## **CONTRACTS & GRANTS**

### **Funded Projects as PI or Co-PI**

2000 to present, A feasibility study of how to use state school lands to preserve open spaces, wildlife habitat, public access and agriculture, while increasing school revenues, Institute for Energy and Natural Resources, \$24,542.

1999 to present, A project to develop a framework for integrating economic and social impact analysis of public land policies, Co-PI with Tex Taylor, UW Agricultural Experiment Station, \$41,902.

1997, A Policy Center for Western Public Lands, Drs. Tom Harris and Allen Torrell (I am one of about 11 team members on this project); Fund for Rural America, USDA; \$25,000 funded to prepare an expanded proposal for \$1,000,000+ (see below).

1992-96, Development of Water Use Estimation Procedures and Management Option Simulations, Co-PI with T. Buchanan and Robert Reynolds, Jr., U.S. Geological Survey, \$124,766.

1991, Socioeconomic Component of an Environmental Analysis of the Proposed Expansion of Twin Lakes Reservoir. Sheridan County, Wyoming. Hayden-Wing Associates, \$21,000.

1990, Prepared social component of the EIS for the New Production Reactor. Argonne Laboratories, \$36,000.

1989, Prepared socioeconomic studies for county and state permits for open-cut gold mine expansion. Homestake Mining Corporation, \$35,000.

1989, Developed a Policy Analysis on Uncompensated Medical Care in Wyoming. State of Wyoming, Division of Health and Medical Services, \$21,000.

1988, Conducted an opinion survey of registered voters in the State of Wyoming. Survey results were used by the WEA to encourage legislators and legislative candidates to support certain education issues. Wyoming Education Association, \$18,000.

1988, Analysis of the primary and secondary socioeconomic effects on Lead, South Dakota as a result of expanding the Homestake open-cut gold mine. Homestake Mining Inc., Ltd., \$28,000.

1988, Assisted a candidate for the U.S. Senate to develop and staff his campaign organization. \$24,000.

1986-87, Subcontractor to Resource Planning Consultants, Austin Texas to do the social effects analysis of site characterization, construction, operation and decommissioning of a high-level nuclear waste repository. \$600,000.

1985, Socioeconomic monitoring project for construction of a fertilizer plant. Chevron Chemical Corporation, \$120,000.

1985, Review social impact assessment for a major gas processing plant and develop a mitigation plan. School District No. 2, Sweetwater County, Wyoming, \$35,000.

1983, Social assessment for a proposed solid waste disposal system. Teton County, Wyoming, \$9,900.

1982, Study the social effects of the federal coal management program in the West, and preparation of a guidebook to do social assessments. U.S. Department of the Interior, Bureau of Land Management, \$157,500.

1982, A socioeconomic assessment for commercial-sized shale oil facility in Utah. Magic Circle Energy Corporation, \$73,114.

1982, The socioeconomic assessment portion of a Wyoming Industrial Siting Council application to build a coal-to-gasoline processing plant. Hampshire Energy, \$341,200.

1982, Brown et al. v. Thompson et al., analysis of the social effects of implementing the "one-man one-vote" rule. Wyoming Attorney General, \$6,500.

1980, Central Arizona Water Control Study, social assessment team. Bureau of Reclamation, \$25,000.

1980, A socioeconomic assessment of the Cache Creek drilling site. Old West Regional Commission, \$55,300.

1980, A socioeconomic assessment of the Rojo Caballo Mine. Old West Regional Commission, \$36,400.

1979-84, A theoretically informed analysis of social change. United States Geological Survey, \$55,000.

1979, A socioeconomic assessment of the North Antelope Mine. Old West Regional Commission, \$29,000.

1979, Socioeconomic mitigation program in Wyoming and Utah. Office of Technology Assessment, \$12,200.

1979, A socioeconomic assessment and monitoring program for a coal strip mine. Northern Energy Resources Company, \$155,800.

1979, A socioeconomic assessment of the effects of a proposed coal slurry pipeline. Texas Eastern Transmission Association, \$3,000.

1978, Capital facilities impact planning study, Sheridan County, Wyoming. Old West Regional Commission, \$25,000.

1978, Social impact assessment of Sheridan County, Wyoming. U.S. Geological Survey, \$14,000.

1977, Pilot study for testing health needs assessment methodology. Rocky Mountain Institute for Energy and Environment, \$7,000.

1976, A longitudinal socioeconomic impact monitoring study. Old West Regional Commission, \$88,000.

1975, Social impact assessment of the proposed Laramie River Station. Missouri Basin Power Project, \$74,000.

1974, A social impact study of coal development in Campbell County, Wyoming. Atlantic Richfield Company, \$25,000.

1973, Doctoral research grant in conservation. National Wildlife Federation, \$1,200.

### **Funded Projects as Co-PI**

1993, Proposal Development Grant to Develop Proposal for NSF, NIMH and Department of Agriculture to Conduct Longitudinal Study of Western Boomtowns, with Rick Krannich, Western Region Rural Development Center, \$2,500.

1988, Economic Analysis of the Midwest/Edgerton water supply project. Wyoming Water Development Commission, \$12,000.

1988, Analysis of recreation changes on the Gunnison River due to the Uncompahgre River Hydro-Project. HDR Engineering, \$14,600.

1985, Economic analysis of proposed hazardous waste regulations for Wyoming small quantity hazardous waste generators. Wyoming Department of Environmental Quality, \$30,000.

1985, Economic analysis of agricultural ability-to-pay for a transbasin diversion of water from the North Platte River. Big Blue Natural Resources District, Nebraska, \$60,000.

1985, Survey and economic analysis of changes to the Fishing Bridge campground facilities. Yellowstone National Park, \$24,000.

1984, Deer Creek Water Development Project, preparation of cost-benefit and agricultural ability-to-pay analysis. Wyoming Water Development Commission, \$30,900.

1983, A socioeconomic assessment of three proposed gas processing plants. Bureau of Land Management, \$142,800.

1981, Design and implement a socioeconomic monitoring program for a nuclear generating facility. Washington Public Power and Supply, \$102,500.

1981, A socioeconomic facility siting study to help select a suitable site for a major coal-processing facility. Mobil Oil Corporation, \$115,000.

1979, A supplemental socioeconomic assessment of the East Gillette Mine. Old West Regional Commission, \$11,900.

1978, Interdisciplinary study of coal transportation technologies. National Science Foundation, \$11,000.

1977, Environmental impact assessment of oil shale and tar sands activities--socioeconomic section. Laramie Energy Research Center and Rocky Mountain Institute for Energy and Environment, \$16,000.

### **Rejected Proposals as Principal or Co-Principal Investigator**

1999-2001. Revised and resubmitted the NRI proposal, "A Framework for Integrating Social and Economic Analysis of Public Land Policies," James G. Thompson and David Taylor, NRI, USDA; \$190,891.

1998-2000. "A Framework for Integrating Social and Economic Analysis of Public Land Policy"; James G. Thompson and David Taylor; NRI, USDA; \$283,528.

1998-2000. "A Policy Center for Western Public Lands," Drs. Tom Harris and Allen Torrell (Again I am one of core team members from 5 western states); Fund For Rural America, USDA; \$1,000,000+ per year.

1997, "A Framework for Integrating Social and Economic Analysis of Public Land Policy"; Russ Youmans, James G. Thompson and Allen Torrell—through the Western Rural development Center; NRI, USDA; \$283,528; resubmitted with revisions in Dec., 1997.

1997, "Applying Impact Assessment and Collaborative Planning to Public Lands Policy"; James G. Thompson and David T. Taylor; Fund for rural America, USDA; \$594,623; may be resubmitted in 1998.

1997, "A Pilot Project to Investigate ways to Compensate Agricultural Operators for Impacts Related To Wildlife," James G. Thompson and Clynn Phillips; Wyoming State Grazing Board; may be resubmitted in 1998.

1993, "Human Activities as Change Agents: Water Use in Salinas Valley, CA." Proposal submitted to National Geographic Society, Geography of Fresh Water Initiative, \$20,112.

1993, "Land Use Conflicts, Public Involvement and Conflict Management," Basic Research Grant, College of Arts & Sciences, \$2,650.
