

American Heritage Center

*Union Pacific Historical Society Collection, Accession Number: 10713.2001-01-10
Container List, Boxes 1-220*

#1, Folded diagrams with: mostly of sleepers, 3-negatives of sleepers (color) "checking on notching", 2-color plan sample folder; Dating 1949-1950

#2, Folded diagrams with: Samples of hand rest cover for chairs in passenger train, Samples of fireproof color aluminum (Top side of vest curtains), Leather bond (Index orders mostly empty), Pullmans specification for 50 chair cars, P.S.C.M. Co. purchase orders, (booklet), Photographs, P.S.C.M. Co. Process specs inspection and accept test "booklet", Green Pullman-standard car manufacturing company.

#3, Folded diagrams with: Vapor car heating, Westing House air, Timken Roller Bearing Company, U.S. plywood corp., U.S. Steel company, National Brake Company, National Pneumatic (Sliding doors), Nooter Corp. (Water Tanks),

#4, Folded diagrams with: General steel casting, Hyatt "J" boxes, Peacock brake, Portal storage, Baggage.

#5, Folded diagrams with: Pullman car works, orders, logs, Interior color scheme, paper and copies.

#6, Folded diagrams in envelopes: Dated early 1940s, Faucet, Ceiling, Fuel system, Engine.

#7, Engine maintenance Manuals, Proceedings for 45th annual business meeting "1974", Field manuals for AAR interchange rules "1970-1972, Inspection and selection of box cars, ACI carrier conversion table.

#8, Seat for the largest railroad, Manuel of Honeywell piping system and Photographs, Good year Industrial Rubber maintenance Manuel, Handbooks and manuals, More freight diagrams.

#9, Manuals on general specifications #438-439 (1961), Order and delivery Schedule by "Pullmans car works" "purchase orders" More folded diagrams, Budd chairs.

#10, Folded diagrams in envelopes: "mostly blue prints" which have to do with inside the inside of the train, sleepers, heating, lighting, smoking stand, mirror lights, etc.

#11, Folded diagrams some with correspondence of specification or research results, specification book with photographs and drawings of a Tank car propane vaporizer, Research project w/ pictures of propane gas project.

#12, Folded diagrams with use instruction manuals, Locomotive gas turban feasibility study, Propane Burning ledger, Photographs 4x5 and 8x10s, "Mailgrams, modifications, telegrams, and

correspondence". Requisitions, safety orders, Supplement report with photographs in it, power manual.

#13, Power transmission design magazines, "1961 June 1965 and Dec 1966".

#14, Power transmission design magazines, July 1965 – Dec. 1966, GM Locomotive replacement UPR notebook (green) and folded diagrams.

#15-19, Folded diagrams without envelopes.

#20, Folded diagrams without envelopes, Engine equipment 8289225 series, Electro-Motive Division (EDM).

#21, Folded diagrams without envelopes.

#22, Folded diagrams

#23, Folded diagrams with envelopes, "1947" Note that these are duplicates and are not microfilm, of heating units and car sleepers.

#24-25, Service bulletins with "Lots of copies"

#26-30, Folded diagrams with envelopes and all have some kind of correspondence on committee membership and the different committees.

#31 Catalogues, Stainless steel samples, research results and books.

#32, Folded diagrams in envelopes and with out envelopes, specifications of new passenger train cars on order.

#33, Folded diagrams in envelopes some with correspondence, manuals with correspondence, maintenance instruction.

#34, Folded diagrams in envelopes with correspondence.

#35, Folded diagrams in envelopes.

#36, EDM General service bulletins, orders waiting for approval, Reference pamphlets, maintenance instructions, supplement pager pertaining to revisions to various content.

#37, Folded diagrams without envelopes (Date, 1959)

#38, Folded diagrams in envelopes (Dates, 1958-1959)

#39, Folded diagrams in envelopes, Diagrams on mail cars. Delivery schedules of replacement parts (Dates, 1940-1941)

#40, Folded diagrams in envelopes, Passenger cars and sleepers with specifications form budd, 12 photographs of the sleepers (enclosed in the envelope of budd camp.

#41-43, Folded diagrams in envelopes (Dates, 1960,1949-1950) Samples of headrest covers.

#44, Diagrams in envelopes with correspondence, manuals notes and mailgrams, Summary of temperature and fuel records note on gal tender conversion

#45, Folded diagrams in envelopes on heating units and car sleepers

#46, Specifications and setting-up instructions

#47, Specification and order in envelopes

#48, Folded diagrams in envelopes with duplications and correspondence.

#49, Purchase and work orders, mailgrams and diagrams in envelopes, specifications.

#50, Folded diagrams in envelopes, some with modification instruction, duplications and correspondence.

#51, EDM specifications and orders, specifications, publications with some copies

#52-53, Folded Diagrams in envelopes with correspondence like setting up inst and purchase orders.

#54, Folded diagrams in envelopes, sample =aluminum tread plate (Dated 1955)

#56, Folded diagrams in envelopes with field test instructions, replacement instructions, change orders and modification instructions.

#57, Folded diagrams in envelopes with gas turban electric locomotive, study to eliminate steam generator.

#58, Folded diagrams in envelopes with instruction manuals, diagrams with correspondence, brake shoe proposal, manuals, modification, Photographs of air compressor up loader.

#59, Folded diagrams in envelopes with distributions of literature, GE specification and technical informational series with diagrams,

#60, Factory test results manuals of locomotive gas turbine (Dates1952), shop manuals, fule system, renewal parts catalog.

#61, Approved supplies list, Information divided by index tabs, with general conditions pages 1-2, paint specks pages 15-30, etc.

#62-69, Folded print diagrams with out envelopes, (80855-8114067)

#70, Filing cabinet (L-Z), Official railroad guide, equipment register, freight car design data, Alphabetical index for car projects, publications, reports w photographs (wheels), test results

#71, Folded diagrams in envelopes and without envelopes, weight cards of Derricks snowplow, Photographs coupler and yoke with water tank (3) Dates 1953

#72, Folded diagrams in envelopes with reports of development and operations, group order modifications, Photographs of worn compressor blading, negatives Kodak safety film, (10)

#73, Folded diagrams in envelopes with reports of care and use, snowplow photographs, work equipment, more crane photographs with diagrams with envelopes.

#74, Diagrams with and without envelopes, Pennsylvania wrecking derricks, Photographs of gantry crane plus negatives=may be "diacetate" (needs to be remove from collection and put in cold storage)

#75, Failure of diesel wheel with committee meeting notes, safety rules for diesel units, equipment reports "some with diagrams",

#76, Folded diagrams in envelopes with condition reports and modifications, photographs of streamline lining 2906 (dating 1937), More photographs of misc. and rail cleaner. Map of Cheyenne and Council Bluffs tracks Dating 1922-1931.

#77, Folded diagrams in envelopes with change orders. Welding methods (originals) "Folio snowplow 1963", test results with modifications, photographs of snowplow and of coal burner comb. Gas turbin magazine, recommendation for improvement 7000hp locomotives

#78, Developments and operations, Instruction letter's- (In Chronological order)

#79, Folded diagrams in envelopes with condition reports and modifications, Misc. photographs (in sections) Fuel = (coal fuel tank), work items = (repairs and inspections), dating 1963

#80, Folded diagrams in envelopes with condition reports and modifications, development and operations, Photographs "LOT"

#81, Manuals, development and operations, modification orders with diagrams

#82, Folded diagrams in envelopes, Dates 1958-1959, and hand drawn sketches, Development and operations, photographs of collapsed air inlet silencer plus summary of why it collapsed with modification summaries.

#83, Folded diagrams with and without envelopes
GTEL, conferences memoranda in envelopes (with extra copies),

Omaha, conferences memoranda in envelopes (with extra copies), Material specifications,
#84, GEX-7135 (memorandum of shipment), Lever setting diagrams with extra copies, "Note that this box has plenty of copies of everything"
#85, Folded diagrams with envelopes, Photographs of oil gear probes with negatives, "3 negatives =Kodak safety film 417.+ , plus more photographs, development and operations with group orders
#86-87, Folded diagrams with envelopes, development and operations with group orders
#88, Folded diagrams with envelopes, development and operations with group orders, 94 photographs with copies,
#89, Folded diagrams with envelopes, development and operations with group orders
#90, Folded diagrams with envelopes, development and operations with group orders, 107 failed bolster photographs with lots of copies, plus photographs of failed Morflex air compressor with copies.
#91, Folded diagrams with envelopes, development and operations with group orders
#92-95, Folded diagrams with envelopes, development and operations with group orders
#96, Folded diagrams without envelopes, demonstration results and proposal with specifications on locomotive
#97, Folded diagrams in envelopes with specifications, design improvements manuals
#98-99, General committee minutes
#100, Manuals and parts catalogs
#101, Folded diagrams with envelopes
#102, Committee notes on freight and passenger car construction, Dating 19770
#103, Parts catalogs A-J, Guides, photographs in journal bearings (no copies)
#104, Folded diagrams with envelopes
#105, Car construction committee minutes,
#106, Fright car diagram book# 16, specifications for tank cars
#107, didn't give it a number

- #108, Car construction committee “agendas” subcommittees organized by years
- #109, Evaluations of structure, information on college course offered at Washington Univ. in St Louis, committee information and minutes
- #110, Folded diagrams with envelopes, photographs with copies
- #111, Bulletins in envelopes of folders in numerical order “lot of copies”
- #112, Bulletins in envelopes, instructions leaflets, replacement manuals sheets
- #113, didn’t give it a number
- #114, C-S clearance diagrams for tunnels, information folder with photograph
- #115, Folded diagrams without envelopes
- #116-117, Folded diagrams with envelopes
- #118, Folded diagrams without envelopes
- #119, Folded diagrams with and without envelopes and service manuals
- #120-121, Folded diagrams with envelopes
- #122, File folders with book pages in them, (Alco products issued in 1958)
- #123, Folded diagrams without envelopes, 4-Alco instructions manuals for diesel – locomotive
- #124, Folded diagrams with envelopes No correspondence in them
- #125, didn’t number box
- #126, Diagram with and without envelopes
- #127, Diagram with and without envelopes, no correspondence in them, “mostly brake arrangements”
- #128, Diagrams without envelopes, no Correspondence in them.
- #129, Change notice, Core maintenance pages in individuals’ folders, and literature
- #130, Literature, change notice to service bulletins w/some correspondences
- #131- 132, Diagrams without envelopes,

- #133, (There are two boxes numbered 133), two pictures of Buffer, and group orders 8-15.
- #134-136, Diagrams without envelopes, 10 pictures, Group orders 1-30, & 16-31,
- #137-139, Diagrams with envelopes, Group orders, 32-42, 2-7, and 1-7, Photographs with copies
34 total
- #140-142, Diagrams with envelopes, group orders 8-15, 16-31, and 72,94
- #143-144, Diagrams without envelopes (EDM prints)
- #145-154, EDM diagrams with out envelopes
- #155, Diagrams with envelopes "Gas turbine electric", Group orders/specifications
- #156, Diagrams with envelopes, group orders w specifications and test result.
- #157, Didn't get numbered
- #158, Diagrams with envelopes, photographs with copies of motor support
- #159-160, File folders, (Can not see any ordering system), Specifications, purchase orders with correspondences, modification with work orders, some with diagrams
- #161, Rock Island files (RI),
Testimony of D.S. Neuhart (Black notebook),
Testimony of Bailey, Forbes May 15 copy of Not so small cloud article, report of economics of proposed acquisition of S. Segment of R.I. with map- southern and northern section, Valuation report of RI and UP, and RI and UP merger Vol. 1 and 2
- #162, Blue notebook Ve Fac programming management workshop north Platt telegraph "paper"
April 22 1971,
Color framed 8x10 photograph, WDT retirement. Atomic power locomotive regulations,
newspaper clippings of car department officers, and association proceedings 1958-1972
- #163, Annual reports with pictures and negatives, (color and black and white) "Fading in need of proper care", statistics for car building and car repairing, 1940-1957, High-speed tracking test
Automatic car identification evaluation study
- #164, 1970 program papers, file folders research and specifications
- #165, Rock Island diagrams, RI records of shop an power plant machinery, Facility reports, RI photographs, St. Louis (color and black and white) "colors are fading",
Kansas City, Silvis, Herington, Topeka Little Rock, Dallas Fort Worth, Teague

#166, Rock Island facility report,
Photographs of Oklahoma City, Enid, Oklahoma, Reno, Liberal, Tucumcari, Amarillo, Denver,
Council Bluffs, Goodland, Inver Grove Des Moines, Cedar Rapids, La Salle Illinois, Peoria,
Ottawa, Joliet, Chicago-12th St., Chicago 47th St., South Chicago, Blue Island

#167, Inspection Sheets, Rock Island lines freight car data, Agreements between RR and
employees (2), Work sheets 1975 RI study, RI study worksheets

#168, Rock Island study worksheets, Inspection sheets for RI

#169, Photographs with negatives and copies
Diagrams with envelopes, metal gasket

#170, Folded diagrams with envelopes and correspondence

#171, GEI replacement pages with copies

#172, Folded Diagrams with envelopes correspondence and photographs

#173, Book insert by page number with several copies, EDM maintenance instruction

#174, Books of American Railway engineering association Vol. 57-61 (1957-1960)
Code of Federal regulations (CFR) 4-soft covers
7-American railway associations – Bulletins

#175, Cost analysis, salary administration polices and procedures manual, chemical
transportation safety index

#176, 1975 Rock Island study, Negatives, Telephone directory, CPI & P merger, newspaper
clipping on RI

#177, 1975 Rock Island study (blue notebooks), Annual reports, little memo notebooks, state and
city maps, photographs and negatives

#178, 5-year improvement program for Rock Island merger, little brown field notes, weekly
progress reports. RI freight car tally sheets

#179, Interstate commerce commission, analysis of conditions, worksheets

#180, Testimony of specific witness and RI witnesses (big black notebook)

#181, Rock Island files, Diagrams of automotive equipment and passenger cars, merger
references manual, cross examination questions D. S. Neuhart, Interstate commerce commission
agreement between Chicago, Rock Island and Pacific RR company (System Federation) List of
stations time table

#182, Converts to GTE tenders: See detail list on "C drive-contents of UP Cab 32 drawer #32 #3 doc." Freight boxcar conversions, Report of committee on inspections, Etc.

#183, Diagrams with envelopes and without envelopes, General steel casting corp. with pictures, Fabreeka units and pads with technical data, Strength requirement of new rail way = post office car specification

#184, Boiler information, Sleeper information with photographs is in folders, Boiler repairs correspondence

#185, Old stationary boiler, official copy calculations of 3rd and 4th trains, stress calculations, rules governing duties, boiler data

#186, General mechanical engineer, EDM MI's, Electro-motive Corp. La Grange Illinois 1963 with copies,

#187, General mechanical engineer, EDM pointers bulletins with lots of copies

#188, General mechanical engineer, EDM pointers bulletins with lots of copies

#189, EDM MI's, Maintenance instructions number orders, with lots of copies

#190, EDM MI's, Maintenance instructions, with lots of copies

#191, Blank, Photographs taken at SL blow-ups Publications, reports and data

#192, Blank, GTE locomotives, flow diagrams

#193, Blank, Diagrams with and with out envelopes, cooper Bessemer, engine maintenance manual, compressed air publications, by months and years

#194, Diagrams with our envelopes, EDM prints

#195, G.T.E.L. Prints, Diagrams with and without envelopes, span bolster diagrams, metal engine start procedure

#196, Electro- motive prints, Diagrams without envelopes

#197, Air horn check valves, Westing house brake diagrams plans

#198-199, HHM, committee on brake and brake equipment minutes

#200, HHM, Diagrams with envelopes, Westing house (air brake division) Cost, service, bulletins

#201, HHM, Passenger freight, summary of reports

#202, Diagrams with envelopes, development and operations with photographs with copies

#203, Cab signal equipment with photographs, Requisitions, test equipment, Photographs in brown folder”

#204, Diagrams with and with out envelopes, Photographs, requisition, maps of eastern district branch lines, union code dab signaling

#205, Blank, Diagrams with envelopes and modifications, photographs with copies

#206, Maintenance instruction bulletins with many copies, pages 20037-5528

#207-213, Maintenance instruction bulletins with many copies

#214-219, Diagrams without envelopes

#220, Service manual replacement sheets, Supplement # 190 to catalog 190, with part change orders and lots of copies
