EDGAR BUCKINGHAM COLLECTION

RECEIPT for gift received of Mrs. F.V. Hunt:

PUBLICATIONS:

Buckingham, Edgar. "Note on the Radiation Formulas and on the Principles of Thermometry," reprinted from the Monthly Weather Review, April, 1903.

Box 1  
\_\_\_\_\_. "Studies on the Movement of Soil Moisture," Washington: Bureau of Soils, 1907. (3)

\_\_\_\_\_. "The Settling of Suspensions," Ninth General Meeting of the American Electrochemical Society, Oithaca, New York, May, 1906. (4)

\_\_\_\_\_. "Contributions to our Knowledge of the Aeration of Soils," Washington: Bureau of Soils, 1904. (3)

\_\_\_\_\_. "Methods of Soil Hygrometry," reprinted from the Physical Review, Vol. XXII, No. 4, April, 1906.

MISCEALANEOUS:

Seventeen envelopes filled with notes cards and references on articles and information concerning colloids.

Seven pages of handwritten scientific formulas, such as wave mechanics and magnetic induction.

A list of references on ventilation of soils.

A list of references on diffusion and transpiration.

(Signed)
