Guide to the  
General Electric Collection

Accession # 1352

Copy

MEMO:

This collection could and should be done quickly, simply to reflect that we do have annual reports for 1937, 1938, 1939, 1941, 1942, 1943, 1944, 1945, 1946, 1947, 1948, 1949, 1950, 1951, 1952, 1953, 1954, and then list the additional materials still ~~XXXX~~ there. When Let's check the card index to see that we have this entered under:

Business History, General Electric, General Electric-Annual Reports, at least.

[The whole job, to do this correctly, should not take more than a couple of hours./cgr/8-11-1973]
