

UNIVERSITY  
OF WYOMING

Center for Blockchain  
and Digital Innovation

# WYOMING BLOCKCHAIN STAMPEDE AND WYOBUILDATHON

*Sept. 16-20, 2024*

## ABOUT US

The Wyoming Blockchain Stampede comprises multiple free events, covering major blockchain themes such as, sources, impact, and implementation that look to unite worldwide participants with thought leaders, legislators, and changemakers at the forefront of major impacts to the world's future in blockchain technology.

## UW IS THE RIGHT PLACE

We at the University of Wyoming are ideally suited and uniquely positioned to make huge strides in bringing this future into reality—something we've been working toward for years.

- The Wyoming State Legislature has passed 30+ digital asset laws that address everything from banking and courts to smart contracts and payment processing, as well as tax exemptions for digital asset companies.
- The Wyoming Advanced Blockchain Laboratory is researching formal verification, smart contracts, and secure hardware related to real-world blockchain applications.
- The Cybersecurity Education and Research Center provides centralized resources to university, government, community, and industry partners in all aspects relating to cybersecurity.
- The Center for Blockchain and Digital Innovation is bringing together much of UW's efforts and propelling them forward.

## STAMPEDE SPONSORSHIPS

The Wyoming Blockchain Stampede is an incredible experience for stakeholders, state leaders, community members, industry partners, and sponsors alike. UW students have the opportunity to develop new technical skills, build something they're passionate about, meet other students and companies, and learn from some of the industry's best (i.e. you!). Serving as a sponsor for the Stampede provides individuals and companies with the opportunity to highlight your brand, reach a broad audience, and take advantage of strong networking opportunities.

	TITLE \$100,000	VISIONARY \$50,000	PRESENTER \$25,000	INVESTOR \$10,000	INNOVATOR \$5,000	BUILDER \$2,500
