lower than a A during their first year, they must take a comprehensive exam in that field (microeconomics and/or econometrics) during the summer to continue to the second year of the PhD program. The program's qualifying exam takes the form of a research paper written during the second summer and defended to, and approved by, a faculty committee by early in the third year, with revisions and resubmission required by December. Students who pass the qualifying paper requirement receive an MS degree and move on in the PhD program, while students who fail this requirement receive the MS degree and fail out of the PhD program.

During the third year, or no later than the first few weeks of the fourth year, a graduate committee nominated by the student's major professor and the director of graduate studies conducts an oral examination of the student. The purpose of the oral examination is to determine whether the student has formulated a workable dissertation project and has the necessary skills to complete it.

Following successful completion of the dissertation, and completion of a departmental requirement of 30 hours of dissertation research, the student presents an oral defense to the graduate committee. The doctor of philosophy degree is granted on recommendation of the committee and approval by the Office of the Registrar, providing all other requirements have been satisfactorily fulfilled.

Finance, M.S.

The MS in Finance program is a rigorous, yet practical program built on the foundations of principles and practices in modern finance, with an optional CFP (Certified Financial Planner) track.

Additional Requirements

The program consists of a minimum of 30 semester hours of graduate coursework. Students must complete coursework in finance and elective business and/or non-business areas as approved by program leadership. Eighty percent of the student's total coursework must consist of 5000-level courses; the remaining 20 percent may be 4000-level finance or non-finance courses (approximately six hours). Non-finance courses should be selected in consultation with the student's graduate advisor. Non-finance courses at the 4000-level may be taken during the senior year of undergraduate study and applied to the master's program, but they must be reserved for graduate credit and approved by the graduate program director prior to the first day of such classes. Courses reserved for graduate credit may also not be counted towards the undergraduate degree requirements. Approved reservation of courses for graduate credit does not guarantee admission to the graduate program.

The student must complete the required coursework with a minimum GPA of 3.000 on a 4.000 scale.

Any student falling below a cumulative GPA of 3.000 is automatically placed on probation for the following semester and must raise their GPA to 3.000 to avoid suspension. If the 3.000 GPA is not attained in the subsequent semester, the student will be suspended from the MS in Finance program and the University of Wyoming.

Student must maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, student may be immediately dismissed from the program

General Finance Track

FIN5310 - Advanced Investment Analysis Credits: 3

FIN5250 - Cases in Corporate Finance Credits: 3

FIN5400 - Advanced Financial Modeling Credits: 3

21 credit hours of 4000 or 5000 level College of Business electives.

Maximum of 6 credit hours can be taken at the 4000 level.

CFP Track

FIN5070 - Tax Planning for Financial Planners Credits: 3

FIN5250 - Cases in Corporate Finance Credits: 3

FIN5310 - Advanced Investment Analysis Credits: 3

FIN5400 - Advanced Financial Modeling Credits: 3

FIN5720 - Insurance and Retirement Planning Credits: 3

FIN5750 - Fundamentals of Financial Planning Credits: 3

FIN5780 - Estate Planning Credits: 3

FIN5800 - CFP Capstone Credits: 3

6 credit hours of 4000 or 5000 level College of Business electives.

Maximum of 6 credit hours can be taken at the 4000 level.

Marketing, Ph.D.

The program of study draws from extant marketing theory, combined with studies in basic and other applied sciences to create a base of knowledge, which is supplemented with courses in the gathering and analysis of qualitative and quantitative data.

Additional Requirements

The Department of Management and Marketing offers a program leading to a Doctor of Philosophy in Marketing. The program of study draws from extant marketing theory, primarily in consumer behavior, combined with studies in the basic sciences (e.g., anthropology, psychology, sociology) and other applied sciences (e.g., environmental sciences) to create a base of knowledge acceptable for marketing scholarship in higher education, and a depth of knowledge conducive to a stream of publishable research in a specific topic area. Theoretical development is supplemented with course work in the gathering and analysis of qualitative and quantitative data, which prepares the student for rigorous exploration of marketing phenomena. Students are required to complete 72 semester hours and a scholarly dissertation that contributes to the knowledge foundations in marketing and contributes to the basic sciences that informed the inquiry. Semester hours will include core marketing classes, outside elective courses in statistics, basic social sciences, and/or interdisciplinary studies in environmental and natural resources, and dissertation work. First and second year research projects are also required, aimed at the student having published articles in respected marketing and social science journals before program completion. Comprehensive exam is completed at the end of the second semester. All doctoral students are expected to teach while enrolled in the program. The program is designed to give students a strong research background and intensive teaching experience.

We begin accepting applications in October for the following fall semester. All completed applications must be submitted by February 1st. Admission requirements include:

A Bachelor's Degree and work toward or completion of a master's degree from an accredited institution, preferably in business or a core social science discipline

Completed application (i.e., all required materials submitted) on the UW Graduate Programs Applications system

\$50 application fee paid to University Admissions

Copies of all undergraduate and graduate program transcripts scanned and uploaded to the UW system, and official transcripts from each post-secondary institution attended submitted to the UW admissions office

A valid GRE or GMAT score. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be requested from the testing organization and sent to UW

Three strong letters of recommendation, with one or more being from an academic. The letters must be uploaded by the recommenders to the UW system in MS Word or .pdf format.

A personal statement summarizing your interest in pursuing doctoral studies and speaking to questions or issues you wish to research. This document must be uploaded to the UW system as an MS Word or .pdf document

For international students, Test of Foreign Language (TOEFL) scores are required. A scanned copy of the unofficial results must be uploaded to the UW system, and official scores must be submitted to UW from the testing organization. A minimum TOEFL score of 76 (online) or 540 (paper) is required for admission

Certificate

Certified Financial Planning Certificate (Graduate)

The certificate is composed of 18-credits of masters-level graduate coursework with the primary goal of providing students with the education, training, and skills necessary to be able to sit for the Certified Financial Planner (CFP) examination.

Additional Requirements

The curriculum is aligned with the CFP® Board's Principal Knowledge Topics and covers principles and practices of essential areas of financial planning, including:

- Wealth Management
- Investment Management
- Tax Planning
- Estate Planning
- Insurance and Retirement Planning

CFP Certificate Requirements

FIN5070 - Tax Planning for Financial Planners Credits: 3

FIN5310 - Advanced Investment Analysis Credits: 3

FIN5720 - Insurance and Retirement Planning Credits: 3

FIN5750 - Fundamentals of Financial Planning Credits: 3

FIN5780 - Estate Planning Credits: 3

FIN5800 - CFP Capstone Credits: 3

Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

Energy Business Certificate (Graduate)

The online Energy Business Certificate is designed for professionals working in the energy industry who are interested in gaining knowledge related to real-world application within the highly competitive industry.

Additional Requirements

The Certificate in Energy Business is composed of 9-credits of masters-level graduate coursework in the College of Business, with the primary goal of achieving mastery and professional skills common to functional business roles within the energy industry. Specifically:

Develop a working understanding of the concepts and practices of Supply Chain Management to make strategic support decisions within the energy industry.

Acquire the foundation necessary to work in the energy industry as a financial statement analyst, manager, auditor, or accountant.

Utilize core capital budgeting, techno-economic cashflow modeling and other finance concepts to evaluate energy industry project investments.

Demonstrate effective problem solving, written, and oral communication skills in the context of the energy industry.

Certificate Requirements

FIN5502 - Energy Finance: Project Evaluation Credits: 3

ACCT5503 - Fundamentals of Accounting in the Energy Industry Credits: 3

MGT5504 - Energy Industry Value Chain Credits: 3

Maintain good academic standing at the program and university level and receive no letter grade of D or F. If a letter grade of D or F is received, the student may be immediately dismissed from the program.

College of Education

6 Education

Scott Thomas, John P. "Jack" Ellbogen Dean

Web site: www.uwyo.edu/education

The College of Education prepares teachers, counselors, administrators and other service personnel for positions in public education in Wyoming, throughout the nation, and the world. The teacher education program incorporates content area courses from the various colleges on campus with experiences in educational methodology. Programs are designed to provide students with a maximum amount of experience in the classroom.

Graduates of the College of Education are prepared to deal with youth growing up in a rapidly changing world. Programs are experiential, collaborative, outcomes based, and technologically supported. Emphasis is placed on professional ethics, a commitment to lifelong learning, and respect for all individuals in our culturally diverse society.

Organization of the College

The College of Education includes undergraduate teacher education and graduate studies in education. Schools offering undergraduate and graduate programs in the college include:

School of Teacher Education

School of Counseling, Leadership, Advocacy, and Design

Undergraduate and graduate education are supported by several units. The Teacher Preparation and Advising Office, McWhinnie Hall room 100, coordinates activities dealing with academic advising, field experiences, and teacher licensure.

The Wellspring Counseling Clinic provides counseling services to students, staff, faculty of the university, as well as the community at-large.

The College of Education, College of Arts and Sciences, Wyoming community colleges, many Wyoming districts, the Wyoming Professional Teaching Standards Board, and the Wyoming Department of Education are part of the Wyoming School-University Partnership, which grounds collaborative efforts across the state related to K-12 preservice and inservice education.

The Laboratory School, an Albany County School District entity, serves the college, the university, the school district, and the state as an educational center for research, development, instructional advancement, and inservice education. The school enrolls students in pre-school through eighth grade.

Computer laboratories in the college feature a wide range of capabilities including Internet access. The laboratory equipment is frequently updated to serve the needs of students, faculty and staff.

The Learning Resource Center is a branch of the university library system. Educational materials are available to serve the needs of K-12 students, university students, university faculty and public school faculty in Wyoming

Faculty in the College of Education

School of Counseling, Leadership, Advocacy, and Design

School Director: Peter Moran

Associate Professors:

KARA L. CARNES-HOLT, B.A. East Texas Baptist University 2000; M.S. Ed. Baylor University 2003; Ph.D. University of North Texas 2010; Associate Professor of Counselor Education 2016, 2010.

COURTNEY McKIM, B.S. Boise State University 2006; Ph.D. University of Nebraska 2011; Associate Professor of Educational Research 2020, 2011.

MICHAEL M. MORGAN, B.S. Brigham Young University 1993; M.S. Auburn University 1995; Ph.D. Purdue University 2003; Associate Professor of Counselor Education 2011, 2003.

LINDSEY NICHOLS, B.S. University of Connecticut 2002; M.A. University of Connecticut 2003; M.Ed. University of North Carolina at Chapel Hill 2006; Ph.D. Pennsylvania State University 2012; Associate Professor 2019.

W. REED SCULL, B.S. St. Louis University 1983; M.A. University of Nevada-Reno 1989; Ed.D. University of Arizona 1994; Associate Professor 2019.

Assistant Professors:

WILLIAM CAIN, B.A. University of Texas 1994; Ph.D. Michigan State University 2018; Assistant Professor 2018.

JONTHAN CARRIER, B.S. East Tennessee State University 1999; M.S.E. Portland State University 2002; Ph.D. University of the Cumberland 2017; Assistant Professor of Higher Education Administration, 2020.

RICHARD CARTER, B.S. Western Carolina University 2010; M.S.E. 2012; Ph.D. University of Kansas 2016; Assistant Professor of Special Education 2017.

AMANDA DeDIEGO, B.S. University of North Georgia 2009; M.S. 2012; Ph.D. University of Tennessee 2016; Assistant Professor of Counselor Education 2016.

BARBARA HICKMAN, B.A. University of Minnesota 1985; B.S. University of Minnesota 1986; M.A. Saint Mary's College 1997; Ed.D. Northern Arizona University 2017; Assistant Professor 2019.

JIHYUN LEE, B.A. Daegu University 2006; M.Ed. Korea National University 2012; M.S. University of Wisconsin-Madison 2014; Ph.D. University of Texas-Austin 2018; Assistant Professor 2019.

ROBERT MADDOX, B.S. Missouri State University 2005; M.A. Southeast Missouri State University 2009; Ed.S. Southeast Missouri State University 2011; Ph.D. University of Wyoming 2015; Assistant Professor 2019.

LAY-NAH BLUE MORRIS-HOWE, B.S. University of Wyoming 2004; M.S. 2007; Ph.D. 2011; Assistant Professor of Counselor Education 2015.

MARK PERKINS, B.A. Ft. Lewis College 2001; M.A. University of Colorado-Denver 2009; Ph.D. Colorado State University 2014; Assistant Professor of Educational Research, 2020.

MIA WILLIAMS, B.S. Northern Arizona University 1995; M.Ed., 1999 Ph.D 2008 Arizona State University Assistant Professor 2020.

Associate Professional Lecturer:

TIFFANY HUNT, B.S. University of Wyoming 2001; M.S. University of Northern Colorado 2006, Ph.D. 2017; Assistant Professional Lecturer of Special Education 2014.

Professors Emeritus

Martin Agran, Mary Alice Bruce, John Cochenour, Ace Cossairt, Kay Cowie, Michael Day, Deborah McGriff, Alan Moore, Kay Persichitte, Suzanne Young.

School of Teacher Education

School Director: Alan Buss

Professors:

STEVEN M. BIALOSTOK, B.A. University of the Pacific 1975; M.S.W. California State University - Sacramento 1986; Ph.D. University of Arizona 1999; Professor of Elementary and Early Childhood Education 2015, 2000.

CYNTHIA BROCK, B.S. Oregon State University 1981; MEd Washington State University 1985; Ph.D. Michigan State University 1997; Wyoming Excellence in Education Literacy Chair 2015.

ANDREA C. BURROWS, B.S. University of Central Florida 1992; M.S. Florida State University 1994; Ed.D. University of Cincinnati 2011; Professor of Secondary Education 2017, 2011. Associate Dean of Undergraduate Programs 2020.

ALAN R. BUSS, B.A. Brigham Young University 1989; M.A. 1993; Ph.D. University of Wyoming 1998; Professor of Elementary and Early Childhood Education 2019, 1997.

SCOTT A. CHAMBERLIN, B.A. Purdue University 1989 and 1993; M.Ed. University of Utah 1998; Ph.D. Purdue University 2002; Professor of Elementary and Early Childhood Education 2015, 2003.

LEIGH HALL, B.S. University of South Florida 1996; M.Ed. Peabody College of Vanderbilt University 1997; Ph.D. Michigan State University 2005; Professor of Secondary Education 2017. Wyoming Excellence in Education Literacy Chair, 2017.

JOHN KAMBTU, B. A. University of Wyoming 1991; M. A. 1992; Ph.D. 1998; Professor of Educational Studies 2015, 1999.

RICHARD KITCHEN, B.A. University of Colorado-Denver 1984; M.A. University of Montana 1990; Ph.D. University of Wisconsin- Madison 1996; Professor of Secondary Education 2017. Wyoming Excellence in Education Mathematics Education Chair 2017.

PETER WILLIAM MORAN, B.A. University of Wyoming 1987; M.A. Kansas State University 1993; Ph.D. 2000; Professor of Elementary and Early Childhood Education 2017, 2001.

LYDIAH NGANGA, B.S. University of Wyoming 1998; M.S. 2000; Ph.D. 2005; Professor of Elementary and Early Childhood Education 2020, 2005.

LESLIE S. RUSH, B.S. Texas A&M-Commerce 1984; M.Ed. 1996; Ph.D. University of Georgia, 2002; Professor of Secondary Education 2014, 2002.

JENNA M. SHIM, B.A. California State University - Los Angeles 1994; M.M. Manhattan School of Music - New York 1996; M.S. State University of New York - Albany 2006; Ph.D. 2009; Professor of Educational Studies 2016, 2010.

TIMOTHY F. SLATER, B.S. Kansas State University 1989; B.S. Ed. 1989; M.S. Clemson University 1991; Ph.D. University of South Carolina 1993; Professor of Secondary Education 2008. Wyoming Excellence in Education Science Education Chair 2008.

ALLEN TRENT, B.A. Eastern Kentucky University 1986; M.S. University of Dayton 1992; Ph.D. The Ohio State University 2000; Professor of Elementary and Early Childhood Education 2012.

Associate Professors:

TAO HAN, B.A. Sungshin Women's University, Korea 1984; M.A. University of Arizona 1993; M.A. University of Nevada-Reno 2002; Ph.D. 2006; Associate Professor of Elementary and Early Childhood Education 2016, 2010.

ANA HOUSEAL, B.A. University of Iowa 1985; M.A. University of Northern Iowa 1998; Ph.D. University of Illinois 2010; Associate Professor of Elementary and Early Childhood Education 2017, 2011.

LINDA HUTCHISON, B.A. Humboldt State University 1978; M.A. Stanford University 1986; Ph.D. University of Washington 1992; Associate Professor of Secondary Education 2000, 1993.

TRICIA JOHNSON, B.S. Lehigh University 1991; M.Ed. 1993; Ed.S. George Washington University 1997; Ed.D. Columbia University 2004; Associate Professor of Elementary and Early Childhood Education 2012.

PATRICK MANYAK, B.A. Pepperdine University 1988; M.S. 1990; Ph.D. University of Southern California-Los Angeles 2001; Associate Professor of Elementary and Early Childhood Education 2007, 2001.

AMY ROBERTS, B.S. Indiana University 1986; M.A. Portland State University 1991; Ph.D. Indiana University 1996; Associate Professor of Elementary and Early Childhood Education 2004, 1998.

KATHERINE MUIR WELSH, B.A. University of California-Berkeley 1986; Single Subject Teaching Credential (Life Sciences) University of California-Santa Barbara 1990; Ph.D. University of California-Los Angeles 2002; Associate Professor of Elementary and Early Childhood Education 2008, 2002.

Assistant Professors:

ALI BICER, B.S. Celal Bayar University 2006; M.S. Texas A&M University 2012; Ph.D. 2016; Assistant Professor of Elementary and Early Childhood Education 2019.

TODD REYNOLDS, B.A. University of Northern Colorado 1998; M.A. 2004; Ed.S. 2008; Ph.D. University of Wyoming 2015; Assistant Professor of Secondary Education 2019.

ALISON MERCIER, B.S. North Carolina State University 2000; M.S. University of North Carolina 2020; Assistant Professor of Secondary Education 2020.

Senior Lecturers:

NIKKI BALDWIN, B.A. University of Wyoming 1994; M.A. 2005; Senior Lecturer of Elementary and Early Childhood Education 2020, 2009.

KIMBERLY GUSTAFSON, B.A. University of Wyoming 1998; M.A. 2003; Ed.D. 2010; Senior Lecturer of Elementary and Early Childhood Education 2019, 2007.

AMY SPIKER, B.A. University of Wyoming 1989; M.A. 2004; Senior Lecturer of Elementary and Early Childhood Education 2016, 2007.

Associate Lecturers:

JASON KATZMANN, B.S. Texas Women's University 1994; M.A. Colorado College 2000; Ph.D. University of Northern Colorado 2007; Assistant Professor of Educational Studies 2016, 2007.

ROD THOMPSON, B.A. University of Nebraska at Kearney 1991; M.A. University of Northern Iowa 1998; Associate Lecturer of Educational Studies 2019.

Assistant Lecturers:

LINDSEY FREEMAN, B.S. University of Wyoming 2011; M.A. 2018; Assistant Lecturer of Educational Studies 2019.

JENNIFER GERINGER, B.A. University of Texas - San Antonio 1991; M.S. University of Wyoming 1997; Ph.D. 2001; Assistant Lecturer of Elementary and Early Childhood Education 2015.

JANET LEAR, B.S. University of Wisconsin-Madison 1990; M.A. University of California, Berkeley 1998; Ph.D. University of Denver 2017; Assistant Lecturer of Educational Studies 2019.

ROCHELLE MCCOY, B.A. Western Governors University 2006; M.A. 2012; Assistant Lecturer of Elementary and Early Childhood Education 2019.

JOSEPH SCHROER, B.A. University of Cincinnati 2002; B.S. 2005; M.A. 2001; Ph.D. 2007; Assistant Lecturer of Educational Studies 2019.

Professors Emeritus:

Michelle Buchanan, Barbara A. Chatton, Margaret Cooney, Lydia Dambekalns, Judith Z. Ellsworth, Patricia McClurg, R. Timothy Rush

Accreditation

The College of Education, a member of the American Association of Colleges of Teacher Education, is currently accredited by the National Council for the Accreditation of Educator Preparation (CAEP) and is moving toward the Association for Advancing Quality in Educator Preparation (AAQEP) in 2023-2024. The Wyoming Professional Teaching Standards Board (PTSB) and the North Central Association of Colleges and Schools approve the college as an accredited teacher-preparing institution. The Counseling programs are fully accredited by the Council for the Accreditation of Counseling and Related Educational Programs (CACREP).

Academic Advising

Students are assigned an academic adviser who will assist in planning a program combining University Studies requirements, core content requirements, and professional education courses. Students are expected to consult with their adviser regularly. The Teacher Preparation and Advising Office coordinates advising and provides students and faculty with assistance in areas related to academic advising.

Further information on each program is available in:

Teacher Preparation and Advising Office
McWhinnie Hall room 100
Dept. 3374, 1000 E. University Ave.
Laramie, WY 82071

(307) 766-2230 edquest@uwyo.edu

Major

Elementary Education, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification).

University Studies Program Requirements

Several Professional Education and Core Content courses fulfill University Studies Program requirements. Please visit with a College of Education advisor to determine what courses fulfill these requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

The Elementary Education program prepares students to teach in grades K-6. A minimum of 120 credit hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations-24 Hours

All Professional Education requirements must be completed with a grade of C or higher.

EDEC1020 - Introduction to Early Childhood Education Credits: 3

OR

EDEL1200 - Introduction to Elementary Education Credits: 3

EDST2450 - Foundations of Development and Learning Credits: 3

ITEC2360 - Teaching with Technology Credits: 3

EDEC2000 - Engaging Families in Early Childhood Settings Credits: 3

OR

EDEX2000 - Collaboration and Professional Relationships Credits: 3

OR

EDEL2100 - Engaging Family and Community in Schools Credits: 3

Completion of EDST 2450 is a prerequisite for the following courses:

EDEX2484 - Introduction to Special Education Credits: 3

EDST3100 - Teacher as Practitioner Credits: 3

A minimum of 2.75 UW cumulative GPA is required for registration in EDST 3100.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising

Office no later than the first day of class.

EDST3200 - Foundations of ESL Learning Credits: 3

EDST3480 - Diversity & the Politics of Schooling Credits: 3

Assessment-2 Hours

EDST2550 - Educational Assessment Credits: 3

Practicum-4 Hours

An approved background check must be on file with the Teacher Preparation and Advising Office for registration and completion of these courses.

If EDEC 1020 is completed, EDST 1200 Practicum 1 is not required.

EDST1200 - Practicum 1 Credits: 1

EDST2200 - Practicum 2 Credits: 1

EDST3101 - Practicum 3 Credits: 2 *This requirement is typically completed concurrently with EDST 3100*

Methods-19 Hours

EDEL3724 - Elementary Science Education Credits: 3

EDEL4109 - Elementary Humanities Education Credits: 5

EDEL4309 - Elementary Literacy Education Credits: 2-5 (3 Credits Required)

EDEL4409 - Elementary Math/ Science Education Credits: 5

EDEC4209 - Early Literacy Methods Credits: 3

Residency in Teaching-15 Hours

All methods courses must be completed prior to enrollment in EDEL 4500.

EDEL4500 - Residency in Teaching Credits: 1-16 (15 Credits Required)

Elementary Core Content-minimum 29 Hours

Minimum 2.5 GPA required in major content. All major content courses must be completed with a grade of C or higher prior to enrollment in EDEL 4109, EDEL 4309 and EDEL 4409.

Literacy

- EDEL2140 - Teaching Literacy in the Elementary School Credits: 3
- EDEL2280 - Literature for Children Credits: 3
- EDEL3720 - Literacy Difficulties: Assessment and Instruction Credits: 3

Mathematics

- MATH1100 - Number and Operations for Elementary School Teachers Credits: 3
- MATH1105 - Data, Probability, and Algebra for Elementary School Teachers Credits: 3
- Can be substituted with:*
(MATH 1400 or MATH 1405 or MATH 1450) **AND** (STAT 2070 or STAT 2050), **OR** MATH 2200 or MATH 2350.
- MATH2120 - Geometry and Measurement for Elementary School Teachers Credits: 3

Science

Can be substituted with other approved PN sciences.

- GEOL1070 - The Earth: Its Physical Environment Credits: 4
- OR
- ASTR1070 - The Earth: Its Physical Environment Credits: 4

- LIFE1020 - Life Science Credits: 4
- PHYS1090 - The Fundamentals of the Physical Universe Credits: 4

Social Sciences

- GEOG1000 - World Regional Geography Credits: 3
- OR
- GEOG1020 - Introduction to Human Geography Credits: 3
- Additional Social Studies course (The course completed to meet the USP U.S. & WY Constitution (V) requirement can not be applied to this content requirement

Health

- HLED2006 - Health for Elementary Educators Credits: 1

Art

- EDEL2170 - Art in the Elementary School Credits: 3

Elementary Education Electives

Students need a minimum of 9 credits of electives to complete their degree program. Students are strongly encouraged to apply elective hours toward a minor or endorsement, such as those in Early Childhood Education, English as a Second Language, American Sign Language and Computer Science.

Elementary Education/Special Education, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification), with dual credentials in elementary education and special education.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

The Elementary/Special Education program prepares students to seek licensure as a K-6 elementary teacher and K-12 special education endorsement. A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

- EDST2450 - Foundations of Development and Learning Credits: 3

A minimum of 2.75 UW cumulative GPA is required for registration in EDST 3100.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

- EDEX4355 - Assessment & St. W/Dis Credits: 3
- EDEL3724 - Elementary Science Education Credits: 3
- EDEC4209 - Early Literacy Methods Credits: 3

Completion of EDST 3100 and EDST 3101 is a prerequisite for enrollment in the following courses:

- EDEL4109 - Elementary Humanities Education Credits: 5
- EDEL4309 - Elementary Literacy Education Credits: 2-5
- EDEL4409 - Elementary Math/ Science Education Credits: 5

Practicum

An approved background check must be on file with the Teacher Preparation and Advising Office for registration and completion of these courses.

EDST1200 - Practicum 1 Credits: 1 *If EDEC 1020 is completed EDST 1200 is not required.*

EDST2200 - Practicum 2 Credits: 1

EDST3101 - Practicum 3 Credits: 2 *This requirement is typically completed concurrently with EDST 3100. Sub permits are required before students can begin their practicums.*

Elementary Education Content

Minimum 2.75 GPA required in major content. All major content courses must be completed with a grade of C or higher prior to enrollment in EDEL 4109 , EDEL 4309 , and EDEL 4409.

Literacy

EDEL2140 - Teaching Literacy in the Elementary School Credits: 3

EDEL2280 - Literature for Children Credits: 3

EDEL3720 - Literacy Difficulties: Assessment and Instruction Credits: 3

Science

LIFE1020 - Life Science Credits: 4

GEOL1070 - The Earth: Its Physical Environment Credits: 4

OR

ASTR1070 - The Earth: Its Physical Environment Credits: 4

PHYS1090 - The Fundamentals of the Physical Universe Credits: 4

Mathematics

MATH1100 - Number and Operations for Elementary School Teachers Credits: 3

MATH1105 - Data, Probability, and Algebra for Elementary School Teachers Credits: 3

Can be substituted with:

(MATH 1400 or MATH 1405 or MATH 1450) **AND** (STAT 2070 or STAT 2050), **OR** MATH 2200 or MATH 2350.

MATH2120 - Geometry and Measurement for Elementary School Teachers Credits: 3

Social Studies/Cultural Awareness

Take **ONE** of the following:

AAST1030 - Social Justice in the 21st Century Credits: 3 (AMST/NAIS/WMST/LTST 1030)

EDST3200 - Foundations of ESL Learning Credits: 3

GEOG1020 - Introduction to Human Geography Credits: 3

WIND2100 - Introduction to Disability Studies Credits: 3

Art

EDEL2170 - Art in the Elementary School Credits: 3

Health

HLED2006 - Health for Elementary Educators Credits: 1

Special Education Content: 36 (Minimum) Credit Hours

All major content courses must be completed with a grade of C or higher prior to enrollment in EDEL 4109, EDEL 4309, and EDEL 4409.

EDEX2000 - Collaboration and Professional Relationships Credits: 3
EDEX3071 - Understand st. w/High Inc Dis Credits: 3
EDEX3072 - Teaching st. w/High Inc Dis Credits: 3
EDEX3080 - Understand st. w/Low Inc Dis Credits: 3
EDEX3081 - Teaching St. w/Low Inc. Dis. Credits: 3
EDEX3110 - Behavioral Supports & Interv. Credits: 3
EDEX4120 - Data Analysis/IEP Development Credits: 3
EDEX4720 - Law and Students with Disabilities Credits: 3
WIND4020 - Disability Studies Theory and Practice Credits: 3

Residency in Teaching

All methods courses must be completed prior to enrollment in Residency in Teaching.

EDEL4500 - Residency in Teaching Credits: 1-16 (8 credits required)
EDEX 4500 Residency in Student Teaching Special Education, Credits: 8

Secondary Agricultural Education with Concurrent Major in Agricultural Business, B.S.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Agricultural Education and a concurrent major in Agricultural Business. It prepares students to teach Agriculture in grades 6-12.

A concurrent major ensures that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

EDST2450 - Foundations of Development and Learning Credits: 3

ITEC2360 - Teaching with Technology Credits: 3

Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:

EDEX2484 - Introduction to Special Education Credits: 3

EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

EDST3100 - Teacher as Practitioner Credits: 3

EDST3101 - Practicum 3 Credits: 2

Assessment

EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Semester Only)

EDSE3278 - Subject Matter Specific Methods I: Secondary Agriculture Education Credits: 3-6
(3 credits required)

EDSE4278 - Subject Matter Specific Methods II: Secondary Agriculture Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Semester Only)

EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)

EDSE4550 - Residency Applications and Synthesis Credits: 3

Agricultural Education Core Requirements

These are the specific courses provided for all concurrent Agricultural Education majors through the College of Education.

EDAG3150 - Community Programs in Agricultural Education Credits: 3

EDAG4170 - Principles of Agricultural Mechanics and Technology Credits: 3

EDAG4180 - Techniques of Agricultural Mechanics and Technology Credits: 3

Agriculture and Science Core Requirements

These are specific courses for all concurrent Agricultural Education majors taken outside of the College of Education.

PLNT1000 - Agroecology Credits: 4

Choose one:

AGEC1020 - Principles of Microeconomics Credits: 3

OR

ECON1020 - Principles of Microeconomics Credits: 3

ANSC1010 - Introduction to Animal Science Credits: 4

ANSC2020 - Feeds and Feeding Credits: 4

PLNT2025 - Horticultural Science Credits: 3

PLNT2026 - Horticultural Sciences Laboratory Credits: 1

REWM2000 - Principles of Rangeland Management Credits: 3

SOIL2010 - Introduction to Soil Science Credits: 4

LIFE1010 - General Biology Credits: 4

Choose one:

LIFE2022 - Animal Biology Credits: 4

OR

LIFE2023 - Biology of Plants and Fungi Credits: 4

Choose one:

CHEM1000 - Introductory Chemistry Credits: 4

OR

CHEM1020 - General Chemistry I Credits: 4

Agricultural Business Core Requirements

These are the specific courses taken by Agricultural Education students enrolled in the Agricultural Business concurrent major.

AGEC2020 - Farm and Ranch Business Management Credits: 4

AGEC4060 - Agribusiness Management Credits: 3

AGEC4050 - Agribusiness Marketing Credits: 3

AGEC4500 - Agricultural Finance Credits: 3

ECON3020 - Intermediate Microeconomics Credits: 3

MATH2350 - Business Calculus Credits: 4

Electives. Credits: 6 (Upper division AGECE, AGECE 3400: Ag Law recommended)

Endorsement in Secondary Biology Education option

Students can seek an endorsement in Secondary Biology Education. The required courses are:

Choose one:

MICR2021 - General Microbiology Credits: 4

OR

MOLB2021 - General Microbiology Credits: 4

Choose one:

LIFE3050 - Genetics Credits: 4

OR

LIFE3500 - Evolutionary Biology Credits: 3

LIFE3400 - General Ecology Credits: 3

EDSE4279 - Subject Matter Specific Methods II: Biological Science Methods for Agricultural Education Majors

Credits: 3 *May be substituted with EDSE 3275 Subject Matter Specific Methods I: Secondary Science Education Credits: 3.*

For Ag. Communications and Ag. Business Concurrent Majors only: an additional upper division Biology-related course as approved by advisor.

Upper-division biology related elective Credits: 3

Secondary Agricultural Education with Concurrent Major in Agricultural Communications, B.S.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

This program consists of a minimum of 120 total hours. Minimum of 2.500 content GPA required.

This is a B.A.S. degree completion which requires students to transfer in specific CTE coursework to UW and then complete the professional education requirements.

The major will be advised through both the College of Education main campus and UW Casper.

Students are suggested to take STAT 2050 or STAT 2070 to complete the USP:Q and PHYS 1050, PHYS 1100, or PHYS 1210 to complete part of the USP:PN.

Online Access: The CTE program is a distance delivered program with the exception of a few intensive weekends (these weekends could be held on the UW-Casper campus or could be virtual depending on need).

Foundations

EDST2450 - Foundations of Development and Learning Credits: 3

ITEC2360 - Teaching with Technology Credits: 3

Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:

EDEX2484 - Introduction to Special Education Credits: 3

EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

Expanding the Canon-6 Hours

6 credits total examining diversity-related issues, 2000-level or above

• 2340/2350/2360 can be taken either as an Expanding the Canon course OR as an Historical Period course. A full list of courses that fulfill the Expanding the Canon requirements will be published each semester; generally speaking, these courses will cover topics related to racial diversity, global literatures, gender, sexuality, or disability studies. Examples: 3330, 3710, 4450, 4455, 4460, 4470, 4640: Postcolonial Literature, 4830.

Rhetoric, Composition Pedagogy, and Professional Writing

ENGL3010 - Approaches to Rhetoric, Composition Pedagogy, and Professional Writing Credits: 3

6 Hours from the Following Rhetoric, Composition, and Professional Writing Courses Offered by English:

Take **TWO** of the Following:

ENGL2005 - Writing in Technology and the Sciences Credits: 3

ENGL2035 - Writing for Public Forums Credits: 3

ENGL2125 - Writing Tutor Pedagogy/Practicum Credits: 3

ENGL3020 - Culture, Communication, Work Credits: 3

ENGL4010 - Technical Writing in the Professions Credits: 3

ENGL4020 - Editing for Publication Credits: 3

ENGL4030 - Writing for Magazines Credits: 3

ENGL4061 - Rhetorical Theory and Criticism Credits: 3

ENGL4075 - Writing for Non-Profits Credits: 3

Foundations of Language

3 Hours in the History of the English Language or Social Linguistics

Take **ONE** of the Following:

EDCI4761 - Linguistics, Sociolinguistics, and Social Literacies for Teachers Credits: 3

EDCI4762 - Essential Sociolinguistics for English as a Second Language Learning and Teaching Credits: 3

ANTH2000 - Introduction to Linguistic Anthropology Credits: 3

ENGL4780 - History of the English Language Credits: 3

Young Adult Literature-3 Hours

EDCI4120 - Literature for Young Adults Credits: 3

World Language

12 hours of the same world language, including ASL

Capstone: Senior Seminar

ENGL4999 - Senior Seminar Credits: 3

Electives

9-10 Hours of Electives

Secondary Mathematics Education with Concurrent Major in Mathematics, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

FYS-First Year - Seminar Credits: 3
COM1 - Communication 1 Credits: 3
COM2 - Communication 2 Credits: 3
COM3 - Communication 3 Credits: 3
Q- - Quantitative Reasoning Credits: 3
PN- - Physical and Natural World (1) Credits: 3
PN- - Physical and Natural World (2) Credits: 3
H- - Human Culture (1) Credits: 3
H- - Human Culture (2) Credits: 3
V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Mathematics Education and a concurrent major in Mathematics. It prepares students to teach Mathematics in grades 6-12.

A concurrent major ensures that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

EDST2450 - Foundations of Development and Learning Credits: 3

ITEC2360 - Teaching with Technology Credits: 3

Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:

EDEX2484 - Introduction to Special Education Credits: 3

EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

EDST3100 - Teacher as Practitioner Credits: 3

EDST3101 - Practicum 3 Credits: 2

Assessment

EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Semester Only)

EDSE3271 - Subject Matter Specific Methods I: Secondary Mathematics Education Credits: 3-6
(3 credits required)

EDSE4271 - Subject Matter Specific Methods II: Secondary Mathematics Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Semester Only)

EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)

EDSE4550 - Residency Applications and Synthesis Credits: 3

Major Content

It is necessary to complete a minimum of 50 hours in math coursework. Work must include 27 credit hours of upper-division mathematics. The grade in each course of this 50-hour requirement must be C or better. A minimum GPA of 2.500 in major content courses is required.

MATH2200 - Calculus I Credits: 4

MATH2205 - Calculus II Credits: 4

MATH2210 - Calculus III Credits: 4

MATH2250 - Elementary Linear Algebra Credits: 3

MATH2310 - Applied Differential Equations I Credits: 3

MATH2800 - Mathematics Major Seminar Credits: 2

MATH3500 - Algebra I: Introduction to Rings and Proofs Credits: 3

MATH3340 - Introduction to Scientific Computing Credits: 3

MATH3205 - Analysis I: Elementary Real Analysis Credits: 3

MATH4000 - History of Mathematics Credits: 3

MATH4600 - Foundations of Geometry Credits: 3

Major Related Statistics Courses

Take **ONE** of the Following (STAT 2050 and STAT 2070 are recommended):

STAT2000 - Statistics and the World Credits: 3

STAT2050 - Fundamentals of Statistics Credits: 4

Depth & Sequence Courses

Take **ONE** of the Following Selected Pairs:

Pair 1

MATH4200 - Analysis 2: Advanced Analysis Credits: 3

AND

MATH4205 - Analysis 3: Undergraduate Topics in Analysis Credits: 3

OR

Pair 2

MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations Credits: 3

AND

MATH4440 - Introduction to Partial Differential Equations I Credits: 3

OR

Pair 3

MATH4510 - Algebra II: Introduction to Group Theory Credits: 3

AND

MATH4520 - Algebra III: Topics in Abstract Algebra Credits: 3

Breadth Electives

Take **TWO** of the following courses:

MATH3310 - Appl Diff Equations II Credits: 3

MATH3700 - Combinatorics Credits: 3

MATH4150 - Secondary School on Campus Credits: 1-4

MATH4230 - Introduction to Complex Analysis Credits: 3

MATH4255 - Mathematical Theory of Probability Credits: 3

MATH4265 - Introduction to the Theory of Statistics Credits: 3

MATH4300 - Introduction to Mathematical Modeling Credits: 3

MATH4440 - Introduction to Partial Differential Equations I Credits: 3

MATH4500 - Matrix Theory Credits: 3

OR

any 3000 or 4000 mathematics or statistics course allowed as an elective in the mathematics program.

Secondary Modern Languages Education with Concurrent Major in French, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

FYS-First Year - Seminar Credits: 3

COM1 - Communication 1 Credits: 3

COM2 - Communication 2 Credits: 3

COM3 - Communication 3 Credits: 3

Q- - Quantitative Reasoning Credits: 3

PN- - Physical and Natural World (1) Credits: 3

PN- - Physical and Natural World (2) Credits: 3

H- - Human Culture (1) Credits: 3

H- - Human Culture (2) Credits: 3

V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Modern Language Education and a concurrent major in French (Formerly titled: Foreign Language). It prepares students to teach French in grades 6-12.

A concurrent major ensures that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

- EDST2450 - Foundations of Development and Learning Credits: 3
- ITEC2360 - Teaching with Technology Credits: 3

Completion of EDST 2040 with a minimum grade of C or higher is a prerequisite for the following courses:

- EDEX2484 - Introduction to Special Education Credits: 3
- EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

- EDST3100 - Teacher as Practitioner Credits: 3
- EDST3101 - Practicum 3 Credits: 2

Assessment

- EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Only)

- EDSE3276 - Subject Matter Specific Methods I: Secondary Modern Language Education Credits: 3-6
(3 credits required)
- EDSE4276 - Subject Matter Specific Methods II: Secondary Modern Language Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Only)

- EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Concurrent Major Courses

At least 21 hours must be upper-division (3000-level or higher)

French Core

- FREN2040 - Second Year French II Credits: 3
- FREN2140 - Introduction to Reading Credits: 3
- FREN3005 - French Phonetics and Pronunciation Credits: 3
- FREN3050 - Third Year French I Credits: 3
- FREN3060 - Third Year French II Credits: 3

Take ONE of the following:

- FREN2130 - Contemporary French Culture Credits: 3
OR
- FREN3110 - Contemporary French Civilization Credits: 3

Major Related Courses

- EDCI4350 - Introduction to Second Language Acquisition Credits: 3
- EDCI4450 - Issues In Multicultural Education Credits: 3

Take ONE of the following:

- COMM2010 - Public Speaking Credits: 3
OR
- THEA1100 - Acting I Credits: 3

Take ONE of the following:

- EDCI4761 - Linguistics, Sociolinguistics, and Social Literacies for Teachers Credits: 3
OR
- EDCI4762 - Essential Sociolinguistics for English as a Second Language Learning and Teaching Credits: 3

Foundations of Language

12 credits of FREN or courses related to the history, art or political science of the francophone world (consult your advisor). For those completing the ESL endorsement, six of these hours can be earned with EDCI 5430 and EDCI 5440 or with a study abroad in a French-speaking country. Study abroad is strongly recommended.

Electives

15 Credits of FREN Upper Division Electives at 3000+ Level

Language Proficiency Requirement

Completion of the OPI and WPT via the American Council on the Teaching of Foreign Languages (ACTFL) with a score of Advanced Low or better prior to enrollment in EDSE 4276.

Secondary Modern Languages Education with Concurrent Major in German, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3

- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3

Major Content

Required Biology Courses

- LIFE1010 - General Biology Credits: 4
- LIFE3400 - General Ecology Credits: 3
- LIFE3050 - Genetics Credits: 4
- LIFE3500 - Evolutionary Biology Credits: 3
- LIFE3600 - Cell Biology Credits: 4

Plus Choose Two:

- LIFE2022 - Animal Biology Credits: 4
- LIFE2023 - Biology of Plants and Fungi Credits: 4
- MICR2021 - General Microbiology Credits: 4 (can be substituted with MOLB 2021 - General Microbiology)

Required Additional Coursework

- CHEM1020 - General Chemistry I Credits: 4
 - CHEM2300 - Introductory Organic Chemistry Credits: 4
 - MOLB3610 - Principles of Biochemistry Credits: 4
 - PHYS1110 - General Physics I Credits: 4
 - PHYS1120 - General Physics II Credits: 4
 - MATH2200 - Calculus I Credits: 4
 - STAT2050 - Fundamentals of Statistics Credits: 4
- OR**
- LIFE2100 - Intro Research and Analysis Credits: 4

- COSC1010 - Introduction to Computer Science I Credits: 3
OR
- COSC1030 - Computer Science I Credits: 4
OR
- LIFE2100 - Intro Research and Analysis Credits: 4
Note: LIFE 2100 can only be applied for one of the above (4) credit options.

Earth/Space Science (3-4 credits)

Elective Courses

9 hours - minimum. (with 6 hours of 3000-level or above and at least one course with an environmental focus); courses must come from ANVS, BOT, ENTO, KIN, LIFE, MICR, MOLB, PLNT, RNEW, or ZOO.

Secondary Science - Chemistry Education with Concurrent Major in Chemistry (CHSE), B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3

- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6
(3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Semester Only)

- EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Chemistry Requirements

- CHEM1020 - General Chemistry I Credits: 4
OR
 - CHEM1050 - Advanced General Chemistry I Credits: 4
 - CHEM1030 - General Chemistry II Credits: 4
OR
 - CHEM1060 - Advanced General Chemistry II Credits: 4
 - CHEM2230 - Quantitative Analysis Credits: 5
OR
 - CHEM4230 - Instrumental Methods of Chemical Analysis Credits: 5
 - CHEM2420 - Organic Chemistry I Credits: 4
 - CHEM2440 - Organic Chemistry II Credits: 4
 - CHEM4110 - Introductory Inorganic Chemistry Credits: 3
 - CHEM4100 - Inorganic Chemistry Laboratory Credits: 2
 - CHEM4507 - Physical Chemistry I Credits: 3
OR
 - CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3
- ADDITIONAL REQUIRED COURSEWORK:**
- LIFE1010 - General Biology Credits: 4
 - MOLB3610 - Principles of Biochemistry Credits: 4
 - MATH2200 - Calculus I Credits: 4
 - MATH2205 - Calculus II Credits: 4
 - MOLB2021 - General Microbiology Credits: 4
OR
 - MICR2021 - General Microbiology Credits: 4
 - PHYS1110 - General Physics I Credits: 4

OR

- PHYS1210 - Engineering Physics I Credits: 4
- PHYS1120 - General Physics II Credits: 4

OR

- PHYS1220 - Engineering Physics II Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4

Upper Division Elective Courses

6-Hours - minimum (6 hours of 3000-level or above)

Courses must come from:

- CHEM, LIFE, or MOLB
- *Note-CHEM 4230 is highly recommended

Secondary Science - Earth Science Education with Concurrent Major in Environmental Systems Science (ESSE), B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Earth Science Education and a concurrent major in Environmental Systems Science. It prepares students to teach Earth Science in grades 6-12.

A concurrent major will ensure that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

- EDST2450 - Foundations of Development and Learning Credits: 3
- ITEC2360 - Teaching with Technology Credits: 3
Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:
- EDEX2484 - Introduction to Special Education Credits: 3
- EDST3480 - Diversity & the Politics of Schooling Credits: 3
*A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.
A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.*
- EDST3100 - Teacher as Practitioner Credits: 3
- EDST3101 - Practicum 3 Credits: 2

Assessment

- EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Semester Only)

- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6
(3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Semester Only)

- EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Environmental Systems Science Foundations

- ESS1000 - Wyoming in the Earth System Credits: 3
or (3) credit approved equivalent
- PLNT1000 - Agroecology Credits: 4
OR
- ENR1200 - Environment Credits: 4
OR
- LIFE1010 - General Biology Credits: 4
- ENR1500 - Water, Dirt, and Earth's Environment Credits: 4
OR
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
OR
- GEOG1010 - Introduction to Physical Geography Credits: 4
OR
- GEOL1100 - Physical Geology Credits: 4
- CHEM1020 - General Chemistry I Credits: 4
- ESS2000 - Geochemical Cycles and the Earth System Credits: 4
OR
- GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
- ESS4950 - Exploring the Earth System Credits: 3

- ESS4970 - Internship in Earth System Science Credits: 1-6 (met through successful completion of Residency in Teaching: EDSE 4500)

Spheres

Other options might be available in some categories

1. Anthroposphere - Choose 1 Course

- AMST4030 - Ecology of Knowledge Credits: 3
- ENR4030 - Ecology of Knowledge Credits: 3
- ANTH4310 - Environmental Anthropology Credits: 3
- ENR4310 - Environmental Anthropology Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- ENR4412 - Global Environment History Credits: 3
- HIST4412 - Global Environment History Credits: 3
- ENR3950 - Environmental Sociology Credits: 3
- SOC3950 - Environmental Sociology Credits: 3
- GEOG3400 - Traditional Ecological Knowledge Credits: 3
- NAIS3400 - Traditional Ecological Knowledge Credits: 3
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4

2. Atmosphere - Choose 1 Course

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- ATSC2200 - Severe and Unusual Weather Credits: 3
- ERS3010 - Air Quality Management Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- GEOG4440 - Advanced Global Climate Variability Credits: 3

3. Biosphere - Choose 1 Course

- ENR2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
 - ZOO2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
 - LIFE2022 - Animal Biology Credits: 4
 - LIFE2023 - Biology of Plants and Fungi Credits: 4
 - LIFE3400 - General Ecology Credits: 3
 - GEOG4460 - Biogeography Credits: 3
 - REWM2000 - Principles of Rangeland Management Credits: 3
 - REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
 - REWM4440 - Applied Fire Ecology Credits: 3
- OR** complete all three of the following
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
 - ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
 - ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1

4. Lithosphere Environmental Change - Choose 1 Course

- ENR3130 - Environmental Quality Credits: 3
- SOIL3130 - Environmental Quality Credits: 3
- ENR4430 - Green Chemistry and Global Environmental Problems Credits: 3
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ESS3480 - Environmental Change Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOL3500 - Global Change: A Geological Perspective Credits: 4

5. Lithosphere Hydrology & Surface Processes - Choose 1 Course

- ENR4285 - Wildland Hydrology Credits: 3
- REWM4285 - Wildland Hydrology Credits: 3
- GEOG3010 - Geomorphology of Earth's Dynamic Landscapes Credits: 3
- GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4
- REWM4700 - Wildland Watershed Management Credits: 3
- REWM4710 - Watershed Water Quality Management Credits: 3

Skills & Tools

Data Analysis - Choose 1 course

- ENR4525 - Environmental Data Analysis Credits: 4
- GEOL4525 - Environmental Data Analysis Credits: 4
- ESS4001 - Analysis of Nature's Data Credits: 3
- GEOL3250 - Geosciences and Computers Credits: 4
- ZOO4400 - Population Ecology Credits: 3

GIS/Remote Sensing - Choose 1 course

- GIST1200 - Geospatial Foundations Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- GIST2140 - Survey of Remote Sensing Applications Credits: 3
- GIST2150 - Introduction to Programming in Geospatial Information Science and Technology Credits: 3
- GIST4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- RNEW4130 - Applied Remote Sensing for Agricultural Management Credits: 3

Additional Math/Science Courses

*Note: The general B.S. in ESS will allow for students to complete STAT 2050 (or 2070) **or** MATH 2200 and either PHYS 1050 **or** PHYS 1110. However, the ESSE program will require MATH 2200 + PHYS 1110 to meet additional teaching endorsement requirements in other sciences.

- MATH1400 - College Algebra Credits: 3
- MATH2200 - Calculus I Credits: 4
- Note: MATH1405 is a prerequisite to MATH2200
- PHYS1110 - General Physics I Credits: 4

Electives

A variable amount of elective courses is required to meet the minimum requirement. Work with your academic advisor to select appropriate elective courses. 13+ credit hours of electives are required to meet the UW minimum program requirement. Student

enrolled in the ESSE concurrent major program are highly encouraged to take STAT 2050 or STAT 2070 as an elective course. This concurrent major program meets the 18+ credit hours that ESS requires for a minor.

Secondary Science - Earth Science Education with Concurrent Major in Geology (GSSE), B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfill University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3

- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Earth Science Education and a concurrent major in Geology. It prepares students to teach Earth Science in grades 6-12.

A concurrent major will ensure that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

- EDST2450 - Foundations of Development and Learning Credits: 3
- ITEC2360 - Teaching with Technology Credits: 3

Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:

- EDEX2484 - Introduction to Special Education Credits: 3
- EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

- EDST3100 - Teacher as Practitioner Credits: 3
- EDST3101 - Practicum 3 Credits: 2

Assessment

- EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Semester Only)

- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6 (3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6 (4 credits required)

Residency (Offered Spring Semester Only)

- EDSE4500 - Residency in Teaching Credits: 1-16 (12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Required Geology Courses

- GEOL1100 - Physical Geology Credits: 4
- OR**
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
 - GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
 - GEOL2010 - Mineralogy Credits: 3
 - GEOL2020 - Introduction to Petrology Credits: 2
 - GEOL2100 - Stratigraphy and Sedimentation Credits: 4
 - GEOL2080 - General Field Geology Credits: 3
- OR**
- GEOL4717 - Field Course in Geology Credits: 1-8
 - GEOL4820 - Capstone Credits: 3
(Spring only course, MUST have 26 GEOL hrs completed before enrolling)

Required Additional Courses

- LIFE1010 - General Biology Credits: 4
 - CHEM1020 - General Chemistry I Credits: 4
 - PHYS1110 - General Physics I Credits: 4
 - STAT2050 - Fundamentals of Statistics Credits: 4
 - MATH1405 - Trigonometry Credits: 3
- OR**
- MATH1450 - Algebra and Trigonometry Credits: 5
 - ASTR1050 - Survey of Astronomy Credits: 4

Elective Courses:

Choose 6 courses from the following recommended list to obtain the minimum required hours.

- ATSC2000 - Introduction to Meteorology Credits: 4
- GEOL2050 - Principles of Paleontology Credits: 4
- GEOL2070 - Introduction to Oceanography Credits: 4
- GEOL3005 - Principles of Geophysics Credits: 4
- GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4

- GEOL3500 - Global Change: A Geological Perspective Credits: 4 (Highly Recommended)
- GEOL3600 - Earth and Mineral Resources Credits: 4
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
- GEOL4444 - Geohydrology Credits: 4
- GEOL4490 - Geochemistry Credits: 4
- GEOL4610 - Structural Geology and Tectonics Credits: 4
- GEOL4835 - Applied/Exploration Geophysics Credits: 3
- ECON2400 - Economics of the Environment Credits: 3
- GEOG3010 - Geomorphology of Earth's Dynamic Landscapes Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4
- ECON4400 - Environmental Economics Credits: 3
- ECON4410 - Natural Resource Economics Credits: 3

Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:

- EDEX2484 - Introduction to Special Education Credits: 3
- EDST3480 - Diversity & the Politics of Schooling Credits: 3

A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.

A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.

- EDST3100 - Teacher as Practitioner Credits: 3
- EDST3101 - Practicum 3 Credits: 2

Assessment

- EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Only)

- EDSE3273 - Subject Matter Specific Methods I: Secondary Social Studies Education Credits: 3-6 (3 credits required)

- EDSE4273 - Subject Matter Specific Methods II: Secondary Social Studies Education Credits: 3-6 (4 credits required)

Residency

- EDSE4500 - Residency in Teaching Credits: 1-16 (12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Political Science Core Requirements - 33 Credit Hours Minimum

- POLS1000 - American and Wyoming Government Credits: 3
- POLS1200 - Non-Western Political Cultures Credits: 3
- OR
- POLS1250 - Introduction to Comparative Government Credits: 3
- POLS2310 - Introduction to International Relations Credits: 3
- POLS2460 - Introduction to Political Philosophy Credits: 3
- OR
- POLS3600 - American Political Thought Credits: 3
- POLS 48XX Credits: 3
- POLS electives Credits: 18
 - At least 9 hours of the 18 total must be 3000 or 4000-level
 - At least 6 hours of the 18 total must be related to the U.S. Constitution
 - Highly recommend POLS 4100 and 4110

Required Additional Content - 36 Credit Hours Minimum

- HIST1211 - U.S. to 1865 Credits: 3
- HIST1221 - U.S. From 1865 Credits: 3
- HIST1110 - Western Civilization I Credits: 3
- OR
- HIST1320 - World History to 1500 Credits: 3
- HIST1120 - Western Civilization II Credits: 3
- OR
- HIST1330 - World History since 1500 Credits: 3
- GEOG1010 - Introduction to Physical Geography Credits: 4
- GEOG1000 - World Regional Geography Credits: 3
- OR
- GEOG1020 - Introduction to Human Geography Credits: 3
- ECON elective Credits: 3
- PSYC elective Credits: 3
- SOC or ANTH elective Credits: 3
- Single foreign language Credits: 8

Secondary Social Studies Education, B.A.

This degree program leads to initial teaching licensure (leading to teaching certification) with secondary concurrent majors.

University Studies Program Requirements

Several Professional Education and Core Content courses fulfil University Studies Program requirements.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Professional Education Requirements

Graduates of this program earn a Bachelor's Degree in Social Studies Education and a concurrent major in History or Political Sciences. It prepares students to teach Social Studies in grades 6-12.

A concurrent major ensures that graduates are highly qualified teachers and will expand career possibilities.

A minimum of 120 hours are required to obtain a UW baccalaureate degree, though, each program's hours will vary depending on major and additional options. All major courses must be passed with a grade of C or better. A minimum GPA of 2.75 in major content courses is required. A minimum of 42 credits must be upper-division.

An initial background check must be completed prior to starting any field or practicum experience. Student fees cover the cost of this initial background check so work with your College of Education advisor for details.

Foundations

- EDST2450 - Foundations of Development and Learning Credits: 3
- ITEC2360 - Teaching with Technology Credits: 3
Completion of EDST 2450 with a minimum grade of C or better is a prerequisite for the following courses:
- EDEX2484 - Introduction to Special Education Credits: 3
- EDST3480 - Diversity & the Politics of Schooling Credits: 3
*A minimum 2.75 UW cumulative GPA is required for registration in EDST 3100 and EDST 3101.
A copy of your valid Wyoming Substitute Teaching Permit must be on file with the Teacher Preparation and Advising Office no later than the first day of class.*
- EDST3100 - Teacher as Practitioner Credits: 3
- EDST3101 - Practicum 3 Credits: 2

Assessment

- EDST2550 - Educational Assessment Credits: 3

Methods (Offered Fall Semester Only)

- EDSE3273 - Subject Matter Specific Methods I: Secondary Social Studies Education Credits: 3-6
(3 credits required)
- EDSE4273 - Subject Matter Specific Methods II: Secondary Social Studies Education Credits: 3-6
(4 credits required)

Residency (Offered Spring Semester Only)

- EDSE4500 - Residency in Teaching Credits: 1-16
(12 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3

Major Content

Concurrent majors in social studies education are offered in History (120 minimum credits total), and Political Science (120 minimum credits total).

Majors must maintain a G.P.A. of 2.500 in major content courses and earn a grade of C or better in all content classes.

Concurrent Majors

- Secondary Social Studies Education with Concurrent Major in History, B.A.
- Secondary Social Studies Education with Concurrent Major in Political Science, B.A.

Minor

Early Childhood Education Options

The College of Education provides a few different options in early childhood at the University of Wyoming.

Early Childhood Education minor:

Students in related bachelor's degree programs take an additional 22 credits (7 or 8 courses) of specified coursework to complete and earn the minor. This minor does not need to include an option from the following lists, but it can. If a student chooses an internship as the elective course, then that student is eligible for option A or B below. (The College of Education teaches 15-18 of the required 22 credits)

- EDEC1020 - Introduction to Early Childhood Education Credits: 3
- FCSC2121 - Child Development Credits: 4 BOTH PSYC2300 (3 credits) AND FCSC2122 (1 credit) -or- ONLY FCSC2121 (4 credits)

OR

- PSYC2300 - Developmental Psychology Credits: 3
- AND**
- FCSC2122 - Child Development Lab Credits: 1 BOTH PSYC2300 (3 credits) AND FCSC2122 (1 credit) -or- ONLY FCSC2121 (4 credits)
 - EDEC2000 - Engaging Families in Early Childhood Settings Credits: 3
 - EDEC3000 - Observing Young Children Credits: 3
 - EDEC3220 - Curriculum and Learning Environments in Early Childhood Education Credits: 3
 - EDEC4320 - Oral and Written Language Acquisition Credits: 3

One approved elective (3 credits or more) from the list below:

*Note some course options taken at community colleges can meet this requirement (example EDEC 1100, 1105 or 1300).

*If students enrolled in the minor are also planning on getting their B-5 licensure or B-8 endorsement, the internship courses applicable to each option should be selected.

- EDEC2275 - Literature for Young Children Credits: 3
- EDEL2280 - Literature for Children Credits: 3 (*This cannot be used for an elective if used for the major and H requirement*)
- FCSC2131 - Family Relations Credits: 3
- FCSC3119 - Parent-Child Relationships Credits: 3

- FCSC3129 - Social Development in Young Children Credits: 3
- FCSC3220 - Multicultural Influences on Children and Families Credits: 3
- FCSC4124 - Families of Young Children With Special Needs Credits: 3
- FCSC4127 - Directing Preschool and Daycare Programs Credits: 3
- EDCI4140 - Storytelling Credits: 3
- EDEC4350 - Health Management Issues in Early Education Credits: 3
- EDEC5220 - Children with Disabilities Credits: 3

- SPPA2110 - American Sign Language I Credits: 4
- AND**
- SPPA2120 - American Sign Language II Credits: 4

- EDCI5580 - Internship1 Credits: 8
- FCSC4130 - Internship in Child Development Credits: 6-8

Minor Option 1: Early Childhood Education B-5 licensure:

Students in the Human Development and Family Sciences (HDFS) degree (and other related degree options) take additional credits/courses (6 credits from either EDEC 4580/EDEC 5580 or FCSC 4130 internship *this internship could be included within the minor program making it +3 total credits) to earn licensure through several pathways (see below). *Additional to the stand alone minor but must be enrolled in minor. *(Can lead to PTSB initial licensure)*

- i. HDFS students minor in early childhood leads (includes 6 credits of internship - offered by FCS) to B-5 licensure
- ii. Professional Child Development (online degree) - no minor because all minor courses are required for major (includes 6 credits of internship offered - by FCS) to B-5 licensure
- iii. Other related majors complete the minor and internship EDEC 4580 for B-5 licensure

Minor Option 2: Early Childhood Education B-8 endorsement:

Students in the Elementary Education degree program take an additional 7 courses to earn this add on endorsement. *Additional to the stand alone minor but must be enrolled in minor.

- i. Elem Ed students who student teach in a K-3 setting and complete all minor coursework and the internship EDEC 4580 (6 credits) are eligible to earn the endorsement; 7 courses

Non-degree seeking student Early Childhood Education options:

There are two options for non-degree seeking students who already hold a bachelor's degree. These are noted on the ECE Minor ACALOG page, but these students are not undergraduates and not enrolled in the minor.

- **B-8 endorsement** for any non-degree seeking student who already holds an elementary K-6 license can take the required 19 credits of coursework and a 6-credit internship EDEC 4580 to qualify for a B-8 endorsement.
- **B-5 initial teacher license** option for non degree seeking students holding a bachelor's degree in a related area (Human Development, Psychology, Communication Disorders, etc) and complete an internship EDEC 4580 in a B-5 setting. *(Can lead to PTSB initial licensure)*

Early Childhood Special Education B-5 endorsement:

Post-bac graduate certificate students who already have an Elementary Education, Family Consumer Sciences/Child Development, or other related degree options take an additional 8 courses (26 credits) to earn this add on endorsement. *(Can lead to PTSB certification)*

This is a pre-k program and does not prepare candidates to work in kindergarten or primary grade classrooms.

For more information, visit the web page (www.uwyo.edu/st/early-childhood-education/early-childhood-special-education.html)

- EDEC5220 - Children with Disabilities Credits: 3
- EDEC5230 - Curriculum and Materials for Young Children with Disabilities Credits: 3
- EDEC5240 - Evaluation of Young Children with Disabilities Credits: 3
- EDEC5250 - Legal Issues in Early Childhood Special Education Credits: 2
- FCSC4124 - Families of Young Children With Special Needs Credits: 3
- EDEC4350 - Health Management Issues in Early Education Credits: 3
- EDEC4320 - Oral and Written Language Acquisition Credits: 3
- EDEC5580 - Internship in Early Childhood/Early Childhood Special Education Credits: 1

Additional Information:

EDEC 1020 must be completed with C or higher before students are able to declare the ECE minor.

Graduate

Counseling, M.S.

The MS degree in Counseling program offers concentrations in school counseling and mental health counseling prepares you to become certified as a school counselor or with the training needed to become a provisionally licensed mental health counselor.

Options

- Counseling, M.S., Concentration in Mental Health Counseling
- Counseling, M.S., Concentration in School Counseling

Curriculum Requirements

The master of science degree in counseling is a 61 credit hours program. Full-time students can complete their chosen specialty in a 2-year period if they begin courses during the summer of their initial year and complete between 6-9 credit hours each summer and 9-12 credit hours each spring and fall.

Required Courses (49 Credit Hours)

- CNSL 5060 Counseling Ethics and Professional Issues (3 credit hours)
- CNSL 5110 Group Procedures (3 credit hours)
- 5140 Counseling and Addictions(3 credit hours)
- 5170 Career Across the Lifespan(3 credit hours)
- 5175 Human Growth and Development (3 credit hours)
- 5180 Assessment in Counseling (3 credit hours)
- 5200 Couples and Family Theory and Application (3 credit hours)
- 5210 Group Experience (1 credit hours)
- 5310 Pre-Practicum in Counseling (3 credit hours)

- 5320 Practicum in Counseling - 100 clock hours, 40 direct client hours (3 credit hours)
- 5330 Counseling Children and Adolescents (3 credit hours)
- 5340 Play Therapy (3 credit hours)
- 5350 Multicultural Counseling (3 credit hours)
- 5630 Advanced Issues in Counselor Preparation (3 credit hours)
- 5640 Diagnosis, Psychopathology and Psychopharmacology (3 credit hours)
- 5650 Counseling Theories (3 credit hours)
- EDRE 5530 Introduction to Research (3 credit hours)

Specialization Area Courses (12 Credit Hours)

School Counseling

- CNSL 5120 School Counseling Strategies and Techniques (3 credit hours)
- CNSL 5125 School Counseling II (3 credit hours)
- CNSL 5580 Supervised Internship (600 clock hours, 240 direct client hours) (6 credit hours)

Community Mental Health Counseling

- CNSL 5130 Mental Health Counseling (3 credit hours)
- CNSL 5150 Mental Health Counseling II (3 credit hours)

Additional Information:

The UW counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and is offered on campus in Laramie, or as an intensive weekend program for working professionals at UW Casper.

The UW Mental Health Counseling Program

Through small classes and clinical experiences, UW's mental health program prepares you to serve in settings that include community agencies, integrated delivery systems, hospitals, addictions treatment centers and private practice.

The UW School Counseling Program

The school counseling program equips you with the knowledge and skills to become a school leader who works with students, teachers, administrators, parents and other community members to promote culturally relevant P-12 student growth. The school counseling program allows you to earn this degree with no previous P-12 experience.

About Counseling

In UW's highly regarded counseling program, you will acquire the theoretical foundation and practical experience necessary to work with a wide-range of clients, from P-12 students to adults, families and couples.

As a counseling graduate student, you will become part of a cohort community with whom you'll study, learn and grow. You will also work with an award-winning team of faculty, who will guide you toward developing your counseling identity as you progress through your practicum and supervised internship. By the time you graduate, you will be well-prepared to step into a counseling position in any organization.

Counseling, M.S., Concentration in Mental Health Counseling

The MS degree in Counseling program offers concentrations in school counseling and mental health counseling prepares you to become certified as a school counselor or with the training needed to become a provisionally licensed mental health counselor.

Program Requirements

Core Courses

- CNSL5060 - Counseling Ethics and Professional Issues Credits: 3
- CNSL5110 - Group Procedures Credits: 3
- CNSL5140 - Counseling & Addictions Credits: 3
- CNSL5170 - Counseling and Career Across the Lifespan Credits: 3
- CNSL5175 - Human Growth and Development Credits: 3
- CNSL5180 - Assessment in CNSL Credits: 3
- CNSL5200 - Couple and Family Theory Credits: 3
- CNSL5210 - Group Experience Credits: 1
- CNSL5310 - Pre-Practicum Credits: 3
- CNSL5320 - Practicum Credits: 3
- CNSL5330 - Counseling Children and Adolescents Credits: 3
- CNSL5340 - Play Therapy Credits: 3
- CNSL5350 - Multicultural Counseling Credits: 3
- CNSL5630 - Trauma-Informed Counseling Credits: 3
- CNSL5640 - Diagnosis, Psychopathology, and Psychopharmacology Credits: 3
- CNSL5650 - Counseling Theories Credits: 2-3
- EDRE5530 - Introduction To Research Credits: 3

Core Subtotal: 49 Credits

Mental Health Counseling

- CNSL5130 - Mental Health Counseling Credits: 3
- CNSL5150 - Mental Health Counseling II Credits: 3
- CNSL5580 - Supervised Internship Credits: 1-6

Subtotal: 12 Credits

Minimum Total: 61 Hours

Additional Information:

The UW Master of Science degree in Counseling program offers concentrations in school counseling and mental health counseling that will prepare you to help people across the lifespan. Ours is a broad-based program that prepares you to become certified as a school counselor or provides you with the training needed to become a provisionally licensed mental health counselor. The UW counseling program is accredited by the Council for Accreditation of Counseling and Related Educational Programs (CACREP) and is offered on campus in Laramie, or as an intensive weekend program for working professionals at UW Casper.

Counselor Education and Supervision, Ph.D.

The UW Ph.D. program in counselor education and supervision is targeted to students who already hold a master's degree from a CACREP-accredited institution or equivalent and are seeking to become counselor educators and advanced practitioners.

Learning Outcome Areas Advanced Foundations

Ph.D. students with a 48-hour CACREP equivalent Master's degree are required to complete 12 semester hours of courses beyond their Master's preparation (in consultation with their adviser and committee). Ph.D. students with a 60-hour CACREP equivalent Master's program can petition up to 12 hours of their Master's coursework to fulfill this requirement.

Counseling and Supervision

- CNSL5340 - Play Therapy Credits: 3
- CNSL5860 - Doctoral Practicum in Counselor Education Credits: 1-8
- CNSL5865 - Supervision Theory Credits: 3
- CNSL5875 - Doctoral Practicum in Supervision Credits: 1-6

Teaching, Leadership and Advocacy

- CNSL5871 - Doctoral Seminar I: Professional Identity and Ethics Credits: 3
- CNSL5872 - Doctoral Seminar II: Diversity and Social Change Credits: 3
- CNSL5873 - Doctoral Seminar III: Research, Assessment & Scholarship Credits: 3
- CNSL5874 - Doctoral Seminar IV: Leadership, Consultation and Advocacy Credits: 3
- PRST5070 - Introduction to College Teaching Credits: 3
- CNSL 5990 - Internship Credits: 6

Research and Scholarship

12 credits chosen from the following (or equivalent) in consultation with major adviser and graduate committee.

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- EDRE5610 - Educational Research: Group Comparison Research Credits: 3
- EDRE5620 - Correlational Research Credits: 3
- EDRE5630 - Educational Research IV: Multivariate Research Credits: 3
- EDRE5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research Credits: 3
- EDRE5655 - Ethnography and Narrative Inquiry in Qualitative Research Credits: 3
- EDRE 5650 - Adv. Qual Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3

Dissertation

- PRST5890 - Directed Professional Study Credits: 1-9

Total: 72 Credits

Additional Information:

Doctoral students are required to have completed a minimum of a 48-hour Master's degree from a program of study equivalent to a CACREP accredited Masters program in Counselor Education. These requirements are based upon the 2015 CACREP Standards.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.

- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Curriculum and Instruction, Ph.D., Concentration in Curriculum Studies

Offered online with a residency component, the UW curriculum and instruction program allows you to choose from among four concentrations to satisfy many of your requirements at a distance or face-to-face residency experiences.

Required Courses

REQUIRED COURSES (80 CREDIT HOURS)

Program Knowledge Base

Students must take 6 credit hours of the required courses listed below.

- PRST 5610 Intro to Doctoral Studies (3 credit hours)
- EDCI 5810 Writing for Professional Publication (3 credit hours)

Students must then select an additional 6 credit hours of elective courses. Course selection is subject doctoral committee approval.

- EDCI 5600 Diversity in Education (3 credit hours)
- EDCI 5800 Curriculum Development (3 credit hours)
- EDAD 5720 - Educational Leader as Change Agent (3 credit hours)
- EDAD 5650 - Educational Leader as Communicator (3 credit hours)
- EDCI 5665 History & Philosophy of Education (3 credit hours)
- EDCI 5730 Learning & Cognition (3 credit hours)
- PRST 5900 Practicum in College Teaching (3 credit hours)
- Other graduate-level courses determined in consultation with committee

Advanced Research Courses

Students must take 6 credit hours of the required courses listed below.

- EDRE 5600 - Ed Research 1: Descriptive (3 credit hours)
- EDRE 5640 - Intro to Qualitative Research (3 credit hours)

Students must then select an additional 6 credit hours of elective research courses. Course selection is subject doctoral committee approval.

- EDRE 5121 - Ethics in Research and Professional Practice (3 credit hours)
- EDRE 5530 - Introduction to Research (3 credit hours)
- EDRE 5550 - Action Research (3 credit hours)
- EDRE 5610 - Ed Research 2: Group Comparison (3 credit hours)
- EDRE 5620 - Ed Research 3: Correlational (3 credit hours)
- EDRE 5630 - Ed Research 4: Multivariate (3 credit hours)
- EDRE 5650 - Advanced Qualitative Research Methods (3 credit hours)
- EDRE 5870 - Mixed Methods or other Seminar (3 credit hours)
- Other graduate-level research course determined in consultation with committee

Practicum/Internship

Two credit hours. Must be determined with doctoral committee.

- EDCI 5580 - Internship (2 credit hours)

Curriculum and Instruction Specialization

Students must select a minimum of 15 credit hours around one area at the 4000 level or better; courses below are menu options, not requirements. Course selection is subject doctoral committee approval.

- ITEC 5030 Introduction to Online Teaching (3 credit hours)

Foundations of Education

- ADED 5050 Learning Theories for Education (3 credit hours)
- ADED 5510 Adult Ed Movement in the US (3 credit hours)
- ADED 5680 Issues in Higher Education (3 credit hours)
- ADED 5710 International and Comparative Education (3 credit hours)
- EDCI 5665 History & Philosophy of Education (3 credit hours)
- EDCI 5050 MSGI Issues in Education (3 credit hours)
- ADED 5260 Educational Issues in Race, Class & Gender (3 credit hours)
- FCSC 5114 Human Lifespan Development (3 credit hours)
- FCSC 5117 Understanding Community Leadership (3 credit hours)
- FCSC 5122 Developmental Contexts Across the Lifespan (3 credit hours)
- EDCI 5070 International Issues in Education (3 credit hours)
- Other graduate-level coursework determined in consultation with committee (3 credit hours)

Early Childhood/Elementary Education

- EDCI 5140 Storytelling (3 credit hours)
- EDCI 5160 Recent Trends in Children's Literature (3 credit hours)
- EDEC 5210 Special Topics in Early Childhood Education (3 credit hours)
- EDCI 5050 MSGI Issues in Education (3 credit hours)
- ADED 5260 Educational Issues in Race, Class & Gender (3 credit hours)
- EDEC 5240 Eval Young Children W/Disabilities (3 credit hours)
- EDEC 5220 Children with Disabilities B-5 (3 credit hours)
- EDEC 5230 Curriculum for Young Children with Disabilities (3 credit hours)
- EDEC 5250 Legal Issues in Early Childhood Special Education Health Management (3 credit hours)
- EDEC 4350 Issues in Early Childhood Special Education (3 credit hours)
- FCSC 4124 Families of Young Children with Special Needs (3 credit hours)
- FCSC 5120 Infancy and Toddlerhood (3 credit hours)
- FCSC 5129 Seminar in Child Development (3 credit hours)
- FCSC 5132 Seminar in Family Studies (3 credit hours)
- FCSC 5112 Family Decision and Resource Management (3 credit hours)
- FCSC 5138 Family Stress/Coping (3 credit hours)

American Indian Education

- EDCI 5110 Educational Foundations of American Indian Education (3 credit hours)
- EDCI 5121 History and Philosophy of American Indian Education (3 credit hours)
- EDCI 5130 Cultural Foundations of American Indian Education (3 credit hours)
- EDCI 5141 Instructional Methods in American Indian Education (3 credit hours)
- Other graduate-level coursework determined in consultation with committee (3 credit hours)

English as a Second Language

- EDCI 5350 Introduction to Second Language Acquisition (3 credit hours)
- EDCI 5430 ESL Theory and Methods I (3 credit hours)
- EDCI 5440 ESL Theory and Methods II (3 credit hours)
- EDCI 5760 Social Literacies (3 credit hours)
- Other graduate-level coursework determined in consultation with committee (3 credit hours)

Secondary Content Area

- 15 hours of content-area graduate-level coursework determined in consultation with committee

Dissertation in Practice

Students must take all 12 credit hours listed below.

- EDCI 5980 - Dissertation Research (6 credit hours)
- EDRE 5660 Dissertation Prospectus Writing (6 credit hours)

OTHER REQUIREMENTS

After coursework is completed, you must satisfy the below requirements before completing your program and gaining your doctoral credential.

- **Preliminary Exam** - After completing your coursework you will need to take a preliminary exam.
- **Program Outcomes** - You must submit written demonstration to show you have met the learning outcomes determined by your program, department, or committee.
- **Dissertation** - After your preliminary exam, you will present and defend your doctoral dissertation.
- **Residency** - You must satisfy all requirements of your residency.

Additional Information:

Application Process:

Applications for the Doctor of Philosophy in Curriculum and Instruction, Curriculum Studies concentration are due **September 1** for spring semester admission and **February 1** for summer or fall semester admission.

Applications for the PhD in Curriculum Studies are only reviewed two times per year: immediately after September 1 and immediately after February 1. If you require an earlier decision, please apply for the deadline a year prior to ensure your application can be reviewed in time for planning international study.

Minimal Admissions Criteria for PhD Program

Applicants must meet the following criteria to be considered for admission; however, meeting minimal admissions criteria does not automatically ensure admission to the program.

- Master's degree from an accredited institute of higher education.
- It is highly recommended these courses are taken prior to admission, but can be taken within the first semesters of admission to the PhD Program. EDRE 5530 Intro to Research, EDCI 5000 Principles of Curriculum, EDCI 5450 Issues in Multicultural Education, and EDCI 5790 Advanced Instructional Strategies, or equivalent coursework.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample, an indicator of the applicant's proficiency in writing. For a full description of the letter of intent and scoring categories, see guideline below.
- Three (3) years of P-12 teaching experience or its equivalent.
- Copy of GRE scores, current within the last five years.

- Three letters of recommendation, completed by an individual familiar with the applicant's academic performance, a current or recent supervisor, and/or a selected colleague and/or community member.
- Transcript evaluation for undergraduate/graduate degree completion, reflecting a minimum 3.0 GPA on a 4.0 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- A TOEFL score of 525 (paper-based), 197 (computer-based) or above is required for international students. Students may occasionally be admitted provisionally with lower test scores.
- Submission of all required supplemental materials:

Required Supplemental Materials

- Three Letters of Recommendation
- Sample of academic writing
- Transcripts reflecting most recent degree (3.0 GPA on a 4.0 scale required) from an accredited institution plus transcripts from all other schools attended. Unofficial transcripts can be submitted through the online application. Official ones will be required if admitted.
- Copy of GRE scores
- Letter of Intent describing career goals and reasons for pursuing a graduate degree at the University of Wyoming
- Resume
- Demonstration of teaching experience
- A TOEFL score of 525 (paper-based), 197 (computer exam) or above is required for international students. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Please note that meeting minimal admissions criteria does NOT automatically ensure admission to a program.

Guidelines for Letter of Intent

A letter of intent must be submitted with other required admissions materials. The letter of intent serves as a writing sample, an indicator of the applicant's proficiency in writing. The admissions committee will be examining both the quality of the written sample and the depth of its content. In the letter of intent please address the following questions:

- **Teaching Experiences:** Provide a detailed description of your teaching experiences including how many years you have taught as well as what grades and/or subjects you have taught. Describe crucial aspects of your teaching experience and how you have developed as a teacher as a result of these experiences. Finally explain how your teaching background will influence your graduate studies.
- **Personal Strengths:** Explain what you will bring to our program and your classes that may demonstrate your ability to be a successful graduate student and ability to contribute to the learning environment.
- **Academic Goals:** Describe in detail why you wish to pursue a Doctor of Education in Curriculum and Instruction, including why you want to do so at this time and how you are planning to use the degree in the future. Include a description of specific areas of study you are interested in and include your goals for graduate study and why these goals are important?
- **Potential Advisor(s):** If you have communicated with a professor(s) in your area of interest and/or she or he has indicated willingness to work with you on your doctorate degree program, please include her or his name in your letter.

The letter should be typed (double-spaced) on 8.5 by 11 inch paper. Letters of intent will be scored by a rubric that evaluates two areas:

- Ideas/Content Development; and,
- Organization/Structure/Mechanics/Format.

Each category is ranked as Outstanding, Proficient, Marginal, or Deficient. An overall score of Proficient is required for acceptance to the Doctor of Philosophy degree program.

Guidelines for Academic Resume

Include the following in your resume:

- Personal Information: Name and Contact Information (Address, Phone numbers, email)
- Education: Institution, City, State, Dates Attended, Major, and Degree
- Work Experience: Dates, Job Title, Employer, City, State
- Professional experiences such as: Publications, Presentations and Grants; Continuing Education Activities, Awards/Honors Received; Community and Volunteer Activities; Professional Memberships; other pertinent information

General Requirements for Curriculum & Instruction PhD in Curriculum Studies

Minimum of 81 total credits required. Students may transfer up to 30 credits from a master's degree program completed at an accredited institution.

Residency Information

PhD Program Requirements | College of Education

If you feel that you have met any degree requirements through a previously obtained master's degree or coursework at another institution, contact your advisor to determine the correct procedure. Note that the Introduction to Doctoral Studies course requirement may not be waived.

Minimum of 79 total credits required in the following areas:

Core courses (minimum of 9 credits)

All PhD option areas require PRST 5610 (Intro to Doctoral Studies). In addition, doctoral students, with direction from their committees, will choose a minimum of two additional courses from the remaining five core courses:

- PRST 5900 (Practicum in College Teaching)
- EDCI 5600 (Diversity)
- EDCI 5810 (Writing for Publication)
- EDCI 5730 (Learning and Cognition)
- EDAD 5720 (Leader as Change Agent)
- EDRE 5660 (Dissertation/Thesis Prospectus Writing)

Cognate courses and advanced courses (minimum of 18 credits)

Advanced research courses (minimum of 12 credits)

Dissertation Hours

All PhD Students are required to have a minimum of 12 dissertation credit hours.

Other Requirements

- Preliminary exam (after coursework is completed): Guidelines determined by program, department, or committee
- Program Outcomes: Written demonstration is required to show PhD outcomes are met (determined by program, department, or committee)
- Dissertation (after preliminary exam): Guidelines determined by program, department, or committee
- Residency (check with program area for specific requirements)

Notes: These requirements for a PhD in Education are minimum requirements only. Refer to specific program options for additional requirements, including admissions criteria. Options approved prior to May 2009 may have different requirements.

Curriculum and Instruction, Ph.D., Concentration in Literacy Education

Offered online with a residency component, the UW curriculum and instruction program allows you to choose from among four concentrations to satisfy many of your requirements at a distance or with face-to-face experiences.

Required Courses

REQUIRED COURSES (79 CREDIT HOURS)

Program Knowledge Base

Students must complete 9 hours of core courses. You must take the required course listed below and then select an additional 6 credit hours of courses in consultation with your doctoral advisor and committee.

- PRST 5610 - Introduction to Doctoral Study (3 credit hours) *Required*

Electives chosen in consultation with committee:

- EDCI 5600 - Diversity in Education (3 credit hours)
- EDRE 5660 - Proposal Writing (3 credit hours)
- EDAD 5720 - Educational Leader as Change Agent (3 credit hours)
- EDCI 5810 - Writing for Professional Publication (3 credit hours)
- CNSL 5900 - Practicum in College Teaching (3 credit hours)

Advanced Research Courses

Students must take a minimum of 12 hours of research methods in quantitative, qualitative, or other methodologies. Student must take the required courses listed below and then select an additional 3 credit hours of courses in collaboration with their doctoral advisor and committee.

- EDRE 5530 - Introduction to Research (3 credit hours) *Pre-requisite if not taken as part of the master's work. Does not meet doctoral level requirements.*
- EDRE 5600 - Ed Research 1: Descriptive (3 credit hours) *Required*
- EDRE 5640 - Intro to Qualitative Research (3 credit hours) *Required*

Electives chosen in consultation with committee:

- EDRE 5610 - Ed Research 2: Group Comp. (3 credit hours)
- EDRE 5620 - Ed Research 3 - Correlational (3 credit hours)
- EDRE 5630 - Ed Research 4: Multivariate (3 credit hours)
- EDRE 5550 - Action Research (3 credit hours)
- EDRE 5645 - Phenomenology, Case Study, Grounded Theory (3 credit hours)
- EDRE 5655 - Ethnography & Narrative Inquiry (3 credit hours)
- EDRE 5870 - Introduction to Discourse Analysis (3 credit hours)
- EDRE 5670 - Mixed Methods Research (3 credit hours)

Literacy Education Concentration

A student must enroll in all 21 credit hours listed below. If additional courses are needed, they can be selected from graduate-level courses within the literacy program or from other relevant academic departments at the UW. Course selection decisions will be made collaboratively by the doctoral student, their advisor and committee.

- LTED 5480 - Issues in English as a Second Language and Bilingual Education
- LTED 5800 - Theoretical Perspectives on Literary Processes and Practices
- LTED 5810 - Theoretical Perspectives on Writing
- LTED 5830 - Review, Critique, and Synthesis of Literacy Research
- LTED 5850 - Foundational Scholars in Social Science Research
- LTED 5860 - History of Literacies
- LTED 5880 - Public Digital Scholarship

Dissertation Hours

Students must enroll in a minimum of 12 hours of dissertation research credit during the period they plan, implement, and defend their dissertation.

- EDCI 5980 Dissertation Research (6 credit hours) *Required*
- EDRE 5660 Dissertation Prospectus Writing (6 credit hours)

OTHER REQUIREMENTS

After coursework is completed, you must satisfy the below requirements before completing your program and gaining your doctoral credential.

- **Preliminary Exam** - After completing your coursework you will need to take a preliminary exam.
- **Program Outcomes** - You must submit written demonstration to show you have met the learning outcomes determined by your program, department, or committee.
- **Dissertation** - After your preliminary exam, you will present and defend your doctoral dissertation.
- **Residency** - You must satisfy all requirements of your residency.

Additional Information:

Graduate students will take advanced coursework in Literacy Education, collaborate with faculty on grants and research projects, and have the opportunity to teach and supervise students in undergraduate literacy education courses. In addition to acquiring a breadth of knowledge in foundational areas in literacy education, students will have an opportunity to focus on specific areas in literacy education, such as Emergent Literacy, Family Literacy, Early Childhood Literacy, Elementary Grade Literacy, Adolescent Literacy, Disciplinary Literacy, Children's and Young Adult Literature, English Education, Literacy Teacher Education, New Literacies, Evaluation and Instruction of Students with Reading Difficulties, Literacy Education for English Learners, and Literacy Education for Culturally Diverse Students.

Application Process

For students to be considered for admission to the PhD in Literacy Education program, they must:

- **Submit all application materials. Please note: Preference will be given to applicants who apply on or before February 1 each year for the following year.**

Deadlines

- Applications for program are due **September 1** for spring semester admission and **February 1** for summer or fall semester admission.
- Complete an online application to the Literacy Education PhD Program. Submit supporting materials with the online application (see below).
- Have a minimum cumulative GPA of 3.00 in prior undergraduate or graduate work
- Interview with Literacy Education Program faculty, either in person or via telephone
- Master's degree is preferred

Supporting materials include:

- A current resume or vita;
- A detailed letter that expresses why the applicant wishes to pursue a PhD in Literacy Education, including the applicant's career goals; the applicant's prior experiences in literacy or literacy education (e.g., relevant teaching or other educational experiences); previous university degrees, programs, certificates, or emphases related to literacy; potential areas of focus in a literacy doctoral program; potential research interests; and any other information the applicant considers to be relevant to her or his admission;
- Three Letters of Recommendation from those who can speak to the applicant's intellect, scholarly abilities, teaching ability, or other qualifications for doctoral study. These letters typically would be former professors, supervisors, or administrators;

- An official report of the Graduate Record Examination (GRE) that was taken within the preceding 5 years;
- An Application for a Graduate Assistantship should the student wish to seek one;
- An academic writing sample is not required, but is preferred.
- TOEFL or IELTS test is required for international students. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Coursework:

A minimum of 54 hours beyond the master's degree are required as follows:

- **Research:** A minimum of 12 hours of research methods in quantitative, qualitative, or other methodologies are required. The courses will be selected collaboratively by the doctoral student and her or his PhD advisor and committee such that the research methodology training is thorough, rigorous, and compatible with the student's dissertation research plans and anticipated career research focus.
- **Core:** Students must complete 9 hours of core courses. Students must enroll in PRST 5610, "Introduction to Doctoral Study," and two of the following courses selected collaboratively by the doctoral student and her or his PhD advisor and committee:
 - PRST 5900 Practicum in College Teaching
 - EDCI 5600 Diversity in Education
 - EDCI 5810 Writing for Professional Publication
 - EDCI 5730 Learning Theories: Research & Praxis
 - EDCI 5665 History & Philosophy of Education
- **Literacy Education:** A minimum of 21 hours of doctoral literacy coursework is required, which includes the following seven courses (i.e., LTED 5800, 5880, 5860, 5830, 5850, 5480, and 5810). Additional courses may be selected from existing and new advanced, graduate-level courses within the Literacy Program Area; from courses in other departments in the College of Education; and from other relevant academic departments at the University (e.g., Anthropology, Communication Disorders; English, Family and Consumer Sciences; African American, Chicano, American Indian, or Women's Studies; Psychology, Sociology). Course selection decisions will be made collaboratively by the doctoral student in consultation with the student's PhD advisor and committee based on the doctoral student's prior graduate work and post-doctorate career goals.
- **Dissertation Research:** Students must enroll for a minimum of 12 hours of dissertation research credit during the period they plan, implement, and defend their dissertation.
- **Preliminary Examination:** The Preliminary Examination (also called the Comprehensive Examination) for the PhD in Literacy Education is governed by policies specified in Chapter 1 of the UW Student Handbook/Thesis & Dissertation Format Guide. Program-specific procedures for the preliminary examination for the PhD in Literacy Education are as follows

Research Apprenticeship:

Doctoral students are required to participate in a research apprenticeship in which they work closely with a faculty member in order to gain experience and skills in conducting research. The apprenticeship may involve an ongoing faculty project or may be a project initiated by the student and faculty member. Examples of acceptable apprenticeships include:

- writing an IRB or grant proposal
- collecting and analyzing data (e.g., a qualitative analysis, a statistical analysis)

- writing a research report for publication independently or collaboratively with a faculty member
- presenting theoretical or empirical work at a professional conference independently or collaboratively with a faculty member
- a project that enhances the student's ability to conduct rigorous educational research.

The Research Apprenticeship must be approved in advance by the doctoral committee, and at the committee's discretion, students may enroll for independent study graduate credit as part of the Research Apprenticeship experience

Curriculum and Instruction, Ph.D., Concentration in Mathematics Education

Mathematics Education is a new specialization in the UW Curriculum and Instruction doctoral program which includes the creation of innovative emphases and approaches for solidly prepared scholar-leaders for the field of Mathematics Education.

Required Courses

- **Program Knowledge Base**

Select 15 credit hours from the below list. Students should consult their advisor before choosing to take either EMAT 5150 or EMAT 5160.

- EMAT 5150
- EMAT 5160
- EDCI5600 - Diversity in Education Credits: 3
- EDCI5730 - Learning and Cognition Credits: 3
- EDAD5720 - Educational Leader as Change Agent Credits: 3
- EDAD5650 - Educational Leader as Communicator Credits: 3
- EDRE5660 - Dissertation/Thesis Prospectus Writing Credits: 3
-

- **Mathematics Education Specialization**

Students must take all 18 credit hours listed below.

- EMAT5100 - Theory and Research for Mathematical Learning Credits: 3
- EMAT5200 - Advanced Study of Mathematics Curriculum, Assessment, and Evaluation Credits: 3
- EMAT5300 - Theory and Practice for Mathematics Teaching and Teacher Education Credits: 3
- EMAT5400 - Analysis and Critique of Research in Mathematics Education Credits: 3
- EMAT5600 - Quantitative Reasoning & Modeling in Mathematics and Science Education Credits: 3
- EMAT5700 - Principles and Methods for Integrated Teaching & Learning Mathematics & Science Credits: 3
- EMAT Culture, Power and Identity in Mathematics Education, Credits: 3
-

Advanced Research Courses

Select 9 credit hours from the below list. Coursework in both qualitative and quantitative research is required and courses can be taken outside the College of Education. Course selection is subject doctoral committee approval.

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- EDRE5610 - Educational Research: Group Comparison Research Credits: 3

- EDRE5620 - Educational Research: Correlational Research Credits: 3
- EDRE5630 - Educational Research IV: Multivariate Research Credits: 3
- EDRE5550 - Action Research Credits: 3
- EDRE5640 - Introduction to Qualitative Research Credits: 3
- EDRE5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research Credits: 3
- EDRE5655 - Ethnography and Narrative Inquiry in Qualitative Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3

- **Practicum/Internship**

Two credit hours. Must be determined with doctoral committee.

- EDCI5580 - Internship1 Credits: 8

- **Dissertation in Practice**

Students must take a minimum of 6 credit hours.

- EMAT5980 - Dissertation Research Credits: 1-12

Additional Information:

Deadlines

Applications for program are due **September 1** for spring semester admission and **February 1** for summer or fall semester admission.

Application Materials

All supporting materials should be submitted through the online application system.

Required materials for consideration into the Curriculum & Instruction PhD program in Mathematics Education include:

- Writing sample (an article, master's thesis, or well done project/course paper)
- An application letter, which discusses yourself, your experience, and your potential research interests
- A resume or curriculum vita
- Three letters of reference
- Transcripts from all universities attended. Unofficial transcripts can be loaded to the online application system, but if admitted to the University, official transcripts will need to be sent prior to beginning the program
- Copy of GRE scores
- International students must submit scores for a language proficiency exam, such as TOEFL or IELTS. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.
- Master's degree in mathematics, mathematics education, or a related area is required
- A minimum of three years of teaching experience is required

Program Requirements

Overall, the doctoral program will require at least 81 semester hours completed within a coherent program of study developed and approved by the candidate's Major Professor and Doctoral Committee (which may include transferring up to 30 approved graduate semester hours from work completed toward a master's degree).

The overall structure includes:

Course Type	Hours Required
College-wide core	9 hours
Mathematics	9 hours
Mathematics Education	18 hours
Electives	21 hours
Research & dissertation	24 hours
Total	81 hours

To satisfy Mathematics Education hours (18), the following EMAT courses (four required and two joint electives with Science Education) are offered:

Theory and Research for Mathematical Learning and Development
Theory and Practice for Mathematics Teaching and Teacher Education
Advanced Study of Mathematics Curriculum, Assessment and Evaluation
Analysis and Critique of Research in Mathematics Education
Quantitative Reasoning and Modeling in Mathematics and Science Education
Principles and Methods for Integrated Teaching and Learning of Mathematics and Science

These advanced Mathematics Education courses along with graduate study in Mathematics and Statistics, and Quantitative and Qualitative Research Methodologies, collectively build knowledge of theoretical and empirical perspectives to lead to a solid competence for engaging in both scholarly and practical work in the field at all levels. One program goal is to stimulate and guide each student to develop their dissertation research as a first step within a well-defined research program that can encompass the initial years of their post-doctoral scholarship.

Annual Review of Progress/Program Timeline

The following provides a framework to specify general expectations and be suggestive of the scope and sequence of the program, while realizing that all specific courses will be selected in consultation with the Major Professor and approved by the Doctoral Committee to satisfy the individual goals and needs of the student. An overall GPA of 3.0 must be maintained.

Year 1 (minimum 18 hours)

- Complete two mathematics education courses, receiving at least a B in each.
- Complete at least one college-wide core course (e.g., EDCI 5870 Introduction to Doctoral Studies)
- Complete at least one appropriate graduate mathematics course
- Complete two research methodology courses
- Completion of electives as recommended
- Identify and establish the choice of Major Professor; in consultation develop a program of study; establish the Doctoral Committee

- At year-end, submit preliminary proposal of research interests and ideas, and an annual self-evaluation; begin development of Reading List

Year 2 (minimum 18 hours)

- Complete two mathematics education courses, receiving at least a B in each.
- Complete at least one college-wide core course
- Complete at least one appropriate graduate mathematics course
- Complete two research methodology courses
- Completion of electives as recommended
- In Fall, conduct initial Doctoral Committee meeting; discuss and approve program of study; preliminary discussion of research interests
- Maintain and extend the Reading List; by mid-Spring, share it with the Doctoral Committee for review and feedback
- At year-end, submit an updated proposal of potential dissertation research, and an annual self-evaluation
- Submit a proposal to write and present a scholarly paper to a recognized mathematics education research conference (typically in collaboration with other graduate students and/or one or more faculty members)
- Conduct Doctoral Committee meeting to finalize Reading List and to frame and plan for completion of the written comprehensive exams before the end of Fall term

Year 3 (minimum 18 hours)

- Complete all additional courses on the approved Program of Study
- Enroll in at least 6 hours of dissertation research to conceptualize and develop the dissertation research proposal (which may include a pilot or preliminary study)
- Complete oral exams, and the defense and approval of the dissertation research proposal; obtain IRB approvals as needed
- Begin dissertation research project: complete detailed plans, collect data, engage analyses, begin writing as appropriate
- Submit a scholarly manuscript to a recognized mathematics education research journal (typically in collaboration with other graduate students and/or one or more faculty members)
- Submit an annual status report and self-evaluation

Year 4/Year 5 (as needed)

- Enroll in at least 6 hours of dissertation research each semester
- Continue toward completion of the dissertation research
- Finish writing, and defend the dissertation research; present your research at a Mathematics Education colloquium
- As feasible, begin developing one or more scholarly manuscripts based upon the dissertation
- Conduct search and interviews for seeking a post-doctoral position

In the culture of our program, we seek to function as faculty and students in a dynamic community of active scholars. As such, we acknowledge that many significant developmental experiences for doctoral students must and will take place outside formal course venues. Therefore, all students and faculty are expected to be vitally involved in ongoing research, development, and outreach projects and activities in which continuous interaction and collaboration occurs, within Mathematics Education and other disciplines.

Curriculum and Instruction, Ph.D., Concentration in Science Education

The Curriculum and Instruction PhD Program in Science Education prepares students for productive careers in apprenticeship model to produce scholarly work in science education.

Course Requirements

REQUIRED COURSES (81 CREDIT HOURS)

Program Knowledge Base

Select 9 credit hours from the below list.

- PRST 5610 - Intro to Doc Studies (3 credit hours)
- PRST 5070 - Intro to College Teaching (3 credit hours)
- EDCI 5600 - Diversity in Education (3 credit hours)
- EDRE 5660 - Proposal Writing (3 credit hours)
- EDCI 5730 - Learning and Cognition (3 credit hours)
- EDCI 5810 - Writing for Professional Publications (3 credit hours)

Advanced Research Courses

Select 18 credit hours from the below list. Coursework in both qualitative and quantitative research is required and courses can be taken outside the College of Education. Course selection is subject doctoral committee approval.

- ESCI 5200 - Contemporary Science Education Research (3 credit hours)
- EDRE 5530 - Intro to Research (3 credit hours)
- EDRE 5610 - Ed Research 2: Group Comparison (3 credit hours)
- EDRE 5620 - Ed Research 3: Correlational (3 credit hours)
- EDRE 5630 - Ed Research 4: Multivariate (3 credit hours)
- EDRE 5640 - Intro to Qualitative Research (3 credit hours)
- EDRE 5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research (3 credit hours)
-

Research in Science Education

Students must take all 6 credit hours listed below.

- ESCI 5300 Research in Science Ed I (3 credit hours)
- ESCI 5350 Research in Science Ed II (3 credit hours)

Mathematics Education Specialization

Select 9 credit hours from the below list. Course selection is subject doctoral committee approval.

- ESCI 5250 - Cognition and Learning in Science and Math Education
- ESCI 5600 - History and Philosophy of Science and Mathematics Education
- ESCI 5610 - Informal Science Learning Environments
- ESCI 5630 - Science Teacher Education & K12 Professional Development
- EDCI 5870 - Special Topics in Science Education
- Relevant EMAT courses

Electives

Students should work with their advisor to select 21 credit hours to complete the elective requirement. Note that some or all of the elective courses are courses completed as part of the master's degree.)

Dissertation

Students must take a minimum of 6 credit hours.

- ESCI 5100 - Science Education Research Colloquium (1-6 credit hours)

Additional Information:

The Curriculum and Instruction PhD Program in Science Education prepares students for productive careers in scholarly inquiry at research & outreach centers and universities. In an apprenticeship model, students study with a cadre of professionally active faculty to produce scholarly work, take advanced coursework in science education, collaborate with faculty on grants and research projects, and have opportunities to teach undergraduate courses in education and science.

Program Specific Requirements

- As part of the online application, provide a letter of intent. In this letter, describe why you wish to pursue a PhD in Science Education, including your career goals; your prior experiences in science or science education (e.g., relevant teaching or other educational experiences); previous university degrees, programs, certificates, or emphases related to science; potential areas of focus in a science doctoral program; potential research interests; and any other information you consider to be relevant to your admission.

Additional Requirements and Important Information

- GRE scores are required. The admissions committee will consider the Verbal Reasoning and Quantitative Reasoning scores in its determination. Effective July 1, 2016 applicants must have GRE scores of 153 Verbal and 144 Quantitative Reasoning or higher to be considered for admission. Minimum scores do not guarantee admission. Other criteria, as well as faculty capacity, will be considered in the admission process.
- Applicants need to contact a member of the Science Education PhD Program faculty, either in person or via telephone, to discuss career and research goals. This assists us in assigning a graduate advisor upon admission.
- Following the application review, the program faculty will make a recommendation regarding admission for Graduate Study at UW. Applicants will be notified of the decision by email. Applications will be considered at any time, but students who apply by January 15 will receive full consideration for graduate assistantships for the following academic year.
- Applicants are evaluated on alignment of research interests with those of existing faculty, clarity of application letter and goals, prior teaching or work experience, letters of recommendation, transcripts (including GPA) and previous research experience with an accompanying sample of professional writing if available, according to the Science Education PhD Admissions Rubric.
- International students must have TOEFL scores of 540 (paper based test), 76 (internet based test), 197 (computer based test) or IELTS scores of 6.5 higher. Minimum scores do not guarantee admission. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Program Details

The Curriculum & Instruction PhD. Option in *Science Education* prepares students for productive careers in scholarly inquiry at research & outreach centers and universities. In an apprenticeship model, students study with a cadre of professionally active faculty to produce scholarly work, take advanced coursework in science education, collaborate with faculty on grants and research projects, and have opportunities to teach undergraduate courses in education and science.

Coursework

The Science Education PhD option requires a minimum of 81 semester credits of coursework and dissertation hours. As many as 30 credit hours from a Masters degree program may be applied to the PhD program, subject to committee approval.

Courses must be taken in the following areas:

- Doctoral Studies (3 courses)
- Science Education Core (3 courses)
- Research in Science Education (2 courses)
- Research methods/Graduate Science Content (6 courses)
- Science Education Research Colloquium (1-6 credits)
- Dissertation (minimum of 6 credits)

Residency

The standard residency requirement is a minimum of one (1) semester. The purpose and intent of a residency requirement is to provide close, collaborative teaching, research, and writing opportunities with faculty members. Summer terms will count toward this requirement. If personal circumstances will not accommodate a semester on campus in Laramie, contact the Program Coordinator for possible options.

Additional Expectations

In order to be successful, students need to demonstrate throughout the program an understanding of research methodologies, data analysis, and academic writing.

Although not necessarily available for graduate credit, the following activities are expected to be completed, as approved, monitored, and assessed by a students' committee, prior to defense.

- Completed, supervised teaching internship during graduate program (e.g., GTA)
- A total of 18 graduate hours in science
- Submission of a scholarly manuscript, judged publishable by the committee
- Presentation at a professional conference on scholarly work

This program will allow students to focus on one of three areas of science education: Earth and Space, Energy, and Environment

Education, Ed.D., Concentration in Curriculum and Instruction

Pursue your PhD in Education with a concentration in Curriculum and Instruction in a program that is offered entirely online! Continue in your current role as you gain expertise to take your career to the next level.

Required Courses

Required Courses (80 credit hours)

The Doctor of Education in Education with a concentration in Curriculum and Instruction program is 80 credit hours and all courses are delivered entirely online. You must have three years of classroom teaching experience, a master's degree to apply to the program. Applicants must also complete EDRE 5530 - Introduction to Research or an equivalent course prior to entering the program.

Program Knowledge Base

Students must take all 15 credit hours listed below.

- EDCI 5600 - Diversity in Education (3 credit hours)
- EDCI 5730 - Learning and Cognition (3 credit hours)
- EDAD 5720 - Educational Leader as Change Agent (3 credit hours)
- EDAD 5650 - Educational Leader as Communicator (3 credit hours)
- EDRE 5660 - Proposal Writing (3 credit hours)

Advanced Research Courses

Select 9 credit hours from the below list. Coursework in both qualitative and quantitative research is required and courses can be taken outside the College of Education. Course selection is subject doctoral committee approval.

- EDRE 5600 - Ed Research 1: Descriptive (3 credit hours)
- EDRE 5610 - Ed Research 2: Group Comparison (3 credit hours)
- EDRE 5620 - Ed Research 3: Correlational (3 credit hours)
- EDRE 5630 - Ed Research 4: Multivariate (3 credit hours)
- EDRE 5550 - Action Research (3 credit hours)
- EDRE 5640 - Intro to Qualitative Research (3 credit hours)
- EDRE 5650 - Advanced Qualitative Research Methods (3 credit hours)

Practicum/Internship

Two credit hours. Must be determined with doctoral committee.

- EDCI 5580 - Internship (2 credit hours)

Curriculum and Instruction Specialization

Students must take the required courses listed below and select an additional 12 credit hours of elective courses in the Curriculum and Instruction area. Course selection is subject doctoral committee approval.

- EDCI 5790 - Learning Theories & Instructional Principles (3 credit hours) *Required*
- EDCI 5800 - Curriculum Development (3 credit hours) *Required*

Final Project: Dissertation in Practice or Other Project Option

Students must take all 6 credit hours listed below.

- EDCI 5980 - Dissertation Research (6 credit hours)

Final (Applied) Project Options

Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional

development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Additional Information:

Admission Requirements

Applications for the Doctor of Education (EdD) program with a concentration in Curriculum and Instruction are reviewed for admission in fall and spring semesters. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following supplemental material:

- Letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Recent GRE scores.

- Three letters of recommendation, completed by an individual familiar with the applicant's academic performance, a current or recent supervisor, and/or a selected colleague and/or community member.
- Academic Resume/Curriculum Vitae
- Transcripts
- TOEFL/IELTS scores (for international, non-native English speaking applicants). Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's bachelor's degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Graduate Assistantships

Applicants interested in a Graduate Assistantship must submit a graduate assistantship application at the time of admission application process or consult student's advisor or school director thereafter.

Education, Ed.D., Concentration in Educational Leadership

Offered entirely online, UW's educational leadership Ed.D. program will prepare you for top-level leadership positions in K-12 educational settings as assistant superintendents and superintendents.

Requirements

Core Educational Leadership Courses

- HIED5630 - Advanced Organizational Leadership Credits: 3
- EDAD5600 - Educational Leader as Manager of Human Resources Credits: 3
- EDAD5650 - Educational Leader as Communicator Credits: 3
- EDAD5700 - Educational Leader For Instruction Credits: 3
- EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
- EDAD5750 - Educational Leader for the Board and Community Credits: 3
- EDAD5800 - Educational Leader as Resource Manager Credits: 3
- EDAD5815 - Advanced School Law Credits: 3
- EDAD5850 - Educational Leader as Direction Setter Credits: 3

Internship

- EDAD5580 - Supervised Internship in Educational Administration Credits: 1-8

Educational Research Courses

(at least 1 quantitative and 1 qualitative)

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- EDRE5610 - Educational Research: Group Comparison Research Credits: 3
- EDRE5620 - Correlational Research Credits: 3
- EDRE5640 - Introduction to Qualitative Research Credits: 3
- EDRE5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research Credits: 3
- EDRE5655 - Ethnography and Narrative Inquiry in Qualitative Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3
- EDRE5870 - Seminar Credits: 1-8

Additional Requirements:

- EDRE5660 - Dissertation/Thesis Prospectus Writing Credits: 3
- EDAD 5980 - Dissertation Research Credits: 6

Additional Information:

Admission Requirements

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Final Project Options

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students

- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format
- Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations of practice or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

Education, Ed.D., Concentration in Higher Education Administration

All Higher Education Administration students can work as administrators and professional staff to supervise, design, deliver, and coordinate high quality formal and informal education programs to adults across the lifespan.

Required Courses

REQUIRED COURSES (75 CREDIT HOURS)

- EDAD 5720 Leader as Change Agent (3 credit hours)
- EDAD 5850 Leader as Direction Setter (3 credit hours)
- HIED 5260 Educational Issues in Race, Class, & Gender (3 credit hours)
- HIED 5600 Higher Education Finance (3 credit hours)
- HIED 5630 Advanced Organizational Leadership (3 credit hours)
- HIED 5640 Leadership Development (3 credit hours)
- HIED 5650 Law of Higher Education (3 credit hours)
- HIED 5670 Community College Issues & Leadership (3 credit hours)
- HIED 5680 Issues in Higher Education (3 credit hours)
- EDRE 56XX First Research Course (3 credit hours)
- EDRE 56XX Second Research Course (3 credit hours)
- EDRE 56XX Third Research Course (3 credit hours)
- EDRE 5660 Dissertation Prospectus (3 credit hours)
- PRST 5980 Dissertation Research (6 credit hours)

Additional Information:

The Ed.D. is the terminal professional degree in education designed for students who desire to improve their professional practice as educators. The Ed.D. is delivered through distance delivery system and requires a minimum of 77 semester hours beyond the bachelor's degree, of which 41 hours must be taken in the student's chosen field, and 6 hours of dissertation. Candidates may, with the approval of the faculty, transfer up to 30 semester hours from previous graduate level coursework. A bachelor's degree and a master's degree are required of all students to be admitted to the Ed.D. program.

Required on-campus orientation during first fall semester.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Education, Ed.D., Concentration in Learning, Design, and Technology

The Ed.D. in Learning, Design and Technology will provide students with advanced research methods to study and identify educational opportunities in various settings while developing and evaluating new ways to address those opportunities.

Course Requirements

The EdD program is 75 credits. The theory, research, and resulting instructional principles are addressed in courses in the following areas: (a) instructional design, visual literacy, and change (b) media development and production; and (c) instructional management, implementation, and technology integration. Graduate students in the program can take all of their coursework online. The EdD uses a Dissertation in Practice format for dissertation research. UW is a member of the Carnegie Project on the Education Doctorate.

Required Courses (75 credits*)

Foundational Knowledge Base

Students may transfer up to 30 credits toward the total program from a related master's degree. Transfer credits need to be accepted by the program faculty. If a student lacks credits in this area, they may take courses available through the Learning, Design, and Technology MS Program.

Program Knowledge Base

Students must successfully complete all 27 credit hours listed below.

- HIED 5630 Advanced Organizational Leadership (3 credit hours)
- ITEC 5660 (LDTE 5660): Interactive Learning Systems (3 credit hours)
- ITEC 5870 (LDTE 5700): Issues, Practice, and Research in LDT (3 credit hours)
- LDTE 5710: Transformational Learning (3 credit hours)
- ITEC 5870 (LDTE 5720): Critical Perspectives and Applications of Technology Integration (3 credit hours)
- ITEC 5870 (LDTE 5730): Game Design and Development (3 credit hours)
- ITEC 5870 (LDTE 5740): Global and Cultural Perspectives in LDT (3 credit hours)
- ITEC 5870 (LDTE 5750): Technology Innovations: Past, Present, and Future (3 credit hours)
- ITEC 5760 (LDTE 5760): Instructional Design Applications (3 credit hours)
- ITEC 5070 (LDTE 5070): Trends (3 credit hours) [can be substituted for a relevant course]

** new LDTE prefix is in the process of phasing into the program beginning Fall 2022; ITEC is still active and counts in the program of study until transition is complete.*

• Research Methods

- Students must successfully complete 12 credit hours in educational research.
- Required: Research Courses
- EDRE 5600 Ed Research 1: Descriptive Research (3 credit hours)
- EDRE 5640 Intro to Qualitative Research (3 credit hours)
- EDRE 5660 Dissertation/Thesis Prospectus Writing (3 credit hours)

Select at least one additional research course:

Quantitative:

- EDRE 5610 Ed Research: Group Comparison (3 credit hours)
- EDRE 5620 Ed Research: Intro to Qualitative Research (3 credit hours)

Qualitative:

- EDRE 5645 Ed Research: Phenomenology, Case study, and Grounded Theory in Qualitative Research (3 credit hours)
- EDRE 5620 Ethnography and Narrative Inquiry in Qualitative Research (3 credit hours)

Dissertation or Approved Project

Students must successfully complete the exam and dissertation process. **A minimum of 6 credit hours of dissertation research** are required for the program of study.

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students
- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations of practice or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

The Ed.D. program requires a minimum of 81 credit hours beyond the bachelor's degree. Candidates may, with the approval of the committee, transfer up to 30 credit hours from previous graduate-level coursework in a closely related field. The program is delivered online with the exception of some the spring residencies.

- Program knowledge base: 48 credits
- Research: 9 credits
- Professional Writing: 6 credits
- Electives: 12 credits
- Dissertation: 6 credits

Additional Information:

Unlike the Ph.D. in Learning, Design and Technology, the Ed.D. program emphasizes applied research, culminating in the completion of a problem-based dissertation or project. Rather than leading to an academic career, the Ed.D. is designed for educators who want to contribute to the educational technology field at the highest levels of practice.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Required on campus orientation during first fall semester.

The Ed.D. is the terminal professional degree in education designed for students who desire to improve their professional practice as educators. The program moves beyond the foundations of distance education, instructional design, and technology integration to focus on advanced application and research. Students apply design, development, and evaluation principles to explore authentic challenges and develop real solutions in diverse settings (e.g., K-12 education, corporate and government centers, and higher education institutions). Through these experiences, students learn how to use advanced research methods to explore workplace problems, design and deliver solutions, and implement and evaluate change. Emphasis is placed on in-depth mentoring and collaboration, advanced research, development of real-world applications, and training solutions offered through distance delivery platforms.

Education, Ed.D., Concentration in Mathematics Education

Graduates with a PhD in Education with a concentration in Mathematics Education at the UW are equipped with cutting-edge applied research skills, mathematics pedagogy expertise, and a commitment to issues of equity, inclusion and social justice.

Required Courses

Program Knowledge Base

Select 15 credit hours from the below list. Students should consult their advisor before choosing to take either EMAT 5150 or EMAT 5160.

- EMAT 5150
- EMAT 5160
- EDCI5600 - Diversity in Education Credits: 3
- EDCI5730 - Learning and Cognition Credits: 3
- EDAD5720 - Educational Leader as Change Agent Credits: 3
- EDAD5650 - Educational Leader as Communicator Credits: 3
- EDRE5660 - Dissertation/Thesis Prospectus Writing Credits: 3

Mathematics Education Specialization

Students must take all 18 credit hours listed below.

- EMAT5100 - Theory and Research for Mathematical Learning Credits: 3
- EMAT5200 - Advanced Study of Mathematics Curriculum, Assessment, and Evaluation Credits: 3
- EMAT5300 - Theory and Practice for Mathematics Teaching and Teacher Education Credits: 3
- EMAT5400 - Analysis and Critique of Research in Mathematics Education Credits: 3
- EMAT5600 - Quantitative Reasoning & Modeling in Mathematics and Science Education Credits: 3
- EMAT5700 - Principles and Methods for Integrated Teaching & Learning Mathematics & Science Credits: 3
- EMAT Culture, Power and Identity in Mathematics Education, Credits: 3

Advanced Research Courses

Select 9 credit hours from the below list. Coursework in both qualitative and quantitative research is required and courses can be taken outside the College of Education. Course selection is subject doctoral committee approval.

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- EDRE5610 - Educational Research: Group Comparison Research Credits: 3
- EDRE5620 - Correlational Research Credits: 3
- EDRE5630 - Educational Research IV: Multivariate Research Credits: 3
- EDRE5550 - Action Research Credits: 3
- EDRE5640 - Introduction to Qualitative Research Credits: 3
- EDRE5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research Credits: 3
- EDRE5655 - Ethnography and Narrative Inquiry in Qualitative Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3

Practicum/Internship

Two credit hours. Must be determined with doctoral committee.

- EDCI5580 - Internship1 Credits: 8

Dissertation in Practice

Students must take a minimum of 6 credit hours.

- EMAT5980 - Dissertation Research Credits: 1-12

Additional Information:

Offered entirely online, you can pursue the Ed.D. in mathematics education while you continue in your current position. Learn and bond with the same group of students during the course or your Ed.D. studies- our program is cohort-based.

Admission Requirements

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Final Project Options

All Doctor of Education students will use research methods to explore practical leadership problems. Applied projects are problem-based and may be collaborative. Projects may involve evaluating curriculum, designing and implementing professional development or training, developing applications to be used in local settings (e.g., early childhood-12 education, corporate and government centers), as well as other projects designed to advance knowledge in a specific field or setting.

The following requirements apply to all projects:

- Research-based (literature review)
- Scholarly, academic writing using APA style
- Primary or secondary data
- Authored by individual or small groups of students
- Uploaded to **ProQuest** for dissertations of practice or other projects in a dissertation format, and uploaded to the **Mountain Scholar Digital Collections** for projects in a non-dissertation format

Suggested project formats and brief descriptions are:

Dissertation of Practice

- A dissertation of practice is original practice-based empirical research with data collection expected from primary sources.

Local Case Study

- A case study is a descriptive, exploratory, or explanatory analysis of a person, group, or event. Thomas (2011, p. 354) offered the following definition of case study: "Case studies are analysis of persons, events, decisions, periods, projects, policies, institutions, or others systems that are studied holistically by one of more methods."

Faculty Directed Individual or Team-based Inquiry

- This type of inquiry involves individual or a small group of students working together on a single project under the guidance of a faculty member. Data can be obtained from primary or secondary sources.

Documentary on an Educational Issue

- A documentary is an in-depth and extensive study with an analysis presented in video form accompanied by a written summary of the purpose and outcome.

Submitted Manuscript

- A full-length research manuscript must be submitted to a refereed mid- or top-tier national or international scholarly journal.

Program Evaluation

- A program evaluation report typically uses both qualitative and quantitative research methods to examine and collect data on a current program that is in place in a school or another organization.

Additional project formats may be proposed and approved by the student's committee as long as they meet the requirements listed above.

Final Project Processes

As in the traditional dissertation process, all students are expected to meet with their committees to gain project approval (at the pre-prospectus and/or prospectus stage). The Report of Final Examination will indicate whether or not the final project is acceptable to the committee. *The deadline for submitting projects to Mountain Scholar Digital Collections or dissertations of practice or other projects in a dissertation format to ProQuest is the same as the Report of Final Examination, the last day of classes for the semester during which a student intends to graduate.* All projects will be evaluated by committee members and also by the student.

Please note: After submitting the required steps for the Mountain Scholar Digital Collections you will receive a confirmation email. Please forward this email to your chair, Clayleen Rivord in the College of Education Dean's Office, and Robert Ratterree in the Office of the Registrar.

Education, M.A., Concentration in Curriculum and Instruction

The UW Master of Arts in Educ. with a concentration in C&I will help you become the teacher who advocates for students, mentors younger colleagues & thinks outside conventional wisdom to leverage best practices into innovative programs and practices

Requirements

- Minimum of 32 hours of graduate credit
- Many courses delivered using distance technologies
- Core Courses: 16 hours of program area core graduate credits
- Concentration: 15+ hours in either a certificate or endorsement program, academic content area, or general curriculum and instruction area of interest (with direction and consent of faculty adviser)

Capstone Consisting of One of the Following:

Plan A (Thesis)

- EDCI5960 - Thesis Research Credits: 1-12 (4 graduate credits)

Plan B (Non-Thesis)

- EDCI5090 - Plan B Research Credits: 1-3 (2 graduate credits)

National Board Certificate

- EDCI5890 - Directed Professional Study Credits: 1-6 (1 graduate credit) **AND/OR**
- EDCI5515 - National Board Certification Seminar Credits: 1-3

C&I Program Core:

- EDCI5500 - Classroom Assessment Credits: 3
- EDCI5000 - Principles of Curriculum Credits: 3
- EDCI5450 - Issues in Multicultural Education Credits: 3
- EDCI5790 - Learning Theories and Instructional Principles Credits: 3

- EDRE5550 - Action Research Credits: 3
- OR
- EDRE5530 - Introduction To Research Credits: 3
- EDCI5400 - Midpoint Portfolio Reflection Credits: 1

Areas of Concentration

- Certificates or Endorsements
- Early Childhood Special Education (see www.uwyo.edu/ste/earlychildhood-education/earlychildhood-special-education.html)
- English as a Second Language (see www.uwyo.edu/ste/curriculum-instruction/english-second-language/)
- Literacy (see www.uwyo.edu/ste/elementary-education/endorsements/certificateof-literacy.html)
- Content Studies - Math, History, Art, Music, Science, Teachers of American Indian Children
- Curriculum and Instruction Studies - focus on special education, educational leadership, diversity studies, counseling, instructional technology, etc.

Additional Information:

About Curriculum and Instruction

The UW Master of Arts in Education with the curriculum and instruction concentration is for educators with a minimum of one year teaching experience who are looking to gain a variety of pedagogical knowledge and research experience. The degree will give you the knowledge and research expertise to take your passion into a career of continuous exploration and improvement.

Offering a highly customizable program, UW's MA in curriculum and instruction allows you to pursue additional expertise in your content area, add endorsements such as literacy, ESL, early childhood special education or develop specialties in content or curriculum. You can even use your degree as a pathway to National Board Certification, which also meets your capstone project requirement.

The program is offered fully online making it possible for you to advance your career while also maintaining your current teaching schedule.

Program Specific Admission Requirements

Applications for the Master of Arts degree in Education with an Area of Concentration in Curriculum and Instruction are reviewed for admission two times each year. To be considered for admission, applications must be completed and submitted by September 1st for spring semester admission, and February 1st for summer/fall admission. Incomplete applications will not be considered. International students are encouraged to apply a semester earlier to allow sufficient time for paperwork. All applications will be completed through the UW Admissions website: <http://www.uwyo.edu/admissions/apply.html>.

Applicants are required to submit the following materials:

- letter of intent;
- academic resume, including information about teaching experience;
- contact information for three references;
- TOEFL or IELTS scores (for international, non-native English speaking applicants); Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

- college transcripts.

In order to be considered for admission, applicants must meet the following minimum requirements:

- Score of 3 or 4 on a letter of intent. This letter serves as a writing sample, and takes the place of GRE scores in the admission process;
- One year of P-12 teaching experience or its equivalent. This requirement may be waived for applicants who have been admitted to the Teaching Elementary School or the Teaching Secondary Content Graduate Certificate program. Such applicants will be considered for admission on a conditional basis, pending successful completion of the Teaching Elementary School or Teaching Secondary Content Graduate Certificate program;
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent bachelor's degree from an accredited institution;
- International, non-native English speaking applicants must have a TOEFL score of 525 (paper-based), 197 (computer exam) or above or an IELTS score of at least 6.5. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

MA Program Requirements

Curriculum & Instruction

The Master of Arts degree in Education is offered in two options:

- Plan A, which requires writing a thesis
- Plan B, which requires a written paper based on a scholarly project

A minimum of 32 semester hours beyond the Bachelor's degree is required. All course work and degree requirements must be approved by the student's graduate committee.

The Master of Arts degree in Education consists of a set of core courses and one of three emphases: Certificates/Endorsements, Content Studies, or Curriculum Studies. All students are required to complete the core courses and one of the three emphases. Specific courses are outlined below.

View the M.A. Degree Program Overview and Application Instructions packet for forms and details.

Core Courses: (17-20 credit hours) students are required to take core courses:

- Assessment (3 credit hours): EDCI 5500 - Classroom Assessment
- Curriculum (3): EDCI 5000 - Principles of Curriculum
- Diversity (3): EDCI 5450 - Issues in Multicultural Education
- Instruction (3): EDCI 5790 - Advanced Instructional Strategies (Learning Theories & Instructional Principles as of Fall 2017)
- Research (3): EDRE 5530 - Intro to Research or EDRE 5550 - Action Research
- Midpoint Review (1): EDCI 5400 - Portfolio Reflection (1) (EDCI 5400 represents a midpoint evaluation and must be taken no later than 2 semesters [may include a summer semester] before graduation).

- Capstone Experience (1-4): Plan A thesis (4) OR Plan B project (2) OR National Board Certification (1-3). Students, as guided by an academic advisor, may pursue a Plan A thesis or a Plan B non-thesis. Generally, one can think of the Plan A thesis as a research project that emerges when a student finds that a problem of interest has not been addressed in the research literature. A Plan B non-thesis is a research project that emerges from practice, typically involving a problem of interest within a student's school, classroom, or work site.

Emphases (15-18 credit hours with approval from Committee)

Certificates/Endorsements

- Early Childhood/ECSE (25-26 hours required-18 may be applied to elective credit)
- English as a Second Language (15 credit hours)
- Literacy (18-21 credit hours)

Content Studies (15 to 18 hours)

This specialization is intended for those practicing teachers who are pursuing the "highly qualified" status. Coursework will primarily be taken in students' content areas (e.g., History, English, etc. 4000 and 5000 level courses).

Curriculum Studies (15 to 18 hours)

This specialization is intended for those who are interested in focusing on issues of curriculum and instruction.

- Potential coursework:

National Board Certification (See below for more information)

EDCI 5800 - Curriculum Development

Research Methods

Educational Leadership

Counseling

Instructional Technology

Special Education

Literacy

English as a Second Language (ESL)

Diversity

Teachers of American Indian Children

Graduate level content courses

Capstone Experience

- EDCI 5960 Thesis/Plan A (4 credit hours)
- EDCI 5090 Plan B Research/Plan B project (2 credit hours) (EDCI 5890 Directed Professional Study prior to Summer 2017)
- EDCI 5890 Directed Professional Study/National Board Certification (1 credit hour)

TOTAL: 32 minimum semester hours

Areas of Emphasis

Certificates/Endorsements Emphasis

The Certificates/Endorsements emphasis allows practicing teachers to take coursework toward eligibility for certificates/endorsement in Literacy, Early Childhood Education, English as a Second Language, or Teachers of American Indian

Children through the state of Wyoming's Professional Teaching Standards Board. These endorsements are only available to teachers who hold valid teaching certification in the state of Wyoming.

Content Studies Emphasis

The Content Studies emphasis is designed to allow practicing teachers to pursue further education in a particular content area - such as history, English, math, etc. -- through 4000 and 5000-level courses in those content areas. This coursework may be helpful particularly in the case of practicing teachers who are pursuing "highly qualified" status in a content area. Please note that this option is based on availability of graduate courses in other departments that the student may be interested. There is no guarantee of outreach course availability.

Curriculum Studies Emphasis

The Curriculum Studies emphasis is designed for practicing educators who are interested in gaining knowledge and expertise related to curriculum and instruction.

National Board Certification

FREQUENTLY ASKED QUESTIONS

Will there be classes offered to help me proceed through the National Board Certification process?

Yes, a series of seminars and workshops are offered through the Wyoming National Board Certification Initiative each semester. Information about these seminars and workshops is posted and updated on the Wyoming NBC website: <http://www.wnbc.org/>. Graduate level Curriculum and Instruction credit is available for these seminars (courses listed as EDCI 5515). These courses are designed to support teachers as they grow as professionals and simultaneously proceed through the Board Certification process and the UW Master's program.

Where will the classes be offered?

The classes are offered around the state of Wyoming to allow participation across the state. Dates and locations for upcoming seminars and workshops can be found on the Wyoming NBC website: <http://www.wnbc.org/>. Participants enroll in the courses through UW Outreach Credit Programs (toll free phone number: 1-800-448-7801). Up to 9 total credit hours of the seminars can be taken by enrolled graduate students. Up to 9 total seminar/workshop credit hours may be applied as electives in the Curriculum and Instruction Master's program.

Who will teach these classes?

The seminars are taught by Barbara Maguire, a Nationally Board Certified teacher and expert in the NBC process.

How many times can I take the NBC class?

Graduate students/National Board Candidates can enroll in the seminars as many times as necessary/desired. For those seeking graduate degrees, up to 9 credits can be applied to the Curriculum and Instruction Master's degree program as elective hours dependent upon the student's committee approval.

What about tuition?

Students will pay regular graduate tuition for the seminar classes. The current UW fee schedule can be found at the following website: http://www.uwyo.edu/sfa/cost_of_attendance/

Will I need to complete a Thesis or Plan B paper to finish my C&I degree? No, the NBC Portfolios will be accepted in Lieu of a Plan B Paper for teachers pursuing NBC Certification and a UW Master's degree simultaneously. This acceptance is dependent upon committee approval (not acceptance by the National Board). An agreement to utilize this procedure and maintain portfolio confidentiality has been reached between UW and the NBPTS (National Board for Professional Teaching Standards).

The NBC portfolio must be submitted and defended (in a meeting with the student's graduate committee) prior to initial submission to the NBPTS. The committee's portfolio copies will be destroyed after the defense.

Note: *The Rubric for Assessment of the presentation is provided below.*

If I am already a National Board Certified teacher, can I apply my NBC work retroactively to a graduate degree?

No, the program is designed for those working on National Board Certification and a C&I Master's degree simultaneously.

How do I apply for a UW Curriculum and Instruction Graduate Program?

The graduate application and other information can be found [here](#).

What if I have Additional Questions?

If you have additional questions, please contact the UW Department of Curriculum and Instruction (curriculum@uwyo.edu; 307-766-6371).

Assessment Checklist for National Board Certification (NBC)

Portfolio & Presentation

Committee members will evaluate the following areas and will determine if the student/NBC candidate accomplished each of these aims/activities at a level sufficient to warrant the substitution of the NBC portfolio and presentation for the Plan B requirement. S/U (Satisfactory/Unsatisfactory) will be assigned for each area, and an overall evaluation of "S" must be achieved for portfolio to serve in lieu of the Plan B paper.

_____ **Overall evaluation of the portfolio and presentation as suitable substitutes for Plan B paper/project and defense**

Presentation of NBC Portfolio to Master's Committee:

_____ Student provides a brief overview of National Board Certification process and portfolio

_____ Student describes process of working on the portfolio (including connections to C&I courses taken, time commitment, assessments and data analysis, and reflections)

_____ Student presents at least one explicit connection between the portfolio documentation and his/her C&I Master's Degree coursework (e.g. assessment strategy learned in literacy specific course was used to evaluate student work included in NBC portfolio), and explains ways processes informed each other

_____ Student describes challenges, pleasures, difficulties associated with the NBC process

_____ Student summarizes learning derived from portfolio process and completion

Education, M.A., Concentration in Educational Leadership

The MA in Educational Leadership is an all online program to become a K-12 principal with a Wyoming principal certification.

Core Courses

The master's is a 33 credit program which includes the four core classes, 3 credits each:

- EDAD5010 - Leadership for Curriculum Development Credits: 3
- EDAD5020 - Leadership for School Organization Credits: 3
- EDAD5030 - Leadership for School and Community Relations Credits: 3
- EDAD5040 - Leadership for Instruction Credits: 3

Other Courses

- EDRE5580 - Supervised Internship Credits: 1-8
- EDEX5720 - Special Education Law Credits: 3
- EDAD5050 - Leadership for Democratic Schools Credits: 3
- EDAD5150 - Assessment, Accountability, and Student Learning Credits: 3
- EDRE5530 - Introduction To Research Credits: 3
- EDAD5080 - Introduction to School Law Credits: 3

Additional Information:

As an educator, you're already making a difference. But what if you could influence what happens on the building-level? Could you be the person who helps teachers feel more empowered? Who knows how to bridge differences, build consensus and develop a school atmosphere where faculty, staff and families support one another in their common mission to nurture citizenship, critical thinking and a thirst for knowledge? Emphasizing courses in leadership issues specific to education such as instructional leadership, curriculum development and community relations, UW's online educational leadership program will also ground you in practice through an in-depth supervised internship in elementary, middle and high schools.

Application Deadlines

February 1 - If applying for following fall, or spring semester.

September 1 - If applying for following spring, or fall semester.

Admission Requirements

Domestic Students^{SEP}

GPA: 3.0^{SEP}

GRE: no requirement

International Students^{SEP}

TOEFL: 550 minimum written or 80 minimum online, OR IELTS: 6.5 minimum overall score

^{SEP}GRE: 147 min in each subtest and 4.0 minimum on analytical writing

Additional Requirements

Must have a minimum of 3 years teaching experience

How to Apply

Step 1: Apply to UW and the School of Counseling, Leadership, Advocacy and Design through the online applicant portal.

- Access the UW graduate applicant portal. Make sure to use the corresponding application admittance semester indicated above.
- After completing the initial information page, you will receive an email from the system including a link and your temporary username and password.
- Please complete the contact, academic, residency information, etc.
- Submit the application fee
- Submit ALL required documents to the online document portal (see below for details)
- Agree to admissions terms and submit your application

Step 2: Submit official copies of transcripts to UW Admissions.

Required Documents

Please include ALL documents listed below in order for your application to be considered.

- A letter of intent describing why you want to be an educational leader
- A current resume
- Copy of current teaching certificate
- Unofficial copies of transcripts (official copies should be sent to UW Admissions)
- A completed principal program application. Contact the School of Counseling, Leadership, Advocacy and Design for Application; Tiffany LeGal.
- A superintendent approval form signed by the superintendent of the district where you plan to perform your internship (scan and upload) Contact the School of Counseling, Leadership, Advocacy and Design for Application; Tiffany LeGal.
- Current recommendation letters addressing leadership skills from three different referees (the portal will send a request to each of them after you enter their email addresses):
 - two from referees who are familiar with your leadership skills
 - current principal

Education, M.A., Concentration in Higher Education Administration

The MA in Higher Educ Admin will give you a strong foundation in the history and "business" area's in America's higher learning system while gaining expertise in learning theory and adult education.

Program Specific Degree Requirements Master's Program

The M.A. program is a professional degree program that does not require a Plan A (thesis) or Plan B.

Required Courses

- EDRE5530 - Introduction To Research Credits: 3
- HIED5000 - Community College Leadership Credits: 3
- HIED5020 - Higher Education Systems Credits: 3
- HIED5030 - Continuing and Professional Education Credits: 3
- HIED5040 - Higher Education Staffing Credits: 3
- HIED5050 - Workforce Training Credits: 3
- HIED5060 - Program Budgets and Instructions Credits: 3

- HIED5240 - Teaching Adults Credits: 3
- HIED5610 - Planning and Evaluation of Instructional Systems Credits: 3
- HIED5660 - Community College Credits: 3
- HIED5090 - Masters Capstone Credits: 3

Additional Information:

Adult learning, rural access to continuing education, workforce training and institutional operations are just some of the issues you'll explore in UW's higher education administration master's program. Plus, the online master's degree program in higher education administration at the University of Wyoming balances theory with practice to give you the knowledge and skills you need to enter the field or advance at your current institution. Most importantly, you will gain an understanding of where you can make a difference as a leader in the vast field of post-secondary education. By the time you complete your program, you will be ready to level up your career and take your place as a skilled administrator in higher education, government or the nonprofit sector.

Application Deadlines:

January 15 - Fall/Summer

May 15- Fall

September 15 - Spring

How to Apply

Step 1: Apply to UW and the School of Counseling, Leadership, Advocacy and Design through the online applicant portal.

- Click here to access the UW graduate applicant portal. Make sure to use the corresponding application admittance semester indicated above.
- After completing the initial information page, you will receive an email from the system including a link and your temporary username and password.
- Please complete the contact, academic, residency information, etc.
- Submit the \$50 application fee
- Submit ALL required documents to the online document portal (see below for details)

Step 2: Submit official copies of transcripts to UW Admissions.

Include ALL documents listed below in order for your application to be considered

- • **A letter of application.** You should discuss your professional and academic goals as well as share your perceptions about how the MA in Higher Education Administration (MA-HIED) will help in achieving those goals. Any special issues that you think the admissions committee should know about (e.g., undergraduate GPA below 3.0, past graduate HIED courses taken under the "six-credit rule", etc.) should also be highlighted.
- **A professional resume or curriculum vitae.** No one format is "correct", but the information most important to include is work experience.
- **Three references provided.** Full contact information for three references who might speak to your academic potential and/or potential for a career in higher education, including an active email address, should be offered in a separate document clearly marked as "References". Once the Office of Admissions has this information, they will contact the references via email and

request that they complete a questionnaire and upload a letter. It is a good idea to check with Admissions in advance of the admissions deadline regarding any reference letters that may still be outstanding, and follow up with any of those references.

Education, M.A., Concentration in Literacy Education

The M.A. in Educ with a concentration in Literacy Education focuses on research in literacy development, instruction and provide the practical tools needed to apply that knowledge in your classroom, school, or district.

K-6 Focus

TOTAL: 33 minimum semester hours

- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
 - EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
 - EDCI5750 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part I Credits: 3-6
 - EDCI5755 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part II Credits: 3
 - EDCI5760 - Social Linguistics Literacies Credits: 3
 - EDCI5320 - Writing Instruction K-5 Credits: 3
 - EDCI5360 - History of Lit Res & Instruction Credits:
 - EDCI5365 - Trends in Literacy Research Credits: 3
 - EDCI5380 - Literacy Leadership Credits: 3
 - EDRE5530 - Introduction To Research Credits: 3
- OR
- EDRE5550 - Action Research Credits: 3
 - EDCI5090 - Plan B Research Credits: 1-3

6-12 Focus

TOTAL: 33 minimum semester hours

- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
 - EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
 - EDCI5775 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part II (6-12) Credits: 3
 - EDCI5760 - Social Linguistics Literacies Credits: 3
 - EDCI5370 - Writing Instruction 6-12 Credits: 3
 - EDCI5360 - History of Lit Res & Instruction Credits:
 - EDCI5365 - Trends in Literacy Research Credits: 3
 - EDCI5380 - Literacy Leadership Credits: 3
 - EDRE5530 - Introduction To Research Credits: 3
- OR
- EDRE5550 - Action Research Credits: 3
 - EDCI5090 - Plan B Research Credits: 1-3

Additional Information:

The UW M.A. in Education is offered fully online with a concentration in Literacy Education will help you become an expert literacy educator who has a deep knowledge of research in literacy development and instruction and the practical tools needed to

apply that knowledge in your classroom, school, or district. The program consists of 11 courses, six of which constitute the UW Literacy Certificate program, which leads to the Wyoming state Reading Endorsement. Thus, while earning your master's degree, you will also complete the coursework necessary for the state Reading Endorsement. Throughout the program, you will interact with the UW Literacy Education faculty, a group of recognized literacy researchers who engage in many collaborative projects with Wyoming teachers.

Program Admission Requirements

Deadlines

The Master of Arts degree in Education with a Concentration in Literacy Education program utilizes rolling admissions. Applications are reviewed whenever they are submitted, and, upon acceptance, a student may immediately register for courses for an upcoming semester.

Minimal Admissions Criteria

Meeting minimal admissions criteria does NOT automatically ensure admission to the program.

- Bachelor's degree.
- A minimum 3.0 GPA on a 4.0 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- A TOEFL score of 540 or above or an IELTS score of 6.5 or above is required for international students.
- Submission of all required supplemental materials

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Required Supplemental Materials

Educators wishing to apply for admission to the Master of Arts in Education with Concentration in Literacy Education must complete the Graduate Admissions application and pay the required fee. This application is available online through the admissions website.

In addition, applicants must submit the following supplemental material:

- an academic resume
- college transcripts
- One letter of reference (someone familiar with your academic or practitioner work in education)

International students must also submit passing scores on the Test of English as a Foreign Language (TOEFL).

All application materials can be uploaded to the online application. [Click here for UW Graduate International Admissions information.](#)

Guidelines for Academic Resume

Include the following in your resume:

- Personal Information: Name and Contact Information (Address, Phone numbers, email)
- Education: Institution, City, State, Dates Attended, Major, and Degree
- Work Experience: Dates, Job Title, Employer, City, State
- Professional experiences such as: Publications, Presentations and Grants; Continuing Education Activities, Awards/Honors Received; Community and Volunteer Activities; Professional Memberships; other

Program Requirements

The Master of Arts degree in Education with Concentration in Literacy Education consists of the 11 specific courses listed below.

Education, M.A., Special Education

The online UW Master of Education with a concentration in special education is a generalist program that will prepare you to work with K-12 students across a range of special needs, qualifying you to apply for a teaching endorsement with PTSB.

Required Courses

Required Courses (35 credit hours)

Program Core

Students must take all courses listed below.

- EDEX 5071 Teaching Students with Mild/Moderate Disabilities (3 credit hours)
- EDEX 5080 Teaching Students with Severe to Low Incidence Disabilities (3 credit hours)
- EDEX 5720 Special Education Law (3 credit hours)
- EDEX 5355 Assessment (3 credit hours)
- EDEX 5100 Practicum I (3 credit hours)
- EDEX 5110 Positive Behavior Support and Management (3 credit hours)
- EDEX 5120 Academic Instruction in General Education for Students with Disabilities (3 credit hours)
- EDEX 5200 Practicum II (3 credit hours)
- EDEX 5000 Collaboration/Professional Interdisciplinary Relationships (3 credit hours)
- EDEX 5250 Assistive Technology (2 credit hours)
- EDEX 5260 Transition Planning (2 credit hours)

Research Courses

Students must choose 3 credit hours from courses listed below.

- EDEX 5150 Research Applications in the Classroom 3
- EDRE 5530 Introduction to Research 3
- EDRE 5550 Action Research 3

Other courses

Students must choose one credit hour from the below courses.

- PRST 5920 Continuing Registration on campus (1 credit hour)
- PRST 5940 Continuing Registration off campus (1 credit hour)

Additional Information:

Application Deadlines

June 15 - If applying for the fall semester.

September 15 - If applying for the spring semester.

Admission Requirements

Domestic Students^{SEP}

GPA: 3.25^{SEP}

GRE: no requirement

International Students

TOEFL: 550 minimum written or 80 minimum online, OR IELTS: 6.5 minimum overall score

Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

GRE: 900/291 minimum

Additional Requirements

Current teaching certificate from the United states and must be K-12 (any grade band or subject area)

How to Apply

Step 1: Apply to UW and the School of Counseling, Leadership, Advocacy and Design through the online applicant portal. When filling out your application please refer to the following document: Guidelines and requirements for applications.

- Access the UW graduate applicant portal. Make sure to use the corresponding application admittance semester indicated above.
- After completing the initial information page, you will receive an email from the system including a link and your temporary username and password.
- Please complete the contact, academic, residency information, etc.
- Submit the application fee
- Submit ALL required documents to the online document portal (see below for details)
- Agree to admissions terms and submit your application

Step 2: Submit official copies of transcripts and test scores to UW Admissions.

- Official transcripts from all postsecondary institutions should be requested and sent to UW Admissions at the following address: *University of Wyoming Admissions, 1000 E. University Ave., Laramie, WY 82071*

Required Documents

Please include ALL documents listed below in order for your application to be considered.

- A 3-4 page, double-spaced professional writing sample (contact Tiffany LeGal in Counseling, Leadership, Advocacy and Design for the scoring rubric), including:
 - A description of your professional goals
 - An explanation of your commitment to Special Education
 - An explanation of your philosophy of education
 - An explanation of how this Special Education program fits your goal
- A complete and current resume, including:
 - Educational experiences
 - Work experiences
 - Activities/honors
 - Other relevant information
- Program application. (download here)
- Copy of current teaching certificate
- Signed Memo of Understanding (see student handbook)
- Unofficial copies of transcripts (official copies should be sent to UW Admissions)

All classes for the Master of Art in Special Education program are taught using distance delivery methods so you can enjoy the convenience of expanding your education while working full-time in your current position. Upon completion of this program,

students will be eligible to apply to the Wyoming Professional Teaching Standards Board for an endorsement in K-12 Special Education.

Education, M.S., Concentration in Learning, Design, and Technology

The PhD in Learning, Design and Technology will provide students with advanced research methods to study and identify education opportunities in various settings while developing and evaluating new ways to address those opportunities.

Required

- EDRE5530 - Introduction To Research Credits: 3
- ITEC5000 - Intro to the Field of Instructional Technology Credits: 3
- ITEC5010 - Instructional Technology Credits: 3
- ITEC5020 - Technology and Distance Education Credits: 3
- ITEC5160 - Introduction to Instructional Design Credits: 3
- ITEC5350 - Multimedia Development Credits: 3
- ITEC5320 - Message Design Credits: 3
- ITEC5510 - Communication in Distance Education Credits: 3
- ITEC5550 - Theory of Change Credits: 3
- ITEC5560 - Design and Development of Instructional Systems Credits: 3
- ITEC5090 - Masters Capstone Credits: 3

Additional Information:

As a discipline, learning, design and technology translates teaching and learning theories into effective instruction across all ages and settings.

Offered entirely online, the UW master's degree program in learning, design and technology stresses rural access, distance delivery and diverse learning environments, making it possible for you to conveniently acquire the background and technology skills to become an instructional designer/technologist. Through hands-on learning and field work, you will not only develop instructional design proficiency, you will also create materials that demonstrate your abilities to produce dynamic, effective educational products.

Education, Ph.D., Concentration Learning, Design, and Technology

The PhD program in Learning, Design and Technology will prepare you to develop and analyze learning experiences across a variety of platforms and equip you with college-level teaching skills to inspire coming generations of instructional designers.

Required Courses

PROGRAM OF STUDY (REQUIRED 81 CREDITS)

Foundational Knowledge Base (30 credit hours) Students may transfer up to 30 credit hours toward the total program from a related master's degree. Transfer credits need to be accepted by the program faculty. If a student lacks credits in this area, they may take courses available through the Learning, Design, and Technology MS program.

LDT Doctoral Core (12 credit hours) Students must successfully complete 4 courses in Learning, Design, and Technology.

- ITEC 5870 (LDTE 5700): Issues, Practice, and Research in LDT
- ITEC 5870 (LDTE 5710): Transformational Learning
- ITEC 5870 (LDTE 5730): Game Design and Development, or LDTE 5720: Critical Perspectives and Applications of Technology Integration
- ITEC 5760 (LDTE 5760): Instructional Design Applications
- **new LDTE prefix is in the process of phasing into the program beginning Fall 22; ITEC is still active and counts in the program of study until transition is complete.*

LDT Electives (9 credits) Students select 9 credits of related course work in collaboration with their advisor. Elective courses should support the student's area of interest and can be from programs outside Learning, Design, and Technology.

- Examples of Electives:
- ITEC 5070 (LDTE 5070): Trends _____ (3 credit hours)
- LDTE 5750: Technology Innovations: Past, Present, and Future (3 credit hours)
- ITEC 5870 (LDTE 5870): Seminar (1 to 3 credit hours)
- ITEC 5880 (LDTE 5880): Special Problems (1 to 3 credit hours)
- ITEC 5890 (LDTE 5890): Directed Professional Study (1 to 3 credit hours)
- EDCI 5790: Learning Theories and Instructional Principles (3 credit hours)
- EDAD 5750: Educational Leader for the Board and Community (3 credit hours)
- HIED 5240: Teaching Adults (3 credit hours)
- HIED 5260: Educational Issues Race, Class, and Gender (3 credit hours)
- **new LDTE prefix is in the process of phasing into the program beginning Fall 22; ITEC is still active and counts in the program of study until transition is complete.*

Research Methods (15 credit hours)

Students successfully complete 15 or more credit hours in Educational Research

Required Research Core:

- EDRE 5600 Ed Research 1: Descriptive Research (3 credit hours)
- EDRE 5640 Intro to Qualitative Research (3 credit hours)

Additional Research Courses: Select at least three additional research courses

Quantitative

- EDRE 5610 Ed Research: Group Comparison (3 credit hours)
- EDRE 5620 Ed Research: Correlation (3 credit hours)
- EDRE 5630 Ed Research: Multivariate (3 credit hours)

Qualitative

- EDRE 5645 Phenomenology, Case Study, and Grounded Theory in Qualitative Research (3 credit hours)
- EDRE 5655 Ethnography and Narrative Inquiry in Qualitative Research (3 credit hours)

Mixed Methods

- EDRE 5670 Mixed Methods Research (3 credit hours)

Writing Core (15 credit hours) students must successfully complete 15 or more credit hours in Educational research

- EDCI 5810 Writing for Publication (3 credit hours)

- EDRE 5660 Proposal Writing (3 credit hours)
- PRST 5980 Dissertation Research (variable, 9 credits total)

Additional Information:

In order to be considered for admission, applicants must meet the following minimum requirements:

- Hold a Master's degree from an accredited institute of higher education.
- Score of "Proficient" or higher on a letter of intent describing academic goals, teaching experiences, and reasons for pursuing a doctoral degree at the University of Wyoming. This letter serves as a writing sample.
- Three (3) years of P-12 teaching experience or its equivalent.
- Minimum 3.000 GPA on a 4.000 scale on the applicant's most recent degree from an accredited institution, plus transcripts from all other schools attended.
- GRE minimum score of Verbal:153, Quantitative:144.
- TOEFL score of 540 (paperbased), 76 (internet exam) or IELTS score of 6.5 or above are required for international, non-native English speaking applicants. Until further notice, due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency.

Residency requirement: Four consecutive full-time semesters on campus

The Ph.D. program prepares students for careers in academia. The program consists of: (1) systematic inquiry and research; (2) focused courses and professional experiences in education and related fields; and (3) teaching and other related activities tailored to individual career goals. Students work closely with an advisor and faculty committee to select courses, conduct research, and develop professional experiences.

Effective preparation for the Ph.D. stems from collaborative research and inquiry into topics of mutual interest by students and faculty. The program is structured around a cognitive apprenticeship model. Students spend a major portion of their program working with faculty members on shared research and scholarship.

The Ph.D. program requires a minimum of 81 credit hours beyond the bachelor's degree and includes the following requirements:

- Professional courses: 15 credits
- Program knowledge base: 30 credits
- Research: 15 credits
- Electives: 9 credits
- Dissertation: 12 credits

Candidates may, with the approval of the committee, transfer up to 30 credit hours from previous graduate-level coursework in a closely related field.

Education, Play Therapy Certificate

The University of Wyoming Play Therapy certificate program will ensure you will have the skills required to decode that language and help the youngest and most vulnerable regain their voice.

Required Courses

Play Therapy Graduate Certificate Program Curriculum

This 7-hour graduate level certificate program requires three courses and is designed to be completed in one year.

- * CNSL 5341 Play Therapy and Expressive Arts (3 credit hours) Offered Fall Term
- * CNSL 5342 Theoretical Models of Play Therapy (1 credit hours) Offered J-Term (Winter Break)
- * CNSL 5343 Filial and Family Play Therapy (3 credit hours) Offered Spring Term

Additional Information:

The University of Wyoming Play Therapy certificate program is designed to meet the 150 clock training hours required by the Association for Play Therapy (APT) to become a Registered Play Therapist or a School-Based Registered Play Therapist. Play therapy includes a variety of treatment methods that apply the therapeutic benefits to help children learn to communicate with others, better express feelings, modify behavior, develop problem-solving skills, and learn a variety of ways of relating to others. It can be a powerful tool to help children and families reconnect and heal after a traumatic experience. The program is designed for completion in one academic year with cohort groups beginning annually in the fall semester.

**APT awards the certification and students must be responsible for meeting their additional requirements in order to gain the credential.*

Education, School Principal Certificate

UW's 24-credit hour online school principal certificate program is designed for licensed teachers who hold a master's degree in education or related area from an accredited college or university.

Additional Information:

If you are ready for school building leadership and passionate about fostering a healthy school environment, you can prepare to become that kind of principal through UW's experiential school principal certificate program while maintaining your current teaching position. Offered online and emphasizing the study of educational leadership with an in-depth principal internship UW's school principal graduate certificate program allows you to acquire the knowledge and experience necessary to earn a Wyoming's Professional Teaching Standards Board endorsement as a K-12 principal.

Application Deadlines:

February 1 - If applying for following fall or spring semester

September 1 - If applying for following spring or fall semester

Apply to: https://universityofwyoming.force.com/ERx_Forms__Portal_Register

Required Documents

Please include ALL documents listed below in order for your application to be considered.

- A letter of intent describing why you want to be an educational leader
- A current resume
- Copy of current teaching certificate
- Unofficial copies of transcripts (official copies should be sent to UW Admissions)
- A completed principal program application
- A superintendent approval form signed by the superintendent of the district where you plan to perform your internship (scan and upload)
- Current recommendation letters addressing leadership skills from three different referees (the portal will send a request to each of them after you enter their email addresses):
 - two from referees who are familiar with your leadership skills
 - current principal

Required Courses (24 credit hours)

- EDAD 5010 Leadership for Curriculum Development (3 credit hours)
- EDAD 5020 Leadership for School Organization (3 credit hours)
- EDAD 5030 Leadership for School and Community Relations (3 credit hours)

- EDAD 5040 Leadership for Instruction (3 credit hours)
- EDAD 5580 Supervised Internship(6 credit hours)
- EDRE 5530 Introduction to Research (3 credit hours)
- EDAD 5080 Introduction to School Law (3 credit hours) Please note: this course is NOT required for students who were admitted spring 2016 or earlier.

Higher Education

The Higher Education Administration program serves the formal academic leadership development needs of persons aspiring to become managers and leaders in higher education institutions.

Options

- Education, M.A., Concentration in Higher Education Administration
- Education, Ed.D., Concentration in Higher Education Administration
- Education, Higher Education Administration Option, Ph.D.

Additional Information:

This concentration offers the following graduate degrees in education: community college leadership certificate, master of arts (M.A.), doctor of education (Ed.D.), and Philosophy of Education (Ph.D). The certificate program requires 15 credits beyond a master's degree. The master's program requires 33 credit hours beyond the bachelor's degree and is available online. The Ed.D. is the terminal professional degree in education designed for students who desire to improve their professional practice as educators. The Ed.D. requires a minimum of 75 semester hours beyond the bachelor's degree. A bachelor's and master's degree is required of all students to be admitted to an Ed.D. program. Candidates may, with the approval of the faculty, transfer up to 30 semester hours from previous course work.

Graduate study addresses the challenges faced by institutions and agencies in the design and delivery of post secondary education and the preparation of educators to meet these challenges.

Career Options

Graduates are employed specifically as faculty and administrators in community colleges and universities, adult learning consultants, and continuing professional educators.

Qualitative Research Methods Minor

The Qualitative Research Methods minor will provide graduate students access to a sequence of qualitative methods courses to enhance their understanding of research methods.

Required Courses

- EDRE5640 - Introduction to Qualitative Research Credits: 3
- EDRE5645 - Phenomenology, Case Study, and Grounded Theory in Qualitative Research Credits: 3
- EDRE5655 - Ethnography and Narrative Inquiry in Qualitative Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3
- EDRE5580 - Supervised Internship Credits: 1-8 (1 Credit Required)

- Three additional credit hours, which may include special topics qualitative methods seminars in or outside of education (i.e., Field Methods in Anthropology - ANTH 5390; Ethics in Research and Practice - FCSC 5121; Feminist Research Methods - WMST 5210); submit courses for approval to the coordinator of the Educational Research program.

Quantitative Research Methods Minor

The Quantitative Research Methods minor will provide graduate students an opportunity to demonstrate a comprehensive expertise in quantitative research methods with knowledge to teach research methods at the university level.

Required Courses

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- EDRE5610 - Educational Research: Group Comparison Research Credits: 3
- EDRE5620 - Correlational Research Credits: 3
- EDRE5630 - Educational Research IV: Multivariate Research Credits: 3
- EDRE5670 - Mixed Methods Research Credits: 3
- EDRE5580 - Supervised Internship Credits: 1-8 (1 Credit Required)

Certificate

Community College Leadership Certificate

Whether you are already employed or seeking a community college-related career, UW's online community college leadership program offers a background in leadership studies along with courses that address issues in modern community colleges.

Requirements

The Community College Leadership Certificate Program requires 15 credit hours to include the following three required courses:

- HIED5660 - Community College Credits: 3
- HIED5600 - Higher Education Finance Credits: 3
- HIED5650 - Law of Higher Education Credits: 3

Two Elective Courses Are Chosen From the Following:

- HIED5260 - Educational Issues Race, Class, and Gender Credits: 3
- HIED5630 - Advanced Organizational Leadership Credits: 3
- HIED5640 - Leadership Development Credits: 3
- HIED5670 - Community College Issues and Leadership Credits: 3
- HIED5680 - Issues in Higher Education Credits: 3

Education, Teaching Elementary School (TES)/Teaching Secondary Content (TSC) Graduate Certificates

The College of Education provides two options for individuals with previously earned bachelor's degree to earn a teaching certification: Certificate for Teaching Elementary School (TES) and Certificate for Teaching Secondary Content (TSC).

Standard Course Sequence

Starting June, 2021 the standard sequence is a three-semester long slate of required classes, beginning in the summer, and continuing through the subsequent fall and spring semesters.

- EDST2450 - Foundations of Development and Learning Credits: 3

Summer Courses (BOTH TES & TSC)

- EDEX2484 - Introduction to Special Education Credits: 3
- EDST4000 - Foundations of Education for a Diverse Society Credits: 3
- EDCI5550 - The Art and Science of Teaching Credits: 3

Practicum

- EDCI5551 - Practicum Graduate Certificate Credits: 1
 - The practicum can be taken in the summer in conjunction with EDCI 5550, or in the fall as a stand-alone class.
 - The 30 practicum hours can be met any time between January and December of the calendar year in which the students applies for and is admitted to the graduate certificate program.
 - Students may use up to 24 hours in a classroom substitute teaching (3 full days).
 - Students must spend a minimum of 6 hours of observing a professional teacher in a classroom of the appropriate subject or grade for the student's program (e.g., a student in the English Education program would need to observe a secondary English classroom and teacher for a minimum of 6 hours).
 - Students must complete the practicum hours before the end of the methods classes, and prior to residency. Student teaching residency will not count for the practicum.
 - Students will document the time, and submit proof of practicum hours to the EDCI 5551 faculty when they register for the class.

Fall Courses-ELEMENTARY (TES) (18 Credit Hours)

- EDEL4109 - Elementary Humanities Education Credits: 5
- EDEL4309 - Elementary Literacy Education Credits: 2-5 (2 credits required)
This is taken in conjunction with EDEL 4309; the prefix is changed to meet graduate requirements.
- EDEL4409 - Elementary Math/ Science Education Credits: 5
- EDCI5250 - Advanced Topics in Pedagogy Credits: 3 This is taken in conjunction with EDEL 4309; the prefix is different to meet graduate requirements.
- EDST3550 - Educational Assessment Credits: 2
- EDCI5560 - Seminar in Assessment Credits: 1

Fall Courses - SECONDARY (TSC) (10 Credits)

- ITEC Module
- EDSE 4000 Level Course 4 Credits
- EDCI 5250 Advanced Topics in Pedagogy Credits: 3
- EDST 3550 Educational Assessment Credits: 2
- EDCI 5560 Seminar in Assessment Credits: 1

Spring Courses - ELEMENTARY (TES) (15 Credits)

These are all for Student Teaching.

- EDEL4500 - Residency in Teaching Credits: 1-16 (11 credits required)
- EDCI5580 - Internship1 Credits: 8 (4 credits required)

Spring Courses SECONDARY (TSC) (15 Credit Hours)

These are all for Student Teaching.

- EDSE4500 - Residency in Teaching Credits: 1-16 (8 credits required)
- EDSE4550 - Residency Applications and Synthesis Credits: 3
- EDCI 5580 Internship1 Credits: 4 required

Additional Information:

The College of Education provides two options for individuals with previously earned bachelor's degree to earn a teaching certification: Certificate for Teaching Elementary School (TES) and Certificate for Teaching Secondary Content (TSC). The TES Option prepares individuals to qualify for a Wyoming teaching certificate in grades K-6. The TSC Option prepares individuals to qualify for a Wyoming teaching certificate in the middle and high school grades (6-12). Twelve hours of graduate-level coursework in either option can be applied to a subsequent UW master's degree in Curriculum and Instruction.

Overall Course Offerings: It is noted that the graduate certificate program can be a distance program; however, that does not preclude synchronous meetings or some scheduled on-campus intensive weekends (e.g., attending two Saturdays in the fall as part of the methods classes). Courses are not guaranteed to be asynchronous, meaning that students may have to sign in to Zoom at specific times to attend.

Online Instruction Certificate

The UW Online Instruction Certificate is a 4-class online program that will ground you in the theory and best practices of online education while giving you experiences solving problems and designing educational solutions using current technologies.

Requirements

The Online Instruction Certificate Program is a post-baccalaureate, credit bearing program that helps learners from all fields acquire necessary knowledge and skills to effectively develop and teach online courses in K-12, higher education, and business and industry settings. Courses familiarize learners with distance education and design theory to develop online materials that facilitate student access, engagement, communication, and information exchange. Emphasis is placed on tool use and the application of skills towards instructional development and implementation. Students who have been formally admitted to the Master of Science in Education with an emphasis in Instructional Technology may use certification courses to fulfill graduate degree requirements.

Coursework Credits: 12 Hours

The certificate program consists of 12 hours of coursework in four online courses:

- ITEC5020 - Technology and Distance Education Credits: 3
- ITEC5030 - Introduction to Online Teaching Credits: 3
- ITEC5160 - Introduction to Instructional Design Credits: 3 (with an emphasis on online learning environments)
- ITEC5510 - Communication in Distance Education Credits: 3

Principal Certificate

Offered online, UW's school principal graduate certificate program provides the knowledge and experience towards earning a Wyoming's Prof. Teaching Standards Board endorsement as a K-12 principal while maintaining your current teaching position.

Requirements

The endorsement/certificate is 24 credits which includes the four core classes, 3 credits each:

- EDAD5010 - Leadership for Curriculum Development Credits: 3
- EDAD5020 - Leadership for School Organization Credits: 3
- EDAD5030 - Leadership for School and Community Relations Credits: 3

- EDAD5040 - Leadership for Instruction Credits: 3
- EDAD5580 - Supervised Internship in Educational Administration Credits: 1-8
- EDRE5530 - Introduction To Research Credits: 3
- EDAD5080 - Introduction to School Law Credits: 3

Additional Information:

UW's 24-credit hour, online school principal certificate program is designed for licensed teachers who hold a master's degree in education or related area from an accredited college or university. Utilize your coursework towards further degrees in educational leadership.

School District Superintendent

To help equip you for the diverse responsibilities superintendents face, the UW School District Superintendent Certificate program combines a robust curriculum of educational leadership courses with an internship in two districts, so you acquire the executive background and operational skills you'll need to serve in rural or urban school districts.

Required Courses

REQUIRED COURSES (26 CREDIT HOURS)

Students must complete 26 credit hours of the courses listed below. Students who have at least two years prior experience as a superintendent are not required to take EDAD 5580 Internship.

- EDAD 5850 Direction Setter (3 credit hours)
- EDAD 5720 Change Agent (3 credit hours)
- EDAD 5800 Resource Manager (3 credit hours)
- EDAD 5750 Board & Community (3 credit hours)
- EDAD 5650 Communication (3 credit hours)
- EDAD 5700 Instruction (3 credit hours)
- EDAD 5600 Manager and Developer of Human Resources (3 credit hours)
- EDAD 5815 Advanced School Law (3 credit hours)
- EDAD 5580 Internship (2 credit hours)

Additional Information:

As a school district's chief executive officer, you will serve a wide variety of roles from representing your district in public to working with district principals and the school board to foster student success.

To help equip you for the diverse responsibilities superintendents face, the UW School District Superintendent Certificate program combines a robust curriculum of educational leadership courses with an internship in two districts, so you acquire the executive background and operational skills you'll need to serve in rural or urban school districts.

The program also meets the requirements of the Wyoming Professional Teaching Standards Board for the district superintendent endorsement as well as the superintendency standards of the national Educational Leadership Constituents Council.

The Early Childhood Special Education Program (Birth to Five) Leading to Wyoming Certification

Post-baccalaureate students who have earned a BA/BS in Elementary Education, Family and Consumer Sciences/Child Development Option, or a related field in early childhood development are eligible for this program. This is a pre-k program and does not prepare candidates to work in kindergarten or primary grade classrooms.

For more information, visit the web page (www.uwyo.edu/stc/early-childhood-education/early-childhood-special-education.html)

Required Courses:

- EDEC5220 - Children with Disabilities Credits: 3
- EDEC5230 - Curriculum and Materials for Young Children with Disabilities Credits: 3
- EDEC5240 - Evaluation of Young Children with Disabilities Credits: 3
- EDEX5720 - Special Education Law Credits: 3
- FCSC4124 - Families of Young Children With Special Needs Credits: 3
- EDEC4350 - Health Management Issues in Early Education Credits: 3
- EDEC4320 - Oral and Written Language Acquisition Credits: 3
- EDEC5580 - Internship in Early Childhood/Early Childhood Special Education Credits: 1
 - EDEC 5580 will be taken twice for this program.
 - 1. EDEC 5580 (2 credit) Internship in Early Childhood Special Education Birth-3
 - 2. EDEC 5580 (2 credits) Internship in Early Childhood Special Education 3-5

Endorsement

Early Childhood Endorsement

The College of Education provides 3 early childhood endorsement opportunities to UW students

Additional Information:

There are three early childhood endorsement programs available for students:

- * The B-8 endorsement program for elementary education majors
- * The B-5 endorsement program for Family and Consumer Sciences/Child Development option majors (or majors in other fields related to early childhood);
- * The Early Childhood Special Education Program (Birth to Five) Leading to Wyoming Certification for postbaccalaureate students with a degree in education or a field related to early childhood.

In addition, undergraduate elementary education majors may work toward the early childhood education endorsement as part of their elective requirements. Specific advising in each of the early childhood program options support students in their program development.

Secondary Biology Endorsement

Along with another science certification (such as Earth Science), earn a Biology teaching endorsement.

Requirements: 27 Hours (Minimum)

- LIFE1010 - General Biology Credits: 4

Choose One of the Following:

- LIFE2022 - Animal Biology Credits: 4
- LIFE2023 - Biology of Plants and Fungi Credits: 4
- LIFE3600 - Cell Biology Credits: 4
- Other BOT/ ZOO at the 3000/4000 level Credits: 3-4

- LIFE3400 - General Ecology Credits: 3

Choose One of the Following:

- LIFE3050 - Genetics Credits: 4
- LIFE3500 - Evolutionary Biology Credits: 3
- MICR2021 - General Microbiology Credits: 4 (can be substituted with MOLB 2021 - General Microbiology)
- BOT/LIFE/MOLB/MICR/SOIL/ZOO at the 3000/4000 level Credits: 3-4
- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6 (3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6 (4 credits required)

Secondary Chemistry Endorsement

Along with another science certification (such as Earth Science), earn a Chemistry teaching endorsement.

Requirements: 27 Hours (Minimum)

- CHEM1020 - General Chemistry I Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM4110 - Introductory Inorganic Chemistry Credits: 3

Choose One of the Following:

- MOLB3610 - Principles of Biochemistry Credits: 4
- MOLB4100 - Clinical Biochemistry Credits: 4
- GEOL4777 - Geochemistry of Natural Waters Credits: 3
- BOT4780 - Biogeochemistry Credits: 3
- SOIL Upper Division Elective Credits: 3-4
- CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3
- OR**
- CHEM4507 - Physical Chemistry I Credits: 3
- CHEM2230 - Quantitative Analysis Credits: 5
- OR**
- CHEM4230 - Instrumental Methods of Chemical Analysis Credits: 5
- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6 (3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6 (4 credits required)

Secondary Computer Science Endorsement

The College of Education offers courses that lead to an endorsement (grades 6-12) from the Wyoming Professional Teaching Standards Board in computer science. Students can also receive a minor in computer science; see information in the College of Engineering and Applied Science section of this catalog for more information about the computer science minor.

The endorsement consists of 15 Credits (novice/intermediate) or 16 (intermediate/advanced) with an option to take all 20 hours for a computer science minor. It is recommended that students interested in obtaining the computer science minor apply to the program by their freshman year or the beginning of the sophomore year. Students are encouraged to examine course prerequisites.

Required Courses:

(15 Credits for novice/intermediate track)

OR

(16 Credits for intermediate/advanced track)

- COSC1010 - Introduction to Computer Science I Credits: 3 (Both Tracks)
- COSC1030 - Computer Science I Credits: 4 (Both Tracks)
- COSC2030 - Computer Science II Credits: 4 (Both Tracks **OR** approved alternate course may be used for novice/intermediate track)
- COSC3050 - Ethics for the Computer Professional Credits: 1 (Both Tracks)
- COSC2150 - Computer Organization Credits: 3 (intermediate/advanced track)
- EDSE4280 - Subject Matter Specific Methods: Computer Science Credits: 2 (novice/intermediate track)

Secondary Earth Science Endorsement

Along with another science certification (such as Biology), earn an Earth Science teaching endorsement.

Requirements Credits: 27 Hours (Minimum)

- LIFE1010 - General Biology Credits: 4
 - CHEM1020 - General Chemistry I Credits: 4
 - GEOL1100 - Physical Geology Credits: 4
 - PHYS1110 - General Physics I Credits: 4
 - LIFE2022 - Animal Biology Credits: 4
- OR**
- LIFE2023 - Biology of Plants and Fungi Credits: 4
- Choose One of the Following:**
- ESS3480 - Environmental Change Credits: 3
 - GEOG3480 - Environmental Change Credits: 3
 - GEOL3500 - Global Change: A Geological Perspective Credits: 4
 - BOT4780 - Biogeochemistry Credits: 3
 - ESS4001 - Analysis of Nature's Data Credits: 3
 - BOT4001 - Modeling the Earth System Credits: 4
 - GEOL4001 - Modeling the Earth System Credits: 4
-
- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6

- (3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6
(4 credits required)

Secondary Physics Endorsement

Along with another science certification (such as Chemistry), earn a Physics teaching endorsement.

Requirements: 27 Hours (Minimum)

- PHYS1310 - College Physics I Credits: 4
- PHYS1320 - College Physics II Credits: 4
- PHYS2310 - Physics III: Waves and Optics Credits: 4
- PHYS2320 - Physics IV: Modern Physics Credits: 3
- PHYS4410 - Electricity and Magnetism I Credits: 3
- PHYS4510 - Thermodynamics and Statistical Mechanics Credits: 3
- EDSE3275 - Subject Matter Specific Methods I: Secondary Science Education Credits: 3-6
(3 credits required)
- EDSE4275 - Subject Matter Specific Methods II: Secondary Science Education Credits: 3-6
(4 credits required)

Special Education Director Endorsement

Students who successfully complete a Wyoming Principal's Certificate in Education Leadership and a Master's Degree or endorsement in Education (Special Education) can apply for endorsement as a Director of Special Education through Wyoming Professional Teaching Standards Board. The program is restricted to Wyoming students or students who have a contractual agreement with the University of Wyoming.

Students expecting to obtain this endorsement must complete both the Special Education Master's courses and also the Educational Leadership Certification courses.

Program Details for Director Endorsement

The endorsement program requirements are available by completing both the Special Education Master's program and the Educational Leadership Principal Certificate program. The program is offered through the UW Outreach School using distance education technology such as video conferencing, online, intensive weekends, or combinations of delivery methods. Upon completion of this program students are eligible to apply to the Wyoming Professional Teaching Standards Board for endorsement as a Director of Special Education.

Endorsement/Certificate

English as a Second Language Certificate leading to a Wyoming English as a Second Language Endorsement

The online graduate English as a Second Language certificate is a 15-credit program for preservice or in-service teachers and other fields where ESL skills might prove useful such as speech pathology.

Required Courses:

- EDCI4762 - Essential Sociolinguistics for English as a Second Language Learning and Teaching Credits: 3
- EDCI4350 - Introduction to Second Language Acquisition Credits: 3 (for undergraduate candidates)

OR

- EDCI5350 - Introduction to Second Language Acquisition Credits: 3 (for graduate candidates)
- EDCI5430 - Theory and Methods of ESL I Credits: 3
- EDCI5440 - Theory and Methods of ESL II Credits: 3
- EDCI5580 - Internship1 Credits: 8 (Register for 3 credits only)

Additional Information:

The University of Wyoming (UW), College of Education (COE) offers English as a Second Language (ESL)- Endorsement Program (Add-on, K-12) to meet a growing need of English language learners in the nation (generally) and the state of Wyoming (specifically). Eligibility for this endorsement requires an initial teaching certificate in the state of Wyoming. The candidates in the program are undergraduate students who are working toward Wyoming teacher certification and teachers who already possess the state of Wyoming teaching certificate. Upon completion of the ESL endorsement program, the candidates receive the Wyoming Professional Teaching Standards Board (PTSB) endorsement. The candidates in the program are also graduates students in different disciplines, earning graduate ESL graduate certificate but not ESL endorsement. In 2017, the UW- ESL endorsement program received **NATIONALLY RECONIZED** decision by meeting all the requirements and standards of the TESOL SPA (Teaching English to Speakers of Other Languages Specialized Professional Association). In 2021, the UW-ESL endorsement program received an approval from PTSB.

Literacy Certificate Leading to a Wyoming Reading Endorsement

The online UW Graduate Certificate in Literacy serves Wyoming teachers and recent College of Education graduates who wish to gain a reading endorsement from the Wyoming Professional Teaching Standards Board (PTSB).

Required Courses:

- EDCI5580 - Internship1 Credits: 8
- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
- EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
- EDCI5750 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part I Credits: 3-6
- EDCI5760 - Social Linguistics Literacies Credits: 3
- EDCI5755 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part II Credits: 3
- EDCI5770 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part I (6-12) Credits: 3
- EDCI5775 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part II (6-12) Credits: 3

Endorsement K-6: 18 Hours

- EDCI5760 - Social Linguistics Literacies Credits: 3
- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
- EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
- EDCI5750 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part I Credits: 3-6

- EDCI5755 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part II Credits: 3
- plus one elective

Endorsement 6-12: 18 Hours

- EDCI5760 - Social Linguistics Literacies Credits: 3
- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
- EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
- EDCI5770 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part I (6-12) Credits: 3
- EDCI5775 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part II (6-12) Credits: 3
- plus one elective

Endorsement K-12: 21 Hours

- EDCI5580 - Internship1 Credits: 8
- EDCI5760 - Social Linguistics Literacies Credits: 3
- EDCI5710 - Genre-based, Discipline-based Literacies Credits: 3
- EDCI5720 - Literacy Difficulties: Assessment and Instruction Credits: 3
- EDCI5750 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part I Credits: 3-6
- EDCI5755 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Grades K-5, Part II Credits: 3
- EDCI5770 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part I (6-12) Credits: 3
- EDCI5775 - Research in Literacy Learning, Teaching, and Assessment in Classrooms, Part II (6-12) Credits: 3

Electives

- EDCI5120 - Literature For Young Adults Credits: 3
- EDCI5160 - Recent Trends in Children's and Young Adult Literature Credits: 3

Additional Information:

This program is designed to serve graduate level K-12 teachers in Wyoming who wish to obtain the Wyoming Reading Endorsement, and those who choose to apply the course work toward a master's or doctoral degree in Curriculum & Instruction. Students enrolled in the literacy program will select one of three options for endorsement, K-6 level, 7-12 level and K-12 level. More information on the PTSB reading endorsement can be found at the following link: <https://wyomingptsb.com/licensure/endorsement-areas/>.

College of Engineering and Physical Sciences

2085 Engineering Building

Cameron Wright, Acting Dean

Phone: (307)766-4253 FAX: (307)766-4444

Web site: ceas.uwyo.edu

Engineering is a profession that truly makes a difference. Engineers constantly discover how to improve lives by creating new solutions to real world problems and needs. From small villages to large cities, engineers are involved in innovative improvements to all aspects of life from health care, to energy production, to protecting and rehabilitating the environment, to developing the newest technological device. The broad background of communication, mathematical, scientific, and problem solving skills provided at the University of Wyoming will prepare engineering graduates to pursue careers in engineering, construction, environmental policy, even medicine or law. The possibilities are endless! The creativity and innovative thinking developed in engineering enables students to lead rewarding lives, work with inspiring people, and give back to their communities. Computer science is a profession that is closely affiliated with engineering. At the University of Wyoming, degrees in computer science are awarded through the College of Engineering and Applied Science. The technology trends in this industry are also advancing at a tremendous rate. This requires that computer science education be at the forefront of new computing technologies, software languages, and networking.

Mission

The University of Wyoming's College of Engineering and Applied Science will provide excellent education, research, and service in chosen fields of engineering and applied science. The College emphasizes connectivity with society, life-long learning, and the essential problem-solving and collaborative skills needed to address the frontier challenges facing Wyoming, the nation and the world.

Design Experiences

In direct support of the goals of the individual departments within the College of Engineering and Applied Science, the design process is consistently developed and integrated throughout the curriculum from the freshman year through the senior year. Within the engineering science program, design elements such as basic analysis skills, communication skills, experimental skills, computational skills, problem solving skills, and design methodology are taught. At the departmental level, these skills are developed further and the concepts of design methodology are reinforced. The design process culminates in a comprehensive design experience within the student's major.

Accreditation

The following undergraduate programs are accredited by the Engineering Accreditation Commission of ABET: architectural engineering, chemical engineering, civil engineering, computer engineering, electrical engineering, energy systems engineering, mechanical engineering, and petroleum engineering.

Various options within different engineering programs are accredited as part of the primary major. That is, the electrical engineering/ bioengineering option is accredited as an electrical engineering degree, and the chemical engineering/petroleum option is accredited as a chemical engineering degree.

The Bachelor of Science in Computer Science is accredited by the Computer Accreditation Commission of ABET.

Programs of Study

Undergraduate Degrees

Bachelor of Science in Architectural Engineering

Bachelor of Science in Chemical Engineering

Bachelor of Science in Civil Engineering

Bachelor of Science in Computer Engineering
Bachelor of Science in Computer Science
Bachelor of Science in Computer Science (Computers and Business Option)
Bachelor of Science in Computer Science (Big Data Option)
Bachelor of Science in Construction Management
Bachelor of Science in Electrical Engineering
Bachelor of Science in Electrical Engineering (Francis M. Long bioengineering option)
Bachelor of Science in Energy Systems Engineering
Bachelor of Science in Mechanical Engineering
Bachelor of Science in Petroleum Engineering

Graduate Degrees

Master of Science

Architectural engineering
Atmospheric science
Chemical engineering
Civil engineering
Civil engineering/water resources
Computer science
Computer science professional
Electrical engineering
Environmental engineering
Mechanical engineering
Petroleum engineering

Doctor of Philosophy

Atmospheric science
Chemical engineering
Civil engineering
Computer science
Electrical engineering
Mechanical engineering
Petroleum engineering

Candidates for the various master's degrees in engineering are required to do a full year's work in residence either under Plan A or Plan B.

Students should understand that a strong background in mathematics is necessary to actively pursue an engineering curriculum. Credit toward an engineering degree is not allowed for algebra and trigonometry.

Coursework in all four-year curricula stresses the mastery of subjects fundamental to all fields of engineering. The balance of the program is divided between cultural context and courses applying to the particular field selected. The aim is to provide the student with such groundwork that the general principles acquired may be used successfully in any one of the several specialized fields he or she may follow after graduation.

Depending on the major, a minimum of 120 to 132 semester hours of credit is required for the bachelor's degree from the College of Engineering and Applied Science. All course work must be selected with prior approval. Detailed outlines of curricula are presented later under headings of the various departments of the college. Since most engineering programs are similar during the first year, students may change an engineering major during this time with little or no loss in credit.

Degree candidates must meet the academic requirements of the university and must have a grade point average of 2.000 (C) or above in all engineering courses attempted at this university.

Students may not take a course for S/U credit to satisfy any requirement for a degree from the College of Engineering and Applied Science, unless the course is offered for S/U credit only.

The College of Engineering and Applied Science adheres to prerequisite coursework being completed before moving forward to advanced coursework. If a student is found to be enrolled in a course without meeting the prerequisites, the student will be administratively dropped from the course.

All undergraduate engineering programs within the College of Engineering and Applied Science use the Fundamentals of Engineering Exam as one of their methods of outcomes assessment. As a graduation requirement, students must complete the exam, with a good faith effort, within one year prior to their expected graduation.

Preparation for the profession of engineering requires diligent work in the various curricula. The required credit hours can be completed in a four-year program, but because of the rigorous nature of some of the courses involved, some students may require additional time to complete degree requirements.

All engineering curricula are subject to minor program changes. The published curricula are general guides. Prospective students should consult the individual departments for current information.

International Engineering Minor

Students in the College of Engineering and Applied Science may earn a Minor in International Engineering. The Minor requires:

- a) a study abroad experience;
- b) 9 credits of lower-division coursework; and
- c) 9 credits of upper-division coursework.

More detailed requirements are available at: <http://www.uwyo.edu/ceas/academics/intleng.html>

Graduate Study

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following master's degrees: master of science in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, environmental engineering, mechanical engineering, and petroleum engineering. Candidates for the various master's degrees in engineering are required to do a full year's study in residence either under Plan A or Plan B.

Only graduates with satisfactory GPAs in programs accredited by ABET are granted full admission to graduate study. In addition, graduates with satisfactory GPAs in undergraduate disciplines of meteorology, physics, mathematics, or related fields can be granted full admission to graduate studies in atmospheric science. Other engineering graduates can be admitted on a provisional basis.

The College of Engineering and Applied Science offers coursework and research opportunities leading to the following doctoral degrees: doctorate in atmospheric science, chemical engineering, civil engineering, computer science, electrical engineering, mechanical engineering, and petroleum engineering. Interdisciplinary programs of study and research leading to one of the above disciplinary degrees can be developed.

Engineering Science

Program Director: David Mukai, Ph.D.
2076 Engineering Building,
(307) 766-6181
FAX: (307) 766-4444

Engineering Science offerings present the fundamental engineering concepts upon which most engineering analysis and design work is based. Faculty are drawn from all of the academic departments in the college. These core courses represent the majority of engineering offerings at the freshman and sophomore level.

Courses in engineering science have their roots in mathematics and physical science, extending knowledge toward creative application. Thus, students must take their courses in calculus, chemistry, physics, and engineering science in a timely manner. Details are given in the published curriculum for each program. **A grade of C or better must be earned in all courses that are prerequisite to any required engineering science course.**

Major

Architectural Engineering, B.S.

Architectural Engineers create structural and mechanical-electrical-plumbing systems for buildings. The B.S. in Architectural Engineering is accredited by ABET and provides a path to P.E. licensure. Note: This is not an Architecture degree.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Core Courses: 73 Credit Hours

- ARE1000 - Exploring CAECM Credits: 1
- ARE1600 - Architectural Design Studio I Credits: 3
- ARE2410 - Fundamentals of Building Performance Credits: 3
- ARE2600 - Architectural Design Studio II Credits: 3
- ARE-3110 Professional Practice
- ARE3200 - Structural Analysis I Credits: 3
- ARE3210 - Civil Engineering Materials Credits: 4
- ARE3300 - Building Electrical and Plumbing Systems Credits: 3
- ARE3400 - Heating, Ventilating and Air Conditioning of Buildings Credits: 3
- ARE3600 - Architectural Design Studio III Credits: 3
- ARE4600 - Architectural Design Studio IV Credits: 3
- ART3030 - History of Architecture Credits: 3

- CHEM1020 - General Chemistry I Credits: 4
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3
- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- STAT2050 - Fundamentals of Statistics Credits: 4

Geology Course: 4 Credit Hours

Must take one of the following.

- GEOL1100 - Physical Geology Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4

Physics Course: 4 Credit Hours

Must take one of the following courses:

- PHYS1210 - Engineering Physics I Credits: 4
- PHYS1220 - Engineering Physics II Credits: 4

ARE Professional Development Courses: 18 Credit Hours Required

Must take six of the following:

- ARE3360 - Fundamentals of Transport Phenomena Credits: 3
- ARE4200 - Structural Analysis II Credits: 3
- ARE4250 - Structural Steel Design Credits: 3
- ARE4260 - Structural Concrete Design Credits: 3
- ARE4285 - Masonry Design Credits: 3
- ARE4295 - Structural Timber Design Credits: 3
- ARE4330 - Building Electrical Systems Credits: 3
- ARE4390 - Building Safety and Fire Protection Credits: 3
- ARE4430 - HVAC Systems Analysis and Design Credits: 3
- ARE4490 - Modeling and Optimization of Energy Systems Credits: 3
- CE3600 - Soil Mechanics I Credits: 4
- CE4610 - Foundation Engineering Credits: 3
- CE4620 - Soil and Rock Slope Engineering Credits: 3
- CE4630 - Ground Improvement, Reinforcement and Treatment Credits: 3
- CE5010 - Advanced Mechanics of Materials Credits: 3
- CE5200 - Advanced Structural Analysis Credits: 3
- CE5220 - Structural Dynamics Credits: 3
- CE5255 - Advanced Steel Design Credits: 3
- CE5270 - Highway Bridge Engineering Credits: 3

- ME3040 - Thermodynamics II Credits: 3
- ME3170 - Machine Design Credits: 3
- ME4460 - Solar and Geothermal Engineering Credits: 3
- ME4470 - Wind and Ocean Energy Engineering Credits: 3

ARE Capstone: 3 Credit Hours

Must take 1 of the following courses

- ARE4720 - Structural Systems Design Project Credits: 3
- ARE4740 - Mechanical Systems Design Project Credits: 3

ARE Math/Sci/Tech/Prof Courses: 6 credit hours

Must take 6 additional credit hours in Math/Science/Technical/Professional courses.

Total Required Credit Hours: 123 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Advanced Standing/Gateway: Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the ARE degree. ARE 4720 and ARE 4740 cannot be transferred to UW.

ARE Outcomes

The Architectural Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Architectural Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives

6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions

7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Chemical Engineering, B.S.

Chemical Engineering draws upon fundamentals of chemistry, physics, biology, and math to analyze and design processes. Chemical Engineers work in a variety of fields including the energy, medicine, food, microelectronics, biotechnology, environmental, and manufacturing industries. The B.S. in Chemical Engineering is accredited by ABET and provides a path to P.E. licensure.

Curriculum

For students entering UW Fall 2022 or later.

- CHE1005 - Introduction to Chemical Engineering Credits: 1
- CHE2005 - Chemical Process Analysis Credits: 3
- CHE2060 - Chemical Engineering Computing Credits: 3
- CHE2070 - Chemical Thermodynamics Credits: 3
- CHE2080 - Chemical Engineering Fluid Mechanics Credits: 3
- CHE3015 - Chemical Thermodynamics II Credits: 3 Multicomponent Thermodynamics
- CHE3026 - Heat Transfer Credits: 3
- CHE3028 - Mass Transfer Credits: 3
- CHE3040 - Unit Operations Laboratory I Credits: 3
- CHE4050 - Unit Operations Laboratory II Credits: 3
- CHE4060 - Reaction Engineering Credits: 3
- CHE4070 - Process Simulation & Economics Credits: 4 Process Simulation, Economics, & Design
- CHE4080 - Senior Design Credits: 4
- CHE4090 - Process Dynamics and Control Credits: 3
- CHEM1050 - Advanced General Chemistry I Credits: 4
- CHEM1060 - Advanced General Chemistry II Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- CHEM4507 - Physical Chemistry I Credits: 3
- COSC1010 - Introduction to Computer Science I Credits: 3
- LIFE1010 - General Biology Credits: 4
- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- PHYS1210 - Engineering Physics I Credits: 4
- PHYS1220 - Engineering Physics II Credits: 4

University Studies Program Requirements

The University Studies Program 2015

- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3

- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Approved Electives

See CEAS Advising Center for a current list of approved technical electives. There are a total of 18 credits required for technical electives.

Transfer Coursework: All Wyoming Community College equivalent courses will be evaluated for acceptance into the CHE program. For upper-division coursework, no more than two CHE 3000+ courses can be transferred and applied to the CHE degree, however, CHE4070 - Process Simulation & Economics and CHE4080 - Senior Design cannot be transferred to UW.

In addition, all CHE transfer courses must be completed with a grade of C- or better.

Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Chemical Engineering should:

- Successfully practice the profession of Chemical Engineering;
- Demonstrate successful career growth

Chemical Engineering Program Outcomes

During the course of study in Chemical Engineering, the student should demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics;
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors;
- an ability to communicate effectively with a range of audiences;
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts;
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives;
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions;
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Civil Engineering, B.S.

Civil Engineers create infrastructure and development projects, including structures, transportation, water & wastewater, earthworks, and urban site plans. The B.S. in Civil Engineering is accredited by ABET and provides a path to P.E. licensure.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Core Courses: 75 Credits

- CE1000 - Exploring CAECM Credits: 1
- CE1010 - Civil Engineering Tools Credits: 3
- CE2070 - Engineering Surveying Credits: 3
CE-3110 Professional Practice
- CE3200 - Structural Analysis I Credits: 3
- CE3210 - Civil Engineering Materials Credits: 4
- CE3300 - Hydraulic Engineering Credits: 3
- CE3400 - Introduction to Environmental Engineering Credits: 3
- CE3500 - Transportation Engineering Credits: 4
- CE3600 - Soil Mechanics I Credits: 4
- CE4010 - Civil Engineering Design Credits: 3
- CE4900 - Comprehensive Design Experience Credits: 3
- CHEM1020 - General Chemistry I Credits: 4
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3
- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- STAT2050 - Fundamentals of Statistics Credits: 4

Physics Course

Must take one of the following:

- PHYS1210 - Engineering Physics I Credits: 4
- PHYS1220 - Engineering Physics II Credits: 4

Science Elective: 4 credit hours

Must take one of the following.

- ASTR2310 - General Astronomy I Credits: 4
- ATSC2000 - Introduction to Meteorology Credits: 4

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- LIFE1010 - General Biology Credits: 4
- ENR1200 - Environment Credits: 4
- GEOL1100 - Physical Geology Credits: 4
- GEOL1110 - Physical Geology for Engineers Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- MOLB2021 - General Microbiology Credits: 4
- SOIL2010 - Introduction to Soil Science Credits: 4

Structural Design Course: 3 credit hours

Must take one of the following.

- CE4250 - Structural Steel Design Credits: 3
- CE4260 - Structural Concrete Design Credits: 3

CE Professional Development Courses: 12 credit hours

Must take four of the following.

Selection of Professional Development Courses must demonstrate breadth by covering more than one area among Environmental, Geotechnical, Transportation and Water Resources.

- CE4200 - Structural Analysis II Credits: 3
- CE4265 - Prestressed Concrete Design Credits: 3
- CE4285 - Masonry Design Credits: 3
- CE4295 - Structural Timber Design Credits: 3
- CE4400 - Design of Water Treatment Facilities Credits: 3
- CE4410 - Design of Wastewater Treatment Facilities Credits: 3
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- CE4441 - Solid Waste Engineering Credits: 3
- CE4510 - Pavement Design for Airports and Highways Credits: 3
- CE4530 - Traffic Engineering: Operations Credits: 3
- CE4555 - Geometric Design of Highways Credits: 3
- CE4610 - Foundation Engineering Credits: 3
- CE4620 - Soil and Rock Slope Engineering Credits: 3
- CE4630 - Ground Improvement, Reinforcement and Treatment Credits: 3
- CE4800 - Hydrology Credits: 3
- CE4810 - Groundwater Hydrology Credits: 3
- CE4870 - Water Resource Engineering Credits: 3

CE Math/Sci/Tech/Prof Courses: 9 credit hours

Must take 9 additional credit hours in Math/Science/Technical/Professional courses.

Required Credits: 125 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Advanced Standing/Gateway: Prior to enrolling in upper division ARE/CE courses, students must earn 57 quality points in the following courses: CHEM 1020, PHYS 1210 or PHYS 1220, MATH 2200, MATH 2205, ES 2110, ES 2120, and ES 2410.
- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all engineering courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Students choose an area of emphasis in either structural or mechanical systems, and select Optional Electives and the Capstone Design for their emphasis area. Care should be taken to ensure prerequisites are completed.
- Students must take either CE 4250 or CE 4260 for the Structural Design requirement. Remaining Professional Development Electives must cover at least two of the following areas: Environmental, Geotechnical, Transportation, Water Resources.
- Students may have a maximum of 6 credits in courses with a grade of D in upper division ARE courses that apply towards their degree.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.
- No more than two upper division courses may be transferred and applied to the CE degree. CE 4010 and CE 4900 cannot be transferred to UW.

CE Outcomes

The Civil Engineering department regularly evaluates the following student skills. Specifically, every University of Wyoming Civil Engineering graduate shall have:

1. an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
2. an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
3. an ability to communicate effectively with a range of audiences
4. an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
5. an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
6. an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
7. an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Civil Engineering/Water Resources

The purpose of this program is to broaden the students' master of science program in the water resource area in civil engineering.

Plan A Thesis Requirement

Only students with a M.S. Plan A thesis option are eligible. The student's graduate committee will include at least one member of the Water Resources Curriculum Committee.

Coursework and Thesis

Each student must complete a minimum of 28 hours of graduate level coursework and a thesis under Plan A (4 credit hours) to qualify for the master of science in civil engineering/ water resources.

The student must obtain at least 18 credit hours of graduate level coursework in engineering, emphasizing a concentration of core courses in a particular area of emphasis in civil engineering. The core course areas of emphasis for this program are hydrologic and hydraulic engineering. The particular set of courses for a given area of emphasis will be designated by the faculty in the water resources area for these areas of emphasis with the approval of the Civil Engineering Graduate Committee.

Interdisciplinary Component

9 hours

Technical Hydrology (3 Hours)

- GEOL5444 - Geohydrology Credits: 3
- GEOL5550 - Numerical Methods in Ground Water Geology I Credits: 3
- GEOL5570 - Advanced Geohydrology Credits: 3
- REWM5285 - Wildland Hydrology Credits: 3
- REWM 5280 - Stream Habitat Management Credits: 3

Law/Natural Resource Economics (3 Hours)

(please refer to the general degree requirements for a list of courses)

Water Quality (3 Hours)

- GEOL5450 - Geochemical Modeling Credits: 3
- GEOL5777 - Geochemistry of Natural Waters Credits: 3
- MOLB 4410 Water Microbiology Credits: 3
- MOLB 4500 Microbial Ecology Credits: 3
- ZOO4440 - Limnology Credits: 3

Computer Engineering, B.S.

A B.S. in Computer Engineering provides the knowledge needed for careers in computer programming & design. It is a blend of Computer Science and Electrical Engineering and is often used to develop special purpose computers like those in your car.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3

- ES2120 - Dynamics Credits: 3 ³
- ES2210 - Electric Circuit Analysis Credits: 3

Electrical Engineering

- EE2220 - Circuits and Signals Credits: 4
- EE2390 - Digital Systems Design Credits: 4
- EE3150 - Electromagnetics Credits: 3
- EE3220 - Signals And Systems Credits: 3
- EE3311 - Electronics I Credits: 3
- EE3312 - Electronics I Laboratory Credits: 1
- EE3331 - Electronics II Credits: 3
- EE3332 - Electronics II Laboratory Credits: 1
- EE4220 - Probabilistic Signals and Systems Credits: 3
- EE4390 - Microprocessors Credits: 3
- EE4490 - Hardware Descriptive Language (HDL) Digital Design Credits: 3
- EE4820 - Senior Design I Credits: 2 ⁴
- EE4830 - Senior Design II Credits: 2 ⁴
- EE4870 - Computer Network Hardware Credits: 4 ⁵

OR

- COSC4760 - Computer Networks Credits: 3

Computer Science

- COSC1010 - Introduction to Computer Science I Credits: 3
- COSC1030 - Computer Science I Credits: 4
- COSC2030 - Computer Science II Credits: 4
- COSC2150 - Computer Organization Credits: 3

CPEN Electives

12 credits from the following list.

A maximum of two CPEN elective courses can be from the computer science department.

EE 4075 is not allowed as a CPEN Elective.

- EE4245 - Digital Signal Processing Credits: 3
- EE4340 - Semiconductor Materials and Devices Credits: 3
- EE4345 - Hardware Digital Signal Processing Credits: 3
- EE4360 - VLSI Design Credits: 3
- EE4440 - Communication Theory Credits: 3
- EE4590 - Real Time Embedded Systems Credits: 3
- EE4870 - Computer Network Hardware Credits: 4
- EE4990 - Advanced Microprocessors Credits: 3
- EE5390 - Computer Architecture Credits: 3
- EE5410 - Neural and Fuzzy Systems Credits: 3
- EE5430 - 3-D Computer Vision Credits: 3
- EE5460 - Probabilistic Robotics Credits: 3
- EE5620 - Digital Image Processing Credits: 3
- EE5630 - Advanced Image Processing Credits: 3
- EE5650 - Object and Pattern Recognition Credits: 3
- EE5670 - Digital Image Formation Credits: 3
- COSC3020 - Algorithms and Data Structures Credits: 4
- COSC3765 - Computer Security Credits: 3
- COSC4210 - Web Application Development Credits: 3
- COSC4220 - Design and Implementation in Emerging Environments Credits: 3
- COSC4450 - Computer Graphics Credits: 3
- COSC4550 - Introduction to Artificial Intelligence Credits: 3
- COSC4555 - Machine Learning Credits: 3
- COSC4560 - Modern Robots and Softbots Credits: 3
- COSC4730 - Mobile Application Programming Credits: 3
- COSC4735 - Advanced Mobile Programming Credits: 3
- COSC4740 - Operating Systems Design Credits: 4
- COSC4760 - Computer Networks Credits: 3
- BE5410 - Rehabilitation Engineering Credits: 3
- MATH4500 - Matrix Theory Credits: 3

EE/BE Elective

3 credits of an approved EE/BE Elective.

Total Credits: 127 Hours

¹ PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

² One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/Science courses.

³Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

⁴To meet the COM3 requirement with EE 4820 and EE 4830 the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

⁵ Network Congestion Control can also be taken to fulfill the CPEN network course requirement.

Online courses taken outside of the Wyoming system will not be considered for preapproved transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for EE and CPEN majors

Computer Engineering Program Educational Objectives

Graduates of the University of Wyoming Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Computer Engineering - Student Learning Outcomes

All Computer Engineering graduates shall demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Computer Science, B.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A B.S. in Computer Science prepares you for a career designing, implementing, and securing software-intensive systems.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- Quantitative Reasoning Credits: 3
- PN- Physical and Natural World (1) Credits: 3
- PN- Physical and Natural World (2) Credits: 3
- H- Human Culture (1) Credits: 3
- H- Human Culture (2) Credits: 3
- V- U.S. & WY Constitution Credits: 3

Mathematics and Science Courses

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2250 - Elementary Linear Algebra Credits: 3
- STAT2050 - Fundamentals of Statistics Credits: 4
- COSC2300 - Discrete Structures Credits: 3

OR

- MATH2300 - Discrete Structures Credits: 3
- Approved Science course - 4 credits
- Approved Science course - 4 credits
- Approved Math/Science Elective - 4 credits

ABET requires a minimum of 30 Math/Science credit hours.

Math elective means any MATH course above Calculus II or STAT courses 3000 and up.

Exceptions: cannot count MATH 2350, MATH 2355, MATH 4000, STAT 4220 [Inactive] or any variable credit courses toward this requirement.

Courses meeting the Science requirement must have a lab component and be for science or engineering majors. See Department web pages for a current list of approved courses.

Computer Science Courses

Introductory Programming Course - Choose one of:

- COSC1010 - Introduction to Computer Science I Credits: 3
- OR**
- COSC1015 - Introduction to Programming for Data Science Credits: 3

- COSC1030 - Computer Science I Credits: 4
- COSC2030 - Computer Science II Credits: 4
- COSC2150 - Computer Organization Credits: 3
- COSC3011 - Introduction to Software Design Credits: 3
- COSC3015 - Functional Programming Credits: 3
- COSC3020 - Algorithms and Data Structures Credits: 4
- COSC3050 - Ethics for the Computer Professional Credits: 1
- COSC3765 - Computer Security Credits: 3

Theory Course - Choose one of:

- COSC4100 - Foundations of Computing Credits: 3

OR

- COSC4200 - Computability and Complexity Credits: 3

Operating Systems Course - Choose one of:

- COSC4740 - Operating Systems Design Credits: 4

OR

- COSC3750 - Linux Programming for System Applications Credits: 3

Programming Language Course - Choose one of:

- COSC4780 - Principles of Programming Languages Credits: 3

OR

- COSC4785 - Compiler Construction Credits: 3

Systems Course - Choose one of:

- COSC4760 - Computer Networks Credits: 3

OR

- COSC4820 - Database Systems Credits: 3

- COSC4950 - Senior Design I Credits: 1

- COSC4955 - Senior Design II Credits: 2

Electives

- 9 credits of COSC Electives (3000-level or above, not used to complete any other requirement)

- General Electives to reach 120 credits.

A total of 3 credits of COSC 3970 can be used.

Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.

General electives include any course at or above the 1000 level, not used to complete any other requirement.

Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

Computer Science, Big Data Concentration, B.S.

The B.S. in Computer Science with a Concentration on Big Data combines a rigorous education in Computer Science with statistics, preparing you for a career in computer science, data analysis, or machine learning.

Computer Science General Information

Computer Science majors must satisfactorily meet the requirements of the University Studies Program (USP), and they must complete a minimum of 120 credit hours, at least 42 of which must be upper division hours.

Note that some of the courses required for the Computer Science core or the concentrations will meet some of the USP requirements. Students do not have to take additional courses to meet those requirements.

All courses in Computer Science, Mathematics, and Statistics must be completed with a grade of C or better.

University Studies Program

- COSC4955 - Senior Design II Credits: 2

Concentration Requirements

Big data is high volume, high velocity, and/or high variety assets that require new forms of processing to enable enhanced decision making, insight discovery and process optimization. The Big Data Concentration directs the students toward data handling (AI, visualization, data mining, and machine learning) courses and data analysis (statistics) courses.

Students should take the following courses to fulfill the Big Data Concentration.

In addition, students who wish to pursue a Big Data concentration are required to complete a minor in Statistics.

- COSC4450 - Computer Graphics Credits: 3
- COSC4550 - Introduction to Artificial Intelligence Credits: 3
- COSC4555 - Machine Learning Credits: 3
- COSC4570 - Data Mining Credits: 3
- Courses for Statistics Minor
- General Electives to reach 120 credits.

A total of 3 credits of COSC 3970 can be used.

General Electives include any course at or above the 1000 level, not used to complete any other requirement.

Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

Concentration Requirements

An understanding of business fundamentals is essential for students planning a career in applied computer science in a business environment.

Students should take COSC 4820 to satisfy the System Course requirement, and should take the following courses as part of the Computer and Business Concentration.

In addition, students who wish to pursue a Computers and Business concentration are required to complete one of the minors offered by the College of Business.

- COSC4210 - Web Application Development Credits: 3
- COSC4220 - Design and Implementation in Emerging Environments Credits: 3
- 3 credits of COSC Electives (3000-level or above, not used to complete any other requirement)
- Courses for Business Minor
- General Electives to reach 120 credits

A total of 3 credits of COSC 3970 can be used.

Approved EE courses may also be taken as COSC electives. See Department web pages for a current list of approved courses.

General electives include any course at or above the 1000 level, not used to complete any other requirement.

Electives should be selected to meet the 42 hour requirement for Upper Division credits.

Computer Science Program Educational Objectives

The following are the objectives that the Computer Science program is preparing its graduates to achieve:

Success: Graduates will be employed in a computer science-related field or making progress toward an advanced graduate degree.

Growing: Graduates show continued learning and leading in computing-related professions.

Ethics: Graduates exhibit ethical and responsible behavior in all professional and community endeavors.

Computer Science - Student Learning Outcomes

The program of study in Computer Science enables students to achieve, by the time of graduation:

- Analyze a complex computing problem and to apply principles of computing and other relevant disciplines to identify solutions.
- Design, implement, and evaluate a computing-based solution to meet a given set of computing requirements in the context of the program's discipline.
- Communicate effectively in a variety of professional contexts.
- Recognize professional responsibilities and make informed judgments in computing practice based on legal and ethical principles.
- Function effectively as a member or leader of a team engaged in activities appropriate to the program's discipline.
- Apply computer science theory and software development fundamentals to produce computing-based solutions.

Construction Management, B.S.

Construction Managers are responsible for overseeing construction projects, including schedules, budgets, and quality control.

The B.S. in Construction Management is a candidate for accreditation by ACCE and provides numerous career paths.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Core Courses: 50 credit hours

- CE1000 - Exploring CAECM Credits: 1
- CE2070 - Engineering Surveying Credits: 3
- CM2000 - Introduction to Construction Management Credits: 3
- CM2120 - Construction Materials and Methods Credits: 3
- CM2300 - Construction Safety Credits: 3
- CM2400 - MEP Systems Credits: 3
- CM2600 - Construction Documents Credits: 3
- CM3100 - Construction Scheduling Credits: 3
- CM3160 - Construction Law & Contracts Credits: 3
- CM3180 - Evolving Technologies in CM Credits: 3
- CM3200 - Statics & Structural Systems Credits: 4
- CM3210 - Construction Estimating Credits: 3
- CM3220 - Soils and Concrete Credits: 3
- CM4100 - Project Management Credits: 3
- CM4140 - Heavy CM Methods Credits: 3
- CM4600 - Building Info. Modeling Credits: 3
- CM4900 - Capstone Project Credits: 3

Business & Professional Courses: 18 credit hours

- ACCT2010 - Principles of Accounting I Credits: 3
- COMM2010 - Public Speaking Credits: 3
- COJO3010 - Business and Professional Communication Credits: 3
- ECON1010 - Principles of Macroeconomics Credits: 3
- MGT2010 - Legal Environment of Business Credits: 3
- MGT2100 - Management and Organization Credits: 3

Math/Science Courses: 18 credit hours

- GEOL1100 - Physical Geology Credits: 4
- MATH1405 - Trigonometry Credits: 3
- MATH2200 - Calculus I Credits: 4
- PHYS1110 - General Physics I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- Math/Science Elective Credits: 3

CM Electives: 6 credit hours

Must take 6 additional credit hours in Construction Management elective courses.

General Electives: 12 credit hours

Must take 12 additional credit hours in general elective courses.

Required Credits: 120 Hours (Minimum)

A Minimum of 42 Credit Hours Must Be Upper Division (3000+) Level.

- Degree candidates must meet the academic requirements of the university, and must have a minimum GPA of 2.0 in all courses, and all courses required for the major. *Grades of C or better are required for all prerequisite courses.
- Math 2350 may replace Math 2200 but student must also have Math 1405.
- Math 1405 may be satisfied with Level 5 of the Math placement exam or Math ACT of 27 or SAT Math of 640. Students placing out of Math 1405 will need an additional general elective.
- Students may not take a course for S/U credit to satisfy any requirement, unless the course is offered for S/U credit only.

Electrical Engineering, B.S.

A B.S. in Electrical Engineering provides the knowledge needed for careers in power systems, control systems, electronics, signal processing, tele-communications, computer programming & design.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Math & Science

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2250 - Elementary Linear Algebra Credits: 3
- MATH2310 - Applied Differential Equations I Credits: 3
- CHEM1020 - General Chemistry I Credits: 4
- PHYS1210 - Engineering Physics I Credits: 4 ¹
- PHYS1220 - Engineering Physics II Credits: 4 ¹
- 3 credits of an approved Math/Science Elective ²

Engineering Science

- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- ES2110 - Statics Credits: 3 ³
- ES2120 - Dynamics Credits: 3 ³
- ES2210 - Electric Circuit Analysis Credits: 3

Electrical Engineering

- EE2220 - Circuits and Signals Credits: 4
- EE2390 - Digital Systems Design Credits: 4
- EE3150 - Electromagnetics Credits: 3
- EE3220 - Signals And Systems Credits: 3
- EE3311 - Electronics I Credits: 3
- EE3312 - Electronics I Laboratory Credits: 1
- EE3331 - Electronics II Credits: 3
- EE3332 - Electronics II Laboratory Credits: 1
- EE3510 - Electric Machines and Power Systems Credits: 4
- EE4075 - C++ with Numerical Methods for Engineers Credits: 4
- EE4220 - Probabilistic Signals and Systems Credits: 3
- EE4390 - Microprocessors Credits: 3
- EE4440 - Communication Theory Credits: 3
- EE4620 - Automatic Control Systems Credits: 3
- EE4820 - Senior Design I Credits: 2⁴
- EE4830 - Senior Design II Credits: 2⁴

Advisor Approved Electives

- 15 credits of EE or BE Electives (4000-Level or Above)
- 4 credits Approved Technical Electives.⁵

Total Credits: 128 Hours

¹ PHYS 1210: no credit can be earned in PHYS 1210 if taken after ES 2120. PHYS 1220 should be taken before or concurrently with ES 2210.

² One course from the ECE Math/Science Elective List. ABET requires a minimum of 30 hours of Math/ Science Electives.

³ Or any ES, EE, BE course (>2000 level), or COSC 3011 or COSC 3750

⁴ To meet the COM3 requirement with EE 4820 and EE 4830, the COM2 course must be taken before EE 4820. Also, EE 4820 and EE 4830 must be taken in sequence. COM 2 grade of C or better is required.

⁵ Any course from the approved ECE technical elective list. Credit can be earned for professional internships or CO-OPs. Internships for Credit must go through EE 4800

Online courses taken outside of the Wyoming system will not be considered for preapproved Transfer.

Students must have a minimum cumulative GPA 2.000 in all Engineering courses for graduation.

A grade of C or better is required for all prerequisite courses.

Students must also achieve a grade of C or better in all required mathematics courses.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

Electrical Engineering Program Educational Objectives

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Electrical Engineering - Student Learning Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Electrical Engineering, F.M. Long Bioengineering, B.S.

The Bioengineering B.S. is a degree in Electrical Engineering in which the electives are carefully taken to understand and design medical equipment. With a few more courses, it can serve as a pre-med or pre-dental program.

Students must complete a minimum of 42 hours of upper division coursework, 30 of which must from the University of Wyoming.

EE 1101 is the recommended FYS course for Electrical Engineering majors.

Electrical Engineering -F.M. Long Bioengineering Program Educational Objectives

Graduates of the University of Wyoming Electrical and Computer Engineering Program will:

- Be able to successfully practice the profession of Electrical or Computer Engineering.
- Be prepared and motivated to accept challenging assignments and responsibilities and be productive members of society.
- Demonstrate successful career growth (e.g., professional registration, graduate school, promotion and advancement, patents, publications).

Electrical Engineering, F.M. Long Bioengineering Student Learning Outcomes

All Electrical (Computer) Engineering graduates shall demonstrate:

- an ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- an ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors
- an ability to communicate effectively with a range of audiences
- an ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts
- an ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- an ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Energy Systems Engineering, B.S.

Energy Systems Engineers design, develop, and test energy systems and devices with emphasis on renewables, conversion, and more, and in the context of environmental and legal considerations. The UW BS in Energy Systems Engineering is ABET accredited.

Energy Systems Engineering Success Curriculum

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Successful Completion

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2210 - Electric Circuit Analysis Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3

Policy for Transfer Credit Towards Energy Systems Engineering (ESE) Core Coursework

In general, transfer of coursework toward an Energy Systems Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Energy Systems Engineering electives without a direct University of Wyoming equivalent). However, three courses are considered to be the core of the Energy Systems Engineering program, and therefore credit cannot be transferred from another institution. These courses are ESE 3020, ESE 3040, and ESE 3360. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ESE courses requires explicit written approval from the Department.

Energy Systems Engineering Curriculum

Atmospheric Science

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3

Chemistry

- CHEM1020 - General Chemistry I Credits: 4

Engineering Science

- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2210 - Electric Circuit Analysis Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3

Environment and Natural Resources

- ENR3000 - Approaches to ENR Problem Solving Credits: 3
- ENR4750 - ENR Law and Policy Credits: 3
- ENR4900 - Capstone in ENR Credits: 3

Math

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3

Energy System Engineering

- ESE3005 - Engineering Experimentation Credits: 3
- ESE3020 - System Dynamics Credits: 3
- ESE3040 - Thermodynamics II Credits: 3
- ESE3060 - Numerical Methods for Engineers Credits: 3
- ESE3160 - Thermal/Fluid Science Lab Credits: 3
- ESE3360 - Fundamentals of Transport Phenomena Credits: 3
- ESE4060 - Energy Systems Design I Credits: 3
- ESE4070 - Energy Systems Design II Credits: 3

Life Sciences

- LIFE1010 - General Biology Credits: 4

Physics

- PHYS1220 - Engineering Physics II Credits: 4

Electives

- One Math/Science Elective (min 3 CH total, select from department-approved list)
 - One Business Elective (min 3 CH, select from department-approved list)
- (See here for Math, Science and Business Elective options: [me_math_science_business_electives_2022_02_04.pdf](#) (uwyo.edu))

ESE Electives

Two ESE Electives (min 6 CH total) choose 2 from:

- ECON1300 - Oil: Business, Culture, and Power Credits: 3
- ENR2000 - Environment and Society Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- POLS4350 - Sustainable Development and Global Policy Credits: 3
- GEOL3500 - Global Change: A Geological Perspective Credits: 4
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
- PETE4000 - Environment, Technology and Society Credits: 3
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6 (Applied GIS or Econ Nat Resources)

Technical Electives

Five Technical Electives (min 15 CH). Choose 5 from:

- ARE4430 - HVAC Systems Analysis and Design Credits: 3
- ARE4740 - Mechanical Systems Design Project Credits: 3
- CE3400 - Introduction to Environmental Engineering Credits: 3
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ES2800 - Physical Computing Credits: 3
- ESE4455 - Combustion Engineering Credits: 3
- ESE4461 - Computational Fluid Dynamics I Credits: 3
- GEOL4190 - Petroleum Geology Credits: 3
- ME3400 - Heating, Ventilating and Air Conditioning of Buildings Credits: 3
- ME3450 - Properties of Materials Credits: 3
- ME4470 - Wind and Ocean Energy Engineering Credits: 3
- ME4460 - Solar and Geothermal Engineering Credits: 3
- ME4340 - Gas Turbine Engines Credits: 3
- PETE2050 - Fundamentals of Petroleum Engineering Credits: 3

Universities Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3

- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Notes:

- Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).
- Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ESE, business, and technical electives should be chosen appropriately.

Program Educational Objectives

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g., increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees)
- Apply energy systems engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts
- Successfully serve in a range of leadership and collaborative roles in the profession and in the community
- Exhibit high professional standards and commitment to ethical action

Energy Systems Student Outcomes

The Department's Student Outcomes are:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- An ability to communicate effectively with a range of audiences
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Mathematics, B.A.

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Required Lower Division Core Courses

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- MATH2250 - Elementary Linear Algebra Credits: 3
- MATH2800 - Mathematics Major Seminar Credits: 2

Upper Division

These courses, known as the transition courses, introduce students to the three main areas of mathematics research currently represented in the department.

At the upper division, all mathematics majors must take:

- MATH3205 - Analysis I: Elementary Real Analysis Credits: 3
- MATH3500 - Algebra I: Introduction to Rings and Proofs Credits: 3
- MATH3340 - Introduction to Scientific Computing Credits: 3

Depth Course

Every mathematics major must select one course that builds on the corresponding transition course. This sequence provides the student with an opportunity to study one of these areas in greater depth.

- MATH4200 - Analysis 2: Advanced Analysis Credits: 3
- **OR**
- MATH4205 - Analysis 3: Undergraduate Topics in Analysis Credits: 3
- **OR**
- MATH4510 - Algebra II: Introduction to Group Theory Credits: 3
- **OR**
- MATH4520 - Algebra III: Topics in Abstract Algebra Credits: 3

OR

- MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations Credits: 3

OR

- MATH4440 - Introduction to Partial Differential Equations I Credits: 3

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Mathematics, B.S.

A comprehensive math degree with training in the fundamentals of proofs, analysis, algebra, computation and math modeling. Provides a strong background for teaching, work in industry and graduate programs in math.

University Studies Program

Upper Division Math Courses

Finally, an additional 15 credits of upper division math courses (3000 and above) are required. It is recommended that these courses be selected to provide a broad view of mathematics.

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the major.

Mechanical Engineering, B.S.

Mechanical Engineers design, develop, build, and test mechanical and thermal systems and devices in a wide range of fields including energy, manufacturing, materials, machines, and more. The UW BS in Mechanical Engineering is ABET accredited.

Mechanical Engineering Success Curriculum

All undergraduate students in the B.S. Mechanical Engineering and B.S. Energy Systems Engineering programs must successfully complete the Mechanical Engineering Success Curriculum prior to enrolling in any upper-division (3000-level or above) courses taught by the Mechanical Engineering Department. The Mechanical Engineering Success Curriculum promotes successful completion of upper-division coursework by assuring a student that their foundational knowledge and skills are strong in mathematics and engineering fundamentals. AP/iB courses are excluded from the GPA calculation, but grades transferred from other institutions will be used in evaluating the ME Success Curriculum GPA.

Successful Completion

To successfully complete the Mechanical Engineering Success Curriculum, a student must earn a minimum 3.000 GPA in the following 10 courses:

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2210 - Electric Circuit Analysis Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3

Policy for Transfer Credit Towards Mechanical Engineering (ME) Core Coursework

In general, transfer of coursework towards a Mechanical Engineering degree will follow University of Wyoming policy. A course must be shown to be equivalent to its University of Wyoming course (latitude may be given for Mechanical Engineering electives without a direct University of Wyoming equivalent). However, six courses are considered to be the core of the Mechanical Engineering program, and therefore credit cannot be transferred from another institution. These courses are ME 3010, ME 3020, ME 3040, ME 3170, ME 3360, and ME 3450. Exceptions may be made for courses from approved study abroad programs or in extreme circumstances. Please note that failing a prerequisite course resulting in a delay of graduation does not constitute an extreme circumstance. Any transfer of ME courses requires explicit written approval from the Department.

Mechanical Engineering Curriculum

Chemistry

- CHEM1020 - General Chemistry I Credits: 4

Engineering Science

- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3

- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Notes:

- Before enrolling in any upper division ESE or ME course, students must complete the ME Success Curriculum (minimum 3.000 GPA in MATH 2200, MATH 2250, MATH 2210, and the seven ES courses).
- ES 2800 is NOT a part of the MESC
- Graduates must meet all college requirements and earn a minimum GPA of 2.000 in ME and ESE courses taken at UW. A minimum of 48 hours of upper division coursework are required, so ME, business, and technical electives should be chosen appropriately.

Mechanical Engineering Program Educational Objectives

- Successfully practice the profession of engineering
- Demonstrate career growth (e.g. increasing complexity of job assignment, career promotions, professional registration, patents, publications, and completion of advanced degrees).
- Apply Mechanical Engineering knowledge to find creative solutions to evolving challenges with global, economic, environmental, and societal impacts.
- Successfully serve in a range of leadership and collaborative roles in the profession in the community.
- Exhibit high professional standards and commitment to ethical action.

Mechanical Engineering Program Student Outcomes

The Department's Student Outcomes are:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors
- An ability to communicate effectively with a range of audiences

- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Petroleum Engineering, B.S.

Petroleum engineers combine fundamentals of science & math with computer programming, materials science, fluid mechanics and thermodynamics to develop and apply new technology to recover hydrocarbons from conventional and unconventional reservoirs.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3 COJO 2010 Credits / Units: 3
- COM3 - Communication 3 Credits: 3 PETE 4736 Credits / Units: 4
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- PN- - Physical and Natural World (1) Credits: 3 CHEM 1020 Credits / Units: 4
- PN- - Physical and Natural World (2) Credits: 3 CHEM 1030 Credits / Units: 4
- Q- - Quantitative Reasoning Credits: 3 MATH 2200 Credits / Units: 4
- V- - U.S. & WY Constitution Credits: 3

Undergraduate Curriculum

*Course meets USP requirement.

Applies to all undergraduate PETE programs.

- CHEM1020 - General Chemistry I Credits: 4 *
- CHEM1030 - General Chemistry II Credits: 4
- CHEM2300 - Introductory Organic Chemistry Credits: 4
- ES2110 - Statics Credits: 3
- ES2120 - Dynamics Credits: 3
- ES2310 - Thermodynamics I Credits: 3
- ES2330 - Fluid Dynamics Credits: 3
- ES2410 - Mechanics of Material I Credits: 3
- GEOL1100 - Physical Geology Credits: 4 *
- GEOL4190 - Petroleum Geology Credits: 3
- GEOL Technical Elective Credits: 3
- MATH2200 - Calculus I Credits: 4 *

- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- PHYS1220 - Engineering Physics II Credits: 4
- PETE1060 - Introduction to Petroleum Engineering Problem Solving Credits: 1
- PETE2050 - Fundamentals of Petroleum Engineering Credits: 3
- PETE2060 - Introduction to Petroleum Engineering Computing Credits: 3
- PETE3015 - Multicomponent Thermodynamics Credits: 3
- PETE3025 - Heat and Mass Transfer Credits: 3
- PETE3100 - Rock and Fluids Lab Credits: 2
- PETE3200 - Reservoir Engineering Credits: 3
- PETE3255 - Basic Drilling Engineering Credits: 3
- PETE3265 - Drilling Fluids Laboratory Credits: 3
- PETE3715 - Production Engineering Credits: 3
- PETE3725 - Well Completions Credits: 3
- PETE4225 - Well Test Analysis Credits: 3
- PETE4320 - Well Log Interpretation Credits: 3
- PETE4340 - Petroleum Economics Credits: 3
- PETE4736 - Petroleum Engineering Design Credits: 4 *
- PETE Technical Electives Credits: 15

Technical Electives Policy

The technical electives in the PETE curriculum can be used to complete a curriculum emphasis option or a minor. The number of credits of upper division courses must be satisfied, therefore, 13 elective credits must be 3000-level courses or higher.

Notes: Technical Electives must be selected with your advisor's documented approval.

Minimum Grade Requirements

A grade of C or better is required for the following courses:

- USP designated courses: FYS, COM1, COM2, COM3
- All Engineering Science (ES) courses
- MATH courses that are prerequisites to ES & PETE courses
- PETE1060 - Introduction to Petroleum Engineering Problem Solving Credits: 1
- PETE2050 - Fundamentals of Petroleum Engineering Credits: 3
- PETE4736 - Petroleum Engineering Design Credits: 4

Total Upper Division Credits Required

48

Total Hours Required for B.S. Degree

129

Petroleum Engineering Program Educational Objectives

Three to six years after graduation, graduates who choose to practice in Petroleum engineering should:

- (PETE-OB1) Successfully practice the profession/field of petroleum engineering or related discipline.
- (PETE-OB2) Demonstrate successful career accomplishment and civic engagement.

Petroleum Engineering Program Outcomes

During the course of study in Petroleum Engineering, the student should develop:

- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgements, which must consider the impact of engineering solutions in global, economic, environmental and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgement to draw conclusions.
- An ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Statistics, B.A.

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question.

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

30 hours of Statistics - Required Courses:

- STAT2050 - Fundamentals of Statistics Credits: 4
- STAT4015 - Regression Analysis Credits: 3
- STAT4025 - Design and Analysis of Experiments I Credits: 3
- STAT4255 - Mathematical Theory of Probability Credits: 3
- STAT4265 - Introduction to the Theory of Statistics Credits: 3
- STAT4870 - Senior Thesis Credits: 3

Optional from (12 Hours)

- STAT4045 - Categorical Data Analysis Credits: 3
- STAT4070 - Causal Models Credits: 3
- STAT4115 - Time Series Analysis and Forecasting Credits: 3
- STAT4155 - Fundamentals of Sampling Credits: 3
- STAT4300 - Applied Multivariate Analysis Credits: 3
- STAT4350 - Survey Construction and Analysis Credits: 3
- STAT4360 - Spatial Statistics Credits: 3
- STAT4370 - Survival Analysis Credits: 3
- STAT4460 - Statistical Software Credits: 1
- STAT4880 - Problems in Statistics Credits: 1-4

Mathematics (15 Hours)

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2250 - Elementary Linear Algebra Credits: 3

Computer Science (6 Hours)

- COSC1010 - Introduction to Computer Science I Credits: 3
- COSC1030 - Computer Science I Credits: 4

Electives

Chosen so that at least 42 hours are at the 3000/4000/5000 level

Total Hours: at Least 120

Only grades of C or better will be accepted for the major.

Statistics, B.S.

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory.

University Studies Program

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2250 - Elementary Linear Algebra Credits: 3

Computer Science (6 Hours)

- COSC1010 - Introduction to Computer Science I Credits: 3
- COSC1030 - Computer Science I Credits: 4

Electives

- Chosen so that at least 42 hours are at the 3000/4000/5000 level

Total Hours: at Least 120

Only grades of C or better will be accepted for the major.

Minor

Biomedical Engineering Minor

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imaging, bioinformatics, and rehabilitation.

Learning Outcomes:

A student who has completed the Biomedical Engineering Minor will have:

- Experience and proficiency in applying principles of engineering, biology, human physiology, chemistry, calculus-based physics, differential equations, and statistics;
- Experience and proficiency in solving biomedical engineering problems, including those associated with the interaction between living and nonliving systems;
- Experience and proficiency in analyzing, modeling, designing, and realizing medical (biomedical engineering) devices, systems, components, or processes;
- Experience and proficiency in making measurements on and interpreting data from living systems;
- An ability to identify, formulate, and solve complex engineering problems by applying principles of engineering, science, and mathematics.
- An ability to apply engineering design to produce solutions that meet specified needs with consideration of public health, safety, and welfare, as well as global, cultural, social, environmental, and economic factors.
- An ability to communicate effectively with a range of audiences.
- An ability to recognize ethical and professional responsibilities in engineering situations and make informed judgments, which must consider the impact of engineering solutions in global, economic, environmental, and societal contexts.
- An ability to function effectively on a team whose members together provide leadership, create a collaborative and inclusive environment, establish goals, plan tasks, and meet objectives.
- An ability to develop and conduct appropriate experimentation, analyze and interpret data, and use engineering judgment to draw conclusions.
- an ability to acquire and apply new knowledge as needed, using appropriate learning strategies.

Biomedical Engineering is an interdisciplinary field that combines principles of biology and medicine with engineering design to produce healthcare innovations. Biomedical engineers contribute to medical technologies in a variety of areas including diagnostics, therapeutics, imagins, bioinformatics, and rehabilitation. Accordingly, biomedical engineers typically possess a broad biology background and strong engineering design and problem-solving principles. The purpose of this minor in Biomedical Engineering is to prepare students studying engineering or the life sciences for careers in industries that develop technologies to advance medicine.

The following curriculum is accessible to students from any major degree program in the College of Engineering and Applied Science (CEAS). Major-specific tracks anticipating the most appropriate groupings of electives are provided to the CEAS

advising center. Specialized, more comprehensive programs of study are proposed for students with a particular interest in medical school preparation.

Coursework:

The minimum required coursework consists of 18 credits of electives. The course of study can be self-direct or tailored to a student's major degree program. Example coursework tracks are provided below for students pursuing specific engineering majors.

Chemical Engineering

Chemical Engineering draws upon the fundamentals of chemistry, physics, and biology to analyze and design processes. Chemical Engineers work in a variety of biomedical disciplines including pharmaceutical production, biomedical devices, tissue engineering, and medical sensing. The following coursework covers biological fundamentals and materials with a focus on process and device design.

- CHE3100 - Fundamentals of Bioengineering Credits: 3
 - CHE4100 - Biochemical Engineering Credits: 3
 - CHE4160 - Biomedical Engineering-Transport Processes Credits: 3
 - CHE4165 - Biomaterials Credits: 3
- + 6 Credits fo approved coursework

Electrical Engineering

- BE4810 - Bioinstrumentation Credits: 3
- BE4820 - Biomedical Signal Processing Credits: 3
- EE5410 - Neural and Fuzzy Systems Credits: 3
- CHE3100 - Fundamentals of Bioengineering Credits: 3
- CHE4165 - Biomaterials Credits: 3
- KIN2040 - Human Anatomy Credits: 3
- KIN3042 - Biomechanics of Human Movement Credits: 3

Mechanical Engineering

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.

- CHE3100 - Fundamentals of Bioengineering Credits: 3
- CHE4100 - Biochemical Engineering Credits: 3
- CHE4160 - Biomedical Engineering-Transport Processes Credits: 3
- CHE4165 - Biomaterials Credits: 3
- KIN2040 - Human Anatomy Credits: 3
- KIN3042 - Biomechanics of Human Movement Credits: 3

Medical School Preparation

With a focus upon biomaterials and biomechanics, this minor combines biology and physiology with mechanical engineering. This coursework helps students apply mechanical engineering principles to biological challenges including prosthetics, robotic surgery instruments, and medical device design.

- MOLB2240 - Medical Microbiology Credits: 4
- MOLB3610 - Principles of Biochemistry Credits: 4
- CHE4160 - Biomedical Engineering-Transport Processes Credits: 3
- CHE4165 - Biomaterials Credits: 3
- PHCY3450 - Foundational Pathophysiology Credits: 4 *

Plus the following suggested coursework:

- ZOO3115 - Human Systems Physiology Credits: 4
- ZOO4125 - Integrative Physiology Credits: 5
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- PSYC1000 - General Psychology Credits: 3
- SOC1000 - Sociological Principles Credits: 3

or

- PHCY6120 - Advanced Pathophysiology Credits: 3

Additional Approved Courses:

In addition to the suggested tracks above, individual programs may be customized or augmented by selecting from any of the following approved credits, which may be counted in fulfillment of technical elective requirements within the major degree program.

Select 18 credit hours from the following:

- CHE3100 - Fundamentals of Bioengineering Credits: 3
- CHE4100 - Biochemical Engineering Credits: 3
- CHE4160 - Biomedical Engineering-Transport Processes Credits: 3
- CHE4165 - Biomaterials Credits: 3
- CHE3900 - Undergraduate Research Credits: 1-6 (in an appropriate laboratory)
- CHE4220 - Metabolic and Protein Engineering Credits: 3
- BE4810 - Bioinstrumentation Credits: 3
- BE4820 - Biomedical Signal Processing Credits: 3
- EE4800 - Problems in _____ Credits: 1-6 Problems in Bioengineering
- EE5410 - Neural and Fuzzy Systems Credits: 3
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- KIN3042 - Biomechanics of Human Movement Credits: 3
- LIFE3050 - Genetics Credits: 4
- LIFE3600 - Cell Biology Credits: 4
- MOLB2240 - Medical Microbiology Credits: 4
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- MOLB4100 - Clinical Biochemistry Credits: 4
- MOLB4260 - Quantitative Microscopy Credits: 1
- MOLB4400 - Immunology Credits: 4
- MOLB4600 - Advanced Biochemistry Credits: 3
- MOLB4610 - Biochemistry 2: Molecular Mechanisms Credits: 3
- PHCY3450 - Foundational Pathophysiology Credits: 4
- PHCY6120 - Advanced Pathophysiology Credits: 3
- ZOO3115 - Human Systems Physiology Credits: 4

- ZOO4125 - Integrative Physiology Credits: 5

NOTE

CHE 3100 fulfills the LIFE 2021 & 3050 pre-requisite requirements for CHE 4100, 4160, and 4165. Alternatively, students may take the following in lieu of CHE 3100: MICR 2021 Microbiology (4) or MOLB 3610 Principles of Biochemistry (4)

Computer Engineering Minor

Minor Requirements:

You must have a minimum of 12 credits of courses that are not counted toward your major.

- COSC2150 - Computer Organization Credits: 3
- EE4490 - Hardware Descriptive Language (HDL) Digital Design Credits: 3
- 17 credits of electrical engineering (EE) or CPEN Elective courses.

COSC Courses

The following COSC courses can also be used:

- COSC1010 - Introduction to Computer Science I Credits: 3
- OR
- COSC1015 - Introduction to Programming for Data Science Credits: 3
- COSC1030 - Computer Science I Credits: 4
- COSC2030 - Computer Science II Credits: 4
- COSC4760 - Computer Networks Credits: 3

Computer Science Graduate Minor

A graduate minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to extend the state of the art in your major discipline.

Requirements:

12 credits are required, and must be completed with a grade of B or better.

- COSC5110 - Analysis Of Algorithms Credits: 3
- 9 additional credits of 5000-level computer science courses

Computer Science Minor

A minor in Computer Science gives you the skills and knowledge to understand how software-intensive systems are designed and implemented. With these skills, you can use computers to tackle problems specific to your major field.

Requirements

18 credits of Computer Science courses are required and must be completed with a grade of C or better.

COSC 1101 and COSC 1200 cannot be used for the Computer Science Minor.

Construction Management Minor

For UW undergraduate students in other majors, a Minor in Construction Management may be earned by:

Completing any 15 credits with a CM prefix, with the exceptions listed below.

Architectural Engineering majors will not be permitted to use the following courses to satisfy the Minor requirement (or as ARE Major Electives), because they duplicate content in required courses in their major:

CM 2120: Construction Materials and Methods

CM 2200: Structures

CM 2400: MEP Systems

CM 2600: Construction Documents

CM 3220: Soils and Concrete

CM 4600: Building Info. Modeling

Civil Engineering majors will not be permitted to use the following courses to satisfy the Minor requirements (or as CE MSTP Electives), because they duplicate content in required courses in their major:

CM 2200: Structures

CM 3220: Soils and Concrete

Minors in Construction Management are not accredited

Electrical Engineering Minor

Electrical Engineering Minor Requirements:

You must have a minimum of 12 credits of EE/BE courses that are not counted toward your major.

- ES2210 - Electric Circuit Analysis Credits: 3
- plus a total of 20 credits of electrical engineering (EE) or bioengineering (BE) courses

Interdisciplinary Computational Science Graduate Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Graduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

Requirements

- The student must earn 15 credit hours in specified courses.
- Within the 15 credits, the student must earn at least 12 credits in graduate level classes (5000).
- Within the 15 credits, the student must earn 6 credits outside of her/his department.
- Only grades of B or better will be accepted for a course counting towards the minor.

- For all students, the 15 hours of coursework will be divided into 9 credit hours of core courses and 6 credit hours of electives.

Core Courses

- MATH5310 - Computational Methods in Applied Sciences I Credits: 3
OR
- COSC5310 - Computational Methods in Applied Sciences I Credits: 3
- COSC5010 - Graduate Topics in Computer Science Credits: 1-6
- MATH5340 - Computational Methods II Credits: 3
OR
- COSC 5340 - Computational Methods II Credits: 3
- BOT4550 - Computational Biology Credits: 4
OR
- BOT5550 - Computational Biology Credits: 4
- GEOL4030 - Groundwater Flow and Solute Transport Modeling Credits: 3
OR
- GEOL5030 - Groundwater Flow and Solute Transport Modeling Credits: 3
- ME5461 - Computational Fluid Dynamics I Credits: 3
- ME5462 - Computational Fluid Dynamics II Credits: 3
- STAT5660 - Computationally Intensive Methods in Statistics Credits: 3

Electives

- COSC5110 - Analysis Of Algorithms Credits: 3
- STAT5680 - Advanced Bayesian Statistics Credits: 3
- STAT5380 - Bayesian Data Analysis Credits: 3
- High-Performance Computing in Geosciences, 2 hrs
- MATH 5320 - Mathematics Modeling of Processes Credits: 3
- CHEM4560 - Molecular Modeling Credits: 3
OR
- CHEM5560 - Molecular Modeling Credits: 3
- PHYS4840 - Mathematical and Computational Physics II Credits: 4
- MATH4300 - Introduction to Mathematical Modeling Credits: 3

Interdisciplinary Computational Science Minor

In recognition of the importance of modeling and simulation in an increasing number of applications, the Undergraduate Interdisciplinary Computational Science Minor is intended to help prepare science, math, and engineering students for leading roles in their professions.

The Undergraduate Minor in Computational Science is based on the following requirements:

- The student must earn 15 credit hours in specified courses.
- Within the 15 credits, the student must earn 9 credits at the upper-division level (3000 or above).
- Within the 15 credits, the student must earn 6 credits outside of her/his major.
- Within the 15 credits, the student must earn at least 6 credits in core courses.
- Only grades of C or better will be accepted for the minor.

The 15 hours of coursework are divided between core and elective courses as listed below.

Core Courses

- MATH4340 - Numerical Methods for Ordinary and Partial Differential Equations Credits: 3
OR
- COSC4340 - Numerical Methods for Ordinary and Partial Differential Equations Credits: 3
- High-Performance Computing (Offered as a topics course).
- MATH3340 - Introduction to Scientific Computing Credits: 3
OR
- COSC3340 - Introduction to Scientific Computing Credits: 3

- STAT4460 - Statistical Software Credits: 1

Elective Courses

- BOT4550 - Computational Biology Credits: 4
OR
- BOT5550 - Computational Biology Credits: 4
- COSC3020 - Algorithms and Data Structures Credits: 4
- PHYS4840 - Mathematical and Computational Physics II Credits: 4
- CHEM4560 - Molecular Modeling Credits: 3
OR
- CHEM5560 - Molecular Modeling Credits: 3
- ES 3070 - C with Numerical Methods for Engineers
- MATH4300 - Introduction to Mathematical Modeling Credits: 3
- ME4040 - Introduction to Finite Elements Credits: 3
- COSC4820 - Database Systems Credits: 3

International Engineering Minor

The International Engineering minor is an 18 credit hour program open to all engineering students. Cornerstones are a study abroad experience and coursework to help students gain understanding of perspectives and viewpoints from around the world.

Study Abroad Requirement

All students earning the International Engineering Minor must complete an educational experience outside of the United States. Examples are:

- Semester or year abroad at a college or university
- UW faculty-led study abroad program
- International service-learning experience (such as Engineers Without Borders, or Alternative Spring Break)
- Internship with a company outside the United States
- Research experience outside the United States

Coursework

The coursework is 18 total credits - these credits may also count toward major degree program. The coursework is intended to help students gain understanding of perspectives and viewpoints from around the world.

Lower Division Coursework

Select 9 credits from the following courses:

- Foreign language courses (except American Sign Language)
- 1000 or 2000 level Engineering courses completed during a Study Abroad program
- 1000 or 2000 level courses in International Studies (INST)
- Any of the courses listed below
- ANTH2200 - World Culture Credits: 3
- ANTH1200 - Introduction to Cultural Anthropology Credits: 3
- ECON1000 - Global Economic Issues Credits: 3
- ERS1300 - Oil: Business, Culture, and Power Credits: 3
- GEOG1000 - World Regional Geography Credits: 3
- RELI1000 - Introduction to Religion Credits: 3
- RELI2315 - History of Non-Western Religions Credits: 3
- INBU1040 - Introduction to International Business Credits: 3

Upper Division Coursework

Select 9 credits from the following courses:

- 3000 or 4000 level Engineering courses completed during a Study Abroad program
- 3000 or 4000 level courses in International Studies (INST)
- Engineering design courses with an International focus
- Internship credits earned from an International internship
(Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or internship plan with detailed International content.)
- Undergraduate Research (for-credit) experience with an International focus
(Must be approved by International Engineering Minor Coordinator, in advance, with course syllabus or internship plan with detailed International content.)
- Any of the courses listed below
- ARE3030 - History of Architecture Credits: 3
- ART3030 - History of Architecture Credits: 3
- CHE4000 - Environment, Technology and Society Credits: 3
- PETE4000 - Environment, Technology and Society Credits: 3

Land Surveying Minor

A minor in Land Surveying requires 31 hours of specific course work. This minor includes the Wyoming Board of Professional Engineers and Professional Land Surveyor's education requirements for a Land Surveyor in Training license. The Land Surveying minor may be paired with any major. All Land Surveying classes are offered as distance learning through Distance Education Programs.

Curriculum Requirements:

- LS2010 - Engineering Surveying Lecture Credits: 2

- LS2015 - Engineering Surveying Laboratory Credits: 1
- LS2020 - GPS for Land Surveyors Credits: 4
- LS2100 - Records Research for Surveyors Credits: 3
- LS2110 - Real Property Law Credits: 3
- LS2400 - Basic Geodesy for Today's Land Surveyor Credits: 2
- LS3100 - Real Property Descriptions Credits: 2
- LS3110 - Boundary Evidence Credits: 2
- LS3120 - Boundary Principles Credits: 2
- LS3130 - Public Land Surveys Credits: 3
- LS3200 - Route Surveying Credits: 3
- LS3210 - Advanced Surveying Credits: 4

Total Credits: 31 Hours

¹ Computer Aided Drafting 1 offered through Sheridan College Outreach Programs.

The intent of this application based minor is to prepare the student for the pursuit of Professional Licensure. Those only seeking the remote learning Land Surveying courses should see the Cadastral Land Surveying Certificate found at <http://www.uwyo.edu/civil/landsurvey/>.

Mathematics Minor

The minor in mathematics focuses on fundamental aspects of mathematics that are essential for further study in mathematics and a variety of other disciplines. Students may customize the minor by choosing the appropriate transition course and upper-division electives.

Lower Division Core Courses

- MATH2200 - Calculus I Credits: 4
- MATH2205 - Calculus II Credits: 4
- MATH2210 - Calculus III Credits: 4
- MATH2310 - Applied Differential Equations I Credits: 3
- MATH2250 - Elementary Linear Algebra Credits: 3 **AND**
- MATH2800 - Mathematics Major Seminar Credits: 2

Upper Division

Two of the math electives may be chosen from a list of approved courses that have significant math content, upon approval by the student's advisor. More details about such courses are available on the math department's web site, www.uwyo.edu/mathstats/.

Only grades of C or better will be accepted for the minor.

At the upper division, all mathematics minors must take ONE of

- MATH3205 - Analysis I: Elementary Real Analysis Credits: 3
- OR**
- MATH3500 - Algebra I: Introduction to Rings and Proofs Credits: 3
- OR**

- MATH3340 - Introduction to Scientific Computing Credits: 3
- as well as 3 additional credits of upper division math courses (3000 and above)

Process Control Minor

Process control engineers optimize processes and implement quality control systems in the manufacturing industry. They design, test, and oversee the implementation of new processes. Process control engineers are often employed at manufacturing plants that process chemicals, metals, and other materials.

Required Courses

- CHE2005 - Chemical Process Analysis Credits: 3
- CHE2090 - Practical Fundamentals of Process Control Credits: 2
- CHE3090 - Applying Simulation to Dynamic Processes Credits: 1
- CHE4092 - Controlling Process Systems Credits: 3
- CHE4090 - Process Dynamics and Control Credits: 3
- or
- EE4620 - Automatic Control Systems Credits: 3
- or
- EE4621 - Honors Automatic Control Systems Credits: 3

Approved Elective Courses

At least 6 hours of approved elective courses are required for this minor.

- ES2210 - Electric Circuit Analysis Credits: 3
- EE2220 - Circuits and Signals Credits: 4
- EE3220 - Signals And Systems Credits: 3
- ME4020 - Design of Mechanical/Electronic Systems Credits: 3
- COSC4450 - Computer Graphics Credits: 3
- COSC4765 - Computer Security Credits: 3
- CHE4972 - Internship in Process Control Engineering Credits: 1-6

Learning Outcomes

An engineer who has completed the Process Control and Instrumentation Minor will be able to examine an engineering process that requires automated control and provide a practical control design by:

- Identifying key performance and technical features of the process
- Specifying process variables to control to achieve desired process outcomes
- Identifying the appropriate manipulated variables to achieve control
- Selecting appropriate measurement instrumentation for process variables
- Specifying needed final control elements to effect change of manipulated variables
- Selecting an appropriate controller and control algorithm that achieves stable control
- Testing and tuning the control design in simulation
- Evaluating the control design against performance and economic objectives
- Understand key nomenclature and terms in process control
- Understand the difference between analog and digital components

Statistics Minor

Statisticians (data scientists) provide analytic solutions to scientific problems. Statistics is the process of using data to answer a research question. The B.S. in Statistics is applied with some theory. The minor of Statistics is all application.

Requirements

The following courses are required for a statistics minor:

- MATH1400 - College Algebra Credits: 3
- STAT2050 - Fundamentals of Statistics Credits: 4

12 Additional Hours from the Following:

- STAT4015 - Regression Analysis Credits: 3
- STAT4025 - Design and Analysis of Experiments I Credits: 3
- STAT4045 - Categorical Data Analysis Credits: 3
- STAT4070 - Causal Models Credits: 3
- STAT4115 - Time Series Analysis and Forecasting Credits: 3
- STAT4155 - Fundamentals of Sampling Credits: 3
- STAT4255 - Mathematical Theory of Probability Credits: 3
- STAT4265 - Introduction to the Theory of Statistics Credits: 3
- STAT4350 - Survey Construction and Analysis Credits: 3
- STAT4360 - Spatial Statistics Credits: 3
- STAT4370 - Survival Analysis Credits: 3
- STAT4300 - Applied Multivariate Analysis Credits: 3

- STAT4270 - Applied Bayesian Statistics Credits: 3

Total: 18-19 Hours

Only grades of C or better will be accepted for the minor.

Graduate

Architectural Engineering, M.S.

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering. These students must apply for admission to the Quick Start (Plan A) program no later than the second semester of their junior year. Areas of study in the master of science program include: building mechanical systems, building energy modeling, structural engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

Plan A (Thesis)

The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (AREGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

Plan B (Non-thesis)

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the AREGS and the department head.

Atmospheric Science, M.S.

The Master of Science degree in Atmospheric Science prepares the recipient to work in fields related to meteorology, weather and forecasting, air quality, climate change and environmental regulation.

Program Specific Degree Requirements

Approval of research plan by the graduate committee

Colloquium and oral defense of M.S. thesis

Approval of M.S. thesis by the graduate committee

A minimum of 30 hours of acceptable graduate credit hours that includes at least:

- 26 hours of acceptable graduate coursework and
 - 4 hours of thesis research
- 21 graduate credits must be earned in the Department of Atmospheric Science

Required Courses

These courses are required for the master's program.

- ATSC5010 - Physical Meteorology I Credits: 4
- ATSC5011 - Physical Meteorology II Credits: 4
- ATSC5014 - Dynamic Meteorology Credits: 4
- ATSC5016 - Synoptic Meteorology Credits: 4
- ATSC5018 - Ethics and Research Methods Credits: 1

Atmospheric Science, Ph.D.

The Doctorate of Philosophy degree in Atmospheric Science prepares the recipient for a career in research studying the atmosphere. Graduates may work in academia, governmental laboratories and agencies, and private industry.

Program Specific Degree Requirements

Approval of research plan by the graduate committee

Successful completion of the Preliminary Examination

Approval of Ph.D. dissertation by the graduate committee

A minimum of 72 hours of acceptable graduate credit hours that includes at least:

- 42 hours of acceptable graduate coursework, and
- 10 hours of thesis or dissertation research

24 graduate coursework hours must be earned in the Department of Atmospheric Science

Chemical Engineering, M.S.

Graduate Study Guidelines

All incoming M.S. Plan A and M.S. Plan B students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

- CHE5020 - Thermodynamics Credits: 3
- CHE5010 - Transport Phenomena Credits: 3
- CHE5030 - Reaction Kinetics Credits: 3
- CHE5355 - Mathematical Methods in Chemical Engineering Credits: 3

Credit Hours

- Total (from above) Credits: 12
- CHE 5960 - Thesis Research Credits: 4
- Electives Credits: 14
- Total Credits: 30

Plan B (Non-Thesis)

The coursework requirements are the same as the M.S. Plan A requirements except that Thesis Research (CHE 5960) is not required. Plan B students take an additional 4 hours of elective course credits (a total of 30 hours required).

M.S. Plan B students must write a paper on a topic assigned by the adviser and present their work to their graduate committee. This paper must be submitted to the student's graduate committee for approval at least one week prior to the oral presentation.

M.S. Seminar Requirements

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

M.S. Thesis

All M.S. Plan A students must orally defend their thesis at a public final examination. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written M.S. thesis and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis, and they may postpone signing the form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

Chemical Engineering, Ph.D.

The Department of Chemical Engineering offers graduate programs leading to the M.S. and Ph.D. degrees in chemical engineering. The M.S. degree is offered under Plan A and Plan B. In addition, an environmental engineering program, run jointly by the Department of Chemical Engineering and the Department of Civil and Architectural Engineering, offers graduate programs leading to an M.S. in environmental engineering under either Plan A or Plan B.

The mission of the graduate program in Chemical Engineering is to prepare students to be leaders in industry, government, or academia.

A master's degree is not required to enter a Ph.D. program.

Graduate Core Classes

All incoming Ph.D students must have an adviser. The student is responsible for contacting faculty members in order to find an adviser.

All Chemical Engineering graduate students must take the following Chemical Engineering Core courses:

- CHE5020 - Thermodynamics Credits: 3
- CHE5010 - Transport Phenomena Credits: 3
- CHE5030 - Reaction Kinetics Credits: 3
- CHE 5355 - Mathematical Methods in Chemical Engineering Credits: 3

Doctoral Program

Credit Hours

- CHE 5980 - Dissertation Research Credits: 30
- Electives - Credits: 30 (CHE 5980 will count toward your electives)
- Total Credits: 72

Ph.D. Seminar Requirements

All chemical engineering graduate students must enroll in CHE 5890, Chemical Engineering Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Registered off-campus graduate students can be exempt from having to enroll in CHE 5890.

Ph.D. Preliminary Examination

All Ph.D. students must pass a preliminary examination no later than the end of the student's fifth full semester in the graduate program and a least 15 weeks prior to the dissertation defense. Prior to attempting the Ph.D. preliminary examination, students must have completed all required core classes no later than the end of their fourth semester in the graduate program. Students must file a program of study prior to attempting the preliminary examination.

The goal of the preliminary exam is for the student to demonstrate his or her research progress to-date and present the research proposition that will be investigated and lead to his or her final dissertation. The preliminary exam consists of three components: a written document provided to each member of the student's graduate committee at least one week prior to the oral presentation; a public oral presentation; and a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. A form sent by the student's adviser to the Office of the Registrar reports the results of the examination.

Ph.D. Final Examination (Dissertation Defense)

All Ph.D. students must orally defend their thesis or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public thesis defense in oral presentation format. At least two weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis of Ph.D. dissertation and provide the department an announcement of their defense for advertisement by bulletin board, e-mail, or other means. The results of the examination are reported on the Report of Final Examination form. Graduate committee members may request changes in the thesis or dissertation, and they may postpone signing the form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Graduate Student Resources web site. This copy will be rejected if the format standards specified by the Thesis and Dissertation Format Guide are not met. This guide allows for a publication-ready format. If required by the department and/or committee, additional printed copies should be delivered to the University Store for binding. Students should consult with the adviser to determine if the adviser wants a copy of the thesis, dissertation, or other research documentation.

Civil Engineering, M.S.

Program Specific Degree Requirements

Master's Program

Areas of study in the master of science program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering. The master of science degree in each of these areas requires completion of 12 to 18 hours of engineering courses related to the particular program area.

Plan A (Thesis)

The degree of master of science, Plan A, requires a minimum of 26 hours of coursework and a minimum of 4 hours thesis research in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework for approval by the departmental graduate studies committee (CEGS), and the department head.

Plan A is required of all state or contract supported graduate assistants.

Plan B (Non-Thesis)

Requires a minimum of 30 hours of coursework and a Plan B paper, in addition to the minimum requirements set forth in this bulletin.

Early in the program, the student must submit a program of study listing coursework and the course number that the Plan B paper covers for approval by the CEGS and the department head.

Civil Engineering, Ph.D.

Areas of study in the doctor of philosophy program include: building mechanical systems engineering, environmental engineering, geotechnical engineering, structural engineering, transportation engineering, and water resources engineering.

Minimum of 42 hours of coursework beyond the baccalaureate, 36 hours of which must be 5000-level (graduate-level) courses or the equivalent, and concentrated independent research leading to an acceptable dissertation.

In addition to expertise in the specific dissertation topic, the candidate must demonstrate competence in two or more research areas that will help to insure a high-quality dissertation acceptable to the student's graduate committee.

Subject to department and university requirements, the student's coursework is arranged by consultation between the student, his or her adviser, and his or her committee, and must also be approved by the CEGS and by the department head.

Coursework is defined in a program of study that should be filed by the end of the second semester of the Ph.D. program.

At a time near the completion of formal coursework, the student is required to take and pass a preliminary examination on the Ph.D. coursework and, as a part of the examination, is required to present a written and oral dissertation proposal to his or her committee for approval.

Finally, the student must demonstrate research competence in an oral defense of the dissertation and must submit an acceptable written version of the dissertation to his or her graduate committee in a timely manner to meet deadlines. In addition, the student is to meet the minimum requirements set forth in this bulletin.

Computer Science, M.S.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. An M.S. in Computer Science extends your technical expertise in computer science to design, implement, and secure software-intensive systems.

Program Specific Degree Requirements

Plan A (Thesis)

A total of at least 31 credit hours must be completed. The student must complete a minimum of 27 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 19 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

Plan A students are required to formally defend their theses before their supervising committees. All defenses must be open and announced at least two weeks in advance. The thesis must be distributed to the committee at least two weeks in advance of the defense. If the student does not pass the defense, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Plan B (Non-Thesis)

The student must complete a minimum of 33 hours of courses, including the CORE and BREADTH REQUIREMENTS. At least 22 credit hours must be COSC courses. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 6 hours of 4000-level courses, may be included with the approval of the supervising M.S. committee.

UW Coursework Requirements for M.S. Transfer Students:

M.S. transfer students must complete at least 21 credit hours at the University of Wyoming. At least 12 credits of the CORE & BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

Summary of Credit Requirements

Plan A

- COSC5110 - Analysis Of Algorithms Credits: 3
- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 12

- COSC5960 - Thesis Research Credits: 1-12
- **OR**
- COSC5980 - Dissertation Research Credits: 1-12

Total Credits: 31 Hours

Plan B

- COSC5110 - Analysis Of Algorithms Credits: 3
- Breadth: theory course, AI course, two systems courses Credits: 12
- Additional courses Credits: 18

Total Credits: 33 Hours

Computer Science, Ph.D.

Computer scientists learn the theory and practice of computing, which is essential in the modern world. A Ph.D. in Computer Science prepares you to advance the state of the art in computing principles and practice.

Program Information

Each doctoral student will have a supervising committee of at least five members appointed. The primary functions of this committee are to suggest coursework, to administer the qualifying, preliminary, and final examinations, and to oversee and evaluate the research of the candidate. The committee will consist of at least three members of the computer science department faculty and at least one non-COSC faculty member. The standards that this committee should consider when recommending programs of study are outlined in the following sections.

Coursework Requirements:

A total of at least 72 credit hours must be completed. A minimum of 42 of these credit hours must be taken as coursework, including the CORE and BREADTH REQUIREMENTS. A minimum of 12 hours of COSC5980 - Dissertation Research must be taken. All COSC courses must be at the 5000 level. Courses from other departments, including no more than 12 hours of 4000-level courses, may be included with the approval of the supervising Ph.D. committee. All course requirements MUST be completed or enrolled with satisfactory midterm progress prior to scheduling the Ph.D. Final Examination.

UW Coursework Requirements for Ph.D. Transfer Students:

Ph.D. transfer students must complete at least 24 credit hours at the University of Wyoming. At least 12 credits of the CORE and BREADTH REQUIREMENTS must be taken at the University of Wyoming. No more than one class per category of breadth may be counted towards this 12-credit total. The algorithms course credits may be counted toward this 12-credit total.

Program:

A program of original and innovative research will be undertaken by the candidate. At the end of this program, the candidate will document this research in a dissertation. The dissertation will present the details and results of the candidate's research in addition to providing a critical comparison with relevant previously-published works.

Each successful doctoral student must pass three examinations. These include a qualifying examination, a preliminary examination, and a final (dissertation) defense.

Qualifying Exam Criteria:

The student must complete the CORE REQUIREMENT and pass a closed oral examination on a research area administered by the supervising committee. Although closed to the public, faculty members of the Department of Computer Science are welcome to attend. The exam must be announced to the faculty at least two weeks in advance. The research area will be chosen in consultation with the committee. The student must demonstrate background knowledge of the state of the art in the area and preliminary work. This will involve, but is not limited to, presenting material and answering questions covering the relevant area knowledge. The format of the exam will be defined by the committee prior to the exam to allow for sufficient preparation. This examination is intended to motivate the candidate to review relevant literature extensively prior to pursuing the original and innovative portions of the research. Qualifying exam criteria must be completed within the first two years of enrollment in the Ph.D program. If the student does not pass the qualifying exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass. The closed oral examination requirement may be waived for a student who has completed an M.S. degree in COSC at UW if their M.S. presentation was at a research level that demonstrated background knowledge of the state of the art in the area, at the discretion of the supervising Ph.D. committee.

Preliminary Exam Criteria:

Prior to scheduling the Preliminary Examination, the student must be making satisfactory progress towards completion of their course requirements, including the BREADTH REQUIREMENTS. A Preliminary Examination will consist of a presentation and defense of the already completed portion of the dissertation research and the research that is proposed to complete the dissertation. The Preliminary Examination must be open and announced at least two weeks in advance. The preliminary examination must be completed within two years of enrollment in the Ph.D program (within three years of enrollment for students who do not have an M.S. degree). This examination is intended to motivate the candidate to make significant progress on work towards their Ph.D. dissertation and propose milestones for completion. If the nature of the proposed continued research and methodology is deemed to be sufficiently original and innovative by the supervising committee, then the committee will approve the research direction after having administered this examination. If the student does not pass the preliminary exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Option for M.S. degree en route to Ph.D.:

After completing the Qualifying Exam and Preliminary Exam, a Ph.D. student may additionally earn an M.S. degree after completing the remaining M.S. course requirements, including the BREADTH REQUIREMENTS. COSC 5980 may be substituted for COSC 5960 in the M.S. requirements at the discretion of the supervising committee. The M.S. degree will be granted only after completion of the preliminary exam. For an M.S. degree to be granted prior to completion of the preliminary exam, the student should enroll in the M.S. degree program and complete the remaining M.S. requirements.

Final Exam Criteria:

Prior to scheduling the Ph.D. Final Examination (often referred to as a "defense"), all course requirements, including the BREADTH REQUIREMENTS, MUST be completed or enrolled with satisfactory midterm progress. The Final Examination (dissertation defense) will consist of an oral presentation by the candidate of his/her research and the results that were derived. At this examination, the candidate is expected to defend the research as being original and contributory to the discipline of computer science. The Final Examination must be open and announced at least two weeks in advance. The dissertation must be distributed to the supervising committee at least two weeks in advance of the Final Examination. If the student does not pass the final exam, the committee will instruct the student as to what needs to be accomplished (and by when) to pass.

Time to degree for part-time students:

Exceptions to the completion deadlines for the Qualifying Exam and Preliminary Exam may be made for part-time students at the discretion of the supervising committee.

Computer Science Core Requirements

COSC5110 - Analysis Of Algorithms must be completed with a grade of B or better. A grade of B- is not sufficient. Students are strongly encouraged to take COSC 5110 the first time it is offered after enrollment.

Computer Science Breadth Requirements

Students must earn a grade of B or better in one class from the Theory category, one class from the Artificial Intelligence category, and two classes from the Systems category. A grade of B- is not sufficient. Thus there must be 12 credits taken to satisfy the breadth requirement. A list of courses in each category is available from the Department. Although some courses may be listed under multiple categories, a course may only count once towards the breadth requirement.

Program Specific Degree Requirements

Summary of Credit Requirements

- COSC5110 - Analysis Of Algorithms Credits: 3
- Breadth: theory course, AI course, two systems courses Credits:12
- Additional courses Credits: 27

- COSC5960 - Thesis Research Credits: 1-12
- **OR**
- COSC5980 - Dissertation Research Credits: 1-12

- Other credits (may include courses or COSC 5960/COSC 5980) Credits: 18

Total Credits: 72 Hours

Electrical Engineering, M.S.

Plan A (Thesis)

This is a minimum 30 credit hour program, 26 hours coursework and 4 hours of thesis

- Minimum 16 Course Hours in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hours in Formal Course Work outside the Electrical and Computer Engineering Department approved by the student's committee
- 7 Additional Formal Course Hours in or out of the Electrical and Computer Engineering Department
- 4 credits of MS thesis research
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 credit hours can be 4000 level

The candidate must meet the minimum requirements for the Master of Science degree and also complete and defend a master's thesis.

Plan B (with Paper)

This is a 30 hour program:

- Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
- 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Plan B (Coursework Only)

This is a 30 hour program:

- Minimum 18 Course Hrs in Electrical and Computer Engineering Course Work
- Minimum 3 Course Hrs in Formal Course Work outside the Electrical and Computer Engineering Department
- 9 Additional Formal Course Hrs in or out of the Electrical and Computer Engineering Department
- No more than 12 credit hours can be at the 4000 level
- No more than 3 credit hours of independent study

Of the above credit hours in formal coursework, no more than 12 can be 4000 level.

Electrical Engineering, Ph.D.

Degree Requirements

Ph.D. Degree Requirements:

Ph.D. Credit Allocation (all at 4000 level minimum)

- 72 hours (minimum) of acceptable graduate coursework
- 42 hours (minimum) from ECE and closely related formal course work (EE5980 - Dissertation Research not counting toward this minimum)

Of those 42 hours, no more than 12 hours can be at the 4000 level

Courses required by the department bachelor of science degree may not be applied for graduate credit

- 6 hours (maximum) of EE4800 - Problems in _____ can be counted for program of study credit
- 6 hours (maximum) of EE 5880 - Problems in ... can be counted for program of study credit
- 9 hours (maximum) of EE5600 - Statistical Signal Processing in: can be counted for program of study credit.

In addition to the minimum requirements of the university, doctoral students must pass a written and oral comprehensive examination, part of which is a written proposal explaining their planned dissertation research. The student after completing successfully the oral comprehensive examination and before defending the completed dissertation must present their research work at an ECE department seminar. The student must also present and defend a completed dissertation. Programs of study, including coursework and any research tools, are arranged by consultation between the students and their graduate committee.

Engineering and Applied Science, MBA/MS Dual Degree

Students who hold both an MBA and an MS in Engineering set themselves apart when entering the competitive marketplace. As leaders, not only do they speak the technical lingo, they also understand the overall strategy and operational goals.

MS/MBA Dual Degree Requirements

The MS/MBA is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from the respective EAS graduate program.

MBA Courses

All students pursuing a dual degree program with the College of Engineering and Applied Science and the College of Business must meet the admission requirements for both programs in order to be considered for the dual degree program. If admitted to both programs, students will complete the following requirements:

Any 9 credit hours of the following required MBA core courses can be counted towards the MS/MBA degree.

- MBAM5202 - Data and Decision Modeling Credits: 3
- MBAM5102 - Operations Management Credits: 3
- MBAM5104 - Organization Behavior and Human Resource Management Credits: 3
- MBAM5204 - Financial Management Credits: 3
- MBAM5207 - Marketing Management Credits: 3
- MBAM5208 - Managerial Accounting Credits: 3
- MBAM5330 - Global Business Environment Credits: 3
- MBAM5305 - Strategic Management Credits: 3

Program Specific Requirements

Please review the specific program requirements for each program within the dual degree agreement.

- Business Administration, M.B.A.
- Mechanical Engineering, M.S.
- Petroleum Engineering, M.S.

Thesis Option

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478 similar to the Plan A option.

Environmental Engineering, M.S.

A master of science in environmental engineering is available in the College of Engineering through a joint effort of the Department of Civil and Architectural Engineering and the Department of Chemical Engineering.

Core Courses (9 Hours)

All Environmental Engineering M.S. students must take the following Core courses (9 hrs):

- ENVE 5425 - Environmental Engineering Microbiology
- ENVE5430 - Environmental Engineering Chemistry Credits: 3
- CE5435 - Environmental Transport Processes Credits: 3

Recommended Courses (3 Hours)

Students should also take at least one of the following Recommended courses (3 hrs):

- ENVE5410 - Advanced Biological Wastewater Treatment Credits: 3
- ENVE5450 - Advanced Physical Chemical Treatment Credits: 3

Approved Elective Coursework

Plan A (Thesis) students complete another 14 hours of Approved Elective coursework, at least 4 hours of ENVE5960 - Thesis Research, and write and defend their thesis. Plan B (Project) students complete another 18 hours of Approved Elective coursework and write and present their project.

Total Required Credit Hours: 30 (Minimum)

Mathematics, M.A.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.
- Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

- MATH5200 - Real Variables I Credits: 3
- MATH5230 - Complex Variables I Credits: 3
- MATH5310 - Computational Methods in Applied Sciences I Credits: 3
- MATH5400 - Methods of Applied Mathematics I Credits: 3
- MATH5500 - Advanced Linear Algebra Credits: 3
- MATH5550 - Abstract Algebra I Credits: 3

Tracks:

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

Track #1: Master's Thesis (Plan A)

Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

Track #2: Master's Paper (Plan B)

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

Track #3: Coursework/Project (Plan B)

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

Track #4: Qualifying Exam (Plan B)

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

Analysis

- MATH5200 - Real Variables I Credits: 3
- MATH5230 - Complex Variables I Credits: 3

Algebra

- MATH5500 - Advanced Linear Algebra Credits: 3
- MATH5550 - Abstract Algebra I Credits: 3

Applied Mathematics

- MATH5310 - Computational Methods in Applied Sciences I Credits: 3
- MATH5400 - Methods of Applied Mathematics I Credits: 3

Mathematics, M.A.T.

Applicants are required to have:

- A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;
- courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;
- a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

Mathematics, M.S.

A comprehensive mathematics degree, with training in the fundamentals of analysis, abstract algebra, computation, and mathematical modeling. Provides a strong foundation for teaching, work in industry, and continued study in graduate-level programs.

Common Requirements

The following requirements are common to all four tracks:

- The student must maintain a 3.000 cumulative GPA.
- The student must complete 30 hours of formal mathematics coursework at the 5000 level.
- The student must pass the department's Foundation Exam. This exam covers material from advanced vector calculus and linear algebra at the upper-division undergraduate level and is offered before the beginning of each semester.
- Take one hour of the seminar MATH 4970: Professional Development in Mathematics and one hour of the seminar MATH 4970: Professional Development in Teaching.

5000-level Mathematics Courses

As part of the 30 hours of formal 5000-level mathematics courses, the student must complete the following courses with a grade of B or better:

- MATH5200 - Real Variables I Credits: 3
- MATH5230 - Complex Variables I Credits: 3

- MATH5310 - Computational Methods in Applied Sciences I Credits: 3
- MATH5400 - Methods of Applied Mathematics I Credits: 3
- MATH5500 - Advanced Linear Algebra Credits: 3
- MATH5550 - Abstract Algebra I Credits: 3

Tracks:

In addition to the common elements above, students must select and complete one of the capstone experiences described in the tracks below.

Track #1: Master's Thesis (Plan A)

Within the 30 hours of 5000-level courses, the Plan A student must complete 4 hours of MATH5960 - Thesis Research. At least 26 hours of 5000-level coursework must be mathcontent courses (not thesis research).

The student must prepare a master's thesis (Plan A) and give an oral defense of the thesis. In the mathematics program, a Plan A thesis reports on the result(s) of independent and original research completed by the student under the direction of a faculty member. The thesis should describe the research and its results and be written to the standards of the appropriate area of mathematics.

Track #2: Master's Paper (Plan B)

The student must prepare a master's paper (Plan B) and give an oral defense.

To write a Plan B paper, the student must present an expository paper on a designated mathematical subject. Students are guided by their advisor in the subject matter and in the preparation of the paper. A successful paper and defense demonstrates that the student has mastered a substantial mathematical topic that is beyond those covered in formal foundational coursework.

Track #3: Coursework/Project (Plan B)

A second M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper, the student takes a sequence of three 5000-level courses that all address a common mathematical theme. The sequence must be approved by the student's advisor and the mathematics graduate committee. Two of the courses must be mathematics-department offerings, and the third may be either a mathematics course (including reading/topics courses) or a course from another department in a related field.

- The student must complete an additional 6 hours of courses at the 5000 level. Thus, Track #3 requires the completion of 36 hours of graduate-level coursework.
- Within the 36 hours, the student must propose and complete with a grade of B or better an appropriate 3-course sequence
- The student will write a short paper illustrating how the common mathematical theme of the sequence manifests itself in the content of each course and give a presentation/defense of the paper.

In approving the student's proposal for this option, the graduate committee and the advisor will consider how the writing and independent study spirit of the Plan B option are fulfilled within the recommended plan.

Track #4: Qualifying Exam (Plan B)

A third M.A. or M.S. option exists for the Plan B student. In lieu of writing a paper or taking additional coursework, the student must take and pass the department's PhD Qualifying Examination in one of the three areas: Analysis, Algebra, or Applied Mathematics. These examinations focus on the material in the required courses.

These examinations are given twice a year at the beginning of the fall and spring semesters. This option is intended for students who will continue for a PhD at UW.

- The oral component of this Track will consist of a defense of the student's written answers to qualifying exam.
- Pass one of the department's qualifying exams in:

Analysis

- MATH5200 - Real Variables I Credits: 3
- MATH5230 - Complex Variables I Credits: 3

Algebra

- MATH5500 - Advanced Linear Algebra Credits: 3
- MATH5550 - Abstract Algebra I Credits: 3

Applied Mathematics

- MATH5310 - Computational Methods in Applied Sciences I Credits: 3
- MATH5400 - Methods of Applied Mathematics I Credits: 3

Mathematics, M.S.T.

Applicants are required to have:

- A valid teaching endorsement in any state or educational requirements satisfied for secondary teaching;
- courses equivalent to MATH 3205, MATH 3500, MATH 4000 and MATH 4600;
- a course in computer programming.

Students who enter the program with a deficiency in the courses listed in (b) must take them at UW, but these courses may not be counted toward the course requirements of the M.S.T./M.A.T. program.

Mathematics, Ph.D.

A rigorous PhD program in mathematics, culminating in an original research project. Math PhDs have excellent career prospects in a variety of settings, including academia, industry, research, engineering, economics and government.

Mathematics PhD Information

The student must maintain a 3.0 cumulative GPA.

The student must teach two semesters of college mathematics.

The student must complete a combination of 72 hours of coursework and dissertation research. Within the 72 hours, a maximum of 12 hours can be at the 4000 level, and 42 hours must be formal courses at the 5000 level. The courses must be mathematics courses or courses with significant mathematical content, as approved by the department's graduate committee.

The Student Must Complete

Within the 42 hours of 5000-level courses, the student must:

- Complete the courses distributed in three areas: algebra, analysis, and applied mathematics. The student must take at least two courses in each of two categories and at least one course from the third category. The department maintains a list of course categories.
- MATH5200 - Real Variables I Credits: 3 with a grade of B or better
- MATH5230 - Complex Variables I Credits: 3 with a grade of B or better
- MATH5310 - Computational Methods in Applied Sciences I Credits: 3 with a grade of B or better
- MATH5400 - Methods of Applied Mathematics I Credits: 3 with a grade of B or better
- MATH5500 - Advanced Linear Algebra Credits: 3 with a grade of B or better
- MATH5550 - Abstract Algebra I Credits: 3 with a grade of B or better

Take Two Hours of

- MATH5800 - Seminar in Mathematics Credits: 1-3 -02, and Colloquia

In Addition

In addition, the student must:

- Pass the foundation exam, the qualifying exam in the student's research area, and the preliminary exam.
- Write a dissertation containing the student's original mathematical results and present an oral defense of the research.
- Take one hour of the seminar 4970: Professional Development in Mathematics and one hour of the seminar MATH4970 - Professional Development in Teaching.

Mechanical Engineering, M.S.

The UW Mechanical Engineering MS program offers two options: thesis (Plan A) or non-thesis (Plan B). Both tracks offer opportunities to take graduate coursework in topics of thermal fluids, materials, experimentation, computational tools, and more.

Program Specific Degree Requirements

Plan A (Thesis)

A thesis project is chosen in consultation with an ME faculty member, and constitutes 4 credit hours of ME 5960 in the 30-hour Plan A program. ME 5478 (Seminar) is to be taken during the final semester when the thesis is presented and defended, and constitutes 2 credit hours of the 30-hour Plan A program. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Thesis research (ME 5960): 4 credit hours
- Seminar (ME 5478): 2 credit hours
- Total: Minimum of 30 CH.

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Up to two courses may be from the fields of business, ENR, or public policy. Special topic credits may be earned using ME 5475 (maximum of 6 credits).

Plan B (Non-Thesis)

The Plan B M.S. degree can be completed by earning a minimum of 31 credits beyond the baccalaureate degree. Classes must meet the following constraints:

- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken
- Graduate Project (ME 5961): minimum of 1 hour
- Total: minimum of 31 hours

Courses outside of ME must be chosen with the approval of the academic adviser. They can be in mathematics, statistics, science, or other engineering disciplines. Special topic credits may be earned using ME 5475 (maximum of 6 credits). Research credits earned through ME 5960 as part of an unfinished M.S. Plan A program may not be counted. Although the Plan B M.S. degree is not research-oriented, the program must contain an "element of discovery," documented by completing ME 5961 (Graduate Project). This could be a special project performed as independent study or as part of a graduate course.

MS-ME/MBA Dual Program

The UW Mechanical Engineering MS/MBA program offers the opportunity to pursue MS and MBA degrees simultaneously and reduce course requirements by applying course credit towards both degrees. There are thesis and non-thesis options for the MS degree.

MS-ME/MBA Program Requirements

The MS-ME component is typically a non-thesis option. An additional 21 credits in engineering, science or mathematics must be earned beyond the BS degree. At least 15 credits of graduate course work must be at the 5000-level from ME. The following MBA courses will be counted towards the MS-ME degree and constitute 9 credit hours of the 30 hours MS-ME program

Choose two of the following courses:

- MBAM5103 - Business Research Methods Credits: 3
- MBAM5202 - Data and Decision Modeling Credits: 3
- MBAM5301 - MBA Summer Project Credits: 3
- MBAM5501 - Energy Economics and Policy Credits: 3
- MBAM5503 - Fundamentals of Accounting in the Energy Industry Credits: 3
- MBAM5506 - Energy Finance: Securities, Hedging, and Trading Credits: 3
- MBAM5508 - Marketing and Sustainable Consumption Credits: 3
- MGT5504 - Energy Industry Value Chain Credits: 3

Required course:

- MBAM5305 - Strategic Management Credits: 3

MS-ME/MBA Thesis Option

For a thesis option, students will only count one MBAM course from the above list and are required to complete 4 credits of ME 5960 and 2 credits for ME 5478, similar to the Plan A option.

Mechanical Engineering Graduate Level Courses

- ME5040 - Introduction to Finite Element Analysis Credits: 3
- ME5045 - Advanced Finite Element Analysis Credits: 3
- ME5200 - Thermo/Kinetics of Materials Credits: 3
- ME5432 - Advanced Materials Science Credits: 3
- ME5434 - Computational Materials Science Credits: 3
- ME5435 - Failure of Engineering Materials Credits: 3

- ME5438 - Plasticity and Viscoelasticity Credits: 3
- ME5440 - Fluid Mechanics Credits: 3
- ME5442 - Advanced Fluid Mechanics Credits: 3
- ME5446 - Turbulence Credits: 3
- ME5448 - Experimental Fluid Dynamics. Credits: 3
- ME5452 - Convection Heat Transfer Credits: 3
- ME5461 - Computational Fluid Dynamics I Credits: 3
- ME5462 - Computational Fluid Dynamics II Credits: 3
- ME5472 - Continuum Mechanics Credits: 3
- ME5478 - Seminar in Mechanical Engineer Credits: 2
- ME5960 - Thesis Research Credits: 1-12
- ME5961 - Graduate Projects Credits: 1-4
- ME5980 - Dissertation Research Credits: 1-12

Mechanical Engineering, Ph.D.

The UW Mechanical Engineering PhD program includes coursework and a substantial research component. Research is performed with an advisor, and a dissertation is produced. Program requirements include Qualifying, Preliminary, and Final Examinations.

Program Requirements

For students of outstanding academic ability and with demonstrated capacity for undertaking independent research on advanced engineering problems, the Ph.D. program in mechanical engineering is offered. The Ph.D. requires a minimum of 72 graduate hours, at least 42 of which must be earned in formal coursework. In addition to coursework requirements, graduate students pursuing a Ph.D. in Mechanical Engineering must complete three examinations: Qualifying, Preliminary, and Final.

Classes must meet the following constraints:

- A minimum of 24 in-resident coursework hours is required
- ME courses (5000-level): minimum of 15 hours
- A maximum of 9 credits at the 4000 level outside of ME may be taken

All graduate students in Mechanical Engineering are expected to follow the graduate education policies of the College of Engineering and Applied Sciences.

Qualifying Exam

In consultation with their advisor, students are allowed to take the Qualifying Exam after declaring pursuit of a Ph.D. degree. Graduate students do not require a M.S. to take the Qualifying Exam. The format is a knowledge-based examination consisting of three subject areas, each with both a written and an oral component. The candidate will be evaluated for each subject area, based on the cumulative performance in both (written and oral) components. Should the student fail a single subject area, at the discretion of the committee, they may repeat the failed portion at the next available opportunity. A third attempt is not permitted. The successful completion of the Qualifying Exam is required before the Preliminary Exam.

Preliminary & Final Exam

The purpose of the Preliminary Exam is to evaluate the aptitude of the Ph.D. candidate to perform research based on preliminary results, and to assess the student's plan for completing the research necessary for the Final Exam. The Preliminary Exam follows university regulations and, at a minimum, consists of a seminar attended by the student's committee members.

The purpose of the Final Exam is to ensure the Ph.D. candidate has sufficient accomplishments to be awarded a Ph.D. The Final Exam consists of an oral defense of the dissertation in accordance with university policy.

Mechanical Engineering Graduate Level Courses

- ME5045 - Advanced Finite Element Analysis Credits: 3
- ME5040 - Introduction to Finite Element Analysis Credits: 3
- ME5200 - Thermo/Kinetics of Materials Credits: 3
- ME5432 - Advanced Materials Science Credits: 3
- ME5434 - Computational Materials Science Credits: 3
- ME5435 - Failure of Engineering Materials Credits: 3
- ME5438 - Plasticity and Viscoelasticity Credits: 3
- ME5440 - Fluid Mechanics Credits: 3
- ME5442 - Advanced Fluid Mechanics Credits: 3
- ME5446 - Turbulence Credits: 3
- ME5448 - Experimental Fluid Dynamics. Credits: 3
- ME5452 - Convection Heat Transfer Credits: 3
- ME5455 - Combustion Engineering Credits: 3
- ME5461 - Computational Fluid Dynamics I Credits: 3
- ME5462 - Computational Fluid Dynamics II Credits: 3
- ME5472 - Continuum Mechanics Credits: 3
- ME5474 - Energy Methods Credits: 3
- ME5478 - Seminar in Mechanical Engineer Credits: 2
- ME5980 - Dissertation Research Credits: 1-12

Petroleum Engineering, M.S.

Petroleum M.S. Students With a B.S. In Petroleum Engineering

All Petroleum M.S. students with a B.S. in Petroleum Engineering from an accredited program must take the following required courses:

Required Courses

- PETE5355 - Mathematical Methods Credits: 3
- PETE5890 - Petroleum Engineering Graduate Seminar Credits: 1

Core Courses

At least three Core Courses from the following:

- PETE5010 - Transport Phenomena Credits: 3
- PETE5020 - Thermodynamics Credits: 3
- PETE5060 - Flow through Porous Media Credits: 3
- PETE5080 - Interfacial Phenomena Credits: 3
- PETE5310 - Fundamentals of EOR Credits: 3
- PETE5350 - Advanced Reservoir Engineering Credits: 3

Total Credits: 14 Hours

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 12
- PETE5960 - Thesis Research Credits: 1-12

Total Credits: 30 Hours

Plan B Non-Thesis Additional Course Requirements:

- 4000-level or above approved electives
- PETE5970 - MS Plan B Research Project Credits: 1-2

Total Credits: 30 Hours

Petroleum M.S. Students With a B.S. In Chemical or Mechanical Engineering

All Petroleum M.S. students with a B.S. in Chemical or Mechanical Engineering from an accredited program must take the following required courses:

Required Courses:

- PETE5055 - Drilling Engineering Credits: 3
- PETE5340 - Reservoir Engineering. Credits: 3
- PETE5715 - Production Engineering Credits: 3

Core Courses

At least five Core Courses from the following:

- PETE5010 - Transport Phenomena Credits: 3
- PETE5020 - Thermodynamics Credits: 3
- PETE5060 - Flow through Porous Media Credits: 3
- PETE5080 - Interfacial Phenomena Credits: 3
- PETE5310 - Fundamentals of EOR Credits: 3
- PETE5350 - Advanced Reservoir Engineering Credits: 3

Total Credits: 26 Hours

Plan A Thesis Additional Course Requirements:

- 4000-level or above approved electives Credits: 7
- GEOL4190 - Petroleum Geology Credits: 3
- PETE5960 - Thesis Research Credits: 1-12

Total Credits: 40 Hours

Plan B Non-Thesis Additional Course Requirements:

- PETE5970 - MS Plan B Research Project Credits: 1-2
- 4000-level or above approved electives Credits: 9
- GEOL4190 - Petroleum Geology Credits: 3

Total Credits: 40 Hours

Graduate Seminar Requirements

All petroleum engineering PhD students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester. MS students are required to take PETE 5890 for at least two semesters.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

Petroleum Engineering, Ph.D.

Students with a B.S. in Petroleum Engineering

All Petroleum Ph.D. students with a B.S. in Petroleum Engineering must take the following required courses:

Required Courses

- PETE5090 - Graduate Research Methods Credits: 3
- PETE5355 - Mathematical Methods Credits: 3
- PETE5890 - Petroleum Engineering Graduate Seminar Credits: 1

Core Courses

At least three Core Courses from the following:

- PETE5010 - Transport Phenomena Credits: 3
- PETE5020 - Thermodynamics Credits: 3
- PETE5060 - Flow through Porous Media Credits: 3
- PETE5080 - Interfacial Phenomena Credits: 3
- PETE5310 - Fundamentals of EOR Credits: 3

Electives

- 4000-level or above approved electives Credits: 21

Research

- PETE5980 - Dissertation Research Credits: 1-12

Total Credits: 72

Students with an M.S. in Petroleum Engineering

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from UW must take the following required courses:

Plan A MS Courses Credits: 26

See Petroleum Engineering, M.S. program

Required Courses

- PETE5090 - Graduate Research Methods Credits: 3
- PETE5890 - Petroleum Engineering Graduate Seminar Credits: 1

Electives

- 4000-level or above approved electives Credits: 9

Research

- PETE5980 - Dissertation Research Credits: 1-12

Total Credits: 72

Students with an M.S. in Petroleum Engineering

All Petroleum Ph.D. students with an M.S. in Petroleum Engineering from another institution must take the following required courses:

Transferred MS Courses Approved by Student's Committee Credits: 14

Required Courses

- PETE5090 - Graduate Research Methods Credits: 3
- PETE5890 - Petroleum Engineering Graduate Seminar Credits: 1

Core Courses

At least four Core Courses from the following:*

- PETE5010 - Transport Phenomena Credits: 3
- PETE5020 - Thermodynamics Credits: 3
- PETE5060 - Flow through Porous Media Credits: 3
- PETE5080 - Interfacial Phenomena Credits: 3
- PETE5310 - Fundamentals of EOR Credits: 3
- PETE5350 - Advanced Reservoir Engineering Credits: 3
- PETE5355 - Mathematical Methods Credits: 3

Electives

- 4000-level or above approved electives Credits: 9

Research

- PETE5980 - Dissertation Research Credits: 1-12

Total Credits: 72 Hours

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

Students with an M.S. Degree in a Geoscience

All Petroleum Ph.D. students with an M.S. degree in a geoscience from another accredited institution must take the following required courses:

Transferred MS Courses Approved by Student's Committee Credits: 12

Required Courses

- PETE5090 - Graduate Research Methods Credits: 3
- PETE5890 - Petroleum Engineering Graduate Seminar Credits: 1

Core Courses

At least six Core Courses from the following:*

- PETE5010 - Transport Phenomena Credits: 3
- PETE5020 - Thermodynamics Credits: 3
- PETE5060 - Flow through Porous Media Credits: 3
- PETE5080 - Interfacial Phenomena Credits: 3
- PETE5310 - Fundamentals of EOR Credits: 3
- PETE5350 - Advanced Reservoir Engineering Credits: 3
- PETE5355 - Mathematical Methods Credits: 3

At Least Eight Additional Courses:

- Six (6) credits in advanced mathematics
- 18 credits in petroleum engineering

Petroleum Engineering Credits Include:

- PETE 5340
- PETE 5055
- PETE5715 - Production Engineering Credits: 3

Electives

- 4000-level or above approved electives Credits: 9

Research

- PETE5980 - Dissertation Research Credits: 1-12

Total Credits: 100 Hours

*Some or all of these credit hours can be transferred by petition, provided they are non-degree credits.

Graduate Seminar Requirements

All petroleum engineering graduate students must enroll in PETE5890 - Petroleum Engineering Graduate Seminar, every semester. All seminars, including the required presentations described below, must be scheduled by the seminar coordinator. Graduate students enrolled in continuous registration are exempt from having to enroll in PETE 5890 in their final semester.

Graduate Teaching Requirement

All Petroleum Engineering graduate students must complete at least one semester as a teaching assistant within the Petroleum Engineering curriculum. Students receiving a state-funded graduate assistantship will be required to serve as a teaching assistant every semester of their award. Students funded by a faculty mentor will work with their mentor to determine an appropriate time to complete this requirement.

Program of Study Requirement

All Petroleum Engineering graduate students must complete their Program of Study worksheet at the beginning of their second academic year of study or 3rd semester of enrollment, and PhD students must submit it prior to their preliminary examination.

Ph.D. Preliminary Examination

Candidacy in the doctorate occurs upon certification of successful completion of the preliminary examination. The preliminary examination will be held at least 15 weeks prior to the final examination. The preliminary examination may not be given before: (a) the research tool requirements, if any, have been met and certification approved; (b) at least 30 hours of coursework have been completed; and (c) the doctoral program of study has been approved.

The goal of the preliminary exam is for the student to present the research proposition that is being investigated and will lead to the final dissertation, and demonstrate progress to-date. The preliminary exam consists of three components:

- a written document provided to each member of the student's graduate committee at least three weeks prior to the oral presentation;
- a public oral presentation; and
- a private examination by the student's graduate committee immediately following the oral presentation.

The written document may be in any format but must concisely provide a survey of the relevant literature, a summary of the student's progress to-date, and a clear, detailed plan for the successful completion of the proposed work. The preliminary exam oral presentation should be consistent with the written document. It should provide an appropriate literature background, demonstrate proficiency with proposed experimental/computational techniques, identify details of the experiments to be performed, and provide a timeline to final defense.

The student's committee will pass or fail the student on the strength of the preliminary examination, with an option to conditionally pass the student while requiring an interim committee meeting prior to the final Ph.D. examination. The Report on Preliminary Examination for Admission to Candidacy form sent to the Office of the Registrar reports the results of the examination.

M.S. and Ph.D. Final Examination (Thesis or Dissertation Defense)

All M.S. and Ph.D. students must orally defend their final report, thesis, or dissertation at a public final examination. If, for any reason, a student's Ph.D. research goals are substantially changed after successful completion of the preliminary examination, the student must arrange a subsequent meeting to provide their committee with an accurate and current overview of their proposed work. The final examination consists of a public defense in oral presentation format. At least three weeks before the examination, the student must provide each member of the graduate committee with a copy of the written thesis or dissertation and provide the

department an announcement of their defense for public advertisement. The results of the defense are reported by the committee on the Report of Final Examination form. Often, graduate committee members request changes in the final thesis or dissertation, and they may postpone signing this form until they are satisfied that those changes have been made.

Publication of Thesis or Dissertation

After the defense, an electronic copy (in PDF format) of the thesis or dissertation must be uploaded in accordance with the directions provided on the Registrar's web site. This copy will be rejected if the format standards specified by the Thesis or Dissertation Format Guide are not met. This guide allows for a publication-ready format. An electronic copy must also be submitted to the department for the departmental library. Most students will want copies for their own use. Students should consult with their chair to determine if they also want a copy of the final paper or other research documentation.

Statistics Graduate Minor

A graduate minor in statistics can be a great way to signal your interest and skill in data analysis as it relates to your field of study.

Requirements

Twelve hours of STAT courses at the 5XXX-level, with the exception of:

STAT 5000

STAT 5185

Statistics, M.S.

Profile

The Master's Program in Applied Statistics will give the student an extensive and broad background in statistical methods, data analysis, and written and oral presentation skills. This degree is a terminal experience in graduate statistical education and should not be viewed as preparatory for entrance into a Ph.D. program in statistics. Graduates will have the necessary background to work as data management specialists, statistical analysts, and as project managers within a wide range of research organizations.

Plan B (Option 1)

Coursework

In addition to the general requirements of the university all candidates for the MS (Plan B - Option 1) degree must successfully take and complete:

Required: 15 Credit Hours

- STAT5210 - Advanced Regression Credits: 3

- STAT5220 - Advanced Design Credits: 3
- STAT5470 - Data Analysis Credits: 3
- STAT5380 - Bayesian Data Analysis Credits: 3
- STAT5660 - Computationally Intensive Methods in Statistics Credits: 3

Electives

a minimum of 15 credit hours in other acceptable graduate courses. Acceptable courses include statistics courses numbered 5000 or higher, excepting:

- STAT 5000
- STAT 5050 - Statistical Methods for the Biological Science
- STAT 5060
- STAT 5070 - Statistical Methods for the the Social Sciences
- STAT 5080 - Statistical Methods for the Agricultural and Natural Resource Sciences
- STAT 5185 - Analysis of Data

Total Credits: 30 Hours

Graduation Requirements: (1) successful completion of coursework and (2) a data analysis project (Plan B paper).

Certificate

Cadastral Surveying Certificate

Program Information

- Students must be properly admitted as Cadastral Surveying Certificate students through the University of Wyoming Admissions Office to be eligible for this Certificate.
- This certificate requires a minimum of 30 semester hours as listed below. 21 credit hours must be successfully completed at the University of Wyoming.
- All transfer credit is subject to review by the UW Land Surveying Director.
- A grade of C or better must be earned in each course.
- The Certificate meets the Wyoming Board of Professional Engineers and Land Surveying licensing requirements for the surveying specific course work required to apply to be a Land Surveyor in Training (LSIT).
- Students earning the Cadastral Surveying Certificate are NOT eligible for Federal Financial Aid. Students may utilize private student loan programs available through the Student Financial Aid Office.
- The UW Cadastral Surveying program is not ABET Accredited.
- Students should have a working knowledge of algebra and trigonometry, and some experience with spreadsheets prior to beginning in this program.
- AutoCAD Civil 3D is recommended.

Course Requirements

- LS2010 - Engineering Surveying Lecture Credits: 2
- LS2020 - GPS for Land Surveyors Credits: 4
- LS2100 - Records Research for Surveyors Credits: 3
- LS2110 - Real Property Law Credits: 3

- LS2400 - Basic Geodesy for Today's Land Surveyor Credits: 2
- LS3100 - Real Property Descriptions Credits: 2
- LS3110 - Boundary Evidence Credits: 2
- LS3120 - Boundary Principles Credits: 2
- LS3130 - Public Land Surveys Credits: 3
- LS3200 - Route Surveying Credits: 3
- LS3210 - Advanced Surveying Credits: 4

Required Credits: 30 Hours Minimum

Cybersecurity Certificate

Cybersecurity is the practice of ensuring the confidentiality, integrity, and availability of information within interconnected systems. The certificate in Cybersecurity prepares you for a career securing software-intensive systems.

Requirements

- COSC2030 - Computer Science II Credits: 4
- COSC4010 - Special Topics in Computer Science Credits: 1-3
- COSC4760 - Computer Networks Credits: 3
- COSC3765 - Computer Security Credits: 3
- COSC4820 - Database Systems Credits: 3
- STAT 2010 Credits: 4

OR

- STAT2050 - Fundamentals of Statistics Credits: 4

OR

Minimum Required: 20 Credits

Note: COSC 4760 can also be replaced by the ECE version ECE 4870 or a second COSC4010 - Special Topics in Computer Science.

QuickStart Program

Chemical Engineering Quick Start, B.S./M.S.

The BS/MS Quick Start program in Chemical Engineering (CHE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Chemical Engineering. These students may apply for admission to the Quick Start program during the second semester of their junior year or during their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better-planned use of time should result in reduction of the time required for obtaining the Master of Science in Chemical Engineering (M.S. CHE) degree. Students who enter the Quick Start program must accept the primary responsibility for actively planning their programs of study to assure timely completion of their coursework and research programs.

The Quick Start program contains two essential elements:

Qualified students may receive provisional admission to the Chemical Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.

Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level coursework as undergraduates, easing their transition to the Chemical Engineering graduate program.

For additional information and an application form, please contact the CHE graduate program coordinator at che-info@uwyo.edu or stop by 4055 Engineering Building.

Civil and Architectural Engineering Quick Start, B.S./M.S.

The MSCE Quick Start (Plan A) program in Civil and Architectural Engineering (CAE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their bachelor of science (BS) degree in Civil Engineering or Architectural Engineering.

Electrical and Computer Engineering Quick Start, B.S./M.S.

The combined B.S./M.S. program in electrical and computer engineering enables especially well-qualified students to be admitted to the M.S. program during the junior year of their B.S. program, and to work thereafter towards both the B.S. and M.S. degrees. These students would earn the B.S. in either electrical engineering or computer engineering and the M.S. degree in electrical engineering following the current curricula.

This program allows for early planning of the M.S. portion of the student's education, taking graduate courses as part of the B.S. degree, more flexibility in the order in which courses are taken, and more efficient use of what would otherwise be a final semester with a light credit hour load.

Degree Requirements

Up to 6 credit hours from UW, at the 5000-level or above, may be counted toward both the B.S. and M.S. degree programs.

For further information please visit our Web site at <http://www.uwyo.edu/electrical/graduate/prospective/ms/quickstart.html>.

Mathematics Quick Start BS/MS

A five-year combined Master's and Bachelor's degree in mathematics, in which six credits of graduate coursework is counted toward both degrees. UW students must apply to be considered for this degree.

Mathematics Quick Start Information

Overview

The combined BS/MS program in Mathematics is designed to afford highly qualified students in their junior or senior year the opportunity to work towards both the BS and MS degrees in Mathematics. The program allows for advanced students to jump-start the graduate portion of their education by applying credits for graduate courses to both their BS and MS requirements. The MS degree earned under the combined BS/MS program is not a new or separate category of degree. However, through careful planning and coordination, this program can result in a reduction of the time required to complete both the Mathematics, B.S. and Mathematics, M.S. degrees.

Qualification/Admission

Application for admission may be submitted to the department at any time after the student has completed 75 undergraduate credits. Graduate credits may be applied toward the MS under this program upon the completion of 90 undergraduate credits. Additional minimum requirements for admission are:

1. Minimum GPA of 3.25
2. Minimum GPA in undergraduate math courses of 3.5
3. Completion of two transition courses or their equivalents
4. Three letters of recommendation from UW faculty (at least 2 from UW-Math)

Credits

The BS/MS-Math program allows for students under the guidance of their academic advisor to take graduate courses as part of their BS degree. During their senior year, up to six graduate credits (5000+ level) can be counted simultaneously towards both the BS and MS degrees in Mathematics. In principle, this "double dipping" allows students to earn a MS after completing only 144 credits (120 to earn the BS, 6 of which are applied toward the 30 credits required to earn the MS) instead of 150 credits. In addition, students may reserve a further six credits of 5000 level credits for their MS degrees prior to earning their BS; however, these credits will not be counted toward the BS degree.

Satisfactory progress

The department's Foundation Exam must be passed by the beginning of their second semester of their 4th year. Students in the BS/MS program must have a faculty advisor, with whom they consult to complete a program of study. The Program of Study (POS) must be submitted to the Mathematics Graduate Committee for approval by the end of the midterm of the first semester in which the student has been admitted into the program. The POS must include all courses to be taken during their senior year to the end of the students MS program. Any of the tracks (plan A or B) available to our Masters students will be available to students in this program. The advisor will aid the student in determining which track is the best for completion of the Masters.

Regulations

Students in this program will be governed by the regulations applicable to any undergraduate student in Mathematics until the student has completed 120 credit hours applicable to the BS degree in Mathematics. Once those 120 credit hours have been completed, the student will be enrolled as a graduate student and be governed by graduate student regulations in the Mathematics graduate program. To the extent possible, once the student transitions to being a graduate student, the student should complete the MS degree in 12 months.

University of Wyoming requirements:

Students must have a minimum cumulative GPA of 2.0 to graduate. • Students must complete 42 hours of upper division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. • Courses must be taken for a letter grade unless offered only for S/U. • University Studies Program (USP) Human Culture (H) and Physical & Natural World (PN) courses must be taken outside of the major subject, but can be cross-listed with the major.

College of Arts and Sciences requirements:

Students must take two "core" courses in addition to UW's University Studies Program requirements: Diversity in the United States (ASD) and Global Awareness (ASG). • No more than 60 hours in the major subject may be used toward the 120 credit hours required for graduation. • At least 30 hours in the major subject must be completed with a grade of C or better (the major may require more).

Mechanical Engineering Quick Start, B.S./M.S.

The UW Mechanical Engineering BS/MS QuickStart program offers Mechanical Engineering and Energy Systems Engineering undergraduate students the opportunity to start on MS graduate coursework early and gain credit towards BS and MS degree requirements.

Requirements for Admission

Through judicious choice of undergraduate electives, this program allows double-counting up to two 5000-level courses from the B.S. program toward M.S. degree requirements, thus reducing the time requirement for completing an M.S. degree. Students can apply for admission to the B.S./M.S. program by achieving junior status and meeting the following requirements for admission:

- completion of the four core ME courses (listed below),
- a minimum overall GPA of 3.250,
- a minimum GPA of 3.250 in ME courses, and
- a minimum of three letters of recommendation (at least two must be from ME faculty at UW).

Core Mechanical Engineering Courses

Completion of the following four ME courses is required for admission.

- ME3010 - Intermediate Mechanics of Materials Credits: 3
- ME3020 - System Dynamics Credits: 3
- ME3040 - Thermodynamics II Credits: 3
- ME3360 - Fundamentals of Transport Phenomena Credits: 3

Additional Information

Students must maintain a GPA of at least 3.250 in their undergraduate and at least 3.000 in their graduate coursework in order to remain in good standing in the program. Not meeting the GPA requirement places a student on probation for one semester. If the GPA requirement is not met after that semester, the student will be dismissed from the Quick Start program. Transfer students must have taken courses equivalent to the ME core courses. Transfer students must have also completed at least 15 credit hours of courses at UW in order to be eligible for admission.

Until a student in this program has completed a total of 131 credit hours of courses applicable to the B.S. degree in Mechanical Engineering, or a total of 129 credit hours of courses applicable to the B.S. degree in Energy Systems Engineering, he/she will be governed by the regulations applicable to undergraduate students in the Department. After a student has accumulated a total of 131 or 129 applicable credit hours, he/she will be governed by the regulations applicable to any graduate student in the ME department. These regulations include the requirement that every student must take the GRE general examination. It is the intention of the department that, to the degree possible, a student in this program is treated on the same basis as any other student in the department at a comparable stage of his/her academic career.

As many as 6 credit hours of ME department courses at the 5000 level may be counted towards both the undergraduate degree requirements and the requirements for the MS degree. In principle, therefore, the minimum number of course credit hours required for the BS/MS degrees will be 151 for Plan A students (+ 4 additional hours of thesis research) or 156 for Plan B students (non-thesis option).

Petroleum Engineering Quick Start, B.S./M.S.

The BS/MS Quick Start program is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their BS degree in Petroleum Engineering. These students may apply for admission during their junior year.

Quick Start Program Requirements

The BS/MS Quick Start program in Petroleum Engineering (PETE) is designed to present highly qualified UW students with the opportunity to begin graduate study while they complete their Bachelor of Science (B.S.) degree in Petroleum Engineering. These students may apply for admission to the Quick Start program during their junior year or before starting their senior year.

This program allows for early planning of the graduate portion of a student's education and provides more flexibility in the number of required courses and the order in which they are taken. The more efficient and better planned use of time should result in reduction of the time required for obtaining the Master of Science in Petroleum Engineering degree. Students who enter the Quick Start program must accept primary responsibility for actively planning their Programs of Study to assure timely completion of their course work and research programs.

The Quick Start program contains two essential elements:

- Qualified students may receive provisional admission to the Petroleum Engineering graduate program prior to completing the normal application process. This provisional admission will permit students to make their long-term educational plans earlier in their studies, thus providing enhanced opportunities for course selection and involvement in research.
- Students in the program may apply up to 6 credit hours of 5000-level courses toward both the B.S. and M.S. degree programs. By completing successfully up to 6 credit hours of graduate classes during their senior year, these students will have demonstrated their ability to do graduate-level course work as undergraduates, easing their transition to the Petroleum Engineering graduate program.

For additional information, visit our website for admissions information <http://www.uwyo.edu/petroleum/undergraduate/current-students/quickstart.html> or contact our graduate admissions coordinator at pete-info@uwyo.edu.

Quick Start Prerequisites

Cumulative GPA of 3.25.

PETE GPA of 3.50

3 letters of recommendation, at least 2 from PETE faculty at UW.

- PETE3200 - Reservoir Engineering Credits: 3
Prerequisite courses: PETE 2050 and PETE 3025
- PETE3255 - Basic Drilling Engineering Credits: 3
Prerequisite courses: ES 2330 and PETE 2050
- PETE3715 - Production Engineering Credits: 3
Prerequisite courses: ES 2310, ES 2330 and PETE 2050

Transfer Students' Requirements

Must have taken at least two of the three required PETE courses listed above at UW.

Transfer course work must be from an accredited institution and deemed equivalent to current UW PETE core courses.

Must have completed at least 15 credit hours of PETE course work at UW prior to starting the Quick Start program.

Quick Start Program Retention

Prior to completion of the BS degree, students must:

- Complete all requirements for admission to UW graduate school and the PETE graduate program.
 - The Graduate Records Examination (GRE) requirement will be waived.
 - Additional English proficiency testing for admission is also waived for international students.
 - Maintain a cumulative GPA of at least 3.25 in their overall undergraduate program.
 - Maintain a GPA of 3.5 in their PETE courses.
 - Maintain a GPA of at least 3.0 in 5000-level (graduate) courses.
-
- Failure to complete graduate admission requirements prior to the start of the final year of undergraduate study will result in immediate suspension from the program.
 - Failure to meet any GPA requirements places a student on academic probation for one semester.
 - If the GPA requirement is still not met after academic probation, the student will be suspended from the program.

Statistics Quick Start BS/MS

An advanced degree in Statistics is powerful in its own right; statistical methods are part of the core of data science, so stands as a useful foundation for that as well. The Program in Statistics at the University of Wyoming now offers a QuickStart ("4+1") MS program, within which qualified students can obtain a Statistics, B.S. and a Statistics, M.S. degree in five years.

The program is intended for inspired, high-achieving students; the pace will be intense, as you will need to be taking courses at the graduate level in your undergraduate senior year.

The MS degree requires 30 credits; in order to make the 4+1 program work enrolled students can

- Have two three-credit 4XXX/5XXX classes count towards both the BS and MS degrees. Enrollment must be for the 5XXX section of the course. Tuition is charged at the undergraduate rate.
- Reserve two three-credit 4XXX/5XXX classes for graduate credit. Tuition is charged at the undergraduate rate, but these two classes *will only count towards the MS*.

With these four courses counting towards the MS, there remains 18 credits, which can be done in two semesters of three (three-credit) classes each.

Steps:

- Apply (usually in the Spring of your Junior year) online to the QuickStart- Statistics BS/MS -College of Arts & Science program[1]. You will need (unofficial is fine) college transcripts, a statement of purpose, and three letters of recommendation[2].
- Once you are enrolled in the program, the Admissions Office will work with you to put into play the double-dip and reserved courses mentioned above.

Acceptance into the MS is conditional until your undergraduate degree is awarded and results are in from your taking the GRE, which we recommend you take in your last undergraduate year.

[1] Instructions from the registrar: Apply at: <https://www.uwyo.edu/admissions/apply-online.html>

The log-in is different from WyoWeb. If you remember the log-in email/password form when you originally applied to UW, you can use the Returning Users option. Otherwise, use the First Time users option. When you get to the page where you select your program of study, select **QuickStart- Statistics BS/MS -College of Arts & Science**. All the Quickstart program are under Q to (hopefully) reduce confusion for non-quickstart applicants. Any questions during the application process can be directed to admissions@uwyo.edu or 766-5160.

[2] These documents are standard for applying to our graduate program; we anticipate we will have a mix of QuickStart students and regular (i.e. 2-year) MS students who are applying from elsewhere.

College of Health Sciences

235 Health Sciences Center

David Jones, Dean

Phone: (307)766-6556 FAX: (307)766-6608

Web site: www.uwyo.edu/hs

The College of Health Sciences is the place for students interested in improving and maintaining the physical, mental, and social health of others. We offer challenging degree programs in the "helping professions" and serve as the gateway to schools of medicine, dentistry, physical and occupational therapy, physician's assistant study, optometry, and more.

Health sciences students receive not only a superior education from knowledgeable and caring faculty but also precise and personal guidance from conscientious advising personnel. Students benefit, too, from practicums and internships that help them refine and test the skills acquired in lectures and labs as well as opportunities to participate in dynamic, interdisciplinary research projects.

The college is also the home of the Wyoming Institute for Disabilities (WIND); two Family Medicine Residency Centers; and the WWAMI Medical Education Program.

We serve as the state certifying office for the Wyoming, Washington, Alaska, Montana, and Idaho (WWAMI) medical education contract program with the University of Washington School of Medicine; WYDENT, the dental education contract program with the University of Nebraska and Creighton University; and two programs for the Western Interstate Commission of Higher Education (WICHE): the Professional Student Exchange Program (PSEP) and the Western Regional Graduate Program (WRGP). Refer to the sections on WWAMI, WYDENT, and WICHE in this catalog for program descriptions or go to www.uwyo.edu/certwy.

Any student seeking admission to programs in the College of Health Sciences will be required to obtain a background check as specified by college policy. Please contact your school or division for specific information.

The College of Health Sciences retains the right to deny or revoke admission to any of its programs for academic, disciplinary, ethical, or professional standards reasons.

Programs of Study

Undergraduate Degrees

Bachelor of Science

Kinesiology and Health Promotion
Medical Laboratory Science
Physical Education Teacher Education K-12
Speech, Language and Hearing Sciences

Bachelor of Science in Dental Hygiene

Bachelor of Science in Nursing

Bachelor of Social Work

Graduate Degrees

Master of Science

Health Services Administration
Nursing
Kinesiology and Health
Speech-Language Pathology

Master of Social Work

Professional Degrees

Doctor of Nursing Practice

Doctor of Pharmacy

Minor in the College of Health Sciences

Disability Studies

Disability studies is a diverse interdisciplinary field that investigates broad questions about the nature, meanings, and consequences of disability from interrelated social, historical, cultural, and political perspectives. Students will gain a broad understanding of disability issues for working with people with disabilities rather than specific disciplinary skills and techniques. The minor complements any major and consists of 18 credit hours. See www.uwyo.edu/hs/divisions-and-programs/minor-indisability-studies.html.

Undergraduate and Pre-Health Advising Office

Health Sciences Center, 110

The Undergraduate and Pre-Health Advising Office (UPHAO) in the College of Health Sciences (www.uwyo.edu/preprof/) provides pre-professional health advising to all UW students regardless of their academic majors, who are interested in pursuing future study in athletic training, chiropractic, dentistry, medicine, optometry, occupational therapy, physical therapy, physician assistant, or other health care careers such as public health. A bachelor's degree is usually required for admission to a professional school. The University of Wyoming does not offer degrees in pre-professional areas. Students may pursue any UW degree program in which they have an interest and at the same time complete the admission requirements for the professional schools they wish to attend. The UPHAO advises students for their professional program prerequisites as well as other aspects of becoming solid candidates. Each student will also have an advisor in his/her major.

Through this office, pre-health students can access current information about admission requirements, entrance examinations, application process, professional school curriculums, interviewing skills, and test preparation. Specific schools may have additional requirements; students are urged to check with the schools they wish to attend.

Information and Wyoming state residency applications for the WICHE PSEP program, the WWAMI medical education program, and the WYDENT dental education program, may be found online at <http://www.uwyo.edu/certwy>.

Please view individual division and program pages list for full course and curriculum listings

Major

B.S. in Dental Hygiene (BSDH)

Dental hygienists play an important role in promoting health by helping patients understand the connection between good oral health and an overall healthy body. They provide patient education and individualized therapeutic services to help patients reach their oral health goals.

Program Prerequisites

Students interested in the bachelor's degree in dental hygiene should contact the Health Sciences Advising Office at Health Sciences 110, phone (307)766-3878, e-mail: hsadvise@uwyo.edu.

Prerequisite courses for admission into the Dental Hygiene program at Sheridan College includes a cumulative GPA of 2.750 or better in the courses listed below. These may be taken at any institution, but if taken at the University of Wyoming, the course numbering will be as follows:

- MATH1400 - College Algebra Credits: 3
- LIFE1010 - General Biology Credits: 4
- ENGL1010 - College Composition and Rhetoric Credits: 3
- ENGL2005 - Writing in Technology and the Sciences Credits: 3
- COMM2010 - Public Speaking Credits: 3
- PSYC1000 - General Psychology Credits: 3
- ANTH1200 - Introduction to Cultural Anthropology Credits: 3
- FCSC1141 - Principles of Nutrition Credits: 3
- CHEM1000 - Introductory Chemistry Credits: 4
OR CHEM 1020 General Chemistry I
- MICR2021 - General Microbiology Credits: 4
OR MOLB 2021 General Microbiology
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- ZOO3115 - Human Systems Physiology Credits: 4

UW Requirements for the BSDH Degree

In order to receive a BSDH through the University of Wyoming, students must also take the following courses:

- Program prerequisites
- A.A.S. in Dental Hygiene from Sheridan College (competitive application required)
- Completion of all USP requirements, including the US and Wyoming Constitutions (USP-V) and Communication III (USP-COM3) requirements
- STAT 2050 or STAT 2070
- At least 120 credits hours, 42 of which are upper-division credits. This usually requires the completion of additional upper-division elective credits. Note: talk to an advisor to know whether you need to fulfill any additional credits toward your BSDH (hsadvise@uwyo.edu).

Required Courses

Required courses after admission to the Dental Hygiene program at Sheridan College (NWCC-D):

Sheridan College Courses

Sheridan College courses, taught ONLY at Sheridan College in Sheridan, WY.

- DHYG 2100 - Dental Health Education Credits: 3
- DHYG 2300 - Preclinical Dental Hygiene Credits: 3
- DHYG 2305 - Clinical Dental Technology Credits: 1
- DHYG 2405 - Dental Anatomy Credits: 2

- DHYG 2450 - Oral Radiology Credits: 3
- DHYG 2451 - Oral Radiology Lab Credits: 1
- DHYG 2470 - Orientation to Dental Hygiene Credits: 3
- DHYG 2200 - Pharmacology Credits: 2
- DHYG 2210 - Dental Embryology & Histology Credits: 2
- DHYG 2350 - Clinical Dental Hygiene I Credits: 3
- DHYG 2400 - Head, Neck, and Oral Anatomy & Physiology Credits: 2
- DHYG 2420 - Clinical Seminar I Credits: 2
- DHYG 2455 - Dental Materials Credits: 2
- DHYG 2456 - Dental Materials Lab Credits: 1

University of Wyoming Courses

University of Wyoming courses (details below), taught ONLY at Sheridan College in Sheridan, WY.

- DHYG3230 - Clinical Seminar II Credits: 2
- DHYG3300 - Clinical Dental Hygiene II Credits: 5
- DHYG3400 - General and Oral Pathology Credits: 3
- DHYG3600 - Ethics and Law in Dental Hygiene Credits: 2
- DHYG3750 - Periodontology Credits: 3
- DHYG3770 - Pain Management Credits: 2
- DHYG3775 - Pain Management Lab Credits: 1
- DHYG3250 - Clinical Seminar III Credits: 2
- DHYG3350 - Clinical Dental Hygiene III Credits: 5
- DHYG3550 - Community Dental Health Credits: 3
- DHYG3720 - Office Practice Credits: 2
- DHYG3800 - Board Review Credits: 1

Kinesiology and Health Promotion, B.S.

The B.S. in Kinesiology and Health Promotion degree prepares students for careers in clinical exercise physiology, health and movement coaching, biomechanics, nutrition, basic science, and behavioral science. The program is also excellent for students seeking to enter the field of medicine.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Kinesiology and Health Promotion major. These courses should be taken before KIN 3021 & 3022, except the Communications III (USP-C3) course.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 English Composition

Communications II (3 credits)

Communications III (3 credits)

U.S. & Wyoming Constitution (3 credits)

Human Culture

Any USP-H course (not HLED) (3 credits, meets 3 out of 6 credits of Human Culture USP requirement)

Courses required for major

- PSYC1000 - General Psychology Credits: 3 (Meets 3 out of 6 credits of Human Culture USP requirement)
- MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement)
- CHEM1000 - Introductory Chemistry Credits: 4 (Meets Physical and Natural World USP requirement)
OR CHEM 1020 - General Chemistry I
- LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement)
- FCSC1141 - Principles of Nutrition Credits: 3
- HLED1006 - Personal Health Credits: 3
- KIN1006 - Introduction to Kinesiology and Health Credits: 1 Not required if student has taken KIN 1101 First-Year Seminar
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- STAT2050 - Fundamentals of Statistics Credits: 4
OR STAT 2070 Introductory Statistics for the Social Sciences
- PHYS1050 - Concepts of Physics Credits: 4
OR PHYS 1110 General Physics I
- ZOO3115 - Human Systems Physiology Credits: 4
- HLED3020 - Community and Public Health Credits: 3
- KIN3021 - Physiology of Exercise Credits: 3
A minimum cumulative GPA of 2.750 (preferred 3.000) is required before taking KIN 3021
- KIN3022 - Lab Exp in Exercise Physiology Credits: 1 Taken concurrently with KIN 3021.
- KIN3024 - Fundamentals of Health and Fitness Assessment Credits: 3
- KIN3034 - Lifespan Motor Development Credits: 3
OR KIN 4020 Motor Behavior
- KIN3037 - Sport Psychology Credits: 3
OR KIN 3038 Exercise Psychology
- KIN3042 - Biomechanics of Human Movement Credits: 3
Minimum of 6 hours total in:
- KIN4015 - Internship Experience in Kinesiology Credits: 1-12
OR
- HLED4015 - Internship Experience in Health Credits: 1-12
OR
- KIN4016 - Research Experience in Kinesiology and Health Credits: 1-6
OR
- HLED4016 - Research Experience in Kinesiology and Health Credits: 3-6

Elective Courses

KIN/HLED Upper-Division Elective Coursework (15 credits)

15 credits of 3000-4000 level KIN/HLED elective coursework is required in addition to the required KIN & HLED courses listed above.

Consult with your advisor to see list of possible courses.

General Electives (25 credits)

Degree must include 120 credits, at least 48 of which must be upper-division credits.

KIN and HLED electives (i.e., non required courses) from above may be counted towards these 25 credits. KIN 2050 is recommended as one elective course.

Consult with your academic advisor and your pre-health advisor (if applicable). Pre-health students will need to take additional professional prerequisite courses as electives.

Additional Requirements

Students must complete 48 credit hours of upper division coursework (3000- or 4000-level courses) to meet the Division's minimum 48 credit hour requirement for the B.S. degree in Kinesiology and Health Promotion.

NOTE: Students should complete CPR & first aid certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

PRE-HEALTH ANNOUNCEMENT

This degree is great preparation for various careers in health care and allied health. If you are interested in becoming a strong applicant to graduate school for a career in these fields, please tell your primary advisor and connect with the Pre-Health Advising Office on campus as soon as possible: <https://www.uwyo.edu/preprof/> or hsadvise@uwyo.edu

Your career of choice will determine which math and science courses you need to take in your first years, so talk to them early!

Medical Laboratory Science, B.S.

A degree in Medical Laboratory Science prepares healthcare professionals to perform clinical diagnostic testing in the areas of microbiology, hematology, chemistry, immunohematology, urinalysis, serology, and molecular biology.

USP - University Studies Program Requirements

Completion of all University Studies Program requirements is necessary to obtain a bachelors degree from the University of Wyoming. These requirements may be covered by the Medical Laboratory Technician Associates degree at Casper College. Please work with your advisor to ensure these requirements are fulfilled.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3

Casper College Requirements

MLTK and PEAC courses are available through an articulation agreement with Casper College **and can be taken only through Casper College**. Students are responsible for fulfilling all University Studies requirements. The articulation agreement, with a proposed semester-by-semester sequence, is available at: <http://www.uwyo.edu/TRANSFER/articulation/agreements/medical-laboratory-science.html>

- MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement) 4 credits at Casper College
- MICR2021 - General Microbiology Credits: 4
 - OR MOLB 2021 General Microbiology (Casper College equivalent: MOLB 2210)
- SOC1000 - Sociological Principles Credits: 3 OR ANTH 1200 Introduction to Cultural Anthropology
- ENGL1010 - College Composition and Rhetoric Credits: 3 (Meets Communication I USP requirement)
- LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: BIOL 1010)
- ENGL2005 - Writing in Technology and the Sciences Credits: 3 (Meets Communication II USP requirement)
- POLS1000 - American and Wyoming Government Credits: 3 (Meets U.S. and Wyoming Constitution USP requirement)
- CHEM1020 - General Chemistry I Credits: 4 (Meets Physical and Natural World USP requirement; Casper College equivalent: CHEM 1025 & CHEM 1028)
- PEAC xxxx: Online Activity Credits: 1
- CMAP 1505 Introduction to Computers Credits: 1
- Elective Credits: 3
- MLTK 1500 - Hematology Credits: 3
- MLTK 1600 - Clinical Immunohematology Credits: 3
- MLTK 1700 - Microscopy: UA Body Fluids Credits: 2
- MLTK 2600 - Clinical Microbiology I Credits: 2
- MLTK 2500 - Clinical Chemistry Credits: 3
- MLTK 2650 - Clinical Microbiology II Credits: 2
- MLTK 2700 - Immunology Credits: 4
- MLTK 2971 - Clinical Practicum: Hematology Credits: 2
- MLTK 2972 - Clinical Practicum: Chemistry Credits: 2
- MLTK 2973 - Clinical Practicum: Immunohematology Credits: 2
- MLTK 2974 - Clinical Practicum: Microbiology Credits: 2
- MLTK 2976 - Clinical Practicum: Serology Credits: 1
- MLTK 2977 - Clinical Practicum: UA / Body Fluids Credits: 1
- MLTK 2978 - MLT Professionalism Credits: 1
- MLTK 2800 - Clinical Pathophysiology Credits: 4
- MLTK 1800 - Principles of Phlebotomy Credits: 3

University of Wyoming Requirements

Upper-division courses required to complete the Bachelor of Science in Medical Laboratory Science (**All MLSK courses are only available through UW-Casper.**):

- CHEM1030 - General Chemistry II Credits: 4
- CHEM2300 - Introductory Organic Chemistry Credits: 4
- LIFE3050 - Genetics Credits: 4
- LIFE3600 - Cell Biology Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- MOLB3610 - Principles of Biochemistry Credits: 4
- MLSK4840 - Laboratory Education Methodology Credits: 1
- MLSK4850 - Clinical Research Design Credits: 2
- MLSK4860 - Laboratory Management Credits: 3 (Meets Communication III USP requirement)
- MLSK4870 - Advanced Clinical Chemistry Credits: 4
- MLSK4880 - Advanced Hematology: Erythrocytes Credits: 2
- MLSK4981 - Advanced Clinical Practicum-Hematology Credits: 3
- MLSK4982 - Advanced Clinical Practicum-Molecular Credits: 3
- MLSK4983 - Advanced Clinical Practicum-Immunohematology Credits: 3

- MLSK4984 - Advanced Clinical Practicum- Microbiology Credits: 3
- MLSK4890 - Professional Career Paths and Review Credits: 2
- Upper-division elective credits: 1 (see below, consult your academic advisor)

Upper Division Elective Credit Hours

One upper division elective credit hour must be completed in the student's junior or senior year to meet the total 42 required upper division credits to graduate. Students may take a three credit class to meet this requirement.

These credits must be 3000 and above, and achieved through online outreach or on campus courses. A list of courses that are acceptable to fulfil this requirement can be made available to the student. If a course is in question, it is highly suggested to the student to contact the UW-C advising department or the MLS program director for requirement fulfillment confirmation.

Enrichment Rotations and Laboratory Sessions

The final semester of the student's senior year is comprised of didactic material being delivered in an online hybrid manner, supplemented with on campus lab sessions at the UW-Casper campus. These lab sessions will be accompanied by an observational enrichment rotation at a clinical site. This enrichment rotation will allow for the observation of advanced methodologies in a practical environment. It will be the students' responsibility for all travel and housing costs associated with the advanced clinical practicum courses.

Probation

Students who do not meet the minimum grade requirements stated above for MLSK course work will be placed on probation. In this period of time, students will be allowed to continue in the program under supervision, but will submit a petition which is an individualized plan of study for the next semester that is developed by the student in agreement with and signed by an academic advisor. All completed MLSK courses that fail to meet minimum grade requirements (C or 2.000 or better) must be repeated by the student. Students shall not be allowed to progress to the final semester until all courses in the previous semesters are successfully completed and a GPA of 2.000 is obtained.

Additional Requirements

The program requires 124 credit hours total, with 54 credit hours obtained in the junior/senior years to graduate. Students must complete a minimum of 42 upper division hours, 30 of which must be earned from the University of Wyoming.

Prerequisite for admission to the Medical Laboratory Sciences degree is completion of the Medical Laboratory Technician program at Casper College, or another accredited MLT program. Students interested in the MLS degree who already hold a bachelors degree should contact program director Jed Doxtater at jdoxtate@uwyo.edu.

Nursing, B.S.N., Basic BSN Option

"Basic BSN" is an on-campus BSN option for students who want to become a registered nurse and earn the Bachelor of Science in Nursing degree. Learning facilities include state-of-the-art classrooms and Clinical Simulation Center.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM2 - Communication 2 Credits: 3
- H- - Human Culture (1) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Pre-Clinical Component

- ENGL1010 - College Composition and Rhetoric Credits: 3
 - MATH1400 - College Algebra Credits: 3
 - LIFE1010 - General Biology Credits: 4
 - CHEM1000 - Introductory Chemistry Credits: 4
- OR**
- CHEM1020 - General Chemistry I Credits: 4
 - FCSC1141 - Principles of Nutrition Credits: 3
 - PSYC1000 - General Psychology Credits: 3
 - MICR2240 - Medical Microbiology Credits: 4
- OR**
- MOLB2240 - Medical Microbiology Credits: 4
 - KIN2040 - Human Anatomy Credits: 3
 - KIN2041 - Human Anatomy Laboratory Credits: 1
 - STAT2050 - Fundamentals of Statistics Credits: 4
- OR**
- ZOO3115 - Human Systems Physiology Credits: 4

Clinical Component

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

- NURS2340 - Developmental Influences on Health Credits: 3
 - NURS3445 - Fundamentals and Health Assessment in Professional Nursing Practice Credits: 4
 - NURS3490 - Health Promotion in Professional Nursing Practice Credits: 4
 - NURS3665 - Foundations of Professional Nursing Roles Credits: 3
 - NURS3690 - Professional Nursing Acute/Chronic Illness Credits: 3
 - NURS3695 - Professional Nursing Acute/Chronic Illness Practicum Credits: 4
 - NURS3890 - Professional Nursing Care in Complex Illness Credits: 3
 - NURS3891 - Professional Nursing Care of Older Adults Credits: 3
 - NURS3892 - Professional Nursing Care in Mental Health and Illness Credits: 3
 - NURS3895 - Professional Nursing Care in Complex Illness Practicum Credits: 4
 - NURS4125 - Evidence-Based Nursing Credits: 3 (COM3)
 - NURS4665 - Healthcare Informatics in Professional Nursing Practice Credits: 3
 - NURS4690 - Professional Nursing Care of Populations Credits: 4
 - NURS4691 - Professional Nursing Care of Children and Families Credits: 3
 - NURS4695 - Professional Nursing Care of Populations Practicum Credits: 4
 - NURS4865 - Professional Nursing Leadership Credits: 3
 - NURS4895 - Professional Nursing Capstone Practicum Credits: 9-12
- With approval from FWWSON, ARMY 3050 may be applied to this requirement and NURS 4895 taken for 9 credits.*
- PHCY3450 - Foundational Pathophysiology Credits: 4
 - PHCY4470 - Fundamentals of Pharmacology Credits: 4

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

- Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
- Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
- Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
- Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
- Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
- Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
- Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
- Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
- Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
- Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
- Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Basic BSN has two different admission entries: 1) Freshman Admission to the Nursing major and 2) Non-Freshman Admission to the Nursing major. Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Freshman Admission or Non-Freshman Admission under Admission to Basic BSN*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for Basic BSN. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Basic BSN Student Handbook - section 6 Scholastic Requirements*).

Curriculum

The minimum requirement to graduate with a BSN is 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Nursing courses are offered fall and spring semesters of the university academic calendar. Students are required to have transportation to all clinical sites. A number of clinical sites are located in Cheyenne. The capstone practicum experience during spring of the senior year requires students to live in locations away from campus.

Program of Study

A detailed, semester sequenced Basic BSN Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, Basic BSN, Basic BSN Program of Study*). All required courses identified under Pre-Clinical Component and Clinical Component must be passed with a C or better (or S) except for CHEM 1000, which requires a B or better. .

Applicable for: Freshman/Non-Freshman Admission to the Nursing Major

Nursing, B.S.N., BRAND Option

"Bachelors Reach for Accelerated Nursing Degree": an accelerated Bachelor of Science (BSN) option for students with a previous non-nursing baccalaureate degree who desire to become a registered nurse. This option is a 'summer to summer' format with a full-time schedule of courses.

University Studies Program Requirements

The University Studies Program 2015

- V- - U.S. & WY Constitution Credits: 3

Prerequisite Courses

- PSYC1000 - General Psychology Credits: 3
- FCSC1141 - Principles of Nutrition Credits: 3

- STAT2050 - Fundamentals of Statistics Credits: 4
OR
- MICR2021 - General Microbiology Credits: 4
OR
- MOLB2021 - General Microbiology Credits: 4
OR
- MICR2240 - Medical Microbiology Credits: 4
OR
- MOLB2240 - Medical Microbiology Credits: 4
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- ZOO3115 - Human Systems Physiology Credits: 4

- PHCY3450 - Foundational Pathophysiology Credits: 4
- PHCY4470 - Fundamentals of Pharmacology Credits: 4

Nursing Courses

(Note: Course requirements/expectations are subject to change. Maintain contact with FWWSON for current expectations.)

- NURS2340 - Developmental Influences on Health Credits: 3
- NURS3730 - Introduction to Professional Nursing Credits: 2
- NURS3745 - Nursing Fundamentals and Health Assessment Credits: 4
- NURS3790 - Health Promotion of Individuals, Families, and Populations Credits: 3
- NURS3770 - Nursing Care in Acute and Chronic Illness Credits: 8
- NURS3771 - Nursing Care in Acute and Chronic Illness Practicum Credits: 6
- NURS3780 - Evidence-Based Practice in Nursing Credits: 4
- NURS4765 - Healthcare Informatics in Nursing Credits: 3
- NURS4710 - Population Health Credits: 4
- NURS4735 - Vulnerable Populations and Mental Health Credits: 3
- NURS4740 - Nursing Care of the Young Family Credits: 6
- NURS4771 - Nursing Care of Young Families and Vulnerable Populations Practicum Credits: 4
- NURS4775 - Nursing Senior Capstone Credits: 10
- NURS4785 - Nursing Integration Credits: 2

Additional Requirements

Expected Student Learning Outcomes

At completion of the Bachelor of Science in Nursing (BSN) degree, graduates will be able to meet the end of program student learning outcomes:

- Minimize risk of harm to patients and providers through both system effectiveness and individual performance.
- Advance nursing practice related to patient care technologies, information systems, and communication devices that support safe nursing practice.
- Achieve optimal individual, family, group, community, and population outcomes guided by clinical reasoning and appraisal of evidence of best practice.
- Demonstrate effective leadership through heightened self-awareness to empower others in the attainment of optimal patient outcomes.
- Use mutually respectful communication, collaboration, and leadership skills within interprofessional teams in the management of care in diverse, complex, global, and dynamic healthcare systems.
- Participate as a nursing professional in the development and implementation of healthcare policy, finance, and regulatory entities, including local, state, national, and global healthcare trends.
- Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
- Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
- Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.
- Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.

- Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who meet university requirements are admitted to the university in the pre-nursing component of BRAND (*declared PNBR major*). The number of students admitted to BRAND is limited, and admission is a competitive process. Applicants meeting minimum requirements are not guaranteed admission.

Criteria for admission to BRAND as well as application instructions and deadlines can be found on the nursing website, www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, Admission Criteria/Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BRAND. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, BRAND Student Handbook - section 6, Scholastic Requirements*).

Curriculum

The minimum requirement for the second bachelor's (SB) degree candidate to graduate with a BSN is 50 semester hours of credit. This curriculum option totals 55 credit hours.

The minimum requirement for an SB degree is 30 additional semester hours earned from UW, 12 of which must be in upper division level courses. If prior baccalaureate degree was earned through UW, the 30 credit minimum is in addition to the credits earned for previous degree. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450] and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability. PHCY 3450 and PHCY 4470 must be completed within three years **before** the May start date.

Program of Study

A detailed, semester sequenced BRAND Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BRAND, BRAND Program of Study*). All required courses identified under Prerequisite Courses and Nursing Courses must be passed with a C or better (or S).

Nursing, B.S.N., BSN Completion - ReNEW Option

The BSN Completion - ReNEW (Revolutionizing Nursing Education in Wyoming) option is Wyoming's shared BSN nursing curriculum. Entry into the ReNEW option begins at a participating Wyoming community college ADN nursing program.

- Provide patient-centered care by reflecting on the uniqueness of an individual patient's background, personal preferences, culture, values, traditions, and family, which promotes optimal health outcomes by involving patients and families as they make clinical care decisions.
- Demonstrate respectful, efficient, safe, and well-coordinated transitions of the patient through all levels of care.
- Provide respectful, efficient, safe and well-coordinated patient-centered care to populations by reflecting on beliefs, values, attitudes, and practices.

- Model professionalism with consistent demonstration of core values evidenced by nurses working with others to achieve optimal health and wellness outcomes in patients, families, and populations by wisely applying principles of altruism, excellence, caring, ethics, respect, communication, professional engagement, lifelong learning, and accountability.
- Encourage evidence-based health promotion and make a positive contribution to immediate and long-term health status, through the provision of education to individuals, families, groups, communities, and populations that encourages healthy behaviors and choices, prevention of disease, protection from preventable illness and disastrous emergencies.

Admission

Students who apply to UW and meet university requirements are admitted to the university in the pre-nursing component of RN-BSN (*declared PNBS*). Criteria for admission as well as application instructions can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, RN-BSN, Admission Criteria/ Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for BSN Completion. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, Wyoming's ReNEW or RN-BSN, BSN Completion Student Handbook - section 6, Scholastic Requirements*).

Curriculum

The minimum UW requirement to graduate with a BSN in 120 semester hours of credit. Evaluation of transfer courses is required to determine credit eligibility.

The required courses, PHCY3450 - Foundational Pathophysiology [4450], and PHCY4470 - Fundamentals of Pharmacology, must be upper division (3000/4000 level). Lower division/Community College (1000/2000 level) courses do not satisfy this requirement. Transfer courses must be reviewed for acceptability.

Program of Study

A detailed Program of Study for RN-BSN Entry can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, BSN, BSN Completion, RN-BSN, Program of Study for RN-BSN Entry*). All required courses identified under Related Coursework and Nursing Courses must be passed with a C or better (or S).

Physical Education Teacher Education K-12, B.S.

The Physical Education program is a nationally accredited program where students learn the content and teaching methods required to be certified to teach physical education K-12 in the public schools of Wyoming.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate. Many of these requirements are covered by the Physical Education Teacher Education K-12 major. All USP courses except the Communications II (USP-C2) and

Communications III (USP-C3) courses must be completed prior to admission into the Physical Education Teacher Education Program.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3 ENGL 1010 College Composition and Rhetoric
- COM2 - Communication 2 Credits: 3 KIN 3012 Teaching Laboratory I required by major
- COM3 - Communication 3 Credits: 3 KIN 4080 Assessment in Physical Education required by major
- Q- - Quantitative Reasoning Credits: 3 MATH 1400 College Algebra or MATH 1405 Trigonometry required by major
- PN- - Physical and Natural World (1) Credits: 3 CHEM 1000 Introductory Chemistry or CHEM 1020 General Chemistry I or PHYS 1050 Concepts of Physics or PHYS 1110 General Physics I required by major
- PN- - Physical and Natural World (2) Credits: 3 LIFE 1010 General Biology required by major
- H- - Human Culture (1) Credits: 3 PSYC 1000 General Psychology required by major
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Prerequisites for Admission

Prerequisites for admission into the Physical Education Teacher Education program:

- PSYC1000 - General Psychology Credits: 3 (Meets 3 out of 6 credits of Human Culture USP requirement)
- MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement)
OR MATH 1405 Trigonometry
- CHEM1000 - Introductory Chemistry Credits: 4 (Meets Physical and Natural World USP requirement)
OR CHEM 1020 - General Chemistry
- LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement)
- FCSC1141 - Principles of Nutrition Credits: 3
- HLED1006 - Personal Health Credits: 3
- KIN2000 - Movement Core I: Striking/Fielding and Invasion Games Credits: 2
- KIN2001 - Movement Core II: Net and Target Games Credits: 2
- KIN2003 - Move Core IV: Adv. & Otdr. Ed. Credits: 2
- KIN2004 - Move Core V: FMS & Ind. Act. Credits: 3
- KIN2005 - Movement Core VI: Physical Fitness and Physical Activity Credits: 2
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- PHYS1050 - Concepts of Physics Credits: 4
OR PHYS 1110 General Physics I
- STAT2050 - Fundamentals of Statistics Credits: 4
OR STAT 2070 Introductory Statistics for the Social Sciences
- ZOO3115 - Human Systems Physiology Credits: 4
- EDSE3540 - Teaching Reading and Study Strategies in the Content Areas Credits: 2-4

Required Courses After Admission

Required courses after admission into the professional program.

Consult with your academic advisor for the order in which these courses must be taken, or if you have any questions.

- KIN3011 - Teaching Methods in Physical Education K-12 Credits: 3
- KIN3012 - Teaching Laboratory I Credits: 3 (Meets USP Communication II requirement)
- KIN3015 - Teaching Laboratory II Credits: 3
- KIN3021 - Physiology of Exercise Credits: 3

- KIN3022 - Lab Exp in Exercise Physiology Credits: 1
- KIN3034 - Lifespan Motor Development Credits: 3
- KIN3037 - Sport Psychology Credits: 3
OR KIN 3038 Exercise Psychology
- KIN3042 - Biomechanics of Human Movement Credits: 3
- KIN3050 - Prevention and Care of Athletic Injuries Credits: 2
- KIN3060 - Understanding Skill Acquisition for Teaching Credits: 3
- KIN4012 - Curriculum Development in Physical Education Credits: 3
- KIN4013 - School Administration for the Health Sciences Credits: 2
- KIN4017 - Teaching Laboratory III Credits: 3
- KIN4055 - Adapted Physical Education Credits: 2
- KIN4080 - Assessment in Physical Education Credits: 3 (Meets USP Communication III requirement)
- KIN4099 - Student Teaching in Physical Education Credits: 1-16 ***

Note(s):

*** Note: Students must be certified in first aid and CPR prior to enrollment in KIN 4099.

Additional Requirements

Students must complete 48 credit hours of upper-division coursework (3000- or 4000-level courses) to meet the Division's requirement for the B.S. in Physical Education Teacher Education. For any elective coursework, it is recommended that these courses are selected from the Affiliated Options on this page.

In order to advance into the professional program, students must be admitted through a competitive application process. The entry course for admission to the Physical Education Teacher Education (PHET) program is KIN 3012, Teaching Lab 1. To be eligible for the PHET professional program, students must have completed all program course prerequisites and have a minimum cumulative grade point average of 2.750, preferred GPA of 3.000.

NOTE: Students should complete CPR certification and the certification should remain current throughout the program. Cards can be presented to the division registrar in Corbett 119 to be cleared of the requirement on the degree evaluation.

Affiliated Options

The Division of Kinesiology and Health offers two options for the general undergraduate population. They require course work beyond degree requirements.

Athletic Coaching Endorsement/Permit

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

- CPR Certification
- KIN3050 - Prevention and Care of Athletic Injuries Credits: 2
- Foundations of Coaching KIN 4090 /KIN 5090 - 3 Credit Hours
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

School Health Education K-12

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 25 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

- FCSC1141 - Principles of Nutrition Credits: 3
 - HLED1006 - Personal Health Credits: 3
 - CPR Certification
 - HLED4120 - Assessment in Health Credits: 3
 - HLED4025 - Teaching Sensitive Issues In Human Sexuality Credits: 3
 - HLED4110 - Teaching Health in Schools K-12 Credits: 3
 - HLED4130 - Management of Coordinated School Health Programs Credits: 3
- PSYC2210 - Drugs and Behavior Credits: 3
- OR**
- HLED4030 - Teaching About Alcohol and Substance Abuse Credits: 3

Adapted Physical Education K-12 Endorsement

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

- EDEX2484 - Introduction to Special Education Credits: 3
- KIN4055 - Adapted Physical Education Credits: 2
- KIN4065 - Resources in Adapted Physical Education Credits: 2-3
- KIN4075 - Assessment in Adapted Physical Education Credits: 3

Social Work, B.S.W.

Want to make a difference in the world? Turn your passion into action. Our BSW program combines classroom and field experience to provide you with knowledge and skills to help improve the quality of life of individual clients and impact communities.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Social Work major.

First Year Seminar (3 credits)

Communications I (3 credits)

ENGL 1010 College Composition and Rhetoric

Communications II (3 credits)

Quantitative Reasoning (3 credits)

MATH 1000 Problem Solving

Physical and Natural World (minimum 6 credits)

LIFE 1003 Current Issues in Biology (4 credits) strongly recommended (LIFE 1010 General Biology also acceptable)

Any other USP Physical & Natural World course (3-4 credits)

Prerequisites for Admission

Prerequisites for admission into the BSW program includes a C or higher in the following courses:

- SOC1000 - Sociological Principles Credits: 3 (Meets 3 out of 6 credits of Human Culture USP requirement)
- PSYC1000 - General Psychology Credits: 3 (Meets 3 out of 6 credits of Human Culture USP requirement)
- POLS1000 - American and Wyoming Government Credits: 3 (Meets U.S. & Wyoming Constitution USP requirement)
- SOWK2000 - Introduction to Social Work Credits: 3
- ECON1010 - Principles of Macroeconomics Credits: 3
- Human Biology. Credits: 3. (PSYC 2080: Biological Psychology or KIN 2040: Human Anatomy)*

*This requires a prerequisite general biology course, usually LIFE 1003: Current Issues in Biology.

Required courses after admission into the Social Work program

NOTE: Once admitted, social work students must achieve a C or better in all social work courses and maintain a 2.500 or above UW and SOWK GPA every semester after admittance to Admitted Major. Please view full requirements and expectations for admitted majors on the Division of Social Work catalog page.

- SOWK3530 - Human Behavior and the Social Environment I Credits: 3
- SOWK3630 - Generalist Social Work Practice I, Individual and Families Credits: 3
- SOWK3645 - Ethical Social Work Practice Credits: 3
- SOWK4060 - Diversity and Difference in Social Work Practice Credits: 3
- SOWK3540 - Human Behavior and Social Environment II Credits: 3
- SOWK3640 - Generalist Social Work Practice II, Groups Credits: 3
- SOWK3650 - Generalist Social Work Practice III; Communities and Organizations Credits: 3
- SOWK4850 - Human Rights, Social Justice and Social Policy Credits: 3
- SOWK4560 - Social Work Research Credits: 3
- SOWK4990 - Social Work Practicum Credits: 5-10 (5 credits each semester of final year). For full details of the BSW field practicum, view the Division of Social Work page.
- SOWK4991 - BSW Field Seminar I Credits: 2
- SOWK4570 - Research-Informed Practice Credits: 3 (Meets Communication III USP requirement)
- SOWK4992 - BSW Field Seminar II Credits: 2
- Social Work electives Credits: 6 (selected with advisor consultation)

Electives

General Electives (28-29 credits)

Degree must include 120 credits total, at least 42 of which must be upper-division credits. Total number of general elective credit needed may vary per student. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

Suggested lower-division electives:

Below are suggested lower-division electives that can be taken before admission into the BSW program. Consult with your academic advisor to determine the best electives for your particular interests or needs. It may be worthwhile to add a minor to your degree.

- SPAN1010 - First Year Spanish I Credits: 4
- SPAN1020 - First Year Spanish II Credits: 4
- RELI1000 - Introduction to Religion Credits: 3
- WIND2100 - Introduction to Disability Studies Credits: 3
- SOC2350 - Race and Ethnic Relations Credits: 3

Suggested upper-division electives:

- FCSC 3110 Personal Finance Credits: 3
- FCSC 4112 Family Decision-Making and Resource Management Credits: 3

Additional Requirements

Social work is a professional degree program. Prior to admission to the professional degree program, students who are working to complete program prerequisites and most University Studies courses are "Social Work-Pre-Admit" majors. Students must be accepted into the BSW program as an admitted "Social Work" major in order to proceed in the program and enroll in professional degree courses beginning in the fall semester (usually of the junior year). Acceptance to Admitted Major (professional degree program) is competitive and requires an application. See the Division of Social Work catalog page for full admission requirements.

The program requires 120 credit hours to graduate. Students must have completed all social work requirements, 42 upper-division hours, maintain a 2.500 GPA overall, a 2.500 GPA in social work coursework, and have achieved a grade of C or better in all social work courses. Courses must be taken for a letter grade unless offered for S/U only.

Speech, Language and Hearing Science, B.S.

Learn about working with people to improve their speech, language, and hearing. Study American Sign Language. This pre-professional degree is preparation for application to a graduate studies in speech-language pathology, audiology, or other areas.

USP - University Studies Program Requirements

The following University Studies Program requirements are required to graduate and are not covered by the Speech, Language and Hearing Science major:

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3 ENGL 1010 - College Composition and Rhetoric
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- V- - U.S. & WY Constitution Credits: 3
- H- - Human Culture (1) Credits: 3 Any USP-H course (not SPPA)

Courses required for major

- PSYC1000 - General Psychology Credits: 3 (Meets 3 out of 6 credits of Human Culture USP requirement)
- MATH1400 - College Algebra Credits: 3 (Meets Quantitative USP requirement)
- LIFE1010 - General Biology Credits: 4 (Meets Physical and Natural World USP requirement)
- PHYS1050 - Concepts of Physics Credits: 4 (Meets Physical and Natural World USP requirement)
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- FCSC2121 - Child Development Credits: 4

- STAT2050 - Fundamentals of Statistics Credits: 4
- SPPA1010 - Introduction to Communication Disorders Credits: 3
- SPPA2110 - American Sign Language I Credits: 4
- SPPA2120 - American Sign Language II Credits: 4
- SPPA2210 - Phonetics Credits: 3
- SPPA3160 - Speech and Language Development Credits: 4
- SPPA3265 - Anatomy and Physiology of Speech, Swallowing and Hearing Credits: 4
- SPPA4240 - Speech and Language Disorders Across the Lifespan Credits: 3
- SPPA4340 - Basic Audiology Credits: 3
- SPPA4150 - Aural Rehabilitation Credits: 3
- SPPA4250 - Clinical Methods Credits: 4
- SPPA4380 - Neurological Basis of Communication Credits: 3

Notes:

A grade of C or better must be earned in all SPPA courses; courses in the major must be taken for a letter grade unless offered for S/U only. Also note that speech, language, and hearing topic courses from community colleges do not transfer or count as course equivalents.

Elective Courses

Upper-Division Social Behavior Credits (choose one)

Choose one from the list below (students are responsible for knowing prerequisites for these courses).

- CNSL4520 - Fundamentals of Counseling (B) Credits: 3
- PSYC4310 - Developmental Psychopathology Credits: 3
- PSYC4320 - Intellectual Disability Credits: 3

Electives

Lower division (1/2000) open electives (student choice - any course that does not meet another university or major requirement):
24 credits

Upper division (3/4000) open elective (student choice - any course that does not meet another university or major requirement):
12 credits

Additional Information

The BS degree prepares students for graduate study in communication disorders disciplines. Students study the normal processes associated with understanding and producing speech and language. These include anatomy, physiology, and neurology. Students also learn about normal development of speech and language in children, and they are introduced to disorders and clinical methods. Courses in related areas, such as anatomy, psychology, child development, statistics, and linguistics are also part of the program. Students obtain initial clinical experiences through observing clinical practice in the UW Speech & Hearing Clinic as part of coursework.

The B.S. degree is considered pre-professional preparation for entrance into a graduate program in speech-language pathology, audiology, or related fields. A clinical graduate degree is required in order to become a speech-language pathologist or an

audiologist. The B.S. degree at UW is not designed to meet requirements to become a speech-language pathology assistant (SLP-A), additional practicum and some coursework at another institution would be required to become an SLP-A. For information on SLP-A technical programs please visit ASHA.org.

Student Learning Objectives

The BS degree provides students with a broad-based foundation in the sciences and humanities, fundamental knowledge of human communication, communication development, and the nature of communication disorders across the lifespan. Specific learning objectives can be found on the BS program website. <http://www.uwyo.edu/comdis/undergraduate/bachelors-of-speech-language-and-hearing-science.html>

Criminal Background Check

Eligibility for the B.S. degree is contingent upon passing a criminal background check. Usually during the senior year, each student will be required to obtain, pay for, and pass a criminal background check as part of enrollment in advanced courses. These background checks are required in order to participate in any aspect of the UW Speech & Hearing Clinic. The results of the background check may impact a student's ability to complete the required coursework and obtain the degree. Please see the College of Health Sciences website for the policy and procedures document.

National Student Speech Language Hearing Association

Students can join the UW chapter of the National Student Speech Language Hearing Association (NSSLHA) to become a part of a community of students interested in communication sciences and disorders. Objectives are to promote and recognize scholastic achievement and to support clinical, research, and service endeavors.

Minor

Disability Studies Minor

A diverse interdisciplinary field that investigates the nature, meanings, and consequences of dis/ability from social, cultural, and policy perspectives.

Program Goals:

Disability studies views disability as a political construction, cultural identity, and valued lived experience, not simply as a medical condition. The minor curriculum embeds these overarching goals:

- Promoting full civic integration of people with disabilities;
- Positioning disability as an integral aspect of human diversity; and
- Addressing disability rights, equity, and justice in personal, relational, community, and structural contexts.

Requirements:

All students in the minor are required to complete 18 credit hours consisting of three WIND core courses, one WIND elective, and two additional WIND or external electives related to disability studies. External electives should be selected in consultation with a disability studies faculty advisor.

Required Core Courses: 9 Credits

- WIND2100 - Introduction to Disability Studies Credits: 3
- WIND4020 - Disability Studies Theory and Practice Credits: 3
- WIND4500 - Practicum Credits: 3

WIND Electives: 3-9 Credits

At least 3 credits, and up to 9 credits, selected from WIND electives:

- WIND2500 - Special Topics Credits: 1-3
- WIND2700 - Gender and Disability Credits: 3
- WIND3150 - Literature and Medicine Credits: 3
- WIND4050 - Independent Study Credits: 1-3
- WIND4100 - Global Disability Studies Credits: 3
- WIND4200 - Diverse Minds Credits: 3
- WIND4600 - Special Topics Credits: 3

External Electives: 0-6 Credits

The following UW courses are accepted as external electives:

- SPPA2110 - American Sign Language I Credits: 4
- SPPA2120 - American Sign Language II Credits: 4
- EDEX2484 - Introduction to Special Education Credits: 3
- SPPA4070 - Deaf Studies Credits: 3
- FCSC4124 - Families of Young Children With Special Needs Credits: 3
- PSYC4320 - Intellectual Disability Credits: 3
- Note: many courses in GWST, AMST, and other units in the School of Culture, Gender, and Social Justice would also be acceptable external electives.

More Information:

As an interdisciplinary minor, this program complements majors across the university. For more information, visit the website: www.uwyo.edu/wind/disabilitystudies/index.html, contact program director, Michelle Jarman at mjarman@uwyo.edu or by phone at 766-5060, or visit the WIND office located in the Health Sciences Building, room 147.

18 Credit Hours Total

Graduate

Doctor of Pharmacy, MBA/PharmD Dual Degree

This dual degree program provides students with a complementary business degree to start their own business or to advance into management positions in their careers. Students acquire decision-making skills that allow them to excel in their field of practice.

Additional Requirements

The School of Pharmacy offers an MBA/Pharm.D. dual degree program that is geared toward students who have already obtained a Bachelor's degree. A dual M.B.A./Pharm.D. degree allows a student to diversify their skill set and enhance their value proposition to prospective employers.

The Doctor of Pharmacy/Master of Business Administration dual degree takes five years to complete - four years of Pharmacy studies and one year of MBA core courses. Students spend their first year (Fall, Spring, and Summer semesters) in the MBA program taking core courses and completing other program requirements. The next four years will encompass the traditional Pharm.D. curriculum. Students completing this program will earn a Doctor of Pharmacy degree and a Master of Business Administration degree. Please review the program specific information for each program:

- Business Administration, M.B.A.
- Pharmacy, Pharm.D.
- MBAM5101 - MBA Foundations Credits: 1
- MBAM5102 - Operations Management Credits: 3
- MBAM5104 - Organization Behavior and Human Resource Management Credits: 3
- MBAM5107 - Decision Making I Credits: 1
- MBAM5202 - Data and Decision Modeling Credits: 3
- MBAM5204 - Financial Management Credits: 3
- MBAM5207 - Marketing Management Credits: 3
- MBAM5208 - Managerial Accounting Credits: 3
- MBAM5209 - Decision Making II Credits: 1
- MBAM5305 - Strategic Management Credits: 3
- MBAM5330 - Global Business Environment Credits: 3

MBA-MBA students, including dual degree students, must take an additional nine (9) credit hours of 4000 or 5000 level College of Business courses. Three (3) of these credit hours can be taken outside of the College of Business. Dual degree students (JD/PharmD/MS) may take three (3) credit hours outside the College of Business following dual degree agreement guidelines. Please contact your advisor for additional information.

Health Services Administration, M.S.

The School of Pharmacy offers a Master of Science online degree in health services administration (MSHSA).

Specialty Tracks

All students select one specialty track.

Biopharmaceutical Regulatory Compliance Group Specialty Listings

Specialty Tracks through the Biopharmaceutical Regulatory Compliance Group

- o Biopharmaceutical Regulatory Compliance
- o Healthcare Risk Management
- o Forensic Pharmacy
- o Healthcare Policy Analysis
- o Biopharmaceutical Product Representation
- o Clinical Research Administration
- o Patient Safety Systems
- o Healthcare Security Systems
- o Healthcare Ethics & Equity

- o Healthcare Writing and Reporting

Biopharmaceutical Regulatory Compliance Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks.

- PHCY5040 - The Evolution of American Health Credits: 2
 - PHCY5042 - Statistics for Health Services Credits: 3
 - PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
 - PHCY5045 - Health Services Administration Applied Research Credits: 1-4
 - PHCY5046 - Health Services Administration Seminar1 Credits: 1
 - PHCY5041 - Health Services Administration Research Methods Credits: 2
- Sub-Total Program Required Coursework: 15 credit hours

Biopharmaceutical Regulation & Compliance Track

The following tables provides a list of required courses for the track listed

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
 - PHCY5242 - The Food and Drug Administration Credits: 2
 - PHCY5243 - The Drug Enforcement Administration Credits: 2
 - PHCY5244 - State Regulations of Health Professions Credits: 2
- Specialty Track Electives (choose 6 hours)

Healthcare Risk Management Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
 - PHCY5342 - Healthcare Risk and Quality Credits: 3
 - PHCY5670 - Medication Malpractice Credits: 2
 - PHCY5240 - Pharmaceutical Homicide Credits: 2
- Specialty Track Electives (Choose 6 hours)

Forensic Pharmacy Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5240 - Pharmaceutical Homicide Credits: 2
 - PHCY 5XXX The Chemistry of Poisonings 2 Credits
 - PHCY 5XXX Thr Process of Forensic Science 2 Credits
- Specialty Track Electives (choose 6 hours)

Healthcare Policy Analysis Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5047 - Pandemic Preparedness Policy Credits: 2
- PHCY5148 - Health Economics and Policy Credits: 2
- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5246 - Prescription Drug Costs Credits: 2

Biopharmaceutical Product Representation Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- Specialty Track Electives (choose 6 hours)

Clinical Research Administration Track

Specialty Track Required Coursework (10 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5242 - The Food and Drug Administration Credits: 2
 - PHCY 5XXX Biomedical Ethics 3 Credits
 - PHCY 5XXX Clinical Research Regulation 2 Credits
- Specialty Track Electives (choose 5 hours from list)

Patient Safety Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- Specialty Track Electives (choose 6 hours)

Healthcare Security Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
 - PHCY 5XXX Cybersecurity 2 Credits
 - PHCY 5XXX HIPPA Compliance 2 Credits
 - PHCY 5XXX Disaster Management 2 Credits
 - Specialty Track Electives (choose 6 hours)

Healthcare Ethics & Equity Track

Specialty Track Required Coursework (10 Credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
 - PHCY 5XXX Biomedical Ethics 3 Credits
 - PHCY 5XXX HIPAA Compliance 2 Credits
 - PHCY 5XXX Clinical Research Regulation 2 Credits
 - Specialty Track Electives (choose 5 hours)

Health Institution Leadership Group

MS-HSA Curriculum

The following table provides a list of the core courses required for all tracks

- PHCY5040 - The Evolution of American Health Credits: 2
 - PHCY5041 - Health Services Administration Research Methods Credits: 2
 - PHCY5042 - Statistics for Health Services Credits: 3
 - PHCY5043 - Empirical Analysis for Health Services Administration Credits: 3
 - PHCY5045 - Health Services Administration Applied Research Credits: 1-4
 - PHCY5046 - Health Services Administration Seminar1 Credits: 1
- Sub-Total Program Required Coursework: 15 Hours

Health Institution Leadership Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
 - PHCY5442 - Healthcare Financial Planning Credits: 2
 - PHCY5443 - Healthcare Human Capital Plan Credits: 2
 - PHCY5444 - Healthcare Strategic Innovation Credits: 2
- Specialty Track Electives (choose 6 hours)

Health Economics and Outcomes

Specialty Track Required Coursework (10 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5142 - Health Economic Decision Analysis Credits: 2
- PHCY5143 - Comparative Effectiveness Research Credits: 2

- PHCY5441 - Introduction to Health Leadership Credits: 3
Specialty Track Electives (Choose 5 hours)

Healthcare Quality & Outcomes Track

Specialty Track Required Coursework (8 credit hours)

- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5342 - Healthcare Risk and Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
Specialty Track Electives (choose 7 hours)

Rural Healthcare Coordination Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
Specialty Track Electives (choose 6 hours)

Geriatric Care Systems Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5341 - Principles of Healthcare Quality Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
Specialty Track Electives (choose 6 hours)

Healthcare Entrepreneurism Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5241 - Principles for Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
Specialty Track Electives (choose 6 hours)

Healthcare Financing Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5141 - Principles of Health Econ and Outcomes Credits: 3
- PHCY5441 - Introduction to Health Leadership Credits: 3
- PHCY5541 - Introduction to Biopharmaceutical Marketing and Production Credits: 3
Specialty Track Electives (choose 6 hours)

Health Information Technology Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
 - PHCY 5XXX Information Design and Analysis 2 Credits
 - PHCY 5XXX Healthcare Information Systems 2 Credits
 - PHCY 5XXX Information Management 2 Credits
 - Specialty Track Electives (choose 6 hours from list)

Healthcare Writing & Reporting Track

Specialty Track Required Coursework (9 credit hours)

- PHCY5441 - Introduction to Health Leadership Credits: 3
 - PHCY 5XXX Professional Writing in Healthcare 2 Credits
 - PHCY 5XXX Health Data in Figures, Tables & Graphs 2 Credits
 - PHCY 5XXX The Healthcare Message 2 Credits
 - Specialty Track Electives (choose 6 hours)

Additional Notes

NOTE: Specialty track electives can be any course provided in the MSHSA program.

Please consult with the program director if you have questions on the electives to choose for a specific track.

Those course numbers with PHCYXXXX are currently being built or waiting on approval from the University. Please contact the MS HSA program for questions.

Additional Requirements

This degree is geared toward new and mid-career practitioners including pharmacists, nurses, physicians, social workers, and other health care professionals who want to become department directors, patient safety coordinators and/or directors, regulatory compliance officers, clinical research associates, health outcomes researchers or take on leadership roles as advanced practice practitioners.

The program also benefits health care workers in fields such as management positions, pharmaceutical sales representatives, medical science liaisons, and pharmacy technician educators as well as new clinical faculty at newly established pharmacy colleges.

Available nationwide the master's program is delivered via a mix of online self-study and online project-based coursework.

The program can be completed in two years of part-time study. Students are requested to travel to the UW Laramie campus for two weekend seminars during the two-year program (based on travel restrictions during the pandemic this course was held online). Graduates will be expected to complete 30 credit hours of coursework and pass a comprehensive final exam. Coursework will be completed over five consecutive semesters however students can take up to 6 years to complete the program.

A prospective student should have earned at least a bachelor's degree from a regionally accredited institution. To find out more about the application process please see the following website www.uwyo.edu/pharmacy/online-ms-program or contact the Student Services Office.

Kinesiology and Health Distance Education, M.S.

Master of Science Distance Education Program is designed for teachers, coaches, and other health professionals to fit into their busy schedules. Students can complete the Master of Science degree via synchronous or online modalities in a three, four, or five year period of time.

Plan B (Paper)

General Information

Teachers of health and physical education typically teach throughout the day and coach during the evenings and weekends. Therefore, traditional on campus Master's degree programs that require students to attend the University of Wyoming in Laramie are often simply impossible for teachers and other health professionals to fit into their busy schedule.

The Division of Kinesiology and Health offers the Master of Science degree in Kinesiology and Health as an off-campus, distance education program. All courses are delivered via synchronous or online modalities. The distance education program is designed such that you can complete the Master of Science degree in a three, four, or five year period of time.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 (Internship). At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (9 Credits)

¹ May substitute EDRE 5530

- KIN5080 - Investigations in Kinesiology and Health Credits: 1-3 (3 credits required)
- KIN5085 - Research Methods Credits: 3 ¹

- EDRE5600 - Introduction to Quantitative Research Credits: 3
- **OR**
- EDRE5640 - Introduction to Qualitative Research Credits: 3

Kinesiology and Health Electives (15 Credits)

12 credits selected from the following KIN courses:

- KIN5011 - Teacher Socialization in PE Credits: 3
- KIN5014 - Teaching Tactics in Sport-Based Physical Education Credits: 3
- KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education Credits: 3
- KIN5018 - Psychology of Teaching Physical Education Credits: 3
- KIN 5019 - Instructional Models for Physical Education Credits: 3
- KIN5090 - Foundations of Coaching Credits: 3

Elective Courses (6 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900 /KIN 5900) or KIN 5990 - Internship may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Exercise and Sport Science Emphasis, M.S.

Master of Science with Emphasis in Exercise and Sport Science is designed for students who want to pursue doctoral degrees and careers in exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.

Plan A (Thesis)

The Plan A option of the Master of Science degree in ESS is designed to prepare students for careers in one of the subdisciplines (e.g., exercise physiology, biomechanics, exercise and sport psychology, motor learning and control, physical activity and lifespan development, etc.).

All students complete a series of general required courses and a concentration of courses in their specific ESS subdiscipline. The ESS area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0
- KIN5085 - Research Methods Credits: 3
- KIN5960 - Thesis Research Credits: 1-12 (4 credits required)
- STAT5050 - Statistical Methods for the Biological Science Credits: 3 ¹

Specialized Required Courses (9-15 Credits)

Area of specialization will include three to five courses (9-15 hours) within the student's chosen ESS subdiscipline. Your advisor will identify courses to be taken specific to the selected area of emphasis.

Elective Courses (Minimum 6 Credits)

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (KIN 5900) or Internship (KIN 5990) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Health Emphasis, M.S.

Master of Science with Emphasis in Health is designed to prepare students for careers in public and community health settings.

Plan A (Thesis)

The Plan A option of the Master of Science degree in the area of HLED is designed to prepare students for careers in public and community health settings. All students complete a series of general required courses and a concentration of courses in the area of HLED.

The HLED area of emphasis involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-one (21) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070 or STAT 5080 ,EDRE 5640 or EDRE 5660. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0
- KIN5085 - Research Methods Credits: 3
- KIN5960 - Thesis Research Credits: 1-12 (4 credits required)
- STAT5050 - Statistical Methods for the Biological Science Credits: 3 ¹

Specialized Required Courses (9-15 Credits)

Coursework will include three to five courses (9-15 hours). Your advisor will identify courses to be taken.

Elective Courses (Minimum 6 Credits)

Students are encouraged to complete at least one of their elective course selections from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 21 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, M.S.

Master of Science, Plan B, is designed for students who are seeking a terminal degree in Kinesiology and Health. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree.

Plan B (Paper and Experiential Learning Option)

The Plan B option of the Master of Science degree in Kinesiology and Health is designed to prepare students who are seeking a terminal degree. This option is not designed for students seeking to pursue a doctoral degree at the completion of the Master of Science degree in Kinesiology and Health.

This program involves a minimum of thirty (30) total credit hours of coursework and a culminating paper or case study presentation (experiential learning option) that is developed on a topic selected by the student in conjunction with her or his graduate faculty advisor. The process for composing the culminating paper or case study includes the development of a prospectus and final presentation of the paper or case study. Students who elect the experiential learning option will also be required to complete three (3) credits of KIN 5990 - Internship . At least twenty-four (24) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the nine (9) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080 , EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0
- KIN5080 - Investigations in Kinesiology and Health Credits: 1-3 (3 credits required)
- KIN5085 - Research Methods Credits: 3
- STAT5050 - Statistical Methods for the Biological Science Credits: 3 ¹

Elective Kinesiology and Health Courses (Minimum of 15 Credits)

Elective Courses (Minimum of 6 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Investigation in Kinesiology and Health: Maximum of 3 credit hours of Investigation in Kinesiology and Health (KIN 5080) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Thesis Research: No credit hours of Thesis Research (KIN 5960) may contribute to the Plan B Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097 /KIN 5097) or Special Problems (HLED 5587/KIN 5587) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of Practicum in College Teaching (HLED 5900 /KIN 5900) or KIN 5990 - Internship may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 24 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Kinesiology and Health, Physical Education Teacher Education Emphasis, M.S.

Master of Science with Emphasis in Physical Education Teacher Education is designed for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

Plan A (Thesis)

The Plan A option of the Master of Science degree in the area of PETE is for teachers who have attained their licensure for teaching physical education and want to pursue an advanced degree to further develop their professional knowledge of teaching.

The PETE program of studies involves a minimum of thirty (30) total credit hours of coursework, a thesis, and a final oral examination. At least twenty-five (25) credit hours of coursework is required from the Division of Kinesiology and Health (i.e., HLED and KIN courses), which includes the ten (10) hours of general required courses.

General Required Courses (10 Credits)

¹ May substitute STAT 5060, STAT 5070, STAT 5080; or EDRE 5600 or EDRE 5640. Decision made in conjunction with the advisor.

- Two semesters of KIN 5588 - Kinesiology and Health Intellectual Seminar Credits: 0
- KIN5085 - Research Methods Credits: 3 or EDRE 5530 - Introduction To Research Credits: 3.
- KIN5960 - Thesis Research Credits: 1-12 (4 credits required)
- STAT5050 - Statistical Methods for the Biological Science Credits: 3 or EDRE 5550 - Action Research Credits: 3. ¹

Specialized Required Courses

(12 Credits Selected from The Following KIN Courses)

- KIN5011 - Teacher Socialization in PE Credits: 3
- KIN5014 - Teaching Tactics in Sport-Based Physical Education Credits: 3
- KIN5016 - Analysis and Supervision of Teaching in Physical and Health Education Credits: 3
- KIN5018 - Psychology of Teaching Physical Education Credits: 3
- KIN 5019 - Instructional Models for Physical Education Credits: 3
- KIN5090 - Foundations of Coaching Credits: 3

Elective Courses (Minimum 8 Credits)

Students are encouraged to complete at least one course from outside the Division of Kinesiology and Health. All elective course decisions must be made in conjunction with your advisor.

Contributions of Coursework to M.S. Degree Program

- Thesis Research: Maximum of 4 credit hours of Thesis Research (KIN 5960) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Investigations in Kinesiology and Health: No credit hours of Investigations in Kinesiology and Health (KIN 5080) may contribute to the Plan A (Thesis) Degree Program.
- Independent Study Coursework: Maximum of 3-credit hours of Individual Problems (HLED 5097/KIN 5097) or Special Problems (HLED 5587/HLED 5587) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- Practicum/Internship Coursework: Maximum of 3-credit hours of KIN 5900 - Practicum in College Teaching or KIN 5990 - Internship may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.
- 4000 Level Coursework: Maximum of two 4000 level courses (3 or 4 credit hours each) may contribute to the 25 credit hours from the Division of Kinesiology and Health and the 30 total credit hours.

Nursing, D.N.P., Family Nurse Practitioner Concentration

The Family Nurse Practitioner (FMN) concentration prepares advanced practice nurses to provide primary health care to diverse individuals and their families in a variety of outpatient settings, especially rural settings.

DNP Core Courses

- NURS5140 - Pharmacotherapy for Primary Care Credits: 4
- NURS5165 - DNP: Adv Pathophysiology Credits: 2
- NURS5601 - Theoretical Foundations Advanced Practice Nursing Credits: 3
- NURS5602 - Advanced Nursing Leadership Credits: 3
- NURS5603 - Evidence-Based Practice for Advanced Nursing Credits: 3
- NURS5604 - Population and Health Policies Credits: 3
- NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice Credits: 3
- NURS5820 - Health Behavior Change I: Primary Prevention and Wellness Credits: 3
- NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners Credits: 2
- NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention Credits: 3
- NURS5865 - DNP Seminar Credits: 1
- NURS5866 - DNP Seminar II Credits: 1
- NURS5891 - DNP Project I Credits: 3

- NURS5892 - DNP Project II Credits: 3
- NURS5893 - DNP Project III Credits: 1
- NURS5894 - DNP Project IV Credits: 2

Family Nurse Practitioner Specialty Courses

- NURS5825 - Advanced Health Assessment and Clinical Decision-Making for Family Nurse Practitioners Credits: 4
- NURS5827 - Skills for Family NP Credits: 3
- NURS5871 - Wellness for Adults in Primary Care Credits: 3
- NURS5872 - Practicum for Wellness in Primary Care Credits: 3
- NURS5873 - Primary Care for Children, Adolescents, and Families Credits: 3
- NURS5874 - Practicum for Primary Care for Children, Adolescents, and Families Credits: 3
- NURS5875 - Primary Care for Acute & Chronically Ill Adults Credits: 3
- NURS5876 - Practicum for Primary Care for Acute & Chronically Ill Adults Credits: 3
- NURS5877 - Primary Care for Acute & Chronically Ill Adults II Credits: 3

Additional Requirements

Expected Student Learning Outcomes

Graduates will:

- engage in evidence-based practice to optimize health outcomes; and
- engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rural/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the DNP Program by the application deadline to be considered for fall admission (*the entire DNP application process is completed online*). The applicant is responsible to make certain that UW is in receipt of all application materials/ fees. The number of students admitted is limited. Admission is a competitive process and applicants meeting minimum requirements are not guaranteed admission to the program. Admission to the university does not guarantee admission to the DNP program in the School of Nursing.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, Admission Criteria & Application*).

Scholastic Requirements

University and College of Health Sciences policies governing scholastic requirements (e.g. major changes, probation and dismissal) apply to students enrolled in the School of Nursing. In addition to university/college requirements, the School of Nursing has further scholastic requirements for the DNP Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP Program Student Handbook - section 6 Scholastic Requirements*).

Curriculum

All DNP students, regardless of concentration will take a set of core courses. In addition to the core courses a group of specialty courses are required for each NP concentration. Students earning the DNP degree will complete a final scholarly project which is integrated into the FMY and PSH curricula.

The DNP core and clinical courses will be delivered using a combination of online courses; synchronous video web-conferencing, and hybrid courses with periodic intensive on-campus experiences. Clinical placements will be arranged at health care facilities in Wyoming, north central Colorado, or southern Montana.

Program of Study

A detailed, semester sequenced DNP-FMY Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, DNP, DNP-FMY Program of Study*).

Nursing, D.N.P., Psychiatric Mental Health Nurse Practitioner Concentration

The Psychiatric Mental Health Nurse Practitioner (PSH) concentration prepares advanced practice nurses to provide a full range of psychiatric care. Graduates are prepared to assess, diagnose, and manage, to include prescribing psychotropic medications, for people with chronic and acute psychiatric disorders.

DNP Core Courses

- NURS5140 - Pharmacotherapy for Primary Care Credits: 4
- NURS5165 - DNP: Adv Pathophysiology Credits: 2
- NURS5601 - Theoretical Foundations Advanced Practice Nursing Credits: 3
- NURS5602 - Advanced Nursing Leadership Credits: 3
- NURS5603 - Evidence-Based Practice for Advanced Nursing Credits: 3
- NURS5604 - Population and Health Policies Credits: 3
- NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice Credits: 3

- NURS5820 - Health Behavior Change I: Primary Prevention and Wellness Credits: 3
- NURS5824 - Advanced Health Assessment and Clinical Decision-Making for Nurse Practitioners Credits: 2
- NURS5830 - Health Behavior Change II: Behavioral Skills for Secondary and Tertiary Prevention Credits: 3
- NURS5865 - DNP Seminar Credits: 1
- NURS5866 - DNP Seminar II Credits: 1
- NURS5891 - DNP Project I Credits: 3
- NURS5892 - DNP Project II Credits: 3
- NURS5893 - DNP Project III Credits: 1
- NURS5894 - DNP Project IV Credits: 2

Psychiatric Mental Health Nurse Practitioner Specialty Courses

- NURS5826 - Advanced Health Assessment for Psych NPs Credits: 2
- NURS5828 - Skills for Psych NP Credits: 2
- NURS5862 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP I Credits: 5
- NURS5863 - Practicum: Diagnosis and Management of the Psychiatric Client for the PMHNP II Credits: 5
- NURS5864 - Final PSH Practicum Credits: 6
- NURS5880 - Neurobiology & Psychopharm Credits: 3
- NURS5881 - Psychotherapy Models and Theories for Advanced Practice Mental Health Nursing Credits: 3
- NURS5882 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Adult, Older Adult, and Vulnerable Populations Credits: 4
- NURS5883 - Advanced Psychiatric Mental Health Nursing Diagnosis and Management for the Child and Adolescent Credits: 4

Additional Requirements

Expected Student Learning Outcomes

Graduates will:

- engage in evidence-based practice to optimize health outcomes;
- engage in leadership activities to promote excellence in rural health care.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- **Clinical Scholarship**

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Nursing, M.S., Nurse Educator/Nurse Leader Concentrations

The MS program is a part-time, online degree open to registered nurses with a minimum of a baccalaureate degree in nursing from a program nationally accredited by CCNE or NLNAC. The MS program has two concentrations: 1) Nurse Educator (NE) and 2) Nurse Leader (NL).

MS Core Courses

- NURS5472 - Integrated Advanced Pathophysiology, Pharmacology, and Assessment Credits: 3
- NURS5473 - Advancing Healthcare Transform Credits: 2
- NURS5483 - Practicum: Rural Healthcare Leadership Credits: 3
- NURS5601 - Theoretical Foundations Advanced Practice Nursing Credits: 3
- NURS5602 - Advanced Nursing Leadership Credits: 3
- NURS5603 - Evidence-Based Practice for Advanced Nursing Credits: 3
- NURS5604 - Population and Health Policies Credits: 3
- NURS5605 - Informatics and Quality Improvement for Advanced Nursing Practice Credits: 3

Nurse Educator Specialty Courses

- NURS5452 - Curriculum Development Credits: 3
- NURS5462 - Teaching Methodologies and Evaluation Credits: 3

Nurse Leader Specialty Courses

- NURS5420 - Leadership Within Health Care Systems Credits: 3
- NURS5461 - Business of Healthcare Credits: 3

Additional Requirements

Expected Student Learning Outcomes

M.S. Graduate are prepared to ensure better care, better health, and lower costs through their knowledge, skills, and abilities to:

- Demonstrate competence and caring in the advanced professional nurse role to serve Wyoming, the region, and the world in urban, rural, and frontier health care settings as a provider, leader, and/or educator in the health care system.
- Transform rural health through leadership, service, and clinical scholarship that reflects an interconnected and comprehensive global health perspective.
- Demonstrate an advanced understanding of nursing and other sciences and humanities and integrates this knowledge to manage and improve health care across settings
- Synthesize broad organizational, financial, economic, client-centered, and culturally appropriate concepts from nursing and other sciences to address population health.
- Engage in scholarly inquiry and evidence-based practice to lead change for quality outcomes and implement safe health care to diverse populations in a variety of settings.

Core Concepts:

- Transformation:

Transformation includes learning, education, leadership, and nursing as a whole; engaging creativity with theory and evidence-based practice to result in critical reflection and cognitive flexibility.

- Rurality/Frontier

Practice in a low population area where resources and/or access to care are limited and be able to innovate accordingly.

- Service

Providing advanced practice nursing care and services to individuals, families, groups, communities, and populations includes altruism, leadership, decision-making, cooperation, education, listening, problem-solving, person-centered care, fidelity, advocacy, ethical behavior, and practice.

- Comprehensive Global healthcare system perspective

An interconnected and comprehensive global health care system perspective incorporating the following attributes: advocacy, altruism, creativity, ethical conduct, effective communication skills, leadership, problem-solving skills, professionalism, and scholarship.

- Clinical Scholarship

Activities that systematically advance nursing science, including its teaching, research, and practice through rigorous inquiry that 1) is significant to the profession, 2) is creative, 3) can be documented, 4) can be replicated or elaborated, and 5) can be peer-reviewed through various methods and includes discovery, teaching, practice, and integration.

Admission

The University of Wyoming must receive complete application materials for the MS Program by the application deadline to be considered for fall admission (*the entire MS application process is completed online*). The applicant is responsible to make certain that UW is in receipt of all application materials/fees.

Criteria for admission as well as application instructions and deadlines can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, MS, Admission Criteria/Application*).

Scholastic Requirements

In addition to university/college requirements, the School of Nursing has further scholastic requirements for the MS Program. These requirements can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, MS, MS Program Student Handbook - section 6 Scholastic Requirements*).

Curriculum

All MS students, regardless of concentration will take a set of core courses. In addition to the core courses, a group of specialty courses are required for each MS concentration.

Program of Study

A detailed, semester sequenced MS Program of Study can be found on the nursing website: www.uwyo.edu/nursing (*click on Nursing Programs, MS, MS Program of Study*).

Pharmacy, Pharm.D.

The School of Pharmacy offers only the four-year curriculum leading to the Doctor of Pharmacy (Pharm.D.) degree. Students admitted to the professional pharmacy program follow a four year program of study leading to the Doctor of Pharmacy Degree. Students complete a total of 146 hours.

In order to keep abreast with changes in pharmaceutical education, the following curriculum is subject to change or modification as required by the accrediting agency. Students should be aware that changes must be expected and they will be included in their academic program. The School of Pharmacy does not plan to change graduation requirements inadvertently, but does reserve the right to change any provisions or requirement deemed necessary at any time within the student's term of residence.

Required Curriculum

- ZOO4125 - Integrative Physiology Credits: 5
- PHCY6100 - Dose Form Design Credits: 4
- PHCY6106 - Pharmaceutical Calculations Credits: 2
- PHCY6110 - Medicinal and Natural Products Chemistry I Credits: 3
- PHCY6140 - Introduction to Social Administrative Pharmacy Credits: 2
- PHCY6160 - Pharmacist Skills I Credits: 1
- PHCY6102 - Biopharmaceutics and Pharmacokinetics Credits: 4
- PHCY6111 - Medicinal and Natural Products Chemistry II Credits: 3
- PHCY6120 - Advanced Pathophysiology Credits: 3
- PHCY6151 - Pharmacy Practice Credits: 2
- PHCY6152 - Therapeutics I Credits: 3
- PHCY6161 - Pharmacist Skills II Credits: 1
- PHCY6170 - Introductory Pharmacy Practice Experience-IPPE1 Credits: 1
- PHCY6480 - Introduction to Community Pharmacy Practice Credits: 4
- PHCY6482 - Introduction to Hospital Pharmacy Practice Credits: 4
- PHCY6215 - Medicinal and Natural Products Chemistry III Credits: 3
- PHCY6230 - Pharmacology I Credits: 4
- PHCY 6230 - Pharmacology I Discussion Credits: 0
- PHCY6240 - Research and Evaluation Methods in Pharmacy Credits: 3
- PHCY6245 - Patient/Professional Interactions Credits: 3
- PHCY6260 - Pharmacist Skills III Credits: 1
- PHCY6231 - Pharmacology II Credits: 4
- PHCY 6231 - Pharmacology II Discussion Credits: 0
- PHCY6246 - Pharmacy Management, Marketing and Finance Credits: 3
- PHCY6251 - Therapeutics II Credits: 3
- PHCY6261 - Pharmacist Skills IV Credits: 2
- PHCY6270 - Intermediate Pharmacy Practice Experience-IPPE2 Credits: 1
- PHCY6312 - Clinical Toxicology Credits: 3
- PHCY6341 - Pharmacy Practice Law Credits: 3
- PHCY6344 - Pharmacy Ethics Credits: 1
- PHCY6350 - Therapeutics III Credits: 4
- PHCY6357 - Clinical Pharmacokinetics Credits: 2
- PHCY6360 - Pharmacist Skills V Credits: 1
- PHCY6300 - Sterile Products Credits: 2
- PHCY6301 - Sterile Products Laboratory Credits: 1
- PHCY6340 - Health Care Policy and Advocacy Credits: 2
- PHCY6351 - Therapeutics IV Credits: 4
- PHCY6353 - Drug Literature Application Credits: 2
- PHCY6361 - Pharmacist Skills VI Credits: 2
- PHCY6370 - Advanced Pharmacy Practice Experience-IPPE3 Credits: 2
- PHCY6485 - Reflective Learning in Pharmacy Credits: 1
Students complete 3 sections of PHCY 6485, 1 credit each.
- PHCY6470 - Internal Medicine I Credits: 4
- PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
(Students complete a second semester of either Internal Medicine or Ambulatory Care)
- PHCY6471 - Internal Medicine II Credits: 4
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
- PHCY6481 - Advanced Community Pharmacy Credits: 4
- PHCY6483 - Advanced Institutional Pharmacy Credits: 4
- PHCY6465 - Elective Rotation In: Credits: 4
Students complete 4 sections of PHCY 6465, 4 credits each.

- Students complete 7 hours of electives during the P1-P3 year.

Total Hours 146

Fourth Year [PH4]:

Consists of nine experiential rotations of four credit hours each and three reflective learning weeks. Rotations are considered full-time. Students may not enroll in any other coursework concurrent with rotations. Consequently, all other coursework (107 credits) must be satisfactorily completed before enrollment in P4 coursework. Note: Students will be required to live in locations other than Laramie when enrolled in experiential rotations. Responsibility for living cost and travel arrangements associated with experimental rotations rests with the student. Students participating in all experimental activities will be required to have a vehicle or an acceptable approved alternative.

Students must complete the following Core or Required Experiential Rotations (subject to change):

- PHCY6470 - Internal Medicine I Credits: 4
 - PHCY6473 - Ambulatory Pharmaceutical Care Credits: 4
 - PHCY6471 - Internal Medicine II Credits: 4
- or
- PHCY6474 - Ambulatory Pharmacy Care II Credits: 4
 - PHCY6481 - Advanced Community Pharmacy Credits: 4
 - PHCY6483 - Advanced Institutional Pharmacy Credits: 4
 - Plus 4 Elective Rotations (PHCY 6465)

Social Work, M.S.W.

Want to make a difference in the world? Join our MSW program and accelerate into bold thinking and professional leadership via multiple paths in human services. Our MSW's advocate for change for a better world! Join us.

Admission Requirements for the Standard MSW Program

- A baccalaureate degree from a nationally accredited college or university that reflects a broad liberal arts preparation. This consists of having completed at least 21 credit hours in social and behavioral sciences and 6 credit hours each in natural sciences, humanities, visual and performing arts, and quantitative reasoning;
- A human biology course (beyond introductory biology), receiving a grade of C or better;
- A statistics course, receiving a grade of C or better;
- An undergraduate cumulative grade point average (GPA) of 3.000 or above on a 4-point scale.

Admission Requirements for the Advanced Standing MSW Program

- A bachelor's degree in Social Work from a Council on Social Work Education accredited social work program;
- An undergraduate social work GPA of 3.250 or above;
- An overall undergraduate GPA of 3.000 or above;

- Received a B or better and/or a satisfactory grade in BSW Field Education Practicum.

*International students have special requirements for admission to UW. All are encouraged to contact the International Students and Scholars Office for details before applying.

All Applicants

All applicants will be evaluated on:

- Intellectual and personal qualities essential to the successful practice of social work, such as sensitivity and responsiveness in relationships, concern for the needs of others, adaptability, good judgment, creativity and integrity;
- Commitment to social justice and equality;
- Written and verbal communication skills;
- Professional references; and
- Compatibility of career goals with the MSW program's advanced generalist perspective.

All applicants meeting minimum criteria will be considered for admission. Admitted applicants will be required to complete a criminal background check through the College of Health Sciences.

Program Specific Degree Requirements

All incoming students enter the MSW program in the summer semester of their first year, completing introductory and/or bridge courses as needed for their specific program phase. The MSW program is divided into two levels: generalist and advanced generalist. The generalist year of the MSW program prepares students without a BSW degree for the advanced generalist curriculum in the second year. Students who have already obtained their BSW degree may apply for Advanced Generalist in the MSW program. These students complete only the second-year courses.

Master of Social Work Field Practicum

All students, regardless of status, participate in a field practicum experience, starting in their first fall semester. New students submit an initial application upon formal admission to the program.

Foundation students will complete 900 hours in practicum over the course of their two years of study, 400 and 500 hours respectively. Advanced Standing students will complete 500 hours in their one year of study. All students in practicum will take a corresponding field seminar class each semester.

Grading is done as Satisfactory/Unsatisfactory. Receiving a grade of U is considered a failing grade and can result in termination from the practicum. If the practicum is terminated, the student may be offered a remediation plan to retake the required hours. This opportunity is only offered one time. The student may also be referred to the DOSW faculty for review according to the Student Academic and Professional Performance policy.

Specific information and procedures relating to all aspects of the field practicum experience can be found in the Field Practicum Manual located on the Division of Social Work's website.

Master of Social Work

- Students complete all SOWK required courses.
- Students complete either the SOWK 5755 Capstone course or the optional SOWK 5960 - Thesis Research.

For students who complete the Capstone course:

- Complete SOWK 5755. The SOWK 5755 portfolio project requires a minimum of 2 credit hours, usually taken as 1 credit in the fall semester and 1 credit in the spring of the advanced year.
- A final written paper with oral defense is required.
- Thesis is NOT required.

For students who choose the optional thesis:

- Complete SOWK 5960 - Thesis Research. SOWK 5960 requires a minimum of 4 credit hours, usually take as 2 in the fall semester and 2 in the spring semester.
- Students who choose to produce a thesis are required to carry out original research.
- Thesis proposal defense, thesis implementation, and final defense are required per university regulations for a thesis project.

Speech-Language Pathology, M.S.

Earn a Master of Science (M.S.) in speech-language pathology, our program is accredited by ASHA's CAA and includes 3 semesters of on-campus coursework and clinic work followed by 3 semesters of distance education and external clinical placements.

Accreditation

The Master of Science in Speech-Language Pathology is a professional degree program that includes 61-64 semester credit hours of enrollment (see typical programs below). Students may pursue either a thesis or non-thesis track during their graduate studies. Both tracks lead to eligibility for the Certificate of Clinical Competence in Speech-Language Pathology (CCC-SLP), granted by the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC), which is a council serving the American Speech-Language Hearing Association. Graduates are also eligible for the Wyoming license in speech-language pathology. A supervised Clinical Fellowship Year (CFY) is required beyond the graduate degree for certification.

Accreditation. The Master's of Science (MS) education program in speech-language pathology {residential} at the University of Wyoming is accredited by the Council on Academic Accreditation in Audiology and Speech-Language Pathology of the American Speech-Language-Hearing Association, 2200 Research Boulevard, #310, Rockville, MD 20850, 800-498-2071 or 301-296-5700.

Typical Programs of Study

There are two programs of study for the MS SLP program. The Plan A is the thesis option (64-credit hour program), and Plan B is the non-thesis option (61-credit hour program). The Plan A (thesis) option requires and 38 credits of graduate academic work (including 4 credits of SPPA 5960 Thesis Research) and 26 credits of graduate clinical practicum. The Plan B (non-thesis) option requires 35 credits of graduate academic work (including 1 credit of SPPA 5961 Graduate Projects/Oral Comprehensive Exam) and 26 credits of graduate clinical practicum.

35-38 Hours of Graduate Academic Work Usually Includes:

- SPPA5020 - Phonological Assessment and Intervention Credits: 3
- SPPA5140 - EBP and Evaluation Procedures in Communication Disorders Credits: 4
- SPPA5280 - Early Language Intervention Credits: 3
- SPPA5220 - Voice Disorders Credits: 3
- SPPA5130 - Adult Neurogenic Disorders Credits: 4

- SPPA5330 - School-Age Language Intervention Credits: 3
- SPPA5120 - Stuttering Credits: 2
- SPPA5110 - Craniofacial Disorders Credits: 2
- SPPA5230 - Dysphagia Credits: 3
- SPPA5100 - Motor Speech Disorders Credits: 2
- SPPA5210 - Augmentative and Alternative Communication Credits: 2
- SPPA5380 - Professional Practice Credits: 3
- Plan A students complete 4 credits of SPPA5960 - Thesis Research Credits: 1-12
- Plan B students complete 1 credit of SPPA5961 - Graduate Projects Credits: 1-4

26 Hours of Graduate Clinical Practicum Include:

- SPPA5030 - Clinical Practicum Credits: 1-4
(14 credits total required)
- SPPA5270 - Educational Practicum Credits: 1-12
(6 credits total required)
- SPPA5290 - Medical Practicum Credits: 1-12
(6 credits total required)

Note:

Note: Specific degree requirements (course name and content), may change based on departmental decisions or requirement changes from accreditation and licensure bodies.

Additional Information

Admissions to the M.S. Degree Program in Speech-Language Pathology

Admission to the master's program in speech-language pathology is made on a competitive basis. We accept students to start in the fall of each year. For application, admission, and a description of the program, see the division website. Applicants must have completed a bachelor's degree or equivalent from a regionally accredited institution. All applicants should have at least a 3.000 cumulative GPA (scale of 4.000).

Additional required undergraduate coursework and discipline specific coursework.

Admitted students must also have taken required coursework in the 4 Foundational Areas (Biological Sciences, Physical Sciences, Social/Behavioral Sciences, and Statistics). For the UW M.S. SLP program, admitted students must also have completed coursework in phonetics; speech & language development; anatomy and physiology of speech, hearing, and swallowing; audiology; neural basis of communication; and aural rehabilitation. Coursework in each of these areas is needed in order to meet the requirements of the Council for Clinical Certification in Audiology and Speech-Language-Pathology (CFCC) certification requirements and/or in order to graduate from the UW MS SLP program. Students missing any of these courses must complete requirements in order to be considered eligible for the M.S. in SLP degree.

Application Procedure

Applications to our master's program must be made through an electronic, centralized application service: the Communication Sciences and Disorders Centralized Application Service for Clinical Education in Audiology and Speech Language Pathology (CSDCAS). Instructions and application procedures are available at <https://csdcas.liaisoncas.org/>. Check the division web site in September for instructions.

Applicants will be notified of the division's decision on acceptance, alternate, or denial by mid-March. Applicants must respond to the offer by April 15. Alternates may be offered positions that become available after April 15.

International Students

For all International students, the university must determine whether financial resources are sufficient for study here.

International students from non-English speaking countries need a TOEFL score of 600 to show English proficiency. Additional sources of evidence may be requested by the division to make a final decision. English proficiency must be sufficient for success in graduate school and certification as a speech-language pathologist in the United States, even if the applicant intends to return to the native country.

Conditional Status

An applicant may be admitted conditionally if he or she does not meet the GPA requirements for full admission, and the Division determines that there are sufficient areas of strength for success in graduate school in comparison to other applicants. Conditions will be placed on admission such as graduate grade point average, performance criteria, or completion of certain courses.

Requirements Following Offer of Admission

Students who accept an offer of admission to the program must then provide numerous pieces of required documentation for admission to UW and program, and will also need to be responsive to emails from the Division and faculty throughout onboarding.

Criminal Background Check

Admission to the graduate program in speech-language pathology is contingent upon passing a criminal background check. Each student recommended for admission into program will be required to obtain, pay, and pass a criminal background check. Additional background checks are routinely required by schools, hospitals, and other agencies that participate in the clinical education of our students. The results of the background checks may determine admission and/or ability to complete the UW M.S. SLP program. Please see the College of Health Sciences web site for the policy and procedures document.

Vaccination Requirements

Students' admission to our program is contingent on verification of vaccinations, including COVID-19 vaccination. Other medical information (TB test) will also be requested. Admitted students can request a COVID-19 vaccination exemption from the University, but keep in mind that external clinical placements have their own processes and are not bound to accept University of Wyoming determinations. Students who are not vaccinated may be at risk for extended programs of study and/or inability to complete the degree by completing required and approved externships.

Graduate Student Outcome Data

As of September 2021, 98.04% of MS SLP students completed the program "on-time" over the last three years, 100% obtained employment, and reported Praxis Exam pass rate was 100%.

Program Specific Graduate Assistantships

Financial help for graduate students is available each year through the department with assistantships and other funding. Typically, graduate assistantships include one-half tuition support and a monthly stipend. These assistantships require the student to spend 10 hours per week assisting faculty members in teaching and research. Graduate Assistantships and scholarship awards are competitive and based on past academic performance, evidence of professional promise, and letters of recommendation.

Differential Tuition

The graduate program in speech-language pathology has a differential tuition rate. See the Division website and/or fee book for details.

WWAMI Medical Education

The WWAMI Medical Education Program is Wyoming's medical school. Our students are admitted into the University of Washington School of Medicine, complete their foundation phase in Laramie at UW, and finish their medical education in the WWAMI region.

Required Courses

- HM6710 - Fund. Medical Sci. & Research Credits: 1 (9 credits required)
- HM6603 - Clinical Studies Credits: 2 (6 credits required)
- HM6720 - Infection & Immunity Credits: 1 (7 credits required)
- HM6730 - Cancer, Hormones & Blood1 Credits: 1
(7 credits required)
- HM6602 - Introductory Primary and Continuity Care Clerkship Credits: 2 (4 credits required)
- HM 6740 (5 credits required)
- HM6750 - Cardiovascular System Credits: 5
- HM6755 - Medicine, Health, & Society 1 Credits: 1
- HM6760 - Respiration and Regulation Credits: 6
- HM6770 - Head, Neck, & Gut Credits: 5
- HM6775 - Medicine, Health, & Society 2 Credits: 3
- HM6800 - Mind, Brain, Behavior Credits: 9 (7 credits required)
- HM6900 - Life Cycles and Reproduction Credits: 5

Total Hrs. 70

Certificate

American Sign Language Studies Certificate

Gain basic foundational skills in American Sign Language (ASL), understand sociocultural aspects of Deaf communities, teach other students the basics of ASL.

The American Sign Language Studies (ASL Studies) certificate provides a basic or beginning understanding of ASL and an introduction to Deaf sociocultural issues. The ASL Studies certificate may be helpful to anyone in the health and education fields in learning to communicate with and understand individuals who are Deaf. The certificate is a nominal recognition for students who wish to pursue more education in the fields of speech-language pathology, sign language interpreter, teacher of the deaf, preschool and K-12 education, audiology, nursing, counseling and other areas. The ASL Studies Certificate is not designed or adequate to meet educational requirements for any specific professional license or certification. The ASL Studies certificate from UW is a nominal recognition of basic or beginning ASL skills and Deaf culture. It does not prepare or entitle a student or recipient for any certification or licensure from any state or national associates, agencies or governmental bodies. For more information on the ASL Studies learning objectives, see the website: <http://www.uwyo.edu/comdis/american-sign-language/index.html>.

ASL Studies Certificate Requirements:

Students must have earned a grade of A for all three language courses (SPPA 2110, SPPA 2120, and SPPA 4130) in order to be eligible for the certificate. ASL coursework needs to have been completed within the last 5 years in order to pursue the ASL Studies Certificate, exceptions can be granted if the student demonstrated adequate skills during a structured interview with a UW ASL instructor.

Course sequence for the certificate, 16 credits total:

- SPPA2110 - American Sign Language I Credits: 4
- SPPA2120 - American Sign Language II Credits: 4
- SPPA4070 - Deaf Studies Credits: 3
- SPPA4130 - Advanced ASL Credits: 4
- SPPA4140 - Undergraduate Teaching Assistant Credits: 1

Community and Public Health

This certificate covers foundational public health concepts, use of epidemiological data, designing evidence-based projects and community collaborations, and building public, political and financial support for public health.

Required Courses

Students must earn a B or better (an A or a B) in all four classes to earn the certificate.

- HLED5021 - Creating Conditions for Community Health Credits: 3
- HLED5022 - Unlocking the Potential of Public Health Credits: 3
- HLED5023 - Using Epidemiology to Build Health Credits: 3
- HLED5024 - Increasing Support for PH Credits: 3

Students may either earn a 12-credit *University Graduate Certificate in Community & Public Health* or a 15-credit *University Graduate Certificate in Community & Public Health, Specializing in [Specialization Name]*.

Approved specialization courses include:

- HLED5020 - Food, Health, and Justice Credits: 3
- HLED5026 - Rural Community Health Credits: 3
- HLED5027 - Emergency Prep and Response Credits: 3

Additional specialization courses may be approved by Community & Public Health faculty.

Endorsement

Adapted Physical Education K-12 Endorsement

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

Course Requirements

- EDEX2484 - Introduction to Special Education Credits: 3
- KIN4055 - Adapted Physical Education Credits: 2
- KIN4065 - Resources in Adapted Physical Education Credits: 2-3
- KIN4075 - Assessment in Adapted Physical Education Credits: 3

Athletic Coaching Endorsement/Permit

Students who wish to qualify for an athletic coaching permit to coach in Wyoming public schools must complete four courses. Note: Endorsements are for current teachers. Permits are for those who are not a licensed educator.

Course Requirements

- CPR Certification
- KIN3050 - Prevention and Care of Athletic Injuries Credits: 2
- Foundations of Coaching KIN 4090 /KIN 5090 Credits: 3
- Students completing the Physical Education Teacher Education undergraduate degree are exempt from the KIN 4090/5090 requirement.
- Coaching in... Experience (completed at a community college or complete a coaching experience in a specific sport for one season or more with a letter written by your supervising coach to submit with your PTSB endorsement application form).

School Health Education K-12 Endorsement (For non-Physical Education Teacher Education Majors)

In addition to completing a bachelor's degree in teaching at the secondary level from an approved university program, 21 credit hours are required to be endorsed to teach health education K-12 in the public schools of Wyoming.

Course Requirements

- FCSC1141 - Principles of Nutrition Credits: 3
- HLED1006 - Personal Health Credits: 3
- CPR Certification
- HLED4120 - Assessment in Health Credits: 3
- HLED4025 - Teaching Sensitive Issues In Human Sexuality Credits: 3
- HLED4110 - Teaching Health in Schools K-12 Credits: 3
- HLED4130 - Management of Coordinated School Health Programs Credits: 3
- PSYC2210 - Drugs and Behavior Credits: 3

OR

- HLED4030 - Teaching About Alcohol and Substance Abuse Credits: 3

School Health Education K-12 Endorsement (For Physical Education Teacher Education Majors)

In addition to completing the Bachelor of Science degree in physical education teacher education from the University of Wyoming, students can qualify for K-12 endorsements in adapted physical education and/or health education by completing the following course requirements:

Course Requirements

- HLED4025 - Teaching Sensitive Issues In Human Sexuality Credits: 3
- HLED4110 - Teaching Health in Schools K-12 Credits: 3
- HLED4120 - Assessment in Health Credits: 3
- HLED4130 - Management of Coordinated School Health Programs Credits: 3
- PSYC2210 - Drugs and Behavior Credits: 3

OR

- HLED4030 - Teaching About Alcohol and Substance Abuse Credits: 3

Preprofessional Program

Preprofessional Pharmacy Program (PPCY)

Students will not receive a degree in prepharmacy. The prepharmacy curriculum guides students as they fulfill requirements for admission to the professional pharmacy degree program.

Required Curriculum

- CHEM1020 - General Chemistry I Credits: 4
- CHEM1030 - General Chemistry II Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2022 - Animal Biology Credits: 4
- MATH2200 - Calculus I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- KIN2040 - Human Anatomy Credits: 3
- KIN2041 - Human Anatomy Laboratory Credits: 1
- MOLB2021 - General Microbiology Credits: 4
- MOLB3610 - Principles of Biochemistry Credits: 4
- ZOO3115 - Human Systems Physiology Credits: 4
- General Electives (6 credits total)

USP Requirement

The USP-COM 3 requirement is fulfilled in the professional doctoral program.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Interdisciplinary Programs

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website <http://www.uwyo.edu/biomedphd/>
Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Program Specific Admission Requirements

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duolingo: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/ cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

c. To ensure full application review for fall semester admission, applications should be received by **February 15**.

d. Review by BMS Admissions Committee.

e. Forward application packet with BMS recommendation to the faculty and host department.

f. Notification of decision to applicant by **May 1**.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors, and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership, and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators.

Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals.

Program in Ecology, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/pie/>
Email: ecology@uwyo.edu

Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical

perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from 11 departments and 3 colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

The Program in Ecology (PiE) is an interdisciplinary graduate program leading to the Doctor of Philosophy degree in Ecology. Students and faculty from multiple departments and colleges at the University of Wyoming participate in the Program. Graduate students admitted to the Program will have a home department, which will typically be the home department of the respective committee chair or co-chair. Those interested in graduate study in this program, are encouraged to contact individual faculty members in the potential student's area of interest (http://www.uwyo.edu/pie/who_we_are/faculty.html) and the Program in Ecology (307-766-4128; ecology@uwyo.edu) for more information and guidance regarding applying.

In order to apply: 1) **Contact:** Identify a faculty advisor (all PiE students **must** be sponsored by a faculty advisor (http://www.uwyo.edu/pie/who_we_are/faculty.html)). These contacts are generally made in the fall the year before submission, but successful contacts may be made later. 2) **Admission to home department:** Apply to the University of Wyoming via the online application system (<http://www.uwyo.edu/admissions/apply.html>): letter of intent, CV, transcripts, and three letters of recommendation. For department, please select the department of the potential advisor. A minimum of three letters of recommendation are required and up to two additional letters may be submitted. A suggested deadline for application is January 31 to be considered for fall admission, but applications will be continued to be considered. A minimum of a 3.0 undergraduate cumulative GPA is required for admission or MS degree. International applicants, who are not native English-speakers, must submit TOEFL (recommended minimum 525) or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements. 3) **Admission to PiE:** Submit a letter of interest to the Program in Ecology (ecology@uwyo.edu), stating explicitly why you would wish to be considered for PiE and identifying the faculty advisor immediately after completing your online application. Admission to PiE requires admission is predicated on admission to home department. All applications to the Program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the Program who lack a Master's degree must show exceptional promise and commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for research fellowships). Such students are encouraged to consult with their prospective advisor on whether to apply directly to PiE or to Master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the Program. Students who wish to transfer into the Program from department-based doctoral programs must submit a formal application and must satisfy all the admission requirements specified above. Such application will consist of copies of all the application materials originally submitted to the program in which the student is currently enrolled, as well as a letter of recommendation from their prospective PiE advisor. In addition, they must submit a letter stating their reasons for seeking this transfer. All applications will be reviewed by the Graduate Affairs Committee. In addition, the following apply to transfer students:

- Students enrolled in departmental programs who have not yet taken their preliminary examinations may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules before they take their preliminary examinations, and (b) fulfill the curricular requirements.
- Students who have been admitted to departmental programs, and who have already taken their preliminary examinations, may pursue the PhD in Ecology provided they (a) appoint an Advisory Committee under Program rules within one month of admission to the Program, and (b) fulfill the curricular requirements. The student's Advisory Committee has the option of requiring a new preliminary examination.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a (minimum) five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program and/or a faculty member of PiE. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

Preliminary Exam

Passing the preliminary exam is the official admission to candidacy.

Written Portion of the Preliminary Exam. The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.

The philosophical and historical development of ecology.

The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.

To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.

To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/ fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Hydrologic Sciences (WRESE), Ph.D. Program

Office of Graduate Education

Old Main 310

Phone: (307) 766-4128

Website: <http://www.uwyo.edu/wrese>

E-mail: wrese@uwyo.edu

Program Director: Andrew D. Parsekian, Ph.D.

Degree Offered

Ph.D. in Hydrologic Sciences

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D. level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

The WRESE Program grants a PhD in Hydrological Sciences.

Program Specific Admission Requirements

Ph.D. in Hydrologic Sciences

The WRESE Program only admits students seeking a doctoral degree.

Those interested in graduate study in this program, are encouraged to contact the WRESE program (wrese@uwyo.edu) for more information and guidance regarding applying. In order to apply, please submit an application to the program via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>). Prospective students applying to the WRESE program must satisfy the minimum criteria for admission of their advisor's home department (i.e., number of reference letters required; minimum GRE scores, if requested; other supporting documents, if requested; etc.). Similarly, applicants should adhere to the submission deadline indicated by their advisor's home department.

Minimum criteria for admission to the WRESE Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under certain circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the WRESE program.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) if you have questions regarding the English proficiency requirements.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's

departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

The written exam will consist of a series of questions as decided upon by the committee and should take no more than two weeks to complete.

Each committee member shall grade their portion of the exam as pass/fail. The student shall be viewed as passing the written exam if no more than one person grades their portion of the exam as failing.

The oral examination will be held no sooner than two weeks after the written exams, and only after the student has passed their written examinations. The oral exam should be no less than 90 minutes long and no longer than 3 hours.

Following the exam, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Dissertation

The student will prepare a dissertation and make the document available to the committee at least two weeks in advance of an oral defense of the document. The oral defense must be at least 15 weeks after the student has been advanced to candidacy. Students shall present a public defense to the university community that is expected to be approximately 45 minutes long, with a public question-and-answer period after the presentation. If the committee determines that the student has presented a suitable oral presentation of his/her research findings, a closed session meeting will be held in which the student defends their research to the committee. At the conclusion of the defense, each committee member must vote pass/fail. The student will be deemed as passing if they receive no more than one failing vote.

Other information:

Students in the WRESE Program may participate from any college, with the expectation that their program of study and dissertation will focus on quantitative issues of hydrology and water resources. The Program welcomes academic diversity, and students in WRESE have entered into the Program from a wide range of academic backgrounds and have hailed from numerous home departments, including Ecosystem Science and Management, Civil and Architectural Engineering, Botany, Zoology and Physiology, and Geology and Geophysics.

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/mcls/>
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered

Ph.D. in Molecular and Cellular Life Sciences

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as:

Biotechnology-bioengineering, biomaterials, pharmacology, cell biology and signaling, genetics and development, genomics, proteomics, computational biology, microbiology and infectious disease, structural biology, and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as:

Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

1. Applicants should apply through the online graduate application link. This process requires uploading a statement of purpose, a CV, academic transcripts, and test scores. The statement of purpose should include a brief narrative that describes the applicant's motivation to pursue graduate studies in the life sciences, relevant experiences, and specific reasons for applying to the MCLS program at the University of Wyoming. The program does not adhere to strict test score minimums, however, for international applicants minimum suggested scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS, respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries will be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores of 110 or higher as proof of English proficiency until further notice. More information for international applicants can be found on the University of Wyoming graduate admissions website. The application also requests that three reference letters be submitted in support of the candidate's application. Completed applications are due on January 1.

2. The MCLS admissions committee reviews completed applications starting in early January of each application cycle. Promising applications are selected based on research experience, grades, test scores, and reference letters. The most compelling statements of purpose convincingly describe why the applicant is interested in pursuing graduate studies in the life sciences, detailing relevant past research experience and how it has prepared the student for PhD studies. Reference letters that include

specific details and anecdotes about the applicant are most useful. The committee generally looks for grades of B or better in life science and chemistry courses, although lower grades can be balanced by a sufficiently strong research background. Successful applicants will be notified of admission decisions by May 1 at the latest, although the majority of decisions will be made by March 15.

3. Following the initial reviews, selected applicants are invited for a Zoom interview. Applicants will be provided with a primary research paper that they should read in preparation for the interview.

4. Zoom interviews are conducted with at least two members of the admissions committee. Applicants are asked a variety of questions, including why they are interested in the MCLS program, how their previous research experience has prepared them for PhD studies, their perceived strengths and weaknesses as a scientist, and future career goals. The interviewers also ask questions about the research paper and more general molecular biology questions to determine if the applicants have a sufficiently strong background to succeed in the MCLS program.

5. Shortly after the interview sessions, the MCLS admissions committee discusses the results of the Zoom interviews and ranks applicants for offers of admission, conditional upon approval by the Office of Admissions.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate level elective courses that students may take. Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year. Additionally, students must pass a comprehensive assessment exam at the end of the first year. Near the end of their second year in the program, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students' proposed research. Annual meetings with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year. Students must also attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies. For more information, please see the program's Website at: <http://www.uwyo.edu/MCLS/>.

Neuroscience, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/neuroscience/>
Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be

broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Program Specific Admission Requirements

Steps for applying to the Program in Neuroscience:

Step 1: Contact faculty whose research is of interest.

Although not mandatory, applicants are encouraged to read through the faculty research summaries to identify faculty that they are interested in training with. It is strongly recommended that prospective students contact individual faculty for more information regarding their research programs and openings in their laboratories before submitting an application. This initial step is recommended because, due to the limited availability of Graduate Assistantships (GA's), graduate students are oftentimes recruited directly into a laboratory and supported straight away by the advisor's NIH or NSF funding.

Step 2: Submit the online application packet via the University of Wyoming's online application system (<http://www.uwyo.edu/admissions/apply.html>).

For full consideration for fall and spring admissions, applications should be submitted by January 1 and June 30, respectively. The application packet is comprised of the following items:

- **Application form**
- **Official academic transcripts:** Applicants should have at least a 3.0 cumulative GPA (scale of 4.0), and a bachelor's degree in a discipline that is related to neuroscience such as biology, psychology, physiology, chemistry, physics, or chemical or bioengineering. We encourage motivated applicants from degrees in diverse areas that are interested in transitioning to neuroscience. Students with an MS degree in neuroscience or related fields are also encouraged to apply.
- **GRE scores:** Accepted but not required
- **Three letters of recommendation**
- **TOEFL/IELTS:** For international students whose native language is not English. The minimum acceptable scores are 550 (79 iBT) and 6.5 for TOEFL and IELTS, respectively. (The University of Wyoming's school code for TOEFL = 4855.)
- **Personal statement:** A 1-3 page personal statement describing the student's motivation for pursuing a PhD in the field of neuroscience. Please describe areas of interest and any specific research topics or techniques with which you have experience. If your interests are still broad, indicate your general interests and graduate training goals.
- We are also interested in learning about your long-term career goals. What do you aspire to do after graduation? What are you specifically interested in the University of Wyoming? Finally, if you have established a potential faculty advisor (step 1), this should be clearly stated here in the personal statement.

Step 3: The interview

The graduate advisory committee reviews submitted application packets. Only complete packets are reviewed. Applicants deemed strong by the committee will be invited to participate in either an in-person or virtual (via zoom or phone) interview. The interview allows for the committee to learn more about the applicant, and, likewise, for the applicant to interview the committee.

Step 4: Verification of admittance by UW Admissions Office. Applicants that are chosen for admission to the Program in Neuroscience will then be requested to complete the application process through the University of Wyoming Admissions Department. Eligibility for enrollment will be verified by the UW Admissions Office, including the receipt of official transcripts and documents.

Program Specific Degree Requirements

Doctoral Program

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

Science and Mathematics Teaching Center Master's Degrees

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

Program Director: Sylvia Parker

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. The affiliate faculty for the SMTC includes faculty from the Colleges of Agriculture and Natural Resources, Arts and Science, Education, and Engineering and Applied Science, and the Haub School of Environment and Natural Sciences.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

- (1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and
- (2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsement provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
- (3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program may be used by teachers to take the 18 graduate-level credits often needed to teach Advanced Placement and community college courses.
- (4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.
- (5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
 - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
 - Effectively communicate all aspects of the research project in both oral and written forms.
- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.
- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.
- Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MSC, MMA, MST and MS-Natural Science Master's Degrees:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee, unless a UW Graduate

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal and two other colleagues.

The NED Degree - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee, unless a UW Graduate

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

The NED Degree - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (<http://www.uwyo.edu/admissions/apply.html>). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (<https://www.tetonscience.org/programs/graduate-program/admissions/>); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Graduate Assistantships and Scholarships

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

Graduate

Biomedical Sciences, Ph.D.

The Biomedical Sciences graduate program seeks to provide the students with a unique research training environment to integrate a variety of scientific approaches to address complex health-related challenges.

Additional Information

Biomedical Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website <http://www.uwyo.edu/biomedphd/>
Email: bms@uwyo.edu

Program Director: Sreejayan Nair, Ph.D.

Degree Offered

Ph.D. in Biomedical Sciences

Biomedical sciences is the study of human biological processes; the complex interactions between physiological, genetic and environmental factors that influence disease and health. It spans the spectrum from fundamental discovery to innovation and application.

Areas of focus may include but not limited to cardiac health, nutrition, reproductive biology, toxicology, diagnostic & imaging and medical engineering.

The PhD program in biomedical sciences is designed to position graduates for long-term competitive success in the rapidly changing and multifaceted health-related arena in the 21st century. It is a comprehensive, interdisciplinary program, making connections between various disciplines to gain new insights, discover and apply new knowledge, and promote self-directed, life-long learning.

Biomedical Sciences is a research & discovery focused program balancing depth and breadth of content knowledge with "enabling" skills including problem solving, innovation, entrepreneurship, communication and leadership.

Admission to the Biomedical Sciences PhD Program

1. Minimum requirements. Applicants who do not meet the minimum requirements may be conditionally accepted at the discretion of the BMS Admission Committee. Please submit the application packet comprising the following documents for pre-admission screening:

a. Faculty sponsor. Contact potential biomedical sciences graduate program faculty sponsor in your area of interest prior to submitting an application. NOTE: a letter indicating the sponsorship by a faculty is strongly recommended as the program does not have sufficient number of graduate assistantships to support all students.

b. Official academic transcripts. Successful completion of a bachelor's degree from an accredited institution with one or more semesters of biology, physics, anatomy, physiology, chemistry, biochemistry/molecular biology, math are recommended. All applicants should have at least a 3.0 cumulative GPA (scale of 4.0). While a master's degree is not required for admissions into the biomedical sciences Ph.D. program, a master's degree with a strong background in the research area of focus is a plus.

c. TOEFL/IELTS/Duolingo: The minimum acceptable scores are 540 (76 iBT) and 6.5 for TOEFL and IELTS respectively. An applicant whose native language is English and is a citizen of one of the following countries or has earned a university level degree from a school in one of the following countries may be exempt from providing additional proof of English proficiency: Antigua & Barbuda, Bahamas, Belize, Grenada, Guyana, Jamaica, St. Kitts & Nevis, St. Lucia Dominica, St. Vincent & the Grenadines, Trinidad & Tobago, Australia, Bermuda, Canada (all provinces except Quebec), Ireland, New Zealand, United Kingdom, and the United States. Due to COVID-19 related postponements/ cancellations of TOEFL/IELTS exams, we will be accepting Duolingo scores or 110 or higher as proof of English proficiency, until further notice.

d. GRE: A composite minimum score of 291 on the verbal and quantitative sections of the GRE is recommended. The GRE may be waived at the discretion of the admission committee if the applicant already possesses a master's degree, and/or documented research accomplishment in the chosen discipline.

e. Three letters of recommendation.

f. Statement of research interests and career objectives. A letter stating research & career interests and goals, prior research experience and outcomes, reasons for interest in BMS program. Include your contact information in the letter.

g. Current professional resume

2. Application Process. The BMS admissions committee reviews the completed application.

a. Contact faculty in your area of interest and obtain their endorsement. Faculty may choose to interview the candidate on-campus or via zoom.

b. Submit your application materials (pdf files of cover letter/statement of purpose, letter of sponsorship from the faculty, three letters of reference, transcripts, TOEFL/GRE scores to the admissions office via the University's admission portal.

- c. To ensure full application review for fall semester admission, applications should be received by **February 15**.
- d. Review by BMS Admissions Committee.
- e. Forward application packet with BMS recommendation to the faculty and host department.
- f. Notification of decision to applicant by **May 1**.

Program of Study

Rationale: The program of study is designed according to student learning goals and research opportunities. It blends depth and breadth of preparation by providing broad core requirements with electives promoting specialization in a "parent" discipline. This is recognized on program documentation by a Doctorate in Biomedical Sciences/"specialization" area. For example, Doctorate in Biomedical Sciences/Reproductive Biology.

Student Learning Outcomes: The BMS program provides unique array of formal courses and informal discovery experiences focused on ensuring aptitudes, behaviors and skills necessary for leadership and competitive success in the biomedical science arena.

Although the foundation enabling innovative, independent thinking and knowledge discovery is deep discipline knowledge, the BMS program is also designed to promote student competency in information assessment, synthesis and integration, communication and translation to the broader community, teamwork, leadership and project management.

The BMS program trains graduates to be competent, skilled experimentalists, problem solvers, critical and independent thinkers, expert in their field, with both depth and breadth of knowledge.

In addition, the program aims to instill characteristics that are essential to long-term professional success, preparing scientists who are effective and dedicated mentors and teachers, organized administrators, exemplars of high ethical standards, and effective collaborators. Upon completion of the program, graduates will demonstrate:

- Independent, critical thinking skills
- Ability to identify appropriate biographical resources
- Knowledge of recent advances in discipline and related areas
- Understanding of a broad spectrum of research methodologies and their applications
- Ability to critically analyze research findings
- Ability to design and independently execute research
- Ability to use appropriate information technology to record, manage, and disseminate information
- Understanding of issues related to researcher and subject rights
- Motivation and aptitude needed to acquire knowledge
- Communication skills that are appropriate for a range of audiences and purposes
- Ability to construct and articulate arguments to a wide range of audiences
- Ability to effectively support the acquisition of knowledge by others when teaching or mentoring students
- Willingness to assume responsibility for their work
- Ability to design and teach undergraduate or graduate courses
- Ability to publish single/first authored papers in peer-reviewed journals

Additional Course Information:

The BMS Ph.D. program requires a minimum of 72 hours of credit from UW or another approved university. At least 42 hours of the 72 hours minimum must be earned in formal classroom courses. Twelve hours of credit at 4000-level coursework are permitted towards this. This 72-hour requirement may include graduate credits earned while working toward the M.S. degree in

the same area but in that case, at least 42 hours of the 72 must be earned through formal course work. Additional credits toward the 72-hour requirement will comprise mainly or entirely of Dissertation Research (BMS 5980) credits. As indicated above, to be considered a full-time graduate student at the University of Wyoming students must be signed up for 9 credit hours each semester.

Required course work (12 credits):

Biomedical Sciences Research ethics (2 credits)

Graduate-level Physiology course (3 credits)

Epidemiology (3 credits)

Interdisciplinary Seminar in Biomedical Science (1 credit)

Beyond the Bench: Fundamental Skill Sets for Biomed. Researchers (3 Credits)

Three courses from the following list (9 credits):

STAT 5050 (or other statistics course; 3 credits)

MOLB 5600, General Biochemistry (3 credits)

BIOL 4600, Cell Biology (4 credits)

MOLB 5670, Develop. & Molecular Cell Biology (3 credits)

PHCY 6230, Pharmacology I (4 credits)

Recommended Program Electives (9 Credits)

KIN 5025, Exercise Physiology (3 credits)

KIN 5047, Research Biomechanics (3 credits)

FCSC 5145 Advanced Nutrition (4 credits)

FCSC 5147 Nutrition and Weight Control (3 credits)

KIN 5062, Applied Concepts in Human Aging (3 credits)

CHE 5100, Biomedical Engineering (3 credits)

PATB 5510, Introduction to Virology (3 credits)

HLSC 4700, Health Informatics (3 credits)

HLSC/MOLB 4520, Public Health Issues in Developing Countries (3 credits)

HLSC/MOLB 4530 Global Experience in Public Health (2 credits)

HLSC/MOLB 4310 Foundations of Scholarship and Discovery (1 credit)

Concentration Area (12 credits)

Research/Dissertation (remaining): Students are expected to conduct research leading to a publishable dissertation. While publication expectations are determined largely by the major advisor, it is required that one manuscript be submitted to a peer-reviewed journal prior to the defense. Students will need to demonstrate lead authorship on articles published in their dissertation.

Courses

- BMS5880 - Biomedical Sciences Research Ethics Credits: 2
- BMS5920 - Continuing Registration: On Campus, Credits: 1-12
- BMS5940 - Continuing Registration: Off Campus, Credits: 1-24
- BMS5980 - Dissertation Research, Credits: 1-24
- BMS5985 - Seminar Credits: 1

Ecology, Ph.D.

The Program in Ecology (PiE) provides you with long-term career development by exploring the linkages of ecology and evolution with other disciplines, and by reaching for emerging questions, concepts, and approaches that will shape the future of the field.

Additional Information

Program in Ecology, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/pie/>
Email: ecology@uwyo.edu

Program Director: Melanie Murphy, Ph.D.

Degree Offered

Ph.D. in Ecology

The Program in Ecology prepares doctoral students to lead the discipline of ecology during the coming decades. The program is grounded in the natural history of organisms in their environment, but incorporates tools and perspectives from across the biological, physical, mathematical, computational, and earth sciences. Students develop conceptual, historical, and philosophical perspectives spanning the entire range of subdisciplines in ecology, while receiving advanced training in the subdiscipline of their individual interest.

The program fosters long-term career development by exploring the linkages of ecology with other disciplines, and by scanning the ecological horizon for emerging questions, concepts, and approaches that will shape the field in years to come.

Faculty members from several departments and colleges participate in the Program in Ecology. Their interests span the full range of topics covered in the field of ecology, and students in the program reflect this diversity.

Program Specific Admission Requirements

Only students seeking a doctoral degree will be admitted into the program. Minimum criteria for admission to the Program in Ecology are:

- Minimum undergraduate GPA of 3.000
- Agreement by a member of the PiE faculty to sponsor the student, or to co-sponsor the student together with a PiE affiliate
- Admission to a home department at the University of Wyoming

All applications to the program will be reviewed by the Graduate Affairs Committee, which has authority on admissions. Students applying to the program who lack a master's degree must show exceptional promise and commitment (e.g., through undergraduate or post-graduate research experiences, peer-reviewed publications, and/or success in competing for research fellowships). Such students are encouraged to consult with their prospective adviser on whether to apply directly to PiE or to master's programs in individual home departments of PiE faculty.

Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program. Transfer is not pro forma. Transfer applications are subject to the same criteria as for entering students, and admission to the program for transfer students must be approved by the Graduate Affairs Committee.

Program Specific Degree Requirements

Advisory Committee

Before the end of the second semester of study, the student should nominate a five-member advisory committee to the Office of the Registrar. At least three members of the committee, including the committee chair (usually the student's adviser), will be members of the PiE faculty. One other member, who will serve as Graduate Faculty representative, must be from outside the home department of the major adviser, although (s)he can be a faculty member in a department that participates in the program. The committee will advise the student on his/her program of graduate study, execute and evaluate the student's preliminary examination, evaluate the student's dissertation proposal and dissertation, and conduct the student's dissertation defense.

Program of Study

All students are required to take ECOL 5100 or equivalent. This course should be taken during the first year of residency. Exceptions or substitutions of these requirements are subject to approval by the graduate affairs committee.

The program of study must include at least 6 credit hours aimed at developing a tool skill, which except for rare cases shall be in the quantitative/analytical domain (e.g., statistics, modeling, GIS, remote sensing, bioinformatics). Courses relating to research tools should be taken early in the student's residency to ensure that they can be used in thesis research and advanced studies. Specific coursework and tool-skill development for the student's program of study will be developed in consultation with and subject to approval by the student's advisory committee.

Admission to Candidacy

Admission to candidacy for the Ph.D. requires two steps: 1) providing evidence that the student is prepared to identify a research question, design an approach for investigating that question, and a plan for executing the approach, all in the format of an NSF-style research proposal, and 2) illustrating adequate proficiency in the subject matter of ecology through a process involving both written and oral exams.

Proposal

Students must submit a NSF-style proposal to their committee outlining their project, typically by the end of the fourth semester. Each committee member will provide feedback to the student on the proposed research and indicate approval of the proposal or request revision. The proposal must be approved by all committee members prior to starting the preliminary exams.

While this proposal should be a plan for actual dissertation research, unforeseen circumstances may require altering the student's dissertation work after the proposal has been approved by the committee. In the case of a major alteration, the student should reformulate a research plan and submit it to the committee in writing for committee approval.

Preliminary Exam

Passing the preliminary exam is the official admission to candidacy.

Written portion of the preliminary exam. The student will take the written exam portion of the preliminary exam no fewer than two weeks following approval of the research proposal. The goal of this exam is to test breadth of knowledge in ecology. The design of this exam will be coordinated by the graduate committee under the leadership of the adviser. Each written exam will cover the following topics:

- Ecological topics ranging from organismal/evolutionary to ecosystem-level perspectives, integrating concepts and perspectives from across the discipline, over a wide range of spatial and temporal scales.
- The philosophical and historical development of ecology.
- The conceptual background of the student's area of specialization.

The exam will consist of four to six questions developed collectively by the committee and organized by the student's major professor. The exam will be open book; however, the answers will be solely the work of the student. Answers should be fully cited and collectively should be no longer than 30 pages double-spaced exclusive of references cited. Students will have one full week (seven days) to complete the exam. Committee members will indicate pass/fail within one week following completion of written exams. Four of five passing votes are required.

Oral Portion of the Preliminary Exam. No sooner than two weeks after successfully passing the written exam, the student may proceed to an oral exam administered by his/her graduate committee. Oral exams center around three goals from which questions will be derived:

- To verify that the student is prepared, conceptually and methodologically, to carry out successful dissertation research.
- To evaluate the student's ability to conceptualize specific questions in a broad, integrative context.
- To evaluate the student's ability to think spontaneously and creatively and to articulate responses about unexpected or novel questions.

The advisory committee will discuss and organize specific questions based on these goals in a short session at the beginning of the exam period before admitting the student to the examination room and starting the exam. Following the exam each committee member will provide non-binding paper votes of pass/ fail for each of the three goals of the oral exam. Following discussion of the student's performance, committee members will each assign a grade of pass/fail for the overall exam. Four of five committee members must vote for passing the overall oral exam.

Students whose performance is unsatisfactory will be given one opportunity for retaking the oral examination. This retake will occur no later than the academic-year semester following the first examination.

Public Seminars

Students are required to give two oral presentations on their research. The purposes of these presentations are to provide the student with practice in oral presentations and to keep the PiE community informed of the student's progress. The first will describe the student's dissertation research proposal. This presentation will be given before the student submits his/her thesis proposal. The second presentation will summarize the student's completed dissertation research, and will normally be given the same semester as the student's dissertation defense. Under extraordinary circumstances (subject to approval by the Graduate Affairs Committee), this presentation may be given at an earlier time. These presentations must be open to the public, and may comprise part of a departmental or Program in Ecology seminar or brown-bag series.

Courses

- ECOL5050 - Techniques in Environmental Data Management Credits: 4
- ECOL5060 - Advanced Concepts in Evolution Credits: 3

- ECOL5100 - Ecology as a Discipline Credits: 3
- ECOL5400 - Community Ecology Credits: 3
- ECOL5500 - Quantitative Analyses of Field Data Credits: 4
- ECOL5520 - Habitat Selection Credits: 2
- ECOL5540 - Microbial Diversity and Ecology Credits: 4
- ECOL5550 - Ecology as a Scientific Profession Credits: 2
- ECOL5580 - Rangeland Restoration Ecology Credits: 3
- ECOL5610 - Quantitative Modeling in Landscape Ecology Credits: 3
- ECOL5620 - Advanced Topics in Ecology Credits: 1-4
- ECOL5650 - Tropical Field Ecology Ecuador Credits: 4
- ECOL5680 - Landscape Genetics Credits: 3-4
- ECOL5775 - Forest Ecology Credits: 4
- ECOL5780 - Research in Ecology Credits: 1-6
- ECOL5920 - Continuing Registration: On Campus, Credits: 1-2
- ECOL5940 - Continuing Registration: Off Campus, Credits: 1-12
- ECOL5980 - Dissertation Research Credits: 1-12

Hydrologic Sciences, Ph.D. (WRESE)

The Water Resources/Environmental Science and Engineering (WRESE) program facilitates Ph.D.-level course offerings in water-related disciplines, and coordinates offerings of these courses. Furthermore, the WRESE program serves as a focal-point for water-related graduate research and education at the University of Wyoming.

This interdisciplinary degree program encourages cross-department and inter-college coordination for research and education in hydrology and water resources.

Additional Requirements

Program Specific Admission Requirements

The WRESE Program only admits students seeking a doctoral degree.

Minimum criteria for admission to the Program are:

- Minimum undergraduate GPA of 3.000
- Agreement by a faculty member affiliated with the WRESE program to sponsor the student
- Admission to a home department at the University of Wyoming

Typically, students admitted into the program will have previously obtained a Masters-level degree. Under exceptional circumstance, students may be admitted directly after an undergraduate degree if they show exceptional promise and commitment. Students already admitted to doctoral programs in individual departments at the University of Wyoming may apply to transfer to the program.

Program Specific Degree Requirements

Students in the WRESE Program are expected to create their graduate committee within the first year of study. The committee should be composed of three faculty members within the PhD program in Hydrology and 2 should be from the student's

departmental home. A committee shall be composed of no fewer than 5 members, of which only one may be from outside the University. Additional committee members may be added to support the student's learning and objectives on the discretion of the committee and WRESE Program chair.

Program of Study

Students enrolled in the Program should complete their Program of Study within the first 3 semesters. The student shall work with his/her research advisor and committee to determine the appropriate course of study relative to the student's research agenda. Students are expected to complete a rigorous course of study in quantitative hydrological sciences. Minimum requirements for the PhD include:

- Coursework credits: 42 hours (26 can be from an MS)
- Total credits: 72 hours
- Math expectations: students are encouraged to pursue a high level of math proficiency, with typical students progressing through differential equations. Individual math expectations will be determined by the committee and program chair.

A dissertation proposal should be approved by the end of the 4th semester. Students shall submit their proposal to their committee for review two weeks prior to a holding a committee meeting where the student (a) presents their proposal in a public presentation and (b) defends the proposal to the committee in a closed meeting. After the meeting, the student shall amend the proposal as required by the committee within a timely manner.

Admission to Candidacy / Preliminary Examination

Advance to candidacy is attained by passing preliminary exams within 3 years of initiating a degree program. Students should complete their preliminary exams as close to the end of their primary coursework as possible. Preliminary exams consist of two parts. The first part is a written examination wherein committee members shall submit written questions to the student. Once the student has passed their written exams, they will be administered an oral examination.

The written exam shall be administered by the student's research adviser, who will coordinate the questions so as to obtain a comprehensive review of the student's knowledge of the materials the student has learned in the classroom and needs to complete his/her research topic. Written questions should cover both conceptual and theoretical underpinnings in hydrological sciences and technical questions related to the student's research area.

Molecular and Cellular Life Sciences, Ph.D.

The Molecular and Cellular Life Sciences (MCLS) program serves as an inclusive and integrative graduate program for students being trained in basic biological and biomedical research at the molecular and cellular levels.

Additional Information

Molecular and Cellular Life Sciences, Ph.D. Program

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/mcls/>
Email: mcls@uwyo.edu

Program Director: Daniel Levy, Ph.D.

Degree Offered

Ph.D. in Molecular and Cellular Life Sciences

This interdisciplinary program with more than 30 faculty participants spans a wide range of research topics, such as: Biotechnology, bioengineering, biomaterials, and pharmacology, Cell biology and signaling, Genetics and development, Genomics, proteomics, and computational biology, Microbiology and infectious disease, and Structural biology and biophysics.

Coursework focuses on core courses in biochemistry and molecular biology, with electives that include such diverse courses as: Topics in Genomics, Biophysics, Microbial Physiology and Metabolism, Cell and Developmental Genetics, Mass Spectrometry and Analytical Chemistry, Biomedical Engineering, Mammalian Endocrinology, Cell Culture and Virology, Introduction to Bioinformatics, Protein Structure and Function, Microbial Genetics, Computational Biology, and Quantitative Microscopy.

Program Specific Admission Requirements

Admission to MCLS is a two-step process. The first level of evaluation is carried out by the MCLS admissions committee. This step does not require any fee but does require that all requested materials be submitted as described on our website. After an initial review of all complete applications, a subset of qualified applicants will be selected for video conference interviews with members of the MCLS admissions committee. Applicants who are chosen for admission to the MCLS program will then complete the final application step through the University of Wyoming Admissions office. This latter step requires the completion of several additional forms. Students are then officially notified by the university of their acceptance into the MCLS program.

We encourage students to submit their completed applications at the very latest by January 15 of each calendar year. However, because our review of applications will begin in the late fall, early submissions are encouraged and may stand a greater likelihood of success. Also note that we will continue to review new applications received after January 15 in the event that additional slots are available.

Program Specific Degree Requirements

MCLS doctoral students must fulfill the minimum requirements outlined by the university. In addition, students must obtain a high level of proficiency in the core foundations of the molecular and cellular life sciences through required courses in biochemistry/ molecular biology, scientific literature analysis proficiency, and the MCLS cornerstone course. Because of the broad range of research interests pursued by MCLS faculty and students, considerable flexibility will be exercised regarding the specific nature of the graduate-level elective courses that students may take.

Students must successfully complete four eight-week rotations in MCLS laboratories of their choice during the first year.

Students must pass a comprehensive assessment exam at the end of the first year. Towards the end of the second year, students will undertake a qualifying examination in order to be formally admitted to graduate degree candidacy. This exam will have both written and oral components and will cover areas of science that are relevant to the students' research.

The research and coursework progress of MCLS students will also be monitored and evaluated every year by the MCLS curriculum committee. In addition, an annual meeting with a research-specific dissertation committee will facilitate and evaluate the research progress of MCLS students beginning in the second year.

Students must attend weekly outside seminars on topics in the molecular life sciences for the durations of their studies.

For more information, please see the program's Web site at: www.uwyo.edu/MCLS/.

Neuroscience, Ph.D.

The Graduate Program in Neuroscience is interdisciplinary. Students receive broad and integrative training in neuroscience with emphasis on core concepts, skills, and methodologies.

Additional Information

Neuroscience, Ph.D. Program

Office of Graduate Education

Old Main 310

Phone: (307) 766-4128

Website: <http://www.uwyo.edu/neuroscience/>

Email: neuroscience@uwyo.edu

Program Director: Kara Pratt, Ph.D.

Degree Offered

Ph.D. in Neuroscience

The Graduate Neuroscience Program offers training leading to the Ph.D. degree in Neuroscience. The Neuroscience Program emphasizes systems and integrative approaches, and our goal is to provide the students with the necessary background to be broadly trained research neuroscientists and to carry out independent research in neuroscience. The Neuroscience Program emphasizes continuing interaction with faculty from several departments and we have a low student to faculty ratio. Advisors spend considerable time supervising and training each doctoral student. The educational philosophy of the Neuroscience Program is to encourage a problem-oriented rather than a strict discipline-bound approach to research. You will emerge from this program with the scientific and experimental training needed to comprehensively address a very wide range of research questions using a variety of techniques and analytic tools.

The Graduate Neuroscience Program is designed to enable graduate students to acquire competence in the various disciplines necessary for research and teaching careers in neuroscience. The current interests of the Neuroscience faculty include sensory neurophysiology, behavioral neuropharmacology, neurodevelopment, neurodegeneration, and synaptic plasticity.

Students and faculty have access to outstanding resources established by NIH Neuroscience and Sensory Biology Core grants. The Microscopy Core houses both light (Zeiss laser scanning, fluorescent) and electron (Transmission and Scanning) microscopes. Resources needed to conduct research ranging from molecular, cellular circuit level to behavior are readily available within the Neuroscience Center.

Doctoral Program Admission Minimum Requirements

- GRE: Accepted but not required;
- GPA: 3.000 (4.000 scale);
- Three favorable letters of recommendation;
- Bachelor's degree in a biological science from an accredited institution;
- Statement of research interests and career objectives. We recommend that students study the Neuroscience faculty web sites and contact faculty regarding openings and shared research interests.

You will be best prepared for our program if you have successfully completed courses in neuroscience, chemistry, biology, physiology, and cell/molecular biology. Students may be admitted with deficiencies in some of the areas if they are strong in many or all others. If so, the student's advisory committee will determine what additional work is necessary during the first year to correct any deficiency.

Program Specific Degree Requirements

All doctoral Neuroscience students are required to complete a program of core classwork that includes the following required courses: Introduction to Neuroscience, Structure and Function of the Nervous System and Neurophysiology. Students are required to take one course in Statistics (e.g. STAT 5050, STAT 5210) and the course that meets this requirement will be arranged with the student's committee. The statistics requirement must be met by the end of the second year. The Neuroscience Program is a research-oriented program and students are expected to take a minimum of 2 to 3 credit hours of research per semester. Students are also expected to enroll in an on-going Seminar in Neuroscience. The Neuroscience Seminar, which meets weekly and is attended by students and faculty members, provides an opportunity for intellectual and social exchange, as well as for the development of professional skills in critical thinking. The topic for seminar and the faculty member directing the seminar changes each semester. The remainder of the coursework for the doctor of philosophy degree is selected from designated courses in Neuroscience, physiology, pharmacology, and molecular biology. A grade of B or better is required for all Neuroscience courses.

A student is expected to have a graduate adviser at all times. The faculty adviser must be a participating member of the Neuroscience faculty. The adviser is responsible for directing the student's research and academic coursework. During the second year, the student will have an advisory committee. The advisory committee will consist of at least three neuroscience faculty members and an outside member. Normally, the student's adviser will chair the committee and help identify members of the committee who best match the student's area of interest. The role of the advisory committee is to oversee all aspects of the student's education after the first year.

In the student's second or third year, the advisory committee will set and evaluate the student's qualifying examination. After successful completion of the preliminary examination the student will profess to Ph.D. candidate status.

The dissertation is the single most important component of the graduate program. It reports the results and significance of the student's research. In addition to the written dissertation, the doctoral candidate will deliver a formal seminar based on their research. The seminar will be followed by an examination by the student's advisory committee.

Courses

- NEUR4295 - Neurodevelopment Credits: 3
- NEUR4720 - Neuroscience Speaker Seminar Credits: 2
- NEUR5100 - Structure and Function of the Nervous System Credits: 4
- NEUR5280 - Introduction to Neuroscience Credits: 3
- NEUR5295 - Neurodevelopment Credits: 3
- NEUR5685 - Neurophysiology Credits: 3
- NEUR5715 - Seminar in Neuroscience Credits: 1-2
- NEUR5720 - Neuroscience Speaker Seminar Credits: 2
- NEUR5800 - Research in Neuroscience Credits: 1-16
- NEUR5887 - Molecular Neuropharmacology Credits: 3
- NEUR5920 - Continuing Registration: On Campus Credits: 1-2
- NEUR5940 - Continuing Registration: Off Campus Credits: 1-2
- NEUR5980 - Dissertation Research Credits: 1-12

Science & Mathematics Teaching Center Master's Degrees

30 graduate-level semester hours, B or better grades in all required courses and overall GPA of 3.0 required for majors. Required courses taken 6 or more years ago must be petitioned and approved to be used to satisfy degree requirements.

Additional Information

Science and Mathematics Teaching Center

Office of Graduate Education
Old Main 310
Phone: (307) 766-4128
Website: <http://www.uwyo.edu/smtc/>
Email: smtc@uwyo.edu

Program Director: Sylvia Parker

The Science and Mathematics Teaching Center (SMTC) was established in 1970 and is committed to excellence in science, mathematics, technology and STEM education. As part of the Office of Graduate Education in Academic Affairs, the SMTC, in cooperation with the Wyoming Department of Education (WDE) and the Professional Teaching Standards Board (PTSB), serves as a resource and professional development center for the state. The SMTC offers transdisciplinary graduate degree programs with multiple degree concentrations, certification options, and endorsement options. All of the programs emphasize both strong content knowledge and instructional practices. Faculty from throughout the university collaborate with the SMTC by teaching classes, reviewing applications, serving on committees, advising students, and working on externally funded research projects.

The SMTC provides extensive off-campus professional development that serves teachers, students, administrators, school districts and communities throughout Wyoming and the region. SMTC in-service and extension courses, workshops, institutes, and conferences are designed collaboratively to improve science and mathematics teaching in Wyoming.

The SMTC administers and supports five master's degree programs:

- (1) the Master of Science degrees in Natural Science with concentrations in Middle Level Math (MMA) and
- (2) Middle Level Science (MSC); these programs are designed for Wyoming's in-service elementary, middle, and high school teachers. They focus on general science and mathematics content with an emphasis on teaching middle school level learners. The course work leads to middle level endorsements provided by the Wyoming PTSB. Teachers must have two years of teaching experience to participate in these programs.
- (3) Master of Science in Teaching - Natural Science (MST - Natural Science). This is a self-directed master's degree program working with the SMTC, SER, and the Haub School as well as other colleges. The program is developed individually with the guidance of a graduate committee based on the interests of the graduate student. This program is primarily intended for individuals teaching at the secondary level and may be used take the 18 graduate-level credits in a specific teaching area often needed to teach Advanced Placement and community college courses.
- (4) Master of Science - Natural Science (MS - Natural Science). This is a self-directed master's degree program working with the SMTC, the College of Arts and Sciences, SER, and the Haub School and other colleges. The program is developed individually based on the interests of the graduate student and may emphasize formal or informal learning settings. Interdisciplinary study is encouraged.
- (5) Master of Science in Natural Science with a concentration in Natural Science Education (NED). This Master's degree program is designed for students pursuing careers as environmental and natural science educators in non-public school or non-formal education settings. These students spend one year at the Teton Science Schools (TSS) in Jackson. A long-standing MOU between the SMTC and TSS allows students to use 15 graduate credit hours earned at TSS towards a master's degree if they are accepted into the second year at UW within the SMTC.

SMTC Student Learner Outcomes

Upon successful completion of the MS degree program in Natural Science, a student will be able to:

- Engage in teacher research to transform STEM instruction:
 - Design and implement a research project that asks and answers a question using appropriate materials, concepts and methods, and ethical practices, and
 - Effectively communicate all aspects of the research project in both oral and written forms.
- Use professional and academic standards to ensure high-quality interdisciplinary instruction (i.e., place-based, culturally relevant, and/or social justice pedagogy) to maximize learning for all students.
- Engage in mathematical and/or scientific discourse and scientific thinking as active participants in communities of practice.
- Use emerging technology and science investigations as tools to engage students.

Program Specific Admission Requirements

For the MS-Natural Science Master's Degrees (with concentrations in MSC and MMA) and the MST:

Two years of teaching experience and a valid teaching license (required for MSC and MMA; may be waived for MST and MS-Natural Science)

Application Fee

Official Transcripts from all Institutions attended and Bachelor Degree conferring institution

3.0 undergraduate grade point average; provisional admission with a lesser GPA only with consent from Academic Affairs

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence (These items are not required of applicants who hold a prior master's degree)

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from the teacher's principal or an employers and two other colleagues.

For the MS-Natural Science Master's Degrees (with concentration in NED) - First Year Application:

Official Transcripts from all institutions attended and Bachelor Degree conferring institution Application Fee

Acceptance and admission by the Graduate Program at the Teton Science Schools in Jackson, WY

For the MS-Natural Science Master's Degrees (with concentration in NED) - Second Year Application:

GRE (minimum 292 score) or an Alternative Portfolio including evidence that supports the potential success of the candidate as a graduate student and a document that interprets the evidence

Writing Sample in response to three provided questions

Resume

Three Letters of Recommendation including a letter from a TSS Graduate Program Faculty Member, one from another TSS employee such as a Classroom Instructor or Field Instructor, and one from the first year application

Applicants complete a UW graduate application and upload all of the information on the Admissions Office website (<http://www.uwyo.edu/admissions/apply.html>). Application packets are reviewed by SMTC Admissions Committees and recommendations for admissions are submitted to the University of Wyoming Admissions Office. Any of the above requirements plus the university's minimum 3.00 grade point average may be waived if proper documentation and reasoning are given by the SMTC and approved by the Associate Vice Provost of Graduate Education.

International applicants, who are not native English-speakers, must submit TOEFL or IELTS scores. If an international applicant wishes to be considered for Graduate Assistantship funding, the applicant should also submit the results of an Oral Proficiency Interview (OPI). Please contact the UW English Language Center (<http://www.uwyo.edu/elc/>) for more information.

Please see the Graduate Admissions and Graduate Student Regulations and Policies entries in the front section of the UW Catalog for more information.

Application Due Dates for Master of Science - Natural Science with Concentrations in the following areas:

Middle-level Science (MSC): applications are accepted on an ongoing basis; new students may begin only in summer each year; final due date for admission in summer is April 1.

Middle-level Mathematics (MMA): applications are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Natural Science Education (NED): applications deadlines for Year 1 are established by Teton Science Schools (<https://www.tetonscience.org/programs/graduate-program/admissions/>); due date for admission to begin Year 2 in the fall at UW is February 1.

MST and the MS- Natural Science Masters Degree: applications for these self-designed programs are accepted on an ongoing basis; new students may begin any semester (fall, spring, summer); final due date for admission in fall is July 1; summer is April 1; spring is November 1.

Graduate Assistantships and Scholarships

The SMTC often has scholarships and graduate assistantships available for graduates accepted for the above Master's degree programs. More information upon admission and acceptance.

For the Master of Science in Natural Science Master's Degrees

Plan B (non-thesis)

- 30 Credit Hours of graduate-level coursework is required in all of the programs. This includes 24 credit hours in required coursework depending on the program plus 6 credit hours of additional coursework that may include a research class, Plan B independent research and an elective.
- The Middle Level Science (MSC) concentration is a 3-year program, for the required coursework, in the summers only on UW's main campus. Courses are offered on a 3-year rotation cycle; students may enter the program in any year.
- The Middle Level Math (MMA) concentration is a 2-year program with classes offered virtually in the fall and spring and in-person on the main campus in the summer, for the required courses. Students may enter the program in any semester.
- The Natural Science Education (NED) concentration is a 2-year program with classes offered in the graduate program at the Teton Science Schools in Jackson, WY, in year 1, and additional classes offered at the UW main campus in year 2.
- The MST (Master's of Science in Teaching) and the MS- Natural Science Master's Degrees are Main campus degrees. They are self-directed master's degree programs designed individually based on the student's interests and needs.
- All students must complete and defend a Plan B research project.
- A Plan A (thesis) may be completed with an extra year of research.

NOTE: Middle-Level Science & Middle-Level Mathematics; 24 credit hours in the core courses are required for institutional recommendation for WY middle-level endorsement from the Professional Teaching Standards Board, PTSB.

NOTE: *NASC 5810 Middle-Level Science and Mathematics 3 credit hour course Practica (required course for teachers without previous coursework or experience teaching middle-level students. Offered spring semester in even years only).

Other Degrees and their Requirements

The MST in Natural Science and the MS - Natural Science programs are self-directed master's degree programs designed individually based on the student's interests and needs. The programs require 30 graduate level credits plus a Plan B research project that is defended publicly. Requirements are based on the university minimum requirements.

For the NED Concentration - Year 1 (at Teton Science Schools)

These students spend their first year at the Teton Science Schools in Jackson, Wyoming. Students earn 15 credits that may be used towards the master's degree at the University of Wyoming in Year 2.

For the NED Concentration - Year 2 (at the University of Wyoming)

Plan B (non-thesis)

- This is a one-year program on the main campus.
- 30 credit hours of coursework is required for the master's degree, of which 15 credit hours of agreed upon courses are earned at TSS in year 1. The other 15 credit hours include two required courses: NASC 5650 (3 credits) and a graduate level research class (minimum 3 credits). Additional courses in environmental science and science pedagogy classes are chosen by the graduate student and their advisor.
- A concurrent major in Environmental and Natural Resources is an option with this Master's program.
- Students must complete and defend a Plan B research project.
- A Plan A (thesis) may be completed with an extra year of research.

Middle-Level Science Concentration and Master's Degree

Life Science Summer Core (2023, 2026, 2029, etc...)

- BOT5790 - Special Topics in Ecology Credits: 1-3
- ENTO5601 - Insects for Teachers: Collection and Identification of Insects Credits: 1
- NASC4790 - Topics in Natural Science Credits: 1-6
- NASC5130 - Life Science in Global Context, MSC Credits: 3
- NASC5660 - Standards, Pedagogy and Research Credits: 2

Physical Science Summer Core (2021, 2024, 2027, etc...)

- EE4800 - Problems in _____ Credits: 1-6
- NASC5110 - Physical Science in Global Context, MSC Credits: 3
- NASC5510 - Integrated Instructional Strategies, MSC Credits: 2
- NASC5600 - Mathematics and Statistics in Science Teaching, MSC Credits: 2

Earth Science Summer Core (2022, 2025, 2028, etc...)

- ASTR4000 - Astronomy for Teachers Credits: 1-5
- NASC5120 - Earth Science in Global Context, MSC Credits: 3
- NASC5300 - Classroom Assessment in Middle-level Science, MSC Credits: 2
- NASC5400 - Spatial Data Instructional Technology Credits: 1

Middle-Level Mathematics Concentration and Master's Degree (courses in this program are cross listed with other departments)

MMA Even Years (2022, 2024, 2026...)

- NASC5140 - Numbers, Operations, and Patterns for the Middle-Level Learner, MMA Credits: 3
- NASC5160 - Social and Historical Issues in Mathematics and the Middle-Level Learner, MMA Credits: 3
- NASC5185 - Analysis of Data in the Media for the Middle-Level Learner, MMA Credits: 3
- NASC5215 - Using Technology for Middle-Level Mathematics Credits: 3

MMA Odd Years (2021, 2023, 2025...)

- NASC5170 - Connecting Geometry with Problem- Solving for the Middle-Level Learner, MMA Credits: 3
- NASC5190 - Mathematics of Change and the Middle-Level Learner, MMA Credits: 3
- NASC5205 - Methods of Teaching Middle-Level Mathematics, MMA Credits: 3
- NASC5225 - Assessment for Middle-Level Mathematics, MMA Credits: 3

Natural Science Education (NED)

Teton Science Schools Graduate Program - Year 1

- EDCI5790 - Learning Theories and Instructional Principles Credits: 3
- NASC5610 - Field Studies in Environmental Education, NED Credits: 4

College of Law

102 Law Building
Klint Alexander, Dean
Phone: (307)766-6416 FAX: (307)766-6417
Web site: www.uwyo.edu/law

Professors:

KLINT ALEXANDER, B.A. Yale University 1991; Ph.D./M.Phil. Cambridge University 1997; J.D. University of Virginia 1999; Dean & Professor of Law 2015.

MELISSA ALEXANDER, B.A. Yale University 1996; J.D. University of Virginia 1999; Professor of Law 2019, 2015.

JACQUELYN BRIDGEMAN, B.A. Stanford University 1996; J.D. University of Chicago 1999; Associate Dean for Academic Affairs and Professor of Law 2008, 2002.

KENNETH CHESTEK, B.A. Pennsylvania State University 1975; J.D. University of Pittsburg School of Law 1979; Professor of Law 2018, 2012.

DANIELLE R. COVER, B.A. University of Maryland 1994; J.D. Tulane University School of Law 1997; Professor of Law 2020, 2014; Director of Legal Services Clinic.

JAMES M. DELANEY, B.A. University of Washington 1985; J.D. Gonzaga University School of Law 1992; LL.M. in Taxation, University of Florida 1997; Professor of Law 2013.

STEPHEN M. FELDMAN, B.A. Hamilton College 1977; J.D. University of Oregon 1982; J.S.M. Stanford University 1986; Jerry W. Housel/ Carl F. Arnold Distinguished Professor of Law 2002.

MARK GLOVER, B.A. Washington University in St. Louis 2002; J.D. Boston University School of Law 2008; LL.M. Harvard Law School 2011; Professor of Law 2019, 2015.

DARRELL D. JACKSON, B.A. College of William and Mary 1987; J.D. George Mason University School of Law 1990; Ph.D. University of Colorado School of Education 2011; Professor of Law 2018, 2013.

SAM KALEN, B.A. Clark University 1980; J.D. Washington University 1984; Professor of Law 2014, 2009.

GEORGE MOCSARY, B.E. The Cooper Union School of Engineering 1995; MBA University of Rochester 1995; J.D. Fordham University School of Law 2009; Professor of Law 2019.

NOAH B. NOVOGRODSKY, B.A. Swarthmore College 1992; J.D. Yale Law School 1997; Professor of Law 2013, 2009.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; Professor of Law 2020, 2014.

JASON ROBISON, B.S. University of Utah 2003; J.D. University of Oregon 2006; LL.M. Harvard Law School 2009; S.J.D. 2013; Professor of Law 2019, 2015.

ALAN ROMERO, B.A. Brigham Young University 1990; J.D. Harvard University 1993; Professor of Law 2007, 2003.

MICHAEL R. SMITH, B.S. Florida State University 1982; J.D. University of Florida 1985; Professor of Law 2006.

Associate Professors:

LAUREN MCLANE, B.S. Radford University 2002; J.D. Seattle University School of Law 2008; Associate Professor of Law 2021, 2018; Director, Defender Aid Clinic.

DONA PLAYTON, B.S. University of Wyoming 1989; J.D. University of Wyoming 1993; Associate Professor of Law 2002, 2018; Director, Family and Child Legal Advocacy Clinic.

Assistant Professors:

JERRY FOWLER, B.A. Princeton University 1983; J.D. Stanford University 1990; Assistant Professor of Law 2019; Director, International Human Rights Clinic.

Academic Professionals:

DEBORA PERSON, B.A. Arizona State University 1981; M.L.S. Rutgers University 1992; Library Associate 1993; Administrative Law Librarian 2005, 1994.

TAWNYA PLUMB, B.A. University of Wyoming 1996; M.L.I.S. University of Texas at Austin 1998; Electronic Services and Assistant Librarian 2004.

Professors Emeritus

Debra L. Donahue, Harvey Gelb, Timothy Kearley, Jerry R. Parkinson, Dee Pridgen, Joel Selig, Elaine A. Welle

The College of Law was founded in 1920. The goal of the college is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility. The emphasis in instruction is on analysis and understanding of legal principles and the development of skills necessary to the practice of the profession. The course of study will prepare a graduate to practice in any jurisdiction which has adopted the Anglo-American system of law.

The curriculum of the College of Law consists of three years of study within the college. Required courses necessary to basic legal knowledge make up the first two semesters of study, while courses in the final four semesters are largely elective. Students become eligible to receive the Juris Doctor (J.D.) degree upon successful completion of 90 semester credit hours of law courses with a grade point average of at least 2.000.

The college acts as a law center for Wyoming. It serves lawyers, judges, and government by a program of continuing legal education for attorneys and others interested in significant legal developments, by research projects aimed at improving state law, and by publishing the Wyoming Law Review.

Accreditation

The college is approved by the American Bar Association and its graduates are eligible for admission to the bar in every state. A student planning to practice in a particular state should check its rules for admission to the bar.

The college is also a member of the Association of American Law Schools. Membership is conditioned upon the maintenance of an adequate teaching staff and library, the offering of a sound educational program and adherence to prescribed standards for the admission and graduation of students.

Prelegal Curriculum

There is no prescribed or required set of courses for prelegal work. A student must usually have a B.A. or B.S. degree before beginning the professional study of law. There are no restrictions on the field in which the degree is earned.

The objective of prelegal study should be to acquire knowledge and skills useful in the study and practice of law. College study should prepare the student for law school by developing language comprehension and use, understanding of political, economic, social and cultural institutions, and the ability to think logically and creatively. Courses promoting these objectives are included in the basic requirements for most undergraduate degrees. The choice of a major should be determined by the student's academic interest and professional objective in law.

Valuable background may be acquired through the study of English, history, philosophy, economics, political science, psychology, sociology, business administration, mathematics and the natural sciences.

For additional information, see the College of Law web site, (www.uwyo.edu/law).

Admission Requirements and Procedures

Admission to the professional curriculum in law is granted by the admissions committee of the College of Law. The College of Law restricts the number of entering students to a class size consistent with its facilities and its educational objectives. In evaluating an application, the committee considers the applicant's undergraduate college scholastic record and score on the Law School Admission Test (LSAT).

Other criteria relevant to the probability of success in the study and practice of law will also be considered.

- Prior to beginning work in the College of Law, applicants must have a bachelor's degree from an accredited college or university, unless they have requested and been granted following exception:
- An applicant who needs not more than 6 semester hours of college credit to qualify for a bachelor's degree may be admitted in exceptional cases to law school if the committee determines that the applicant has sufficient education and preparation for the study of law; has an outstanding undergraduate scholastic record; and has an approved program signed by the appropriate undergraduate official indicating that the remaining requirements for the bachelor's degree may be met by summer school attendance or by other means that will not interfere with the study of law.
- Every applicant must take the Law School Admission Test. A packet giving information about the test, the dates on which it is given, and centers at which it can be taken, sample questions and an application form, may be obtained from Law School Admission Council, Box 2000, Newtown, PA 18940, by phone at (215) 968-1001, online at www.lsac.org.
- Every applicant must register with the Law School Admission Council Credential Assembly Service, CAS. Registration may be done through the LSAC website (www.lsac.org). The CAS will prepare a report that is transferred to the college.
- Every applicant must complete the electronic University of Wyoming College of Law Application through LSAC between October 15 and April 30. Applications received by December 15 will be considered for early admission.
- If admitted, official transcripts sent directly to the College of Law from each college attended must be on file in the Admissions Office at least 30 days before the student's registration date.

Application Deadline

An initial entering class will be selected from completed applications on file on April 30. Students who submit an application by December 15 will be considered for early admission. An application is complete only when the college has received the LSAT score, the CAS report, applications, and all supporting documents.

Admission With Advanced Standing

Transfer students are admitted only when the College of Law facilities and curriculum permit. A transfer student may transfer up to the number of credits the student could have earned had the student completed his or her first year at the University of Wyoming College of Law. Transfer credit will be given only for courses in which the student earned a grade of C or higher. Applicants admitted must satisfy the requirements for graduation established by the College of Law, including such other

requirements as may be imposed as a condition of admission. Students interested in transferring should contact the College of Law for information concerning application procedures.

Academic Regulations

The Juris Doctor (J.D.) degree is awarded by the College of Law faculty to candidates who meet the following requirements:

Curriculum is subject to change at the College of Law Faculty's discretion, which may cause the annually updated university catalog to be out of date. For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) of law coursework in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law. Courses taken for S/U grades count toward the hours required for the J.D. degree only if the course is offered for the S/U grade only. Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

The course of study must be completed no earlier than 24 months (2 years) and not later than 84 months (7 years) after a student has commenced law study. No student shall be permitted to enroll at any time in coursework that, if successfully completed, would exceed 20 percent (18 hours) of the total coursework required for graduation.

Second and third year students may take up to six of 90 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students must receive a letter grade of B or better for these non-law courses to count toward graduation requirements. Additionally, these courses will transfer in with a satisfactory grade of 'S' and will not impact their law school GPA. Students who wish to enroll in a non-law course on this basis must secure the prior approval of the course professor and the Associate Dean of Academic Affairs at the College of Law. Approval will be based on the student's submission of a Non-Law Grad Course Request form with a brief written statement explaining how the proposed coursework relates to and enhances the student's legal education. Students should be aware that non-law courses completed on this basis will not count toward the 76 hours that students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law. To receive law school credit for the non-law course, a student will be required to earn a grade of B or better in the non-law course. The grade will not count, however, toward the student's law school GPA. The course will be counted as a "satisfactory" grade for purposes of the student's law school GPA. Joint degree students should be aware that non-law courses completed on this basis will not count toward the 73 hours that joint degree students must complete in graded courses as a requirement for graduation. The non-law coursework will instead be counted as credits the law students are permitted to take on an S/U basis.

To graduate, all students must earn a cumulative grade point average of 2.000 for all courses taken at the College of Law. If a course is repeated, both grades shall be included in computing the average. The student, except in exceptional circumstances, must have a baccalaureate degree. Candidates who meet these requirements are eligible for graduation at the end of any semester.

Academic Standing

The following requirements apply to any coursework at the College of Law. Courses that law students may complete outside of the College of Law do not count in calculation of the required College of Law grade point average (GPA).

In the first year, a student who fails to make a 1.800 GPA after the first semester, or fails to make a 1.900 cumulative GPA overall in the first year's work, shall be excluded from the College of Law. A student who at any time fails to make a passing grade in two of the courses for which the student is registered in any semester shall be excluded from the College of Law.

A student who enters the second year with a GPA lower than 2.000 but at 1.900 or above, or who fails to maintain a 2.000 cumulative GPA after the first year, shall be placed on academic probation. A student on academic probation who does not attain an overall grade point average of 2.000 within one semester shall be excluded.

A student excluded from the College of Law may petition the faculty for readmission. The faculty may, in its discretion, readmit the student upon receipt of satisfactory evidence of extenuating circumstances or marked improvement in grades and study habits. Readmission may be subject to conditions, including, but not limited to, the repeating of any or all courses, as the faculty may decide. If a student's petition for reinstatement is denied, the student must wait nine months before petitioning again for readmission. Also, all students are limited to two petitions for readmission. The entire faculty will automatically hear and consider a student's initial petition. In the event of a second petition for readmission, a committee selected by the Dean will hear and consider the petition. The committee will present a report and recommendation to the faculty for adoption. Denial of a second petition is final.

Advanced Writing Requirement

As a condition of graduation, all students must complete an upper-level writing requirement consisting of a research paper of a minimum length of 5,000 words, exclusive of footnotes. All students must follow a designated standard citation form. Students must submit a detailed outline of the paper to the supervising professor, then must rewrite the paper at least once after the professor reviews the first draft. With the professor's approval, the student can meet the advanced writing requirement in any law school elective course, including a seminar, as long as the above requirements are met. The supervising professor must certify that the writing requirement has been fulfilled.

All student articles written for law review, whether published or unpublished, must have a supervising faculty member and otherwise meet all other provisions of the College of Law Advanced Writing Requirement. A student may also fulfill the requirement through an independent study or by writing a case note or comment for the law review, under the supervision of a professor. It cannot be satisfied through participation in a clinic.

Attendance Requirement

Students must attend at least 75 percent of regularly scheduled classes in each required course. A professor in a required course may impose an attendance requirement of greater than 75 percent if the policy is announced in writing on the first day the class meets.

In elective courses, students must attend at least 75 percent of regularly scheduled classes unless the professor announces a different policy in writing on the first day the class meets. Any alternative policy must comply with the American Bar Association (ABA) requirement of regular and punctual attendance.

A student who fails to meet the minimum class attendance requirement in any class will be dropped from the course and receive a grade of F, unless extenuating circumstances are present, in which case the student shall receive a grade of W. A professor may impose sanctions for students who have met the minimum class attendance requirement but in other respects have violated specified attendance guidelines, if the professor announces the guidelines and possible sanctions in writing on the first day the class meets.

The following table indicates the number of classes a student must attend under the 75 percent rule in a two hour or three hour course, depending on the number of class meetings. Students must verify with the professor the number of classes required in a one or four hour course.

The ABA requires attendance at 75 percent of all scheduled class times.

3-Credit Course (meeting three times a week for 55 minutes each):

<u>Class Meetings</u>	<u>Must Attend</u>
40	30
41	31
42	32

2-Credit Course (meeting twice a week for 55 minutes each) or a 3-Credit Course (meeting twice a week for 80 minutes each):

<u>Class Meetings</u>	<u>Must Attend</u>
26	20
27	20
28	21

Class Rank

Students are ranked by class at the end of each of the fall and spring semesters once the faculty have submitted all grades. Class rankings will be available in the Front Office. Students can choose to have their spring class ranking letter mailed to them if they provide the Front Office with a self-addressed, stamped envelope. Transfer students to the College of Law shall not be ranked with other UW students until they have completed two full-time semesters at UW (or a minimum of 24 UW credits). Students who visit out at other ABA accredited law schools or who graduate early are ranked based on their ranking at the end of their last semester at UW.

Experiential Learning Requirement

As a condition of graduation, each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses. Experiential learning courses include a simulation course, a law clinic, or an externship field placement. Simulation courses provide substantial experience not involving legal representation of an actual client, that (1) is reasonably similar to the experience of a lawyer advising or representing a client or engaging in other lawyering tasks in a set of facts and circumstances devised or adopted by a faculty member; and (2) includes: direct supervision of the student's performance by the faculty member; opportunities for performance, feedback from a faculty member, and self-evaluation; and a classroom instructional component (ABA Standard 303).

Typically students may fulfill the experiential learning requirement by successfully completing 6.0 credit hours in any of the following upper- class elective courses:

- Advanced Appellate Advocacy (LAW 6520)
- Advanced Legal Research (LAW 6990)
- Advanced Oil & Gas Law (LAW 6992)
- Advanced Persuasive Writing (LAW 6925)
- Alternative Dispute Resolution (LAW 6915)
- Business Planning (LAW 6560)
- Civil Pretrial Practice (LAW 6565)
- Clinic: Civil Legal Services (LAW 6930 or LAW 6931)
- Clinic: Defender Aid (LAW 6932 or LAW 6930)
- Clinic: Energy, Environ. & Natural Resources (LAW 6933 or LAW 6930)

Clinic: Family & Child Advocacy (LAW 6930 or LAW 6934)
 Clinic: International Human Rights (LAW 6930)
 Clinic: Prosecution Assistance (LAW 6930 or LAW 6936)
 Contract Drafting (LAW 6935)
 Estate Planning (LAW 6670)
 Estate Planning Practicum (LAW 6937 or LAW 6930 or LAW 6915)
 Externships (LAW 6960)
 Interviewing, Counseling & Negotiation (LAW 6166 or LAW 6915)
 Summer Trial Institute (LAW 6850)
 Trial Practice (LAW 6850)

Note: classes may be removed from and/or added to this list each semester.

Grading

Grades are assigned on a plus/minus system. Grades of incomplete (I), and withdrawal (W), are disregarded. A required course in which a grade of F or W or U is received must be repeated. A course cannot otherwise be repeated without the consent of the faculty. If a course is repeated, both grades are included in computing the student's grade point average.

A4.00	B +3.333	C+2.333	D+1.333	F0.000
A-3.667	B3.000	C2.000	D1.000	WF0.000
	B-2.667	C-1.667	D-0.667	

Satisfactory (S) or unsatisfactory (U) grading applies only if the course is offered on an S/U basis or a student takes a non-law graduate-level course as explained above. Students from other colleges who are permitted to take professional courses in the College of Law must take them for S/U credit. The grading scale is at discretion of the instructor for each course.

Bar Exam Passage Rate Improvement Program

Students matriculating after August 2021, a student whose first-year GPA is in the bottom one-third of the class will be required to pass four of the following courses as a requirement of graduation: Business Organizations (or one of either Agency and Partnership or Corporations); Secured Transactions; Trusts and Estates; Criminal Procedure; Criminal Adjudication; Family Law; Constitutional Law II; or Real Estate Finance. During the fall and spring semesters after the 1L year it is required to take at least one of these courses as a minimum each semester, until the requirement has been satisfied.

In order to graduate, a student whose first-year GPA is in the bottom one-third of the class will also be required to take and pass a law school-offered bar examination course as a 3L (typically in their final spring semester), unless for unanticipated reasons the College of Law does not offer that course in a particular year.

Curriculum

Required Courses: First (1L) Year Students (*Additional courses cannot be taken the first year without special permission from a dean*).

Fall Semester

Civil Procedure I (6240) - 3

Contracts I (6110) - 3

Legal Research (6165) - 1

Legal Writing I (6160) - 3

Property I (6120) - 3

Torts I (6130) - 4

Spring Semester

Civil Procedure II (6340) - 2

Constitutional Law I (6250) - 3

Contracts II (6210) - 2

Criminal Law (6140) - 3

Legal Writing II (6260) - 2

Property II (6220) - 2

Required Courses: Second (2L) Year Students (offered once per year)

Evidence (6410) - 3

Professional Responsibility (6420) - 3

Elective Courses: Second (2L) & Third (3L) Year Students (* subject to availability)

See Law Courses section

Graduation with Honors

The degree of Juris Doctor is awarded with honors if the student achieves a grade point average of 3.400 or better on all resident credit in the College of Law.

Honor Roll

Students enrolled in a minimum of 12.0 semester hours of law courses carrying A-F grades, and who have no semester grades of incomplete (I), are eligible for the President's Honor Roll and the Dean's Honor Roll. Students with a semester average of 4.000 will be named to the President's Honor Roll. First-year students with a semester average of 3.250 or better and second-year and third-year students with a semester average of 3.400 or better will be named to the Dean's Honor Roll.

Minimum Hours

The College of Law does not permit students to attend on a part-time basis. Students are required to take the full load of required courses during their first two semesters and to carry at least 9 credit hours in each of the remaining semesters of law study. Notwithstanding, if a student has less than 9 credits remaining in their final semester of study, then said student may register for only the number of remaining credits (e.g. if a student only has 4 credits left to graduate, that student will only be required to register for 4 credits). First year students will be allowed to take less than the full load of required courses only if they present exceptional circumstances, as determined by the Dean or his/her delegate.

Transfer Credits

The College of Law admits transfer students only in the fall of their second year. A student granted transfer admission may transfer credits earned in courses taken at another ABA-accredited law school toward a degree from the UW College of Law up to the number of credits that a traditional UW student would have earned during the student's first year at the University of Wyoming (32 credits as of the 2020-21 academic year). In addition, University of Wyoming law students who visit out for a semester or full year may also transfer credits from other ABA approved law schools, as long as 59 credits are completed at the University of Wyoming. The College of Law will also accept up to 15 hours of transfer credit from another ABA accredited school for an international student previously enrolled in an LL.M. or other post-J.D. program. To receive transfer credit from a course, a grade must be a "C" or better. Transfer credits are recorded on the JD transcript as an "S" (Satisfactory), instead of graded credits. All transfer credits must be approved by the Associate Dean of Academic Affairs in advance.

Withdrawing from a Course &/or the University

Failure to attend class or failure to pay tuition does not constitute withdrawal from a class or from the University. Students who pre-register for classes on WyoWeb will be assessed tuition and fees. Students who drop or withdraw from their last or only class for a given term after the end of the drop/add time period must also meet with the Assistant Dean of the College of Law and complete the official withdraw forms required by the Office of Registrar. Financial aid recipients who withdraw from courses or reduce credit hours must consult with a financial aid counselor regarding repayment of financial aid funds if applicable. For more complete details regarding deadlines, refunds, and cancellations, see the University's Accounts Receivable web page <http://www.uwyo.edu/fsbo/accounts-receivable/>

Exam Procedures and Policies

- Review the Honor Code before beginning the exam period. It applies to all examinations. If you have any questions about the materials allowed by a professor, please see the professor in advance of the exam.
- A copy of the final exam schedule will be posted on the web, please check dates and times carefully.
- We use exam numbers, rather than students' names, so that professors cannot identify the students' exams they are grading. Exam numbers will be available in ExamSoft one to two weeks before the exam period. You must write this number on all of your exams and blue books, or as your identification number for typed exams. **DO NOT** write your name on your exam. Midterm exams and final exams have unique numbers. Save these numbers, as you will use the same number for all of your midterm and final exams respectively. New numbers are assigned each semester.
- All examinations must be: (A) written in ink in 8 1/2 x 11 size "blue books," OR (B) typed on the student's laptop using the ExamSoft software. Students provide their own blue books, pens or laptops. The law school will supply answer sheets and pencils for any multiple choice exams.
- If you are using a laptop:
- Exemplify (SofTest) is operable for PC's and Mac's. Please reference this site for the most up to date Minimum System Requirements, Exemplify: Minimum System Requirements - ExamSoft
- You must download the exam software (free for students) well in advance of the exam day.

- Have your laptop set up and the software running in the designated room before the time to begin the exam.
- Instructions for using the ExamSoft Examplify (SofTest) software are available at the Examsoft website (use Chrome or Firefox ONLY).
- If you experience any problems with your computer during the exam, come to the front office immediately and someone will assist you.
- Once you complete the exam, and have turned in your exam questions, be sure you receive the "upload successful" message to assure that your exam answers have been transmitted.

6. All exam reschedules must be approved by COL Assistant Dean, Lindsay Hoyt or the Registrar. You must meet the criteria published within the exam schedule to reschedule an exam, i.e., two exams on one day, three exams in three days, or four exams in five days. Fill out the exam reschedule request form and turn it into COL Registrar, Dave Bluemel. Please note, that if possible, an elective will be rescheduled rather than a large required class, and rescheduled to a later, rather than an earlier date.

7. Students who are handwriting their exams must return the exam questions and blue books to a staff member in the lobby outside the Dean's office at or before the time indicated on the exam. Laptop users should exit the exam software and turn in the exam questions to a staff member at or before the time indicated. It is your responsibility to determine the precise time the exam is to be returned and to ensure that you meet the deadline. Use the clock in the exam room for reference, not the clock that may appear on your computer or the time on your wristwatch.

8. During the exam, turn off (or leave outside the room) all cell phones, smart watches, pagers, and PDA's. Do not leave them on vibrate, as this may be disturbing to other students.

9. When you finish your exam, please be courteous/quiet as you gather your belongings and leave the exam room. You MAY NOT return to the room to gather your belongings after you have turned in your exam, unless it is after the collection time indicated on the exam. **Be** aware that students are taking exams in both the morning and the afternoon and are taking exams that have differing ending times -- so please curb your talking in the classroom areas and halls during the administration of exams.

10. If you cannot take the exam at the set time due to illness, or other emergency, you must notify Assistant Dean Lindsay Hoyt, as soon as possible, prior to the exam and be prepared to supply appropriate documentation.

11. Final grades will be available on WyoWeb. No grades will be given over the telephone.

Final Exam Reschedule Policy

No student is required to take exams in the following circumstances as long as they submit a reschedule form two weeks prior to the first day of exams:

- two exams on one day
- Three exams in three consecutive days
- four exams in five consecutive days

Students who have six final exams cannot be provided relief due to the limited number of exam days. Efforts will be made, however, to distribute the six exams so as to avoid three in a row. A student who meets the above criteria must see Assistant Dean Lindsay Hoyt to reschedule. Exams are not normally rescheduled outside of the regular exam period.

Disability Assistance

The University of Wyoming College of Law is committed to making its programs accessible to individuals with disabilities and ensuring a robust academic experience for all students. The College of Law works closely with the Disability Support Services office on the University's main campus to coordinate a variety of services for students with disabilities. The Americans with Disabilities Act (ADA) and Section 504 of the Rehabilitation Act of 1973 guarantee equal access to programs and services to those with disabilities. In order to be a qualified individual subject to the protections of these Acts, a person must demonstrate

that he or she has a disability that substantially limits a major life activity (e.g., seeing, hearing, walking, breathing, performing manual tasks, learning, caring for oneself, and working) and, as such, requires a reasonable accommodation in order to have equal access. This section of the College of Law's policies explains a student's rights and responsibilities in seeking to receive accommodations from the College of Law because of a disability. The process and procedures outlined here apply to law school classroom accommodations, exam accommodations, and accommodations related to accessing the University's facilities.

- **Rights and Responsibilities in Requesting Reasonable Accommodations**

- **Accommodation Request Deadlines**

- The deadlines for students requesting accommodations is 2 weeks before the start of the academic year or semester for classroom and exam accommodations.
- Extensions to these deadlines may be granted to students who were unable to meet the deadline due to extenuating circumstances. Accommodations are prospective; retroactive accommodations are not available. For this reason, it is important that the student timely submit requests for accommodations.

- **B. Accommodation Process and Procedure for Classroom and Exam Accommodations**

1. A student who believes that he or she has a qualifying disability warranting accommodation for academic programs, exams or access to the University's facilities should submit their requests for accommodations through the University of Wyoming's Disability Support Services (DSS), by contacting udss@uwyo.edu or 307 766-3073 or applying through the website found here: <https://www.uwyo.edu/udss/>.
2. The DSS application process is required and separate from any communication with College of Law staff. Students *should not* go directly to any faculty in an effort to arrange accommodations for disabilities.
3. Once the student submits the completed application and supporting medical documentation, DSS will review the documentation to verify the existence of a qualifying and make a decision regarding the student's eligibility for services. DSS also may request additional documentation at any time or may request that the student's physician or other licensed health professional speak directly to the DSS staff.
4. Following the determination that the student has a qualified disability, DSS and the Assistant Dean of the College of Law, as the designated liaison for the College and its faculty, will consult together to make a determination regarding the student's requested accommodations related to the student's courses, exams, and access to university facilities.
5. A reasonable accommodation is an accommodation that does not impose an undue financial or administrative burden on the College of Law and does not fundamentally alter the nature of the educational service, program, or activity at the College of Law.
6. DSS is responsible for making determinations about reasonable accommodations after consulting with the Assistant Dean of the College of Law and will then notify the student by email of the decision to deny, grant, or partially grant or provide a reasonable alternative to the requested accommodations. This email is required prior to any accommodations being made.
7. Information regarding a student's disability and any accommodations provided shall be disclosed only when necessary in furtherance of the student's education or to individuals who have a need to know the information as determined by the University. As a general rule, when feasible, student anonymity will be maintained.
8. For any exam condition accommodations, DSS will notify the Assistant Dean of the College of Law who will oversee the implementation of the accommodation. DSS will also notify any other law school staff designated by the Assistant Dean of the College of Law who are needed to implement the accommodation (e.g. the designated testing coordinator, faculty etc.). Students will be provided notice of the time and place of their accommodated testing by DSS.
9. For classroom accommodations, the Assistant Dean of the College of Law will oversee implementation of the accommodations and notify the faculty of the particular course if the accommodations provided affect the conduct of the class.
10. If a student is denied eligibility for DSS or requested reasonable accommodations, the student may request a review of these determinations by the Vice President for Student Affairs consistent with the process mentioned here <https://www.uwyo.edu/udss/laws-and-complaint-processes/if-and-when-you-disagree.html> Students who have questions about

the review process may contact DSS for more information. The Vice President for Student Affairs may consult with the Dean of the College of Law prior to making a final determination.

II. Rights and Responsibilities of the Student after Receiving Classroom and Exam Accommodations

- A student must renew his or her request for accommodations each semester by meeting with DSS in order to determine whether new and different accommodations are necessary for the student's disability to be accommodated. Requests for classroom and exam accommodations must be made two weeks prior to the beginning of the semester. At these meetings, DSS may request that the student submit updated documentation verifying the nature and extent of the student's disability.
- If a student's condition changes at any time, thereby affecting the nature and extent of his or her disability, the student must notify the DSS immediately and DSS will consult with the Assistant Dean of the College of Law, as the designated liaison for the College to engage in the interactive process set forth in section I(B)(4).
- If there is a problem with any accommodations that a student receives, whether it is related to a course, an exam, or access to a facility, the student must promptly notify DSS who will coordinate with the Assistant Dean of the College of Law so that steps may be taken, to the extent practicable, to resolve the problem.
- Communication via accommodations (including exam schedules and room assignments) will be made using the student's email account. A student is responsible for checking email on a timely basis to determine the status of any issue relating to the accommodation that has been put in place for a particular disability. If the student's disability prevents physical access to email, an alternative method of communication will be determined in consultation with DSS, the College of Law, and the student.

III. Requests for Accommodations Related to the College of Law Facilities

Any requests for disability accommodations related to the College of Law buildings or University grounds may be initiated by contacting DSS or the Assistant Dean of the College. DSS and/or the College of Law will work collaboratively regarding any requests and may involve other campus units, including but not limited to the UW Operations, in order to process and/or implement reasonable accommodations related to the College of Law facilities.

Joint Degree Programs

JD/MA in ENR Program

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree.

Current core courses: ENR 5000, ENR 5900, ENR 5890.

JD/MBA Program

A joint Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In either their second or third year, students will be enrolled full-time in the MBA Program, taking core Fall and Spring business courses followed by participation in an MBA Summer Project. The MBA Capstone course will be completed during the student's third year for a total of 38 MBA Program credits. Nine (9) credit hours of approved Law coursework will be transferred as elective hours to the MBA Program for a total of 47 credit hours. Additionally, nine (9) credits of approved MBA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Students successfully completing this lock-step program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current core courses: MBAM 5102, MBAM 5104, MBAM 5107, MBAM 5202, MBAM 5204, MBAM 5207, MBAM 5208, MBAM 5209, MBAM 5305, MBAM 5330.

JD/MPA Program

A student in the joint Juris Doctor/Master of Public Administration program must be admitted to both the College of Law and College of Arts and Sciences. The degrees are awarded concurrently by each college upon successful completion of the combined degree program requirements. In fulfillment of the J.D. degree, the College of Law will accept up to nine hours of MPA credits in courses approved by the law faculty (see Academic Regulations). In fulfillment of the MPA degree, the College of Arts and Sciences will accept up to 12 hours of credits earned in specified courses in the J.D. program. For additional information regarding these joint degree programs, contact the College of Law or the joint program of interest.

Current core courses: POLS 5000, POLS 5400, POLS 5410, POLS 5440, POLS 5684, POLS 5510, POLS 5690, POLS 5080, POLS 5060, POLS 5450, POLS 5460, POLS 5480

Nonprofessional Degree Students

Graduate students from other colleges of the University of Wyoming may be permitted to take one or more law courses on an S/U basis for non-law credit when the following conditions are met: the law course taken is acceptable for their degree program and the prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean has been obtained. In order to obtain audit or visitor privileges, students must obtain prior written approval of the professor assigned to the course and the Associate Dean or Assistant Dean. For further information and requirements contact the Associate Dean of Academic Affairs, College of Law, Dept. 3035, 1000 E. University Ave., Laramie, WY 82071.

Course descriptions may be obtained online at www.uwyo.edu/law.

Graduate

Juris Doctor

The goal of the College of Law is to provide a sound and thorough education in the law that will prepare the student to practice law in accordance with the highest standards of professional competence and responsibility.

Curriculum

Overall Hours

For students matriculating in or after the fall 2013 semester, each student must successfully complete (grade of "D-" or better for courses taken at this school, grade of "C" or better for courses taken elsewhere) 90 credit hours (required for graduation) in accordance with the official curriculum as adopted by the College of Law faculty. At least 59 of these credits must be completed at the University of Wyoming College of Law.

The College of Law automatically approves up to 9 hours of any joint degree core courses with the corresponding prefix to their joint degree (i.e. MBAM, POLS, ENR) that meet the grade requirement, of a letter grade of B or better, to transfer in toward their law degree. If additional courses are needed outside of these respective prefixes, these will be approved on a case by case basis. Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree.

Law A-F hours

Regardless of the matriculation date, students must complete at least 76 credit hours through graded (A-F) courses.

Those students enrolled in a joint degree program may take up to 9 hours required for graduation in non-law school graduate level courses (online courses will not be approved) and apply them toward their law degree. Students in a joint degree program who use 9 non-law credit hours toward their J.D. degree may reduce their required number of graded credits from 76 to 73 so that they can participate in other S/U offerings at the College of Law.

Required Courses: First (1L) Year Students

(Additional courses cannot be taken the first year without special permission from a dean).

Fall Semester

- LAW6240 - Civil Procedure I Credits: 3
- LAW6110 - Contract I Credits: 3
- LAW6165 - Legal Research Credits: 1
- LAW6160 - Legal Writing I Credits: 3
- LAW6120 - Property I Credits: 3
- LAW6130 - Torts I Credits: 4

Spring Semester

- LAW6340 - Civil Procedure II Credits: 2
- LAW6250 - Constitutional Law I Credits: 3
- LAW6210 - Contracts II Credits: 2
- LAW6140 - Criminal Law Credits: 3
- LAW6260 - Legal Writing II Credits: 2
- LAW6220 - Property II Credits: 2

Required Courses: Second (2L) Year Students

(offered once per year)

- LAW6410 - Evidence Credits: 3
- LAW6420 - Professional Responsibility Credits: 3

Experiential Hours

Each student must successfully complete no fewer than 6.0 credit hours in experiential learning courses:

- LAW6166 - Interview, Counseling and Negotiation Credits: 3
- LAW6560 - Business Planning Credits: 3
- LAW6565 - Civil Pretrial Practice Credits: 3
- LAW6670 - Estate Planning Credits: 2
- LAW6850 - Trial Practice Credits: 3
- LAW6930 - Legal Clinic Credits: 2-3
- LAW6931 - Clinic: Civil Legal Services Credits: 3

- LAW6932 - Clinic: Defender Aid Credits: 3
- LAW6933 - Clinic: Energy, Environment and Natural Resources Credits: 3
- LAW6934 - Clinic: Family and Child Advocacy Credits: 3
- LAW6935 - Contract Drafting Credits: 3
- LAW6936 - Clinic: Prosecution Assistance Credits: 3
- LAW6937 - Estate Planning Practicum Credits: 3
- LAW6960 - Legal Externships Credits: 1-3
- LAW6925 - Advanced Persuasive Writing Credits: 3
- LAW6992 - Advanced Oil and Gas Law Credits: 3

Advanced Writing

As a condition of graduation, all students must complete an upper-level writing requirement.

Elective Courses:

Second (2L) & Third (3L) Year Students (* subject to availability);

See Law Courses section

Juris Doctor/Master of Arts in Environment and Natural Resources

Students working toward the J.D./M.A. in ENR consult a Haub School advisor to design a program of study tailored to meet their educational goals.

Academic Regulations

A joint Juris Doctor/Master of Arts of Environment and Natural Resources degree is available to all admitted law students upon application. Students in this joint degree program must take 18 credits outside the law school in ENR courses, and must take 12 law school credits from a menu of ENR-related law courses to qualify for this joint degree. Students in the joint degree program must also complete a supervised research project. Additionally, nine (9) credits of approved MA coursework (see Academic Regulations) will be applied to the Juris Doctor degree. Current core courses: ENR 5100, ENR 5900, ENR 5890, ENR 5750.

Juris Doctor/Master of Business Administration

The Juris Doctor/MBA program offered with the UW Colleges of Law and Business provides students with a high ROI. Optimize time and money spent by pursuing this dual program and tapping into quality education, networking, and career possibilities.

Academic Regulations

A dual Juris Doctor/Master of Business Administration program is available in the College of Law and the College of Business. This program will take approximately four years to complete. Students spend three years on-campus engaged in law studies. In their second year, students will be enrolled full-time in the MBA Program taking required core business courses during the Fall, Spring, and Summer as well as participating in additional required program activities (orientation, Experiential Leadership Program, Jackson Leadership Summit, MBA Executive Speaker Series, Professional Development activities, etc.). The MBA Capstone course will be the final course completed in the summer term for a total of up to 36 MBA program credits. Nine (9) credit hours of approved coursework will be transferred as elective hours to the Juris Doctor degree and up to six (6) credit hours of approved coursework will be transferred as elective hours to the MBA degree. Students successfully completing this dual program will earn dual Juris Doctor and Masters of Business Administration degrees.

Current Core Courses:

- MBAM5101 - MBA Foundations Credits: 1
- MBAM5102 - Operations Management Credits: 3
- MBAM5104 - Organization Behavior and Human Resource Management Credits: 3
- MBAM5107 - Decision Making I Credits: 1
- MBAM5202 - Data and Decision Modeling Credits: 3
- MBAM5204 - Financial Management Credits: 3
- MBAM5207 - Marketing Management Credits: 3
- MBAM5208 - Managerial Accounting Credits: 3
- MBAM5209 - Decision Making II Credits: 1
- MBAM5305 - Strategic Management Credits: 3
- MBAM5330 - Global Business Environment Credits: 3

Armed Forces Services

LTC George R. Riggan, Commander, Army ROTC
LtCol. Anthony Kusek, Commander, Air Force ROTC

It has been the consistent policy of the university in cooperation with the federal government to make courses in military science and aerospace studies available on a voluntary basis to all qualified students.

Academic credits for Army and Air Force Reserve Officers' Training Corps (ROTC) are applied toward baccalaureate and graduate degrees in varying amounts depending upon the degree plan of the student and as determined by the college concerned.

Minor

Aerospace Studies Minor

Air Force ROTC offers an Aerospace Studies minor.

The 24 credit hours required to accomplish the Aerospace Studies minor will effectively compliment many majors, provide a sound basis for future professional development, and increase the career opportunities of a UW graduate.

Minor Requirements

For the Aerospace Studies minor, the student must complete the core AFROTC program plus:

- 3 credit hours in any Management (MGT) course in the current UW catalog **AND**
- 3 credit hours in one Political Science (POLS) course listed below

OR

- 6 credit hours of Political Science courses listed below.

Political Science

- POLS1200 - Non-Western Political Cultures Credits: 3
- POLS2200 - Politics of Europe and the European Union Credits: 3
- POLS2290 - Governments and Politics of Latin America Credits: 3
- POLS 2300
- POLS2310 - Introduction to International Relations Credits: 3
- POLS3220 - Government and Politics of Russia and FSU Credits: 3

- POLS3270 - Governments and Politics of the Middle East Credits: 3
- POLS3300 - Model United Nations Credits: 1-3
- POLS 4220
- POLS4230 - Governments and Politics of Asia Credits: 3
- POLS4255 - Politics of Developing Nations Credits: 3
- POLS 4300
- POLS4340 - International Organizations Credits: 3
- POLS4360 - International Peace and Conflict Credits: 3
- POLS4870 - Seminar in International Relations Credits: 3

Army ROTC Military Science Minor

The military science minor, encompassing 22 credit hours, will prepare selected students for commissioning and establish a sound basis for their future professional development.

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

Minor Requirements

Army ROTC offers a military science minor. Effective with the Fall 2015 semester, the requirements for a minor in military science are as follows:

- ARMY3010 - Leadership and Tactics I Credits: 3
- ARMY3020 - Leadership and Tactics II Credits: 3
- ARMY3025 - Conduct of Training Credits: 1
- ARMY3026 - Assessment of Training Credits: 1
- ARMY3030 - Practicum in Leadership Credits: 3
- ARMY4010 - Dynamics of the Military Organization I Credits: 2
- ARMY4020 - Dynamics of the Military Organization II Credits: 2
- ARMY4015 - Staff Officer Practicum I Credits: 1
- ARMY4016 - Staff Officer Practicum II Credits: 1
- ARMY4025 - Principles of Training Management Credits: 1
- ARMY4026 - Preparation of Training Credits: 1
- HIST2020 - American Military History Credits: 3

OR

- HP 4900 Credits: 3

Total Credit Hours: 22

Haub School of Environment and Natural Resources

Helga Otto Haub School of Environment and Natural Resources

John Koprowski, Dean

Bim Kendall House, 804 E. Fremont St.

Phone: (307) 766-5080 FAX: (307) 766-5099

Web site: www.uwyo.edu/haub

Degrees Offered

The Haub School offers undergraduate and graduate degrees, concurrent majors and minors, certificates, and a graduate degree in partnership with the College of Law:

Bachelor of Science in Environmental Systems Science (for baccalaureate students)

Bachelor of Science in Environment & Natural Resources (for baccalaureate students, required concurrent major)

Environment & Natural Resources concurrent major (for baccalaureate or master's students earning a degree from UW)

Bachelor of Science in Outdoor Recreation & Tourism Management (for baccalaureate students)

Environment & Natural Resources minor (for baccalaureate, master's, and doctoral students)

Sustainability minor (for baccalaureate students)

Outdoor Leadership minor (for baccalaureate students)

Master of Science in Environment, Natural Resources & Society (for master's students)

Master of Arts in Environment & Natural Resources (J.D./M.A. for law students only)

Collaborative Practice minor (for master's and doctoral students)

Program Admission

Undergraduate students will apply for admission to the University of Wyoming, and then declare a major or minor within the Haub School at any point during their course of study. To declare a major or minor, students must meet with a Haub School academic advisor.

Graduate students interested in the concurrent major or minor in Environment & Natural Resources (ENR) will apply for admission to a primary degree program at the University of Wyoming. Once accepted to their primary graduate program, students must complete an additional online process to confirm their enrollment in the ENR major or minor. A one-page Statement of Purpose is required to apply. Visit the Haub School website at <https://www.uwyo.edu/haub> for details.

Applicants to the M.S. in Environment, Natural Resources & Society must apply to the University of Wyoming. Applications for graduate assistantships should be directed to the Haub School. Current application requirements are available online.

Applicants to the J.D./M.A. in ENR must apply to both the College of Law and the Haub School. Admission to the joint degree program is contingent on acceptance to the College of Law. Current application requirements are available online.

More information, including complete curricula for each academic offering, is available from the Haub School.

Haub School Requirements for Undergraduate Programs

All students declared in undergraduate Haub School programs, including majors and minors, must earn a C or better in all Haub School program requirements. Students enrolled in multiple Haub School programs must earn 12 credits unique to each program.

Undergraduate students earning a B.S. in Environmental Systems Science, a B.S. in Outdoor Recreation & Tourism Management, and/or a B.S. in Environment & Natural Resources (plus a concurrent major in another field) must also fulfill the additional following Haub School Requirements:

- Complete two courses (totaling a minimum of 6 credit hours), one to meet the U.S. Diversity (ASD) requirement and one to meet the Global Awareness (ASG) requirement. Courses approved to meet these requirements are searchable within WyoRecords under the Browse Classes feature.
- Meet all University of Wyoming requirements for earning a bachelor's degree, including, but not limited to, completion of University Studies Program (USP) requirements and maintaining a minimum 2.0 cumulative GPA for good academic standing and graduation.

Major

Environment & Natural Resources, B.S. or Concurrent Major

Environment & Natural Resources (ENR) students will gain depth and breadth across a range of interdisciplinary fields that engage with complex ENR ideas and challenges, with the goal of integrating across fields of study.

Program Overview

Students can choose to pursue:

- a concurrent major in ENR, earned alongside an approved baccalaureate degree in any other discipline, or
- B.S. in ENR, earned alongside an additional major in any other discipline.

The ENR curriculum is designed to prepare students to demonstrate learning in six key areas:

- Specialization & Integration - Students will complement their disciplinary depth with broad exposure to ENR-related disciplines and approaches.
- Spatial & Temporal Perspectives - Students will understand the temporal and spatial characteristics of ENR challenges.
- Policy - Students will recognize the content and implications of past and current ENR policies.
- Cultures & Values - Students will appreciate the diversity of ENR perspectives and experiences, including the role of personal and collective value systems and structural inequalities in shaping those systems.
- Complexity, Risk, & Uncertainty - Students will understand that ENR problems inherently involve complexity, risk, and uncertainty.
- Professional & Academic Skills - Students will acquire specific skills necessary to succeed in a range of ENR professions and/or graduate and professional school, especially proficiency in written and oral communication, applied problem solving, and collaboration.

All undergraduate students in ENR complete their coursework in conjunction with another major in any discipline.

Students must complete 36+ hours of coursework in ENR, including:

15+ Credit Hours of ENR Core Courses:

Foundations of Environmental Science

(Choose one course):

- ENR1200 - Environment Credits: 4
- ENR1500 - Water, Dirt, and Earth's Environment Credits: 4

- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4

Environment & Society

- ENR2000 - Environment and Society Credits: 3

Approaches to Problem Solving

- ENR3000 - Approaches to ENR Problem Solving Credits: 3

Environmental Assessment

- ENR4900 - Capstone in ENR Credits: 3

Applied Experience (2 credits)

- ENR4970 - ENR Internship Credits: 1-6

21+ Credit Hours of ENR Disciplines Courses:

Cultures & Values

(Choose one course):

- ENR3050 - Cultures of Nature in the United States Credits: 3
- AMST3050 - Cultures of Nature in the United States Credits: 3
- ENR4030 - Ecology of Knowledge Credits: 3
- AMST4030 - Ecology of Knowledge Credits: 3
- ENR4310 - Environmental Anthropology Credits: 3
- ANTH4310 - Environmental Anthropology Credits: 3
- ENR4412 - Global Environment History Credits: 3
- HIST4412 - Global Environment History Credits: 3
- HIST4475 - American Environmental History Credits: 3
- ENR2330 - Environmental Ethics Credits: 3
- PHIL2330 - Environmental Ethics Credits: 3
- ENR3620 - Environmental Justice Credits: 3
- POLS3620 - Environmental Justice Credits: 3
- ENR3950 - Environmental Sociology Credits: 3
- SOC3950 - Environmental Sociology Credits: 3
- GEOG3400 - Traditional Ecological Knowledge Credits: 3
- NAIS3400 - Traditional Ecological Knowledge Credits: 3
- GEOG4570 - Cultural Geography Credits: 3
- HLED4020 - Food, Health, and Justice Credits: 3
- ORTM4901 - Human Dimensions of Outdoor Recreation and Tourism Management Credits: 3
- GWST4450 - Ecofeminism Credits: 3

Economics

(Choose one course):

- AGEC4720 - Water Resource Economics Credits: 3
- ECON2400 - Economics of the Environment Credits: 3
- ENR3750 - Natural Resource Planning and Economics Credits: 3
- AGEC3750 - Natural Resource Planning and Economics Credits: 3
- ENR4560 - Conservation Entrepreneurship Credits: 3
- ERS3400 - Energy Markets & Policy Credits: 3
- GEOG3050 - Economic Geography Credits: 3

Environmental Management

(Choose one course):

- ENR4800 - Historic Preservation Credits: 3
- AMST4800 - Historic Preservation Credits: 3
- ENR4430 - Green Chemistry and Global Environmental Problems Credits: 3
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ENR2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- ZOO2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- ERS3010 - Air Quality Management Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- GEOG4080 - Management of Major River Basins Credits: 3
- GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
- REWM2000 - Principles of Rangeland Management Credits: 3
- REWM4700 - Wildland Watershed Management Credits: 3

Data Analysis

(Choose one course):

- ENR4550 - Negotiation Analysis Credits: 3
- AGEC4550 - Negotiation Analysis Credits: 3
- ENR4525 - Environmental Data Analysis Credits: 4
- GEOL4525 - Environmental Data Analysis Credits: 4
- ESS4001 - Analysis of Nature's Data Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- GIST2150 - Introduction to Programming in Geospatial Information Science and Technology Credits: 3
- GIST2140 - Survey of Remote Sensing Applications Credits: 3
- GIST4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- RNEW4130 - Applied Remote Sensing for Agricultural Management Credits: 3

Physical & Natural Science

Choose One Course:

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- ATSC2200 - Severe and Unusual Weather Credits: 3

- ENR3100 - Principles of Wildland Water Quality Credits: 3
- REWM3100 - Principles of Wildland Water Quality Credits: 3
- ENR4285 - Wildland Hydrology Credits: 3
- REWM4285 - Wildland Hydrology Credits: 3
- ENR3130 - Environmental Quality Credits: 3
- SOIL3130 - Environmental Quality Credits: 3
- GEOG4460 - Biogeography Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- ESS3480 - Environmental Change Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOG4440 - Advanced Global Climate Variability Credits: 3
- LIFE3400 - General Ecology Credits: 3
- REWM4440 - Applied Fire Ecology Credits: 3

OR Complete all Three Courses:

- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1

Policy

(Choose one course):

- ENR3300 - Environmental Policy, Conservation and Development in India Credits: 3
- ENR4750 - ENR Law and Policy Credits: 3
- ENR4051 - Environmental Politics Credits: 3
- GEOG4051 - Environmental Politics Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- ENR4052 - Federal Land Politics Credits: 3
- GEOG4052 - Federal Land Politics Credits: 3
- POLS4052 - Federal Land Politics Credits: 3
- INST4455 - Energy Security Credits: 3
- POLS4455 - Energy Security Credits: 3
- POLS4475 - Politics of Natural Resources in Latin America Credits: 3

ENR Electives

(Select from the following, minimum three credits required):

Any course with code ENR 1000-4999

An Approved Major in Any Discipline

All undergraduate students in ENR complete their coursework in conjunction with another major in any discipline.

Students can choose to pursue:

- a concurrent major in ENR, earned alongside an approved baccalaureate degree in any other discipline, or

- B.S. in ENR, earned alongside an additional major in any other discipline.

Haub School Requirements (for B.S. ENR only)

Students earning a B.S. in ENR with their degree awarded from the Haub School must additionally complete 6 credit hours of Haub School Requirements:

1. U.S. Diversity (choose one course)
2. Global Awareness (choose one course)

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Additional Requirements:

Students complete additional credit hours in consultation with advisor(s) if needed to meet minimum credits to earn a B.S. in ENR (minimum 120 credits, including 42 upper division credits) or to meet primary degree requirements.

Additionally, students must:

- earn a C or better in all courses fulfilling program requirements - including Haub School U.S. Diversity and Global Awareness courses, and degree, major, and/or minor courses;
- earn 12 credits unique to each program when enrolled in multiple Haub School programs;
- meet University of Wyoming requirements for earning a bachelor's degree, including, but not limited to, completion of University Studies Program and maintaining minimum 2.0 GPA for good academic standing and graduation.

Environmental Systems Science, B.S.

Environmental Systems Science (ESS) is an interdisciplinary undergraduate degree in environmental science, focusing on the interactions between the various components of Earth and environmental systems.

Program Overview

Students earning a B.S. in Environmental Systems Science will

- demonstrate a knowledge of interdisciplinary perspective and integrative thinking,
- understand physical and biological components of environmental systems, including the human component;
- design, conduct, and interpret scientific investigations,
- understand the ethics of scientific investigation,
- demonstrate proficiency in data collection, statistical analysis, and use of information technology tools and modeling;
- apply systems concepts to problems concerning environmental systems and their components, and construct conceptual and quantitative systems models;
- examine spatial, temporal, and spatial-temporal patterns in environmental systems, and use information technology tools to depict, project, and communicate such patterns.

Students earning a B.S. degree in ESS complete coursework including:

23+ Credit Hours of Foundations Courses:

Intro to Systems Science

- ESS1000 - Wyoming in the Earth System Credits: 3

Foundation of Biological Sciences

(Choose one course):

- PLNT1000 - Agroecology Credits: 4
- ENR1200 - Environment Credits: 4
- LIFE1010 - General Biology Credits: 4

Foundation of Earth Sciences

(Choose one course):

- ENR1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOG1010 - Introduction to Physical Geography Credits: 4
- GEOL1100 - Physical Geology Credits: 4

Foundation of Physical Sciences

(Complete all courses):

Chemistry

- CHEM1020 - General Chemistry I Credits: 4

Physics

- PHYS1110 - General Physics I Credits: 4
- OR**
- PHYS1050 - Concepts of Physics Credits: 4

Geochemical Cycles

- ESS2000 - Geochemical Cycles and the Earth System Credits: 4
- **OR**
- GEOL2000 - Geochemical Cycles and the Earth System Credits: 4

15+ Credit Hours of Spheres Courses:

Anthrosphere

(Choose one course):

- ENR4030 - Ecology of Knowledge Credits: 3
- AMST4030 - Ecology of Knowledge Credits: 3
- ENR4310 - Environmental Anthropology Credits: 3
- ANTH4310 - Environmental Anthropology Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- ENR4412 - Global Environment History Credits: 3
- HIST4412 - Global Environment History Credits: 3
- ENR3950 - Environmental Sociology Credits: 3
- SOC3950 - Environmental Sociology Credits: 3
- GEOG3400 - Traditional Ecological Knowledge Credits: 3
- NAIS3400 - Traditional Ecological Knowledge Credits: 3
- GEOG3550 - Natural Hazards and Society Credits: 3
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4

Atmosphere

(Choose one course):

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- ATSC2200 - Severe and Unusual Weather Credits: 3
- ERS3010 - Air Quality Management Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- GEOG4440 - Advanced Global Climate Variability Credits: 3

Biosphere

Choose One Course:

- ENR2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- ZOO2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- GEOG4460 - Biogeography Credits: 3
- LIFE2022 - Animal Biology Credits: 4
- LIFE2023 - Biology of Plants and Fungi Credits: 4
- LIFE3400 - General Ecology Credits: 3

- REWM2000 - Principles of Rangeland Management Credits: 3
- REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
- REWM4440 - Applied Fire Ecology Credits: 3

OR Complete all Three Courses

- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1

Lithosphere - Environmental Change

(Choose one course):

- ENR3130 - Environmental Quality Credits: 3
- SOIL3130 - Environmental Quality Credits: 3
- ENR4430 - Green Chemistry and Global Environmental Problems Credits: 3
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ESS3480 - Environmental Change Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOL3500 - Global Change: A Geological Perspective Credits: 4

Lithosphere - Hydrology & Surface Processes

(Choose one course):

- ENR4285 - Wildland Hydrology Credits: 3
- REWM4285 - Wildland Hydrology Credits: 3
- GEOG3010 - Geomorphology of Earth's Dynamic Landscapes Credits: 3
- GEOL3400 - Geologic Hazards: A Historical and Scientific Review Credits: 4
- REWM4700 - Wildland Watershed Management Credits: 3
- REWM4710 - Watershed Water Quality Management Credits: 3

17+ Credit Hours of Skills & Tools Courses:

College Algebra

- MATH1400 - College Algebra Credits: 3

Statistics or Calculus

(Choose one course):

- STAT2050 - Fundamentals of Statistics Credits: 4
- OR**
- MATH2200 - Calculus I Credits: 4

Data Analysis

(Choose one course):

- ENR4525 - Environmental Data Analysis Credits: 4
- GEOL4525 - Environmental Data Analysis Credits: 4
- ESS4001 - Analysis of Nature's Data Credits: 3
- GEOL3250 - Geosciences and Computers Credits: 4
- ZOO4400 - Population Ecology Credits: 3

GIS/Remote Sensing

(Choose one course):

- GIST1200 - Geospatial Foundations Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- GIST2140 - Survey of Remote Sensing Applications Credits: 3
- GIST2150 - Introduction to Programming in Geospatial Information Science and Technology Credits: 3
- GIST4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- RNEW4130 - Applied Remote Sensing for Agricultural Management Credits: 3

Applied Experience (1 credit)

- ESS4970 - Internship in Earth System Science Credits: 1-6

Capstone

- ESS4950 - Exploring the Earth System Credits: 3

18+ Credit Hours in an Approved Minor or Concurrent Major

18+ credit hours in an approved* minor or concurrent major as an area of specialization: Agroecology, Agronomy, Anthropology, Astronomy, Biology, Botany, Chemistry, Environment & Natural Resources, Forest Resources, Geography, Geology, GIS & Remote Sensing Certificates, Horticulture, Insect Biology, Land Surveying, Paleoenvironmental Studies, Physics, Plant Protection, Rangeland Ecology & Watershed Management, Reclamation & Restoration Ecology, Secondary Earth Science Education, Soil Science, Statistics, Sustainability, Wildlife & Fisheries Biology & Management, or Zoology

** other options available; subject to advisor approval*

6+ Credit Hours of Haub School Requirements Courses:

- U.S. Diversity (choose one course)
- Global Awareness (choose one course)

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3

- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Additional Requirements:

Students complete additional credit hours in consultation with advisor if needed to meet minimum 120 credits, including 42 upper division credits, to earn a bachelor's degree from the University of Wyoming.

Additionally, students must:

- earn a C or better in all courses fulfilling program requirements - including Haub School U.S. Diversity and Global Awareness courses, and degree, major, and/or minor courses;
- earn 12 credits unique to each program when enrolled in multiple Haub School programs;
- meet University of Wyoming requirements for earning a bachelor's degree, including, but not limited to, completion of University Studies Program and maintaining minimum 2.0 GPA for good academic standing and graduation.

Outdoor Recreation & Tourism Management, Business & Hospitality Management Concentration, B.S.

A B.S. in Outdoor Recreation and Tourism Management (ORTM) emphasizes stewardship and conservation of natural resources, tourism and outdoor recreation theories and best practices, and entrepreneurial and business management strategies.

Program Overview

Students choose one of five different concentrations.

Students earning a degree in ORTM will be expected to demonstrate learning in six key areas:

- Leadership
 - competency in leading and building diverse, collaborative teams;
 - application and evaluation of ethical, resourceful leadership principles to challenges and solutions within the ORTM industry.
- Professional Practice
 - ability to apply and critically evaluate practical, creative, ethical, and theoretical frameworks in diverse and complex professional circumstances.
- Communication
 - ability to manage dynamic relationships and demonstrate best practices in communication.
- Nimble and Creative Thinking
 - ability to strategically design, implement, and evaluate sustainable and emergent services, experiences, and opportunities.
- Trans-disciplinarity
 - synthesis and application of ecological and human communities, with the capacity to provide wise stewardship and conservation of natural resources;
 - tourism and outdoor recreation theories and best practices;
 - entrepreneurial and business management strategies.

- Place-based and Global Understanding
- skills to implement solutions appropriate for local environments that demonstrate fluency in global contexts and diverse cultures.

To fulfill the requirements, students must complete the following, earning 76+ credit hours in specified categories:

18 Credit Hours of ORTM Core Courses:

- ORTM1000 - Foundations of Recreation and Tourism Credits: 3
- ORTM1050 - Natural and Cultural Resources of the West Credits: 3
- ORTM2000 - Foundations of Customer Service and Hospitality Credits: 3
- ORTM2050 - Program Planning, Design and Delivery Credits: 3
- ORTM3000 - Tourism Theory and Practice Credits: 3
- ORTM3050 - Operations, Management and Environmental Stewardship Credits: 3

20+ Credit Hours in ORTM Foundations Courses:

Statistics:

- STAT2050 - Fundamentals of Statistics Credits: 4
- OR**

Business Fundamentals:

(Complete One Course from Each Area):

Economics:

(Choose One Course)

- ECON1010 - Principles of Macroeconomics Credits: 3
- ECON1020 - Principles of Microeconomics Credits: 3
- ECON1200 - Economics, Law and Government Credits: 3

Management:

- MGT2100 - Management and Organization Credits: 3

Marketing:

- MKT2100 - Introduction to Marketing Credits: 3

Environment & Natural Resources:

Environmental Science:

(Choose One Course)

- ENR1200 - Environment Credits: 4
- ENR1500 - Water, Dirt, and Earth's Environment Credits: 4
- ESS1000 - Wyoming in the Earth System Credits: 3
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOG1010 - Introduction to Physical Geography Credits: 4
- GEOL1100 - Physical Geology Credits: 4

Conservation & Sustainability:

(Choose One Course)

- ENR2300 - Foundations of Sustainability Credits: 3
- ENR4560 - Conservation Entrepreneurship Credits: 3
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- GEOG4040 - Conservation of Natural Resources Credits: 3
- RNEW1000 - Wyoming Wildlands: Science and Stewardship Credits: 3

People & Culture:

Social Science:

(Choose One Course)

- GEOG1000 - World Regional Geography Credits: 3
- GEOG1020 - Introduction to Human Geography Credits: 3
- PSYC1000 - General Psychology Credits: 3
- SOC1000 - Sociological Principles Credits: 3

Culture/Diversity:

(Choose One Course)

- AMST2010 - Introduction to American Studies Credits: 3
- ENR3620 - Environmental Justice Credits: 3
- POLS3620 - Environmental Justice Credits: 3
- ENR2000 - Environment and Society Credits: 3
- GEOG3400 - Traditional Ecological Knowledge Credits: 3
- NAIS3400 - Traditional Ecological Knowledge Credits: 3
- HIST2290 - History of North American Indians Credits: 3
- NAIS2290 - History of North American Indians Credits: 3
- NAIS1001 - Foundations in American Indian Studies Credits: 3
- NAIS1030 - Social Justice in the 21st Century Credits: 3
- NAIS1350 - American Indians in Contemporary Society Credits: 3

13+ Credit Hours in Synthesis & Applied Experience:

Professional Semester:

(Complete all Courses in the Same Semester)

- ORTM4900 - Outdoor Recreation and Tourism Management Business Strategies Credits: 3
- ORTM4901 - Human Dimensions of Outdoor Recreation and Tourism Management Credits: 3
- ORTM4902 - Recreation Venue Operations Credits: 3
- ORTM4903 - Capstone Credits: 3

Applied Experience (One Credit Minimum):

**students must complete a 400-hour internship experience prior to enrolling in ORTM 4970*

- ORTM4970 - Internship Credits: 1-6 *

19+ Credit-Hour Concentration:

- MGT2010 - Legal Environment of Business Credits: 3
- ACCT2010 - Principles of Accounting I Credits: 3
- HOSP4800 - Hospitality Operations Management Credits: 3

Management:

(Choose One Course)

- MGT3410 - Human Resources Management Credits: 3
- MGT3420 - Organizational Behavior and Leadership Credits: 3
- MKT4590 - Sustainable Business Practices Credits: 3

Sales & Marketing:

(Choose One Course)

- MKT4230 - Integrated Marketing Communication Credits: 3
- MKT4240 - Consumer Behavior Credits: 3
- MKT4440 - Services Marketing Credits: 3
- MKT4520 - Marketing Research and Analysis Credits: 3
- SELL3310 - Professional and Technical Selling Credits: 3

Approved Electives:

(Choose Two Courses):

- ECON3010 - Intermediate Macroeconomics Credits: 3
- ENTR2700 - Entrepreneurial Mindset Credits: 3
- ENTR3700 - Innovation, Ideation, and Value Proposition Credits: 3
- FIN2100 - Principles of Finance Credits: 3
- HOSP3000 - Managing Profitability in Hospitality Credits: 3
- MGT2030 - Principle-Based Ethics Credits: 3

6+ Credit Hours of Haub School Requirements Courses:

- U.S. Diversity (choose one course)
- Global Awareness (choose one course)

University Studies Program

The University Studies Program 2015

University Studies Program

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- Quantitative Reasoning Credits: 3
- PN- Physical and Natural World (1) Credits: 3
- PN- Physical and Natural World (2) Credits: 3
- H- Human Culture (1) Credits: 3
- H- Human Culture (2) Credits: 3
- V- U.S. & WY Constitution Credits: 3

Additional Requirements:

Students complete additional credit hours in consultation with advisor if needed to meet minimum 120 credits, including 42 upper division credits, to earn a bachelor's degree from the University of Wyoming.

Additionally, students must:

- earn a C or better in all courses fulfilling program requirements - including Haub School U.S. Diversity and Global Awareness courses, and degree, major, and/or minor courses;
- earn 12 credits unique to each program when enrolled in multiple Haub School programs;
- meet University of Wyoming requirements for earning a bachelor's degree, including, but not limited to, completion of University Studies Program and maintaining minimum 2.0 GPA for good academic standing and graduation.

Outdoor Recreation & Tourism Management, Management of Recreation Resources Concentration, B.S.

A B.S. in Outdoor Recreation and Tourism Management (ORTM) emphasizes stewardship and conservation of natural resources, tourism and outdoor recreation theories and best practices, and entrepreneurial and business management strategies.

Program Overview

Students choose one of five different concentrations.

Students earning a degree in ORTM will be expected to demonstrate learning in six key areas:

- Leadership
- competency in leading and building diverse, collaborative teams;
- application and evaluation of ethical, resourceful leadership principles to challenges and solutions within the ORTM industry.
- Professional Practice
- ability to apply and critically evaluate practical, creative, ethical, and theoretical frameworks in diverse and complex professional circumstances.
- Communication
- ability to manage dynamic relationships and demonstrate best practices in communication.
- Nimble and Creative Thinking
- ability to strategically design, implement, and evaluate sustainable and emergent services, experiences, and opportunities.
- Trans-disciplinarity
- synthesis and application of ecological and human communities, with the capacity to provide wise stewardship and conservation of natural resources;
- tourism and outdoor recreation theories and best practices;
- entrepreneurial and business management strategies.
- Place-based and Global Understanding
- skills to implement solutions appropriate for local environments that demonstrate fluency in global contexts and diverse cultures.

To fulfill the requirements, students must complete the following, earning 76+ credit hours in specified categories:

18 Credit Hours of ORTM Core Courses:

- ORTM1000 - Foundations of Recreation and Tourism Credits: 3
- ORTM1050 - Natural and Cultural Resources of the West Credits: 3
- ORTM2000 - Foundations of Customer Service and Hospitality Credits: 3
- ORTM2050 - Program Planning, Design and Delivery Credits: 3
- ORTM3000 - Tourism Theory and Practice Credits: 3
- ORTM3050 - Operations, Management and Environmental Stewardship Credits: 3

20+ Credit Hours in ORTM Foundations Courses:

Statistics:

- STAT2050 - Fundamentals of Statistics Credits: 4
- OR

Business Fundamentals:

(Complete One Course from Each Area)

Economics:

(Choose One Course)

- ECON1010 - Principles of Macroeconomics Credits: 3
- ECON1020 - Principles of Microeconomics Credits: 3
- ECON1200 - Economics, Law and Government Credits: 3

Management:

- MGT2100 - Management and Organization Credits: 3

Marketing:

- MKT2100 - Introduction to Marketing Credits: 3

Environment & Natural Resources:

Environmental Science:

(Choose One Course)

- ENR1200 - Environment Credits: 4
- ENR1500 - Water, Dirt, and Earth's Environment Credits: 4

- ENR3700 - Wyoming Conservation Corps Practicum Credits: 1
- ENR4960 - Field Studies in: Credits: 1-6
- ENR4970 - ENR Internship Credits: 1-6

Wilderness First Responder and CPR Certifications:

- ENR 3900 - Wilderness Medicine Credits: 1-3

OR

- provide proof of certification to advisor

**certifications must be current at time of graduation.*

Program Overview

Students earning a minor in outdoor leadership will:

- develop an understanding of leadership theories, including leadership movements, qualities, styles, and models;
- identify and evaluate the cultural and environmental dimensions of outdoor leadership, including moral and ethical responsibilities, the fundamentals of ecological systems, and the human impact on the natural world;
- demonstrate and apply outdoor leadership competency in a practical leadership role;
- plan, implement, supervise, and analyze a high-quality, safe outdoor adventure and/or educational program;
- earn and maintain a professional certification of Wilderness First Responder.

To fulfill the requirements for the minor, students must complete the following, earning 17+ credits in specified categories:

Sustainability Minor

The Sustainability minor is available to any undergraduate student at the University of Wyoming. The minor prioritizes systems thinking, civic engagement, and personal development rooted in sustainability for everyday challenges.

Program Overview

Students completing the sustainability minor will be expected to:

- demonstrate a theoretical and historical understanding of sustainability;
- develop a model of sustainability informed by personal values and integrated into student's worldview;
- think holistically about consequences of actions and intellectually respond to perspectives of sustainability outside their own, as well as explore and evaluate the implications of sustainability values;
- develop and implement sustainability solutions in their community and have the ability to apply sustainability principles to a range of disciplines and professional settings.

To fulfill the requirements for the minor, students must earn 18 credit hours:

9 Credit Hours of Sustainability Core Courses:

Foundations of Sustainability

- ENR2300 - Foundations of Sustainability Credits: 3

Campus Sustainability

- ENR4600 - Campus Sustainability Credits: 3

Ethics & Justice:

(Choose one course):

- ENR2330 - Environmental Ethics Credits: 3
OR
- PHIL2330 - Environmental Ethics Credits: 3

- ENR3620 - Environmental Justice Credits: 3
OR
- POLS3620 - Environmental Justice Credits: 3

- GWST4450 - Ecofeminism Credits: 3
- HLED4020 - Food, Health, and Justice Credits: 3
- NAIS1030 - Social Justice in the 21st Century Credits: 3
- PHIL3250 - Global Justice Credits: 3

9+ Credit Hours of Sustainability Electives Courses:

(choose three courses from any of the following categories)

Culture & Society

- AMST3050 - Cultures of Nature in the United States Credits: 3
- AMST4030 - Ecology of Knowledge Credits: 3
- AMST4800 - Historic Preservation Credits: 3

- ENR4310 - Environmental Anthropology Credits: 3
OR
- ANTH4310 - Environmental Anthropology Credits: 3

- ENR3950 - Environmental Sociology Credits: 3
OR
- SOC3950 - Environmental Sociology Credits: 3

- GEOG3400 - Traditional Ecological Knowledge Credits: 3
OR
- NAIS3400 - Traditional Ecological Knowledge Credits: 3

- GEOG3550 - Natural Hazards and Society Credits: 3
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4

Economics & Policy

- AGECE3750 - Natural Resource Planning and Economics Credits: 3
OR
- ENR3750 - Natural Resource Planning and Economics Credits: 3

- AGEC4720 - Water Resource Economics Credits: 3
- ENR4750 - ENR Law and Policy Credits: 3
- ENR4051 - Environmental Politics Credits: 3
- **OR**
- GEOG4051 - Environmental Politics Credits: 3
- **OR**
- POLS4051 - Environmental Politics Credits: 3
- ERS3400 - Energy Markets & Policy Credits: 3
- INST4455 - Energy Security Credits: 3
- **OR**
- POLS4455 - Energy Security Credits: 3

Energy & Environment

- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- ARE2410 - Fundamentals of Building Performance Credits: 3
- ENR4430 - Green Chemistry and Global Environmental Problems Credits: 3
- **OR**
- CE4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- **OR**
- GEOG3450 - Weather and Climate Credits: 3
- ENR3100 - Principles of Wildland Water Quality Credits: 3
- **OR**
- REWM3100 - Principles of Wildland Water Quality Credits: 3
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- **AND**
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- **AND**
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ERS3010 - Air Quality Management Credits: 3
- ERS4050 - Solar Energy Conversion Credits: 3
- ESS3480 - Environmental Change Credits: 3
- **OR**
- GEOG3480 - Environmental Change Credits: 3
- GEOG4440 - Advanced Global Climate Variability Credits: 3
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- GEOL3600 - Earth and Mineral Resources Credits: 4
- ME4470 - Wind and Ocean Energy Engineering Credits: 3
- REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
- SOIL3130 - Environmental Quality Credits: 3

Food Systems

- PLNT1000 - Agroecology Credits: 4
- AGE3860 - World Food, Ag, & Development Credits: 3
- ANTH4260 - Anthropology of Food, Culture, and Nutrition Credits: 3
- BOT3100 - Plants and Civilization Credits: 3
- FCSC3147 - Community Nutrition Credits: 3
- HLED4020 - Food, Health, and Justice Credits: 3
- PLNT4020 - Sustainable Agriculture Credits: 3
- PLNT4120 - Organic Food Production Credits: 3

Graduate

Collaborative Practice Graduate Minor

The Collaborative Practice minor is designed to provide students with skills in designing, organizing, facilitating, and evaluating collaborative decision-making processes.

Program Overview

Students pursuing the Collaborative Practice minor will:

- build process competencies in collaborative decision making and problem solving, and
- deepen their knowledge in the application of collaborative processes in specific contexts (natural resources, health, education, business, etc.).

Collaborative Practice minor students who are currently working towards an ENR graduate major may not count ENR 5910 or ENR 5921 towards their ENR major. ENR5450 - Negotiation and one elective (approved for both the Collaborative Practice minor and the ENR major) may count for both.

In addition to degree requirements of the student's home department, students must complete 12 credit hours:

9 Credit Hours in Collaborative Practice Core Courses:

- ENR5450 - Negotiation Credits: 3
- ENR5910 - Collaborative Practice Methods Credits: 3
- ENR5921 - Collaborative Practicum Credits: 1-3 (3 credits; may be completed for 1+ credit hours over multiple semesters)

3 Credit Hours in Collaborative Practice Electives:

Students will consult with their Haub School advisor to choose an elective to deepen their process competencies or build knowledge for application of collaborative governance in specific contexts (natural resources, health, education, business, etc). Context specific electives should focus on policy within that context.

Environment & Natural Resources Graduate Major

The ENR graduate major is completed in tandem with any UW graduate degree. Graduates will understand and evaluate the relationship of their primary discipline to other environmental fields to address the complexity of environmental challenges.

Program Overview

Students earning the ENR graduate major will take classes and conduct research in such fields as cultural studies, ecology, economics, law and politics, and management to:

- be conversant across a range of field of environmental significance, spanning science and technology to human dimensions of natural resources;
- understand and evaluate the relationship of your primary discipline to other relevant ENR fields; and
- produce discourse, scholarship, and practical solutions that address the complexity of ENR challenges.

Graduate students interested in the concurrent major in ENR will apply for admission to a primary degree program at the University of Wyoming. Once accepted to their primary graduate program, students must complete an additional online process to confirm their enrollment in the ENR major. During the Haub School admission process, students will submit a one-page Statement of Purpose. Current application requirements are available online.

In addition to degree requirements of the student's home department, students must complete 15 credit hours:

6 Credit Hours in ENR Core Courses:

- ENR5100 - Foundations of ENRS Credits: 3
- ENR5900 - Capstone in ENR Credits: 3

9+ Credit Hours in ENR Electives Courses:

(Choose three+ courses from any of the following categories)

Human Dimensions

- AGEC4720 - Water Resource Economics Credits: 3
- AGEC5660 - Community and Economic Development Credits: 3
- AMST5030 - Ecology of Knowledge Credits: 3
- ANTH5260 - Anthropology of Food, Culture, and Nutrition Credits: 3
- ECON5410 - Seminar in Advanced Resource and Environmental Economics Credits: 1-3
- ENGL4075 - Writing for Non-Profits Credits: 3
- ENR5450 - Negotiation Credits: 3
- ENR5560 - Conservation Entrepreneurship Credits: 3
- ENR5600 - Campus Sustainability Credits: 3

- ENR4310 - Environmental Anthropology Credits: 3
- OR**
- ANTH4310 - Environmental Anthropology Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- OR**
- GEOG4040 - Conservation of Natural Resources Credits: 3
- GEOG5570 - Cultural Geography Credits: 3
- GEOG5590 - Geography of Conflicts Credits: 3
- NASC5650 - Place-Based Learning Credits: 3
- REWM5103 - Range and Ranch Recreation Credits: 3
- GWST5450 - Ecofeminism Credits: 3

Law & Policy

- ENR5750 - ENR Law and Policy Credits: 3
- ENR4052 - Federal Land Politics Credits: 3
OR
- GEOG4052 - Federal Land Politics Credits: 3

- LAW6660 - Environmental Law Credits: 3
- LAW6700 - Indian Law Credits: 3
- LAW6800 - Public Lands Credits: 3
- LAW6860 - Water Law and Policy Credits: 3
- LAW6865 - Natural Resources Law Credits: 3
- POLS5051 - Environmental Politics Credits: 3
- POLS5475 - Politics of Natural Resources in Latin America Credits: 3

Natural & Physical Sciences

- BOT5280 - Paleobotany Credits: 4
- BOT5700 - Vegetation Ecology Credits: 4
- BOT5775 - Forest Ecology Credits: 4
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
AND
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
AND
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ENR5285 - Wildland Hydrology Credits: 3
OR
- REWM5285 - Wildland Hydrology Credits: 3
- ENR5240 - Disease Ecology Credits: 3
OR
- PATB5240 - Disease Ecology Credits: 3
- GEOG5450 - Fluvial Geomorphology Credits: 4
- GEOG5440 - Advanced Global Climate Variability Credits: 3
- PLNT5120 - Organic Food Production Credits: 3
- REWM5000 - Range Resource Management Credits: 3
- REWM5580 - Rangeland Restoration Ecology Credits: 3
- REWM5710 - Watershed Water Quality Management Credits: 3
- REWM5750 - Wildlife Habitat Restoration Ecology Credits: 3
- REWM5400 - Community Ecology Credits: 3
- RNEW5500 - Stable Isotope Ecology Credits: 3
- SOIL5150 - Forest and Range Soils Credits: 3

Quantitative & Qualitative Methods:

- BOT5550 - Computational Biology Credits: 4
- COJO5070 - Quantitative Research Methods Credits: 3

- ENR5550 - Negotiation Analysis Credits: 3
- OR**
- AGEC5550 - Negotiation Analysis Credits: 3
- ENR5525 - Environmental Data Analysis Credits: 4
- OR**
- GEOL5525 - Environmental Data Analysis Credits: 4
- GIST5100 - Foundations of Geospatial Information Science and Technology Credits: 3
- GIST5150 - Advanced Programming in Spatial Sciences Credits: 3
- GIST5130 - Applied Remote Sensing for Agricultural Management Credits: 3
- STAT5050 - Statistical Methods for the Biological Science Credits: 3

Additional Program Requirements:

- Statement of Purpose: Prior to or concurrent with declaring an Environment and Natural Resources (ENR) graduate major or minor, students must submit a 1-page Statement of Purpose describing how the Haub School's program aligns with their academic and professional goals.
- Cumulative Learning Analysis: Immediately prior to graduation, students must submit a 1-2 page Cumulative Learning Analysis, analyzing their learning as a whole throughout their graduate work, informed by their coursework, research and co-curricular activities.
- Program Completion Letter: Upon completion of ENR coursework, students will arrange a meeting with their advisor to ensure all requirements have been met. Once this step is complete, their advisor will submit a signed Program Completion Letter to the registrar, indicating the student should receive the ENR concurrent degree.

Environment & Natural Resources Graduate Minor

The Environment & Natural Resources (ENR) graduate minor is designed for doctoral students in any discipline who want to broaden their perspectives, experiences, and critical thinking skills to complex environmental problems.

Program Overview

The ENR minor is also available to master's students.

Graduate students interested in the concurrent minor in ENR will apply for admission to a primary degree program at the University of Wyoming. Once accepted to their primary graduate program, students must complete an additional online process to confirm their enrollment in the ENR minor. During the Haub School admission process, students submit a one-page Statement of Purpose. Current application requirements are available online.

In addition to degree requirements of the student's home department, students must complete 12 credit hours:

6 Credit Hours in ENR Core Courses:

- ENR5100 - Foundations of ENRS Credits: 3
- ENR5900 - Capstone in ENR Credits: 3

6+ Credit Hours in ENR Electives Courses:

(Choose three+ courses from any of the following categories)

Human Dimensions:

- OR**
- RNEW 5130

- STAT5050 - Statistical Methods for the Biological Science Credits: 3

Additional Program Requirements:

1. Statement of Purpose: Prior to or concurrent with declaring an Environment and Natural Resources (ENR) graduate major or minor, students must submit a 1-page Statement of Purpose describing how the Haub School's program aligns with their academic and professional goals.

2. Cumulative Learning Analysis: Immediately prior to graduation, students must submit a 1-2 page Cumulative Learning Analysis, analyzing their learning as a whole throughout their graduate work, informed by their coursework, research and co-curricular activities.

3. Program Completion Letter: Upon completion of ENR coursework, students will arrange a meeting with their advisor to ensure all requirements have been met. Once this step is complete, their advisor will submit a signed Program Completion Letter to the registrar, indicating the student should receive the ENR concurrent degree.

Environment & Natural Resources, J.D./M.A.

Through this concurrent degree program law students can add a master's degree in ENR. Students develop experience in interdisciplinary content, analytical tools, and collaborative problem-solving skills for addressing complex natural resource issues.

Juris Doctor

The Juris Doctor requirements are found here: [Juris Doctor](#)

Juris Doctor/MA in Environment & Natural Resources

Here you will find information on the Juris Doctor/Master of Arts in Environment and Natural Resources

Program Overview

Applicants to the J.D./M.A. in Environment & Natural Resources (ENR) must apply to both the College of Law and the Haub School. Admission to the joint degree program is contingent on acceptance to the College of Law. Current application requirements are available online.

Students working toward the J.D./M.A. in ENR consult a Haub School advisor to design a program of study tailored to meet their educational goals.

Students must earn a minimum of 30 credits for the master's degree:

9 Credit Hours in ENR Core Courses:

Foundations of ENRS

- ENR5100 - Foundations of ENRS Credits: 3

ENR Policy in Practice

- ENR5900 - Capstone in ENR Credits: 3

Plan B Writing Seminar (1 credit)

Typically completed in the second semester of the second year. Students must select an advisor-approved ENR 5890 section to meet this requirement.

- ENR5890 - Topics in Environment and Natural Resources Credits: 1-6

Plan B Thesis: JD/MA (2 credits)

- ENR5961 - Plan B Projects Credits: 2

9 Credit Hours in ENR Electives Courses:

Students must take a minimum of 9 credits outside the College of Law. Courses familiarize students with non-law ENR perspectives and approaches. Students work with a Haub School advisor to select courses from an approved list.

(Choose three+ courses in consultation with Haub School advisor):

Humanities

- AMST5030 - Ecology of Knowledge Credits: 3
- ANTH 5620
- ENGL4075 - Writing for Non-Profits Credits: 3
- ENR5560 - Conservation Entrepreneurship Credits: 3
- ENR5600 - Campus Sustainability Credits: 3

- STAT5050 - Statistical Methods for the Biological Science Credits: 3

12 Credit Hours in Environmental and Natural Resources Law Specialization Courses:

Students will take 12 credits to gain depth in ENR law, selected from the following options in consultation with Haub School advisor. Special approval may be granted for special topics courses.

- LAW6510 - Administrative Law Credits: 3
- LAW6660 - Environmental Law Credits: 3
- LAW6700 - Indian Law Credits: 3
- LAW6790 - Oil and Gas Credits: 3
- LAW6800 - Public Lands Credits: 3
- LAW6860 - Water Law and Policy Credits: 3
- LAW6890 - Land Use Law Credits: 3
- LAW6910 - Seminar Credits: 1-2
- LAW6991 - Advanced Water Law and Policy Credits: 3
- LAW6992 - Advanced Oil and Gas Law Credits: 3
- LAW6915 - Topics in Law Credits: 1-3
- LAW 6500 - Agricultural Law

Plan B Project Research

Students must complete a cumulative work of scholarship known as the Plan B project. The Plan B offers more flexibility than a traditional thesis in content and format. Students will be required to choose a Haub School faculty committee chair and at least two additional committee members. Committee composition is subject to approval by the program chair and Dean of the Haub School. A public oral defense of the project is required. All members of the student's committee must be present at the defense. The student's committee has to give final approval of the student's Plan B thesis and defense via a report of final examination.

Environment, Natural Resources & Society, M.S.

This master's degree program develops collaborative, interdisciplinary leaders in environmental fields such as natural resource management, planning, and administration across nonprofit, for profit, government, and academic settings.

Program Overview

Students earning the master of science in Environment, Natural Resources & Society (ENRS) will consult a Haub School advisor to design a program of study tailored to meet their educational goals. Students take courses and complete a Plan A research thesis or Plan B research project focusing on issues pertinent to environmental or natural resources management or policy.

Graduates of this program will:

- develop an interdisciplinary and collaborative mindset;
- experience critical engagement with community stakeholders and decision-makers;
- excel in team-based collaborative environments;
- gain experience in relevant and emergent research methods and practices;
- demonstrate excellent written, oral, and digital communication across a range of audiences and purposes, including developing expertise in public engagement;
- apply conceptual, critical, and creative thought to relevant environmental and natural resource issues; and,
- analyze and evaluate complex systems that contribute to inclusive, sound, and well-informed decisions.

Applicants to the M.S. in Environment, Natural Resources & Society must apply directly to the University of Wyoming. Applications for graduate assistantships should be directed to the Haub School. Current application requirements are available online.

Students must earn a minimum of 32 credit hours for the Plan A thesis option and 30 credit hours for the Plan B option:

11 Credit Hours in ENRS Core Courses:

- ENR5001 - Orientation to ENRS Credits: 2
- ENR5100 - Foundations of ENRS Credits: 3
- ENR5900 - Capstone in ENR Credits: 3
- ENR5921 - Collaborative Practicum Credits: 1-3 (3 credits; may be completed for 1+ credit hours over multiple semesters)

Plan A Thesis Credit (4 credit hours):

- ENR5960 - Thesis Research Credits: 1-12

Or Plan B Thesis Credit (2 credit hours):

- ENR5961 - Plan B Projects Credits: 2

17 Credit Hours in ENRS Electives:

Students will consult with their Haub School advisor to choose electives that support their plan of study and Plan A or Plan B thesis. Choose courses from any of the following categories:

Social & Cultural Sciences

- AGE4720 - Water Resource Economics Credits: 3
- AGE5660 - Community and Economic Development Credits: 3
- AMST5030 - Ecology of Knowledge Credits: 3
- ANTH5260 - Anthropology of Food, Culture, and Nutrition Credits: 3
- ECON5410 - Seminar in Advanced Resource and Environmental Economics Credits: 1-3
- ENR5560 - Conservation Entrepreneurship Credits: 3
- ENR5600 - Campus Sustainability Credits: 3
- ENR5910 - Collaborative Practice Methods Credits: 3

- ENR4310 - Environmental Anthropology Credits: 3
- OR**
- ANTH4310 - Environmental Anthropology Credits: 3

- ENR4040 - Conservation of Natural Resources Credits: 3

- BOT5700 - Vegetation Ecology Credits: 4
- BOT5775 - Forest Ecology Credits: 4
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- **AND**
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- **AND**
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ENR5285 - Wildland Hydrology Credits: 3
- **OR**
- REWM5285 - Wildland Hydrology Credits: 3
- ENR5240 - Disease Ecology Credits: 3
- **OR**
- PATB5240 - Disease Ecology Credits: 3
- GEOG5440 - Advanced Global Climate Variability Credits: 3
- GEOG5450 - Fluvial Geomorphology Credits: 4
- PLNT5120 - Organic Food Production Credits: 3
- REWM5000 - Range Resource Management Credits: 3
- REWM5400 - Community Ecology Credits: 3
- REWM5580 - Rangeland Restoration Ecology Credits: 3
- REWM5710 - Watershed Water Quality Management Credits: 3
- REWM5750 - Wildlife Habitat Restoration Ecology Credits: 3
- RNEW5500 - Stable Isotope Ecology Credits: 3
- SOIL5150 - Forest and Range Soils Credits: 3

Communication

- ENR5270 - Writing and Reviewing Science Credits: 4
- ENR5450 - Negotiation Credits: 3
- OR**
- AGE5450 - Negotiation Credits: 3
- ENR5870 - Graduate Seminar Credits: 1

Quantitative & Qualitative Methods

- BOT5550 - Computational Biology Credits: 4
- COJO5070 - Quantitative Research Methods Credits: 3
- ENR5550 - Negotiation Analysis Credits: 3
- OR**
- AGE5550 - Negotiation Analysis Credits: 3
- ENR5525 - Environmental Data Analysis Credits: 4
- OR**
- GEOL5525 - Environmental Data Analysis Credits: 4
- GIST5050 - Basics of Spatial Data Science Credits: 3
- GIST5100 - Foundations of Geospatial Information Science and Technology Credits: 3
- GIST5150 - Advanced Programming in Spatial Sciences Credits: 3
- GIST5130 - Applied Remote Sensing for Agricultural Management Credits: 3
- OR**
- RNEW 5130
- STAT5050 - Statistical Methods for the Biological Science Credits: 3

Plan A or Plan B Project Research:

Both Plan A and Plan B theses lead to original thought, synthesis, or integration of relevant elements of scholarship on issues pertinent to environmental and natural resources management or policy. The Plan A thesis will incorporate original research and data analysis on an applied environmental or natural resource management problem. The Plan B thesis project is somewhat more flexible and may take a variety of forms. Students will consult their major advisor and graduate committee on the form and content of the Plan A and Plan B thesis.

Other Programs

UW Credit Options for NOLS

UW recognizes the following credit options for taking a NOLS course:

Short Courses (less than 14 days)

Students may be eligible to complete 2 Hours of UW credits in the following course(s).

- ENR4960 - Field Studies in: Credits: 1-6 **

Quarter Length Courses (14-65 days)

Students may be eligible to complete up to 9 hours in the following courses.

- ENR2800 - Introduction to Outdoor Leadership Credits: 3 **
- ENR4960 - Field Studies in: Credits: 1-6 **
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6 **
- ENR4970 - ENR Internship Credits: 1-6 **

Semester & Year-long Courses (more than 65 days)

Students may be eligible to complete up to 12-24 hours in the following courses.

For year-long courses, independent study credits are also available.

- ENR2800 - Introduction to Outdoor Leadership Credits: 3 **
- ENR4960 - Field Studies in: Credits: 1-6 **
- ENR4970 - ENR Internship Credits: 1-6 **
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6 **
- ENR3900 - Seminar in Environment and Natural Resources Credits: 1-3 ***

Note:

**There are additional course requirements for 4000-level NOLS credit. Syllabi and course expectations will be shared upon enrollment.

***For courses with a Wilderness First Responder component only.

Information Literacy

Coe Library 304

Phone: (307) 766-5313

The University Libraries offer research assistance and information literacy instruction to students and faculty. Librarians provide customized class orientations to information sources in every discipline, as well as individual research consultations. Students needing research help may call, text, email, instant message, or visit any library branch.

The University of Wyoming addresses information competencies utilizing the Framework for Information Literacy for Higher Education as approved by the Association of College & Research Libraries (ACRL) and endorsed by the American Association for Higher Education. Librarians collaborate with teaching faculty in addressing these information competencies in course assignments or lectures. Information literacy is the ability to recognize and define the need for information, then locate, evaluate, and use that information effectively and ethically.

Information literacy learning outcomes are included in University Studies First Year Seminar (FYS) and Communication (COM) courses and are similar to the critical thinking learning outcomes in the H, PN, and V courses.

The Libraries also offer credit courses to help students improve research skills and to meet the Communications 2 requirement of the University Studies Program.

Learning Outcomes

We expect that students completing LBRY courses will become knowledgeable consumers of information through learning how to:

- Recognize and define the need for information;
- Efficiently locate information in the library or on the Internet;
- Evaluate the quality of information;
- Utilize information effectively, ethically, and legally.

Librarians

TAMSEN EMERSON HERT, B.A. Colorado State University 1979; M.L.S. Emporia State University 1984; M.A. 1988; Librarian, 2014, 1986.

DAVID D. KRUGER, B.S. South Dakota State University 1991; B.S.Ed. Minot State University 1994; M.A. Kansas State University 1996; M.L.S. University of Missouri at Columbia 1998; Librarian 2016, 1998.

LAWRENCE O. SCHMIDT, B.S. Montana State University 1987; M.S. 1995; M.L.S. Emporia State University 2002; Librarian 2020, 2008.

Associate Librarians

KAIJSA J. CALKINS, B.A. University of Washington, Bothell 2001, M.L.I.S. University of Washington, Seattle 2004; Associate Librarian 2012, 2006.

JANICE GROVER, B.A. University of Wyoming 2005; M.L.S. Emporia State University 2009; M.A. University of Wyoming 2017; Associate Librarian 2021.

Assistant Librarians

SAMANTHA PETER, B.A. University of Wyoming 2016; M.S.I.S. University of Texas at Austin 2018; Assistant Librarian 2018.

JESSICA RARDIN, B.A. Beloit College 2013; M.L.I.S. University of Wisconsin-Milwaukee 2021; Assistant Librarian 2021.

Geospatial Information Science and Technology

Wyoming Geographic Information Science Center
337 Agriculture C Building

Ramesh Sivanpillai, Program Director

(307)766-2532

Web site: www.uwyo.edu/WyGISC

The Wyoming Geographic Information Science Center (WyGISC) offers undergraduate and graduate courses, degrees, and certificates in Geospatial Information Science and Technology under the GIST prefix. These provide fundamental geospatial science education to undergraduate and graduate students from across disciplines at UW and are appropriate for science and non-science majors. They cover core and advanced geospatial concepts and subdisciplines including Geographic Information Systems (GIS), remote sensing, spatial data analysis, spatial visualization, spatial databases, cartography, programming, and other topics.

Faculty:

SHANNON E. ALBEKE, B.A. University of Colorado, Boulder 1997; Ph.D. University of Georgia 2010. Associate Research Scientist 2019, 2010.

KENNETH L. DRIESE, B.S. University of Virginia 1981; M.S. University of Wyoming 1992; Ph.D. 2004; Senior Lecturer in Geospatial Information Science and Technology 2019, 2002.

JEFFREY D. HAMERLINCK, B.S. University of North Dakota 1988; M.P. University of Wyoming 1992; Ph.D. University of Colorado - Boulder 2011; Senior Research Scientist 2004.

PADDINGTON HODZA, BSC, University of Zimbabwe, 1994; MSC, University of Zimbabwe, 1998; Ph.D. West Virginia University, 2007; Associate Research Scientist 2016, 2013.

AUSTIN MADSON, B.A. University of California, Los Angeles 2012; M.A. 2015; Ph.D. 2020; Assistant Professor of Geospatial Information Science and Technology 2021.

RAMESH SIVANPILLAI, B.Sc. Bharathiar University 1987; M.Sc. Cochin University of Science and Technology 1990; M.Phil. Bharathiar University 1992; M.S. University of Wisconsin, Green Bay 1995; Ph.D. Texas A&M University 2002; Senior Research Scientist 2012.

CHEN XU, B.S. Sichuan University, China 1999; M.S. Sam Houston State University 2005; Ph.D. Texas A&M University 2010; Associate Professor of Geospatial Information Science and Technology 2019.

DI YANG, B.S. Liaoning University of Petroleum and Chemical Technology 2011; M.S. Texas A&M 2013; Ph.D. University of Florida 2019; Assistant Professor of Geospatial Information Science and Technology 2020.

Geographic Information Science and Technology Degrees and Certificates

GIST degrees and certificates include a Bachelor of Science Degree in GIST (to launch Fall 2022 contingent on demonstration of student demand), undergraduate certificates in GIST and Remote Sensing, each of which can contribute to the B.S. degree; a Research Master's Degree (with thesis), an online Professional Master's Degree (no thesis), and three online graduate certificates, in GIST, Remote Sensing, and Unmanned Aerial Systems (UAS, a.k.a. drones).

Drawing on expertise from geography, computer science, mathematics, statistics, psychology, design, and others, geospatial information science refers to the multi-disciplinary research enterprise that addresses the nature of geospatial information and the application of geospatial technologies to scientific questions. Geospatial information technology is a specialized set of information and communication technologies that support the acquisition, management, analysis, and visualization of geo-referenced data. Examples include: geographic information systems; global navigation satellite systems; and satellite, airborne, drone-based, shipboard and ground-based remote sensing and image processing systems.

Successful students in Geospatial Information Science and Technology (GIST) combine proficiency in spatial thinking and geospatial data science analysis with fluency in geographic information systems, remote sensing, data analytics, and visualization. As professionals, graduates apply their knowledge and skills in a wide range of fields, from environmental management and public health, to civil engineering and urban planning, to economic analysis and marketing.

Any courses listed in degree plans that are not described in the GIST course list are under development and will be added in future catalogs as they are approved.

Undergraduate Certificates

Undergraduate certificates in GIS and Remote Sensing provide a means of adding credentials to your degree that reflect expertise in geospatial science.

Graduate Certificates

Graduate certificates provide a means for students and professionals to earn marketable credentials over the course of 1-2 semesters. These certificates require a combination of core and elective courses as outlined below and will be delivered primarily online.

Graduate

Geospatial Information Science with Thesis, Research M.S.

The Research Master of Science degree (with thesis) is delivered mainly on the UW campus but with many online courses. Students work with a graduate advisor who will guide their thesis research and chair their graduate committee. This degree requires a combination of core and elective courses that can be completed in 2 years.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Research Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree, a CV or resume, and two letters of recommendation addressing their potential for success in this master's program. Students are encouraged to initiate correspondence with a faculty member who shares their research interests before applying.

Semester 1

- GIST5150 - Advanced Programming in Spatial Sciences Credits: 3
- GIST5200 - Geographic Visualization Credits: 3
- GIST5050 - Basics of Spatial Data Science Credits: 3

Semester 2

- GIST Elective Credits 6
- GIST5220 - Spatial Modeling & Data Analysis Credits: 3

Semester 3

- GIST Electives Credits: 9

Semester 4

- GIST5002 - Geospatial Forum Credits: 1
- GIST 5960 - Thesis Research Credits: 4-12

Geospatial Information Science without Thesis, Professional M.S.

The Professional Master of Science Degree (no thesis) is delivered online. It provides a pathway for traditional students and professionals to earn a graduate credential in 2 years, but students may choose to take longer depending on their professional or personal time constraints.

Program Specific Admission Requirements

In addition to University of Wyoming graduate admission requirements, prospective students for the Professional Master of Science Degree are required to submit a statement of purpose describing their background and interest in the degree and a CV or resume.

Course Sequence

Semester 1

- GIST5050 - Basics of Spatial Data Science Credits: 3
- GIST5150 - Advanced Programming in Spatial Sciences Credits: 3
- GIST5200 - Geographic Visualization Credits: 3
- GIST5280 - Navigating GIST Professions Credits: 1

Semester 2

- GIST Electives Credits: 6
- GIST5220 - Spatial Modeling & Data Analysis Credits: 3

Semester 3

- GIST Electives Credits: 3
- GIST5300 - Web Mapping and Internet GIS Credits: 3
- GIST5350 - Enterprise GIS Credits: 3
- GIST5002 - Geospatial Forum Credits: 1

Semester 4

- GIST 5780 Credits: 3
- GIST5002 - Geospatial Forum Credits: 1

Certificate

Geospatial Information Science and Technology Graduate Certificate

This 15-credit graduate certificate gives you a rigorous academic credential in GIS that includes exposure to fundamental and advanced concepts and the chance to pursue your own interests with generous elective opportunities.

Core (9 Credits)

- GIST5050 - Basics of Spatial Data Science Credits: 3
- GIST5150 - Advanced Programming in Spatial Sciences Credits: 3
- GIST5220 - Spatial Modeling & Data Analysis Credits: 3

Electives (6 Credits)

- Choose from other GIST courses (see M.S. courses) or interdisciplinary courses

Total: 15 Credits

Remote Sensing Graduate Certificate

Remote sensing scientists use data collected by satellites, aircraft, and Unmanned Aerial Systems (drones) to address questions important for agriculture, natural resource and wildlife management, global change science, energy development and other applications. From Google Earth to complex spectral analysis, remote sensing is playing an increasingly important role in many fields. This 15-credit online graduate certificate teaches you the fundamentals of remote sensing and digital image processing, and the freedom to use elective courses to pursue your own interests in related topics.

Core (6 Credits)

- BOT 5111 - Introduction to Remote Sensing of the Environment Credits: 3
- OR**
- GIST5111 - Introduction to Remote Sensing Credits: 3
 - GIST5120 - Integration of RS and GIS Data Credits: 3

Electives (9 Credits)

- Choose from other remote sensing and UAS courses or interdisciplinary RS courses

Total: 15 Credits

Undergraduate Certificate in GIS

Undergraduate certificate in GIS provides a means of adding credentials to your degree that reflect expertise in geospatial science.

Core (10 credits)

- GIST2310 - Intro to Geographic Information Systems Credits: 4
- GIST2200 - Spatial Data Visualization Credits: 3
- GIST2190 - Intro to Programming Credits: 3

Undergraduate Certificate in Remote Sensing

Undergraduate certificate in Remote Sensing provides a means of adding credentials to your degree that reflect expertise in geospatial science.

Undergraduate Certificate in Remote Sensing Core (3 credits)

- GIST3140 - Introduction to Remote Sensing Credits: 3

Electives (6 credits)

Select any remote sensing or UAS courses (6 credits)

Total: (9 credits)

Unmanned Aerial Systems Graduate Certificate

In this certificate program, you will learn to safely use Unmanned Aerial Systems (drones) and to collect and process geospatial data acquired by them. Demand for professionals trained to operate drones and process drone imagery is growing rapidly in agriculture, natural resource management, construction, energy, transportation, business, and many other fields. A significant aspect of this 11-credit online graduate certificate (with a 2-credit, field-based flight school) is to prepare you to become an FAA certified pilot and to use industry-standard image processing techniques.

Core (8 Credits)

- GIST5410 - UAS Sensors and Platforms Credits: 1
- GIST5420 - UAS Mission Planning Credits: 1
- GIST5430 - UAS Regulations and Safety Credits: 1
- GIST5440 - UAS Ground School and Operations Credits: 2 *
- GIST5450 - UAS Photogrammetry and Imagery Process Credits: 3 *

Electives (3 Credits)

(may be optional for some graduate students, depending on their program of study)

- Choose from remote sensing courses or interdisciplinary UAS applications courses

Total: 8-11 Credits

School of Energy Resources

301 Energy Innovation Center

Phone: (307)766-6879 FAX (307)766-6701

Holly Krutka, Executive Director

Website: www.uwyo.edu/ser

The School of Energy Resources facilitates interdisciplinary academic and research programs in engineering and science, economics, and environment and natural resources policy to address critical energy-related issues faced by our society.

Our mission is to leverage and add to the already significant energy-related talent and resources in the University of Wyoming colleges to develop human resources, know-how, and technical solutions to ensure a secure and sustainable energy future for the state, region, and nation.

The University of Wyoming (UW) School of Energy Resources (SER) was created in 2006 by the Wyoming Legislature through State Statute 21-17-117. Our goal is to enhance the university's energy-related education, research, and engagement. SER directs and funds cutting-edge energy research and technology development, which integrates with the formulation and conduct of academic programs at UW and bridges academics and industry through targeted engagement efforts. The bridges formed between academics and industry ensure programs are relevant, current, and deliver impact and high value to stakeholders and the state. Since its inception in 2006, SER has maintained flexibility in its focus and structure to meet the changing needs of Wyoming's energy industries and the state's economy which is now more critical than ever.

Professors:

TIMOTHY J. CONSIDINE, B.A. Loyola University 1975; M.S. Purdue University 1977; Ph.D. Cornell University 1981; SER Professor of Energy Economics 2008.

CRAIG C. DOUGLAS, A.B. Chicago University 1977; M.S. Yale University 1978; M.Phil. 1980; Ph.D. 1982; SER Professor of Mathematics 2008.

MAOHONG FAN, B.S. Wuhan University of Science and Engineering, 1984; M.S. Beijing University of Science and Technology, 1992; Ph.D. Chinese Academy of Sciences, 1997; Ph.D. Iowa State University, 2000; Ph.D. Osaka University 2003; SER Professor of Chemical Engineering 2015, 2008.

JOHN P. KASZUBA, B.S. Beloit College, 1982; M.S. Virginia Polytechnic Institute & State University 1986; Ph.D. Colorado School of Mines, 1997; SER Professor Geology & Geophysics, 2019, 2008.

SUBHASHIS MALLICK, B.Sc. Indian Institute of Technology 1976; M.Sc. 1978; Ph.D. University of Hawaii 1987; SER Professor of Geology & Geophysics 2008.

BRUCE A. PARKINSON, B.S. Iowa State University 1972; Ph.D. California Institute of Technology 1977; SER Professor of Chemistry 2008.

TARA RIGHETTI, B.A. University of Colorado Boulder 2005; J.D. 2007; SER Professor of Law 2020, 2017, 2014.

Associate Professors:

PO CHEN, B.S. Beijing University 2000; Ph.D. University of Southern California 2005; SER Associate Professor of Geology and Geophysics 2014, 2008.

DARIO GRANA, B.S. University of Pavia, 2003; M.S. 2005; M.S. University of Milano Bicocca, 2006; Ph.D. Stanford University, 2013; SER Associate Professor of Geology and Geophysics 2019, 2013.

Academic Professional:

KRISTOPHER KOSKI, B.S. Colorado School of Mines, 2005; J.D. University of Wyoming, 2008; Associate Lecturer 2017.

Accreditation

All programs at the University of Wyoming are accredited by The Higher Learning Commission, a commission of the North Central Association of Colleges and Schools Commission on Institutions of Higher Education. In addition, the Professional Land Management Concentration is one of only a few programs accredited nationally by the American Association of Professional Landmen.

Graduates from the PLM program are afforded the opportunity to sit for the Registered Landman exam. Individuals with certification can increase their salary by 20% on average. Visit landman.org to learn more.

SER Vision Statement

SER pursues the creation, sharing, and implementation of technology and knowledge for sustainable economic production of Wyoming's natural resources to generate additional employment and revenue opportunities for the state that include supply of clean energy and materials and products.

SER Mission Statement

The School of Energy Resources' academic mission is to ensure students within its interdisciplinary academic programs can illustrate a foundational understanding of fundamentals relative to energy companies and systems. In order to prepare students to meet the demands of the modern-day workforce, students will utilize critical thinking skills, negotiation techniques, and problem-solving methods applicable to a diverse array of energy projects.

Program Admission

Undergraduate students will apply for admission to the University of Wyoming and then declare a major or minor within SER at any point during their course of study. To declare a major, students must meet with the SER academic advisor. Any student can add the SER minor without meeting with an SER advisor.

One of the most important challenges of the 21st century will be to develop and manage energy resources in a sustainable manner. Projections show energy consumption worldwide will increase nearly 50 percent by 2035. And half of the leadership in the energy industries is expected to retire in the next five to ten years.

The future of energy will be characterized by increasing knowledge, relentless change, and technological innovation. As global energy industry increases in complexity, demand will dramatically grow for professionals with a multidisciplinary,

entrepreneurial skillset. Future leaders must understand complex technology within the context of business, legal, social, and public policy in order to create comprehensive and sustainable solutions.

The Energy Resource Management and Development (ERMD) B.S. program is designed to fill this need through a combination of rigorous courses, real-world internships, and undergraduate research experiences. The curriculum balances depth of learning with the breadth of understanding to train graduates for sustained competitive success in the energy workforce at the frontiers of knowledge and for self-directed, life-long learning. Students learn to focus on continuous improvement, constant assessment, and the importance of a sense of urgency and consideration of profit motive in the energy industry

Our program emphasizes career planning and provides constant one-on-one guidance and assistance to ensure optimal workforce placement. Students are strongly encouraged to complete an industry internship (the minimum GPA requirement is typically 3.000). Opportunities are also available for undergraduate research, a study abroad experience, or a summer field trip. Multiple events during the year connect students to energy industry professionals.

General Policies

- A minimum 2.00 UW GPA is required to apply for the minor.
- It is the student's responsibility to monitor requirements for the minor, along with their advisor.
- Additional courses may be required to meet individual course prerequisites.
- All classes in the minor must be passed with a grade of "C" or better.

Student Learning Outcomes

The School of Energy Resources was created in 2006 to enhance the University of Wyoming's energy-related education, research, and outreach. The Energy Resource Management and Development Program is designed to meet the demands of the energy workforce and enhance social literacy related to complex energy issues. Competency-based learning that integrates problem-solving, critical analysis of uncertain and complex issues, and constant improvement in performance are overarching components of our undergraduate program.

Energy Resource Management and Development B.S. Program Learning Outcomes:

- Identify or describe fundamental concepts of energy systems.
- Illustrate a foundational understanding of business fundamentals relative to energy companies, including organizational structure, management, entrepreneurship, and international commerce.
- Make use of critical thinking and problem-solving methods within a written group energy project.

Energy and Environmental Systems Concentration Learning Outcomes:

- Outline the skills in environmental monitoring and compliance.
- Explain energy regulation and management.
- Demonstrate the necessary skills related to the physical and social science dimensions of sustainability.

Professional Land Management Concentration Learning Outcomes:

- Apply concepts and skills to real-world problems to gain practical understanding and experience.

- Identify and navigate a valid real property transaction from contract to transfer of title.
- Define and navigate the legal and regulatory hurdles for energy development on federal, state, and fee lands.

Energy Resource Management Minor Learning Outcomes:

- Gain appreciation and understanding of fundamental concepts of energy systems.
- Acquire a foundational understanding of the commercial aspects of energy industries.
- Exhibit critical thinking and problem solving related to energy and environmental problems.
- Apply knowledge of energy technology to societal problems requiring economic and policy analysis while working in a multidisciplinary environment.

Minor

Students looking to create a focus for their coursework can add minors to the ERMD program. Courses applying towards the minor must be completed with a grade of "C" or better.

Students not already majoring in BS-Energy Resource Management and Development may add the SER minor to their program of study. More information can be found on the SER website: <http://www.uwyo.edu/ser/academic-programs/minor-erm.html>

Major

Energy Resource Management and Development, Energy & Environmental Systems Concentration, B.S.

ERMD EES Concentration

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3

- V- - U.S. & WY Constitution Credits: 3

EES Curriculum

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better. Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

- ACCT2010 - Principles of Accounting I Credits: 3
- AGEC1020 - Principles of Microeconomics Credits: 3
- DSCI4260 - Project Management Credits: 3
- ECON1300 - Oil: Business, Culture, and Power Credits: 3 **(USP: H)**
- ENGL1010 - College Composition and Rhetoric Credits: 3
- ENR1000 - Energy and Society Credits: 3 **(USP: PN)**
- ENR4750 - ENR Law and Policy Credits: 3
- ERS3010 - Air Quality Management Credits: 3
- ERS4120 - Federal Public Land Law Credits: 3
- FIN2100 - Principles of Finance Credits: 3
- FYS-First Year - Seminar Credits: 3
- GIST1200 - Geospatial Foundations Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2023 - Biology of Plants and Fungi Credits: 4
- LIFE3400 - General Ecology Credits: 3
- MATH2200 - Calculus I Credits: 4
- REWM2000 - Principles of Rangeland Management Credits: 3
- REWM2400 - Range Ecosystems and Plants Credits: 4
- REWM3100 - Principles of Wildland Water Quality Credits: 3
- REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
- REWM4580 - Rangeland Restoration Ecology Credits: 3
- REWM4700 - Wildland Watershed Management Credits: 3

OR

- REWM4710 - Watershed Water Quality Management Credits: 3
- SOIL2010 - Introduction to Soil Science Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- V- - U.S. & WY Constitution Credits: 3

COM2 Elective, Pick ONE

- COMM2010 - Public Speaking Credits: 3
- ECON2400 - Economics of the Environment Credits: 3
- ENGL2005 - Writing in Technology and the Sciences Credits: 3
- ENR2000 - Environment and Society Credits: 3
- ENR2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- ENR3300 - Environmental Policy, Conservation and Development in India Credits: 3
- ERS2500 - Communication Across Topics in Energy Credits: 3
- GEOL2220 - Communicating Earth Science Credits: 3
- HP2020 - Honors Colloquium II Credits: 3
- UWYO1600 - Veterans Transition Course Credits: 1

COM3 Elective-Pick ONE

- AGE4965 - Agribusiness Entrepreneurship Credits: 3
- AGRI4600 - Developing Organizational Leadership Credits: 3
- BOT4100 - Scientific Communication Credits: 2
- COJO3010 - Business and Professional Communication Credits: 3
- ENGL3020 - Culture, Communication, Work Credits: 3
- ENGL4010 - Technical Writing in the Professions Credits: 3
- ENGL4030 - Writing for Magazines Credits: 3
- ENGL4040 - Rhetoric, Media, and Culture Credits: 3
- ENGL4075 - Writing for Non-Profits Credits: 3
- ENR4900 - Capstone in ENR Credits: 3

Concurrent ENR majors must take ENR 4900

- ESS4950 - Exploring the Earth System Credits: 3
- POLS4840 - Seminar in Public Law Credits: 3
- REWM4900 - Rangeland Management Planning Credits: 3
- ZOO4100 - Scientific Communication Credits: 2

Chemistry Elective- Pick ONE (USP:PN for all listed)

- CHEM1000 - Introductory Chemistry Credits: 4
- CHEM1020 - General Chemistry I Credits: 4
- CHEM1050 - Advanced General Chemistry I Credits: 4

Economics Elective- Pick ONE

- AGE3750 - Natural Resource Planning and Economics Credits: 3
- AGE4600 - Community Economic Analysis Credits: 3
- AGE4700 - Economics of Range Resources Credits: 3
- AGE4720 - Water Resource Economics Credits: 3
- ECON4420 - Seminar: Economics for ENR Credits: 2-4
- ERS3400 - Energy Markets & Policy Credits: 3

Negotiation Elective-Pick ONE

- AGE4450 - Negotiation Credits: 3
- AGE4550 - Negotiation Analysis Credits: 3

Data Analysis Elective-Pick ONE

- ENR4500 - Risk Analysis Credits: 4
- ENR4525 - Environmental Data Analysis Credits: 4
- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- GEOL2120 - Quantitative GeoMethods Credits: 3
- GEOL4250 - Mathematical Geosciences Credits: 3
- GEOL4525 - Environmental Data Analysis Credits: 4
- GIST4211 - Advanced Remote Sensing Credits: 3
- IMGT2400 - Introduction to Information Management Credits: 3
- ZOO4400 - Population Ecology Credits: 3

Technical Elective- Pick ONE

- ENR3000 - Approaches to ENR Problem Solving Credits: 3
- ENR3050 - Cultures of Nature in the United States Credits: 3
- ENR3100 - Principles of Wildland Water Quality Credits: 3
- ENR3130 - Environmental Quality Credits: 3
- ENR3300 - Environmental Policy, Conservation and Development in India Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- ENR3620 - Environmental Justice Credits: 3
- ENR3700 - Wyoming Conservation Corps Practicum Credits: 1
- ENR3750 - Natural Resource Planning and Economics Credits: 3
- ENR3900 - Seminar in Environment and Natural Resources Credits: 1-3
- ENR3950 - Environmental Sociology Credits: 3
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ENR4030 - Ecology of Knowledge Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- ENR4051 - Environmental Politics Credits: 3
- ENR4052 - Federal Land Politics Credits: 3
- ENR4240 - Disease Ecology Credits: 3
- ENR4285 - Wildland Hydrology Credits: 3
- ENR4310 - Environmental Anthropology Credits: 3
- ENR4412 - Global Environment History Credits: 3
- ENR4420 - Conservation Biology Credits: 3
- ENR4430 - Green Chemistry and Global Environmental Problems Credits: 3
- ENR4500 - Risk Analysis Credits: 4
- ENR4525 - Environmental Data Analysis Credits: 4
- ENR4560 - Conservation Entrepreneurship Credits: 3
- ENR4600 - Campus Sustainability Credits: 3
- ENR4700 - Media, Science, and Society Credits: 3
- ENR4800 - Historic Preservation Credits: 3
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6
- ENR4900 - Capstone in ENR Credits: 3
- ENR4950 - Leadership in Natural Resources Management Credits: 2
- ENR4960 - Field Studies in: Credits: 1-6
- ENR4970 - ENR Internship Credits: 1-6
- ENR4975 - Independent Study Credits: 1-6
- GEOG3010 - Geomorphology of Earth's Dynamic Landscapes Credits: 3
- GEOG3030 - Geography and Development Credits: 3
- GEOG3050 - Economic Geography Credits: 3
- GEOG3400 - Traditional Ecological Knowledge Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOG3550 - Natural Hazards and Society Credits: 3
- GEOG4000 - Terrain Analysis Credits: 3
- GEOG4013 - Political Geography Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- GEOG4051 - Environmental Politics Credits: 3
- GEOG4052 - Federal Land Politics Credits: 3

- GEOG4080 - Management of Major River Basins Credits: 3
- GEOG4113 - Geological Remote Sensing Credits: 4
- REWM3000 - Plant Ecophysiology/Plant Form and Function Credits: 4
- REWM3390 - Range Judging Credits: 2
- REWM3500 - Rangeland Plant Ecophysiology Credits: 3
- REWM4000 - Poisonous Plants and Plant Toxins Credits: 3
- REWM4051 - Environmental Politics Credits: 3
- REWM4052 - Federal Land Politics Credits: 3
- REWM4100 - Nutritional Ecological Management of Range Herbivores Credits: 3
- REWM4103 - Range and Ranch Recreation Credits: 3
- REWM4150 - Behavior Modification for Production of Grazing Herbivores Credits: 3
- REWM4285 - Wildland Hydrology Credits: 3
- REWM4300 - Grass Taxonomy Credits: 3
- REWM4330 - Rangeland Ecosystem Assessment and Monitoring Credits: 4
- REWM4340 - Reclamation Techniques Field Trip Credits: 2
- REWM4440 - Applied Fire Ecology Credits: 3
- REWM4500 - Rainfall-Runoff Modeling Credits: 3
- REWM4530 - Seminar Credits: 1
- REWM4540 - Problems Credits: 1-4
- REWM4550 - Internship in: Credits: 1
- REWM4600 - Drone-Based Remote Sensing Credits: 3
- REWM4750 - Wildlife Habitat Restoration Ecology Credits: 3
- REWM4810 - Experiments in Restoration Credits: 2
- REWM4830 - Ecological Applications for Wildland Management Credits: 3
- REWM4900 - Rangeland Management Planning Credits: 3
- REWM4990 - Undergraduate Teaching Practicum Credits: 1
- RNEW3000 - Tropical Ecology Credits: 3
- RNEW4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- RNEW4400 - Invasive Plant Ecology Credits: 3
- RNEW4775 - Forest Ecology Credits: 4
- RNEW4800 - Undergraduate Research Credits: 1-3
- RNEW4990 - Topics in: Credits: 1-4
- SOIL3000 - Irrigated Agriculture Credits: 3
- SOIL3130 - Environmental Quality Credits: 3
- SOIL4100 - Soil Physics Credits: 3
- SOIL4105 - Soil Physics Laboratory Credits: 2
- SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4
- SOIL4130 - Chemistry of the Soil Environment Credits: 3
- SOIL4140 - Soil Microbiology Credits: 4
- SOIL4150 - Forest and Range Soils Credits: 3

General Electives- Must take 13 credits, 4 credits must be upper division

- BOT4775 - Forest Ecology Credits: 4
- CHE2005 - Chemical Process Analysis Credits: 3
- CHE4050 - Unit Operations Laboratory II Credits: 3
- DSCI2100 - Introduction to Operations and Supply Chain Management Credits: 3
- ECON1010 - Principles of Macroeconomics Credits: 3
- ECON4430 - Energy Economics Credits: 3
- EDSE3040 - Energy and Power Technology Credits: 3

- ENR1200 - Environment Credits: 4
- ENR2300 - Foundations of Sustainability Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- ENR3700 - Wyoming Conservation Corps Practicum Credits: 1
- ENR3750 - Natural Resource Planning and Economics Credits: 3
- ENR3900 - Seminar in Environment and Natural Resources Credits: 1-3
- ENR3950 - Environmental Sociology Credits: 3
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ENR4040 - Conservation of Natural Resources Credits: 3
- ENR4051 - Environmental Politics Credits: 3
- ENR4420 - Conservation Biology Credits: 3
- ENR4500 - Risk Analysis Credits: 4
- ENR4525 - Environmental Data Analysis Credits: 4
- ENR4550 - Negotiation Analysis Credits: 3
- ENR4560 - Conservation Entrepreneurship Credits: 3
- ENR4600 - Campus Sustainability Credits: 3
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6
- ENR4900 - Capstone in ENR Credits: 3
- ENR4950 - Leadership in Natural Resources Management Credits: 2
- ENR4960 - Field Studies in: Credits: 1-6
- ENR4970 - ENR Internship Credits: 1-6
- ERS1650 - The Water-Energy-Climate Nexus Credits: 3
- ERS4960 - Energy Field Studies Credits: 1-3
- ERS4970 - Internship Credits: 1-3
- ERS4975 - Global Experience in Energy Credits: 2-4
- ERS4990 - Topics in Energy Resource Development and Management Credits: 1-6
- ESE4460 - Solar and Geothermal Engineering Credits: 3
- ESE4470 - Wind and Ocean Energy Engineering Credits: 3
- GEOG3050 - Economic Geography Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOG3550 - Natural Hazards and Society Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- GEOG4051 - Environmental Politics Credits: 3
- GEOG4080 - Management of Major River Basins Credits: 3
- GEOG4113 - Geological Remote Sensing Credits: 4
- GEOG4440 - Advanced Global Climate Variability Credits: 3
- GEOG4470 - Fire Ecology Credits: 3
- GEOG4550 - Geography of Wine Credits: 3
- GEOG4880 - Current Topics Credits: 1-6
- GEOG4885 - Seminar: (TOPICS) Credits: 1-3
- GEOL1001 - Earth Science and Society Credits: 1
- GEOL1070 - The Earth: Its Physical Environment Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- GEOL1650 - The Water-Energy-Climate Nexus Credits: 3
- GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
- GEOL2080 - General Field Geology Credits: 3
- GEOL3250 - Geosciences and Computers Credits: 4

- GEOL3500 - Global Change: A Geological Perspective Credits: 4
- GEOL3600 - Earth and Mineral Resources Credits: 4
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
- GEOL4001 - Modeling the Earth System Credits: 4
- GEOL4010 - Exploration Geoscience Credits: 3
- GEOL4060 - Rocky Mountain Field Trip Credits: 1
- GEOL4113 - Geological Remote Sensing Credits: 4
- GEOL4190 - Petroleum Geology Credits: 3
- GEOL4191 - Methods in Petroleum Geology Credits: 3
- GIST1001 - GIST Orientation and Portfolio Credits: 1
- GIST1200 - Geospatial Foundations Credits: 3
- GIST2110 - Techniques in Cartography Credits: 3
- GIST2140 - Survey of Remote Sensing Applications Credits: 3
- GIST2150 - Introduction to Programming in Geospatial Information Science and Technology Credits: 3
- GIST2190 - Intro to Programming Credits: 3
- GIST2200 - Spatial Data Visualization Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- GIST3140 - Introduction to Remote Sensing Credits: 3
- GIST4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- GIST4211 - Advanced Remote Sensing Credits: 3
- GIST4410 - UAS Sensors and Platforms Credits: 1
- GIST4420 - UAS Mission Planning Credits: 1
- GIST4430 - UAS Regulations and Safety Credits: 1
- GIST4440 - UAS Ground School and Operations Credits: 2
- GIST4450 - UAS Photogrammetry and Image Process Credits: 3
- GIST4790 - Special Topics in Geospatial Information Science and Technology Credits: 3
- GIST4870 - Internship in Geospatial Information Science and Technology Credits: 1-12
- GIST4950 - Undergraduate Research in Geospatial Information Science and Technology Credits: 1-6
- HIST4535 - History of Oil Credits: 3
- IMGT2400 - Introduction to Information Management Credits: 3
- LIFE1002 - Discovering Science Credits: 3
- LIFE1003 - Current Issues in Biology Credits: 4
- LIFE1020 - Life Science Credits: 4
- LIFE1101 - Introduction to Ecological Research Credits: 3
- LIFE2100 - Intro Research and Analysis Credits: 4
- LIFE3410 - Introduction to Field Ecology Credits: 2
- LS2010 - Engineering Surveying Lecture Credits: 2
- LS2015 - Engineering Surveying Laboratory Credits: 1
- LS2020 - GPS for Land Surveyors Credits: 4
- LS2100 - Records Research for Surveyors Credits: 3
- LS2410 - GIS in Surveying Credits: 3
- LS3120 - Boundary Principles Credits: 2
- LS3130 - Public Land Surveys Credits: 3
- LS3200 - Route Surveying Credits: 3
- LS3210 - Advanced Surveying Credits: 4
- ME4470 - Wind and Ocean Energy Engineering Credits: 3
- MGT2030 - Principle-Based Ethics Credits: 3
- MGT3420 - Organizational Behavior and Leadership Credits: 3
- MGT4240 - Performance and Compensation Credits: 3
- MGT4260 - Training and Development Credits: 3
- MGT4340 - Law for Managers Credits: 3

- MGT4350 - Commercial Law Credits: 3
- MGT4360 - Business Law for Entrepreneurs Credits: 3
- MGT4370 - Employment Law Credits: 3
- MGT4430 - Organization Design and Change Credits: 3
- MGT4470 - Negotiations and Conflict Resolution Credits: 3
- MGT4800 - Business Strategy and Policy Credits: 3
- MGT4900 - Independent Study in Management Credits: 1-4
- MGT4910 - Topics in Management Credits: 3
- MKT2100 - Introduction to Marketing Credits: 3
- PETE4860 - Energy, Environment, and Materials Credits: 3
- PHIL2420 - Critical Thinking Credits: 3
- PLNT1000 - Agroecology Credits: 4
- PLNT1150 - Pesticide Safety and Application Credits: 1
- PLNT3030 - Ecological Web: Ecology of Plant Protection Credits: 3
- PLNT4070 - Weed Science and Technology Credits: 4
- PLNT4130 - Applied Remote Sensing for Agricultural Management Credits: 3
- POLS3620 - Environmental Justice Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- POLS4052 - Federal Land Politics Credits: 3
- POLS4385 - Environment and Resource Conflict Credits: 3
- POLS4455 - Energy Security Credits: 3
- POLS4555 - Political Ecology Credits: 3
- REWM2000 - Principles of Rangeland Management Credits: 3
- REWM2400 - Range Ecosystems and Plants Credits: 4
- REWM3000 - Plant Ecophysiology/Plant Form and Function Credits: 4
- REWM3100 - Principles of Wildland Water Quality Credits: 3
- REWM3390 - Range Judging Credits: 2
- REWM3500 - Rangeland Plant Ecophysiology Credits: 3
- REWM4000 - Poisonous Plants and Plant Toxins Credits: 3
- REWM4051 - Environmental Politics Credits: 3
- REWM4052 - Federal Land Politics Credits: 3
- REWM4100 - Nutritional Ecological Management of Range Herbivores Credits: 3
- REWM4103 - Range and Ranch Recreation Credits: 3
- REWM4150 - Behavior Modification for Production of Grazing Herbivores Credits: 3
- REWM4285 - Wildland Hydrology Credits: 3
- REWM4300 - Grass Taxonomy Credits: 3
- REWM4330 - Rangeland Ecosystem Assessment and Monitoring Credits: 4
- REWM4340 - Reclamation Techniques Field Trip Credits: 2
- REWM4440 - Applied Fire Ecology Credits: 3
- REWM4500 - Rainfall-Runoff Modeling Credits: 3
- REWM4530 - Seminar Credits: 1
- REWM4540 - Problems Credits: 1-4
- REWM4550 - Internship in: Credits: 1
- REWM4600 - Drone-Based Remote Sensing Credits: 3
- REWM4700 - Wildland Watershed Management Credits: 3
- REWM4750 - Wildlife Habitat Restoration Ecology Credits: 3
- REWM4810 - Experiments in Restoration Credits: 2
- REWM4830 - Ecological Applications for Wildland Management Credits: 3
- REWM4850 - Rangeland Vegetation Management Techniques Credits: 3
- REWM4900 - Rangeland Management Planning Credits: 3
- REWM4990 - Undergraduate Teaching Practicum Credits: 1

- SOIL2010 - Introduction to Soil Science Credits: 4
- SOIL3130 - Environmental Quality Credits: 3
- SOIL4100 - Soil Physics Credits: 3
- SOIL4105 - Soil Physics Laboratory Credits: 2
- SOIL4120 - Genesis, Morphology and Classification of Soils Credits: 4
- SOIL4130 - Chemistry of the Soil Environment Credits: 3
- SOIL4140 - Soil Microbiology Credits: 4
- SOIL4150 - Forest and Range Soils Credits: 3
- SOIL4160 - Soil Health and Nutrient Cycling Credits: 3
- SOIL4540 - Microbial Diversity and Ecology Credits: 4
- SOIL4780 - Seminar: Credits: 1-9

Energy Resource Management and Development- Professional Land Management Concentration, B.S.

ERMD PLM Concentration

Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

University Studies Program Requirements

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

PLM Curriculum

Students must earn a letter grade of C or better in each course and a cumulative GPA of 2.000 or better. Students will complete 120 credit hours for the BS in Energy Resources Management and Development.

- ACCT2010 - Principles of Accounting I Credits: 3
- ACCT2020 - Principles of Accounting II Credits: 3
- AGEC1020 - Principles of Microeconomics Credits: 3
- DSCI4260 - Project Management Credits: 3

- ECON1300 - Oil: Business, Culture, and Power Credits: 3 (**USP: H**)
 - ENGL1010 - College Composition and Rhetoric Credits: 3
 - ENR1000 - Energy and Society Credits: 3 (**USP:PN**)
 - ENR4750 - ENR Law and Policy Credits: 3
 - ERS2010 - Introduction to Land Management Credits: 3
 - ERS4010 - Exploration Geoscience Credits: 3
 - ERS4100 - Property I Credits: 3
 - ERS4105 - Property II Credits: 3
 - ERS4110 - Law of Contracts Credits: 3
 - ERS4120 - Federal Public Land Law Credits: 3
 - ERS4130 - Oil and Gas Law Credits: 3
 - ERS4135 - Advanced Energy Law Credits: 3
 - ERS4985 - Seminar Credits: 1-3
 - FIN2100 - Principles of Finance Credits: 3
 - FYS-First Year - Seminar Credits: 3
 - GEOL1100 - Physical Geology Credits: 4
 - GIST1200 - Geospatial Foundations Credits: 3
 - GIST2310 - Intro to Geographic Information Systems Credits: 4
 - MATH1405 - Trigonometry Credits: 3
- OR**
- MATH1450 - Algebra and Trigonometry Credits: 5
 - MATH2200 - Calculus I Credits: 4
- OR**
- MATH2355 - Mathematical Applications for Business Credits: 4
 - MGT2010 - Legal Environment of Business Credits: 3
 - MGT2100 - Management and Organization Credits: 3
 - STAT2050 - Fundamentals of Statistics Credits: 4
 - V- - U.S. & WY Constitution Credits: 3

COM2 Elective, Pick ONE

- COMM2010 - Public Speaking Credits: 3
- ECON2400 - Economics of the Environment Credits: 3
- ENGL2005 - Writing in Technology and the Sciences Credits: 3
- ENR2000 - Environment and Society Credits: 3
- ENR2450 - Fish and Wildlife Management in the Anthropocene Credits: 4
- ENR3300 - Environmental Policy, Conservation and Development in India Credits: 3
- ERS2500 - Communication Across Topics in Energy Credits: 3
- GEOL2220 - Communicating Earth Science Credits: 3
- HP2020 - Honors Colloquium II Credits: 3
- UWYO1600 - Veterans Transition Course Credits: 1

Ethics Elective- Pick ONE

- ENR2330 - Environmental Ethics Credits: 3
- ENR2345 - Natural Resource Ethics Credits: 3
- ENR4040 - Conservation of Natural Resources Credits: 3
- LS3300 - Ethics for the Professional Surveyor Credits: 1
- MGT2030 - Principle-Based Ethics Credits: 3
- PHIL2300 - Ethics in Practice Credits: 1-3

- PHIL2330 - Environmental Ethics Credits: 3
- PHIL2345 - Natural Resource Ethics Credits: 3
- PHIL3250 - Global Justice Credits: 3
- PHIL3300 - Ethical Theory Credits: 3
- PHIL4300 - Topics in Ethics Credits: 3-6
- PHIL4340 - Issues in Environmental Ethics Credits: 3

Economics Elective- Pick ONE

- AGECE3750 - Natural Resource Planning and Economics Credits: 3
- AGECE4600 - Community Economic Analysis Credits: 3
- AGECE4700 - Economics of Range Resources Credits: 3
- AGECE4720 - Water Resource Economics Credits: 3
- ECON4420 - Seminar: Economics for ENR Credits: 2-4
- ERS3400 - Energy Markets & Policy Credits: 3

Negotiation Elective-Pick ONE

- AGECE4450 - Negotiation Credits: 3
- AGECE4550 - Negotiation Analysis Credits: 3

Data Analysis Elective- Pick ONE

- ENR4500 - Risk Analysis Credits: 4
- ENR4525 - Environmental Data Analysis Credits: 4
- ES1060 - Introduction to Engineering Problem Solving Credits: 3
- GEOL2120 - Quantitative GeoMethods Credits: 3
- GEOL4250 - Mathematical Geosciences Credits: 3
- GEOL4525 - Environmental Data Analysis Credits: 4
- GIST4211 - Advanced Remote Sensing Credits: 3
- IMGT2400 - Introduction to Information Management Credits: 3
- ZOO4400 - Population Ecology Credits: 3

General Electives- 21 credits in total, 9 credits must be upper division

- BOT4775 - Forest Ecology Credits: 4
- CHE2005 - Chemical Process Analysis Credits: 3
- CHEM4050 - Solar Energy Conversion Credits: 3
- DSCI2100 - Introduction to Operations and Supply Chain Management Credits: 3
- ECON1010 - Principles of Macroeconomics Credits: 3
- ECON4430 - Energy Economics Credits: 3
- EDSE3040 - Energy and Power Technology Credits: 3
- ENR1200 - Environment Credits: 4
- ENR2300 - Foundations of Sustainability Credits: 3
- ENR3450 - Weather and Climate Credits: 3
- ENR3700 - Wyoming Conservation Corps Practicum Credits: 1
- ENR3750 - Natural Resource Planning and Economics Credits: 3
- ENR3900 - Seminar in Environment and Natural Resources Credits: 1-3

- ENR3950 - Environmental Sociology Credits: 3
- ENR4010 - Winter Ecology: Skills of the Winter Naturalist Credits: 1
- ENR4011 - Winter Ecology: Snowpack Science and Dynamics Credits: 1
- ENR4012 - Winter Ecology: Wildlife and Plant Adaptations Credits: 1
- ENR4040 - Conservation of Natural Resources Credits: 3
- ENR4051 - Environmental Politics Credits: 3
- ENR4420 - Conservation Biology Credits: 3
- ENR4500 - Risk Analysis Credits: 4
- ENR4525 - Environmental Data Analysis Credits: 4
- ENR4560 - Conservation Entrepreneurship Credits: 3
- ENR4600 - Campus Sustainability Credits: 3
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6
- ENR4900 - Capstone in ENR Credits: 3
- ENR4950 - Leadership in Natural Resources Management Credits: 2
- ENR4960 - Field Studies in: Credits: 1-6
- ENR4970 - ENR Internship Credits: 1-6
- ERS1650 - The Water-Energy-Climate Nexus Credits: 3
- ERS4960 - Energy Field Studies Credits: 1-3
- ERS4970 - Internship Credits: 1-3
- ERS4975 - Global Experience in Energy Credits: 2-4
- ERS4990 - Topics in Energy Resource Development and Management Credits: 1-6
- ESE4460 - Solar and Geothermal Engineering Credits: 3
- ESE4470 - Wind and Ocean Energy Engineering Credits: 3
- FIN3310 - Investment Management Credits: 3
- FIN3520 - Financial Markets Credits: 3
- GEOG3050 - Economic Geography Credits: 3
- GEOG3450 - Weather and Climate Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GEOG3550 - Natural Hazards and Society Credits: 3
- GEOG4040 - Conservation of Natural Resources Credits: 3
- GEOG4051 - Environmental Politics Credits: 3
- GEOG4080 - Management of Major River Basins Credits: 3
- GEOG4113 - Geological Remote Sensing Credits: 4
- GEOG4440 - Advanced Global Climate Variability Credits: 3
- GEOG4470 - Fire Ecology Credits: 3
- GEOG4880 - Current Topics Credits: 1-6
- GEOG4885 - Seminar: (TOPICS) Credits: 1-3
- GEOL1001 - Earth Science and Society Credits: 1
- GEOL1070 - The Earth: Its Physical Environment Credits: 4
- GEOL1500 - Water, Dirt, and Earth's Environment Credits: 4
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- GEOL1650 - The Water-Energy-Climate Nexus Credits: 3
- GEOL2000 - Geochemical Cycles and the Earth System Credits: 4
- GEOL2080 - General Field Geology Credits: 3
- GEOL3250 - Geosciences and Computers Credits: 4
- GEOL3500 - Global Change: A Geological Perspective Credits: 4
- GEOL3600 - Earth and Mineral Resources Credits: 4

- SOIL4130 - Chemistry of the Soil Environment Credits: 3
- SOIL4140 - Soil Microbiology Credits: 4
- SOIL4150 - Forest and Range Soils Credits: 3
- SOIL4160 - Soil Health and Nutrient Cycling Credits: 3
- SOIL4540 - Microbial Diversity and Ecology Credits: 4
- SOIL4565 - Research: Soil Science Credits: 1-4
- SOIL4780 - Seminar: Credits: 1-9

Minor

Energy Resource Management Minor

ERM Minor

The purpose of the ERM minor is to provide students at UW the opportunity to learn about energy and expand their career opportunities with this credential.

Core Courses- 6 credit hours needed

- ERS1000 - Energy and Society Credits: 3
- OR**
- ENR1000 - Energy and Society Credits: 3
- ERS3400 - Energy Markets & Policy Credits: 3
- OR**
- ECON3400 - Energy Markets & Policy Credits: 3

Elective Courses- 6 credit hours needed

- ECON1300 - Oil: Business, Culture, and Power Credits: 3
- OR**
- ERS1300 - Oil: Business, Culture, and Power Credits: 3
- AGE3750 - Natural Resource Planning and Economics Credits: 3
- OR**
- ENR3750 - Natural Resource Planning and Economics Credits: 3
- INST4455 - Energy Security Credits: 3
- OR**
- POLS4455 - Energy Security Credits: 3
- POLS4350 - Sustainable Development and Global Policy Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- SOC3950 - Environmental Sociology Credits: 3
- OR**
- ENR3950 - Environmental Sociology Credits: 3
- ERS2010 - Introduction to Land Management Credits: 3
- ERS4100 - Property I Credits: 3
- ERS4110 - Law of Contracts Credits: 3
- ERS4120 - Federal Public Land Law Credits: 3
- ERS4130 - Oil and Gas Law Credits: 3
- ERS3010 - Air Quality Management Credits: 3
- ERS4050 - Solar Energy Conversion Credits: 3
- OR**
- CHEM4050 - Solar Energy Conversion Credits: 3
- ATSC2100 - Global Warming: The Science of Humankind's Energy Consumption Impacting Climate Credits: 3
- GEOL4010 - Exploration Geoscience Credits: 3
- OR**
- ERS4010 - Exploration Geoscience Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- OR**
- ESS3480 - Environmental Change Credits: 3
- GEOL1600 - Global Sustainability: Managing Earth's Resources Credits: 4
- GEOL1650 - The Water-Energy-Climate Nexus Credits: 3
- OR**
- ERS1650 - The Water-Energy-Climate Nexus Credits: 3
- GEOL3650 - Energy for Society: Addressing the Energy Grand Challenge Credits: 4
- GEOL3600 - Earth and Mineral Resources Credits: 4
- GEOL4190 - Petroleum Geology Credits: 3
- OR**
- GEOL5190 - Petroleum Geology Credits: 3
- GEOL4720 - Ore Deposits Credits: 4

OR

- GEOL5720 - Ore Deposits Credits: 4
- ME4460 - Solar and Geothermal Engineering Credits: 3

OR

- ESE4460 - Solar and Geothermal Engineering Credits: 3
- ME4470 - Wind and Ocean Energy Engineering Credits: 3

OR

- ESE4470 - Wind and Ocean Energy Engineering Credits: 3
- ERS4990 - Topics in Energy Resource Development and Management Credits: 1-6
- NAIS4340 - Natural Resource Management on Western Reservations Credits: 3
- ENR4052 - Federal Land Politics Credits: 3

OR

- GEOG4052 - Federal Land Politics Credits: 3

OR

- AMST4052 - Federal Land Politics Credits: 3

OR

- POLS4052 - Federal Land Politics Credits: 3
- GEOL4210 - Topics in Geophysics Credits: 1-3
- RNEW4775 - Forest Ecology Credits: 4
- SOIL4100 - Soil Physics Credits: 3
- PETE4860 - Energy, Environment, and Materials Credits: 3
- PHYS2250 - Thermodynamic Systems in Energy Science Credits: 4
- ESE4474 - Topics in Energy Systems Engineering Credits: 1-3
- GEOL4001 - Modeling the Earth System Credits: 4
- GEOL4020 - Global Biogeochemistry Credits: 3
- HIST4535 - History of Oil Credits: 3
- ESE4060 - Energy Systems Design I Credits: 3
- ERS4960 - Energy Field Studies Credits: 1-3
- EDSE3040 - Energy and Power Technology Credits: 3
- ENR4750 - ENR Law and Policy Credits: 3
- BKCH3021 - Fundamentals of Blockchain Credits: 3
- GEOL4525 - Environmental Data Analysis Credits: 4
- EE4510 - Power Systems Credits: 3
- ENR4450 - Negotiation Credits: 3
- EE2220 - Circuits and Signals Credits: 4
- EE3510 - Electric Machines and Power Systems Credits: 4
- AGE4450 - Negotiation Credits: 3

QuickStart Program

Quickstart 3+3, School of Energy Resources + College of Law

UW offers qualified undergraduate students a fast-track to a Juris Doctorate. The 3+3 Program at UW is an opportunity for qualified undergraduate students to earn their **bachelor's degree and law degree in six years** instead of seven years.

University Studies Program Requirements (Required for both EES and PLM)

The University Studies Program 2015

The University Studies Program 2015 develops a student's foundational knowledge to prepare them for the Bachelor of Science degree program. Some of the categories of USP will be completed by completing the degree requirements as outlined below. Students should review their degree audits carefully to ensure that USP requirements are completed. Students transferring with a qualifying associate degree will have most of the lower division portion of the USP requirement waived. For more information about qualifying earned associate degree, see the "Articulation: Earned Associate Degrees" information in this catalog.

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Energy and Environmental Systems (Years 1-3)

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

EES majors can become environmental scientists who collect samples of air, soil, & water to identify environmental impacts, resolve environmental threats, & provide guidance on quality regulation and manage natural resources.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3), students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

EES Core Required Curriculum

- ACCT2010 - Principles of Accounting I Credits: 3
- DSCI4260 - Project Management Credits: 3
- ECON1020 - Principles of Microeconomics Credits: 3 **USP: H**
- ECON1300 - Oil: Business, Culture, and Power Credits: 3 **USP: H**
- ENGL1010 - College Composition and Rhetoric Credits: 3 **USP: C1**
- ENR1000 - Energy and Society Credits: 3 **USP: PN**
- ERS3010 - Air Quality Management Credits: 3
- ERS4120 - Federal Public Land Law Credits: 3
- FYS-First Year - Seminar Credits: 3
- GIST1200 - Geospatial Foundations Credits: 3
- GIST2310 - Intro to Geographic Information Systems Credits: 4
- LIFE1010 - General Biology Credits: 4 **USP: PN**
- LIFE2023 - Biology of Plants and Fungi Credits: 4

- LIFE3400 - General Ecology Credits: 3
- MATH2200 - Calculus I Credits: 4 **USP: Q**
- REWM2000 - Principles of Rangeland Management Credits: 3
- REWM2400 - Range Ecosystems and Plants Credits: 4
- REWM3100 - Principles of Wildland Water Quality Credits: 3
- REWM4200 - Reclamation of Drastically Disturbed Lands Credits: 3
- REWM4580 - Rangeland Restoration Ecology Credits: 3
- SOIL2010 - Introduction to Soil Science Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- V- - U.S. & WY Constitution Credits: 3

Professional Land Management (Years 1-3)

Students accepted by UW College of Law (COL) into the 3+3 program begin taking classes at COL in what would otherwise be their senior year. Year one of law school (31 credits) counts toward both the BS and the JD degrees. Students must select one path for Years 1-3, either Energy and Environmental Systems or Professional Land Management.

Professional Land Management majors determine ownership and title of surface and subsurface rights to negotiate leases with land/mineral owners, coordinate field exploration, and ensure compliance with governmental regulations.

Students will complete a minimum of 85-95 credits in their baccalaureate (undergraduate) program by the end of their junior year (including required general education and major courses). Students will complete 90 credits with the College of Law. Students will be granted a BS upon completion of the 120 credit hours required for the undergraduate degree in BS-ERMD (using year one of College of Law coursework), with a cumulative minimum UW GPA of 2.0 or higher. Students must complete 42 hours of upper-division (3000-level or above) coursework, 30 of which must be from the University of Wyoming. During the Energy Resource Management and Development program (years 1-3), students will be advised by the School of Energy Resources advisor. During the College of Law program (years 4-6), students will receive advising from the College of Law.

PLM Core Required Curriculum

- ACCT2010 - Principles of Accounting I Credits: 3
- ACCT2020 - Principles of Accounting II Credits: 3
- AGEC4450 - Negotiation Credits: 3

OR

- AGEC4550 - Negotiation Analysis Credits: 3

University Honors College

Guthrie House

Peter Parolin, Dean

Phone: (307) 766-4110

Web site: uwyo.edu/honors

The Honors College provides academically ambitious students with a series of curricular and co-curricular opportunities. Through these opportunities, students gain the breadth of knowledge needed by citizens, professionals, and family members to be effective in a lifetime of stimulating and enriching pursuits. Honors students learn to write cogently for a variety of audiences in their academic disciplines and beyond. They learn to locate and use reliable information and trustworthy opinion. Through appropriate coursework, they learn how to become engaged citizens and to understand the ethnic and cultural diversity of America and the world. They learn the purposes and values of the arts, humanities, sciences and social sciences. The Capstone Project is a sustained research or creative activity through which students demonstrate what they have learned: to formulate a project independently, to develop the intellectual and creative means to complete it, and to write and speak effectively about their work. The Capstone Project is frequently used as evidence of critical thinking in graduate and career applications.

Honors College Learning Outcomes

Students graduating from the Honors College will be able to: (1) engage in problemsolving, research, and creative pursuits that utilize an interdisciplinary approach (2) articulate the value of international and diversity-focused perspectives (3) develop their own styles of leadership and service and identify meaningful opportunities for engagement in these areas and (4) create intentional pathways through career development, including utilizing internship opportunities.

Honors College Admissions

The Honors College seeks well-rounded, ambitious, and curious learners and leaders. Students are invited to apply to the college prior to their first year. First year applicants should apply to the Honors College when submitting their general application to UW. The Honors College admissions committee considers academic performance and test scores holistically alongside an application essay and high school transcript.

Students admitted into the Honors College who are College of Engineering majors will automatically be accepted as Honors College Engineering students.

The Honors College reviews applications on a rolling basis. Students are admitted to the Honors College only after they have been accepted to UW. Incoming, continuing, and transfer students who are interested in applying to Honors should consult our Admissions page: <https://www.uwyo.edu/honors/applications/>

The Honors College also welcomes application from new transfer students. Transfer students entering the Honors College typically have an overall college GPA of 3.25 or higher. The college also admits transfer students and current UW students with at least three semesters remaining prior to graduation.

To maintain good standing in the college, a student must achieve a 3.0 GPA at the conclusion of the student's first year of study. A 3.25 GPA at the conclusion of the student's second year of study is required, with this standard remaining throughout their academic career. Interested high school seniors and transfer students are encouraged to come by the Honors College or to write to the Dean, The Honors College, Dept. 3413, 1000 University Ave, Laramie, WY 82071. The email address is honors@uwyo.edu.

Scholarships

The Honors College supports UW in financial aid packages for students. In keeping with the vision of Honors to facilitate an international experience, Honors provides scholarships to assist with study abroad. Fellowships for supporting research or creative projects for the senior thesis may also be available.

Program Requirements

To earn a minor in Honors, Honors students must complete a total of five courses in Honors and a Capstone Project, and complete the First-Year and Advanced Honors SOAR badge requirements. They must also graduate with a 3.25 GPA. Students who transfer to UW or join Honors as continuing UW students may have some of their required Honors courses and SOAR requirements waived.

The Honors curriculum immerses students in multi-disciplinary inquiry. Students begin by taking the First Year Colloquium, a two-semester course sequence that takes a complex topic - for example, *Dreams and Reality - or- What Does it Mean to be a Human* and explores it with readings based in the humanities, arts, sciences, and social sciences. The course includes visits to the theatre, the Art Museum, and other UW resources, building community while learning about UW. Thereafter, students enroll in three additional courses: an Honors Non-Western Perspectives course and six hours of upper-division coursework in Honors that emphasize interdisciplinarity. At the upper division, it is strongly recommended that students take at least one Honors course per year. Throughout their Honors academic track, students will complete each level of the Honors SOAR Badge.

The Honors experience concludes with a Capstone Project, either a paper or project, done under faculty mentorship and presented publicly. This requirement ensures that students gain creative or research experience in an area of their interest. These projects often lead to graduate studies or a special career path.

Honors College Minor Curriculum

Specific details about required Honors College coursework can be found at:

[Honors College Minor Curriculum](#)

Honors College SOAR Badge requirements

Students are required to complete each level of the Honors SOAR Badge program. Assistance is available from the Honors College.

[Honors College SOAR Badge Requirements](#)

Capstone Project (Creative or Research-based)

- Students are not required to register for a specific course to complete the Capstone Project. There is no specific Capstone Project course; students complete the project independently in coordination with a faculty mentor.
- Honors offers optional research and capstone methods courses (i.e. HP 4990) that prepare students for independent capstone projects and in some cases work directly on those projects.
- Honors does offer an optional independent study course if desired. Up to 6 hours of credit in the optional HP4976 - Independent Study are allowed.
- HP 4976, HP 4990, and any other research methods courses contribute to the capstone projects. As such, they do not count toward required Honors coursework or USP requirements.
- Students may be pursuing a major that requires a senior or capstone project, and a major-specific project may also meet the requirement for the Honors College Capstone Project. Please contact the Capstone Project Coordinator for details. Email: honorscapstone@uwyo.edu

Honors College Additional Requirements

Students must also graduate with a 3.25 cumulative UW GPA.

Successful completion of the program is indicated on transcripts and diplomas, and seniors are recognized at graduation ceremonies.

Priority registration for enrollment in Honors courses is given to Honors College students, although non-Honors students with a 3.25 GPA or with permission of the instructor are eligible and encouraged to enroll once the general registration period begins, if space is available.

Honors College Advising

The Honors College offers supplemental advising that supports the work that students do with their primary major advisors. Honors Advising instructs students on Honors curriculum requirements and helps students select their Honors courses as well as take advantage of special Honors College opportunities. Students cannot register for Fall or Spring classes without meeting with their primary major advisor.

Other Programs

Honors College Minor Curriculum

Required Courses

Honors Colloquium I (3 Hours)

- HP1020 - Honors Colloquium I Credits: 3 (COM1)

Honors Colloquium II (3 Hours)

- HP2020 - Honors Colloquium II Credits: 3 (COM2)

Honors Non-Western Perspectives (3 Hours)

Honors Non-Western Perspective courses are listed as HP 3151

A single course cannot count as both the Non-Western and an Upper Division Interdisciplinary Honors Elective.

Upper Division Interdisciplinary Honors Electives (6 Hours)

Must be three unique courses to meet these requirements; a single course cannot count as both the Non-Western and an Upper Division Interdisciplinary Honors Elective.

- Any two upper division Honors courses excluding HP 4976 and HP 4990

University Studies Program Requirements

The University Studies Program 2015

- COM3 - Communication 3 Credits: 3
HP 4990

UWYO

UWYO courses are designed to help students acculturate to college life and coursework and learn key academic skills. Course content is combined with training in critical reading, academic writing, research, formal presentation, and many other emphases. UWYO courses have low student-teacher ratios in an effort to help students experience richer connection with the instructor and students in the course. Most UWYO courses imbed intellectual self-awareness within the course goals. Several UWYO courses are part of UW learning communities and provide additional opportunities for students to engage with and work together in their cohort.

Major

Bachelor of General Studies (BGS)

General Studies is a multidisciplinary degree that bridges academic disciplines to facilitate degree completion. This degree is designed for students with significant college credit and/or complex curricular interests.

Learning Outcomes

Students completing the Bachelor of General Studies will:

- Demonstrate knowledge in focus areas
- Demonstrate the capacity to integrate knowledge and modes of thinking from two or more disciplines
- Demonstrate an ability to think creatively about complex problems in order to construct, evaluate, and implement innovative possible solutions
- Demonstrate an ability to communicate to academic or professional audiences in written, oral, and digital form as appropriate to specific disciplines and interdisciplinary fields
- Demonstrate higher-order thinking skills such as interpretation, analysis, evaluation, synthesis, creative generation, and innovation

The Four Year Degree Plan below demonstrates the flexibility of the Bachelor of General Studies; which is particularly valuable for transfer students with high student credit hours. However, this degree is not designed for first year students. The degree requires 60 credit hours and intensive advising before it can be declared as a major. Addendum I includes a degree check-list which may be more useful for degree planning

University Studies Program Requirements

- First Year Seminar (3)
- Communication Skills 1 (USP, C1) (3)
- Quantitative Reasoning (USP) (3)

- Physical and Natural World (3)
- Communication Skills 2 (USP C2) (3)
- Physical and Natural World (USP) (3)
- Human Culture (USP) (3)
- US and Wyo government (USP) (3)
- Human Culture (USP) (3)
- Upper Division Capstone (USP, C3) (3)

Focus Areas (Each requires 18 hours)

A minimum of 6 hours in each Focus Area must be Upper Division

Focus Areas Listed by College

College of Agriculture and Natural Resources

- Biomedical Sciences: Microbiology (MICR), Molecular Biology (MOLB), Pathobiology (PATB), Family and Consumer Science (FCSC), Animal Science (ANSC), Food Science (FDSC)
- Agricultural and Natural Resources Sciences: Animal Science (ANSC), Ecosystem Science and Management (ESM), Renewable Resources (RNEW), Entomology (ENTO), Soil Science (SOIL), Agroecology (AECL), Plant Sciences (PLNT), Agricultural Economics (AGEC)
- Human Sciences and Public Policy: Family and Consumer Sciences (FCSC), Agriculture (AGRI), Agricultural Economics (AGEC), Food Science (FDSC)

College of Arts and Sciences:

- Humanities: Art & Art History (ART), English (ENGL), Modern and Classical Languages (LANG), Philosophy (PHIL), Religious Studies (RELI), American Studies (AMST), History (HIST), Anthropology (ANTH), African American Diaspora Studies (AAST), Native American & Indigenous Studies (NAIS), Latina/o Studies (LTST), Gender and Women's Studies (GWST), International Studies (INST), Theatre and Dance (THEA)
- Fine Arts: Theatre and Dance (THEA), Music (MUSC), Art and Art History (ART), African American Diaspora Studies (AAST), Native American & Indigenous Studies (NAIS), Latina/o Studies (LTST), Gender and Women's Studies (GWST), Creative Writing (CW), English (ENGL)
- Social Sciences: Communications and Journalism (COMM/COJO), History (HIST), Anthropology (ANTH), Criminal Justice (CRMJ), Geography (GEOG), Religious Studies, (RELI), Sociology (SOC), Political Science (POLS), International Studies (INST), Native American & Indigenous Studies (NAIS), Psychology (PSYC), Statistics (STAT), African American Diaspora Studies (AAST), Latina/o Studies (LTST), Gender and Women's Studies (GWST)
- Math & Sciences: Math (MATH), Statistics (STAT), Botany (BOT), LIFE Program (LIFE), Psychology (PSYC), Zoo/Physiology (ZOO), Chemistry (CHEM), Geology and Geophysics (GEOL), Physics and Astronomy (PHYS), Anthropology (ANTH), Geography (GEOG)

College of Business

- *Management, Marketing, and Decision Science: Management (MGT), Marketing (MKT), Decision Science (DSCI)
- *Accounting and Finance: Accounting (ACCT), Finance (FIN)
- Economics: Economics (ECON)

*Due to accreditation requirements, a student may not choose both the "Management, Marketing, and Decision Science" and the "Accounting and Finance" focus areas to comprise their Bachelor of General Studies major.

College of Education:

- +Elementary Education: Early Childhood (EDEC), Elementary Education (ELED), Curriculum and Instruction (EDCI)
- +Education and Society: Educational Studies (EDST), Exceptional Children (EDEX), Instructional Technology (ITEC), Curriculum and Instruction (EDCI)

+The Bachelor of General Studies does not satisfy the requirements for teacher licensure through the Wyoming Professional Teaching Standards Board.

College of Engineering:

- *Engineering Studies: Engineering Science (ES), Architectural Engineering (ARE), Civil Engineering (CE), Chemical Engineering (CHE), Electrical Engineering (EE), Energy Systems Engineering (ESE), Mechanical Engineering (ME), Petroleum Engineering (PETE)
- *Applied Science Studies: Atmospheric Science (ATSC), Computer Science (COSC)

*The Bachelor of General Studies does not satisfy the requirements for an ABET/EAC accredited engineering degree or an ABET/CAC accredited computer science degree.

College of Health Sciences:

- Community and Public Health: Health Education (HLED), Wyoming Institute for Disabilities (WIND)

Haub School of Environment and Natural Resources:

- Environment and Natural Resources: Environment and Natural Resources (ENR), Environmental Systems Science (ESS)

Upper Division

21 in major/42 total

Additional Information

Degree Structure: The Bachelor of General Studies is comprised of two curricular focus areas and one 3 credit capstone that fulfills the University Studies Program (USP) "Communications Skills 3" (C3) requirement. Each focus area is defined by subject area, fielded by a specific college, and comprised of at least 18 credit hours. Students can choose from a menu of 16 focus areas across the university. Of the 39 credits required for the major, 21 credits must be upper division with a minimum of 6 upper

division credits in each focus area. As a university-wide degree, all USP and university-wide requirements must be met.

No course can count toward more than one area of focus. Students must earn a C or better for all credits counting toward the major. One USP "Human Culture" (H) course and one "Physical & Natural World" (PN) course may also count toward the major. No college core applies to the degree. To declare this major, students must have earned 60 credit hours and received intensive advising from the college fielding their primary focus area.

Focus Areas: Each of the focus areas identifies a knowledge domain that includes courses from a range of disciplines within a particular college. Focus areas include all courses from each of the disciplinary prefixes/subject areas or programs specified as belonging to the focus area (no course exceptions or course lists will be maintained). This will make advising for the degree manageable and will ensure access to needed coursework. Students should choose courses from within the focus area thematically to gain a breadth and depth of knowledge appropriate to the curricular or professional interest that ties together the two focus areas of the student's major. Students should work with their advisor to ensure that their coursework includes the skills and methods necessary for expertise in the substantive area of interest. Proposed focus areas are listed below by college.

Advising Career Exploratory Studies

222 Knight Hall

Richard Miller, Interim Director

Phone: (307) 766-2398 FAX: (307)766-2089

Web site: www.uwyo.edu/aces/index.html

Success and Engagement Programs

105 Coe Library

April Heaney, Director

Phone: (307) 766-3448

Web site: www.uwyo.edu/learn

STEP

USP Codes are listed in brackets by the 2003 USP code followed by the 2015 USP code (e.g. [QB><Q]).

STEP courses are housed within the Learning Resource Network (LeaRN) Program and comprise first-year and academic success courses aimed at supporting students in college research, written and professional communication, major and career exploration, and general transition strategies. STEP courses are often embedded in first-year programs including Fall Bridge, First-Year Experience, First-Year Interest Groups (FIGs), and First-Year Seminars.

English Language Center

Cheney International Center 28

Frederica Suess, Director

Phone: (307) 766-3630

Web site: www.uwyo.edu/geo/elc

Our Mission

The English Language Center serves the University of Wyoming and surrounding community by preparing non-native speakers of English linguistically, culturally, and academically to meet the requirements for success in U.S. higher education environments and to fully engage in campus life.

IEP Conditional Admission: Conditional admission is available for undergraduate applicants who are academically eligible but have low language proficiency scores. Students need to do 2 applications; one for IEP and one for a degree program for consideration. *Only one application fee is needed. Contact us directly if you are interested in this option: elc@uwyo.edu.

Other Programs

Intensive ESL Program

The Intensive ESL Program is a full-time English language study program. Students are in class 20 hours every week for one whole semester of 15 weeks. To study in the Intensive ESL Program, students must have an F-1 Student Visa. All instructors are experienced ESL professionals and qualified with a Masters Degree or higher in TESL or a relevant field of study.

Courses

Students take three classes daily, Monday through Thursday:

- Reading & Vocabulary: College vocabulary skills, reading strategies, and study skills.
- Listening & Speaking: Pronunciation/conversation, lecture listening, note-taking skills, and academic presentations.
- Integrated Skills: Grammar-focused reading, writing, and speaking class using topics from academic content areas.

University of Wyoming at Casper

University of Wyoming at Casper

Brent L. Pickett, Ph.D., Dean

125 College Drive, Casper WY 82601

(307) 268-2713

Web site: <https://www.uwyo.edu/uwcasper/>

Since 1976, the University of Wyoming at Casper (UWC), in partnership with Casper College, has offered on-site courses and a slate of university degree programs in Casper. UW-Casper is also the location in Natrona County for statewide degree programs and classes offered through Distance Credit Programs.

UW-Casper was established to meet the needs of students unable to move to Laramie. Some of these students are nontraditional students who may be older or have families, homes, or jobs in the Casper area. UW-Casper is designed to meet the academic needs of students in a setting that provides small class sizes, dedicated staff, and award-winning faculty. Courses are taught by resident and visiting faculty who are regular or part-time members of UW academic departments. A full-service student success office handles admission, registration, financial aid, and advising.

Classes are taught onsite on the Casper College campus. More than 4,000 students have received their UW degrees through UW at Casper support and programs.

UW-Casper also has the Bachelor's of Applied Science (BAS) program. This fully online program is designed to stack onto an associate's degree to help persons already in the job market further develop their skills and advance their career potential. There are two areas of concentration available in the BAS, one in Health Services Administration and the other in Organizational Leadership.

Undergraduate Majors

Organizational Leadership, B.A.S.
Biology, B.S.
Secondary Career & Technical Education, B.A.S.
Communication, B.A.
Elementary Education, B.A.
Elementary Education/Special Education, B.A.
English, B.A.
Medical Laboratory Science, B.S.
Psychology, B.S.
Secondary Science - Biological Science Education with Concurrent Major in Biology (BSSE), B.A.
Social Work, B.S.W.
Zoology, B.S. UW - Casper

Graduate Majors

Counseling, M.S., Concentration in Mental Health Counseling or Counseling, M.S., Concentration in School Counseling

Minors and Endorsements

Secondary Biology Endorsement
Biology, Minor
Secondary Chemistry Endorsement
Communication Minor
Early Childhood Endorsement
Early Childhood Education Options
Psychology Minor
Sociology Minor
Zoology Minor

For more information, contact UW at Casper at 125 College Drive, Casper, WY 82601; (307) 268-2713, (877) 264-9930; or by e-mail at uwcasper@uwyo.edu.

Major

Organizational Leadership, B.A.S.

The Bachelor of Applied Science degree (BAS) is a completely online program designed for individuals who have completed an associate's degree and who need or desire the additional breadth in skills, knowledge, and professional expertise to enhance their capabilities in their own careers and in the organizations in which they work.

Major Requirements (12 credits)

FCSC3110 is REQUIRED for Option A.

AGRI4350 is REQUIRED for Option B.

PHCY4441 is REQUIRED for Option C.

- AGRI3000 - Discovering and Utilizing Ideas and Information Credits: 3
- AGRI4600 - Developing Organizational Leadership Credits: 3
- COJO3010 - Business and Professional Communication Credits: 3
OR
- COJO3190 - Cross-Cultural Communication Credits: 3
OR
- ENGL4010 - Technical Writing in the Professions Credits: 3
- ENGL4075 - Writing for Non-Profits Credits: 3
- AGRI4350 - Problem Solving in Organizational Settings Credits: 3
- FCSC3110 - Personal Finance Credits: 3
- PHCY4441 - Intro Health Institution Leadership Credits: 3

Contemporary Society Requirement (2 courses, 6 credits)

Pick **two courses** from the following courses listed:

- COJO3160 - Theory of Language and Society Credits: 3
- CRMJ3500 - Drugs and the Criminal Justice System Credits: 3
- CRMJ4860 - Social Inequality, Crime, Criminal Justice and the Law Credits: 3
- ENR4890 - Topics in Environment and Natural Resources Credits: 1-6
- HIST4340 - The Social History of American Women Credits: 3
- HIST4490 - Modern America, 1960 to Present Credits: 3
- HIST4545 - The Multicultural West Credits: 3
- POLS3100 - Politics and the Judicial Process Credits: 3
- POLS3600 - American Political Thought Credits: 3
- POLS4051 - Environmental Politics Credits: 3
- SOC3150 - Collective Behavior and Social Movements Credits: 3
- SOC4370 - Global Political Economy Credits: 3

Career Electives (9 credits)

Students will work with their advisor to identify these career electives.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3

- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3
- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3
- H- - Human Culture (1) Credits: 3
- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Option A: Community Resources (12 Credits)

The Community Resources option guides students through an examination of how managers operate effectively with stakeholders and employees in community leadership and non-profit settings.

- AGE4720 - Water Resource Economics Credits: 3
- AGE3750 - Natural Resource Planning and Economics Credits: 3
- AGRI4350 - Problem Solving in Organizational Settings Credits: 3
- FCSC4117 - Understanding Community Leadership Credits: 3

Option B: Business Management (12 Credits)

The Business Management option guides students through an examination of how managers create value by understanding and developing employee and customer relationships.

- MGT3410 - Human Resources Management Credits: 3

Option C: Health Services Administration (HSA) Concentration (11 Credits)

The Health Services Administration (HSA) concentration allows students to meet their career goals. This concentration:

Is designed for students who are interested in careers such as health services administrators, patient service associates, community outreach coordinators, healthcare office managers, and various positions in community health agencies and the health care industry.

Benefits students who are interested in working side by side with health care workers.

Provides an excellent option for those who want to advance in healthcare but who do not want to pursue additional clinical education.

Students pursuing this concentration must take the business management track and will substitute PHCY 4160/4441 Intro to Health Leadership in lieu of AGRI 4350.

- PHCY4050 - Evolution of American Health Credits: 2
- PHCY4141 - Health Economics and Outcomes Credits: 3
- PHCY4241 - Biopharmaceutical Regulatory Compliance Credits: 3
- PHCY4341 - Intro to Healthcare Quality Credits: 3

Program Overview

Dr. Josh Valk, Director- Bachelor of Applied Science Program

jvalk@uwyo.edu

This program is available by distance delivery only. Entry into the program requires an application process. Students must apply for admission to UW first. Official transcripts from all institutions attended must be submitted to UW Admissions. Entry into this program requires an existing associate's degree. Transcripts will not be analyzed prior to application.

All students pursuing a bachelor's of applied science degree in Organizational Leadership are required to complete: a) University Studies Program (USP) requirements, b) 120 approved credits, 42 of which must be upper division (with 30 coming from UW), and c) courses within the program checklist. The program is designed to be completed in two years, but students may move at a pace that works for them.

All courses within the Bachelor of Applied Science must be completed with a grade of C or better. If you do not pass the course with a grade of C or better after three attempts you will be dismissed from your organizational leadership major.

Each student is assigned an advisor, who can be reached at (bas@uwyo.edu), and will be advised each semester. It is important that you work closely with your advisor to plan your course schedule.

University Requirement - All degrees at the University of Wyoming require 42 upper division credit hours (3000+).

Residency Requirement - All degrees must include a minimum of 30 upper division credit hours from UW

Zoology, B.S. UW - Casper

Zoology is the study of animals: their structure, physiology, development and evolution. One of the enduring fascinations of zoology is that we can learn so much about ourselves and our environment by studying what our fellow creatures do.

At the end of this program students will have a comprehensive knowledge of zoology, will be well prepared for graduate education, and will be equipped to enter any of the many employment opportunities that are available.

University Studies Program Requirements

The University Studies Program 2015

- FYS-First Year - Seminar Credits: 3
- COM1 - Communication 1 Credits: 3
- COM2 - Communication 2 Credits: 3
- COM3 - Communication 3 Credits: 3

- Q- - Quantitative Reasoning Credits: 3
- PN- - Physical and Natural World (1) Credits: 3
- PN- - Physical and Natural World (2) Credits: 3

- H- - Human Culture (2) Credits: 3
- V- - U.S. & WY Constitution Credits: 3

Foundation Courses

Foundation Courses

- MATH1400 - College Algebra Credits: 3
- MATH1405 - Trigonometry Credits: 3
- MATH2200 - Calculus I Credits: 4
- STAT2050 - Fundamentals of Statistics Credits: 4
- LIFE2100 - Intro Research and Analysis Credits: 4
- CHEM1020 - General Chemistry I Credits: 4
- CHEM1030 - General Chemistry II Credits: 4
- CHEM2230 - Quantitative Analysis Credits: 5
- CHEM2300 - Introductory Organic Chemistry Credits: 4
- CHEM2420 - Organic Chemistry I Credits: 4
- CHEM2440 - Organic Chemistry II Credits: 4
- CHEM3020 - Environmental Chemistry Credits: 3
- CHEM3550 - Physical Chemistry for the Life Sciences Credits: 3
- CHEM4050 - Solar Energy Conversion Credits: 3
- CHEM4230 - Instrumental Methods of Chemical Analysis Credits: 5
- CHEM4400 - Biological Chemistry Credits: 3
- PHYS1110 - General Physics I Credits: 4
- PHYS1120 - General Physics II Credits: 4
- LIFE1010 - General Biology Credits: 4
- LIFE2022 - Animal Biology Credits: 4
- LIFE3050 - Genetics Credits: 4
- LIFE3400 - General Ecology Credits: 3
- LIFE3500 - Evolutionary Biology Credits: 3
- ZOO4100 - Scientific Communication Credits: 2
- ZOO4101 - Scientific Communication Lab Credits: 1

Advanced Zoology Course

* if more than one of the required courses is completed, additional courses can count towards the Zoology Approved Core Electives below.

- ZOO4330 - Ichthyology Credits: 3
- ZOO4350 - Ornithology Credits: 3
- ZOO4370 - Mammalogy Credits: 3
- ZOO4380 - Herpetology Credits: 3
- ZOO4540 - Invertebrate Zoology Credits: 4

Zoology Approved Core Electives

A minimum of 10 of 18 Zoology Approved Core Electives must be exclusive to the ZOOL major.

Choose a total of 18 credits from:

- ZOO4400 - Population Ecology Credits: 3
- ZOO4415 - Behavioral Ecology Credits: 3
- ZOO4420 - Conservation Biology Credits: 3
- ZOO4430 - Limnology Laboratory Credits: 2
- ZOO4440 - Limnology Credits: 3
- ZOO4540 - Invertebrate Zoology Credits: 4
- ZOO4735 - Advanced Topics in Physiology Credits: 1-4
- ZOO4235 - Marine Biology Credits: 3
- ZOO4300 - Wildlife Ecology and Management Credits: 5
- ZOO4310 - Fisheries Management Credits: 3
- ZOO4330 - Ichthyology Credits: 3
- ZOO4340 - Developmental Biology and Embryology Credits: 4
- ZOO4350 - Ornithology Credits: 3
- ZOO4370 - Mammalogy Credits: 3
- ZOO4380 - Herpetology Credits: 3
- ZOO3115 - Human Systems Physiology Credits: 4
- ZOO3600 - Principles of Animal Behavior Credits: 3
- ZOO4190 - Comparative Environmental Physiology Credits: 4
- ANSC3100 - Principles of Animal Nutrition Credits: 3
- ANSC3150 - Equine Nutrition and Physiology Credits: 3
- ANSC3010 - Comparative Anatomy and Physiology of Domestic Animals Credits: 4
- MOLB3000 - Introduction to Molecular Biology Credits: 3
- BOT4790 - Special Topics in Ecology Credits: 1-3
- BOT4550 - Computational Biology Credits: 4
- BOT4664 - Special Topics in Evolution Credits: 1-4
- BOT4235 - Marine Biology Credits: 3
- GEOG3480 - Environmental Change Credits: 3
- GIST3140 - Introduction to Remote Sensing Credits: 3
- ENTO4300 - Insect Ecology Credits: 3
- ENTO4678 - Aquatic Entomology Credits: 3
- ENTO4682 - Insect Anatomy and Physiology Credits: 5
- ENTO4684 - Classification of Insects Credits: 4
- PATB4710 - Medical Virology Credits: 3

Course Offerings

Changes in Catalog Information

The course offerings and requirements of the University of Wyoming are under examination and revision continually. This catalog is not a contract; it merely presents the offerings and requirements in effect at the time of publication and in no way guarantees that the offerings and requirements will not change.

Not all courses are offered each term. The listing of courses does not imply a contractual obligation to offer the same during the year of publication of this catalog. The university reserves the right to offer, limit, or cancel course offerings for academic, funding, or facility considerations, and to cancel any offered course for which there is not sufficient enrollment.

The university reserves the right to change approved course listings at any time during a student's term of residence.

Preparatory Courses Taught at UW by Laramie County Community College

The University of Wyoming has contracted for Laramie County Community College to offer preparatory courses on the university campus. University students will register through the normal university registration process. Inclusion of these courses in a student's schedule will count as part of the credit load for determining full-time status; however, UW credit is not awarded. For further information, contact the LCCC coordinator, at (307) 766-2514 or go to Ross Hall, rooms 26 and 27.

Course Credits

The amount of credit offered for any course work published in this catalog is based on and governed by prior university faculty recommendation and institutional determinations.

A credit hour denotes a unit of academic work. Normally, one credit hour is earned in a course meeting one hour per week for a semester (15-16 weeks). Each credit hour unit requires an average of three hours of student-effort per week. In variable-credit courses, the efforts required of the students are proportional to the credit hours attempted.

Even if topics differ in separate sections, variable-credit courses have limits on the number of credits which can be earned in that course in a semester and/or a student's career.

Format of Course Listings

On the following pages, courses approved for offering are listed by college, program subject, and course level (number).

The heading which precedes the brief description of each course shows the current course identification number; former course number(s), if any, in brackets; course title; a designation in bold brackets (**[QB<>Q]**, e.g. **[USP 2003 designation<>USP 2015 designation]**), if any, concerning applicability of the course to the University Studies Program (see below for designation); the number of semester credit hours established for the course (fixed or variable with the semester); and the career maximum of credit for successive term enrollments in the identified course, if different from the established semester credit-hours limit. For example, "1-3 (Max.9)" means that a student may earn between 1 and 3 hours of credit for that course within one semester and a maximum of 9 hours within a degree career. The course description indicates any prerequisites for that course and if it is offered for satisfactory/unsatisfactory grading only.

Course Levels

University courses are distinguished by number indicating five levels of instruction as follows:

0000-0999 Preparatory courses (no credit)

1000-2999 Primarily for Freshmen and Sophomores

3000-4999 Primarily for Juniors and Seniors

5000-5999 Primarily for Graduate Students

6000-6999 Law courses, WWAMI courses, and Doctor of Pharmacy courses

A bracketed course number [] indicates a previous number of the same course. Double credit cannot be earned by repeating a course.

Prerequisites are the primary factor which normally govern whether a student may enroll for any particular course. However, individual departments and/or colleges may place additional restrictions on course enrollments (e.g. enrollment may be restricted by student classification).

Enrollment in engineering courses is generally limited to engineering students.

Law courses are normally open only to students approved for the program.

Graduate students may enroll in courses numbered 1000-3999 to satisfy undergraduate deficiencies but only courses numbered 4000 and above will be computed into the graduate GPA and allowed for graduate credit.

Credit Available to Undergraduate Students

- I. University of Wyoming Credit
- II. Transfer Credit
- III. Military Service Courses

The University of Wyoming offers credit towards an undergraduate degree through:

I. University of Wyoming Credit

Instructed Classes

Courses are offered on campus and at distance settings around the state, including recognized academic courses under faculty general supervision such as internships, clerkships, clinical experience, co-op programs, etc.

Distance courses

Unlike some institutions, UW delivers courses at a distance through its mainstream academic departments, not through a separate academic unit. Academic department heads have the authority to assign instructors to distance-delivered courses, including online courses. They also have a responsibility to ensure that those courses are comparable in rigor and effectiveness to courses delivered face to face.

For this reason, when a department offers a UW course both face to face and at a distance, any UW student may satisfy any relevant university-, college-, and department-level requirements or elective credit by taking the course in either format.

Exceptions may arise when it is necessary to reserve space in a distance-delivered course for off-campus students, who can't take the face-to-face version. In these cases, departments may reserve spaces for off-campus students. But to the extent that spaces remain available after all interested off-campus students have enrolled, these spaces must be available to interested on-campus students.

Credit by Examination

An examination of an appropriate type and content for the credit sought may be conducted to determine if the applicant's proficiency is equivalent to that which could be expected upon completion of a college-level course in the subject. An applicant found to have this level of proficiency will be awarded credit for that course and allowed to proceed either with more advanced courses or with courses in other areas.

The use of credit by examination, or credit for prior learning, in graduate programs is not allowed.

Information concerning credit by examination can be obtained by contacting the Office of the Registrar.

Departmental Exams

While there is no maximum placed on the amount of credit earned by examination, credit so earned does not count in fulfilling the residency requirement of 30 hours of upper division University of Wyoming credit.

A student may not be allowed credit by examination in a course in which the student is currently or was previously enrolled either for credit or as a visitor or auditor, except that credit by examination may be used as a means to obtain credit for courses previously taken at institutions from which credit is nontransferable. A student may not challenge equivalent courses.

A student may not earn credit by examination in a course if the student has completed a course in the subject matter area above the level of the course for which the examination is sought. However, at the discretion of the departments involved, during the add/drop period a student may challenge a lower-level course while enrolled in a higher-level course in the same subject matter area, if the course challenged is a prerequisite for the course in which the student is currently enrolled.

If an examination exists, eligible students who pay the testing fee of \$80.00 may not be denied an examination in the introductory undergraduate course in any department. "Introductory course" is interpreted as that course which is prerequisite for successive courses in the department. Additional fees for examinations offered by testing agencies other than the University of Wyoming are determined by the agency concerned.

Grades of S or U (satisfactory/unsatisfactory) are given in all examinations. Credit by examination is not included in the student's grade point average; it is, however, included in the hours earned toward graduation. The grade of S is the equivalent of a C or better. See below for specific subject requirements. Entry on the student's academic record for credit by examination is made only if a grade of S is obtained and is noted as a grade obtained by examination.

To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate. The student must also be able to demonstrate to the satisfaction of the chair of the department involved that background experience has prepared him or her to attempt a challenge examination if such an examination is sought. The department chair's decision will be based upon existing departmental constraints such as accreditation, graduation requirements, and program requirements.

Other Options Include:

- Subject CLEP tests
- AP tests
- International Baccalaureate (IB)
- DSST

Students showing proficiency by passing examinations such as the College Board Advanced Placement Program (AP), for example, or examinations developed by University of Wyoming departments may earn college credit through the level of demonstrated proficiency. Credit may be allowed on the basis of any testing procedure acceptable to any department, which may include tests of the AP program and both the general and subject (specific) examinations of the College Level Examinations Program (CLEP).

Portfolio Evaluations

In recognition of factors in our society that produce great individual differences in backgrounds and preparation of students entering the university, the university has developed various options to assess extracurricular college-level learning. To qualify for undergraduate credit, the student must be currently registered at the University of Wyoming as a degree candidate.

Credit based on faculty evaluation of the kinds and extent of collegelevel learning which an applicant has acquired in prior extra-institutional settings, evidenced in a portfolio of documentation, may count toward university undergraduate graduation requirements. In such event, the student's degree program can be enriched by freeing time needed to take additional courses, or accelerated to earn the baccalaureate degree earlier and commence postgraduate studies sooner.

The number of credit hours able to be earned by means of a portfolio evaluation is normally limited to 12. Such credit, when awarded, shall be for specific University of Wyoming content-oriented courses (rather than given as X number of hours of credit in a general discipline area), following the college course model of assessment as defined by the Council for Adult and Experiential Learning. Portfolio assessment, when used, will be conducted by a committee of appropriate tenured faculty including at least one member with the academic rank of professor. *All credit assigned for experiential learning based upon portfolio evaluations is excluded from the minimum credit hour requirements as set forth in the university requirements.*

II. Transfer Credit

Transfer credit includes college courses accepted from other regionally-accredited colleges or universities. Such course work must be considered equivalent or comparable to course work required by the University of Wyoming. The university accepts only academic courses in the study of religion similar to those offered by the Religious Studies Program in the College of Arts and Sciences.

Students transferring to UW must have the registrar or records office of the previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the Office of the Registrar will create an electronic record of all courses that transfer to UW.

Evaluations are not accomplished for students working toward a Second Bachelor's Degree or those admitted as non-degree seeking. Second Bachelor's students should consult with their adviser concerning the applicability of transfer work to their UW degree program.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

Nontraditional credits awarded by another institution will not normally be accepted by the University of Wyoming. They may be validated by departmental exam within the faculty regulations allowing for such examinations.

a. UW Policy (Academic Affairs Policy Letter, October 9, 2012)

UW maintains a system for accepting transfer credits from other institutions and prides itself on forward-looking approaches to distance education. The following clarifies policies for:

- Accepting transfer credit from Wyoming's public community colleges
- Accepting transfer credit for students transferring to UW from other institutions
- Accepting transfer credit for students enrolled at UW
- **Transfer credit from Wyoming's public community colleges**

UW generally accepts credit earned at any Wyoming public community college in accordance with the Wyoming Transfer Catalog. This policy applies to students transferring to UW and to students enrolled at UW who take courses at one of these community colleges while they pursue degrees at UW. It does not apply to FYS credit earned by students who earned concurrent enrollment FYS credit or students transferring with less than 30 semester hours.

UW maintains an active regimen of institution-wide and discipline-specific articulation with Wyoming community colleges. These discussions, together with department-driven decisions about which courses to list in the statewide common course-numbering system, provide mechanisms that can ensure appropriate levels of course equivalency.

- **Transfer credit for students transferring from other institutions**

The UW Office of the Registrar (OTR) maintains a list of course equivalencies and courses accepted for general credit from other institutions of higher learning. In maintaining this list, the OTR, in consultation with academic departments as necessary, determines which outside courses:

- are equivalent to specific UW courses
- count for general university-level credit
- are not transferable for university-level credit

For courses beyond the 1000-2000 level and in cases where questions arise, the OTR relies on academic departments to assist in the assessment.

For any student transferring to UW from another institution of higher learning, UW will adhere to the OTR's equivalencies on the date that the transcript is evaluated. If a course in question has not previously been articulated, the OTR will follow the normal protocol to make a determination. If an academic department determines that an outside course has been improperly articulated, the OTR will correct the equivalency. The corrected equivalency will apply to subsequent transfer students but not retroactively.

3. Transfer credit for students enrolled at UW

The university's faculty and administration expect UW students to earn credits by taking courses at UW. Exceptions may be appropriate in some instances. For example, the university encourages students to pursue opportunities to study abroad, whether through UW course offerings or through other approved programs. As another example, a student who spends a summer in

another university town may also have a compelling case for taking a non-UW course and applying the credits to the UW transcript. There are many other possibilities.

For any student enrolled at UW, the university will guarantee transfer credits only for courses for which the student has received prior, course-specific approval from the Office of the Registrar. A Transfer Evaluation Form should be submitted prior to enrolling for a transfer course.

The only exceptions are transferable credits from Wyoming community colleges, as discussed above. In considering requests of this type, academic department heads may take into account the student's circumstances, department, and university-level learning outcomes such as global awareness, and the department faculty's assessment of the course's content, level, and academic rigor.

This policy has no effect on such programs as WICHE's Internet Course Exchange and other inter-institutional arrangements through which courses taught elsewhere count as credit-bearing UW courses.

b. Process

Transfer credit includes college courses accepted from other accredited colleges or universities. Such course work must be considered equivalent to course work required by the University of Wyoming. Students transferring to UW must have the registrar or records office of previous school(s) send an official transcript to the University of Wyoming Admissions Office. Once all final transcripts have been received by the Admissions Office, the degree analysts in the OTR will create an electronic record of credit transferred.

The recording of credit does not automatically imply acceptance toward a degree since degree requirements vary from major to major. Questions concerning the transferability of course work from other institutions should be directed to the Office of the Registrar.

c. Articulation: Earned Associate Degrees

• Wyoming Community Colleges

Students entering UW beginning Fall 2001 who have completed an AA, AS, ADN, or AB degree from a Wyoming Community (spring 2001 or later) College receive credit toward completion of the lower division general education requirements included in the University Studies Program with the exception of the US/WY Government and Constitutions requirement. Students with an eligible associate's degree who have not completed both components of the US/WY Government and Constitutions requirement must complete it with coursework or challenge exam.

This policy applies to graduates receiving an Associate of Arts, and Associate of Sciences, Associate Degree Nursing, or an Associates of Business degree from any of the seven Wyoming Community Colleges. All graduates with an AA, AS, ADN, or AB degree complete a minimum of 64 college-level credits with a minimum of 2.000 GPA.

• Community College Articulation: effective spring 2012

Graduates of regionally-accredited Colorado community colleges earning an AA/AS Spring 2012 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam. Spring 2008 (and later) graduates of Pikes Peak Community College are included due to a pre-existing articulation agreement.

Spring 2012 and later AA/AS graduates of Western Nebraska, Mid- Plains (Nebraska), and Colby (Kansas) Community Colleges will be extended the lower-division general education core in the same manner as Colorado schools above.

• Community College Articulation: effective spring 2015

Graduates of regionally-accredited institutions earning an AA/ AS/AB Spring 2015 or later are awarded the lower-division general education core in the same manner as graduates of Wyoming community colleges, with the exception of the US/WY Government and Constitutions requirement. Students must complete the Wyoming component through coursework or challenge exam.

Transfer Credit from Regionally-Accredited U.S.Colleges and Universities

The Wyoming Transfer Catalog is a searchable online database of courses which the University of Wyoming has previously articulated from regionally-accredited U.S. institutions. Coursework may transfer in as equivalent, elective or NA. Elective coursework may be a general elective, academic department specific elective and/or elective with University Studies (USP) credit. Transfer courses which return values of "NA" in the UW Subject field are considered to be not transferable to UW.

UW operates on semester credit; credit is awarded credit hour for credit hour. Quarter hours are recognized as two-thirds (2/3) of a semester hour.

Academic advisors may submit an elective course to fulfill a major or curricular requirement. Elective courses may also be considered for University Studies requirements via the University Studies Petition process.

Students intending to transfer to UW are encouraged to meet with advisors and review both the Wyoming Transfer Catalog and the UW Catalog when planning their program of study to ensure courses taken elsewhere will transfer to UW as intended for their desired major. Final determination of transfer credit acceptance is made by the University Registrar and faculty. Students must submit official transcripts of all completed coursework before a final determination can be made on credit transfer.

These equivalencies are subject to change without notice.

d. Transfer Credit for Study Abroad

Study abroad coursework is evaluated based off the documentation provided by the student and what is available to the Office of the Registrar. It is the students' responsibility to review the transfer work and to provide any course documentation (syllabi, descriptions, sample course work) to the Office of the Registrar. Once the transcripts received from the study abroad experience have been evaluated, students will have one year from that date to make any appeals or changes to what was initially awarded. Requests for changes to transfer credit awarded through study abroad following one year of the initial review will not be processed.

III. Credit Evaluation Policy for VA Funded Students

The degree analysts in the Office of the Registrar determine whether the course work is transferable to UW. Evaluations for the granting of credit for military-based training are based on recommendations in the American Council of Education (ACE) guidelines. Individual colleges will determine whether such course work is applicable to their degree programs.

Registration and Enrollment in Courses

- Registration Procedures
- Academic Adviser
- Change of Registration
- Choice of College and Major
- Change of College, Major, or Adviser
- Definitions for Student Classifications
- Credit Hour Load
- Auditing a Course
- Graduate Credit for Seniors
- Class Attendance
- Academic Dishonesty

Registration Procedures

Eligible students can register, drop, add, and get a schedule of their courses through WyoRecords. To insure that students have seen an adviser, access numbers for each semester's registration are distributed through the academic advisers. Directions for registration are contained in the appropriate *Class Schedule*. *Class Schedules* are available online no later than one week prior to advising week. Students are responsible for following directions and deadlines contained in the *Class Schedules*.

The following categories of continuing students in good standing or on academic probation are eligible to register for the semesters indicated:

- *For the fall semester:*

All students who were enrolled the previous fall, spring, or summer semester.

- *For the spring semester:*

All students who were enrolled the previous spring, summer, or fall semester.

- *For the summer session:*

Students who were enrolled the previous summer, fall, or spring semester.

All other applicants and students should complete admission requirements by the admission deadline. (Refer to the sections on undergraduate and graduate admissions in this catalog for deadlines.)

All information requested during admission and registration is important to the student and to the university and should be kept accurate and complete. If a student's address, telephone, major, adviser, or other vital information changes after enrollment, the Office of the Registrar should be informed without delay.

Academic Adviser

Academic advising is a decision-making process involving a partnership between the academic adviser and the student (advisee). In this partnership, issues and questions regarding personal, professional, and educational goals are examined and evaluated. This includes, but is not limited to, planning an appropriate course of study and the scheduling of classes.

The purpose of academic advising is to promote rational, informed, and independent choices by the student. To that end, the academic adviser is a significant link for the student to other resources in the university community. Students are expected to take the initiative in developing the adviser-advisee relationship and to assume an ever-increasing role in developing their own academic, career, and personal goals.

Change of Registration

Modification of a course schedule during the drop/add time period is accomplished through WyoRecords. After the end of the drop/add period, individual class withdrawals can be done by the students on WyoRecords. Changes to a student's registration or withdrawals are not official until the process is completed as prescribed.

The period of time allowed for modifying a student's schedule or withdrawing during the summer session or other special terms is established in regulations or by the registrar, subject to the approval of the vice president for academic affairs.

During the fall and/or spring semester(s):

- *Dropping a class or changing sections:* A student may drop classes during the first eight class days of the semester (four class days for blocked courses).
- *Adding a course or changing grading option:* A student may add classes, change sections, or change grading options or hours in variable-credit courses during the first four class days of the semester (two class days for blocked courses).
- *Withdrawal from a course:* After the designated drop/add period, students may officially withdraw from individual regular term courses until fifteen class days after mid-semester (five days after the middle of the course for blocked courses). Withdrawing means that a non-punitive grade of "W" is assigned as the final grade for the class. Students considering withdrawing should contact the Student Financial Aid Office prior to withdrawing to fully understand how withdrawing will affect their aid and scholarships.

Students may withdraw from an individual course through their WyoRecords account. If a student has a hold on their account preventing them from withdrawing through WyoRecords, they may submit an online Class Withdrawal form available on the Office of the Registrar website. The online form is required for students who wish to withdraw from First Year Seminar classes. Refunds for course withdrawal (when applicable) are based on the date the withdrawal is processed, not on submission of the online petition.

When a class has a status of "Indiv Course Withdrawal" on the "Add or Drop Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the transcript, which may be viewed through WyoRecords.

Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.

- *All-School-Withdrawal (termination of enrollment):* Withdrawal from the university is the official termination of student status prior to the end of a fall or spring semester, but students may otherwise register for classes for the subsequent semester if they choose to do so. Students wishing to withdraw from all on-campus classes should initiate the procedure with the Dean of Students Office. Withdrawal from the university is not permitted during the last 15 days of a term. After clearing with the Dean of Students Office, the withdrawal form must be presented to the university cashier for initial processing. The Office of the Registrar will report withdrawals to instructors concerned. Students withdrawing from distance classes should send an email to the Office of the Registrar to initiate the process.

Choice of College and Major

The academic adviser is an excellent source of information about the adviser's professional field for students who have selected a major. Students who are undecided about the selection of a college and/or major and who seek specialized assistance in choosing

educational and vocational objectives should contact the Advising, Career, and Exploratory Studies center. These units have programs designed to help the undeclared student acquire the tools to make an intelligent decision regarding an appropriate major discipline.

Change of College, Major, or Adviser

Students who wish to change their college, major, or adviser should obtain the appropriate form from either the Office of the Registrar or the office of the dean of the college of their current enrollment. Students wishing to transfer from one college to another must secure the signatures of both their present and future deans. Graduate students need the approval of the college dean and the head of the department to which the student is transferring. After all appropriate signatures have been obtained, the student should take the form to the Office of the Registrar.

Students who have completed their undergraduate work at the university and who wish to embark upon a graduate program, even through continuing their graduate work in the same field they pursued as undergraduates, will need to apply for graduate admission. (Refer to the section on graduate admission in this catalog for deadlines.)

Definitions for Student Classifications

Code Class	Definition by earned semester hours
FR Freshman	Under 30
SO Sophomore	30 but less than 60
JR Junior	60 but less than 90
SR Senior	90 or more
GR Graduate Student	
LW1 Law student (professional level) first year	
LW2 Law student (professional level) second year	
LW3 Law student (professional level) third year	
MD1 Medical student (professional level) first year	
PH1 Pharm.D. (professional level) first year (0-33 semester hours)	
PH2 Pharm.D. (professional level) second year (34-69 semester hours)	
PH3 Pharm.D. (professional level) third year (70-104 semester hours)	
PH4 Pharm.D. (professional level) fourth year (105+ semester hours)	

Credit Hour Load

Undergraduates: An average of 15 hours of coursework each semester is considered a normal load. Maximum credit loads are 20 hours in all colleges. Normally, not more than 12 hours of undergraduate credit may be taken during the summer session. An approved Overload Petition form must be filed to exceed these maximums. Overload Petition forms are available online or from the Office of the Registrar.

Graduate students: 14 hours of credit is the average and 16 hours the maximum amount of credit allowed per semester for full-time graduate students. A student who has been assigned an assistantship for the academic year is usually restricted to a load of 13 semester hours. Normally, not more than 8 hours of credit may be earned in course work during an eight-week summer session. An approved Overload Petition form must be filed to exceed these maximums. Overload Petition forms are available online or from the Office of the Registrar.

Auditing a Course

The privilege of non-credit enrollment in a class is available to any university student. The auditing privilege is subject to the same fee schedule as credit courses. Auditors are expected to attend class regularly and complete such graded work as required by the instructor. It is the responsibility of the student to determine and fulfill the requirements for a satisfactory audit. Though this auditing privilege carries full rights of class participation, it definitely offers no academic credit, does not count toward full- or part-time status, and will result in a mark of satisfactory (SA/S) or unsatisfactory (UA/U). Subsequent credit for the course by special examination is not available.

Graduate Credit for Seniors

Undergraduate students taking graduate-level courses which are not in any way a part of their undergraduate degree have the option of later using such courses for purposes beyond the bachelor's degree requirements. If the student intends to pursue a graduate degree or needs the courses noted on the academic transcript as reserved for graduate credit for job classification (e.g. advancement on teacher salary schedules) the student should file a petition. The Request to Reserve Coursework for Graduate Credit should be filed by midterm of the semester which is requested. The petition form is available on the Graduate Student Forms page on the Office of the Registrar website. Courses may not be retroactively reserved once a semester has ended.

Class Attendance

Each student shall attend the lectures, recitations, and laboratories, and participate in field work deemed necessary to adequately fulfill the academic requirements of each course. Each instructor, at the beginning of every semester, shall stipulate the attendance policy necessary for satisfactory completion of the course.

The Dean of Students Office may issue authorized absences for participation in university-sponsored activities and for other unusual circumstances. If students have been hospitalized, or if they have been directed by the Student Health Service or their private physician to stay at their place of residence because of illness, the Student Health Service or their private physician may issue a statement giving the dates of the student's confinement which the student may show to the instructor without verification from the Dean of Students Office. The Student Health Service has a policy not to provide medical excuses for missed classes. Please review the policy at <http://www.uwyo.edu/shser/medical-excuses.html>.

All instructors shall permit students who have official authorized absences to make up missed course work without penalty. An authorized absence, however, merely gives the individual who missed the class an opportunity to make up the work and in no way excuses him or her from the work required.

When a class has a status of "Indiv Course Withdrawal" on the "Register for Classes" page in WyoRecords, the student has officially withdrawn. Students may also confirm that a final grade of "W" is noted on the transcript, which may be viewed through WyoRecords.

Unauthorized discontinuance of enrollment or unofficial abandonment of classes will result in a failing grade.

Academic Dishonesty

Whatever form academic dishonesty may take, the university community regards it as a serious offense. An act is academically dishonest when, and only when, it is an act attempted or performed in order to misrepresent one's involvement in an academic task in any way. Such conduct will result in imposition of sanctions pursuant to University Regulations.

It is the responsibility of both the student and person in charge of an academic task, respectively, to make reasonable efforts to learn of, or make known, the expectations and standards of conduct required in the performance of an academic task. Failure on the part of the student to observe and maintain required standards of academic honesty will require corrective action by officials.

Enrollment Management

Admissions Office

Shelley Dodd, Director of Admissions
150 Knight Hall, (307) 766-5160
Web site: www.uwyo.edu/admissions

A new undergraduate student's first official contact with the University of Wyoming is often through the Admissions Office. This unit is responsible for recruiting/admitting undergraduate students to the university. Responsibilities include the development of effective school relations, programs with high schools and community colleges, recruitment of prospective freshmen and undergraduate transfer students, and events for students and families to learn more about opportunities at UW. This office also facilitates the admission process for graduate students. A detailed description of admission to the university and procedures can be found in the admission policies section of this publication.

Office of the Registrar

Kwanna King, Registrar
167 Knight Hall, (307) 766-5272
Web site: www.uwyo.edu/registrar

The Office of the Registrar is responsible for overseeing course registration, transcripts, verification of enrollment, adding/dropping/ withdrawing from courses, administering the residency policy for tuition classification purposes, and for maintaining student academic records. This involves responsibility for web registration, as well as preparation and electronic publication of the *Class Schedules* and *University Catalog*. The office is also responsible for the electronic degree audit program, graduate record processing, and for determining whether or not students have successfully met all degree requirements. Additionally, this office evaluates all transfer credit for undergraduate students to determine transferability as well as UW equivalents.

Transfer Success Center

Amanda Reeder, Director
Marian H. Rochelle Gateway Center, Tomé Student Admissions, Room 116
E-mail: transfer@uwyo.edu
Web site: www.uwyo.edu/transfer/

The Transfer Success Center provides assistance, referrals and advocacy to enhance transfer students opportunities for strong academic performance and smooth transition to the University of Wyoming. The office works closely with Undergraduate Admissions, the Office of the Registrar, Wyoming Community Colleges and out of state institutions to implement effective policies to streamline the transfer process. The office facilitates articulation efforts including programmatic articulation agreements and transfer planning guides. Additionally, the office provides student support services through peer mentors, the Reverse Transfer Program and Transfer Advance.

Global Engagement Office

(307) 307-766-3151
Web site: uwyo.edu/global

The Global Engagement Office (WyoGlobal) is the home of internationalization at the University of Wyoming. It includes the Vice Provost for Global Engagement, the Center for Global Studies, International Students & Scholars, Education Abroad, and the English Language Center. Whether recruiting and supporting international students, providing exchange and study abroad opportunities, facilitating global partnership development, coordinating immigration for new international hires, or assisting with visiting dignitaries, we support the entire UW campus community in achieving their internationalization goals. Stop by and visit us in the Cheney International Center to learn more about the programs and services we offer to the UW campus community to promote global citizenship, inform visitors, and communicate with our partner institutions abroad.

Education Abroad

(307) 766-3677
E-mail: uwyoabd@uwyo.edu
Web site: www.uwyo.edu/uwyoabroad

The Education Abroad Office connects students from all majors and programs with international study, exchange, service and internship opportunities on six of the seven continents at hundreds of locations around the globe. Students earn UW credit towards major, minor or general education requirements on academic year, semester, summer and faculty-directed short-term

programs. The Education Abroad Office is located on the first floor of the Cheney International Center. UW students with a minimum 2.750 GPA are eligible to apply to participate on a wide variety of credit-bearing programs outside of the U.S. The Education Abroad Office staff advises students individually to tailor the program to students' specific needs. Considerations are made for cost, financial aid opportunities, transfer of credit, health and safety, degree completion, country or region desired, and foreign language requirements.

UW students with a minimum 2.750 GPA are eligible to apply to participate on a wide variety of credit-bearing programs outside of the U.S. The Education Abroad Office staff advises students individually to tailor the program to students' specific needs. Considerations are made for cost, financial aid opportunities, transfer of credit, health and safety, degree completion, country or region desired, and foreign language requirements.

In addition to learning about other cultures in depth and perfecting language skills, studying abroad can be a life changing experience. Students return home with altered perspectives by developing flexibility and critical thinking skills. Students gain a greater sense of where they are from, what it is to be a citizen of the world, and what it is to be an individual. Studying abroad can help students clarify life and professional goals which leads to the development of greater direction, focus, and motivation for the remaining years of their university life and beyond.

English Language Center

Frederica Suess, Director

(307) 766-3630

Web site: www.uwyo.edu/study-iep-esl

Petra Heinz, Graduate ESL Coordinator

(307) 766-3606

Web site: www.uwyo.edu/study-iep-esl

The English Language Center serves second language English speakers across campus in credit bearing ESL courses, a full-time pre-college Intensive English Program, Visiting Scholar and International Graduate student support, and cultural training for International Teaching Assistants at UW. Through special programs with our partner schools, the ELC also provides short-term English language training courses and Wyoming study tours for international groups in the summer months.\

The English Language Center provides campus-based services and language support for all non-native speakers of English in the UW community. Our program offerings include: ESL credit courses for undergraduates continuing to improve their Academic English skills. A fulltime pre-college Intensive ESL Program to meet college admissions requirements. Orientations and TA training for international graduate students, and conversation hours and cultural support for Visiting Scholars. Custom short-programs and study tours are also available for academic departments and international partners.

International Students and Scholars

Jill Johnson, Associate Director of Admissions

Cheney International Center, Suite 5, (307) 766-5193

Web site: www.uwyo.edu/ISS

International students, numbering over 825 from nearly 90 countries, are a vital part of international education at the University of Wyoming. As such, International Students and Scholars (ISS) works to promote an interchange of ideas and understanding from among all of the countries represented on campus. ISS is responsible for recruitment of international students and provides advising and counseling to all international students/scholars for their academic, social, personal, and immigration concerns. The office also promotes and implements social and cultural activities for international awareness and educational exchange through International Education Week, Friendship Families, American Conversation Club, international coffee hours, and other special

programs. Many of these activities are coordinated through the ISS-sponsored International Resource Center in the Cheney International Center, Room 1.

International students and visitors are required to contact International Students and Scholars to confirm their arrival at the University of Wyoming and to consider the office their primary contact for further information and assistance. Students must be enrolled as full-time students each semester as required by the U.S. Citizenship and Immigration Services. The ISS e-mail address is uwglobal@uwyo.edu.

National Student Exchange: The University of Wyoming is a member of the National Student Exchange (NSE) consortium. Through NSE, students are provided an opportunity to attend one of more than 175 U.S. institutions in the NSE consortium. NSE offers a student the chance to live in another part of the United States and to travel and experience college life in different settings for an academic semester or a year under his or her normal UW tuition and fees. Financial aid is often available and academic credit is guaranteed to transfer back to UW.

For more information about the National Student Exchange, please contact International Students and Scholars, Cheney International Center, Suite 5 or call (307) 766-5193. The e-mail address is uwglobal@uwyo.edu.

Undergraduate Education

Steven Barrett, Associate Vice Provost
312 Old Main, (307) 766-2666
Web site: www.uwyo.edu/acadaffairs

Advising, Career, Exploratory Studies Center

Richard Miller, Acting Director
222 Knight Hall, (307) 766-2398
Web site: www.uwyo.edu/aces

The Advising, Career, Exploratory Studies Center (ACES) provides a variety of services to UW students, including advising Exploratory Studies and Bridge students; providing academic support to various populations of probationary, conditionally admitted, and reinstated students; assisting students campus-wide with their career exploration, planning, and job search needs; assisting in coordinating discussions, information dissemination, and event planning between the various professional advisors and advising offices on campus; and coordinating national tests and exams through the University Testing Center in Knight Hall, Room 4.

ACES is committed to providing a comprehensive and integrated service that moves a student along a continuum of receiving academic advising, exploring academic and career options, selecting a college major, and finally, implementing his/her degree in the world of work.

Exploratory Studies and students admitted with support, placed on probation, or reinstated to the university are highly encouraged to meet with a ACES career counselor. The purpose of this meeting is to analyze the student's past academic progress and future career goals to develop a strategic plan to maximize his/her academic success and future employment opportunities. ACES also works closely with other campus offices and departments to engage students in available study skill and tutorial resources.

Students interested in engaging in career exploration activities may make an appointment to meet with a career counselor to discuss their career goals and/or confirm their choice of major. Various assessment tools that provide feedback on the match between a student's interests or personality type and the world of work, are available. ACES career specialists provide information pertaining to a broad range of career fields, internship opportunities, specific employer information, general job search strategies, and federal government application processes.

Students are advised on how to use the HANDSHAKE platform on the ACES homepage to find out about and apply for summer, internship, and permanent job opportunities. Each year numerous employer representatives from business, industry, health care, education, and government visit ACES to interview students for these types of opportunities. All information pertaining to these visits is contained in the HANDSHAKE link on the ACES homepage.

The campus wide experiential learning program SOAR is coordinated in the ACES office. Students are advised how to contribute to and utilize their own personal profile to help better prepare them for career or graduate school.

ACES hosts numerous general and specialized job fairs each year for students and alumni. Upcoming job fair dates can be found on the ACES homepage.

The University Testing Center: The University Testing Center coordinates national tests and exams and is housed in the Knight Hall basement, Room 4. Students may register to take national tests and professional school entrance exams. Information is available on the University Testing Center web site www.uwyo.edu/UTC or by calling (307) 766-2188.

Learning Resource Network (LeaRN)

April Heaney, Director
105 Coe Library, (307)766-3448
Web site: www.uwyo.edu/learn

The Learning Resource Network (leaRN) offers first-year program, academic learning communities, and an umbrella of academic support initiatives for UW's entering and undergraduate students. The program's mission is to provide high-impact academic programs to increase the success and persistence of UW's undergraduates. LeaRN programs support access, academic achievement, and impactful teaching and mentoring within all programs.

First-Year Courses & Learning Communities

Summer and Fall Bridge: Bridge offers two first-year options that help entering and admitted with support students complete general education courses in a learning community structure. Bridge courses feature small class sizes, consistent support from ACES advisors, talented instructors, and connections with peer mentors. First-Year Interest Groups: Freshmen Interest Groups (FIGs) are living and learning communities through which students take 3-4 courses together in the Fall semester and live on the same residence hall floor. Faculty and FIG resident assistants work together to create enrichment opportunities, study and course review sessions, and campus/community engagement through the FIG experience.

First-Year Seminar: As a key piece of UW's general education program, First-Year Seminar courses integrate critical and creative thinking, democratic discussion, exploration of important contemporary issues, and research skills in a freshmen-level course. First-Year Experience course: The FYE course (STEP 1102) is an optional one-credit course designed to help freshmen interact with UW campus resources, staff, and faculty; to learn about tools for academic support and wellness; to explore academic and co-curricular opportunities; and to delve into major and career selection.

Academic Success and Recovery courses: Academic Success courses (STEP 1105) support first-year students with academic probation following Fall semester. The two-credit courses help students learn key skills for college success and evaluate their major, career, and life goals.

Academic Support Initiatives

The STEP Center offers in-person and online tutoring and supplemental instruction for 60+ courses at the 1000 and 2000 level. STEP also offers NetTutor, an online tutoring platform accessible all year to distance and campus students.

Early Alert: Early Alert is program that allows faculty to provide academic feedback on student performance during the 4th week of classes, before mid-term grades are assigned. Early Alert provides a glimpse of students' early-semester progress and multiple

avenues for
support in challenging courses.

First Gen Scholars: First Gen Scholars provides multiple resources and engagement opportunities for students whose parents have not earned a four-year degree. Participating students have access to peer and faculty mentoring, workshops and community building activities, scholarship opportunities, honors society membership-and many more support avenues.

PIE Award: The Promoting Intellectual Engagement (PIE) Award honors instructors who inspire excitement, inquiry, and autonomy in first-year courses. The award is co-sponsored by LeaRN, Ellbogen CTL, Residence Life & Dining, and Advising, Career, and Exploratory Studies.

LeaRN Faculty:

IRENE ENLOW, B.A., The University of Iowa 2019; M.A., The University of Wyoming 2021; Assistant Lecturer 2021.

ALLISON GERNANT, B.A. Grinnell College 1996; M.A. University of Wyoming 2005; Assistant Lecturer 2016; Fall Bridge First Year Seminar Coordinator & First Year Seminar Coordinator 2019.

SHELBY HUTSON, B.A. Colorado State University Pueblo 2016; M.A. University of Wyoming 2018; Assistant Lecturer 2018.

CATHERINE JOHNSON, B.A. Whittier College 2005; M.A. American University 2009; M.F.A. Portland State University 2017; Assistant Lecturer 2019.

ALYSSA KONESKO, B.A. Saginaw Valley State University 2008; M.Ed. Bowling Green State University 2011; Assistant Lecturer 2015.

SETH SWANNER, B.A. Birmingham-Southern College 2007; M.A. University of Alabama 2011; Ph.D. 2017 Northwestern University; Assistant Lecturer 2019.

Student Educational Opportunity (SEO)

Pilar Flores, Director

330 Knight Hall, (307) 766-6189

Web site: www.uwyo.edu/SEO

Student Educational Opportunity is composed of both on-campus and outreach projects with offices throughout Wyoming. These projects serve students who are first generation; income-eligible; students with cognitive, psychological or physical disabilities; ethnic minority students; and non-traditional students. SEO assists eligible students to plan and prepare for entry into higher education, succeed in the higher education environment, and graduate from college by providing academic success services, and instruction in basic skills, career, and personal development. All projects within SEO seek to increase the public awareness of the needs of ethnic minority, first generation, income-eligible students, and students with disabilities in an educational environment.

On-Campus Projects

McNair Scholars Program: The McNair Scholars Program prepares students to pursue doctoral level study. Services include intensive academic support including tutoring and academic counseling; activities related to successful application to graduate school and pursuit of financial aid opportunities; preparation for the GRE; and faculty mentoring. The capstone of the program is a paid summer research internship program which prepares students for admission to graduate level education. Students who are juniors and seniors, income-eligible and first generation college students, or who are from ethnic minority groups underrepresented in graduate education qualify for program services. The McNair Scholars Project is a federally funded TRIO project. Note: this is a graduate school preparation program; it is not a scholarship program.

Student Success Services: The Student Success Services (SSS) project offers academic support to students who are first generation college students, income-eligible, and/or individuals with disabilities. Student Success Services provides assistance with academics, personal/social choices, financial issues and pursuit of financial aid opportunities, and choice of college major and related career opportunities. The SSS project also provides its students with individual and group tutoring. All services are

free to eligible participants and services are intended to help students be successful in college and to stay in college through graduation. SSS is a federally funded TRIO project.

Outreach Projects

Educational Opportunity Center: The Educational Opportunity Center (EOC) assists first generation and income-eligible adults throughout Wyoming to continue their education. Services include assistance with college and financial aid applications, career and college exploration, and GED preparation. Outreach offices are located in Casper, Cheyenne, Ethete, Rock Springs, Powell, Riverton, Gillette, Torrington, and Laramie. EOC is a federally funded TRIO project.

GEAR-UP Wyoming: The Wyoming Statewide GEAR-UP project provides services to 2,000 income-eligible pre-college students throughout the state each year. Student services include career exploration, advising and supporting students in taking a college preparation curriculum, college preparation, ACT preparation, college exploration, application, and planning, and assistance with financial aid processes and procedures. Student services are provided through GEAR-UP coordinators located at each of Wyoming's seven community colleges. The GEAR-UP grant also works with the Wyoming Department of Education in providing teacher training and school improvement initiatives. All GEAR-UP services are aimed at increasing student academic preparation and performance levels suited for post-secondary education, rates of high school graduation, rates of post-secondary education participation and graduation, and GEAR-UP student and family knowledge of post-secondary education options, high school preparation needs, and means of financing.

Upward Bound Math/Science: The Upward Bound Math/Science Program (UBMS) provides services to income-eligible and first generation 9th through 12th grade high school students throughout Wyoming. UBMS is designed to generate the skills and motivation necessary to be successful in high school and to complete a college degree program in a math or science area. Assistance with high school coursework and tasks related to college enrollment are provided throughout the academic year. The UBMS program includes a six-week, residential, summer academic session on the UW campus with an intensified math and science curriculum that includes performing active research under the guidance of university staff and graduate students. UBMS is a federally funded TRIO project.

Upward Bound: The Upward Bound program works with income-eligible, first generation high school students (grades 9-12) and their families to help them gain the skills and motivation necessary to successfully complete high school and to pursue a college degree. The program includes a six-week, residential, summer academic component on the UW campus designed to help students develop academically and socially in a university setting. Tutorial and enrichment services are provided throughout the academic year and participants and their families receive individualized assistance in completing tasks related to successful college enrollment. Outreach offices are located in Albany, Fremont, Laramie, and Natrona counties. Upward Bound is a federally funded TRIO project.

Graduate Education

James C. Ahern, Vice Provost

(307) 766-4286

Web site: www.uwyo.edu/uwgrad

The Office of Graduate Education oversees and supports graduate and professional education at the university. In collaboration with Graduate Council, the Office of Graduate Education develops, reviews and implements policies and procedures regarding graduate and professional education and helps develop and review major changes to graduate and professional programs. The office also provides funding to programs and students including special initiatives, graduate assistantships, graduate fellowships and student travel. Furthermore, the Office of Graduate Education is the administrative home for interdisciplinary and transdisciplinary graduate programs.

Division of Student Affairs

- Campus Recreation

- Dean of Students Office
- Student Health Service
- University Counseling Center
- Residence Life & Dining Services
- Center for Student Involvement and Leadership (CSIL)

Kimberly Chestnut, Vice President

Ryan O'Neil, Dean of Students & Associate Vice President

Nycole Courtney, Dean of Student Success & Associate Vice President

Vice President For Student Affairs Office:

408 Old Main, (307) 766-5123, Fax: (307) 766-2696

The Division of Student Affairs is the administrative unit of the university that is responsible for providing leadership and coordination of programs and services designed to support student learning and development in and outside the classroom.

In partnership with UW faculty, staff, and students, the Division of Student Affairs develops and delivers services, programs, and facilities that promote the intellectual, personal, cultural, and civic development of students; coordinates efforts to create a caring community in which individuals are respected, encouraged to pursue excellence, and achieve their potential; and fosters honoring the diversity of individuals and cultures.

The Division of Student Affairs is comprised of the Associated Students of the University of Wyoming, Campus Recreation, Cowboy Parents Council, the Dean of Students Office, the Center for Student Involvement and Leadership, Student Health Service, Student Success and Graduation Hub, the University Counseling Center, Residence Life, the UW Alumni Association. The different areas within the Division work together to provide safe and comfortable housing; to provide wellness services for the health of students; to educate students and encourage personal accountability; to engage students in leadership opportunities; to provide educational and entertaining programs and events; and to foster opportunities for student feedback which is essential for a successful institution.

Campus Recreation

Pat Moran, Director

Half Acre Recreation and Wellness Center

Phone: (307) 766-5586

Web site: www.uwyo.edu/Rec

Our mission is to provide recreational and wellness opportunities to a diverse campus community that enhance the learning and workplace environment and promote mental and physical health via quality facilities, equipment, and programs. Our programs, which include the Wellness Center, Open Recreation, Intramural Sports, Club Sports, and the Outdoor Program, offer a broad range of coordinated activities for individuals and groups that promote health awareness, a sense of community and a lifelong appreciation for wellness and recreational activities. Supporting the value of student development, our programs strive to offer opportunities to students that develop leadership skills and promote responsibility while maintaining a balance between personal, professional, and academic pursuits.

Wellness Center

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-9355

An exciting new addition to the Campus Recreation Department, the UW Wellness Center is a network of people, programs, services, and policies that work together to create and support a culture of health and wellness at UW. The UW Wellness Center works collaboratively with various campus departments to provide education, services, and programs that address health needs such as stress relief, nutrition, fitness, mental health, sexual health, safety, and alcohol and tobacco use. Some of the Wellness Center offerings include: athletic training, massage therapy, personal training, sleep assessments, blood pressure checks, and weekly educational workshops. The Wellness Center is located in the southwest portion of Half Acre, in the "free zone," which does not require gym membership to access. The Wellness Center is open to students as well as members of the University community. Most offerings are free, however there are a few services that charge a competitive rate. Visit the Wellness Center to learn more about these programs and services aimed at improving your overall wellness.

Open Recreation

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-5586

The Open Recreation Program is housed primarily in the newly renovated Half Acre Recreation and Wellness Center with additional recreational opportunities in the Corbett building on the east campus. UW's Open Recreation Program, available to the entire student population, faculty, staff and spouses, provides quality equipment for individuals to participate in non-organized, informal activities such as basketball, volleyball, racquetball, or badminton. Patrons can also take advantage of swimming, weight training, aerobic training, personal training services, and group fitness and instructional classes. For more information on the Open Recreation Program, stop by the front desk in the lobby of Half Acre, pick up a Campus Recreation brochure, or visit the Campus Recreation website.

Intramural Sports

Half Acre Recreation and Wellness Center, Second Floor

Phone: (307) 766-4175

UW's Intramural Sports Program offers organized individual and team competitive sport events in men's, women's, and co-recreational leagues. Students and employees can participate in organized recreation level sport competition in approximately 30 activities per semester such as flag football, soccer, inner-tube water polo, wrestling, badminton, basketball, volleyball, or table tennis. Information is available from the Rec Sports Office or on the Campus Recreation website. Every member of the university community is encouraged to become familiar with the many aspects of intramural sports, which are designed to encourage participation and socialization regardless of previous experiences, sport skills, or group affiliation. Come alone or with a group to sign up for a fun time.

Club Sports

Half Acre Recreation and Wellness Center, Second Floor

Phone: (307) 766-4175

The Club Sports Program offers a higher level of athletic sport competition than Open Recreation and Intramural Sports to UW students. Some of the current UW Club Sport teams for men and women include badminton, baseball, volleyball, soccer, ice hockey, rugby, cycling, Nordic ski racing, lacrosse, softball, racquetball, fencing, cricket, water polo, tennis, triathlon and

equestrian. UW faculty or staff with an interest in coaching or officiating a Club Sport should contact the Rec Sports office. Visit our website for more information on Club Sport teams and activities.

Outdoor Program

Half Acre Recreation and Wellness Center, First Floor

Phone: (307) 766-2402

UW's Outdoor Program (OP) offers a variety of outdoor experiences as well as training to use the brand new indoor climbing and bouldering wall. Participants have opportunities to develop lifetime recreational skills, gain an appreciation and concern for our natural environment, and meet new people. The OP sponsors a variety of seasonal programs and outings throughout the year. These activities range from day and weekend trips to nearby destinations to extended trips at unique destinations. The OP also runs clinics and sponsors guest speakers, presentations, and other educational programs. Activities are offered for all skill levels through such venues as back country ski outings, trail running, snowshoe outings, back country hiking and camping trips, or rock climbing. The OP provides an extensive line of rental equipment to the campus community. The Outdoor Program staff is ready to expose the university community to a whole new realm of experiences not available anywhere else on campus. Visit the office or our website for more information on OP activities and services.

Dean of Students Office

Ryan O'Neil, Dean of Students

128 Knight Hall, (307) 766-3296

Web site: www.uwyo.edu/DOS

The Dean of Students Office (DOS) provides a variety of UW student support services. The staff in DOS work to enhance the quality of life for all UW students. Assistance with situational needs and student life concerns of individual students and groups of students regarding their personal, academic, and/or social welfare are coordinated by the DOS staff.

Several offices and programs comprise the Dean of Students Office. These include the Dean of Students, STOP Violence Program, welfare check, and Student Judicial Affairs, all located in Knight Hall. The Center for Student Involvement and Leadership (CSIL) is also under the Dean of Students and is primarily located in the Wyoming Union.

Services available through the Dean of Students Office include individual advisement and consultation regarding situational student life concerns; referral coordination with other university and community services; conflict resolution and consultation regarding student conduct, rights, and responsibilities; advisement in grievance procedures, due process, and student appeals of disputed decisions; official university withdrawals; and authorized absences and emergency contacts.

The professional staff provide direct assistance to students and groups at any time in the student's career at the university. Information, individual advisement and consultation, and assistance with administrative procedures are facilitated in the Knight Hall offices.

STOP Violence Program: The mission of the STOP Violence Program is to prevent domestic/relationship violence, sexual assault, and stalking on the campus of the University of Wyoming. Awareness and prevention efforts are provided by this office through outreach and educational activities. The coordinator works closely with the University Counseling Center (UCC), Campus Police (UWPD), Residence Life, and other offices to provide programs.

Another focus of the STOP Violence Program is to provide support and resources to students affected by violence. One resource is an on-campus advocate who can help a student access services through university departments and/or community agencies. Support is also offered by providing information to these students, their friends, and families, about the effects of domestic/relationship violence, stalking, or sexual assault. Walk-in hours are 10 a.m. to 4 p.m. weekdays, (307) 766-3296. For after hours emergencies, please call (307) 745-3556 (the Albany County Safe Project).

Student Conduct, Rights and Responsibilities: The Trustees, as a governing body of the university, are charged with the statutory duty and authority to make all rules and regulations including the administrative responsibility to regulate and control whatever conduct and behavior of the members of the university community impedes, obstructs, or threatens the achievement of the educational goals and mission of the university. The university community, in order to function in an orderly and creative manner, ascribes to a code of conduct to which the student must adhere. This information, entitled Student Code of Conduct, is distributed to each student who is granted admission to the university. This information and other university regulations are published in order to inform students of their rights and responsibilities and the minimum ethical standard of conduct expected of them as members of the university community. Additional copies of this information may be obtained at the Dean of Students Office or on the web.

Student Legal Services: Student Legal Services provides free, confidential legal assistance to the University of Wyoming student community through a full-time attorney. This office provides full legal service for any student need with the exception of in-court representation. The attorney can assist all fee-paying University of Wyoming students who seek advice in connection with personal legal issues. Information is readily available on a variety of subjects. This service is provided through student fees to ASUW, and there is no additional charge for the attorney's time. Student Legal Services also facilitates the effective and prompt handling of legal referrals, (307) 766-6347.

Disability Support Services: Disability Support Services (DSS) provides a variety of services for students with physical, sensory, cognitive, or psychological disabilities including printed materials in alternative format, note-taking assistance, classroom relocation, testing accommodations, access to adaptive computers, parking assistance, advocacy, sign language interpreters, real-time transcribing, mobility orientation for the blind, as well as other academic support services. UDSS assists UW to meet its legal and ethical obligations under Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990. Services are coordinated with the efforts of the Division of Vocational Rehabilitation and Wyoming Services for the Visually Impaired, when appropriate. Students with disabilities who anticipate needing accommodations to fully participate in classes and programs at the University of Wyoming are strongly encouraged to register with UDSS and provide documentation of their disability.

Student Health Service

Mary Beth Bender, FNP-C, Interim Director
Student Health Building, (307) 766-2130
