

2025 4-H Hippology Team Problem

You have **5** minutes to prepare and **10** minutes to write your response as a team (**15** minutes total)

Team Number: Teams should be IDed by numbers and not by county to make all teams ID anonymous to judges so no partiality could be shown.

Junior Team Problem

Pasture Management:

Your family has just moved to a new acreage with pasture for your horses. Unfortunately, the pasture needs help. There are weeds, batches, and a poor stand of grass.

1. What are the different things you need to take into consideration to bring this pasture back?
2. How could you accomplish these goals?
3. How would you maintain the pasture to prevent it from returning to the poor state it was in?
