Developing Air/Space Force leaders of tomorrow since 1952

Detachment 940 has steadily built upon its premier educational program to commission some of America’s highest quality Air/Space Force officers. University of Wyoming’s unique AFROTC environment provides cadets with intense training, challenging coursework, and normal university life to instill values of integrity, service before self, and excellence in character.

Cadets in this leading institution come from across the country. Each year, Detachment 940 enrolls a diverse freshman class of approximately 20-30 cadets. The total number of cadets enrolled can vary, but typically sits at approximately 60. Cadets come from a variety of economic, social, and cultural backgrounds and represent a wide range of academic and career interests in air, space, and cyber-space.

Military Commitment

Most Air Force Specialty Codes (AFSC): 4 years
