#### JUSTIFICATION FOR SENATE BILL #1245

Many students actively devote time, energy and concern to numerous activities with no compensation. In addition, many of these people are unable to obtain financial aid, due to various restrictions and barriers concerning financial situations of their parents or themselves. Since many of the financial awards currently given stress active involvement, it would be a justifiable financial award.

In addition, this type of award would serve to encourage a more active campus, in terms of student involvement in activities.
